Can Kenya Rival California?
An old settler asks

High on the Muu Hills one of Kenya's veteran settlers sees one way of bringing the 'right type of man' to the Colony—the establishment of fruit farms. He is James Langridge, who, at 78, has been growing fruit for nearly 50 years and who here tells his story and ambitions—to a 'Standard' Staff reporter.

That old-fashioned man, James Langridge, who has been growing fruit for nearly 50 years, is one of the few who have remained in Kenya since the days of the British East Africa Company. He is now 78 years old, and has been growing fruit for nearly 50 years. He is one of the few who have remained in Kenya since the days of the British East Africa Company.

**T**oday, we say, "Put wings on your fingers with Haldé"— famous slogan for a famous typewriter. Every Haldé types a letter just as fine as Copperplate, but in clear, crisp, modern style and many, many times faster and more efficiently.

Tedious typing on a Haldé is unheard of. That rhythmic "feather-touch" imprints the clear, delicate characters of the Haldé to make the typed word a pleasure to read. Try a Haldé and you will understand why we dare to compare its delicate simple action, and resultant clarity, with an almost extinct art.

# A SAFARI IN NORTH NYANZA

## 4. Personality and Prejudice

As I have seen, the battle in which the British Government is engaged is being waged between the forces of prejudice and the forces of enlightenment. It is in fact, almost a struggle between personality and prejudice—personality expressed through education, and prejudice expressed through the traditional forces of authority. The forces of authority, which are the forces of prejudice, are the forces of the past. They are the forces of the past, because the prejudices of the past are the prejudices of the present. They are the prejudices of the past, because the prejudices of the present are the prejudices of the past.

At this, the concluding article of his series of four on North Nyanza, GRANVILLE ROBERTS, discusses the problems of projecting personality into the institutions which are brought to bear on the prejudices which hamper progress.

It is the main object of the first article to show that the institutions which are brought to bear on the prejudices which hamper progress are the institutions which are brought to bear on the prejudices which hamper progress.
