## TWO BRITISH OBSERVERS GO HOME IN SILENCE

*Buchananland still encl...*

TWO of the three British observers went to Buchananland on Monday morning on a flying visit to London yesterday on speaking terms. They were Mr. James Buchanan, Conservative Member of Parliament, and Mr. Gordon Buchanan, Special Air Services pilot and Trades Union Congress.

They arrived in London Airport after a flight from Johannesburg delayed for 18 hours by a storm which hit the east coast of the British Isles.

Mr. Buchanan said he had a "very good" time in Buchananland. He said he was "impressed" by the "very high standard of living" and the "very high standard of education" in Buchananland.

# STRAIN OF FIVE MATCHES A WEEK

Football's busy period affects form

EVERY day between August 19 and September 29—Sunday and Monday—England's football clubs are playing in the Football League. During these weeks most clubs will wipe off 12 of their fixtures. It is a terrific strain for players, especially if the weather is at all summer-like, and form is apt to be variable.

Most of the matches on the coast.

Saturday's games always draw the biggest crowds. For the matches to be played today there are few who are watching might go through the season's busy period. It is a busy time for the players, but it is also a time when they will be fit to play on Sunday. The fact that the weather is at all summer-like is a bonus for the players, but it is also a strain on them. #### Broadcast talk on the Newer Islands

Mr. Compton Mackenzie, a well-known author, has been invited to give a broadcast talk on the Newer Islands, a group of islands in the Pacific Ocean, which are being converted to Christianity by the Roman Catholic missionaries.

Only a few of the islands have been visited by the missionaries, but the talk will describe the progress of the mission and the life of the people on the islands.

Mr. Mackenzie will also discuss the history of the islands and the work of the missionaries in converting the people to Christianity.

### Russia takes note of the oil dispute

As the Persian crisis approaches its climax, Russia is taking note of the oil dispute between the British and the Persians. Russia is concerned about the oil supply to its own industry and the possibility of a British monopoly over the oil supply to the East.

Russia is also concerned about the possibility of a British monopoly over the oil supply to the East, which would give the British a powerful weapon in their hands.

## KENYA'S DOLLAR ALLOCATION FOR CERTAIN VEHICLES ONLY

THE allocation of over 500,000 dollars for the purchase of 300 American motor vehicles due to arrive in Kenya in October, which was announced by the Kenya Government in July, is now expected for the importation of the heaviest type of passenger cars of over 2,000 lbs. This has been made clear in Nairobi by Mr. J. B. Martin, representative to the Middle East and East Africa of the Society of Motor Manufacturers and Traders Ltd., who is in charge of the motor vehicle importation.

The allocation of the dollar is for the purchase of motor vehicles only. Study of documents issued by the Motor Vehicle Importation Committee indicates that the heaviest type of motor vehicle to be imported will be the 1948 Chevrolet and that the vehicles will be imported under the Government's licence system. This is a Government licence system which allows a certain number of motor vehicles to be imported into Kenya for sale to the public. ## AFRICAN DEFENCE FACILITIES TALKS END IN UNANIMITY

Discussions held since the beginning of the year on the subject of African defence facilities, which have now ended in unanimity, have resulted in a decision to set up a committee to consider the question of defence facilities for Africa.

The committee, which will be headed by the Secretary of State, is expected to report to the Home Office in the course of the next few months. It will be the first of a series of committees to be set up to consider the needs of the African colonies.

The discussions were held at a series of meetings in London, and were attended by representatives from the various African territories. The main points discussed were the need for a unified defence system for Africa, and the importance of strengthening the defences of the continent.

The committee will also be concerned with the question of the supply of arms and equipment to the African territories, and will report on the best ways of procuring these supplies.

The decision to set up the committee was made by a unanimous vote of the Home Office, and is a clear indication of the Government's commitment to the development of African defence facilities.

# VARSITY'S FINAL MATCHES OF TOUR

### At African Stadium today and tomorrow

THE last two games of the London University football tour take place at the African Stadium this weekend. Today they play the Kenya F.A. in the deciding match of the rubber, and tomorrow they meet an African side, which should provide hard struggle for victory.

The 50 members of the team return to London by the 10.30 Monday.

## Africans never gave up against University

The visitors seemed to take in the City's defensive. They have scored 12 goals, but have conceded 10. Today they put another 12 on the board, but were held to a 2-2 draw. The team will be all out to win tomorrow, but will have to be content with a draw.

## Students' dear Professor

A LUTHERAN University African has a grudge to hold on Thursday evening's final, and leave things all quiet on the night. Africans gave them a good run for their money.

There was a first-rate shock at the African Stadium on Thursday evening when the London University team, who were expected to win, were held to a 2-2 draw.

# THREE SHARE LEAD IN LOTUS' GOLF TOURNAY

Dai Ree's failure the big surprise

AFTER two rounds of the Lotus 1200 professional golf tournament, being played over the Shaurimoo course at Bulawayo, the lead was shared by three players—all with 63 holes.

The three were Bobby Adair of South Africa, a former British Open champion, Davie Brown of Scotland, and Dai Ree of the Open in 1950, and W. C. A. Hancock, a young foreigner who has a complete record of 63 holes.

The danger of 'narrow' development

THE Economic Commission for Africa, in its report on the development of Kenya, has warned against a 'narrow' development of the country. It states that Kenya has a rich natural resource base, but that its development has been too narrow, being based almost entirely on agriculture. The Commission recommends that Kenya should diversify its economy, particularly in the areas of manufacturing and services. It also stresses the importance of human resources development and the need for a more balanced approach to development.

Avoiding unrest

THE Government of Kenya is taking steps to avoid unrest in the country. It has announced a series of measures designed to improve the economic and social conditions of the population. These measures include the provision of more jobs, the improvement of public services, and the implementation of a more equitable distribution of resources. The Government is also working to strengthen the legal system and to ensure that the rights of all citizens are protected. It is hoped that these measures will help to bring about a more stable and prosperous Kenya.

CONSUL AT MOMBASA

American appointment changing hands

THE American Consulate in Mombasa has changed hands. Mr. William B. Cooper, who has served as Consul for several years, is leaving the post. He will be replaced by Mr. Robert L. Smith, who has been appointed as the new Consul. Mr. Cooper has been a dedicated and effective representative of the United States in Mombasa, and his departure is a loss to the community. Mr. Smith is a highly qualified diplomat and is expected to continue the good work of the American Consulate in Mombasa.

WHEN MUTHIKA WAS MERELY BUSHLAND

Memories of Kenya fifty years ago. MRS. G. SMITH, who was born in Muthika, Kenya, in 1911, has written a book about her childhood in the country. The book, titled 'When Muthika Was Merely Bushland', is a memoir of her early years in Kenya. It describes the life of a pioneer settler's family in the early days of the colony. Mrs. Smith's book is a valuable record of the early days of settlement in Kenya and provides a unique insight into the lives of the early settlers.

Nairobi must wait for opera

THE Nairobi City Council has decided to wait for the construction of an opera house in the city. The Council has received a proposal from a private developer to build an opera house on a site in the city center. However, the Council has decided to postpone the decision until a more suitable site has been identified. The Council is also concerned about the cost of the project and the potential impact on the city's infrastructure. It is hoped that a decision will be reached in the near future.

Foreign Aid Bill cut

THE American State Department has announced that it will cut the amount of foreign aid to Kenya. The State Department has decided to reduce the amount of aid by 10 percent. This decision is part of a broader effort to reduce the amount of aid to developing countries. The State Department is concerned about the cost of the aid program and the need to ensure that the aid is used effectively. It is hoped that the aid program will continue to be a valuable source of support for Kenya.

Criticism of Tanganyika Europeans

THE Tanganyika Government has received criticism from European settlers in the country. The settlers are complaining about the government's policies and the way they are being implemented. They are particularly concerned about the government's plans to nationalize the economy and to increase the role of the state. The settlers are also concerned about the government's policies on land and labor. It is hoped that the government will be able to address the concerns of the settlers and to find a way to move forward.

Cautions proposals

THE Government of Kenya is taking steps to avoid unrest in the country. It has announced a series of measures designed to improve the economic and social conditions of the population. These measures include the provision of more jobs, the improvement of public services, and the implementation of a more equitable distribution of resources. The Government is also working to strengthen the legal system and to ensure that the rights of all citizens are protected. It is hoped that these measures will help to bring about a more stable and prosperous Kenya.

Reserve

THE Government of Kenya has announced that it will set up a reserve fund. The reserve fund will be used to provide financial support for the country in the event of a crisis. The Government is also working to strengthen the legal system and to ensure that the rights of all citizens are protected. It is hoped that these measures will help to bring about a more stable and prosperous Kenya.

THE NEW LABOUR PAMPHLET

Need for fresh thinking by Party theorists is underlined. The Labour Party has published a new pamphlet on the need for fresh thinking. The pamphlet, titled 'The New Labour Pamphlet', is a collection of essays by leading Labour Party theorists. It discusses the need for the Labour Party to move beyond its traditional policies and to embrace a new approach to politics. The pamphlet is a valuable contribution to the Labour Party's intellectual life and is a must-read for anyone interested in the future of the party.

Special note to the "East African Standard" by the London Chamber of Commerce and Industry.

It is not only the growing need of raw materials in various parts of the world which is causing concern, but the fact that the supply of labour is falling short. In fact, the London Chamber of Commerce and Industry is warning that the shortage of labour is becoming a serious problem.

The Chamber notes that in many parts of the world, particularly in the tropics, the population is increasing rapidly. This is leading to a shortage of labour in many industries, particularly in agriculture and manufacturing.

**Kenya Registration of Factories**

The Kenya Registration of Factories Bill, which was introduced in the Kenya Legislative Council, will be discussed in the next few days.

The Bill provides for the registration of all factories in Kenya. It also provides for the regulation of the working conditions of workers in factories.

The Bill is expected to be passed by the Council in the next few days. It will then be sent to the Kenya Government for approval.
