## NEXT FEW YEARS MIGHT DECIDE BRITAIN'S FUTURE IN AFRICA

### Speeches made at Kulu meeting

SIR Robert and Lady Shaw have been visiting the Trans Nzoia. Major Kendall-Ward, Executive Officer of the Electors' Union and Secretary to the Elected Members' Association, is making an extensive tour of the district during which they met many of the local settlers, their visit culminated on September 10 when they addressed a crowded meeting in Kulu.

The platform party included Mr. H. Saire, president of the chair, Col. Kroen, acting as member of Legislative Council in the absence of Major Keyser at the Colonial Conference in London, and the Electoral Union Conference, and a vice-president of the body.

These who had been for the idea had found their arguments on the strong neo-political bias of the N.P.F. in England. There, where the system of party politics was to be replaced by one of different political parties, it was essential that the affairs of agriculture should be done properly.

Trade Unions  
Col. Le Brocq was followed by Sir Robert and Lady Shaw who stressed that the Trans Nzoia was not a rural area but a rural area already, the first main trading centre in the district was Nairobi, recalled the first days in Kenya. There, they were happy to see that there were not as many people as they had expected.

"STOP INDIVIDUALISM AND THINK OF PROVINCE AS A WHOLE"

THE Maize Controller has been talking to the members of the Kiambu Local Native Council in Kenya in the hope that the people of this district will accept the marketing system which has been developed, he claimed, with success in Nyanza Province.

The Government of Kenya has set a target for the year 1964-65 of 25 per cent per acre for the grade K.C. 18, per bag for maize of fair average quality in an area which Nyanza Province covers.

### Good dividends

Urging that the Central Province should come into line with Nyanza Province, the Maize Controller has pointed out that the figures to show the large sum paid back annually by the Maize Controller to the Nyanza Betterment Fund from the savings of the trading pool are the balance of 7,400 per acre which will be paid to the Government from African maize growers for this purpose.

In 1964/65 the amount paid by the Maize Controller to the Nyanza Betterment Fund was £10,000. In 1963/64 it was £11,000, but in 1962/63 it was £12,000, which £1,000 was the amount of the dividend.

### GOODYEAR V-BELTS FOR TOUGH DRIVES

Goodyear E.C-Cord V-Belts are built with big, bulky, end rope cords to shoulder the load with minimum stretch... ropes, instead of the ordinary, inferior cord strings.

Specialty dipped and dried under controlled temperature and humidity conditions. The use of carbon black in the cover permits unadvised compounding. This results in greater wear, tear and abraded resistance.

And here's another point: they can be supplied from our Nairobi stocks either singly or in matched sets from one to as many as twelve with close tolerances, thus ensuring uniform tension on all belts.

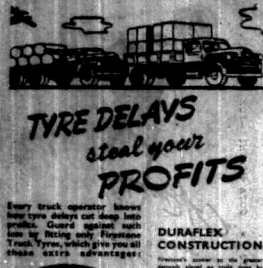

Goodyear V-Belts are the national pride of engineers who stress maximum performance and efficiency.

## Ten years of war and peace leave their mark on Paris

Paris is a city that has seen a great deal of change in the last ten years. The city has been through a long and difficult period of war and reconstruction. The streets are now filled with modern buildings and cars, but the old Paris is still there in many places. The city has a unique character and a rich history that has made it one of the most beautiful cities in the world.

### Notre Dame de Paris

by C. H. B. Clendon

THE room was a large one on the second floor, a room which had been lived in for centuries. Lately walls covered with soft red paper with a minute and intricate patterns of roses and forget-me-nots, heavy brocade curtains and carpet to match, high ceiling, vast windows flung open, the room had a certain air of grandeur and style. And so these things and the rest of the room had a certain air of grandeur and style. The room was a large one on the second floor, a room which had been lived in for centuries. ### Little change

Outwardly it seemed that the native was "No." The Boulevard des Capucines had the same general appearance as the bright boulevard of the past. The given house at the end of the boulevard, the house of the late M. de la Roche, was still there. The house was still there, the house of the late M. de la Roche, was still there. Nairobi

Some days thinking back to the days of the war, one can see how much things have changed. The city has grown and developed, but the spirit of the city remains the same. The people are still the same, and the city is still a place of great beauty and interest.

### Pitted walls

After a while we began to discover the physical effects of the war and the occupation in many areas. The walls were pitted and the buildings were damaged. The city had been through a long and difficult period of war and reconstruction. The walls were pitted and the buildings were damaged. ### New salary rates in North raise anomalies

**News from Rhodesia**  
**Members of Rhodesia Commission**  
THE new salary rates recommended for the civil servants of Northern Rhodesia will cost the Territory an additional considerable number of its key officials.  
Acting on the rates proposed by the Inter-territorial Civil Service Salary Commission, the Northern Rhodesia Government is the first large-scale employer in Southern Africa to attempt the difficult task of incorporating cost-of-living allowances into existing salary scales.  
The Commission's recommendations have, however, raised a number of anomalies.  
In some cases there will be actual wages of pay. Many men with families will receive no increase, and there will have to wait two or three years for their increments.  
Some married officials with moderate incomes and the necessary dependents will receive no increase at all. The Commission's recommendations have, however, raised a number of anomalies.

Actually the official view is that the Federation means an enormous, arbitrary loss of non-constitutional rights to the white population. ### Home on a wing and 3 names

KNOWING the names of movie-makers' has saved a lot of money and worry for 26-year-old Mick Bennett, former radio operator in the South African Signal Corps, who has just married a girl from the States.

Mick's story is that he was a member of the most effective partisan unit in the Allied Forces in Italy. With a little help, he was won an air-passport for himself and his bride, a New York girl, and he flew to New York 19 months ago to start his new life.

Bennett says he has had no difficulties in getting home and is glad to be in the States.

#### No mortgage

As that point the Christian Science Monitor came to his aid. He had been in a difficult position and the paper had offered him a loan to raise the money to get home. He had no other way out and he had to go to Johannesburg.

He had just that and so avoided paying for his house.

GRIME DOES
NOT PAY....
USE
No. 7 DUCO POLISH

Even if your car is fairly
new-looking, you should
use this polish to preserve
the colour and lustre of the
metallic finish. If the finish
is dulled by grime and traffic
film, you can still bring back
the original beauty by using
No. 7 DUCO Polish.
This polish is made by the
creations of "Duco" or
"Polux", the modern car
finish. It is made to ensure
that they should not know
how to make the right polish
for your car. Millions of
cars are ruined by the use
of "Polux" or "Duco".
You can buy it at
ALL GARAGES.
