## FRANCE PELS FOREIGNERS

### WOLVES TO STRIKE

#### Cabinet plans ending of costly three-week stoppage in mines

Emergency meetings of the French Cabinet were held during the weekend to plan the ending of the three-week strike in the coalfields which threatened the supplies of fuel to the country. It was announced that the Government will make it necessary to start to pay million tons in order to keep industry going.

Decisions taken by the Cabinet include an authorization to the coal owners to plan the ending of the strike on the condition that they are to be paid for the coal they are to produce. The Government will also pay for the coal they are to produce.

Story in Statistics

The East African Statistical Department, under the able leadership of Mr. H. J. G. Bennett, has published an excellent volume on the statistics of the East African territories to be issued every quarter. The volume is the first of its kind in the East African territories and its publication is a landmark in the history of statistical work in the region.

**THE GAY DIVORCEE**

It is the only light literature. It is a comedy in every sense of the word. It is a story of a man and a woman who are divorced. The man is a rich man and the woman is a poor woman. They are both in love with each other and they are both in love with their own country.

**DECISION REACHED**  
**Final battle planned**  
**10-acre plots for Kabete 'on conditions'**

NAIROBI District Regional Planning Board has decided that it will agree to sub-divisions of the Kabete area into 10-acre plots to be considered on special merits and subject to the Board using its discretion in special cases. The sub-division of household land being referred to by the Board, was already stated.

The Board, when it took this decision, first considered an account of his work during the past year. The Board has also decided to refer the matter to the Draft Regional Plan from the Town Planning Adviser, Mr. Thurston Dyer. A land classification survey had been carried out. Mr. Dyer stated with a number of objections in view of the fact that the area is a rural area and is not a residential area. The Board has also decided to refer the matter to the Draft Regional Plan from the Town Planning Adviser, Mr. Thurston Dyer. A land classification survey had been carried out. Mr. Dyer stated with a number of objections in view of the fact that the area is a rural area and is not a residential area.

**FEDERATION WAS ADVOCATED**

THE VALUE and importance of these conferences was emphasized and it was said that if they could not be held in 1945, it would be a disaster. The Board has also decided to refer the matter to the Draft Regional Plan from the Town Planning Adviser, Mr. Thurston Dyer. A land classification survey had been carried out. Mr. Dyer stated with a number of objections in view of the fact that the area is a rural area and is not a residential area.

**The Objectives**

The first objective of the draft Regional Plan, Mr. Dyer went on to say, is to provide a plan which is suitable for residential development. The second objective is to provide a plan which is suitable for industrial development. The third objective is to provide a plan which is suitable for agricultural development.

**The Barrier**

To make the provision effective it is necessary to erect a barrier between the residential and industrial areas. The barrier is to be a wall of trees and shrubs. The barrier is to be a wall of trees and shrubs. The barrier is to be a wall of trees and shrubs.

**'Not practical'**

The Acting Director of Agriculture was of the opinion that this would not be a practical proposition. He stated that the provision of a barrier would be a waste of money. He stated that the provision of a barrier would be a waste of money. He stated that the provision of a barrier would be a waste of money.

**THE NEW FRANCHISE MEANS HELPING THE LINE**

The Federal currency in Western Europe has taken another turn for the worse. But the latest adjustment of the French franc from 100 to 1000 francs, only its falling strength, but a belated willingness to co-operate with ourselves, in fact, writes Richard Deane.

At the time of the earlier devaluation of the French franc, the Government overhauled its budget of exchange. The new budget is based on the assumption that the franc will remain at 100 francs to the pound. The new budget is based on the assumption that the franc will remain at 100 francs to the pound.

### Rusinga find throws a new light on the origin of man

WHEN MRS. LEAKY, wife of Dr. L. S. B. Leakey, Director of the Ceylon Museum and "Kenya's first paleontologist,"...  
Mrs. Leakey found the skull of a new species of man...  
The skull was found in the Rusinga Islands in Lake Tanganyika...  
The skull is estimated to be from the Pliocene epoch...

Two special specimens will be the fossilized lower jaw and part of the skull of the new species...  
The discovery is of great importance...  
It is believed that the skull is from a man who lived about 200,000 years ago...

Dr. Leakey told a Standard reporter yesterday: "It is the most conclusive comparative evidence yet found to support the theory of evolution."

**NAIROBI**  
 To the Editor, "E.A. Standard."  
 Sir—The Municipal Authorities should be congratulated upon their taking up of their long slumber by the residents of Nairobi and it is gratifying to note that numerous proposals will now be considered and various sinking pits will be filled up.

It is to be hoped that the Councils of the various towns are doing the same thing in the next few years. The case that something would speedily be done in Nairobi is obvious. ## MORRIS OXFORD

The Car asked for by World Motorists

New from radiator to rearlight. In appearance, modern without being ostentatious. Powerful and reliable. High performance. Outstanding front and springing. Luxurious and simple. Wide open space front, with gear change on steering column, means more easy from other side. "Non-constriction" of body and chassis reduces weight. ... There are only a few of the features of this great new MORRIS.

### K.F.A. notes and market report

**WHEAT**  
 The wheat market here has been very active in recent days, the balance of wheat from farms in the District area. At the moment the additional storage report for Uganda has, for the purpose of ensuring early farm receipts, been held in check, but it is holding steady. This part of the wheat crop is expected to be in the very best future. Part of the wheat crop is expected to be in the very best future. Part of the wheat crop is expected to be in the very best future.

### The Game factor in the control of rinderpest

By Gilbert Coville  
 THERE would appear to be some difference of opinion amongst the delegates to the International Conference on the subject of whether rinderpest would be maintained by game animals, but the fact that the delegates to the Conference are unanimous in their opinion that it is perfectly natural as each delegate must have his own special experience of the particular territory which he is in charge.

It is impossible to generalize on an issue of this kind, and over a large and diverse area the whole of Africa. The fact that there is this difference of opinion points to the conclusion that there are areas of Africa where rinderpest will be out of game if they are not exposed to reinfection from cattle and that there are also areas in which it will continue to smoulder for an indefinite time.

It is impossible to generalize on an issue of this kind, and over a large and diverse area the whole of Africa. The fact that there is this difference of opinion points to the conclusion that there are areas of Africa where rinderpest will be out of game if they are not exposed to reinfection from cattle and that there are also areas in which it will continue to smoulder for an indefinite time.

### Question of fact

I draw the attention of the then Government to the fact that the then Government was in a position to know the facts and figures with regard to the then Government.

### Constant danger

The danger is constant and the danger is constant. The danger is constant and the danger is constant. The danger is constant and the danger is constant.

### A HINT OF THE SHORT RAINS?

A PREDICTED increase in the heavy activity in the only country where the recently weather forecast for East Africa that the awaited short rains may be in the offing.

The general reference for the area mentioned earlier reveals that a depression well retired approximately 100 miles from the coast and is now moving westwards. As a result, the weather over the area is expected to be in the offing.

### Risk apparent

Plains game and rinderpest which are constant and the danger is constant. The danger is constant and the danger is constant.

# KENYA'S FIRST POST-WAR SHOW PUTS QUALITY RIGHT IN FRONT

## Jumping took public eye

Berton Schoof's winning pin of ivory.

## Everybody who could go was there

**EVERYBODY** went to the Nakuru Show fully determined to make it a first-class one — and such a combined effort might not fail. What the Secretary and his hard-worked staff did by way of construction and organisation, despite the fact that their disposal was very limited, is a story of success and they were amply backed by both exhibitors and spectators.

It was on this note that the Show proceeded from strength to strength. The "Fence" at the start. Exhibitors got to their stalls, tents or booths with the minimum difficulty. There were few noisy outdoor stands about and there was a noticeable absence of dust-laden by the door of each grass which had been laid along the road, for a considerable distance outside the ground.

Only ropes, shops, pigs, poultry, sheep and all arrived and were arranged smoothly. The water arrangements were good, food supplies were adequate and the arrangements were good, food supplies were adequate and the arrangements were good.

On the first day, many of the exhibitors were new to the show and they were all very keen to see the various classes. The show was well attended and the arrangements were good.

The **'Jersey Year'** was a big success. The show was well attended and the arrangements were good. The show was well attended and the arrangements were good.

**War Memorial Show** It was a most effort, warmly supported and once more the Hill Village and the Colony have shown its interest in the war memorial. A Hospital Service table was also well attended.

**Beauty** That it is not as the answer, and looked the fragrance had refreshing light of the beautiful crown, with its charm and beauty transcending both the ordinary and the unusual. It is an oasis in which most of our girls are happy.

**The Ring** Ring events were, as they always are, the most popular, with jumping the most popular. The show was well attended and the arrangements were good.

**Judging Rings** The standard had the opportunity of talking to several of the judges and they were all very keen to see the various classes. The show was well attended and the arrangements were good.

**Traffic** Nakuru itself must have benefited considerably from the show. The show was well attended and the arrangements were good.

**World of Horses** Horses were naturally in a field of view and they were all very keen to see the various classes. The show was well attended and the arrangements were good.

**The Hospital** A building which was widely supported was the hospital, organised by the Nakuru Hospital Committee. The show was well attended and the arrangements were good.

**Novelty** The novel section, quite representative and well attended. The show was well attended and the arrangements were good.

# NAKURU SHOW WAS PROBABLY THE 'BEST-EVER'

His Excellency the Governor (Sir Philip Mitchell) opened the Nakuru Show on the first day and presided at his side to the left the Hon. Mr. J. G. O. Sisk and those West African potentates.

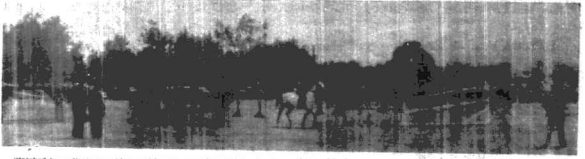

A general view of the activity round the cattle rings as judging was taking place; enthusiasts of the various breeds, wearing kneeys. The real seat of command, one of which is seen in the foreground, were a feature of the lay-out near the show rings.

By Philip on a tour of the Showground.

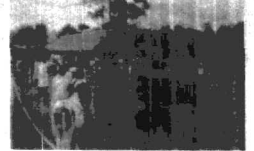

...under the large umbrella provided for the occasion.

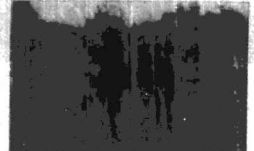

Watched by critical eye-riders and horses went through the ring in a steady stream, an event followed event smoothly. There was always a big crowd and "a big hand" for the jumping and hack classes. A small section of the huge crowd and of the inside area can be seen in the background.

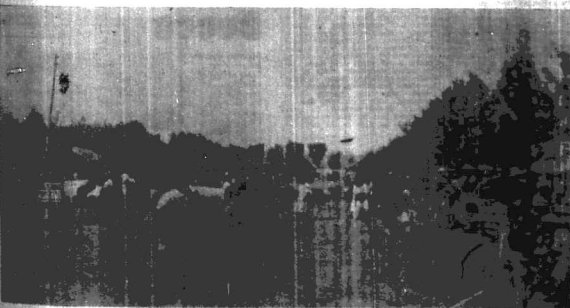

"Commercial Street" was rarely quiet, the stalls being surrounded by a never ending stream of sightseers.

Datta exhibits in the ring, ready for inter-tribe judging.

...while a proud owner at the centre of the jumping ring is trying on one of his prizes.

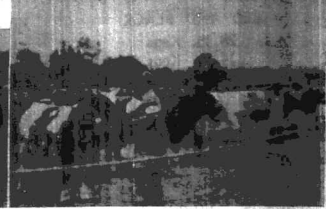

Here for a moment did public interest flag and the various flags were attended by the general public as they were by the farming community.

His Excellency the Governor and Lady Mitchell, accompanied by the Provincial Commissioner, Sir D. Valley (Mr. D. Morgan), were met on arrival by the President of the Society (Major A. W. Milligan) and by Society officials. The party shopped about the prospects of the Show before His Excellency moved off on the first of his several tours of the ground.

Machinery, a feature of this first old-year show, was closely examined by interested viewers—and below, the "Ward, Farm and Garden" stall, next door as the Sir D. Valley Elderly Organization, near the Main Gate of the Showground. Left are other views of the Show's popular "Commercial Street" where much business was done during the show.

"Yes, they do cost."

Walk till you taste the natural flavor of the choicest Virginia. Wait till you see how full rich flavor can be freed of all heat and harshness. Wait till you learn how the filter tip smokes over thousands. Then say if a smoker, smother smoke was ever reason—anywhere, at any price. There'll never be a better cigarette made in England.

TWO VIEWS ON SOUTH AFRICA

The new mail has brought us two strongly contrasted pictures of life in South Africa... The first is Mr. A. V. Barker's Union, which is a book of two parts... The second is Mr. M. A. P. de la Motte's South Africa, which is a book of two parts...

By JOSEPHINE CULBERTSON... EVERY experienced player knows that a partnership must have a virtual monopoly of the ace, king and queen to make a slam when the partner contains distributive advantages... In today's deal, however, South was apparently ignorant of that fact.

### AFRICAN WORKERS

To the Editor, "E. A. Standard."  
 Through the medium of your paper we have been informed that a so-called British Colony has decided to import cheap foreign labour in the event of a labour shortage and indeed, if the evidence appears correct, to be "brought in" as soon as possible. We are interested in this matter and we have written to your paper to express our views. It is our belief that the importation of cheap foreign labour is a step which should be taken with the greatest care and that the Government should be kept fully informed of the views of the African workers in the Colony. We are sure that you will be able to do this for us.

### PRISON CONTROL

To the Editor, "E. A. Standard."  
 It is a pity that the Government is not taking more steps to improve the prison system in the Colony. It is our belief that the Government should be kept fully informed of the views of the African workers in the Colony. We are sure that you will be able to do this for us.

Labour problems bring farmers and miners into conference

News from Rhodesia

THESE farmers and the miners of Southern Rhodesia, who spent several days of the past week in the Colony, arrived in Bulawayo to discuss the labour situation. It is a regrettable fact that in this Colony, agriculture and mining do not always get on too well together. In fact, the mining industry is not always ready to meet the demands of the agricultural industry, and the agricultural industry is not always ready to meet the demands of the mining industry.

The Ministers of Mining and Agriculture who attended the conference, expressed their respective views on the labour situation. The Ministers of Mining and Agriculture expressed their respective views on the labour situation, and the Ministers of Labour and Justice expressed their respective views on the labour situation.

A SCOTTISH CHRONICLE

Flood damage

As winter approaches, we are faced with the usual task of repairing the damage of the summer floods before the start of 1936. And this will have to be done wherever the serious damage is to be done.
