SHANGHAI BRITISH WAR FOOTING

4,000 resolved not to leave COMMUNISTS PREPARE ATTEMPT TO CROSS YANGTZE TO NANKING

A mass meeting of the London blitz Shanghai's 4,000 British war veterans gathered themselves on a war footing for the first time since they landed in the city in 1941, reported the Shanghai correspondent of the New York Times yesterday.

It is stated that members of the British community are determined to stay in the city only in face of full-scale warfare there and to accept the consequences of the Government's decision to leave the city.

The Chinese newspaper Tsing Tung reported that the Communists 50 miles north of Shanghai have begun the requisitioning of more than 1,000 boats in preparation for an attempt to cross the Yangtze River between Nanking and Shanghai.

Government sources in Shanghai reported that a number of reinforcements were expected to reach Kiangsu 'in the near future' to relieve the Nationalist garrison holding the Yangtze against a steady but not serious Communist advance.

The city government of Shanghai has ordered all foreign and Chinese newspapers and news-agencies to submit all news items to the police authorities for censorship before publication and the city's defences are expected to be strengthened by 1,000 American-equipped Chinese 5th Army from Chekiang province.

Yesterday's briefing arrangements were also being completed in Shanghai for the reception of an advance party of American troops which is expected today.

THE IMPORTANCE OF BERLIN

More U.S. planes on airlift

MR. CHURCHILL MAKES AN APPEAL TO THE FRENCH

MINISTERS Berlin, the British Foreign Secretary, told the House of Commons on the first day of a two-day debate on German affairs that the Berlin airlift is to be speeded up by more planes from the United States.

"Germany is now surrounded in Washington about the 27th day," Churchill said. "The airlift is being speeded up by more planes from Japan to Berlin and that 1,600 men will be sent to the front for duty there. This will make a total of five wings operating in the American zone of the airlift to the German Capital."

Mr. Berlin, who was making his first report to the Commons on the latest Berlin crisis and the fighting in China, told the House that, at whatever cost, the Western Powers must maintain a firm position in Berlin and ensure that the methods of airlift be used do not succeed.

"The solution of the problem might take time but it had to be found by reason and not by force. Once the four great Powers agree on that point there would be no settlement."

"We have to establish in Berlin by our actions a position which is more significant to the world than most people realize," Mr. Berlin pointed out that since the end of the war, the administration of Germany had been a difficult task. It would be more difficult, he said, if the Western Powers were to withdraw from the city, to a satisfactory scheme for the future of a united Germany.

"The position that I am in is that we will continue to maintain a firm position in Berlin and we will continue to maintain a firm position in Berlin and we will continue to maintain a firm position in Berlin."

UP-COUNTRY M.L.S. TALK OF KENYA'S 1949 BUDGET

EUROPEAN electors of the Rift Valley and Nyanza Provinces of Kenya have had the Colony's 1949 Budget explained to them by their Members of Legislative Council, both of whom dealt primarily with the increase of £1,300,000 in estimated expenditure.

"The 1949 Budget reflects the general inflationary trend of the world and must be continued for that in mind," Mr. Michael Blundell told Sir Hill Valley constituents at Nakuru.

"Most people in the Colony were surprised by the Budget figures of 1949, but it must be remembered that in 1948 there were 1,100,000 Europeans in Kenya—today there are 1,400,000. This is a real increase and it is not surprising that the Government should have to raise the budget at present, it is mostly inevitable."
