The Emergency's effect on basic freedoms: Detainees at large

YOU publish a letter from Mr. S. P. Shaha in which he says: "I fail to understand the attitude of the Government in not releasing Mr. A. K. Ganesan, the founder of the Kenyan Labour Party, and the other four persons, the members of a section of the Kenyan community, while the same Government stops detaining Edward Mbatia on the Legislative Council addressing public meetings." Mr. Shaha's suggestion is that the Government should release Mr. Ganesan and the other four persons, which would be a precedent for the release of other persons who have been taken away from their homes and are being held in detention camps. It is interesting to note that the Government has been taking action to release persons who have been taken away from their homes and are being held in detention camps. Government Head and Headings...
The Government's attitude towards the press is becoming increasingly intolerant. It is not only the press but also the public who are being subjected to this kind of treatment. The Government is trying to silence the press and the public by using force and intimidation. This is a clear violation of the basic freedoms of the people.

Ballet programmes

It is a pleasure to hear that the Government is planning to introduce ballet programmes in the schools. This is a commendable step towards the promotion of art and culture among the young people of Kenya. It is hoped that the Government will continue to support such initiatives in the future.

Teachers' association

The teachers' association has been formed in Nairobi. This is a significant development for the teaching profession in Kenya. It is hoped that the association will be able to represent the interests of the teachers and to work for the improvement of the education system.

Turn the crown with Buttons, and the hat will have the very latest look, especially if worn with a gown of the same or based on the popular button-hole pattern.

Eye-bath cleanses

Eye-bath cleanses the eye, but it is expensive. However, you can prevent the same effect by means of underlining. If makeup is done in the same way as a job for you, new lines "very much" the beauty of your eyes in a moment. Use the same eye-line with the same color in the material. The strokes will bring you to get the outline of the same eye. Give the brush a soft that makes the underlining and you have something that looks like an eye-bath that is most expensive. If further decoration is required, the brush must be extended to the eyelids.

PATTERSON RETAINS HIS WORLD TITLE WITH EASE

Jackson had only courage to show. Winner takes £62,500

FLOYD PATTERSON, 25-year-old New York negro, retained his world heavyweight boxing title in New York on Monday night, battering Tommy "Hurricane" Jackson in a defeat which was the most crushing of his career. Although on his feet at the end, he had taken a severe beating and he was unable to continue the fight.

The referee stopped the fight to save Jackson from further punishment.

The referee had to be warned for 1 min 20 sec when the fight was over.

Patterson was so confident of his victory that he refused to defend himself against the challenge down again. This time he was in the ring for 110 seconds and he was awarded a 10th round technical knockout.

His first defence.

Cameronians first to lower K.S.L.I. colours in Dobbie League

THE fact that K.S.L.I. had to travel in order to fulfil their return Dobbie League fixture with the Cameronians robbed Nairobi spectators of an exciting match, but the fact that it was played on a magnificent pitch and sometimes heavy rain. The Cameronians finished their previous League defeat and collected the season's first victory on the field, from a goal scored by the young forward, the captain of the team, who, having taken the second half rest, from the Cameronians, K.S.L.I. however, were disappointed to have scored no goals.

Score: The first goal was scored by the first player against the lead.

SURREY BEATEN BY GLOUCESTER

Yorkshire now 2nd in table

SURREY triumphed in the County cricket championship which was halted on Tuesday when the extra half-hour to win by 20 runs. It was the second year running that the host team has beaten the visitors in a close finish. It was Surrey's second defeat of the season and the first since May before M.I.A.'s beat them by a 150-run margin at Northampton.

In the preceding Surrey had won 11 matches, Gloucester 10, while the other 11 were drawn. Gloucester were the only team to win six consecutive matches.

Four points for a first innings lead and a consolation for Surrey but their margin of 100 runs was wiped out by Gloucester in the second innings.

Yorkshire, with first innings honours, led Surrey against Nottingham by 150 points. But neither Nottingham nor Warwickshire, who were 100 points behind, were in the running.

For other sport see page 11

Twenty-five players with 136 runs each could add to their tally in the championship. Gloucester and South Lake Surrey, each had their second match on Tuesday.

Gloucester (121), Middlesex (118) and Kent (114) were the leaders, all having the same number of runs. Gloucester scored four first innings and Surrey three. Gloucester had the best batting and bowling figures. A recent collapse of one day Surrey cricket and the fact that Gloucester were the only team to win three of their four matches.

Northampton (80) and Leicestershire (79) were the lowest scorers from the series of matches.

Northampton's 80 runs in 115 minutes in the second innings was the slowest in eight and they lost all their wickets, a run each to the wicketkeeper, a run each to the batsmen.

Top-class bowling

A top-class bowling performance was shown by the four bowlers who were 4 for 47 in Surrey's victory. They were taking 100 runs in 100 balls. The bowlers were: Gloucester, W. Warwickshire, 4 for 47 in 100 balls; Surrey, D. Harvey, 4 for 47 in 100 balls; Gloucester, H. Harvey, 4 for 47 in 100 balls; Surrey, D. Harvey, 4 for 47 in 100 balls.

SPARKLING CENTURY BY COMPTON BEFORE LUNCH

Covey follows suit. Trio of others reach three figures

DENNIS COMPTON, probably in his last season of first-class cricket, batted with all the sparkling brilliance of his greatest years on Thursday when he completed his 11th century of his career before the luncheon interval. In a stay of just over two hours, Compton hit 109 off the Essex bowling and this included a six and 16 fours. This was the 51st century in his most attractive vein.

Compton, who hit century after century for Kent, was at the top of the Essex batting when he scored his 100. He had 100 runs in the 1950-51 season and hit 28 fours in the 1950-51 season.

Altogether in form, Stuart Leyland, Ken Barrington, and Denis Compton were the three batsmen who were most successful in the century in the 1950-51 season. Compton was the only batsman to score a century in the 1950-51 season.

Compton's century was the 51st in his career. He has scored 10,000 runs in 11 years. He has scored 100 runs in 11 years. He has scored 100 runs in 11 years.

Polio rehabilitation unit

At the end of May, I saw out to Nairobi from England to be with my son who had contracted polio on a visit to the law last year when he was returning to England after leaving school. I had to tell my son's mother that he had contracted polio in London. I had to tell her that he had contracted polio in London. I had to tell her that he had contracted polio in London.

AUGUST MEETING BEGINS ON A HIGH NOTE

Stirring finish to Guards Cup

The first day of the Nairobi August meeting lived up to expectations by providing a most enjoyable afternoon of racing for a good crowd to perfect weather. Fields on the whole were good and the contest looked bright and affrayous. Favourite winners had come out of the first two races, very much in the nick of time.

Numbers coincidence
Quite the most thrilling race of the afternoon was the contest of the last few furlongs. The race was won by the favourite, but the runner-up was also a favourite.

Was breath-taking
The race was won by the favourite, but the runner-up was also a favourite. The race was won by the favourite, but the runner-up was also a favourite.

JEALOUSY AND OUTSIDING AID BEHIND OMAN REVOLT
By Sir Alec Kirkbride

PUBLICITY given to the past few days by the events in the Sultanate of Oman and Muscat has done much to draw the attention of the Middle East to the Arabian Peninsula. Such a far from being the quietest of regions, the Sultanate of Muscat and Oman has been the scene of the First World War under the leadership of a person who has styled himself the Imam of Oman.

Successive Imams and their descendants have ruled the Sultanate of Muscat and Oman as a hereditary monarchy. The Sultan of Muscat and Oman is a member of the British Royal Family. The Sultan's sovereignty over the Sultanate of Muscat and Oman is recognized by the United Kingdom, the United States, and other major powers.

It is of course inevitable that the Sultanate of Muscat and Oman should have been drawn into the orbit of the British Empire. The Sultan of Muscat and Oman is a member of the British Royal Family. The Sultan's sovereignty over the Sultanate of Muscat and Oman is recognized by the United Kingdom, the United States, and other major powers.

Ms Mullane has been driving the mobile home for several months, and she has visited many parts of the country. She has found that the mobile home is a very convenient way of spreading the love of books, and she has received many enquiries from people who would like to buy books.

Slimming way to beauty

By ROSALIE SHAMON

A SLIM attractive girl went shopping in Oxford Street, London, for the first time to have like-the-bought slacks, a striped T-shirt, and a simple white-satin dress.

And she had the eyes of a million on her. She was in a state of surprise. She had never seen a girl so slim in her life.

NEW FIGURE

A girl who is a model for the fashion world would have a slim figure. It is a strange thing that the girls who are the models for the fashion world are all slim. They are all models for the fashion world.

Last year's models have read the book. The girl who is a model for the fashion world would have a slim figure. It is a strange thing that the girls who are the models for the fashion world are all slim. They are all models for the fashion world.

LEMON JUICE

What makes her slim? A white towel hanging from the back of her neck. The towel is not only a towel, it is a towel. It is a towel. It is a towel.

The very first morning I saw her. The towel was not only a towel, it is a towel. It is a towel. It is a towel.

Nowadays, the girls who are the models for the fashion world are all slim. They are all models for the fashion world.

MOBY DICK PROVES THAT HE CAN STAY DISTANCE

Conclusive win in open Derby run in record time for event

ONE of the biggest crowds ever seen on the Forest course enjoyed an excellent afternoon's racing yesterday when the August meeting was concluded with the 1937 K.A. Derby as the principal attraction. This event is regarded as probably the most open of the entire series, and it was a question that many spectators would long have been asking: "Will Moby Dick stay the distance?" It was answered today handsomely.

Mr. John Kinross's big colt, who was going easily at the start, was the favorite to win by a large margin. His half-brother and stablemate, Johnnie, was also in the race, and Mrs. Kinross's colt, Moby Dick, was the only other runner to stay the distance.

The rest of the race was a mere formality. Moby Dick, who was backed 10/1, won in 1m 55.4s, a record for the event.

Slow time Harris is the new Kenya lawn tennis singles champion

DEREK HEDDINGTON won the three-mile event in the Great Britain-France International two-day athletics contest in London yesterday in the comparatively slow time of 13m 55.4s. Heddington, who received backing from the crowd, was the only runner to stay the distance. He was backed 10/1 and won in 13m 55.4s, a record for the event.

At the two singles finals of the 1937 Kenya lawn tennis championships, announced one of the titles yesterday but held to contend with the position of the other. H. G. Harris was the new singles champion as he won in a 20-minute match against C. H. Cole.

MAN TRIED TO INCITE TO CROWD

Police sentence

A police sentence prevented what might have been a nasty incident outside Kildine Hall last night. A Nairni magistrate, Col M. C. Laming, and police officers, including a sergeant, tried to a decision on the matter, creating a disturbance in the streets. The sentence was given in the presence of a large number of people. The magistrate said that the man had tried to incite a crowd to violence.

Police caution
 The magistrate said he was satisfied that Agneta was the person who had tried to incite a crowd to violence. He said that he had given a caution to the man and that he had also given a caution to the woman.

Addis Ababa changing as work starts on master development scheme

LONG-TERM PROJECT

SIR PATRICK BENCHOUARA has great work before him in the execution of the plan for Addis Ababa, in beginning to change the face of the growing Ethiopian capital. It was presented to the Emperor last September when approved it in principle. However many essential features of the plan must first be worked out before they are completed.

Like any other city of some 1,200,000 people, Addis Ababa has a population of about 600,000. It has been estimated that Addis Ababa over a long period of 100 years may change before the completion; present trends indicate it may well take several years more.

Mr. Patrick's first action was to visit Addis Ababa in 1946 when he spent three months in the city collecting information and gathering survey data which were subsequently analysed.

Return visit The start of the plan was completed on his return to London. It was not an easy task but coming from preparation of the Country of London plan, Sir Patrick was well equipped to control and coordinate the plan.

The outline plan subsequently was examined and approved when, in 1954 Sir Patrick returned to the Ethiopian capital as planning officer. By the end of that year, the Emperor had approved the plan for the city and its links with the rest of the country was working on the completion of the master plan.

Two-mile boulevard Sir Patrick himself returned to Addis Ababa in 1954 to supervise personally the progress of the plan. About 50 drawings and a 200 page report were prepared by the Emperor last September. The Emperor's approval of the plan has been carried out by the Emperor's order.

Canal work starts Work was started on the Voga-Bahia canal project which will connect the city with the Nile. The canal will be 10 miles long and will be the longest in the world.

There planted As another part of the master plan, some 2000 seedlings have been planted in the center of the city. The plan also includes the construction of a new airport and a new railway station.

Mark of standard value The plan also includes the construction of a new airport and a new railway station. The plan also includes the construction of a new airport and a new railway station.

Progress urged The city administration needs to be kept informed of the progress of the plan. The city administration needs to be kept informed of the progress of the plan.

Do You Laugh Your Greatest Powers Away?

THOSE STRANGE INNER URGES

You have heard the phrase, "Laugh, clown, laugh." Well, that has its perfection. I'd fear, worry and try to remove my way out of difficulties—all to no avail; then I'd have a hunch, a something which would tell me to do a certain thing. I'd laugh it off with a shrug. I know too much, I thought, to heed those impressions. Well, it's different now—I've learned to use this latent power and I no longer make the mistakes I did, because I do the right thing at the right time.

This FREE BOOK Will Prove What Your Mind Can Do!

Here is how I got started right. I had heard about hypnosis revealing past lives. I began to think there must be some inner intelligence with which we were born. In fact, I often heard it said there was; but how could I use it, how could I make it work for me daily? That was my problem. I wanted to learn to direct this inner voice, master it if I could. Finally, I wrote to the ROSICRUCIANS, a world-wide fraternal

TO FETCH A PAIL OF WATER

A variation—and a most successful one—of the fish and bill story is given by two Girl Guides from Southern Rhodesia. They demonstrate the easiest way to carry a pail of water. They are the two girls (left), aged 12 and 13, who are attending the Girl Guide Field Camp at Windsor Camp Park, Berkshire. The camp is a part of the well-known Powell campsite, but work by the Girl Guide Chief, Chose, (in white, right).

He said that the party's policy should be based on the principle of non-white inferiority. He called for a complete re-examination of the party's policy on racial matters. He said that the party should adopt a more liberal and more progressive attitude towards the non-white population of South Africa.

Co-operation vital

He went on to say that it was essential for the party to work in co-operation with the other political parties in the country. He said that the party should not be afraid to work with the non-white population and should strive to build up a broad-based government. He called for a more united and more progressive South Africa.

**'WHERE CAN I GET
GUARANTEED RETREADS
ON ALL FIVE
TYRES IN ONE DAY—
AND GET MY OWN TYRES BACK?'**

Augustus Rodin (1840-1917), probably the most outstanding sculptor of his time, aimed not at mere representation, but at the expression of a mental state, in his classic 'The Thinker'.

It could be suggested that the subject was thinking how cold it was, up there with no clothes on. He was not that as this aspect never occurred to Rodin. It occurs to us however, that as food for thought is suggested, we suggest it a good one— and one only suggested. Can and General's Guaranteed Retreads can be fitted in one day, on your own tyre cases—all five or just one at a time. 'The Thinker' is still mulling it over. The rest of us, unfortunately, cannot afford to waste time thinking about it.

GUARANTEED RETREADS
Choose from a large range of tread designs— whatever your needs. Can and General has a tread to suit them. Treads for traction or silence, treads for heavy or light duty, but all treads for guaranteed wear and long life.

And remember— you get up to 30% more mileage from a tyre retreaded by our Cold Rubber process— the process which does not weaken the rubber by application of excess heat.
