Judge praises high quality of horticultural show at Thomson's Falls

A horticultural show at Thomson's Falls, N.S.W., has been praised by a judge for the high quality of the exhibits. The show, which was held in the grounds of the Thomson's Falls Hotel, attracted a large number of visitors and was well attended. The exhibits included a wide variety of plants, flowers, and trees, and were displayed in a most attractive manner. The judge, who was accompanied by a number of other officials, spent several hours in the grounds, and was much impressed by the skill and care which had been bestowed upon the show. He particularly praised the exhibits of the local growers, and commended them for the high standard of their work. The show was a great success, and it is hoped that it will be held again in the future.

NEW NAME OF NAHUKI SHOW

The name of the horticultural show at Thomson's Falls has been changed to the "Nahuki Show". This change was made in order to give the show a more distinctive name, and to make it more easily remembered by the public. The new name was chosen after a long and careful consideration of various suggestions. It is felt that the name "Nahuki" is a most appropriate one, and it is hoped that it will be well received by the public. The show will continue to be held in the same grounds, and will be well attended by a large number of visitors.

APPRECIATION Mrs. M. Porter

Mrs. M. Porter has been given a public expression of appreciation for her services to the community. She has been recognized for her long and devoted work in the field of social welfare, and for her efforts to improve the lives of the less fortunate. Her work has been a most valuable one, and it is hoped that her efforts will continue to be of great benefit to the community.

Staging criticism

The staging of the recent production has been criticized for its lack of originality and its failure to capture the spirit of the play. The critics felt that the production was too conventional, and that it failed to make a strong impression on the audience. They felt that the staging was too much like a textbook, and that it failed to bring the play to life. It is hoped that the next production will be more original and more successful.

RESULTS

The results of the recent election have been announced, and it is felt that the results are a reflection of the public's confidence in the government. The government has received a strong mandate, and it is hoped that it will continue to work for the benefit of the community.

Cunard

The Cunard Line is proud to announce the arrival of the "Queen Elizabeth", the largest vessel in the world. This magnificent ship is a true marvel of modern engineering, and it is hoped that it will provide a most comfortable and enjoyable voyage for all who board her. The "Queen Elizabeth" is a true masterpiece, and it is a pleasure to have her in our fleet.

Building work to start next month

DISCLOSURE OF NAMES SOUGHT

Rate controversy
FOUR Active members of the History Municipal Council have written to the Clerk asking for the names of the members of the committee which was set up to investigate the building of a new school to have discussed their views from the start.

The letter comes as a result of the fact that the Council has agreed to pay the cost of the school to be built on the site of the old school.

The Council has also agreed to pay the cost of the school to be built on the site of the old school.

TANGA ROADS DESCRIBED AS SHOCKING

"Stagnant"
The visiting Government Commissioner, Mr. R. B. Smith, has expressed his surprise at the state of the roads in Tanga, which he described as "stagnant".

Mr. Smith, who is on a tour of inspection, has been told that the roads are in a state of disrepair and that the Government should take steps to improve them.

14 BREAKINGS INTO NAKURU PREMISES

Police take serious view

FOURTEEN breakings into premises in Nakuru have occurred since the beginning of 1956. Police regard the breakings as a serious view of the law.

The breakings have occurred in various parts of the town, and the police are taking steps to prevent further incidents.

School opened in South Nyanza

The Assistant Director of Education, Mr. E. C. M. Phipps, has opened a new intermediate school at Kibondo in South Nyanza.

The school has been built on the site of the old school, and the opening ceremony was attended by a large number of people.

Prison for former terrorists

20-YEAR TERMS
TWO former terrorists, who were sentenced to 20-year terms in prison for their part in the Mau Mau rebellion, have been sentenced to 20-year terms in prison.

The sentences were passed by the High Court in Nairobi, and the prisoners are to be held in the maximum security prison at Nakuru.

Anxiety over concentrated services

A meeting of the Education Committee in Nairobi has expressed anxiety over the proposed concentration of services in the city.

The committee is concerned that the concentration of services will lead to a loss of identity for the city, and they are urging the Government to take steps to prevent this.

Court to rule on Customs refund refusal

The High Court in Nairobi is to rule on a case concerning the refusal of Customs to refund duties on goods imported for export.

The case involves a trader who has imported goods for export and has applied for a refund of duties, but the Customs authorities have refused to do so.

Stone of new school laid

The stone of the new school building was laid today by the District Commissioner, Mr. R. B. Smith.

INDIAN CONGRESS PRESIDENCY: DR. SHAH NOMINATED

ATTEMPT TO CLEAR OLD LOCATION
NAGPUR, 21 (UPI)—The Indian National Congress has nominated Dr. N. K. Shah for election to the presidency of the Congress for the year 1957.

The nomination was made by the Congress Working Committee in Nagpur, and Dr. Shah is the only candidate for the post.

Man produced water 'furtivel'

A man in a village in the Punjab has produced water from a well which he claims is 'furtivel'.

The man, who is a local farmer, has dug a well in his field and has found water in it. He claims that the water is 'furtivel' and that it is a sign of good luck.

Kileme plant runs non-stop to achieve 720,000 ton ore output

Planning a permanent role in Uganda's development, Kileme Mines Ltd. is the leading source of copper and cobalt in the East African continent. From modest beginnings in 1950, the company has grown to become one of the largest in the world. A large scale drilling and development programme is now under way. It is estimated that the plant has a capacity of 720,000 tons of production per year.

PEOPLE in the NEWS

COMPANY DIRECTOR ON MONTH'S VISIT

TELEVISION is the most important factor in the success of the new television company, says a director of the company. The company is expected to start operations in the next few months. The director, who is a member of the board of directors, has been on a month's visit to the company's headquarters in London. He will be returning to Singapore in the next few days.

Swiss business man in Tanga

EVERY two years Mr. and Mrs. Peter Wenzel visit East Africa and his wife has just returned from a ten-day visit to Tanga Province, where they were the guests of Mr. and Mrs. J. J. M. Wenzel, who is a Swiss business man. Mr. Wenzel, who is a member of the board of directors of the Swiss company, has been on a month's visit to the company's headquarters in London. He will be returning to Singapore in the next few days.

Mogadishu trip by Kenya writer

WHEN she returned to Kenya recently after an interval of exactly a year, Mrs. Elizabeth Mackey was accompanied by her husband, who had just been in the Congo for 20 years, and her son, Charles, aged 14. Mrs. Mackey, who is a writer, has just returned from a trip to Mogadishu, Somalia. She was accompanied by her husband, who is a writer, and her son, Charles, aged 14. Mrs. Mackey, who is a writer, has just returned from a trip to Mogadishu, Somalia. She was accompanied by her husband, who is a writer, and her son, Charles, aged 14.

On the completion of...

On the completion of a year's service in the Northern Rhodesia Police, Mr. Robert H. L. Mackey, who is a writer, has just returned from a trip to Mogadishu, Somalia. He was accompanied by his wife, Mrs. Elizabeth Mackey, and their son, Charles, aged 14.

...the most important factor in the success of the new television company, says a director of the company. The company is expected to start operations in the next few months. The director, who is a member of the board of directors, has been on a month's visit to the company's headquarters in London. He will be returning to Singapore in the next few days.

HANDS SHOULD INDICATE PRIDE IN APPEARANCE

HANDS are the great indicator of a person's pride in his appearance. In a well-kept hand, the fingers are long and slender, the nails are clean and well-trimmed, and the skin is smooth and clear.

It is a well-kept hand that is the true test of a woman's pride in her appearance. It is a hand that is clean, smooth, and clear, and that is the true test of a woman's pride in her appearance.

LITTLE JASON REFUSES TO GET UP EARLY

By FLORA NORMAN

SOME boys and girls just won't get up in the morning. Of course, it doesn't mean you, but I do know of several boys and girls who like to lie in bed all morning. They would not even go to school if their mothers don't actually drag them out of their beds and then hang round their necks.

Jason, the dog, is like that too, and he won't get up in the morning. He stays in bed until he is called to the kitchen, and then he gets up. He is a very lazy dog.

Hurt expression
Sometimes he looks hurt when he gets up. He looks like he is in pain. He looks like he is in pain. He looks like he is in pain.

'Golden hope' of British boxing too young to become a champion

By DENIK JON

TERRY SPINKS is an even bigger hope and a bigger problem boy of British boxing. Standing at the champion's age of two years, he is too young to be a champion. At the age of two, he is too old enough to train seriously and to fight in the world to win an Olympic gold medal.

SAFEGUARD RULE

For Terry Spinks, the youngest boxer in the world, the only way to stay safe is to wear a helmet. The helmet is a safeguard rule that is designed to protect the boxer's head from injury. The helmet is made of a strong material and is designed to absorb the impact of a blow. The helmet is a safeguard rule that is designed to protect the boxer's head from injury.

KEEPING FIT

Let's learn to box

Illustrations by J. M. ...

Challenge accepted - at 62

It is a place where you can enjoy the best of both worlds - the excitement of sport and the comfort of a home. The City Uncle Radio is a place where you can relax and enjoy the company of your friends and family.

CITY DRIVE TO ELIMINATE UNLICENSED RADIO SETS

Door-to-door calls

Technical courses to start soon

WILLIAMSON, K. C. (Special Correspondent)

As a result of the city council's decision to eliminate unlicensed radio sets, a door-to-door campaign will be launched in the Nairobi area on February 15. The campaign will be conducted by the Nairobi City Council, which has appointed a special committee to handle the matter.

The committee will be headed by the city engineer, Mr. J. H. Williams, and will consist of representatives from the police, the fire department, and the health department. The committee will be responsible for identifying unlicensed radio sets and for notifying the owners of the sets that they are illegal.

The committee will also be responsible for conducting technical courses for the owners of unlicensed radio sets. The courses will be held at the Nairobi City Council headquarters and will be free of charge. The courses will cover the basic principles of radio and will include a practical demonstration of how to use a radio set.

The committee will also be responsible for enforcing the city council's decision to eliminate unlicensed radio sets. The committee will have the authority to issue fines and to seize unlicensed radio sets.

EMPIRE GAMES TOWN CRIERS

Africa tour by graduates

Nairobi, May 24. Aid. H. Travis, was presented with a letter yesterday from the Lord Mayor of Cardiff, Wales, in which the city British Empire club, Cardiff, has invited him to take part in the club's tour to Africa in July. It was handed to Mr. Travis by two Cambridge graduates, Mr. Martin Sturgeon, 21, and Mr. Peter [Name obscured].

The two boys are leaving Africa with similar letters to the respective Lord Mayors of London, Manchester, Glasgow, and Liverpool, and are also being invited to take part in the club's tour to Africa in July. They are being invited to take part in the club's tour to Africa in July.

TANGA ARTIST WINS COSTUME

The Tanganyika Minister for Education, Mr. C. G. [Name obscured], has announced the winner of the costume competition for the Tanganyika Art Exhibition, which is being held at the National Exhibition Centre, Dar es Salaam.

The winner is a young man named [Name obscured], who has won the first prize for his costume. The exhibition is open to the public and is a great success.

Pioneer struck on head with pistol ATTACK AT LIMURU

M. A. R. McDONELL (84), a pioneer settler, was seriously injured on the head with a pistol on the verandah of his home yesterday afternoon. He was not seriously hurt and telephoned the police immediately afterwards. The attacker was taken to his home, which is near the Limuru Girls' School, but he is still in hospital, suffering from a fractured skull and a fractured jaw.

CLUB APPEAL TO MEMBERS AT MOMBASA

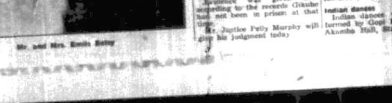

"Mindful" correspondents of the Mombasa Club are appealing to members to contribute to the club's fund. The club is in need of funds to carry out its work and to maintain its premises.

The club has a long and distinguished history and is a great asset to the community. It is hoped that members will contribute to the club's fund and help to make it a success.

Search by workers

A neighbour reported to a large force of workers in search of a man who was believed to be hiding in the area. The workers searched for several hours but were unable to find the man.

The man was believed to be a fugitive and was wanted by the police. The workers were alerted by a neighbour who had seen the man in the area.

Banknotes stolen in 1956 are detected

East African Currency Unit has announced that it has detected a total of 1,000 banknotes stolen in 1956. The banknotes were found in various parts of the country and were being used in circulation.

The banknotes were found by the bank's staff and were being destroyed. The bank has advised the public that these banknotes are no longer valid and should not be used.

Five banks

Five banks have been established in the country. The banks are the East African Bank, the Kenya Bank, the Uganda Bank, the Tanganyika Bank, and the Zanzibar Bank.

The banks are being established to provide financial services to the public and to promote economic development in the country.

Public health conference

KENYA OFFICIALS

The Kenya Branch of the Association of Public Health Inspectors has held a conference in Nairobi. The conference was attended by officials from various government departments and was a great success.

The conference discussed the current state of public health in Kenya and the measures that need to be taken to improve it. It was a very informative and useful conference.

Thfts from bodies in the mortuary

MAN JAILED

The theft of watches from bodies in the mortuary has been investigated. A man named [Name obscured] has been arrested and is now in jail. He is accused of stealing watches from the bodies of the deceased.

The police have recovered the watches and are now investigating the case. The man is being held in custody until further notice.

MONTH MARRIED BY FIVE BET WAYS

Rainfall below average

The month of May has been a very dry month in Kenya. The rainfall has been well below the average and this has caused a serious shortage of water in many parts of the country.

The government has advised the public to conserve water and to use it sparingly. It has also advised the public to avoid watering lawns and gardens.

Receiving charge

A man named [Name obscured] has been charged with receiving stolen goods. He is accused of receiving a watch that was stolen from a shop in Nairobi.

The police have recovered the watch and are now investigating the case. The man is being held in custody until further notice.

Congress call to Members attacked

The call to Congress by the members of the Kenya Legislative Council has been attacked. The members of the council have been accused of being corrupt and of being in league with the government.

The public has expressed its anger at the members of the council and has demanded their resignation. The government has refused to take any action against the members of the council.

Under the Standard Clock

The monthly business of the Law Society of Kenya will be held on the 24th of June. The meeting will be held at the Law Society's offices in Nairobi.

The meeting will discuss the current state of the law in Kenya and the measures that need to be taken to improve it. It is a very important meeting and is open to all members of the Law Society.

Five States to discuss housing CITY CONFERENCE

Representatives from five states will meet in Nairobi to discuss housing. The states are Kenya, Uganda, Tanganyika, Zanzibar, and Malawi.

The conference will discuss the current state of housing in each of the states and the measures that need to be taken to improve it. It is a very important conference and is open to all representatives from the states.

ESSENTIAL TO BE ON GUARD

Workers warned by police chief

A warning to Kenya workers to be on guard against the activities of the Communist Party has been issued by the police chief. The police chief has advised workers to be vigilant and to report any suspicious activities to the police.

The Communist Party is a subversive organization and is a threat to the stability of the country. Workers should be aware of its activities and should take appropriate precautions.

Expenses shared

The expenses of the Kenya branch of the Association of Public Health Inspectors have been shared. The members of the branch have agreed to share the expenses of the branch and to contribute to its work.

The branch is a very active organization and is making a great contribution to public health in Kenya. The members of the branch should be proud of their work and should continue to support it.

Clothing and cash stolen

PADLOCK KEPT

A man named [Name obscured] has been arrested and is now in jail. He is accused of stealing clothing and cash from a shop in Nairobi. The shopkeeper has kept the padlock on the door to prevent the man from leaving.

The police have recovered the clothing and cash and are now investigating the case. The man is being held in custody until further notice.

WHY CAT DIESEL TRACTORS STAY ON THE JOB LONGER

Oil is the life of the motor of the oil slick. In larger crawler tractors, the heat and strain resulting from frequent use of the flywheel clutch can result in delay for adjustments and die replacements. To save the cost of these delays and replacements, the oil clutch is provided as standard equipment on DM, D7 and DM Tractors, and on the No. 6 Tractor.

The oil clutch is attached to the engine flywheel and is contained in a strong, dust-proof housing. A gear-type pump draws the oil through a strainer and circulates it through the clutch mechanism. The clutch dies are cooled and protected by a constant stream of lubricant. The clutch dies are cooled and protected by a constant stream of lubricant. The clutch dies are cooled and protected by a constant stream of lubricant.

You can expect that clutch repairs will not be required before engine overhaul. And, the Caterpillar Diesel Engine is famous for its ability to operate for long time before requiring an overhaul.

Visit our store and see the many features, from engine to truck, that help Caterpillar Diesel Tractors on the job longer!

WALES IN FINALS OF WORLD CUP

Report on final in cricket

Tomorrow's fixtures

All four British teams get through

The four British teams have qualified for the final of the World Cup. The fixtures for tomorrow are as follows: England vs. Australia, India vs. Pakistan, and West Indies vs. South Africa. The match between England and Australia is expected to be a close contest.

The match between India and Pakistan is also expected to be a close contest. The match between West Indies and South Africa is expected to be a one-sided affair.

UNITED BEACH EUROPEAN CUP SEMI-FINALS

The United Beach European Cup semi-finals took place yesterday. The match between England and Australia was a close contest, with England emerging as the victors. The match between India and Pakistan was also a close contest, with India emerging as the victors.

CITY COUNCIL NEW SOCIETY

The City Council has approved the formation of a new society. The society is expected to be formed in the near future.

Easy ride for Harcourt

Harcourt has had an easy ride in the recent matches. He is expected to continue his good form in the final.

IMPALA IN FINAL OF CRAIG CUP

Impala has qualified for the final of the Craig Cup. The match is expected to be a close contest.

A KIRUYU'S SUGGESTIONS TO CONTEMPORARY AFRICANS

What is the situation in Africa today? It is a situation of chaos and confusion. The continent is being torn apart by tribal wars, and the people are suffering from poverty and disease. The time has come when we must take a bold and decisive action to bring about a new and better Africa.

Letters to the Editor

Modern schools
The introduction of modern secondary schools in Africa has done more harm than good to the children, who are not being given the education they need to become self-reliant and productive members of their communities.

Responsibility for
Many a person who has been educated in Africa is a failure because he has not learned to take responsibility for his own actions and the welfare of his community. Education should be used to develop a sense of responsibility and a desire to serve the people.

Philips Hi-Amplifier
The Philips Hi-Amplifier is a truly remarkable piece of electronic equipment. It provides a wide range of amplification and is easy to use. It is available in various models to suit different requirements.

This grader really makes the grade!

The WAKEFIELD 603 equipped with an INTERNATIONAL 50.5 h.p. ENGINE*

*The engine that powers the famous 510-C Cavalier Tractor

£ 3450 for Nairobi

Big grader efficiency at less than half cost. Here is an economical and efficient grader at a realistic price. Sturdily built, the four-wheel tandem drive assures powerful tractive effort and full hydraulic control means job efficiency in blasting operations. Blade pressure is 5,470 lb. The standard blade assembly includes a 10' x 16 5/8" mould-board. We would be delighted to arrange a demonstration at any time.

SCIENTIFIC TEAM DISCLOSES FIRST OFFICIAL FINDINGS ON MT. KENYA EXPEDITION

This article introduces the papers which will be published in the East African Standard and which will outline the main scientific results of the Mount Kenya Expedition. The articles, which are written by the main scientific members of the expedition, will present their first authoritative published views. The Mount Kenya Expedition forms part of the general programme for the International Geophysical Year (or I.G.Y. for short) which is actually an 18-month period of intensive and wide-spread scientific observations of the geophysical conditions of the earth and its atmosphere and of the energy derived from outer space.

More than 60 nations are taking part in this gigantic enterprise at an estimated cost of £20,000,000. The spirit of I.G.Y. is essentially one of international scientific co-operation: that as possible and all results will be pooled and made available to all participating nations.

In East Africa the I.G.Y. programme has been organized by a committee under the leadership of Prof. J. P. Andrews of Makerere College. Among the East African members the observations are being carried out by the E.A. Meteorological Department provide the greatest contribution from the territories of the I.G.Y. Other important work in the study of the atmosphere is being done in the Physics Department of Makerere College.

VITAL HELP

The three British scientific staffs of geographers, meteorologists and physicists are being supported by the I.G.Y. programme in East Africa. The geographers are working on the study of the mountain and the vegetation. The meteorologists are working on the study of the atmosphere. The physicists are working on the study of the earth's magnetic field and the ionosphere.

I. S. LOUPEKIN

Senior Lecturer in Geology, Royal Technical College of Eastern Africa, and leader of the International Geophysical Year Expedition to Mount Kenya, describes the general basis of the organization of the expedition as an introductory background to reports by his colleagues.

The expedition was led by I.S. Loupekin, who has made a study of the geology of the mountain. The expedition was organized by the International Geophysical Year Expedition to Mount Kenya, which is a part of the International Geophysical Year programme.

SUPPLY DRIFT

The expedition is led by I.S. Loupekin, who has made a study of the geology of the mountain. The expedition was organized by the International Geophysical Year Expedition to Mount Kenya, which is a part of the International Geophysical Year programme.

Study from the air

A thought for Saint Valentine

For those matters of the heart, there is no better time than now. The International Geophysical Year is a time of international scientific co-operation. It is a time when scientists from all over the world are working together to advance our knowledge of the earth and its atmosphere.

R. M. GOLDEN KEY

For those matters of the heart, there is no better time than now. The International Geophysical Year is a time of international scientific co-operation. It is a time when scientists from all over the world are working together to advance our knowledge of the earth and its atmosphere.

FEAST OF LOVE

On St. Valentine's Day, it is a tradition to send a card to the one you love. This year, why not send a card to the International Geophysical Year? It is a time of international scientific co-operation. It is a time when scientists from all over the world are working together to advance our knowledge of the earth and its atmosphere.

WORK AND DISCOVERIES AMONG THE EQUATORIAL GLACIERS

Work and discoveries among the equatorial glaciers. The expedition is led by I.S. Loupekin, who has made a study of the geology of the mountain. The expedition was organized by the International Geophysical Year Expedition to Mount Kenya, which is a part of the International Geophysical Year programme.

new NUFFIELD UNIVERSAL

'THREE' DIESEL TRACTOR

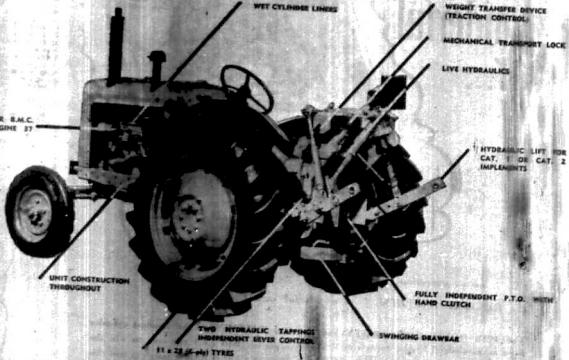

MAKE NO MISTAKE!

Nuffield Tractors are the cheapest tractors for horsepower both on initial cost and in operation. Their unit construction makes them easier and cheaper to maintain than other machines and on test they show a higher percentage of applied power at the drawbar.

GOOD NEWS FOR OWNERS OF THE NUFFIELD UNIVERSAL "FOUR"

The drawbar pull and performance of the new Universal "Three" tractor are of the same high standard as your Universal "Four". There is also a very high degree of interchangeability of parts and optional equipment including engine components.

Portrait of a wonderful car...

This is no exaggeration; the RENAULT DAUPHINE is a wonderful car.

The 1958 MONTE CARLO RALLY has been acknowledged by the experts as the most difficult ever held. This most nightmare of all production car trials took its toll of all but 36 of the original 302 starters.

Over 1000 miles of roads covered with snow and ice, the indomitable DAUPHINE driven by MONTECARLO and FERRET swept on to its greatest triumph.

The Dauphine is the smallest cylinder capacity (250 c.c.) car ever to win the MONTE CARLO RALLY outright and this success is a great reward for the skilled designers and technicians who created it.

In East Africa too, the DAUPHINE can tackle the roads with equal ease.

WHY NOT ADMIT IT YOU'RE LOOKING FOR A CHANGE!

INGRAM BRUSHLESS SHAVING CREAM

What an experience! The first time you use this shaving cream you will know why it is so popular. It is the only shaving cream that does not require a brush. It is the only shaving cream that is so easy to use. It is the only shaving cream that is so economical. It is the only shaving cream that is so refreshing. It is the only shaving cream that is so clean. It is the only shaving cream that is so smooth. It is the only shaving cream that is so soft. It is the only shaving cream that is so gentle. It is the only shaving cream that is so kind. It is the only shaving cream that is so good.

GOLF OPEN AT KERICHIO Poisoned hand put Taft out

The availability of Taft for the opening of the Open Championship at Kerichio was in doubt when he was found to have a poisoned hand. The condition was diagnosed as a severe case of eczema, which is a skin disease that causes itching and inflammation. Taft's hand was treated with various ointments and bandages, but the condition worsened, making it impossible for him to hold a golf club. He was eventually forced to withdraw from the tournament.

Impala 'A' in another hockey final

The Impala hockey team has secured a spot in the final of the National Hockey League championship. They defeated their opponents in a closely contested match, showcasing their skill and teamwork. The team's performance has been praised by fans and commentators alike.

Sports commentary in Poxy 23

A. B. Fisher's commentary on the sports scene is a must-read for any sports enthusiast. He provides insightful analysis and predictions for various sports events, including the upcoming hockey final. Fisher's expertise and passion for sports are evident in his writing.

Ali Baig Cup for table tennis

The Ali Baig Cup for table tennis is set to be held in Nairobi. The tournament will feature top players from the region, competing for the prestigious trophy. The event is expected to attract a large audience of sports fans.

Hoag has trouble with his service

Francis Hoag, world pro tennis player, is having trouble with his service during the Australian Open. He has struggled to maintain his usual level of accuracy and power, which has affected his performance on the court.

Nyanza Club lose winning sequence

Nyanza C.C. just failed to continue their winning sequence when they were defeated by Kericho at Kericho last weekend when their side was at full strength. Beating first, the Nyanza side was defeated by Kericho with only three wickets down and nearly 100 on the board with only three wickets down.

Moiben avenges earlier defeat at Eldoret

The side of which Moiben was captain collected 80 runs when he led Kericho to victory over Nyanza. Moiben's leadership was instrumental in the team's success, as they managed to overcome their earlier defeat at Eldoret. The team's performance was a testament to their resilience and skill.

Rain made greens tricky at Sigona

ALTHOUGH Sigona had little of the rain that fell in the district it was enough to make the greens in the ladies' Open extremely tricky. The rain had softened the greens, making them more difficult to play on. This added an extra layer of challenge for the players, who had to adjust their strategy accordingly.

ASIAN HOCKEY APATHY

ASIAN hockey is steadily slipping due to lack of interest by players in their own country. The lack of support and resources has led to a decline in the sport's popularity. This has resulted in a loss of talent and a general apathy towards the game among the public.

'BALANCE-LINE' ACCLAIMED IN U.S.A.

REX-TRUEFORM 'BALANCE-LINE'
arouses enthusiasm at World Clothing Congress
in Philadelphia U.S.A.

BEFORE 500 of the world's leading designers, Mr. Philip DiBowitz, Vice Managing Director and Chief Designer of the Rex Trueform Clothing Co., Ltd., demonstrated the entirely new concept of design and construction of the latest 'Balance-Line' clothing at the 96th Convention of the International Association of Clothing Designers in Philadelphia, U.S.A.

MR. DiBOWITZ's address and demonstration was enthusiastically received by the assembly consisting of International designers and designers of many countries. The new 'Balance-Line' design was the first to be adopted in the 48 years of the American fashion show. A number of the American designers present at the convention have already indicated their interest in the new design.

DESIGNERS' COMPLIMENTS
At the conclusion of the address Mr. DiBowitz was complimented by many designers who were seated near the

stage. The designers were particularly impressed by the simplicity and practicality of the new design. They noted the absence of unnecessary details and the emphasis on clean, functional lines. The designers also appreciated the ease with which the new design could be adapted to various body types and climates.

S.A. EXPERIMENTS
Mr. DiBowitz explained how he and his assistants had spent a long time in the laboratory of the Rex Trueform Clothing Co. Ltd. in London, England, experimenting with various materials and construction techniques to achieve the perfect fit and feel of the new design.

which would perfect fit and feel. The designers noted the ease with which the new design could be adapted to various body types and climates. They also appreciated the simplicity and practicality of the new design.

NO ALTERATIONS
The excitement of American designers is evident in the DAILY NEWS SERVICE, a special report appearing this week in the U.S.A. It emphasized that the new design, according to the designers, would be ready to wear clothing. The report stated that the new design would be ready to wear clothing. The report stated that the new design would be ready to wear clothing.

Mr. P. DiBowitz, being congratulated by the President of the International Association of Clothing Designers after his successful demonstration of the 'Balance-Line' at the Convention in Philadelphia, U.S.A.

ACHIEVEMENT FOR S.A.

The problem has been solved by Rex Trueform. The new design, according to the designers, would be ready to wear clothing. The report stated that the new design would be ready to wear clothing.

LEADING NEWSPAPERS REPORT 'BALANCE-LINE' SUCCESS

Success recognition for Rex Trueform 'Balance-Line' opens vast export potential

ALTHOUGH Rex Trueform's 'Balance-Line' clothing has already been widely known in the United Kingdom, the international success of the world's leading clothing manufacturer has been recognized by the largest import trade of the United Kingdom. The success of 'Balance-Line' is due to its simplicity and practicality, which are appreciated by the British public. The success of 'Balance-Line' is due to its simplicity and practicality, which are appreciated by the British public.

What is 'BALANCE-LINE'? — why is it different?

'BALANCE-LINE' introduces a new concept in clothing design. It is a simple, practical design that is easy to wear and comfortable. The success of 'Balance-Line' is due to its simplicity and practicality, which are appreciated by the British public. The success of 'Balance-Line' is due to its simplicity and practicality, which are appreciated by the British public.

FEATURING HOTELS
 KENYA'S growing hotel industry is attracting attention both the resident and the visitor. The Government has announced its intention to encourage the development of hotels and other accommodation in the country. The following are the hotels which are being built or planned in the various districts:
 Nairobi: 10 hotels, 1000 beds.
 Mombasa: 5 hotels, 500 beds.
 Kisumu: 3 hotels, 300 beds.
 Malindi: 2 hotels, 200 beds.
 Lamu: 1 hotel, 100 beds.
 Kisumu: 1 hotel, 100 beds.

TWO satellite villages for 10,000 men are to be built at Kangemi and Harawa, on the outskirts of Nairobi. In this article ALASTAIR MATTHEWSON reports on the plans, problems and progress of the scheme.

WHEN the present shortage of money and water—besides available, the Kiambu African District Council is ready to begin construction of two satellite villages on the outskirts of Nairobi.

The satellite villages at Kangemi and Harawa, off Upper Kabete Road and near Dagoretti Centre respectively, will house up to 10,000 Kikuyu men, women and children.

They will provide almost total employment for the economically depressed area of the Kiambu district, with occupations extending as far as the stone quarries in the Emberton district, and the new Harawa.

The District Commissioner, Kiambu, Mr. D. J. Penwell, is anxious to bring this scheme to the African District Council by next March, 1953, to bring this scheme to the Council.

The present shopping centre and school built at Kangemi.

High-class shopping centres, schools and a cinema to be built

rather than have them built at present. Mr. Penwell said that the new villages are a logical extension of the land consolidation programme being carried out in the district which will have been completed by July.

In each of the district's sub-districts, one present village is planned to accommodate the new village, a road, of which plans are being prepared.

Mr. Penwell said that the new villages are a logical extension of the land consolidation programme being carried out in the district which will have been completed by July.

They will accommodate 2,000 and 1,000 people respectively.

and the school subject to have well 10 of two different types, varying according to the financial position of the present village.

Costs range from £100 for a simple house to £1,000 for a modern house with a red tiled roof.

All the houses will be seven-roomed and will be built on a 1/2 acre plot.

They will accommodate 2,000 and 1,000 people respectively.

from the Central Housing Board.

The Board is composed of the local Kikuyu chiefs and the District Commissioner.

The Board is composed of the local Kikuyu chiefs and the District Commissioner.

The Board is composed of the local Kikuyu chiefs and the District Commissioner.

planned by the African District Council for a -2223-2224-2225-2226-2227-2228-2229-2230-2231-2232-2233-2234-2235-2236-2237-2238-2239-2240-2241-2242-2243-2244-2245-2246-2247-2248-2249-2250-2251-2252-2253-2254-2255-2256-2257-2258-2259-2260-2261-2262-2263-2264-2265-2266-2267-2268-2269-2270-2271-2272-2273-2274-2275-2276-2277-2278-2279-2280-2281-2282-2283-2284-2285-2286-2287-2288-2289-2290-2291-2292-2293-2294-2295-2296-2297-2298-2299-2300-2301-2302-2303-2304-2305-2306-2307-2308-2309-2310-2311-2312-2313-2314-2315-2316-2317-2318-2319-2320-2321-2322-2323-2324-2325-2326-2327-2328-2329-2330-2331-2332-2333-2334-2335-2336-2337-2338-2339-2340-2341-2342-2343-2344-2345-2346-2347-23

For the 2 in 5 who perspire freely

NEW MUM MIST SPRAY DEODORANT STOPS PERSPIRATION PREVENTS ODOR ALL DAY

WASH DEODORANT YOU NEVER THOUGHT OF

Keep you nice to meet!

FULL OF VITALITY since taking **BILE BEANS LAXATIVE PILLS**

You'd be better taking BILE BEANS LAXATIVE PILLS

Glaciers help to uncover secrets of the world's climate

To track the prehistoric phases of glaciality in the prehistoric past, the International Geophysical Year will see a concerted effort to study ancient glaciers. In the past, the study of glaciers has been limited to the study of water supply potential, but now the International Geophysical Year has opened up a new field of research.

The International Geophysical Year is a world-wide scientific program that will run from July 1, 1957, to December 31, 1958. It is the first time that scientists from all over the world will be working together to study the earth's physical features.

Glaciers are a key to understanding the earth's climate in the past. They have been found in all parts of the world, and their study can help us to understand the changes in the earth's climate over the centuries.

SWIFT CHANGE

Little more than 100 years ago, the world was a very different place. The climate was much warmer, and the glaciers were much smaller. This was due to a change in the earth's orbit around the sun.

The earth's orbit is not a perfect circle, but an ellipse. This means that the distance between the earth and the sun varies throughout the year. This variation in distance causes the earth's climate to change.

Frank E. Chartley, M.A. is a geographer by profession, and a glaciologist and scientific deputy leader of the Mount Kenya Expedition. A member of the Geological Society of Great Britain and of the Mountain Club of Norway, he has climbed in the Himalayas and in the Alps.

LONG-TERM VIEW

This then is a time of climatic instability with the possibility of a catastrophic change. The International Geophysical Year is a time of scientific discovery, and it is a time when we can learn more about the earth's climate in the past.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

DEPOSITS CHECK

The study of the physical features of the earth is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

JOINT EFFORT

The study of the physical features of the earth is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

STUDY OF POLAR GLACIERS REVEALS SECRETS OF THE PAST

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of polar glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

The study of glaciers is a key to understanding the earth's climate in the past. It is a time when we can learn more about the changes in the earth's climate over the centuries.

food...

Shopping can be a pleasure when you can buy the family's food without worry.

There are the refrigerators you have seen filled to bring health, comfort and convenience to your kitchen.

Frigidaire

...and extra features in the size you need and the price you can afford.

Refrigerator for wide containers and tall bottles.

Freezer and those compartments.

Variable Hydrator.

All in polyethylene and easily moved for easy cleaning.

Use a handy apron!

A wide range of models is available from 21 cu. ft. to 18 cu. ft.

Shop by available in local stores or write to nearest office.

EQUIPMENT SUPPLIED by the **MOTOR MART & EXCHANGE LTD.** ALL LEADING ELECTRICAL DEALERS

Show Page Introduces SILK STOCKINGS and FREEDOM FOR A SOVIET COMMISSAR

COLE PORTER'S musical, *Silk Stockings*, which ran in Broadway for two years, is to be produced in the East African States by the East African Tourist Corporation. The production is to be staged in Nairobi for the first time since the musical's Broadway debut in 1949.

The musical is set in Paris during the Second World War. It tells the story of a young woman who falls in love with a man who is a member of the French Resistance. The story is a love story that is set against the backdrop of a war-torn city.

BARBARA LANGI

A delightful comedy-drama, *Silk Stockings* tells the story of a young woman who falls in love with a man who is a member of the French Resistance. The story is a love story that is set against the backdrop of a war-torn city.

You'll be on the crest of a wave in South Africa!

Know of anything more bracing than a cool sea breeze? And there are plenty of ways of keeping cool and happy in South Africa. Take a surf board out and ride a comber in... with goggles and snorkel explore the undersea wonderland... or just play lazily in the friendly sun. For variety, ride and ramble from one of many hostleries up near the snows. And, for a while step into a sophisticated rhythm in one of the Union's big cities. South Africa is so easy to come to, and it has so much, so very much, to offer.

For free and friendly advice and information about holidays in South Africa, contact your Tourist Agent or write to South African Tourist Corporation, P.O. Box 1509, New Stanley House, Standard Street, Nairobi, P.O. Box 1509

Chain of Prayers

IF you remember that week
we said that today was a
special day? Because today we
are going to make a chain of
prayer for all the children all over
the world.

Whenever you are today,
even if you can't get to church,
if you know how and why to
pray you may be quite sure
that somewhere else in the
world some mother is holding
some little English village
there'll be somebody else thank-
ing the church with you.

At the top, the members of the Gunners' club, and below, the members of the club's executive committee.

'Luck of the Gunners' based on careful and novel planning

Blackheath's team and its captain, Alex James, have been crowned champions of the London Football League. The team's success is attributed to careful planning and novel tactics.

ALEX JAMES

After a previous start in the 1957 season, James decided to experiment with a "novel" formation in the new year. The team's success was a result of this planning.

New step captures honours

The new step in the capture of honours has been achieved through careful planning and novel tactics. The team's success is a result of this approach.

Portrait of a wonderful car...

This is no exaggeration; the RENAULT DAUPHINE is a wonderful car. The 1958 MONTE CARLO RALLY has been acknowledged by the experts as the most difficult ever held. This most nightmarish of all production car trials took its toll of all but 50 of the original 302 starters.

Over mountain roads covered with snow and ice, the indomitable DAUPHINE driven by MONTE CARLO RALLYERS emerged as the greatest triumph. The DAUPHINE is the smallest cylinder capacity (850 c.c.) car ever to win the MONTE CARLO RALLY outright and this success is a great record for the skilled designers and technicians who created it.
