PLANTERS' PROGRESS

The Story of Coffee in Kenya
by M. F. HILL

Large 100 pages, 8 1/2 x 11, with 150 illustrations, 1000 copies only.

Shs. 4.25

This book, locally written, produced and published by the Coffee Board of Kenya, is a remarkable example of local effort. It does full justice to the coffee planter and is set another chapter in Kenya's story history. Throughout the pages of this book, which is illustrated with fine photographs of the progress of coffee from tree to cup, there leap to the eye the names of men who have played a part in the service of their fellow planters, scientists and business men.

ANOTHER INCREASE IN RESERVES

Sixth consecutive month

Bank of England reserves have increased by £100 million in the month to £1,000 million, the sixth consecutive month of increase since the start of the year.

The increase was due to a rise in gold reserves of £50 million and a rise in foreign currency reserves of £50 million.

The Bank of England's reserves are the sum of gold, foreign currency, and other assets held by the bank. The increase in reserves is a sign of confidence in the pound and the British economy.

New games help to prevent Kenya wild

Kenya's wild game is being protected by a new system of reserves. The government has set aside large areas of land as national parks and game reserves, and has appointed a game warden to look after them. This system is expected to help to prevent the wild game from becoming extinct.

Heavy shooting
 The game warden has reported that there has been heavy shooting of wild game in the reserves. He has asked for more help to protect the game and to prevent the hunters from taking too many animals.

Condemned very
 The game warden has also reported that there has been a lot of poaching in the reserves. He has asked for more help to catch the poachers and to prevent them from taking too many animals.

Wampy skin disease cuts Kenya exports by £200,000

Kenya's export of skins and furs has been cut by £200,000 in the last 12 months because of a skin disease which has been spreading rapidly in the country. The disease, known as wampy, is caused by a parasite which attacks the skin of animals and causes it to become scaly and cracked. It is particularly common in the highlands and has been found in many of the country's game reserves. The disease is spread by contact with infected animals and is particularly common in the highlands and has been found in many of the country's game reserves. PROOD DENIED TO TERRORIST
being off-land

The Government has refused to supply a passport to a man who has been accused of being a terrorist. The man, who is believed to be a member of the Mau Mau movement, has been living in the United Kingdom since he fled Kenya in 1952. The Government has refused to supply a passport to him because it is believed that he is still active in the Mau Mau movement and is a threat to the security of the country.

Great beauty sought

The Government is seeking a woman of great beauty to represent Kenya at an international beauty contest. The woman must be a native-born Kenyan and must be between the ages of 18 and 25. She must also be a single woman and must have no previous marriages. The Government is offering a prize of £1,000 to the woman who is selected to represent Kenya at the contest.

CULTURAL TALKS OPEN IN CAIRO

A series of cultural talks has opened in Cairo, Egypt, under the auspices of the International Correspondence School. The talks are being given by a number of experts in various fields of culture and are intended to provide a wide range of information to students of the school.

TWO

Province closed to Kikuyu

The Government has closed the province of Kikuyu to all non-Kikuyu people. This is the first time that such a measure has been taken in Kenya. The Government has taken this step because of the increasing number of non-Kikuyu people who are moving into the province and the resulting tension between the two groups.

19-hour ordeal

A group of 19 people have spent 19 hours in a 19-foot cage as part of a protest against the Government's policy of closing the province of Kikuyu to non-Kikuyu people. The protesters, who are members of the Kikuyu community, have been in the cage since they were arrested on charges of disturbing the peace.

Drop expression

The Government has asked the public to drop the expression ' Mau Mau' from their conversations. The Government has said that the use of the word is offensive to the Mau Mau veterans and their families and that it is also a source of embarrassment to the country.

Honduras party chief for trial

The chief of the Honduran Communist Party has been arrested and is facing trial on charges of being a member of a subversive organization. The party has been active in Honduras since the end of the Second World War and has been accused of plotting to overthrow the Government.

EASTER CUSTOMS THAT HAVE STOOD THE TEST OF TIME

ATTACK ON OLD CARS

By Flora Norman

EASTER SUNDAY is widely known as "Pascegg Day" (Paschal) in the North of England, and is made much of there, far more attention still being given to it and customs than in the South.

This difference between North and South in the observance of Easter can be traced back to early times. It has been ascribed partly to the strong Viking influence in the North, where many present-day names are of Scandinavian origin, and partly to the differences in the English Churches. As early as the 12th century, at that time the North was swayed by the Celtic Church, and to the Roman Church and one of the differences between them was that they celebrated Easter on varying dates.

Pagan customs are incorporated in the fabric of the Christian Church and Easter in the North seems to be an outstanding example of how both have survived blended together.

The custom of Easter eggs is a curious perversion and that it is believed to be a survival of the pagan custom is probable. The eggs, as they are now known, are made of wood, and are decorated with designs of the resurrection of Christ. The custom of "Eating Palm, Pascegg" is a curious perversion and that it is believed to be a survival of the pagan custom is probable. WORLD BANK TO GIVE EAST AFRICA FULL HELP

Big expansion for roads, irrigation, power, health, education, housing, and other social services.

The World Bank has approved a loan of \$100 million to the Government of Kenya for the purpose of financing a wide range of social and economic development projects. The loan is the largest ever granted by the World Bank to a single country in the East African region.

The projects to be financed include the construction of roads, irrigation schemes, power stations, health centres, and educational institutions. The Government of Kenya has agreed to contribute 25 per cent of the total cost of the projects.

Homes for 5,000 at Nairobi

AN APPLICATION has been made to the Central Government for a loan of \$200,000 to finance the construction of 5,000 homes in Nairobi. The project is being undertaken by the Nairobi Housing Corporation.

The Corporation has already completed the construction of 1,000 homes and is planning to complete the remaining 4,000 homes by the end of 1962.

Flaw of capital

It is a common observation that the main reason for the economic stagnation of many developing countries is the lack of capital. This is particularly true in the case of Kenya, where the economy is heavily dependent on agriculture and the export of raw materials.

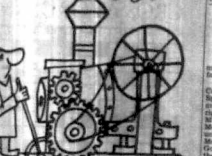

The Government of Kenya has recognized this problem and is taking steps to attract foreign investment and to encourage the development of local industries. This includes the establishment of a Board of Investment and the offering of tax incentives to investors.

Recessed days

The Government of Kenya has announced that it will observe recessed days on certain dates during the year 1962. These dates are: January 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st.

UNION PLANNED BY EMPLOYERS Colony-wide basis

EFFORTS to achieve the organization of the employers' union have been described as the most important of the Association of Commercial and Industrial Employers (A.C.I.E.) by the existing president, Mr. J. H. Hodges.

Mr. Hodges revealed that a year ago the association's members were divided into 12 groups, representing employers of different types of businesses. These groups have been working towards the formation of a single union, which would represent all employers in the colony.

The A.C.I.E. has already held several meetings to discuss the formation of the union and has received the support of many employers. It is expected that the union will be formed in the near future.

ENQUIRY INTO PYRETHRUM INDUSTRY

Mr. G. M. M. Johnson, Director of Agriculture, has announced that he is conducting an inquiry into the pyrethrum industry in Kenya. The inquiry is being conducted to determine the state of the industry and to identify any problems that may be affecting its development.

Mr. Johnson has held several meetings with growers and processors of pyrethrum to discuss the issues involved. He has also conducted field visits to various pyrethrum farms in the country.

Kenya Constitution - from Page 1

THE COUNCIL OF STATE

Under the provisions of the Constitution, the Council of State is a body of members appointed by the President. Its members are drawn from various parts of the country and represent different sections of the community.

The Council of State has the power to advise the President on matters of national importance. It also has the power to recommend the appointment and removal of judges and other high-ranking officials.

The Council of State is a permanent body and its members hold office for a fixed period of time. It is expected to play a significant role in the governance of Kenya.

ADVISORY CAP TIT

The Government is considering the establishment of an advisory committee to assist it in the development of the country's resources. The committee will be composed of experts in various fields, including agriculture, industry, and social services.

The committee's role will be to provide the Government with advice and recommendations on the best ways to utilize the country's resources and to promote economic growth and development.

Admissions to Faculty of Science

The admission list for the Faculty of Science at the University of Nairobi has been published. The list includes the names of students who have been accepted for admission in the various departments of the faculty.

The students are from various parts of Kenya and other countries. They will be commencing their studies in the Faculty of Science in the near future.

'NOTHING' IN REPORTS OF RESIGNING African seats

Reports that all African Members of the Kenya Legislative Council would resign after the elections for the Special Representative Council have been dismissed by the Chairman of the African Organisation, Mr. M. G. M. Johnson.

Mr. Johnson stated that the reports were unfounded and that the African Members of the Council were committed to their duties and would continue to serve the people of Kenya.

TRAINS AND PLANES TO COAST CROWDED

Good weather prospects have led to a significant increase in the number of passengers traveling by train and plane to the coast of Kenya. The roads are crowded with people and vehicles, and the air is filled with the sound of engines and the chatter of passengers.

The weather is expected to remain good for the next few days, which is likely to result in a continued increase in travel to the coast.

FASTER travel to East Africa

It is expected that the new air routes between East Africa and other parts of the world will result in faster and more convenient travel. The new routes will provide direct flights to major cities in Europe, Asia, and Australia.

The new routes are being operated by several airlines, and it is expected that they will attract a large number of passengers. This will be a significant boost for the aviation industry in East Africa.

Quiet time for Dar es Salaam

The city of Dar es Salaam is experiencing a period of relative quiet and stability. The government has implemented measures to ensure the safety and security of the city, and the people are responding positively to these measures.

The city is a major hub of commerce and industry in East Africa, and it is expected that the period of quiet will continue for some time.

Steel cords for tires

The use of steel cords in tires is becoming increasingly popular due to their strength and durability. Steel cords provide a strong backbone for the tire, which helps to maintain its shape and prevent it from being punctured or damaged.

Steel cord tires are particularly suitable for use in heavy-duty vehicles and in areas where the roads are rough and uneven. They are also more resistant to wear and tear than other types of tires.

go on in first Kikuyu homes MODERN VILLAGE

The first modern Kikuyu homes are being built in a village near Nairobi. The homes are built on a hillside and are designed to be both functional and aesthetically pleasing. They feature modern amenities such as electricity, running water, and flush toilets.

The village is being developed as a model for modern Kikuyu housing. It is expected that many more homes will be built in the area in the future.

Air lines ready to statement on Safari fare

The airlines operating in East Africa are preparing to make a statement on the issue of safari fares. The airlines are concerned that the current rates are too high and are making it difficult for many people to afford a safari.

The airlines are planning to meet with the government and other stakeholders to discuss the issue and to find a way to reduce the fares. They are confident that a solution will be found.

Higher standards look for Kenya

Higher standards are being set for Kenya in various fields, including education, health, and social services. The government is committed to providing the highest quality of services to its citizens and to ensuring that they are accessible to all.

The government is investing heavily in these areas and is expected to achieve significant improvements in the coming years. This will be a major step towards the development of Kenya.

First officials of new associations

The first officials of several new associations have been elected. These associations are focused on various issues, including education, health, and social services. The officials are committed to working for the benefit of their members and the community.

The associations are expected to play a significant role in the development of Kenya and in the improvement of the lives of its citizens.

FIRST - ZEPHYR! FIRST - ANGLIA!

FIRST - FORD!

IN EAST AFRICA'S TOUGHEST-EVER CORONATION SAFARI

EVER THOUGHT WHAT MAKES FORD A WINNER—THIS YEAR & EVERY YEAR?

The answer is—*you do*. You and the millions of other Ford enthusiasts throughout the world who show complete confidence in Ford. Backed by your judgement of looks, price, performance and service, Ford can claim that more people choose Ford than any other make. That goes for East Africa, too—and we've got figures to prove it! In this country, in these conditions you've got to have confidence in your car. See for yourself the number of proud Ford-owners on the road. They—like you and other members of the Ford family—drive in complete comfort and safety, secure in the knowledge of Ford reliability in any conditions. That's why every Ford is a winner.

SECOND WINDSCREEN BROKEN IN COLLISION WITH A GIRAFFE

The woman's 1957 No. 8, Mrs. E. J. Taylor, driven by her husband, Mr. J. Taylor, received a cracked windscreen from the impact.

They returned in the Opel Kadama, but missed their out of fuel, but each received the three women finished at 17 hours, the Easton left on to the rest.

On Monday evening they checked and still found a broken windscreen, but before leaving Nairobi.

The 1957 No. 81 and a 1956 No. 82 recently joined the party, which gave them a good lead over the remainder of the party.

MATTER OF LUCK

The Ford Anglia, No. 65, driven by Peter Hughes and T. Brooke, was among the first to break on to the road.

It was a matter of luck when they left the road and stuck but when they left the road they were able to get back and continue.

The 1957 No. 81 and a 1956 No. 82 recently joined the party, which gave them a good lead over the remainder of the party.

When he found that No. 1 had broken in at Dodoma, he realized that he was the only member of the Ford team with a chance to win.

The 1957 No. 81 and a 1956 No. 82 recently joined the party, which gave them a good lead over the remainder of the party.

WOMEN AT THE WHEEL

Appeal to some of adventure

By JEAN VAUGHAN

Mrs. E. A. FASTAO, a 35-year-old woman, is the 6th Continental Safari that entered the very previous year.

These adventuresome women for the East African Safari, which is the only one in the world that has been organized for women. Mrs. Fastao is the only woman to have taken the 10,000-mile trip to the Cape of Good Hope, several of them are former sailors who started their careers in the navy before they were married.

MORE EXPERIENCED

Probably the most experienced of the women members of the safari is Mrs. Mary Wright, Miss Joan Wright and Miss Joan Wright. They sailed up the coast of East Africa with the 100-mile Cape circuit.

Mrs. Knight first joined the safari in 1948 with Mrs. Wright. She has since then sailed up the coast of East Africa with the 100-mile Cape circuit.

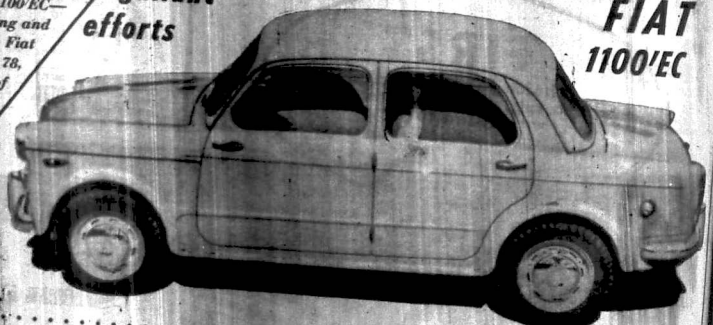

Motor racing hobby for ballet enthusiast

Mrs. Barton has always had a keen interest in motor racing, but she has only recently taken up the hobby. She is a ballet enthusiast and has been a member of the Royal Ballet for many years.

She has been driving a motor car since 1930 and has been a member of the Motor Club since 1935. She has also been a member of the Royal Automobile Club since 1938.

MOTHERS EXAMPLE

Mrs. Duggan is a mother of three children and has been driving a motor car since 1930. She has been a member of the Motor Club since 1935 and has also been a member of the Royal Automobile Club since 1938.

Driving tests show women are wonderful

By Paula Robinson

WOMEN drivers are wonderful. They are not only as good as men, but they are often better. This is the conclusion of a series of tests conducted by the Automobile Club of Great Britain and Ireland, which have shown that women drivers are just as capable as men in every respect.

The tests were conducted on a closed course, and the results were as follows: Women drivers were just as good as men in every respect, and in some cases were even better. They were just as good as men in every respect, and in some cases were even better.

It is a fact that women drivers are just as good as men in every respect, and in some cases are even better. They are just as good as men in every respect, and in some cases are even better.

MARRIAGE DOOMED

A woman's indifference to the husband of her first marriage is a common cause of divorce. In many cases, the wife's indifference is the result of a husband's failure to provide for her needs and desires.

NATIONALISTS LEAD

S. AFRICAN ELECTIONS

Labour and Liberal Parties eliminated

INCREASED POLLS

FIRST results in the South African General Election indicated a decided swing towards the National Party, which was not only ahead in the number of seats won but also in the aggregate number of votes cast in the national areas.

The National Party held by over 500,000 votes, as compared with 315,000 for the United Party and 200 for the other parties—Labour, Liberal and Independent. The state of the parties was: National Party, 74; United Party, 49.

Major seat change

A feature of the results was the elimination of all three Liberal candidates, four Labour candidates and two of the Independents. The two Labour members finished bottom of the poll in three-constituencies.

The elimination of these candidates points to the new House of Assembly meeting only representatives of the two main parties, with the exception of three Native representatives recently elected. They, however, support the United Party. There are 160 seats in the new House.

When the results were announced by the Delimitation Commission, the National Party was seen to be the United Party's main rival in the United Party's constituencies. The National Party held 100 seats, the United Party 49, the Labour Party 10, the Liberal Party 4, and the Independent Party 1.

Labour Party majority on L.C.C. more than trebled

Socialists gained 27 seats from Conservative and Independent County Council and more than trebled their majority. They also gained control of Middlesex County Council last year.

Land-Rover leads...

Specifically designed for use in agriculture and industry

Introduced in 1948, the 4-wheel drive Land-Rover has won a world-wide reputation for toughness and reliability. In industry, the versatile Land-Rover takes labour, stores and machinery to remote, roadless sites and tackles the toughest assignments with good-humoured ease. On the farm, it is indispensable for carrying loads, towing, ferrying men and materials about the farm, and as a source of mobile or stationary power capable of operating all kinds of machinery.

Simple to take

Four young men who create for the under twenty-fives

By GWEN ROBYNS

FOUR dedicated cheer-faced young men have jolted the whole of our women's world. This quartet of babes—Laurent, Laroche, Cardin, Givenchy—have lifted our skirts to dizzy-logic heights.

When things started to move in Paris, I firmly decided not to go but to wait quietly while the crazy fashions would get on with it. But when one day skirts had reached just below the knee and by the next were showing the thighs, I thought it was time to be on the birth of this grand new era.

I may be picking my neck out, but I'm willing to let my new spring come that the repercussions will hit here.

For what are those young men doing? They are giving an injection of youth to every woman.

It will echo in Hollywood. No longer will aged women look like Cary Grant was spiced like Audrey Hepburn.

ONLY THE YOUNG

Instead, I'll gladly accept Jacqueline's like Katharine Hepburn or the new Crayle Grey.

It will hit the inevitable.

This new "youth" brown hair is sweeter in line and more practical in arrangement.

It will hit the inevitable.

It will hit the inevitable.

It will hit the inevitable.

We hammered 3" NAILS into a FIRESTONE TUBELESS TYRE

... THEN DROVE THE CAR AT 75 M.P.H.

What happened? Nothing at all! Thanks to the Firestone Safety Line, Not an ounce of air leaked from the tyre which was punctured by no less than three large nails, through tread and sidewall... proving that for comfort, safety and safety under the worst conditions, FIRESTONE Tubeless Tyres cannot be beaten.

The Firestone Tubeless Tyre is so called because it does not require a tube to hold air. The portion of the tyre, from the tread to the sidewall, is made of a special rubber compound which is so strong and so pliable that it can hold its own shape and support the car's weight. This makes it a true tubeless tyre, as it is entirely tubeless. When the tread is punctured, the soft, compressed rubber close by flows in to fill the hole, preventing the air from escaping. You can actually drive your car for hundreds of miles before you appreciate that the tyre has been punctured.

IRELAND COULD BE CHAMPIONS

Wales head to draw at Cardiff

NEWCASTLE, ENGLAND, April 25.—Ireland's hopes of becoming the first team to win the World Cup in Wales were boosted today when it was announced that the Welsh side would play the Irish in the first round in Cardiff.

The Welsh Football Federation announced that the match would be played on May 1 at the Cardiff City Ground. The Irish team, which is managed by Jimmy Hogan, is expected to be a strong contender for the title.

The Welsh side, managed by Herbert Jones, is also expected to be a strong contender. The match is expected to be a high-scoring affair.

Hewitt equalizes

Wales had been leading 2-0 in the first round match when Jimmy Hewitt equalized for Ireland in the 25th minute. The match is expected to be a high-scoring affair.

France draw 0-0 with Switzerland

WASHINGTON, April 25.—France and Switzerland drew 0-0 in the first round of the World Cup in Paris. The match was played at the Stade de France.

The French side, managed by Fernand Soulier, is expected to be a strong contender for the title. The Swiss side, managed by Albert Bruggmann, is also expected to be a strong contender.
