Kenya TV films rated fourth by U.S. audiences. All-girl cast in 'Pride and Prejudice'

A KENYA PATRIOT... The British film 'Pride and Prejudice' has been rated fourth in a survey of U.S. audiences. The film, which features an all-girl cast, is a popular adaptation of Jane Austen's novel.

FIRST PRIZE IN CAR CONTEST FOR GIRL OF 15

A 15-year-old girl from Kenya has won the first prize in a car contest. The girl, who is a member of the Kenya Girl's Guide Association, drove a car around a circuit in Nairobi. Her car was a 1957 model and she completed the race in a record time.

PRISONER WITH ONE LEG ESCAPES

A prisoner with one leg has escaped from a prison in Kenya. The prisoner, who is a member of the Kenya African National Union (KANU), was found hiding in a bush near the prison. He had managed to cut through the fence and escape.

Malindi foresees a future

Malindi, Kenya, is expected to have a bright future. The town, which is a major port on the Indian Ocean, is being developed as a tourist and commercial center. The government has announced plans to build a new airport and a harbor in Malindi.

School principal dies

The principal of a school in Kenya has died. The principal, who was a member of the Kenya African National Union (KANU), died of a heart attack. He was a well-known figure in the community and was highly respected.

Queen Elizabeth

The Queen Elizabeth, a large passenger liner, is expected to visit Kenya. The ship, which is owned by Cunard Line, will arrive in Mombasa and will be on its way to Europe.

Autograph

An autograph of a famous person is being sold. The autograph, which is a handwritten note, is being sold for a high price. The person whose name is on the autograph is a well-known figure in the world of sports.

When in Britain

When in Britain, it is important to know the local customs and traditions. The British people are known for their politeness and their sense of humor. It is important to be respectful and to follow the local customs when visiting Britain.

LINT AND SEED MARKETING BOARD

The Lint and Seed Marketing Board is holding an auction. The auction will take place on Friday, July 11, and Friday, July 18, 1958. The board is selling lint and seed, which are important commodities in Kenya.

Each auction will be for 10,000 bales AR for August/September and September/October delivery.

KENYA FARMERS MAKE SCIENTIFIC APPROACH TO CEREALS PROBLEM

UP in the high country round Nairobi are putting the finishing touches on a new £15,000 block of laboratories. The Government is building, possibly by the Government in Africa, will syndicate the beginning of a new era in which farmers have joined forces with the Government to solve the cereal problem for good, ultimately, will benefit everybody.

Cereals research at the Agricultural Experiment Station at Njoro has been going on for many years, but it is only since 1952 that—through the aid of the Government—serious work has been done on the cereals which are causing the big cereal problem in Kenya.

Kenya farmers are now assured that modern scientific methods will also be used in the future, in this country, to solve the cereal problem. The Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya.

It is a strange thing that is going on in Kenya. The Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya.

RUST APPEARS
The effect of this disease has been to reduce the yield of wheat in the high country by 10 to 20 per cent. The Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya.

In this struggle, the Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya.

Labels: The early varieties of wheat are more susceptible to rust than the later varieties.

The new £15,000 laboratory at Njoro.

They found the wheat was much healthier from a disease which crept into it when it was young. This is the problem which has caused the big cereal problem in Kenya. The Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya.

A modern machine (above) harvests a field of wheat in Kenya. The Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya.

A modern machine (above) harvests a field of wheat in Kenya. The Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya.

PATROLLING THE ROAD

On very few roads in the world are there more workmen than in the roads of Kenya. The Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya.

It is a strange thing that is going on in Kenya. The Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya.

Labels: The early varieties of wheat are more susceptible to rust than the later varieties.

NEW SOURCES

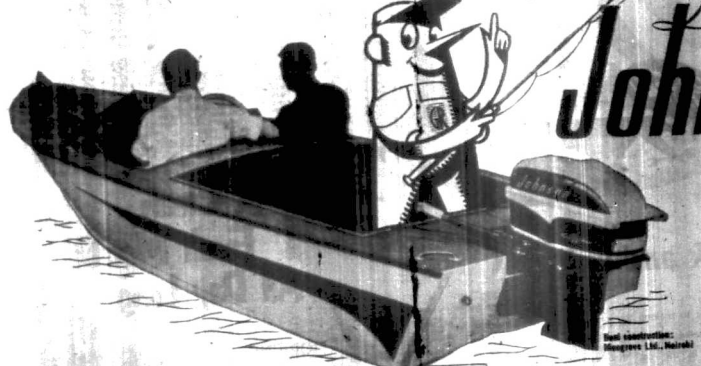

Kenya wheat growers are now assured that modern scientific methods will also be used in the future, in this country, to solve the cereal problem. The Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya.

Labels: The early varieties of wheat are more susceptible to rust than the later varieties.

ATOMIC RATS

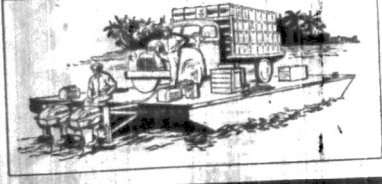

The Government is now writing an annual report on the cereal problem in Kenya, and the Government is now writing an annual report on the cereal problem in Kenya.

PARIS...NEW YORK...CHICAGO

An East African looks at America

THE prospect of flying something like 17,000 miles in a matter of a few days seemed rather terrifying at first.

But the whole of visiting America for the first time over-ruled any misgivings, and I left Nairobi last night, confident of a safe journey to a larger C. Commonwealth, beyond the frontiers of East Africa.

At first, while the passenger of the aircraft, I felt a little nervous, but when the flight was in progress, I found it a most relaxing and enjoyable experience.

At first, while the passenger of the aircraft, I felt a little nervous, but when the flight was in progress, I found it a most relaxing and enjoyable experience.

Always at your beck and call...

For smooth running, tip-top performance, light driving and smart appearance your Ford needs regular attention. And Ford stands always ready to help you at the slightest summons.

Whenever you may be, Ford has its service men at hand to help defeat the car's greatest enemy—neglect. Dealers who carry our name employ factory-trained mechanics. All are highly skilled. And all use Ford parts only for replacements.

Regular expert checking and the use of reliable parts is bound to prolong the long life of your car—but it also safeguards safety. The car which has regular service is the car that can be driven without a quiver.

Ford will play its willing part if only the owner will play his. Regular service and inspection at the Ford dealer's should be his Golden Rule. And he will be introduced to the QUALITY CARE service—organized service providing safety, good running and a saving of money over every cycle of 40,000 miles.

AFRICAN TOUR BY SCIENTISTS FROM VIENNA MUSEUM

FIVE Austrian scientists, headed by Rudolf Hertz, and a team of African explorers are on a six-day tour in Nairobi to prepare for the expedition to the Victoria Falls region of the Victoria Nyanza. The expedition will be led by Prof. Alfred Koenig, director of the Vienna Ethnographic Museum, and Prof. Hans Hergt, director of the University of Vienna.

The expedition will be headed by Prof. Alfred Koenig, who will be accompanied by Prof. Hans Hergt, Prof. Otto Schuchman, and Prof. Hans Hergt.

CONTINUED IN PAGE 13

The present journey, which covers most of North, East and Central Africa, is the first of a series of expeditions to Africa.

PRACTICALLY all the expeditions will be headed by Prof. Alfred Koenig, who will be accompanied by Prof. Hans Hergt, Prof. Otto Schuchman, and Prof. Hans Hergt.

EXPERT ON EXPORT SEEKS TO DEVELOP TRADE RELATIONS

At the same function at which I met Mr. Lerchow, leader of the Vienna Ethnographic Museum expedition, I talked with Mr. Hergt, expert manager of Farmer Industries, Ltd., Melbourne, who left Australia in April to conduct a varied marketing tour in the U.S., Canada, Southern Europe, East Africa, Rhodesia and South Africa.

Mr. Hergt, who stands vice president of the firm, told me that he is a member of the firm's Board of Directors. He is also a member of the firm's Executive Committee.

... (The text is partially obscured by a large black stain.)

P.T. competitions proved good fun—but set major problems

CLOSE your eyes and say to yourself "P.T." What do you see? For myself I see straight lines of white against the black of the "stripes" with "more heat" position being the starting point—interposed with "you might break your neck" and "won't break them"—and an occasional, "remembered."

But what I saw the P.T. competition between all the primary schools at Hampton, I found hardly better than the P.T. and a small dose of "remembered."

South Africa's 2000 yards race was a real test of the stamina of the boys in the Empire Games at Vancouver. The winner was a boy from the British Empire School in London. He was 11 years old and ran the race in 20 minutes and 30 seconds. This was a new record for the school.

The British Empire School is a boarding school for boys from all parts of the British Empire. It is one of the best schools in the world for P.T. and other sports.

STOCK MARKET OPENS ON QUIET SIDE

Oils make a recovery

London Stock Exchange was on the quiet side today as a result of the lower overnight trade. But a positive demand developed sharply after some signs of recovery after previous sessions. Higher oil prices were the main feature. The market was generally steady, with a few fluctuations. The closing was quiet and uneventful.

FINANCE AND COMMERCE
TAX RELIEF FOR GHANA COMPANIES
GHANA'S Finance Minister, Mr. Gbedemah, announced in his Budget statement that he was making changes in the tax structure to give incentives to improve development.

BOAC streaks ahead in jetliner travel!

Yes, indeed, BOAC's new jetliners, first jetliners to fly to Africa, are presently serving you today... and new Comet jetliners are already working months on transatlantic flying flights in preparation for their introduction on the Atlantic later this year. Delivery of a fleet of magnificent VC-10 jetliners is expected next year... and already ordered for BOAC early in the 1960's is a fleet of revolutionary new VC-10 jetliners—fastest, most powerful on the drawing board today. This is how BOAC is thinking and planning and acting... determined as always to lead the world in air travel—today and all the tomorrows to come.

Any Time is PICNIC TIME!

How lucky we are to live in a land where we can be sure of getting plenty of sun. Some folk picnic on champagne and pink de la vie glasses. At the picnics we go to there is tea in a thermos and paste sandwiches. But any picnic needs a portable—and here's the portable for any picnic.

It's the Murphy TBA 228A, a speaker or battery receiver that is the orchestra of portables. With telescopic aerial, attractive and sturdy cabinet, this is the set you can use at home, on a safari, or at a picnic.

With 5 short-wave bands and 1 medium-wave band, the TBA 228A gives you world-wide reception and perfect reproduction.

LEADING DANCERS AT THE MUSIC FESTIVAL

Close finish for main cup

The busy all-around dancer of the Kappa Music Festival on Monday night was Sheila McHugh (left) who is a member of the New Orleans School of Dancing. She won the Beverly Cup. The runner-up for the dancing honors, distributed tonight, was the Modern School of Dancing, Havana, who won with two cups, the Doreen Lippincott award for public dancing and the Beverly Cup. The runner-up for the whole competition was the Modern School of Dancing, Havana. Sheila McHugh.

ANOTHER winning dancer of the festival was Jane MacLennan, who took a "break" in the Modern School of Dancing. Her performance of a waltz dance earned her first place in the dance competition for children aged seven to ten.

UNIT SECURITIES GROUP Chairman's encouraging review of position EFFECT OF RECESSION OVERSEAS

Mr. W. H. French, chairman of the committee on the Unit Securities Group, has given an encouraging review of the position of the group in the face of the recession overseas.

Mr. French, who presided at the meeting of the Unit Securities Group, held in London last night, said that the group had a "very favorable" outlook for the future. He pointed out that the group had a strong record of performance in the past and that he was confident that the group would continue to do well in the future.

Mr. French also pointed out that the group had a strong record of performance in the past and that he was confident that the group would continue to do well in the future.

COUNTY TOWN BUSTLE

EVENTS on Kericho, the County Town, were varied and interesting. The bustle was due to the arrival of the new school term, the opening of the new market, and the holding of the County Council meeting.

Railway talks

Mr. M. N. C. O. Mwangi, Provincial Commissioner, was in Kericho for a day to discuss the railway project with the local authorities. He is expected to return to Nairobi tomorrow.

Guest visiting

The County Executive Officer, Mr. J. A. G. O. Mwangi, was visited by a delegation from Nairobi led by Mr. J. A. G. O. Mwangi.

Daily meals

Plans are well advanced for the formation of a daily meal scheme in Kericho. This will be a great relief to the poor.

Amulance work

Mr. E. W. South-Davies, who is in charge of the ambulance work in Kericho, has been successful in his efforts to improve the service.

Read proposals approved

The County Council has approved the proposals for the improvement of the roads in Kericho. This is a great step forward.

Lighting kills two

A woman and a child were killed by lightning in Kericho. This is a tragedy which has shocked the community.

Attack on Government's markets policy HALTING PROGRESS

Market stalls closed

Government's policy of forcing market stalls to be closed has led to a halt in progress. This has caused a great deal of hardship for the people.

PEOPLE in the NEWS

GUNNERS REVIVE ASSOCIATION AND PLAN REUNIONS

A meeting to revive the East Africa Gunners Association which has been very active during the last few years, was held in London last week. The association was founded in 1914 and has since then been dormant.

A committee was appointed, and the post of secretary is held by Major-General Sir John Dill, who is also the president. The committee is now working on a plan to hold a reunion in East Africa, perhaps in 1935, to mark the 20th anniversary of the end of the war. The reunion is to be held in the East African States, and the committee is now working on a plan to hold a reunion in East Africa, perhaps in 1935, to mark the 20th anniversary of the end of the war.

DAWN-TO-DUSK AERIAL TASK

WHEN young Ludwig Martel was learning to fly a glider, and later an airplane, in his school days near Lodz, in Poland, he could not have guessed that 25 years later he would be leading his flying by flying 20 to 50 feet above the ground killing several Germans in British Southland.

For Mr. Martel's mission was to lead a flight of the R.A.F. to the Battle of Britain against the Luftwaffe. He was one of the few pilots who were able to fly at dawn and dusk, and he was one of the few pilots who were able to fly at dawn and dusk.

Mr. Martel's mission was to lead a flight of the R.A.F. to the Battle of Britain against the Luftwaffe. He was one of the few pilots who were able to fly at dawn and dusk, and he was one of the few pilots who were able to fly at dawn and dusk.

'TINGLING-FRESH'

-and that means healthy gums-

Yes, you can feel that healthy tingle—it tells you that regular brushing with Gibbs S.R. is more than just refreshing—it's proof that you are looking after both your teeth and your gums.

Ice-fresh Tingle Fresh! That tingle comes from the Sodium Ricinoleate in Gibbs S.R. Sodium Ricinoleate is the substance used by many dentists for treating common gum disorders, and it's there in every tube of S.R. to care for your gums, making them tingle with health. Keep your teeth sparkling white, your breath sweet, and your gums firm and healthy with Gibbs S.R.—the tingling fresh toothpaste.

Ice-fresh, tingle-fresh!

Gibbs S.R. is good for teeth and gums

JUST A TOUCH OF LACE TO BRIGHTEN THE BOUDOIR

EVERY dress of a party, however dressy, looks well with a touch of lace. Lace adds a touch of femininity and grace to the most demure and demurest of gowns. Lace is also a decorative touch to the most elaborate and elaborate of gowns. Lace is a touch of lace. Lace is a touch of lace. Lace is a touch of lace.

French gloves still carry that 'hand made' hallmark

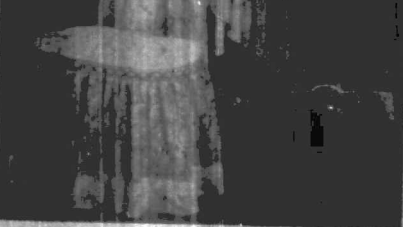

The leather glove industry is one of the last strongholds of the artisan in France. Of the 72 separate processes involved in making a pair of French gloves, a minimum of 40 are done by hand. The industry, which is in the process of being replaced by machinery in other countries, is still producing some of the finest gloves in the world.

VERY FULL

When looking for a dress, the first thing you should look for is the neckline. A dress with a full neckline is a dress that is full. A dress with a full neckline is a dress that is full. A dress with a full neckline is a dress that is full.

Sports Quiz

A WEEKLY test of sports knowledge.

1. What was the name of the first American to win the Wimbledon tennis championship?

2. What was the name of the first American to win the Olympic gold medal in the 100-yard dash?

3. What was the name of the first American to win the Olympic gold medal in the 200-yard dash?

4. What was the name of the first American to win the Olympic gold medal in the 400-yard dash?

5. What was the name of the first American to win the Olympic gold medal in the 800-yard dash?

6. What was the name of the first American to win the Olympic gold medal in the 1,600-yard dash?

7. What was the name of the first American to win the Olympic gold medal in the 3,200-yard dash?

8. What was the name of the first American to win the Olympic gold medal in the 6,400-yard dash?

9. What was the name of the first American to win the Olympic gold medal in the 12,800-yard dash?

10. What was the name of the first American to win the Olympic gold medal in the 25,600-yard dash?

Judo—ideal sport for women and...

JUDO is not only a sport, it is a way of life. It is a physical and mental training system that has been developed in Japan. It is a sport that is ideal for women and girls. It is a sport that is easy to learn and can be practiced anywhere. It is a sport that is fun and exciting. It is a sport that is good for you. It is a sport that is worth learning.

MONIQUE YEMMA, a 19-year-old student at the University of Toronto, has won a gold medal in the 48-kg. weight class at the World Judo Championships in Tokyo, Japan.

Yemma is a member of the Canadian national team. She has won several international titles. She is a very successful judoka. She is a role model for many young women. She is a true champion.

...CHILDREN FROM THE AGE OF FIVE

Children from the age of five should be encouraged to play board games. Board games are a great way for children to learn and have fun. They help children develop their thinking and problem-solving skills. They also help children learn about strategy and planning. Board games are a great way for children to spend their free time.

Let's Learn Soccer

DRIBBLING

Dribbling is a key skill in soccer. It is the ability to move the ball with your feet while keeping it under control. There are several ways to dribble the ball. You can use the inside of your foot, the outside of your foot, or your heel. Dribbling is a skill that can be learned and improved with practice.

SAL-FERRICITE

Through-and-through TOUGHNESS

A Sal-Ferricite Pavement, with its Metallic Hardener Finish is the finest medium for obtaining an economical and efficient wearing surface.

SAL-FERRICITE is a finely graded metallic compound that is mixed with Portland Cement and an aggregate. Its extreme fibrous nature ensures an even distribution right through the mortar, forming a component part of the resulting concrete, filling all voids and pores and so increasing the density on its surface. It is a truly impervious to oil, water, etc. The fine metallic particles are graded in such a manner as to form an iron-like surface that is non-dusty and resistant to practically any type of wear or traffic.

LIQUID No. 1

A well-known product used extensively in the Building and Engineering Industries for waterproofing concrete. Liquid No. 1 has no deleterious effects, but actually improves the quality of concrete. It seals and compressive strength are increased. Sealing and bonding times may be extended and added. Liquid No. 1 is mixed with the grouting water.

British Army manoeuvres in Mesopotamian border regions Battle group of Americans flown to southern Turkey

BRITISH ARMY IN TROOPS IN JORDAN

Senior tells of American demands of Hussein in plea U.N. CHARTER CITED

BREITENBERG, flying parachute to Jordan, at the request of King Hussein, after the discovery of a plot by the United Arab Republic to capture a camp in Amman, Mr. Breitenberg told the House of Commons last night. He said the United States was commiserated a similar request for aid. It was announced in Washington that a battle group of 1,000 American troops had landed in Amman, southern Turkey, 100 miles from the Syrian frontier.

P. R. A. F. Bevelsley and one Hastings had arrived in Amman by early afternoon. An official statement said the British action was taken under Article 35 of the United Nations Charter, which provides for collective defence until the Security Council had taken action to maintain peace.

While Mr. Macmillan was speaking in the Commons, the Foreign Secretary, Mr. Selwyn Lloyd, was in Washington for talks with President Eisenhower.

Cabinet drama at midnight

JORDAN PLOT WARNING

NEWS of a plot in Jordan, plotted by Egypt and Syria in the return to Iraq, caused a surprise midnight session of the British Cabinet lasting two hours before a decision was taken to send troops of the Queen's Royal Lancers and the Prime Minister's Body to Jordan. When they discovered the plot, which was to be carried out by the Syrian and Egyptian forces, the British Government decided to send troops to Jordan to prevent the plot from succeeding.

The British Government decided to send troops to Jordan to prevent the plot from succeeding. The British Government decided to send troops to Jordan to prevent the plot from succeeding.

Three warships expected

It was announced in Moscow that Kildinoff will be closed in the public today and tomorrow. Three warships on the cruiser Gambia and the frigate Highflyer and the tanker Taurus were reported to be on the way today and were expected to pick up troops saved from Beirut. The aircraft carrier Bulwark was expected to arrive in Beirut today but her commander, Capt. P. D. Galt, said he knew nothing of her future movements.

General Bekef had announced that Russian aid and all forces would bring 'maneuvers' forth today in Transcaucasia and Turkmenia, and the Turkish and British navies, based in the Black Sea Fleet would also take part. In Cairo, President Nasser said that in the event of any attack on Iraq the British fleet would carry out its obligations under the Arab collective security pact.

The sailing of the 2,000 United States Marines to the Lebanon was completed yesterday, but early reports that the troops arrival had been welcomed by the population appear to have been misleading. Unknown persons fired shots at a party of the Marines yesterday in Beirut. They also were reports of harassment by the Lebanese Army at their progress in Beirut.

Lebanese anger at Marines' presence

UNIDENTIFIED gunmen opened fire yesterday on a group of United States Marines in Beirut, they said. The Marines, who were accompanied by Lebanese police, were unharmed and the Lebanese troops were completely yesterday.

The Lebanese police were unharmed and the Lebanese troops were completely yesterday. The Lebanese police were unharmed and the Lebanese troops were completely yesterday.

Federation plans for West Aden

Proposals for the establishment of a Federation of the United Arab Emirates and the United Arab Republic have been discussed with the British Government by return from the United Arab Emirates.

The proposals for the establishment of a Federation of the United Arab Emirates and the United Arab Republic have been discussed with the British Government by return from the United Arab Emirates.

U.N. observers a success

In the Security Council, the United Nations Secretary-General announced that the U.N. observers in the Middle East had been successful in their mission. The U.N. observers in the Middle East had been successful in their mission.

In the Security Council, the United Nations Secretary-General announced that the U.N. observers in the Middle East had been successful in their mission. The U.N. observers in the Middle East had been successful in their mission.

Mr. Selwyn Lloyd, Foreign Secretary, is seen in the background of the photograph. He is standing next to a woman who is wearing a dark dress and a white shawl. They are both looking towards the camera.

ENVOY ESCAPES IN MOB ATTACK ON EMBASSY

SIR MICHAEL WRIGHT, British Ambassador in Baghdad, was shot at from a mob of 500 men during a riot in Baghdad last night. He escaped in a car and was taken to the British Embassy. The riot was caused by the mob's anger at the British Government's decision to send troops to Jordan.

Committee explains its HOPE resolution to ... PRESIDENT OF ...

The committee explains its HOPE resolution to the President of the United States, who is expected to sign it. The resolution is aimed at preserving the National Park System and the Adirondack Park. It calls for the establishment of a National Park Commission to study the parks and make recommendations to the President.

The committee also discusses the importance of the parks and the need for their preservation. It notes that the parks are a national treasure and that they provide a source of recreation and inspiration for all Americans.

The resolution is expected to be signed by the President in the near future. It is a landmark piece of legislation that will ensure the protection of the nation's natural resources for generations to come.

The resolution is a landmark piece of legislation that will ensure the protection of the nation's natural resources for generations to come. It is a landmark piece of legislation that will ensure the protection of the nation's natural resources for generations to come.

THE PLAN TO HELP IN PRESERVATION

 NEW Style HOME PERMANENT

makes good petrol better

only Shell has it

THE I.C.A. STORY
 I.C.A. does not stop engine deposits.
 Nothing you do that. But it neutralises them as they form in the combustion chambers and on the spark plugs of your engine. This prevents them glowing red-hot and the mixture independently of the engine. The cause of power loss and rough running is thus eliminated. Thanks to I.C.A., your engine will always give you the best performance and run more smoothly.

SHELL with I.C.A.

Firestone Plus-Mileage Plan HELPS COCA-COLA CUT TRANSPORT COSTS

As the C. C. Smith Company of Coca-Cola Bottling Company of Indianapolis, Ind., Inc., illustrates, more efficient transportation of the various types of soft drink, soda-water, and beer after a long trip in distribution is the first step in saving. It is the only way to reduce the cost of distribution. The Firestone Plus-Mileage Plan helps Coca-Cola Bottling Company of Indianapolis, Ind., Inc. to save. A Firestone Plus-Mileage Plan is a plan that allows the driver to drive as far as possible on one gallon of gas. This is done by using Firestone tires, which are designed to last longer and to provide better traction. The Firestone Plus-Mileage Plan is a plan that allows the driver to drive as far as possible on one gallon of gas. This is done by using Firestone tires, which are designed to last longer and to provide better traction.

THE NEW NEWS THINKING ON EAST

Letters to the Editor

KILLING WILD OIL

DURING the last few weeks the oil industry has been engaged in a campaign to kill the wild oil fields. The industry has been successful in getting the Government to pass a law which will allow it to drill for oil in the wild fields. The industry has also been successful in getting the Government to pass a law which will allow it to drill for oil in the wild fields.

School chaps!

It has been said that the school boys of the world are the most intelligent and most capable of any group of people. They are the future of the world and it is our duty to educate them properly. They are the future of the world and it is our duty to educate them properly.

FISHING INDUSTRY MAKES GOOD PROGRESS

Credit given to new nets

The fishing industry has made good progress in the past few months, according to a report from the Ministry of Fisheries. The report states that the industry has been able to increase its output significantly, thanks to the introduction of new fishing nets and improved fishing techniques.

The Ministry of Fisheries has also been able to secure credit for the industry, which has helped to finance the purchase of new fishing gear and the expansion of fishing operations. This credit has been particularly helpful in the case of small-scale fishermen, who have often struggled to obtain financing in the past.

The report also notes that the industry has been able to diversify its operations, with many fishermen now engaged in other activities such as aquaculture and fish processing. This diversification has helped to reduce the industry's dependence on fishing and has provided a more stable source of income for many fishermen.

The fishing industry has made good progress in the past few months, according to a report from the Ministry of Fisheries. The report states that the industry has been able to increase its output significantly, thanks to the introduction of new fishing nets and improved fishing techniques.

£30,000 ON AFRICAN HOUSING

The Government has announced that it will provide £30,000 to assist in the construction of housing in Africa. This funding is part of a larger initiative to support economic development and improve living conditions in the continent.

The money will be used to finance the construction of a variety of housing projects, including the building of new houses, the renovation of existing structures, and the provision of basic services such as water and electricity. The projects will be carried out in a number of different African countries, with a focus on areas that are particularly in need of housing.

The Government's commitment to housing in Africa is a reflection of its broader policy of international development and cooperation. By providing financial support for housing projects, the Government is helping to address one of the most pressing needs of the African continent and is contributing to the long-term economic and social progress of the region.

Eldoret to go ahead with water schemes

The Eldoret Municipal Council has decided to go ahead with the water supply scheme for the town. The scheme, which has been in the planning stages for some time, will involve the construction of a new water treatment plant and the laying of a network of pipes to deliver water to the town's residents.

The council has approved the necessary budget for the project and has also secured the necessary permissions from the relevant authorities. The scheme is expected to be completed within the next few months, and will provide a significant improvement in the town's water supply.

Consent forms to be sent with water bills

The Water Board has announced that it will begin sending consent forms to customers along with their water bills. This move is part of an effort to streamline the process of obtaining consent for water supply and to ensure that all necessary paperwork is completed in a timely manner.

Customers will receive a consent form with their next water bill, and will be asked to return the form to the Water Board. This will allow the Board to process the consent applications more efficiently and to begin work on the water supply project sooner.

NEW ASIAN SCHOOL OPENED AT NAKURU

Accommodation for 308 pupils

A new Asian primary school has been opened in Nakuru, Kenya. The school, which is named after the late Prime Minister of India, Jawahar Lal Nehru, is the first of its kind in the area and is expected to provide a high-quality education for the local Asian community.

The school has a capacity of 308 pupils and is equipped with modern facilities, including classrooms, a library, and a sports ground. It is staffed by a team of experienced teachers and is expected to attract a large number of students from the surrounding area.

The opening of the school is a significant achievement for the local Asian community and is a testament to the commitment of the Government and the private sector to providing quality education for all children in Kenya.

Court acquits Salvation Army officer

A Salvation Army officer has been acquitted of charges of indecent exposure. The officer, who was charged with exposing himself to a group of children in a public place, was found not guilty by the court after a lengthy trial.

The officer's lawyer argued that his client was not aware of the charges and that he had acted in good faith. The court accepted these arguments and acquitted the officer of all charges.

Proposal to form juju club

A proposal to form a juju club has been put forward. The club, which is intended to promote the study and practice of juju, a traditional African religion, has been met with mixed reactions from the community.

Some people support the club, believing that it will help to preserve and promote a traditional aspect of African culture. Others, however, are concerned that the club may encourage superstition and other harmful practices.

Overseas mails

The Overseas Mails section has received a number of letters and parcels from abroad. The section is pleased to be able to provide a service to overseas customers and is committed to ensuring that all mail is delivered in a timely and secure manner.

STOP PRESS

Woman given 14 years for bludgeoning baby

A woman has been sentenced to 14 years in prison for the bludgeoning of her baby. The woman, who was charged with the murder of her 18-month-old child, pleaded guilty to the crime and was found guilty by the court.

The woman's lawyer argued that his client was suffering from mental health issues at the time of the crime and that she should be given a lighter sentence. However, the court rejected these arguments and sentenced the woman to 14 years in prison.

SUMMIT AGREEMENT!

Major defence pact signed. "THERE PERTS MUST GO!" say Geigy and Fisons

Look for these signals!

Geigy and Fisons have signed a major defence pact, which is expected to have significant implications for the chemical industry. The pact, which is known as the Summit Agreement, involves the joint development and production of a range of new chemical products, including those used in the defence sector.

The agreement is seen as a landmark event in the history of the chemical industry, as it represents the first time that two major chemical companies have entered into such a comprehensive partnership. It is expected that the agreement will lead to a number of new products and services, which will benefit both the defence and civilian sectors.

Geigy and Fisons are both well-known chemical companies, and their partnership is expected to bring together a wealth of expertise and resources. This is likely to result in a number of innovative new products and services, which will help to drive the growth and development of the chemical industry.

Cardigan suits make a welcome return for the cooler days

By JANE PERRY

One of the most interesting and practical garments emerging from Paris this season is the cardigan suit in knit fabrics. This is an exact copy of the longline and knee-length cardigan sweater of the 1930's.

For these cardigan suits, the knit fabrics are made of wool, rayon, silk, or a combination of these materials. They are made in a variety of colors and patterns, and are available in a wide range of sizes.

The cardigan suits are made in a variety of styles, including the longline and knee-length styles, and the shortline and hip-length styles. They are made in a variety of colors and patterns, and are available in a wide range of sizes.

GAY NEW SHOES FOR AUTUMN

By MARY ELLEN

If you are thinking of buying a new pair of shoes, you should study the footwear trends for autumn. There are the main features noted at a preview of a collection of high-heeled shoes in England.

Designs of every shade and color are being shown. The color is the strongest feature. The shoes are made of leather, suede, and cloth. They are made in a variety of styles, including the pump, the loafer, and the boot.

Regular beauty treatments for good leather

MILLIONS of people a year are spending for leather goods. Many leather goods are made of good leather, but many are made of poor leather. The leather is often treated with chemicals that make it stiff and brittle. This makes the leather difficult to work with and causes it to crack and peel.

POLO A ROYAL SPORT TO BE PLAYED AT CARDIFF

By a Special Correspondent

Cardiff, Wales, June 11.—The polo season in Wales is about to open, and the first match will be played at Cardiff on June 15. The match will be between the Cardiff and Newport teams.

The Cardiff team is led by Captain Jones, and the Newport team is led by Captain Smith. The match will be played on the Cardiff polo ground, which is one of the best in Wales.

The polo season in Wales is very popular, and many people attend the matches. The matches are usually played in the afternoon, and the weather is usually very good.

Kings of England and France enjoyed this little-known game

By M. BARBARY

The polo season in England and France is about to open, and the first match will be played at London on June 15. The match will be between the London and Paris teams.

The London team is led by Captain Jones, and the Paris team is led by Captain Smith. The match will be played on the London polo ground, which is one of the best in England.

The polo season in England and France is very popular, and many people attend the matches. The matches are usually played in the afternoon, and the weather is usually very good.

FEATURING SPORT

Continued from the other side of the page.

FOOT SPEED

The foot speed of a player is one of the most important factors in polo. A player with fast feet can move quickly to the ball and make accurate passes.

There are several ways to improve foot speed. One way is to practice running drills. Another way is to wear shoes that provide good support and cushioning.

It is also important to maintain good posture and balance. This will help a player move more efficiently and avoid injuries.

Let's Learn Soccer

The number one to six in the top half shows the correct way to dribble the ball. The number seven to ten in the bottom half shows the correct way to pass and shoot the ball.

POSSIBLE DRIBBLING

On the dribbling, a player's job is to keep the ball close to his feet and move it in the direction he wants to go. This is done by using the inside of the foot to touch the ball.

There are several ways to dribble the ball. One way is to use a short, quick touch. Another way is to use a longer, more powerful touch.

It is important to keep the ball moving and to avoid being tackled by the opposition.

Reporting on the damage

The damage to the city of Nairobi is being reported on by the local press. The reports indicate that the damage is extensive and that the city is still in a state of chaos.

TREES TOP IN RAIN
Year's average
DURING Wednesday night's rain, the trees in Nairobi were reported to be the tallest in the city. The rain was heavy and lasted for several hours.

Fortunate escape for farmer MAN CHARGED
A NAIROBI farmer who escaped with his family from a fire in his house is being charged with arson. The fire was reported to have started in the kitchen.

TRIBUTE IN COURT TO LAWYER
A tribute was paid to a lawyer who died in a car accident. The lawyer was known for his skill and dedication to his profession.

Dr. A. de Souza
The Dr. A. C. L. de Souza, who is a member of the Legislative Council, is expected to resign. The resignation is expected to take effect in the near future.

HOSPITAL IN DIRE FINANCIAL PLIGHT
Lack of public interest
The Nairobi Hospital is in a dire financial plight due to a lack of public interest. The hospital is facing a severe shortage of funds and is unable to maintain its services.

Plato for future
The Nairobi Municipal Council has decided to purchase a plot of land for a future development. The plot is located in the center of the city and is expected to be developed in the coming years.

COMPLAINT TO COUNCIL OF STATE
A complaint has been filed with the Council of State regarding the actions of the local government. The complaint states that the local government has acted in an illegal and unconstitutional manner.

The weather
The weather in Nairobi is expected to be hot and sunny for the next few days. The temperature is expected to reach a high of 30 degrees Celsius.

PLANNING
The Nairobi Municipal Council is planning to hold a public meeting to discuss the future development of the city. The meeting is expected to be held in the coming months.

YEAST-VITE

These Yeast-Vite Tablets

When you're overtired, tired or depressed, 2 yeast-vite tablets taken with a glass of water are what you need. They help you throw off fatigue, banish the headache, and give you more energy.

BUY YEAST-VITE TODAY

The Lightning Pick-me-up Tablets

FEEL BETTER ALREADY!

Yeast-Vite certainly looks a lot better than any other yeast-vite.

Putty told me about Yeast-Vite. Now I always keep a bottle handy.

YEAST-VITE

The Lightning Pick-me-up Tablets

WE TORTURED A FIRESTONE TUBELESS TYRE to prove you're safe in a "tight corner"

Here's how. A Firestone Tubeless Tyre was mounted on the front wheel of a car and inflated to only 2 lbs. air pressure. In the few days that passed the car was driven at high speed in a tight circle. All the strain was put on the one front tyre with the single corner of the tyre being so tight that it was so distorted that it was actually riding on the bottom end of the rim. The car began to shimmy and wobble. The driver was so nervous that he was actually shaking. The car was driven under ordinary conditions, then it was driven on the road. Firestone Tubeless Tyres continue to hold their own and keep you safe in the tightest corner.

WHAT ABOUT PUNCTURES? With Firestone Tubeless Tyres, a puncture no longer automatically means a "flat". In actual use, Firestone engineers discovered that only one of every 100 Firestone Tubeless Tyres, that drive their car at 70 m.p.h.

WHAT ABOUT REPAIRS? Your Firestone Tubeless Tyre can be repaired by patching the inner liner—and the outside, by use of an ordinary self-vulcanizing cold patch—or on the wheel with a self-vulcanizing plug. It's much easier than repairing a tube.

WHAT ABOUT RE-ALIGNING? Because there is no separate tube to hold up the Firestone Tubeless Tyre, the cooler and Firestone's exclusive, Cross-Dispensing and Triple Impregnating process considerably lengthens the life of the tread body—allowing you to re-align again and again.

WHAT ABOUT MILEAGE? The secret of longer mileage lies in Firestone's cold rubber tread formula available ONLY in Firestone Tyres.

APPROVED TUBELESS TYRE SERVICE

Look for the sign when you need repairs—and get the job done right.

Firestone TUBELESS TYRES
