PROTEST OVER DA BILL POWERS Prison threat tyranny

DAVID L. POWERS, a member of the House of Representatives, has introduced a bill to amend the Federal Bureau of Investigation Act, which would give the FBI the power to arrest and detain anyone who is suspected of being a member of a subversive organization.

The bill, known as the "Internal Security Act," has drawn the attention of many civil liberties groups, who fear that it would give the government the power to arrest and detain anyone without any charge or trial.

Mr. Powers said that the bill was necessary to protect the country from the threat of subversion. He said that the FBI had been unable to identify and arrest many of the members of subversive organizations because of the lack of adequate laws.

The bill would give the FBI the power to arrest and detain anyone who is suspected of being a member of a subversive organization. It would also give the FBI the power to search for and seize any documents or other materials that might be helpful in identifying subversive organizations.

The bill has been introduced in the House of Representatives and is expected to be passed in the near future.

Delay in new court-house for Nakara

It may be that the new court-house for Nakara will not be completed until the end of the year. The Nakara Municipal Council has approved the plans for the new court-house, but the construction work has been delayed because of a shortage of funds.

The new court-house is to be built on the site of the old court-house, which was destroyed by fire in 1945. The new building is to be a two-story structure, with a total area of about 10,000 square feet.

The Nakara Municipal Council has approved the plans for the new court-house, but the construction work has been delayed because of a shortage of funds. The council has asked the Government for a loan to cover the cost of the new court-house, but the Government has not yet agreed to the loan.

More powers for Ministers opposed

Proposed changes to the Ministers' Powers Act have been opposed by many members of the House of Representatives. The proposed changes would give Ministers the power to make laws without the approval of Parliament.

The proposed changes would also give Ministers the power to suspend the writ of Habeas Corpus, which would allow them to detain anyone without any charge or trial. This has caused a great deal of concern among civil liberties groups, who fear that the proposed changes would give the government the power to arrest and detain anyone without any charge or trial.

The proposed changes have been introduced in the House of Representatives and are expected to be passed in the near future.

Amnutation sought

The Government has sought an amnutation for the members of the House of Representatives who voted in favour of the proposed changes to the Ministers' Powers Act. The Government has argued that the members of the House of Representatives who voted in favour of the proposed changes acted in a reckless and irresponsible manner.

FORESTERS WIN FIGHT TO CLOTHE BARE HILLS OF TEITA

Words and pictures by KENNETH HUNT

PLANTED in bare sub-soil, much of it merely decomposing rock, many of the young pine trees are starting to resist hot sun and strong winds. They are well established in a severely eroded area of the Mt. Meru range of the Teita Hills, some 4,000 feet above the level of Kenya's Coast Province.

After a long and arduous struggle of 11 years ago, the foresters will be able to gain a new top soil.

The young pine trees should be 18 to 20 feet in height, their trunks straight and well proportioned. The ground will be a rich, dark soil.

The destruction of the forest of hills which are now being planted with pine trees, their trunks straight and well proportioned, their ground will be a rich, dark soil.

Spotty

a job

By GEORGE W. HARRIS

Spotty, the little white dog, was given a job by his master, Mr. Harris. The job was to look after the garden. Spotty was very happy to do this, and he worked very hard. He kept the garden very clean and tidy. His master was very pleased with Spotty's work, and he gave him a big bone as a reward.

MRS LIONEL'S
WILDEBEEST
CAME TOO WILD

By GUY PROBERT

With a determined look on her face, Mrs. Lionel Wildebeest walked towards the door. She had a long, thin neck and a very small body. She was very brave and very smart. She had been told that the door was locked, but she knew that she could find a way in. She opened the door and went in. She found a very nice room. She was very happy. She had found a home.

Mr. Mackintosh

FOR COMMIT

Macmillan willing to meet everywhere DECISION CHEERED

BRITAIN has proposed that a special meeting of the Security Council should be held on August 12. This was announced yesterday by the Prime Minister, Mr. Macmillan, when he told M.P.s of a letter that he had just sent to Mr. Krushcheyev.

In his Note to the Soviet leader, Mr. Macmillan said: "If this meeting is agreed I shall be there on August 12; I hope you will be there too. So far as I am concerned, New York, Geneva or any other place generally agreeable will do."

The Prime Minister added that he had no reason to suppose that President Eisenhower would not be willing to go either to Geneva or New York. His statement was cheered by the House. The leader of the Labour Opposition, Mr. Cawston, said the Labour Party warmly welcomed it.

New Lebanese President

Mr. Macmillan said he told Mr. Krushcheyev that, should the necessary arrangements for the special meeting be decided, it should take place. He received the British demand that no resolutions should be put forward at this special meeting, which were likely to lead to a decision on the Lebanese situation.

The Lebanese Army Commander-in-Chief, Gen. Fouad Chehab, has been elected President of the Republic. Gen. Chehab gained a clear majority in the election. He is expected to take office on August 12.

Chehab may be solution to crisis

The election of Gen. Chehab as President was welcomed in London diplomatic quarters. It was hoped that this would be the first step in solving the Lebanese crisis.

Cost of community prices

The cost of living has risen sharply in the past few months, and the Government is now taking steps to control it. The Minister of Finance has announced that the Government will introduce a new system of price control, which will be based on the cost of production. This system will be applied to all essential goods, and will be designed to ensure that the public is not overcharged for these goods. The Government has also announced that it will introduce a new system of rationing, which will be based on the needs of the population. This system will be designed to ensure that everyone has access to the goods they need, and that the distribution of these goods is fair and equitable.

AIRPORT INQUIRY DISCLOSES FRIENDLINESS AND EFFICIENCY

Wright

HAVE you visited the new Airport—either to see a friend off or pick out a new one? Or are you like the girls I heard talking in an office today? "Jane is flying to England tomorrow," said one, "so go down and see her off."

"But people say she is a waste of time," declared her friend. "There's no much red tape about the place, you won't be able to see her."

Some travellers complained that they were obliged to wait too long to see their friends. Others thought that it was far too much formality if you wanted to have a chat with a friend, who was just passing through.

Heating the stories, one began to wonder whether this new airport was giving itself a good name and increasing its popularity in the way of the hospitals and tramroads of K. I. O. Y. A.

It might be that we were not so much interested in the new airport as we were in the old one. The old one was a big, old-fashioned building with a lot of windows and a big clock tower.

Let us assume you are an industrial manager and you are at the airport with a party of your friends. The hour is now ten.

FIRST RECEPTION

You have got there in good time and you are not sure what to do. The investigation of the information desk will direct you to the people who will take care of you. You will have to go to the check-in desk and then to the baggage claim desk. As a travelling traveller you should know the difference between the two. They will show

you a list of goods and articles which cannot be taken with you on board. You will see a list of articles which are allowed and those which are not.

CASUAL VISITOR

Check your baggage before you go through the first of the two year travel machines. You will have to go to the check-in desk and then to the baggage claim desk.

The casual visitor, who is not accompanied by a party, will have to go to the check-in desk and then to the baggage claim desk.

The travelling traveller who performs the duties of the casual visitor is allowed to take

STAR OF THE PAST RETURNS TO SCREEN

ACTRESS who looks like being one of the foremost for movie stars in the few years of interest in the return to the screen after an absence of 19 years, of a star of the early 'silent' days, Janet Clayton, is being brought back to the screen in a new play.

The film is 'Bernadine' (Capital), which has been adapted from a successful Broadway play by Mary Chase. The production is presented slightly more favourably.

Any Time is PICNIC TIME!

How lucky we're to live in a land where we can be sure of getting plenty of sun. Some folk picnic on champagne and pâté de foie gras. At the picnics we go to, it's tea in a thermos and paste sandwiches. But any picnic needs a portable—and there's the portable Murphy radio.

It's the Murphy TRA 228A, a mains or battery receiver that is the aristocrat of portable televisions. Aerial, attractive and compact, this is the set you can use in a car, on a boat, or at a picnic.

With 5 w/ art-wave bands, medium-wave band, the TRA 228A gives you world-wide reception and perfect reproduction.

A new outlook for the 'mere male'

Will men be coming too careless and casual in their dress habits? Some critics feel it, more strongly than say that the average man is becoming downright sloppy and slovenly. He has apparently lost his sense of dressing smartly for an occasion.

Officers having direct contact with the public, such as those in government office buildings, are being urged to dress smartly and to follow the usual business dress code in all circumstances, but are being urged to dress smartly in all circumstances.

The more men, according to his better-dressed friends, are taking to the "mere male" in his habits, the more men are being urged to dress smartly in all circumstances.

From the 'Schoolboy Collectors' and 'Snake' columns.

Duff Mackay (right) and Jonathan Lasky were seen at their collection of snakes.

Schoolboy collectors send snakes to U.S.

COLLECTING snakes is certainly not everybody's "cup of tea," but it is the pastime and hobby of Jonathan Lasky and Duff Mackay, aged 17 and 18 respectively. Duff Mackay, who leaves the Mary's School at the end of the year after taking his Higher Certificate, wants to study natural history and zoology.

The two boys have a particular interest in snakes and other reptiles. They have collected a large number of snakes and other reptiles, and they have sent some of them to the U.S.

One of these was a rattlesnake, which, unfortunately, died, and he has sent water snakes and grass snakes and also a blue racer.
