NORWAY  
EXPLAINS  
Spitzbergen  
Treaty

On January 11, the Norwegian Government and the British Government have signed a treaty for the return of the Spitzbergen islands to the British Crown. The treaty is the result of the negotiations which have been taking place since the outbreak of the war. The islands were first mentioned in the Treaty of Commerce between Norway and Great Britain in 1814. The islands were then used as a base for the whaling industry. The treaty provides for the return of the islands to the British Crown on the condition that the islands shall be used for scientific and other purposes. The treaty also provides for the establishment of a joint committee to deal with the islands. The treaty is expected to be signed in the near future.

**CAPEX WEEVIL POWDER**

CapeX Weevil Powder is the most effective insect dust on the market, and the all-around "CapeX" product, it has proved itself in extensive experiments to be as good as we claim for it.

Insect dusts act by smothering the wax coating of the insect, thereby allowing the body joints to escape. In other words, the wax coating that would be the ground cover for the insect is removed. This is the reason why CapeX Weevil Powder is very finely ground rock phosphate and does not contain any of the softer insect dusts such as diatomite.

It kills and prevents weevils to graze when mixed at the rate of 2 lbs. with a 50-lb. bag of grain. Simple, safe and effective.

Sold in any quantity at competitive prices by the sole distributors, **THE KENYA FARMERS' ASSOCIATION LTD.**, who have just received a large shipment.

Housework never seems to get DONE

I never have the energy nowadays to get the work finished and get OUT. And servants won't stay. What's the matter with me?

If work takes more time, if you have no time to rest your friends, if you feel too tired even to want to go to bed, ask yourself: how and did you sleep, too little?

Wishes, though sleep can do you all good, after a restless night you feel fatigued and depressed, or ready to drop over the smallest accidents of the daily routine.

The sleep, restorative sleep you need the extra restlessness you get from a chop of Berlocks taken at sleep and sweet fresh energy for the morning. Its extra light and eager to get the housework finished quickly and have time for better leisure for your own enjoyment.

**RUSTON**  
AIRLESS INJECTION  
**Gold Starting OIL ENGINE**  
The outstanding feature of the RUSTON Airless Injection Oil Engine is its ability to operate on the most practical power unit for these Territories. So sturdily built and of such simple design the RUSTON does not require a skilled attendant—reducing labour costs and ensuring constant and reliable output with only reasonable maintenance. The RUSTON is economical, too, for it operates on the cheapest fuel oil obtainable and its fuel consumption remains low even after many years of service.

If you need power for any purpose your RUSTON will prove a fine purchase.
