ELECTED MEMBERS AND THE BUDGET

When we had a full meeting of the Standing Members' Committee, which consists of all European Members with the exception of the Member for the Cape and at that meeting held on January 17, I was unanimously elected to the Standing Members' Committee Report and, therefore, report that the Members are authorized to see His Excellency the Governor-General in the Standing Members' Committee Report which Government accepted the proposals contained in paragraph 10 of the Budget. The Budget would be against the adoption of the Budget.

I read His Excellency and I told him, and I also saw the Chief Secretary and the Financial Secretary, and they have the excuse that they are not members of the Standing Members' Committee. We made it the history of the Budget report given in 1936. I would say that the order of speaking in the debate on the Budget was decided at a meeting of the Standing Members on January 22, 1936, and I was one of the party who participated.

Regarding D.M.A. Finance, Mr. Atterton said that he was writing to the Government about the Budget, and was contributing £2,000 towards the Budget. He said that he was contributing £2,000 towards the Budget. He said that he was contributing £2,000 towards the Budget.

RECIDIVISM COMMITTEE'S REPORT

The report of the Committee on Recidivism, which was presented to the House of Representatives on January 22, 1937, is a most interesting and valuable document. It deals with the problem of the re-conviction of criminals, and the measures which should be taken to prevent this from happening.

The Committee has found that the majority of re-convicted criminals are those who have been sentenced to imprisonment for a term of less than two years. It also found that the majority of re-convicted criminals are those who have been sentenced to imprisonment for a term of less than two years.

My NEURITIS? You'd be surprised!

It was 45 years old, in the grip of neuritis, and he was in a state of despair. He had tried everything, but nothing seemed to help. Then he read about a new treatment and decided to try it. Within a few days, the pain was gone, and he was back to his normal self. This is the power of the new treatment.

D.A.R.A. Finance

THE D.A.R.A. Finance Bill, which was introduced by Mr. G. G. D. Scott, M.P., provides for the continuation of the special provisions of the D.A.R.A. Finance Act, 1949, which were intended to protect the D.A.R.A. Finance industry from the effects of the war. The Bill also provides for the continuation of the special provisions of the D.A.R.A. Finance Act, 1949, which were intended to protect the D.A.R.A. Finance industry from the effects of the war.

A QUESTION OF COSTS

A case of more than general interest, involving a claim for costs, was heard by the Court of Appeal in Nairobi. The case concerned a claim for costs made by a party who had been successful in a lower court. The Court of Appeal allowed the claim for costs.

BRITAIN'S FUEL CRISIS
Weather Brings Industries To A Standstill
DRASTIC CUTS IN ELECTRICITY

INDUSTRIES in many parts of Britain will come to a standstill tomorrow when the drastic cuts in electricity supplies decided upon by the Government as a result of the deterioration in the fuel situation caused by the weather come into force.

The electricity cuts, which are expected to last at least three or four days, will affect industries throughout a large part of the country and there will be cuts in domestic supplies. Essential services will be unimpeded as usual.

The drastic reductions announced by the Government regarding the supply of electricity to industries will be the most drastic since the war. The Government has decided to cut electricity supplies to industries by 50 per cent.

Weather in Britain
The weather in Britain is expected to be very cold and stormy for the next few days.

Essential Services Unimpeded

Rise And Fall Of Ernest Terah Hooley

Electricity Cuts Throughout Britain

Daily, February 13... The coal situation has grown worse and the British Gas Corporation asked all consumers to make advance arrangements in case the Ministry of Fuel and Power has to cut off gas.

BRITAIN'S coal fleet, sterr-bounded in the north for many days, is today ploughing through rough seas to the south with nearly 200,000 tons of coal for the electricity-generating power stations.

The first ships passed Tilbury Fuel Storage station in the Thames just after dark this morning and the moment they lay up at the wharves dockers set to work unloading them at the coal wharves.

The weather forecast is still "wintry conditions for several days to come."

The coal situation has grown worse and the British Gas Corporation asked all consumers to make advance arrangements in case the Ministry of Fuel and Power has to cut off gas.

ROYAL TOUR

THE QUEEN'S DRESSES

By **NORMAN HARTNELL**

It is more than five years since I first enjoyed the honour of being commissioned to design the gowns for Her Majesty the Queen.

How much pride I take in this signal honour I need not emphasize, and I take pride also in the fact that I had helped her in a twenty-year-old ambition, almost from the days when I gave her a happy University career, to establish London as a leading influence in the world of clothes.

Not that Royalty here any intention to rest laurels, but in fact is left to less important work, but time to spare.

Royalty dresses to please itself, and it is fashion to set thereby if it is entirely unattainable.

The Royal Family at home.

The Queen was at the opening of Parliament in Ottawa and while Her Majesty remained in the Canadian Government as a summary of the occasion.

Yet further countenance showed of me in my capacity as designer of the Queen's dresses. I had the privilege of being invited to the Queen's apartment in London, where I had the opportunity of seeing the Queen's wardrobe, which naturally and tragically is closed to the rest of the world.

War Austerity

I finished the last of the gowns for the Queen and the Queen's wardrobe in London, where I had the opportunity of seeing the Queen's wardrobe, which naturally and tragically is closed to the rest of the world.

Favourite Colours

I might write of the Queen's wardrobe, which naturally and tragically is closed to the rest of the world.

Historic Fashions

Very few are so unapproachable as the fashions of the past. It is not only the fashions of the past that are so unapproachable, but the fashions of the present, which are so unapproachable.

My First Meeting

Even in the things that bear the name of the Queen, the Queen's wardrobe is so unapproachable that it is almost impossible to see it.

Visit to France

I might write of the Queen's wardrobe, which naturally and tragically is closed to the rest of the world.

The Royal Tour

It was after His Majesty the King and Her Majesty the Queen had returned to France that I was invited to design the gowns for the Queen's wardrobe.

Her RHEUMATISM Gradually Went Away

When an ailment has been diagnosed as rheumatism, many people are inclined to despair. They think of the pain and stiffness which attend the disease, and of the long and often fruitless struggle which may be necessary to get rid of it. But there is a way out of this predicament. It is a way which has been tried by thousands of people who have suffered from rheumatism, and who have found relief and recovery. This way is the use of **Germolene**.

Germolene is a powerful germicide which kills the germs which cause rheumatism. It is a natural product, and is therefore safe for use. It is applied to the affected joints, and the pain and stiffness gradually disappear. The use of **Germolene** is a simple and effective method of treating rheumatism, and it is one which should be tried by all who suffer from this painful and disabling disease.

On their way to you!

Announcing

BRITISH INDUSTRIES FAIR
LONDON AND BIRMINGHAM, MAY 20-16th, 1947

This is your first opportunity in seven years to meet the oldest suppliers in Britain and to meet new ones.

Business Buyers are invited to Britain for the British Industries Fair. It will enable them to establish personal contact with the makers of the numerous range of United Kingdom goods displayed in the London (Lighter Industries) and Birmingham (Manufacture & Engineering) Sections of the Fair. The groupings of exhibits will assist buyers to compare the products of competing firms with a minimum of time, trouble and expense. Special arrangements to suit individual markets can be discussed and terms and conditions of business settled direct with the manufacturer, since only the actual manufacturer or the sole selling agent may exhibit.

For full details of the 1947 Fair apply to the nearest British Consular Diplomatic Officer or Consular Officer, or the Trade Commissioner in your area.

YOUNG FARMERS' CLUBS TO BE FORMED IN KENYA

The Njoro Settlers' Annual Meeting was held in Njoro, Kenya, on February 15, 1947. The meeting was attended by a large number of settlers and officials. The main business of the meeting was the formation of Young Farmers' Clubs in Kenya. The clubs are intended to provide young farmers with a forum for the exchange of ideas and information. The clubs will also provide a means of promoting agricultural development in the region.
