M. DELADIER SUCCEEDS IN FORMING MINISTRY.

M. Deladier has succeeded in forming a Cabinet, after unsuccessful negotiations with the Socialists, who were invited to join the Ministry. The Socialists, however, put forward a number of extreme conditions which M. Deladier was unable to grant.

As a result M. Deladier formed a Ministry composed almost entirely of members of the Radical Party, and including M. Paul Boncour, the previous Premier: M. Camille Chautemps, an ex-Premier and a member of the Boncour Casinet; and M. Bonnet and M. Larraut, members of the late Ministry.

The French Parliament has passed the necessary vote for February, which gives the new Ministry a month to prepare the Budget. Two Ex-Premiers Included.

OPPOSES GRANT OF SOLE PROSPECTING LICENCE.

Company's Offer Criticised.

RECOMMENDS FIVE DIVISIONS WITH TWO FREE PROSPECTING AREAS.

Albert Kitson's proposals for the settlement of the problem raised by the application by Tanganyika Concessions Ltd. for a sole prospecting licence over nearly the whole of Kavirondo (5,900 square miles) are that the Kavirondo goldfield should be divided into five parts, in two of which general prospecting should be permitted.

Tanganyika Concessions should be offered an option over any one of the remaining three areas and Government should be prepared to receive from them or from any other companies or individuals applications for portions of the remainder.

He quotes figures to show that over a similar area Kenya would benefit greatly by development through its own

No sudden action will be taken and proper notice of the opening of the present closed area will be given if it is decided to open it.

22,000 miles and someone else ther atted them!

Mr. Hunter Towne, Managing Director, General N Ltd., says:-"I had two Pathfinder tyres removed from one of my

after completing 22,000 miles without a puncture. The tread I has smooth, otherwise the tyres were in good condition. I have since learnt that these two tyres were subsequently used by another car owner in the same garage, and fitted to his car and believe they are still running."

Hard Cash Savings on Tyre Prices

-and extra quality too! Goodyear build Pathfinders as strong, as thick of tread, and as generous in size as any tyre at any price!

Pathfinders are the only low-priced tyre with Super-twist cord carcass. Reinforced sidewalls as in expensive tyres.

If your local dealer does not stock Pathfinders write to the Goodyear Distributors in Nairobi - Messrs. Gilfillan & Co. Ltd., P. O. Box 644. Pathfinders outwear others costing double!

Writing to the "Autocar" on Feb. 26th, a Morris Cowley owner (1927 model) gives his tyre costs and mileages over 4 years and 7 months (from June 5, 1927, to Jan. 6, 1932). During this time he found that the average mileage of the Pathfinders
tyres worked out at 10 per cent more than others for
which he had paid nearly double Pathfinder prices!

Mr. ROOSEVELT'S GESTURE AN AUGURY FOR SUCCESS

Confidence in the future was expressed by two Cabinet Ministers in speeches on Saturday.

The Chancellor of the Exchequer emphasised the need for the nations having a desire to agree on international finance with a view to solving one of the world's most difficult problems and commented favourably on the attitude of the President-Elect of the United States.

The Presidentcy of the Board of Trade again instanced the good results which had already been achieved by the alteration in Britain's fiscal policy.

NO OPPOSITION IN THOSE DAYS TO EUROPEAN OCCUPATION.

ther evidence on the claims by certain of the Wakikuyu to alienated land in the vicinity of Nairobi, was given to the Kenya Land Commission on Friday by some of the early settlers of the district.

It was pointed out that during the early part of the century was pointed out that during the early part of the century when land in the areas in question were alienated for European settlement, there was no objection from native sources, while the relations between the new European, arrivals and the natives, resident in the district, were perfectly friendly.

country between Limura and Kyamba was not occupied by natives, it was stated. In fact the area was chiefly thick forest.

One witness stated that while the older men among the Wakikuyu realised the position, many of the younger men had been stirred up by turbulent agitances; backed by the so-called Central Association. The fault lay it was added, largely in the teaching of reading and writing before the native had learned to use his muscles and the dignity of labour.
