Many people put forward the question: "We don't mind paying a bit if we can get at least a portion of that." But before they could pay out a single penny they had to meet the income tax which was paid first.

This meeting of representatives of the Kenya Farmers' Association was held at the Nairobian Hotel on Monday evening last.

Mr. Archer also confirmed the point of view of many farmers that it was not desirable to have a general increase in the rate of income tax.

LORD GRANWORTH SUPPORTS THE PRINCIPLE.

To the Editor, "E.A. Standard," Sir—During more years than I care to think of I have had the honor of being a representative of the Corporation in England on various occasions and in various capacities. It seems therefore a matter of course that I should give the reasons why on the important subject of Income Tax I find myself in resonance with your views and the views of the majority of the financial press of the Colony.

It is the principle of the financial press of the Colony that I should not be asked to give the reasons why I find myself in resonance with your views and the views of the majority of the financial press of the Colony. Going on Leave?

JOHN AND MARY always hated packing now it is a pleasure. No more last rush—trying to push things into boxes already full.

John and Mary paid a visit to Mays and their travelling problems were solved.

How they solved their difficulties will be found at the bottom of the page.

We have an extensive range of travelling requisites from large Trunks to modern Suitcases.

If you are going home or merely on local leave it will pay you to visit us and inspect our latest models.

LADIES' FASHIONS

A Letter from Paris.

One of the latest arrivals... and a deep square décolleté at the back; From under the arms come two deep bands of high velvet which are tightly crossed at the back, then passed round in the front of the waist and fastened with a lovely diamond buckle. The effect of crossing the material and making it fall is quite good. Still another fashionable dinner gown is developed in white crepe de chine, the severely modelled skirt made full from the knee downwards by means of slight gathering and with interwoven voilettes. The skirt rises in a point on to the corage and the waist, and the back is silver net, gorged with "flamant" bowties. A most sporting suit, comprising jacket of navy and yellow here at the side, and yellow pullover.

For the COCKTAIL HOUR. Whether your "appetizer" be of the social order or otherwise, it is up to you to see that the accompanying "cote" is of the most pleasant kind possible.

These crinkled crepes and satin head themselves to rather severe lines. But the bodice, in the case of this princess gown of deep peach crinkled crepe, achieves a festive air means of the wired long, not tight and fitted—rather it is slightly pouched. Some crinkled bodices have a "truncated" effect which is not due to actual trimming, but to the arrangement of the material. A model in thin black satin crinkled crepe has the top swathed in cross-over fashion, a glimpse of turquoise-blue crepe showing in the folds and appearing again at the top of the bow of the neck which ties at the side. Another beautiful gown in blue has deep crepe satin has a simple little bodice with a round neckline, well-covered shoulders.

Spina nuts, which are not unlike walnuts, should figure also amongst the cocktail-hour delicacies. Break the centre halves, heat a little olive oil in a basin in the oven, drop in the nuts and fry for five minutes. Drain, sprinkle lightly with salt and with cayenne and paprika. Flaky pastry made with a generous quantity of grated parmesan cheese. It is no longer called into being little tarts with roasted pistons in the centre. Hatched hedge-hogs are spread with smoked cod's roe, or with pate de foie gras, the top of which are placed thin slices of pickled asparagus. The pate is sold in tins.

THE KIKUYU LAND COMMISSION.

(Continued from page 7.)

Incidentally, it was claimed that the Kikuyu had no interest in the war, although they were being taken for the service. This led on to a showing of slides of population, etc., and a suggestion that the number of the British fighting divisions...

Coral Evidence.

Henry Thuku, on oath gave verbal evidence. He spoke in Kikuyu for the benefit of his audience, and only translated into English for the Commission. He recalled what had happened in 1922, when H. H. H. the Prince of Wales at Government House, Nairobi, said that no more land should be taken from the Kikuyu and that what they had should be theirs forever. In view of the affidavits at Nakuru and the Maricao-Tana electrical scheme for instance they were afraid their land would be taken away.

Allegations of Forced Labour.

The Commission has subjected Henry Thuku to a severe cross-examination on figures contained in the memorandum, and then brought for an explanation of the phrase "forced labour" used by him. Thuku complained of a native having to give a pass if he went to a market or to a school, and that he was not paid, and of taxes which made it too much for him to pay.

Further Witnesses.

Mr. J. W. Morrison, Mr. J. M. Morris, and Mr. J. M. Morris, were called as witnesses.

Income Tax.

A REPLY TO LORD CRAWFORD.

To the Editor:—"E. A. Standard," Sir—The conclusions arrived at in Lord Crawford's letter published in today's issue of your paper are, I respectfully suggest, based on false premises and overlook completely known and uncontroverted facts...

The public opinion has been advanced against the suitability of Income Tax to this Colony. Lord Crawford's admission is that it is not profitable that, apart from the fact that it is a tax on eight million to two million...

The public opinion has been advanced against the suitability of Income Tax to this Colony in favour of an indirect system of taxation whereby the burden is accepted as sound but in the view of Lord Crawford's letter, it is apparently not the case...

A direct tax compels the citizen to pay in cash whereas the profit on which such a tax is based are available in cash...

Another advantage of the indirect system of taxation is that the citizen can, to a large extent, control the amount of taxation he pays by refraining from purchasing imported articles and so on...

It would not appear to be necessary to pay in cash whereas the profit on which such a tax is based are available in cash...

question of maintaining a budget for indirect taxation which has been superseding the one which was proposed...

Lord Crawford advances certain arguments in favour of the Tax but, in my view, he fails to sufficiently indicate the many arguments on the other side...

In addition, Sir, I am sure that all who agree with Lord Crawford may be expressing the opinion that the standard of living in this Colony is not high...

On December 22 last, 42 cases of plums and two sacks of potatoes were forwarded by me to the Market. Later, at the Municipal office I was told that the amount of the proposed Bill was Shs. 20,700...

THE MUNICIPAL MARKET.

The Editor:—"E. A. Standard," Sir—I should like to thank you for your courteous handling of my question, on the basis of the information which I supplied you, in the last issue of your paper...

On January 10, 1953, I was told that the amount of the proposed Bill was Shs. 20,700 and because of my own there was sent for a statement of account...

of Shs. 5/- per case plus Shs. 1/- for the box container as against an average reward for my work, and is not profitable to the growers...

It may interest Mr. W. Nwach for me to say that my intention was to develop local industries and to create jobs for the unemployed...

With reference to the 29 cases of plums which sold at an auction for 1/- per case, the market was not so good as the Market Master, with complete confidence in the Market system...

After a long and strenuous explanation, the Chairman of the Municipal Council admitted that the amount of the proposed Bill was about ten pence for 30 cases of plums...

On December 22 last, 42 cases of plums and two sacks of potatoes were forwarded by me to the Market, again with a return to the Market. Later, at the Municipal office I was told that the amount of the proposed Bill was Shs. 20,700...

Introduced by Goodyear to aviation close to three years ago, these big, buoyant, soft-rolling tyres set new standards in safety. They made smooth, gentle landings where planes were forced to land before. They absorbed sideways. They gave new softness to landings and take-offs at express-train speed. They put new power in brakes.

NOW CUSHION your car on as little as **16 lbs. of AIR**

If you are the owner of a light car, you surely have no idea how deeply comfortable your motoring can be until you have tried Airwheel[®] tyres—those buoyant new tyres by Goodyear.

They have the pillow softness of a featherbed—their style is the very latest and most attractive—and for wear they can be compared only with the world-famed All-Weather Tread.

Certainly, these tyres too have the powerful, tractive All-Weather Tread.

Try a set of Airwheel tyres while they are still new enough to make your car the talk of everyone who sees it or rides with you.

You can change to Airwheel tyres almost as easily as you change an ordinary tyre, and the cost is less than you might suppose.

If you are buying a new Ford or Chevrolet, have it equipped with Goodyear Airwheels. Let us quote you and arrange the changeover. The extra cost is negligible.

Fishers, Simmons & Rodway, Ltd. announce that the latest model Dodge Cars, are now available equipped with Goodyear Airwheels AT NO EXTRA CHARGE.

AIRWHEEL TYRE

by **GOODYEAR**

*Only GUYTON makes AIRWHEEL tyres. AIR WHEEL is Goodyear's trademark registered throughout the world and is used to denote that Goodyear is the exclusive maker of AIRWHEEL tyres.

Empire Theatre.
Hoppers Reported in Lower Area.

The film advertised to be shown at the Empire for the first part of this week—"Laughter"—will be withdrawn after this evening. Tomorrow evening, and also at a 6 o'clock matinee, "The Man in Possession" is being given again. It was very well received that week and many people who did not realize that they had seen it were asked for the extra performance. Only one is possible, as on Thursday the film is being sent to South Africa.

LOCUSTS AT KIBURU.

[*STANDARD* CORRESPONDENT.]
Hona, February 17.
The Hon. Locusts Officer in the Kiburu area has received information from several stations situated east and south of the Fort Hall block that hoppers have been observed in small numbers moving towards the higher country. The area indicated is believed to be official and confined to the lower or high lands.

Very indefinite signs are to be seen in the area, but it is not possible to say for the future, as the locusts are not actually present during this year by flying swarms that might have been elsewhere. Such swarms, if they had been, would have been due to the coffee plantations although towards the end of the dry period, which terminated towards the end of October, some of the dry wood was killed and broken off by very heavy winds, and coffee branches near to single trees were checked over the top of the bush.

At a meeting of the District Agricultural and Control Officers, it was agreed that a Government agent should be sent to the district on this issue. It was stated that while many estates reported the occurrence of locusts, they were not with European staff and gangs of boys to drive on and refused to do anything. At the meeting nobody would be asked to take on the work of organizing hopper destruction, and the meeting officer in reply to a vote of thanks for his services and then he has no doubt that plenty of Locust Control Officers would be forthcoming and plenty of volunteer workers found if ever this species of locust or any other one ever decided to eat coffee bushes.

A BRAVE ACT.

Rescue of Dog from Pit Shaft.

[*STANDARD* CORRESPONDENT.]
London, January 26.
(By the Mail.)
An unemployed joiner—Harold Whittinglow, a married man with four children, living at Tenney Green, Penzance—has performed a most heroic deed in the rescue of a dog. It was thought that the dog, which had been lost, could be found in a chimney pit shaft, which was being built at the bottom of a channel pit shaft, which was between 200 feet and 300 feet deep. He secured the dog, which was minuscule, and both were hoisted up by safety.

The Market and the Middleman.

It is fashionable to criticise the middleman in the market. But in the world of commerce, the middleman is the life of the market. He is the one who connects the producer with the consumer. He is the one who makes the market work. He is the one who makes the market a place where business is done. He is the one who makes the market a place where the producer can get a fair price for his goods and the consumer can get a fair price for his money. He is the one who makes the market a place where the producer can get a fair price for his goods and the consumer can get a fair price for his money. He is the one who makes the market a place where the producer can get a fair price for his goods and the consumer can get a fair price for his money.

in their thousands with the same object in view. These people are not to be regarded as price takers, but as price makers. They are the ones who determine the price of the goods they buy. They are the ones who determine the price of the goods they sell. They are the ones who determine the price of the goods they trade. They are the ones who determine the price of the goods they use. They are the ones who determine the price of the goods they own. They are the ones who determine the price of the goods they give. They are the ones who determine the price of the goods they receive. SANATOGEN

New Health

Rid yourself of General Weakness

WHATEVER the reason of your weakness and littleness, Sanatogen will make you stronger and healthier. For Sanatogen feeds the cells of your body with those elements—phosphorus and albumen—from which new strength is derived.

No matter whether your weakness is caused by overwork or worry, by late nights, stomach trouble or neurasthenia, Sanatogen must do you good. Sanatogen, by giving you back strength, will soon make you healthy and happy again.

There is abundant evidence of the value of Sanatogen as a nutritive and food, more particularly in cases of general debility.

Those were the words in which "The Lancet," one of the leading medical journals of the world, praised Sanatogen. Don't postpone new health. Start using Sanatogen to-day. You will soon realize the heavy difference it will make to you.

SANATOGEN IS SOLD AT ALL CHEMISTS AND DRUGGISTS.

KENYA RIFLE ASSOCIATION.

Final Stage of Waddell Shield.

VICTORY FOR NAIROBI CLUB.

For the final stage of the Inter-Club shoot for the Waddell Shield the Nairobian rifle sportsmen were extremely lucky. In Nairobi, at 300 yards the targets were in a dense shadow, which made it very difficult to see the aiming mark; the conditions at 500 yards were slightly better but on an "in and out" sun caused some trouble, at 600 yards the worst possible conditions existed, having a hilling mirage and a gusty wind, but none of the competitors flinched; at 1000 yds. it was only with the aid of telescopes that the signals from the belts could be seen correctly.

Union Ghaut reported similar conditions with the addition of a heavy rain which was accompanied by driving rain. Misses the rifleman's glory, seldom troubles Eldoret, but for the shoot it was experienced in its worst form. Comparisons between individual scores at Nairobi and Eldoret indicate the difficulty of the latter. Misses following Bula and Misses Nairobi Rifle Club are to be congratulated in putting up such a splendid score under adverse conditions. Four scores of over 40 at 300 yards indicate great shooting.

The completed scores are:—

Inter-Club Shoot at Nakuru.

SUBUKIA TEAM DEFEATED.

Sunday, the 12th was the occasion of the return rifle shooting match between Nakuru and Subukia. The Nakuru Range was at its best, the rain of the previous day had cooled and cleared away the smoke from the air so that the targets were at our feet and the Lake below us showed up with wonderful clearness, making a remarkably pretty picture.

FAMOUS BOXER'S PASSING.

Death of Jim Corbett.

Romantic Figure of Generation Ago.

METEORIC RING CAREER.

[Tribute to a man's career.]
New York, February 20.
A romantic figure of the old time arena has passed away in the person of Jim Corbett, the famous boxer of a generation ago.

"Gentleman Jim" as he was wont to be known as had a most colorful career in many respects in the boxing ring. It was in 1891 that he first contested the world's heavyweights championship, when he fought Peter Jackson in a memorable encounter which ended in a draw after going 61 rounds. That fight took place at San Francisco, in California in May of that year. Peter Jackson was one of the finest men who ever adorned the pugilistic game. No finer figure of a man was ever known in the annals of the ring. A magnificent picture of perfect manhood, Jackson was one of nature's noblemen and he rightly earned the sobriquet of "Gentleman" Jackson. If there was ever a boxer in the world who was a gentleman, it was Jim Corbett. A splendid specimen of manhood, he had many glorious victories in the ring to his credit. He won the world's championship in 1892, after defeating the month of September, at New Orleans, he beat John L. Sullivan in 21 rounds. Such an act at that time was styled the champion of America. In January of 1894 he beat Charles Mitchell of England at Jacksonville, Florida in three rounds. Three years later, in March 1897, he had his historic fight with Phil Sisco at Carson City, when Fitzsimmons famous "solar plexus" punch came to light, a blow which earned for him the world's title, crumpling up Corbett in the fourteenth round. Two years later Fitzsimmons fell before the onslaught of Jim Corbett, and then in 1902 again was knocked out by the blacksmith. In 1903 Corbett made his last bid for the title which he had lost some six years before, but Jeffries accounted for him in his own camp at San Francisco.

Corbett gradually faded out of the limelight from that point onwards and eventually drifted into obscurity where his rugged manager fitted him for the roles which he later came to achieve. His passing recalls the "romantic art" of one who adorned it with distinction during the years in which he fought so bravely in his midland. A dominant figure in some respects, his fame will glow down as one who was not only typically the best of all that good in boxing.

Corbett started out in life as a newspaper clerk, later graduating to the fire area. He helped with the preparation of many championship fights after he had left the limelight behind him, and was one of the best of kind of fighters when the former championed conclusion with Jim Corbett, the famous boxer of a generation ago, in 1890, who died of his life.

Newcastle Association's Protest.

OBJECTION TO WARNER'S INVOLVING IN SIDE.

[Tribute to a man's career.]
Newcastle, February 19.
There was a slight protest from the Newcastle Association when the M.C.C. agreed to play their match against the northern club on the 21st inst. The objection of P. F. Warner, joint manager of the team, who is over sixty years of age. It was explained by Warner that he was simply being included in order to permit a number of the best players as possible to be sent. When the explanation was made, everything passed off satisfactorily.

The Northern Districts A. team, who were in the 1st division, scored 320 for 7, which Chipperfield claimed 100.

Hobbs, who is appointed to the team in a journey, is also termed as a member of the M.C.C. side.

Fighting in the Far East.

SAID TO HAVE BEEN STARTED BY CHINESE

Fierce Engagement.

REINFORCEMENTS RUSHED TO JAPANESE GARRISON.

The latest cables reports indicate that severe fighting has broken out between Chinese and Japanese troops. It is asserted by the Japanese that the fighting is inaugurated by a Chinese attack on the Japanese garrison. When Japan secedes from the League of Nations she will at the same time withdraw from the Disarmament Conference.

Counter Attack Launched.

The Government is understood to have asked to the Assembly to withdraw from the League of Nations. The Committee of Experts has reported that the time of withdrawal will be decided later.

Japan's withdrawal from the League of Nations Conference is considered as a result of statements by the War Office and Navy Office indicating that the chief military and naval delegates will be withdrawn from the Conference when Japan secedes.

It is considered that the attendance at the Conference will probably be maintained as observers. It is anticipated, however, that Japan will continue to participate in the Conference.

China-Chong, Feb. 20. Severe fighting began at Chong-ching today. The Japanese are reported to be attacking the Chinese.

WAR DEBTS. BRITISH SHIPYARDS.

A Conversation in New York.

The British Embassy in New York, February 20. The British Embassy in New York today issued a statement regarding the war debts of the United States.

It immediately had two long conversations with Mr. Hoover, the President's Secretary, and Mr. Franklin Roosevelt, the President.

Mr. Hoover said that the President was deeply interested in the war debts of the United States and was anxious to see that they were paid.

Mr. Roosevelt said that the President was anxious to see that the war debts of the United States were paid and that he was willing to do anything to help.

Kenya Crop Estimates for January.

HARVESTING PRACTICALLY COMPLETED.

Good Maize Yield Reported.

FURTHER INCREASE IN COFFEE OVER PREVIOUS FIGURES.

The crop report for the month of January issued by the Kenya Department of Agriculture states that harvesting operations for the season are nearing completion and have actually been completed in some districts. It is added that generally previous estimates of yields will be fully realized.

It is expected that 1,383,215 bags of maize will be obtained from European farms which is equivalent to an average of 8.30 bags per acre. Of this number 800,000 will be available for export.

The coffee crop is also expanding, and the picking to date indicates a further increase on previous estimates. There is a probability that 14,500 tons will be exported during the current season.

What has shown a slight decline on previous estimates, chiefly due to damage by locusts. There is no change in the sisal position.

Favourable Weather.

The following is the Kenya crop report for the month of January, issued by the Department of Agriculture in this report after the estimates of production for the month are compared with the previous estimates. Harvesting operations are proceeding in most districts throughout the country, yields being mainly as to date reported.

Maize. The maize crop is now estimated at 1,383,215 bags, a slight increase on the previous estimate. The total yield is estimated at 8,300 bags per acre, equivalent to an average yield of 8.30 bags per acre.

Coffee. An increase in the estimated coffee crop is also recorded. The total yield is estimated at 14,500 tons, an increase of 4,775 tons on the previous estimate.

Sisal. Weather conditions are generally favourable for the harvesting of sisal.

LAINPIA OPPOSES INCOME TAX

Meeting of Settlers at Ruwari

CONFIDENCE IN MEMBER FOR DISTRICT.

Captain Cotter Reviews the Political Situation

STANDARD CORRESPONDENT

A public meeting was held at Ruwari on Wednesday, February 15, to enable the Hon. J. L. Cotter, M.C., M.L.C., the Member for West Kenya, to present his views to that part of the electorate on the present political situation.

As you know we are threatened with an Income Tax which we have already been notified with an Intention Tax Commissioner without there even having been the provision on the part of the Government of consulting the people who will be taxed.

I find that it is only part and parcel of a policy that has led to the Government to strangle the European Settlements.

My first point is that the cost of stamps has been increased, and all these statements like efforts of taxation have been imposed on us during the year.

Further we have had the midwives to be offered by a most invasion of unregulated retail and wholesale trade.

It is not only our own Government but the House Government thinks should not mean to spelt on London were unimpaired.

I must now touch on another matter, for I am well aware of the distress suffered by many of you, and I refer to those who have to make their own living out of the land.

It will not stand much, but class price instalments, nursery fees, mortgage fees eventually. We need a mechanism of some sort, a partial one.

Most Serious Problem

Finally I come to perhaps the most serious problem, which faces the European community in Kenya. The natural increase of population has been great and there are many young boys and girls born in the Colony.

It is not only our own Government but the House Government thinks should not mean to spelt on London were unimpaired.

I have an ideal—I think that I may say in my time the position of a covered bridge like that.

We need a European, Elected Majority, and I think, and we will not get things unless we set the.

Considerable satisfaction followed Capt. Cotter's speech, and in the House on Monday, December 10, 1933, the following resolution, which was seconded by Mr. Hunt.

That this Public Meeting of all European inhabitants of the Colony requests the Hon. Member of the Legislative Council for the Kenya constituency to oppose in the Council the imposition of further taxation until such time as the taxpayers' consent thereto.

Further pleasure they to support the Elected Members in confidence to further taxation until the taxpayers have adequate control of the finances of the Colony.

Mr. Street, O.P.R., supported the motion and in a statement that he was well acquainted with the workings of the Income Tax Act in Burma, which however could not be compared with our own as designed that it entailed all sections of the community. He stated that it had just to be made to the.

KILMARNOCK AYRSHIRE SCOTLAND

SWING OVER TO SWING

Dear Sir, We have decided to produce a whisky especially for climates as yours. May we tell you how we have come to lead the way in taking such a reputation?

It is part of the real pleasure of our business to meet at all times and in all places many friends of yours. Some of our friends have told us that—while at home they preferred a full-bodied whisky—yet after a spell in a climate like that of East Africa, they found what they appreciated most were the two qualities of BALIACCT and LIGHTNESS.

For a hundred years and more our settled policy has always been to give our friends (as far as lies in our power) what they require, so we have done this very thing.

We have produced a whisky especially for such climates as East Africa. We have called it "Johnnie Walker Swing," and we have chosen an unusual bottle so that you may the more readily recognise it.

"Swing" is delicate whisky—a light whisky. But do not misunderstand us—whisky can be of the same alcoholic strength and yet be anywhere between "light" and "heavy." The fact that "Johnnie Walker Swing" is "LIGHT" means only that its character is specially suited to the palate and needs of the man who lives and works in hot climates—you will see just what we mean when you taste it. Perhaps you will let us know how the "style" of blend in "Swing" appeals to you for whom it is specially intended, for we are always most happy to receive any comments on the subject of Johnnie Walker.

Yours faithfully, Johnnie Walker

INDUCE TAX

To the Editor, "E.A. Standard," Sir—Apparative to Income Tax the world of investigation are a Sales Tax, levied nearly everywhere except the British Empire. Other countries have levied this tax more equitably than we do in this country.

A tax of 50 cents or more, per 100 on cigarettes, comprising of 25 cents on the first 100 and 15 per 1,000 so that the Native receives...

A box of 10 to 20 cents per lb. on coffee, 10 cents per lb. on the native on this as it is part of his food supply...

There is of course, not only the foregoing (which by the world would bring in more than enough to pay for the maintenance of the Government) but also the fact that the Government is not only a heavy tax on the people but also a heavy tax on the people...

There is of course, not only the foregoing (which by the world would bring in more than enough to pay for the maintenance of the Government) but also the fact that the Government is not only a heavy tax on the people but also a heavy tax on the people...

An increased Post Tax on the Kenyan line could be kept in force for the next five years. It would not be a new tax but a continuation of the existing one...

Another objection is the fact that the Government is not only a heavy tax on the people but also a heavy tax on the people...

It is a fact that the Government is not only a heavy tax on the people but also a heavy tax on the people...

Yours etc, W. H. E. EDWARDS

EUROPEAN SKATING CHAMPIONSHIP.

12 Year Old English Girl's Success. MAULE LYLE BILLIARDS BOULE. ("STANDARD" CORRESPONDENT). London, Feb. 7. (By telegraph.)

Competing against champion women skaters of all the nationalities for the honours of Europe, a 12 year old Hampstead girl, Miss Cecilia Maule, has won the European championship. The title was won by the young skater by a slim margin. Miss Sothe Henle (Norway), leading skater last week, were holding Miss Oloffe as the world champion of 1933 & 1934. The first competition, held for the first time in England, finished at the Ice Club with displays of free skating. Until 1926 Miss Oloffe had been the champion of the world. She finished the British Women's Championship this year, she also had her mother's. On Monday I do want to be like these girls? Last week she finished for skater of the world other English entrants. She is entering the World's Championship at Stockholm next month. The final placings in the Championship were: Froken Sofia Henle (Norway) holder, 1,823 marks. Mrs. Maudie Colclough (England) 1,781 marks. Miss Cecilia Maule (Great Britain) 1,739 marks. Mrs. Pauline Price (Australia) 1,713 marks. Miss Yvonne de Ligne (Belgium) 1,638 marks. Finland Lassotte Lembeck 1,613 marks. Miss Milla P. Phillips (England) 1,514 marks. Froken Irene Lander (Austria) 1,492 marks. Miss Dorothy Dutton 1,382 marks.

Froken Esther Borstman (Denmark) 1,342 marks. Miss M. W. Torpe (England) 1,270 marks. Froken Inge Lind (Sweden) 1,245 marks. It is worth noting that the British rule over the continent has been broken by the young skater. It is interesting to note that the skater who has won the title is a girl of 12 years of age. The skater who has won the title is a girl of 12 years of age. The skater who has won the title is a girl of 12 years of age.

BRITISH ISRAELI NOTES.

"The Times" Speaks Out. The following is a very remarkable leading article by The Times of January 14th. "When we desire a 'happy' year, we are concerned and our friends what precisely do we wish by happiness? To liberty, it with peace and prosperity to after all, to touch but the surface of our problems. Our problems are limited to our external circumstances. A year bringing us peace, prosperity and contentment might, in the deeper sense, be a most unhappy year if we mean the growth of materialism. Really, a year's thank with troubles and disappointments might yet be a signal 'happy' year, if it should bring us and our neighbours a clearer vision of God, a mind more richly to be placed with Him, a brotherhood transferred from the depths of sentimentalism into a realistic grasp of our relationships in God's family. "There are distinct signs to-day of a religious revival, a revival the most likely to be coming because it is a spiritual hunger and is developing slowly but surely. Already its influence is being felt in the world. Among those again, who are studying what the Church there are signs of a spiritual hunger, of a growth of faith in the power of our lives which leaves out of our lives to a nightmarish reality of the materialistic world. Among those again, who are studying what the Church there are signs of a spiritual hunger, of a growth of faith in the power of our lives which leaves out of our lives to a nightmarish reality of the materialistic world.

Japan Replies To Committee of Nineteen.

LEAGUE ASSEMBLY URGED TO THINK TWICE.

Unfair Treatment Alleged.

EXPRESSED DESIRE FOR PEACEFUL SOLUTION TO FAR EAST DISPUTE.

The lack of a stable Central Government in China and, in consequence the impossibility of depending upon the Chinese to maintain order in Manchuria, are points stressed in the official reply of the Japanese Government to the report of the League's Committee of Nineteen on the Sino-Japanese dispute.

Japan assures the League of her desire for peace in the Far East and alone for the present situation, partly on the League which, it is suggested, too hastily condemned Japanese policy and secondly on the continued lawlessness on the borders of Manchuria.

The reply declares that Japan has no desire to interfere with Chinese sovereignty in Manchuria.

Reports from Tokyo reveal that the whole country is in support of the Government's measures in Jehol and that there is the greatest enthusiasm at the prospect of hostilities.

Prospects of Cereal Growing in Kenya.

RELATIONSHIP TO FUTURE OF THE COLONY.

Progress Retarded.

COLONEL GRIFFITHS GIVES A REVIEW OF PRESENT SITUATION.

Important and valuable address on the cereal growing prospects in Kenya for 1933, and the general relationship of Agriculture to the future of the Colony, was given by Colonel C. G. Griffiths on Saturday last at a meeting of the Njoro Settlers Association.

Col. Griffiths expressed the opinion that despite the many disabilities under which the maize industry had suffered and was suffering, it would progress and surmount all its difficulties.

The Colony had in the past recovered in a marvellous manner from a series of shocks, and with an improvement in present conditions there was little doubt that the first of the primary products to benefit should be maize. There were few countries which could be returned per acre as that obtainable in Kenya.

Colonel Griffiths strongly criticised the policy of the railway in increasing the transport rate and in restricting movement. He stated that this policy adversely affected production at a time when greater production was needed to meet the heavy Budget expenditure.

At the meeting of the Njoro Settlers Association held on February 22, 1933, the General Manager of the Kenya Farmers' Association, (K.F.A.) Mr. J. H. G. Griffiths, gave an address on the present state of cereal growing in Kenya and the general relationship of Agriculture to the future of the Colony. (Continued on page 5.)

BRITAIN'S REVENUE RETURNS.

£40,000,000 to Balance Budget.

Revenue returns for last week were £40,000,000 against the provision was £39,000,000. The excess of revenue over expenditure last week was £1,000,000.

The financial year ends on March 31, and the deficit of £40,000,000 is the amount of the year's deficit.

On the 22nd of January the Secretary of State in his Budget speech announced that the Government will be able to meet the deficit of £40,000,000 by means of a new tax of £20,000,000.

The new tax is to be levied on the profits of the manufacturing and trading industries.

Chinese Rubber Factory Destroyed.

GIRL WORKERS FATE.

Pinned into a Raging Inferno.

Two girls were killed.

Two girls were killed in an explosion of two large gasolene cylinders in a Chinese rubber factory in East Shanghai. Up to the present 80 bodies have been recovered. 100 girls were killed.

The factory was demolished by two explosions, the first of which was followed by an outbreak of fire, which the second blew out of the wall and out into the boiler room, causing 100 girls working on the upper floor into the raging inferno below.

Later, it was ascertained that 81 girls had been killed, 90 were seriously injured, 10 were slightly injured and 10 are still missing. The cause of the explosion had not been established but the owner of the factory has disappeared.

PROSPECTS OF CEREAL GROWING IN KENYA.
 (Continued from page 1.)
 pending upon the amount of native labour coming on the market, and it was pointed out that there would be sufficient native labour to supply nearly all the local demand.
 Improvement Expected.
 In regard to the future, a careful study of the position, based upon available information, gave grounds for hope that improvement might be expected. The recent production of maize had varied very little during the last few years, but there had been a slight increase in total production during the last few years, and an average world production of 450 million quarters, the United States of America produced 200 million quarters. A few years ago, the U.S.A. was the largest seller on the world markets but her internal demand had increased so that during recent years her exports had fallen to zero.
 In January the estimated world supply of grains from normal crops, the estimate was only sufficient to supply the world consumption for a further few weeks, and the new maize season, which would commence on April 1st, would be absolutely not over 200 million quarters, and only primary produce which was not over-produced.
 This was a fairly very important factor when considering the future of maize, and that was limited areas in the world which could produce the grain in such quantities and there were few countries which would give the return per acre that obtainable in Kenya.
 The whole question of value was of course bound up in the world depression. However, with an improved world market conditions there was little doubt that the first of the primary products to benefit should be maize.
 Railway Rates.
 The maize future in Kenya was, to a material extent, bound up with the question of (1) Transport charges, (the railway) and steamer freight alone amount to 55 per cent of the total amount received in London for the maize exported (2) The price to be received on the local market for the maize (interim maize sold).
 On the question of freight of (1) Griffiths referred to an estimate from H.R. the Governor's speech when opening the Maize Commission in 1921 as follows:—A Government accepted and acted on the recommendations of the Commission and afforded direct assistance in various manners such as guaranteeing a flat rate of Sh. 11 per long on maize hauled over the Uganda railway system. The Government had carried out that guarantee until 1922 when the Railway agreed to move maize at the Sh. 11 flat rate and in recognition on the saving the Government the Colonial Secretary in introducing the budget in 1922 stated:—There will be no increase in the Railway's export rate. These guarantees were the outcome of the wine policy set down by the 1921/22 Economic Committee, and as a result of that policy the subsequent prosperity of the Colony was largely due.
 The real set back to the maize industry was primarily due to locust damage recurring year after year as well as the low world price and the very short-sighted policy of the Railway's Administration in increasing the railway rate and restricting movement.
 The construction of the railway to the Uasin Gishu and Kaler areas was definitely unprofitable with a loss-making bulk traffic

like maize, and the harbour development can only be justified if bulk crops are covered. Therefore any policy which imposed a rate on the railway and harbour which retarded the development of the bulk crops raised in these areas was a reversal of policy, and changes of policy of this kind undermine the interests of the producer and led to want of confidence in the future. The interests of the Colony are security given to the maize industry, and the price to be taken from it must be returned and the confidence of the producer restored.
 Price to the Grower.
 With reference to the value of Kenya Maize to the grower, there was the question of low price, which Africa by a system and Rhodesia by a Maize Board guaranteed the price within their respective countries and established it at a figure above the local market, but the latter's market, thus returning to the grower something above the cost of production.
 Those responsible in the maize industry in Kenya had put forward proposals to Government with a view to controlling the internal market, and it was pointed out that efforts had not yet met with success. This question was then wrapped up with that of native maize production. There was no recognition that maize should be increased by the local consumer to an unprofitable price, that it should be a profitable one, and be supplied to the local market.
 The maize question immediately later on the Government had proposed legislation to enable the Government to control the market and could not the Kenya grower expect similar assistance?
 Wheat Industry.
 In regard to wheat the Government had been of assistance in various ways, and it was pointed out that seriously affected the wheat which was for the local mills, but there was no reason to suppose that the growing of wheat will not again be a very profitable branch of agriculture in the Colony, and it was up to those who had land suitable for its production to see that the area needed to wheat this year was ample to supply the needs of the local mills. If they neglected to do this they would not expect to continue to receive the protection they had hitherto had by means of import duties.
 The wheat industry should be a valuable one and the matter of its continuance to a material extent rested with the growers themselves.

The Financial Aspect.
 The Colony's real financial position was to be gauged by the value of the exports, compared with its imports. The Government had not shown real financial effect in this direction, and the Colony's development had been retarded to a real definite policy with an aim in view. The Honoring Commission in 1921/22 gave the lead and the result was the great increase and increase of the Easter Hall at Home, however, had done much to retard the development of the Colony and little if anything to assist the native.
 The Colony's exports for 1921 were £2,900,000, its imports were more than a million sterling in excess of that figure, yet the draft estimates for 1922 were £2,200,000. A little reflection on these simple figures must result in the conclusion that they were out of proportion. The taxation necessary to meet the expense of a Budget so heavy could only be justified by (Continued on page 8.)

Kenya will be thrown into a flutter by the substantial increase in Government activity the Budget of the Income Tax. It is not surprising that the Budget, despite their large bank balances, has been met with a cold reception. The Government's policy of increasing the Income Tax is not surprising, but the manner in which it is being carried out is a little surprising. Racing "SHAMATEUR" IN RACING. Question of High and Low Weights. Allowances for Amateurs. Should Professionals be Penalised?

To the Editor, "E.A. Standard," Sir:—A recent article in the "East African Standard" on High and Low Weights has interested me, as well as a letter in your columns on allowances to amateurs.

I think the two matters are in Kenya, in particular, and I am expounding a possible solution for your racing fields to consider. First of all, whosoever as a amateur, may I be allowed to say that I am an equal weighter against the "shamateur."

There are a number of "shamateurs" about and to me they are one of the greatest nuisances of the month of the "little man" who, at least, have the guts to be professionals and are proud of it.

After all, plenty of good men have been riding for the shearer low of the game would take a penny for his expense on a creative any form of present for riding a winner at all other than the outside a small amount of interest value practically nothing) horse with the name attached to the rider's name.

Some very famous gentlemen have been up before the National Hunt Stewards to my certain knowledge: some proved that they were not professionals, others did not. The latter now ride with their names and titles on their race cards and square with the professionals. And who can blame them? The latter certainly feel they are having a square deal.

I suggest therefore that you adopt the suggestion of your correspondent that gentlemen who have not ridden more than a certain number of winners should be allowed, and in all other cases, when any amateur has ridden ten winners under Rules, a further investigation by the Stewards who send an application a license to ride on courses with professionals if they consider.

(a) He is a bona fide amateur. (b) If sufficient number of winners have been ridden under Rules to expect to be considered as any sort of professional. (c) If sufficient number of winners have been ridden under Rules to expect to be considered as any sort of professional. (d) If sufficient number of winners have been ridden under Rules to expect to be considered as any sort of professional.

Weller-weighted races, all but-which, "shamateur" men, who are framed for amateur top weights 12 to 12 lb. for the first year, and possibly confine them to 2nd and 4th. Division was a very rare card, had four at racing weights, closed for jockey with lead may compete (amateur and professional) three
