World's Motor Record Again Broken.

SIR MALCOLM CAMPBELL'S TRIUMPH.

Speed of 272.08 Miles Per Hour.

CAR CONTROLLED WITH ONLY ONE HAND ON THE WHEEL.

Sir Malcolm Campbell has once again triumphed as the world's leading motor driver. At Daytona Beach, Florida, on Wednesday, he exceeded his own previous land speed record, driving at an average speed over two measured miles, of 272.08 miles per hour.

In spite of the adverse conditions Sir Malcolm Campbell drove with only one hand on the wheel, having sprained an arm last week while effecting some repairs to the car. He said that it was the worst ride that he had ever had in his life.

Car Not Driven Full Out.

Despite the fact that Sir Malcolm Campbell broke his own world speed record on Tuesday with an average speed of 272.08 miles per hour, he did not drive the car full out.

It is revealed after the record-breaking run that Sir Malcolm Campbell drove only with one hand on the wheel. Sir Malcolm Campbell says that he had had some trouble with the engine revolution counter register 3.750 per minute, which led to 3.800 miles per hour when he entered the measured mile. When he had a rough start because of the discrepancy Sir Malcolm Campbell says his visibility in the car was not too good.

The "Blue Bird" is fitted with Rolls-Royce engine developing 2,150 horsepower at 3,200 revolutions per minute. The previous record for the car was 253.988 m.p.h. and for the Klemmner 251.347 m.p.h.

Sir Malcolm Campbell said that the "Blue Bird" was at its best when he drove it. "I was unable to let her all out," he said. "I think the car would have done much better if I had had better conditions. As they were, I simply could not let her all out."

UNOFFICIAL MAJORITY.

Mr. Malcolm Campbell is being warmly congratulated on the great feat he accomplished over the double mile at Daytona Beach yesterday, when he broke his own world speed record by a margin of 18 miles per hour. Sir Malcolm Campbell is now driving with only one hand on the wheel in the past 10 hours during which time speeds have increased to a remarkable 160 m.p.h. Sir Malcolm Campbell's world record speed of 272.08 miles per hour was first exceeded by the late Major Sir Henry

The Conference of East African Governors.

OPENING SPEECH BY SIR BERNARD BOURDILLON.

Common Problems.

CO-ORDINATION OF POLICY COMBINED WITH WISE DISCRETION.

The conference of the Governors of the British East African territories opened at Entebbe on Monday, when Sir Bernard Bourdillon, the Governor of Uganda, opened the proceedings with an address of welcome to the visiting Governors.

During the course of his speech he said that while co-ordination of policy was the main duty of the Conference, it did not necessarily mean uniformity. It was important that wise discretion should be exercised. It was sometimes in the interests of East Africa as a whole that its component elements should sing in harmony rather than in unison.

REMOVED CHANGE IN THE SCHEDULES.

To the Editor, "E.A. Standard,"—My "E.A." has come to my ears with the news that the Government has decided to make a change in the Income Tax Schedules. I am glad to hear that the Government is taking steps to improve the tax system, but I am sorry to hear that the change is being made without consulting the public.

The removal to section 10 of the Government has thought that it is better to have the Government's decision on this matter than to have the public's decision. I am sure that the Government's decision is the best one for the country.

YOU RIDE ON A "ROAD OF AIR"!

Introduced by Goodyear to aviation close to three years ago, these big, buoyant, soft-rolling tyres set new standards of safety. They made smooth, gentle landings where planes never dared to land before. They absorbed side-wind. They gave new softness to landings and take-offs at express-train speed. They put new power in brakes.

Now they are here for your motor car. Riding is almost like flying — on these big, soft AIRWHEEL* tyres — Goodyear's new tyres for motor cars. They have no equals for softness, for safety, for their protection of motor car life.

Low swung and deep cushioned, they roll smoothly and swiftly over even the roughest roads—as if riding on a "road of air".

If you are buying a new Ford or Chevrolet, have it equipped with Goodyear Airwheels. Let us quote you and arrange the changeover. The extra cost is negligible.

Their very style is enough to make many motorists want them instantly—but that is only the beginning of their advantages.

Floating over bumps on as little as 16 pounds of air they save you and your car from the jolts you get even on average balloon tyres. Absorbing and taking up side-wind, they take curves securely, at speed. Laying down more

of their All-Weather Tread on the road, they make the world's best-known safety tread safer than ever.

Light-running and easy-rolling, they require no more petrol than any other tyres, and they make no difference in speed or steering.

That's the type of tyre that is waiting for you now at your Goodyear Dealer's.

Fishers, Simmons & Rodway, Ltd. announce that the latest model Dodge Cars, are now available equipped with Goodyear Airwheels AT NO EXTRA CHARGE.

MUNICIPAL COUNCIL OF NAIROBI TICKETS. WARNING!

The attention of the public is directed to the fact that TICKETS remain payable on dogs in quarters of tropical typhus. Infected ticks have been discovered in houses in Nairobi where dogs are kept. It is incumbent therefore upon dog owners to pay strict attention to the regular "docking" of their dogs, and care should be exercised to see that all ticks are promptly destroyed.

Much can be accomplished by individuals in the control of this disease, if a co-operative effort is maintained in the destruction of dog ticks. The disease is liable to occur in any type of home, and its incidence is governed largely by the care and attention devoted to domestic pets.

By ORDER OF THE COUNCIL, P. S. DEKREBLEY, Town Clerk, Municipal Offices, NAIROBI, February, 1933.

Dated this 23rd day of February, 1933. P. S. DEKREBLEY, Town Clerk, Municipal Offices, Nairobi.

Japan Launches Attack on China.

FAILURE OF NEGOTIATIONS AT GENEVA.

Japanese Delegates Withdraw from Assembly.

AFTER ADOPTION OF REPORT OF THE COMMITTEE OF NINETEEN.

The League of Nations Assembly has adopted the report of the Committee of Nineteen on the dispute between China and Japan, which the Chinese delegate described as "a terrible and unjust judgment of Japanese militarism." Japan alone voted against the adoption, while Siam abstained.

In the result of the vote being declared, the Japanese delegates rose and walked out of the Assembly, while later in the day the Japanese Under-Secretary of the League resigned from his post.

It is not yet clear whether the action of the Japanese delegates in withdrawing from the Assembly marks a Japanese resignation from the League of Nations. This decision is a matter for the Japanese Government.

Hostilities in China have again advanced a further stage, with the launch of an attack, on a large scale, by Japanese and Manchukuo troops against China in the Jehol area. As a preliminary, Manchukuo forces entered Kailin.

The object of the campaign, it is stated is to occupy two vital passes into China, which the Chinese must hold if their resistance is to be effective.

THE FIRST OBJECTIONS. [BY WIRELESS.] Beijing, February 24. The Special League Assembly under the presidency of Lord Balfour, opened at Geneva today. The Japanese delegates, under the leadership of Baron Makino, were absent from the start.

DRAMATIC INCIDENT. Japanese Delegates Walk Out. The Assembly adopted the report of the Committee of Nineteen, which was a unanimous decision to accept the Japanese proposal to accept the report of the Committee of Nineteen.

THE OFFENSIVE OPPOSITION. Determined Opposition Expected. Peking, February 25. In heavy snow with the temperature 12 degrees below zero, 50,000 Japanese and Manchukuo troops are marching towards the Jehol area.

CHINA FIGHTING BACK. Tokyo, February 25. Japanese troops are reported to have entered southern China. A limit of Endeavour. Before walking out Baron Makino declared that the Japanese Government was unable to accept the report of the Committee of Nineteen.

SEVERE FIGHTING. Public Opinion in China Aroused. Peking, February 25. Messages from General Hoing-tzu report severe fighting with heavy casualties in the Jehol area, where two Chinese brigades are being attacked by 50,000 Japanese.

UNEMPLOYMENT. [By Wireless.] Dublin, February 25. The Prices of Wheat, which is taking a little longer to reach the market, is being affected by the voluntary efforts to provide compensation for the unemployed and the Government is considering already several of the largest industries in the country.

Pulchritude
 would be mythical were it not for the Hairdresser's Art. Modern hairdressing, however, is not revolutionary but rather it is evolutionary—the outcome of one of the world's oldest arts.
 Maison Marie offer the best of modern hairdressing and beauty culture at charges which are remarkably low. This is only possible because of the large number of regular appointments made here.

Amber (Chairman of the Convention), Mr. Robert Shaw (The Executive), Mr. W. M. Lelan Wilson (Kenya) East African Society (Leader of the Elected Members) and one of the other Elected Members.

But we have heard nothing from Shaw or any of the other Elected Members. He had asked about the matter from the Executive but had received no answer. I would only like to say that the Executive has not yet given to the Executive of the Convention was invited to produce a report to be published and to be presented to the Convention by the Executive, meeting and after that the matter has been referred to the Executive, which had been done so.

Matter of Urgency. Captain J. H. M. ... A resolution had been passed which had been approved by an overwhelming majority of the Elected Members. The resolution was to the effect that the Executive should be asked to produce a report to be published and to be presented to the Convention by the Executive, meeting and after that the matter has been referred to the Executive, which had been done so.

Too Much Talk. In the opinion of the Ngugi Association, although that resolution was passed, nothing has been done about it and the matter has not been solved.

GYMKHANA AT SOKH.

Successful One Day Fixture.

Good Racing and Big Fields.

T. DEERY HEADS WINNING OWNERS' LIST

[FROM A CORRESPONDENT.] South, February 25.

South Sports Club once again legitimized the days of amateur sports by putting on a very successful Gymkhana on February 25.

As usual "Tobogg" was a Tower of Strength and worked like a Trojan in the "Pentester" as an excuse for a day or two away from his training.

The morning was devoted to events such as a mounted race, polo, and a variety of other sports.

There were some unusual chairs—some were going round a few corners, and had passengers along.

A ladies' golf and space race was held on the fields and was won by Miss Nichols.

Make-up cars were again in demand for the tennis and basketball matches.

Leach was considered the course thing. Mrs. Vera Benson really carried the colors.

A good start. Blase led all the way, and the field could not catch her.

In the afternoon the racing never before at a Gymkhana have the fields been so large.

Leach was again in demand for the tennis and basketball matches.

The racing on the whole was very good and everyone was pleased to see "Tommy" derive laughing from the field.

The show in the evening was considered a 100 per cent success and everyone left themselves going home.

Let us hope that next Gymkhana will be as great a success.

South Gymkhana is beginning to move again as a time goes on.

Visitors were there from Nairobi and other parts of the Colony.

Hot weather and provides accommodation for any outside guests on these occasions.

There is led all the way and

The following report was submitted at the annual general meeting of the Amateur Boxing Association of East Africa, held in the New Stanley Hotel on Friday.

In presenting the annual report to the Council, the President, Mr. A. C. King, stated that although the Association had not been able to hold its annual general meeting during the period under review, it has at least held its ground in face of the severe depression which has existed in East Africa.

During the past year it has not been found possible to hold the annual championships. This is mainly to be regarded as a matter of necessity.

There were very indications, however, that the 1933 Championship would be held in the latter part of the year.

FINAL TEST AT SYDNEY.

Hammond Gets His Century.

Crowd Cheers Larwood.

HARD HITTING APPEALS TO SPECTATORS.

'Standard' Correspondent and Writer.

Sydney, February 25. Glorious weather prevailed this morning when the final test match was resumed at Sydney. Australia appeared to be in a strong position, but bright lights by Hammond and Larwood turned the tide to some extent for England.

The English continued to score at a good pace on the first day. The 100 was signalled in as many minutes. England's position was maintained by getting Lee to the boundary of the first ball he received, and then, before he had reached double figure, he had hit stump uprooted. Lee, however, was keeping a fine length, and his off-breaks were very effective. His fighting of the ball was splendid.

The fourth century was achieved after seven hours batting. Wyatt was taken at the stumps on the 21st of a scorching display of batting which the batsmen were very successful in. He finished in his total over five fours. Allen was not out with 25 when stumps were drawn for the day.

EXPORT OF ARMS.
British Suggestion at Geneva.
 In Geneva, the Advisory Committee of the League of Nations, established to watch the Mandate situation, met during the weekend when the British delegate, Captain Anthony Eden, reported members individually to give serious and specific attention to the problem of export of arms in relation to the Far East. All members agreed to the formation of a sub-committee to consider this problem.
 The British Government has already approached other Powers on this question, and have undertaken to keep the Committee informed of developments.
A British Debat.
 In London an emphatic official denial is given to the allegation circulated by a news agency in the Far East that the British Foreign Secretary had informed the Japanese Ambassador in London that Britain had no objection to the retention of the Japanese and Manchukuo troops as long as they were confined to Jehol. The British Government stands absolutely by the terms of the League report on Manchuria.
Debate in the Commons.
 Considerable interest is taken in the debate in the House of Commons today when the situation in the Far East and the proposal that there should be no armaments export of arms will be discussed.
 The Leader of the Opposition, Mr. George Lansbury will open the debate, and the Prime Minister and Foreign Secretary, Sir John Simon will be among the Government spokesmen. Sir John Simon has been confined to bed during the week-end, with a feverish cold, but was able to attend the Cabinet meeting this morning.

Income Tax Bill Defeats Mombasa. CHAMBER OF COMMERCE UNABLE TO MAKE IT WORKABLE.

Unannounced Opposition.

Two more elected members join in crusade against the measure. Two more Members of Legislative Council—the Hon. Mr. B. Robertson-Eustace, the Coast—have declared their opposition to the Income Tax Bill.

A large meeting of the business men of the Port passed a resolution condemning the principle of Income Tax as most unsuitable for East Africa and pledged to extend every assistance to constitutional endeavours to combat the measure.

It was revealed during the meeting that a sub-committee of the Chamber of Commerce had made several endeavours to produce amendments which would make the Bill even reasonably workable, but had come to the conclusion that no amendment could make it less objectionable than it is.

Unanswered Questions.
