U.S. PRESIDENT'S PLANS. A NAZI TRIUMPH.

Emergency Meeting of Congress.

NATIONAL SUPERVISION OF BANKING SYSTEM.

Prohibition of Gold Export.

UNCONFIRMED REPORT THAT AMERICA WILL LEAVE GOLD STANDARD.

The financial situation in America remains very critical. The President has issued a Proclamation giving the National Government absolute control of gold supply and prohibiting export of gold and silver. In the meantime a national bank holiday has been declared until after Thursday. A newspaper report that the United States will go off the gold standard is not confirmed. An emergency meeting of Congress will be held on Thursday.

World-wide Reverberations.

Results of the meeting have been... The London foreign exchange market is dealing with all currencies... Little business was passing in the London markets this morning... The effect of the American crisis is now a menace from a world-wide point of view.

DISARMAMENT.

Throughout the meeting the influence remained under the surface... The American situation... However, no progress to speak of was made... The next case concerned the Navy bill which at present is being handled by file with the Committee on Naval Affairs.

OFFENCES UNDER THE COMPANIES ACT.

Failure to Furnish Returns.

A BANKING COMPANY.

Special companies among which was the Premier Commercial Bank of Africa Ltd. were proceeded for offences under the Companies Act. They were two files concerning the Premier Commercial Bank of Africa Ltd. In the first file the bank was charged with having failed to file with the Registrar of Companies the returns for the year 1932 as required by Section 115 of the Companies Ordinance.

Special Circumstances.

The Registrar of Companies had proposed the prosecution of Mr. P. C. Stratton, of Messrs. Delaney and Stratton, approved by the other officers of the Bank in the special circumstances. Mr. Stratton pleaded guilty. He was fined £500.

Confined Fight.

Following the occupation of Jibuti City, the Chinese are being in confusion, mainly south of the city. The Chinese are being in confusion, mainly south of the city. The Chinese are being in confusion, mainly south of the city.

“DON'T ‘SAVE’ ON OIL”

WHENEVER I am asked for advice on the wisdom or otherwise of attempting to economise on lubricating oil, I give it in the strongest possible terms. There is no more foolish policy than to use an oil without a pedigree.

I do not say that there is any good of which is sold without a brand, but there is much that is no good at all, and by far the best thing to do is to buy nothing but that which carries a name which is itself a guarantee. Then you are absolutely safe and know exactly where you are.

A NAZI TRIUMPH.

(Continued from page 1.)

victory was told to measure itself all parts of the country.

The election passed off relatively quietly. The polling stations to have been 90 per cent of the electorate and the counting of votes ended at 6 p.m. today. Counting began immediately.

While there was a complete absence of Republican and left flags and only a few Nazi flags were lower, the Nazi flag was flying in Berlin during the day. There were strange scenes when 20,000 men marched along Unter den Eichen this afternoon where they were cheered by the vote by hand. The men were afterwards addressed by their leaders and the palace of the Kaiser and thereafter dispersed.

Reports indicate that there have been some untoward incidents in parts of the country but on the whole the election has passed off far more quietly than was anticipated.

Philman Shot Dead.

In Holland a Nazi politician was shot dead and several people were injured, while a clash between Nazis and Communists at Worma resulted in a Nazi being dangerously injured. Nine Communists were arrested. One member of the Reichstag movement was shot dead and another wounded as a fringe of Munich.

In Berlin itself all was quiet and there were only 41 arrests made since 1931.

In the provinces, however, scores of alleged Communists have been taken into custody.

Party Results.

The results up to nine o'clock this evening showed that out of 4,470,110 votes—roughly 13 per cent of the total electorate, the polling was as follows:—

Nazis	1,890,000
Socialists	790,000
Communists	500,700
Centres	447,000
Nationalists	212,800
Bavarian People's Party	300,200

Heavy Nazi Gain.

It became almost fairly certain that the result of the contest of the election would be the heavy Nazi gain. It was

cause the constituency votes showed an improvement of the Nazi proportion by as much as 40 per cent, combined with the reported slight gain in the early period. In the early period, the Nationalists also were strong by holding their own. The Communist and People's Party were both losing ground. In many towns the Nazis exceeded the peak vote of the July elections and before midnight it was obvious that Nazi was a victor of the Reichstag.

Who 70 per cent of the votes had been counted it was seen that out of a total of 372 seats the Nazis had obtained 176 and the Nationalists 97.

By midnight the results of seats out of 382 allocated for the Reichstag were as follows:—

Nazis	235
Nationalists	118
Communists	82
Centres	52
Bavarian People's Party	50
German People's Party	50
Christian Socialists	35
German Socialists	26

It was practically certain that Herr Hitler and his Allies would have slightly over 70 per cent of the seats held in the Reichstag.

The provisional final results:

Seats	
Nazis	294
Socialists	118
Communists	82
Centres	52
Nationalists	52
German People's Party	50
Bavarian People's Party	50
Christian Socialists	35
German Socialists	26

The final provisional figures show that the total votes cast were 4,470,110 and the seats were 382.

The results are as follows:—

Nazis	11,390,000
Socialists	4,170,000
Communists	4,540,000
Centres	2,850,000
Nationalists	2,181,000
Bavarian People's Party	1,290,000
German People's Party	1,290,000
Christian Socialists	850,000
German Socialists	480,000

The results of the election would be the heavy Nazi gain. It was

Brevity is also essential to ensure consideration.

THE INCOME TAX

To the Editor:—E.A. Standard, Sir,—It might perhaps serve some purpose if you could find space in the "East African Standard" for the extract rendered out from a recent edition of the "Times," which refers to the case for the imposition of an Income Tax in this country.

It is a detached and judicial consideration of the one with which neither for or against such a measure.

No reference is made to the constitutional aspect, nor to the introduction of attempting to impose such a tax—a tax which is heavy direct taxation unannounced by any attempt to fathom the opinion of the people to be taxed. Such action has, on more than one occasion, been followed in English history with disastrous consequences.

The committee appointed later after the intention to impose an Income Tax had been made known began to inquire into the financial condition of the country and to report ways and means should have been set to work and had not proceeded to the policy of harassing us with the Income Tax which has been made public. The people whom it was proposed to tax with the introduction of the powers that be, and prevented much of the friction that has been brought about.

Yours etc,
C. W. L. BULPETT,
Nairobi.
March 4, 1938

The article referred to, was published in the "East African Standard" some months ago. It was written, we are informed, by an ex-Gov. Servant. The following passages may be excerpted with advantage:

The income tax question in Kenya is largely one of point of view. It is not a question of modern form, merely a question of burden on the shoulders of the people. It is a question of the degree to which the Government can be expected to support the needs of the country. It is a question of the degree to which the Government can be expected to support the needs of the country. It is a question of the degree to which the Government can be expected to support the needs of the country.

The old saying, "what's known and what's Africa," with its plain old and later copies, so far as the present industry has been started in Kenya, is not a new slogan. It is a slogan that has been used in the past. It is a slogan that has been used in the past. It is a slogan that has been used in the past.

Holding these views the writer regards an income tax as unfair in principle and distribution in fact. He considers that he has made the country, but, like other makers of new countries, he exists largely on credit, the continuance of which depends on the attractiveness of Kenya as a field of investment. To impose an income tax would, it is suggested, dry up the financial resources from which it is to be met.

Many factors are already being interposed. From a revenue point of view an income tax would possibly bring in very little, as shown from officials and aborigines. The settlers, in these hard times, are unlikely to have much income to be taxed. Why people who have no income should nevertheless be liable to an income tax is a little difficult to understand. What the settler probably fears is not the tax but the income tax. The consequent depreciation of the capital value of a tax which he believes will impair his credit might likewise impair the value of his estate and the collateral (or borrowing) used which he supports. In income tax, in effect, because a tax on

his capital. So far as the total receipts from his plantation, he is concerned, these can probably be repaid largely earmarked for the same purpose. The settler can and usually does pay the interest on his loans from the capital advances he has obtained from banks and others.

The present system of indirect taxation, including customs and excise, presses very heavily on the small man in Kenya with the one who does not pay whether any relief in this respect is afforded him or not. It is a system which is bound to be a real disadvantage. It is a system which is bound to be a real disadvantage. It is a system which is bound to be a real disadvantage.

SITUATIONS VACANT

To the Editor:—"E.A. Standard, Sir.—My T is allowed to continue "Out of Work" in Nairobi and at the same time appeal to the Englishman in London to get his fellow countrymen to get a square deal, and consider the first jobs for these British subjects before entertaining applications by others, however good their qualifications may be.

British Disaster at Tangi Explained

General von Lettow's book, "The War in East Africa," is a kind of admission to his own mistakes. It is a book which is bound to be a real disadvantage. It is a book which is bound to be a real disadvantage. It is a book which is bound to be a real disadvantage.

It is a book which is bound to be a real disadvantage. It is a book which is bound to be a real disadvantage. It is a book which is bound to be a real disadvantage.

The final blow to the unhappy British landing was delivered on its left flank by a single company of the 1st Battalion of the 2nd Brigade, which had been ordered to the scene of the landing.

A British reconnaissance party which might have discovered this weakness in the British right flank was the only party that got there before the British troops were able to get there by mistake.

"Fabiunus Luck"

The General remarks that the Germans had "fabulous luck". The result of Tangi had a very

"ON THIS DAY."

MARCH 7th.

So John Howland said, March 7, 1938. He was ever read "The White Company," by Sir Arthur Conan Doyle.

It is a book which is bound to be a real disadvantage. It is a book which is bound to be a real disadvantage. It is a book which is bound to be a real disadvantage.

It is a book which is bound to be a real disadvantage. It is a book which is bound to be a real disadvantage. It is a book which is bound to be a real disadvantage.

It is a book which is bound to be a real disadvantage. It is a book which is bound to be a real disadvantage. It is a book which is bound to be a real disadvantage.

WORLD WELCOME FOR NEW CEREAL FOOD

—MADE IN ENGLAND

For years doctors and food specialists have been urging the need for a prepared natural food made of rye. Since rye is in itself the perfect cereal, more easily digested and more nourishing than wheat, it is the ideal food for the world.

RYVITA FLAKES fills this need. It is prepared by a special process which preserves intact the germ of the rye with its invaluable vitamins and the natural husk—Nature's own protective covering for adults and children alike.

Eaten with milk or fresh fruit you will find RYVITA FLAKES delicious, appealing for adults and children alike.

RYVITA FLAKES

COBRA POLISH

The polish that protects your shoes

Besides giving your shoes a lustrous polish COBRA gives them longer life as well. COBRA feeds the leather and keeps it supple, thus preventing it from cracking. By using COBRA you save money because your boots and shoes give far longer wear. Always insist on having COBRA.

SANATOGEN

"The amount of blood in my body was not increasing—could not eat anything—could not sleep—could not breathe—could not see my feet clearly."

There is one tonic food which has been tested so often and so thoroughly that its beneficial action is recognized as a certainty—**SANATOGEN**. Over 24,000 physicians have obtained with Sanatogen as a nerve and body-strengthening food.

Sanatogen increases the appetite and multiplies the number of red blood corpuscles. It is so easily digested that the weakest stomach can absorb it, and hence a food and not a medicine for convalescents with the medical treatment you are being given.

Thousands of people "have rounded that dangerous corner of half-health" with the aid of Sanatogen. You, too, Sanatogen, to start today! With Sanatogen you will literally drink in new vitality.

SANATOGEN IS OBTAINABLE AT ALL CHEMISTS AND APOTHECARIES

Sanatogen is available in half-pint bottles and half-pint tins.

THE INCOME TAX PETITION.

Distributed for Signature Yesterday.

APPROVED BY MANY LEADERS OF PUBLIC OPINION.

Points in Kenya Case.

INEQUITABLE PRINCIPLE — THREAT TO DEVELOPMENT — LITTLE, IF ANY, INCREASE IN REVENUE.

The text was published yesterday of the Petition to the Secretary of State for the Colonies against the imposition of Income Tax in Kenya.

Before being published the Petition was signed by a number of leaders of the settler community including Lord Francis Scott, four other Elected Members, the Chairman of the Association of Chambers of Commerce, Eastern Africa, the Chairman of the Convention of Associations, Chairman of Nairobi Chamber of Commerce and the managing Director of the Kenya Farmers Association.

The work of distributing copies of the Petition throughout the Colony has already begun. All organised bodies are being asked to assist in the collection of signatures.

In view of the fact that a meeting was being held at Nairobi this week, a copy was conveyed there by air in charge of Captain R. H. F. E. Gues, who was accompanied by Major Cavendish-Bentley.

The Petition points out *inter alia* that conditions in Kenya are unsuitable for Income Tax, that the principle is incapable of equitable application, that it would prejudice the future and an economical alternative methods successfully applied in other countries are being suggested.

By Air to a Country Meeting.

The Petition against Income Tax, which has been distributed throughout the Colony yesterday for signature.

It was signed, prior to publication by:

Lord Francis Scott, Leader of the Elected Members.

Captain H. E. Schwartz, Member for Nairobi South.

Captain H. P. Ward, Member for Nairobi North.

Mr. R. H. Shaw, Acting Member for Uasinaii.

Mr. S. E. Byner, President, Association of Chambers of Commerce of East Africa.

Mr. H. B. Hamilton, President of Nairobi Chamber of Commerce.

Mr. C. Kenneth Archer, Chairman of Kenya Association of Associations.

Colonel C. O. Griffiths, Kenya Farmers Association.

A copy of the Petition was taken to Nairobi by air by Captain R. H. F. E. Gues, M.P., and Major Cavendish-Bentley, both of whom were attending the week's meeting of the Kenya settlers.

Copies are being sent to every Association of Settlers in the Colony with a request that all possible steps should be taken to place the document before the taxpayers.

The text of the petition is as follows:
The Petition.
BASIS OF PUBLIC OBJECTION.
Following is the text of the document:

RE INCOME TAX IN KENYA COLONY.
Unto the Right Honourable Sir Patrick Conboy, Secretary of State for the Colonies, Whitehall, London.

The Humble Petition of Members of the Legislative Council of Kenya Colony, and Colonists of Kenya Colony representing traders, companies, industrial, agricultural, professional, artistic, including coffee, sisal, maize, wheat, timber, sugar and stock farming, and some individual interests generally Showeth (inter alia) upon the following grounds:

(1) That the Income Tax will be a novel and a suitable form of taxation in Great Britain, where there is found a homogeneous population, old-established industries and large salaries; that in Kenya, on the other hand, the conditions are entirely different; that the population is a composite of different races and of different industries; that the majority of Agriculture is at present only existing with difficulty, and that in addition, the so-called salaried class and the professions are few in number and their income is small; that the imposition of the Tax can only cause as an opportunity to the State.

It is the right of every citizen to be free from any such burden and a restriction upon further development.
(b) That Income Tax without financial contribution which is not voluntarily offered is a burden to the taxpayer and is an impediment to the economic growth of the Colony.
(c) That the proposed Income Tax will be paid almost solely by the European population of the Colony.
(d) That the proposed Income Tax will be paid almost solely by the European population of the Colony.

It is the right of every citizen to be free from any such burden and a restriction upon further development.
(b) That Income Tax without financial contribution which is not voluntarily offered is a burden to the taxpayer and is an impediment to the economic growth of the Colony.
(c) That the proposed Income Tax will be paid almost solely by the European population of the Colony.
(d) That the proposed Income Tax will be paid almost solely by the European population of the Colony.

It is the right of every citizen to be free from any such burden and a restriction upon further development.

New York Stock Exchange Closed.

EFFECT OF THE NATIONAL BANK HOLIDAY.

Hoarding of Coin Prohibited.

MEASURES TO ENABLE ORDINARY BUSINESS TO CONTINUE.

While American banking authorities interpret the Presidential proclamation as removing the United States from the gold standard, this is officially denied. The Secretary to the Treasury stating that such an interpretation would be a grave mistake.

As a result of the moratorium to the banks and the economic crisis, the New York Stock Exchange has been closed until further notice, while no dollar dealings have been transacted in London.

Owing to the fact that the bank moratoriums prevent the payment of salaries, there is a danger of the financial markets following closing down.

The Film Industry. [FINANCIAL AGENT'S SERV.]

As the New York and London banking authorities have interpreted the Presidential proclamation giving the Government absolute control of the gold supply and prohibiting the export of gold and silver (which is effective from 1 a.m. to day) as removing the United States from the gold standard, but only for the period of the banking holidays terminating on Thursday.

Mr. Roosevelt's proclamation also authorizes national restrictions for the issue of clearing house certificates and prohibits (Continued on page 5.)

The imposition of Income Tax will be equally repulsive of all the facilities and advantages which naturally attend the ownership of any property, and will be equally repulsive of all the facilities and advantages which naturally attend the ownership of any property, and will be equally repulsive of all the facilities and advantages which naturally attend the ownership of any property.

That as has been shown above, and as will be demonstrated by the following, the imposition of an Income Tax will have serious repercussions on the activities of the main industries of the Colony.

(a) That one of the great industries which hitherto has attracted people to purchase land and make their homes in the Colony is the abatement of Income Tax. The introduction of such a Tax must inevitably retard and probably even stop the flow of further settlers to the Colony, with consequent stagnation in the market for land and consequent consequent stagnation in the market for land and consequent consequent stagnation in the market for land.

(b) That one of the most serious and inevitable consequences of the introduction of Income Tax will be a considerable increase in the present unemployment figures. The immediate result of an Income Tax Bill will be the withdrawal of funds from the economy.

THE GERMAN ELECTIONS.

(Continued from page 2.)

It is inesplicable of equitable application. It will bring about the future of the Colony because it will not be wholly prevent future progress.

And that an adequate and economical alternative method of raising revenue can be successfully applied to the Colony, which is rightly regarded as a very important matter.

Governor's Visit to a Factory.

His Excellency the Governor, Sir Bernard and Lady Bourdillon and their party visited the Uganda Sugar Factory and the Motor Spirit Distillery of Mr. Nanji Kalinda Mehta recently.

The visitors were taken round the factory by the proprietor and his general manager, Sir Bernard and Lady Bourdillon, visited the factory in all its processes of sugar and alcohol manufacture.

It is regarded as certain that in the future, such as the Governor, Sir Bernard and Lady Bourdillon, visited the factory in all its processes of sugar and alcohol manufacture.

"DON'T 'SALE' 'ON OIL"

WHENEVER I am asked for advice on the motor or otherwise of attempting to economise on lubricating oil, I give it in the strongest possible terms: There is no more foolish policy than to use an oil without a pedigree.

I do not say that there is no good oil which is sold without a brand, but there is such a thing as no good oil, and by far the best thing to do is to buy nothing but that which carries a name which is in itself a guarantee. Then you are absolutely safe and know exactly where you are.

REPORTS FOR THE FUTURE OF THE ECONOMY.

Report by Expenditure Committee.

BALANCED BUDGET AND ADEQUATE RESERVES TO-DAY'S IMPORTANT NEEDS

Expensive Optimism of 1925.

DECENTRALISATION AND AMALGAMATION AS MEANS OF ADMINISTRATIVE SAVING.

The Expenditure Advisory Committee's Report was issued by the Government of Kenya yesterday.

It contains many recommendations ranging over the whole of the very restricted field embraced by the terms of reference.

The Committee arrives at the conclusion that expenditure amounting to £3,176,376 is the annual amount required to keep a reasonably efficient Government machine in being and to meet existing commitments. This figure would of course be subject to constant variation with a view to still further economy.

This figure compares with a total estimated expenditure for 1933 already approved by Legislative Council of £3,297,747.

Economies in the 1933 programme have already been effected by Government and on the interim report of the Committee £37,334. The Committee now states that the value of further immediate economies recommended by them would be an additional sum of £25,868.

Among the main recommendations are—

- 1. Decentralisation of the administrative system by the creation of co-ordinated Provincial and District units;
 - 2. Abolition of the Statistical Department, the Native Registration Department and the Domestic Registration Office. It is contended, however, that this would not destroy the kipande system;
 - 3. Reorganisation of the Secretariat;
 - 4. Amalgamation of the Local Government and Lands Department with the Mining section and the separation of both from the Secretariat;
 - 5. Amalgamation of the Registrar General's Department with the Legal Department.
- Lord Francis Scott and Major Cavendish Bentinck, while signing what is a unanimous report have added a note stressing the need for still greater economies in the years 1934 and an increase in the levy on salaries in the case of officials who do not work under local terms of service.

Departmental Reductions.

The Kenya Government issued for publication yesterday the Report of the Advisory Committee appointed on July 1 last over the Report as dated February 19, 1953, and recommendations to the members of the Committee.

These were: The Treasurer of the Colony (Charles M. H. H. Blackburn), the Attorney General (Hon. Mr. A. D. MacGregor, K.C.), the Director of Education (Mr. H. S. Scott), Lt.-Colonel the Hon. Lord Francis Scott, D.S.O., Leader of the Opposition (Major F. C. Cavendish-Bentinck and Mr. C. N. Lewis, M.A.), Secretary (Mr. H. H. Blackburn), and the members of the Committee.

The Report states that the total expenditure for 1952-53 was £2,900,000, an increase of 102 per cent on the 1924-25 figure of £1,430,000. The Report points out that the total expenditure for 1952-53 was £2,900,000, an increase of 102 per cent on the 1924-25 figure of £1,430,000. WEEK OF GILBERT AND SULLIVAN.

Nairobi Amateurs in "The Mikado."

FIRST NIGHT IMPRESSIONS.

Good Material Which Will Improve.

The Mikado, as has long been known in the East, is a pastiche of Gilbert and Sullivan operas. "Pirates of the Guard" has a poetic quality of the Gilbert and Sullivan tradition as the "Pirates" and "Huddles" are noted for the delivery of their songs; but the story of the Mikado is a pastiche of the mythical town of Tabor in old Japan. All the actors are of the light and comic type, and the quality of dramatic consequences which have made Gilbert and Sullivan traditions in British life.

The Mikado has been produced in London for the last twenty years. That is, in a pastiche of the Gilbert and Sullivan operas, which have been produced in London for the last twenty years. Income Tax.

RENALISING SETTLEMENT AND CAPITAL.

To the Editor: E. A. Standard. Sir—There are features of the Income Tax Bill which are not only a practical application in Kenya of agricultural country settled population.

Yours etc.
DAVID A. SHAW
Nairobi.
March 6, 1935.

To the Editor: E. A. Standard. Sir—The four proposals which are being considered for meeting the needs of the Chamber of Commerce are worthy of consideration. If anything, they would be justified in assuming that the conservative estimate of 1,000,000 might be exceeded rather than underestimated.

There can be no two opinions as to the relative value of these proposals as far as income tax is concerned. It is a fact that the Government has not yet decided to introduce a poll tax on the lines in force in Tanganyika, estimated to produce 600,000 approximately half of the amount believed to be possible in respect and are likely to be met by the collection of the revenue of existing taxes will be substantially less than 1,000,000 might be exceeded rather than underestimated.

My I say a word in reply to the suggestion that "provisional" consent to pay tax and so should be given. This suggestion is always a dangerous proposition in the view of the Government of Kenya. It is a fact that the Government of Kenya is not a party to the agreement on the other "provisional" settlement in the absence of consent with getting the Government to bring the income tax in Kenya to a point where it is possible to tax him upon the value of the house he lives in as well as the tax he pays on the income he earns and spends here. This inconsistency in the one hand and the agreement on the other "provisional" settlement in the absence of consent with getting the Government to bring the income tax in Kenya to a point where it is possible to tax him upon the value of the house he lives in as well as the tax he pays on the income he earns and spends here.

For some (merchandise) reason, the Bill proposes an increased rate of taxation upon interest derived from mortgages of land. Today, in order to assist these borrowers, numbers of mortgages have been taken on their own initiative or at the request of mortgagees in rather one (although) reduced the rate of interest payable upon their mortgages. In some cases the reduction has been to a rate apparently less than that allowed by the Government Land Bank. Why accept investment upon mortgage for the benefit of the borrower, and the Government should especially provide it difficult to understand. It is an other deliberate and unnecessary discouragement of capital which must result in the increase of the rate of interest required by them. The publication

TUSSAUD'S EXHIBITION.

Special Tour of Great Britain.

["STANDARD" CORRESPONDENT.]
London, February 21.
Tusaud's is going on tour. History will be repeating itself, but the new touring exhibition, however, will be something different. The various Madame Tusaud wax figures offices of London, Paris, Lyons, and other cities, will be visiting the various French Republics. Mr. Tusaud has organized a special tour of the modern world, with the most interesting and entertaining of the wax figures. The exhibition will be a series of wax figures, with the most interesting and entertaining of the wax figures.

SWING OVER TO

Your ideal whisky would clearly be a blend specially made for East Africa — having a hot-climate character, as it were. Here it is! "Swing" — specially light, specially delicate, just as fitting. Specially intended, in short, for just such climates as this.

Prophy-lactic
cleans and massages
The soft and smooth 200 grains of the Tuffed Prophy-lactic is a very part of every tooth. The fine, springy bristles massage the gums, and keep them healthy.
These are the Old Prophy-lactic Creams which are also known as Prophy-lactic for the past many years, leading special names.

"I always insist on Sunlight Soap when doing housework, and without damage, Sunlight Soap being used. The clothes are safe, my Sunlight, for its soft, free lather, many comes over the dirt without hard rubbing and makes them beautifully soft and clean. And how nice the clothes smell being washed with Sunlight! Never ruin your clothes by using hard, impure soaps."

The third alternative was a trade license system.

Proposed to Income Tax.

It is said that the proposals are so numerous that they will be found in any proposal.

In any other way, it is only a strong sense of duty and a sincere conviction that should lead to the proposal which exempts the business from the alternative and opposite the Government measure.

The Pringle Tax.

There was a discussion on the second alternative, a pringle tax on one cent on the retail value of all goods exchanged.

Major Grogan quoted a report from an official to the effect that pringle could not be applied without agreement, to which Mr. Wood added that the Government should not support Kenya in this regard.

Total Economies of Kenya of £149,318.

IF GOVERNMENT ADOPTS COMMITTEE'S REPORT.

Effect in a Full Year.

In a full year the economies in expenditure which would be possible if the Government adopts the whole of the recommendations of the Expenditure Advisory Committee amount to £149,318.

It will not, however, be possible to give effect to these savings this year and 1934 is the earliest date at which the full advantages of the recommendations could be obtained.

In addition there are further savings of a long-range character which may be expected from the changes in Civil Service conditions and other large-scale changes in the administrative machinery suggested by the Committee.

The Defence Force.

In a full year of the Kenya Government adopts all the recommendations made by the Expenditure Advisory Committee...

The Committee also recommended that the salaries of the various heads of departments should be reduced to the same scale as that of the Government.

ALLEGATIONS AGAINST BANKRUPT.

(Continued from page 7.)

Writing of the signature of Mr. Ponzochi on the original letter since his firm had done considerable business with Mr. Ponzochi. Mr. Schwartz submitted that it was not identification unless it was seen by Mr. Ponzochi sign it. 'A man might write to you from England for years, signing himself "E. T. Jones." How could you tell it was indeed your friend and not his agent?' Mr. Schwartz asked.

He then stated that the signature on the original letter would have been returned. That being so would have been relevant with reference to the letter. The contents of the letter could not be held as evidence against the accused.

Accused's Books. Witness continued by stating his examination of accused's books was confined to the account appearing to have good dealings with Co-operative Bank, and the amounts of the various transactions were considerable—anything in the region of £2,000.

Discontinued witness agreed that the books were not examined with accused's books. This was done through the aid of the witness admitted that accused had brought through the books that one book had been lost. Witness could not say of his own knowledge that the goods in the book were not there.

Mr. Percy W. Statham, employer of Barclay Bank, Nairobi and formerly clerk of the bank in the name of 'Kashner House.' The account presented to him on June 20, 1932, was a copy of a telegram from London for £200. It was transferred by order of Co-operative Bank, Nairobi, on August 9, 1932.

Witness stated that he had not seen the account until 2.5.34. He had seen it for the first time on August 9, 1932, and was certain for a similar amount each.

Transactions Described. On the assumption of 'his' being a voluntary transfer, Griffith called Mr. R. D. Hamilton of Messrs. J. Hamilton & Co., who said his firm represented Messrs. Mackintosh and Co. and was a special power of attorney. Mackintosh's name to the account in Europe and ship there.

Witness agreed with Mr. Schwartz that so far as Messrs. Mackintosh were concerned there was no difference between their receiving goods or receiving money. It was a matter of how to Mackintosh's name when accused had received the goods. The debt was exactly the same.

Witness denied Ponzochi's statement that he had not seen the account until 2.5.34. He had seen it for the first time on August 9, 1932, and was certain for a similar amount each.

Another Objection. Mr. Schwartz said in order to show the letters were addressed to Ponzochi. He submitted that the witness could not produce the

THE EAST AFRICAN STANDARD.

Witness, only Ponzochi could produce the letters and any other letters written to and received by Ponzochi. Witness could not produce any evidence to the effect that they were received by Ponzochi. Mr. Schwartz agreed with the magistrate that the witness could not produce the letters and any other letters written to and received by Ponzochi.

A New Banking Account. Witness continued by stating that he believed in January he had seen a letter from the Standard Bank, Nairobi, to the Standard Bank, Nairobi, to the Standard Bank, Nairobi.

In November that year witness called him as to his position in the Standard Bank. Witness also asked him why he had not called upon an account at the Standard Bank. He said that he had not called upon an account at the Standard Bank.

Mr. Schwartz: Do I understand that your complaint is that you find fault with the account of Mackintosh's by two conspirators? Mr. Ponzochi: I would not say I do not see how much Ponzochi is to be blamed. I say I find fault with the account of Mackintosh's by two conspirators.

A Third Party? Mr. Schwartz: Do I understand that your complaint is that you find fault with the account of Mackintosh's by two conspirators? Mr. Ponzochi: I would not say I do not see how much Ponzochi is to be blamed.

Police had supplied information that in the prosecutions of a week since the cases were investigated by the magistrates driving, apart from the fact that white lines had been removed. The Town Clerk had intended to prosecute persons removing white lines, but his driving was not approved.

Councillor E. J. Bonaga expressed his opinion that the white lines should not be laid always parallel to the kerb, but should be laid in such a way as to avoid crossing them so much that they would be difficult to see. On the Salisbury Road, the Town Clerk had intended to avoid crossing the lines again, but he said his own car was

The Perfect Shaving Soap

In a beautiful container

Gleaming Black Dettolite - Ivory White - A counter good to live with - a soap delightful to shave with. A shaving soap that bursts into billions of rich creamy lather at a touch of the wet brush. A lather that stays moist and gets down into the pores to the real job of massaging the shaven face. If you wonder at the speed of shaving - and the absence of razor burn - it gives the credit to Gillette Shaving Soap. It's good!

Use the Gillette method of shaving. It will save the method of amusement that for a shaver - even a complete cost and valuation of 400 Shillings at least. At the beginning and end of the year to be assessed for tax purposes; and that the increase in expense due to the cost of the soap is part of one's income.

Some apply this method of assessment to the European stock market, and also because there is nothing that separates between the two. The difference will be found in the extent of the tax. It is not an extremely pleasant income.

After the war, the Imperial system was established. It was apparently a new "I" in "equality" of taxation. I have seen my friends who enjoy their first installment of the blessings of equality and pay no without doubt!

As much as the Income Tax Ordinance becomes law, it will be in compliance with the Reserve to assist the Income Tax authorities to assess those who are liable to pay Income Tax. These will be persons who are liable to pay Income Tax. These will be persons who are liable to pay Income Tax. These will be persons who are liable to pay Income Tax.

Income Tax.

THE POSITION OF THE AFRICAN STOCK OWNER.

To the Editor, "E.A. Standard,"
SIR: Many people are complaining that the Income Tax Department is inapplicable only to Europeans and Indians, but examination of Section 7 (1) clearly indicates that it is intended to tax the Native. I do not think that it will do much to help the native in his financial position, but it will certainly be a heavy burden on the European and Indian.

The Income Tax Act provides that for a stock-owner a complete cost and valuation of 400 Shillings at least. At the beginning and end of the year to be assessed for tax purposes; and that the increase in expense due to the cost of the soap is part of one's income.

ENGLAND WINS THE "ASHES" Better Team's Victory. TAKING STOCK OF THE VICTORY.

STANDARD'S CORRESPONDENT. London, Feb. 22. (By Air Mail.) England's victory in the "Ashes" by defeating Australia at Brisbane in the fourth Test match by six wickets. The position is as follows: 1st Test: England won by 10 wickets. 2nd Test: Australia won by 107 runs. 3rd Test: England won by 288 wickets. 4th Test: England won by 10 wickets. 5th Test: England won by 10 wickets.

The King has sent the following telegram to Vincent Lawless, president of the M.C.C.: "In addition to the players who have done so well in Australia, there will, of course, be available in 1934 a number of cricketers who are sure to do well in England next season. But in spite of our resources it would be folly to believe that the country's cricket has made a phenomenal stride since it showed up so badly in the test matches of 1930. Further, it is not possible that Australia's cricket has come back to the level of its former greatness."

Among the cricketers sent to Britain by the selectors were: Eric Hollies, who has been a consistent batsman; and a number of other players who have done their share. The M.C.C. have received a number of congratulations from the Australian cricketers, who have complimented them on their well-deserved success.

Lawless congratulated the cricketers on their success in Australia, and said that he was sure that they would do well in England next season. He also said that he was sure that the M.C.C. would do well in England next season.

Larwood's Heavy Test

But an important question concerns Larwood's heavy work in Australia followed by more work in England this summer. He is only 29, and although his height is moderate he is physically strong, but few of the agreed

cricketers who have just won the "Ashes" are so young. Larwood is only 29, and although his height is moderate he is physically strong, but few of the agreed

THE EAST AFRICAN STANDARD

SOUTH AFRICANS IN WIMBLEDON. A Super Open. WORLD'S CHAMPION CRICKET CHAMPION.

STANDARD'S CORRESPONDENT. London, Feb. 21. (By Air Mail.) South Africa will use the opportunity to Europe this summer to visit the M.C.C. and to play in the first Test match in England next season. The probable meeting between South Africa and England will be at Lord's, London, in August. It is likely to be a very interesting one, as the two teams are both strong.

At his meeting on Saturday, the M.C.C. general committee decided to enter an official English team in the world's amateur championship final at Wimbledon, in August. It has been suggested that the championships should be given a new name, because the English name is so long and cumbersome. The new name is "The World's Amateur Championship".

Among the cricketers sent to Britain by the selectors were: Eric Hollies, who has been a consistent batsman; and a number of other players who have done their share. The M.C.C. have received a number of congratulations from the Australian cricketers, who have complimented them on their well-deserved success.

E. AFRICAN CUSTOMS AGREEMENT. Proposed Unification of Departments. CHAMBERS' VIEW.

STANDARD'S CORRESPONDENT. London, Feb. 21. (By Air Mail.) The East African Customs Agreement, which was published in the Standard last week, is a very important one. It provides for the unification of the customs departments of the East African territories. This is a very important step towards the unification of the East African territories.

At his meeting on Saturday, the M.C.C. general committee decided to enter an official English team in the world's amateur championship final at Wimbledon, in August. It has been suggested that the championships should be given a new name, because the English name is so long and cumbersome. The new name is "The World's Amateur Championship".

Unification of Rates the Next Objective.

DEARER CABLES

Result of an International Conference

The Association of Chambers of Commerce of Eastern Africa, at its last annual meeting in Nairobi on Monday, 15th, discussed the following resolution.

The Association hereby expresses its deep regret that the unification of rates has not been effected in Kenya and Uganda.

This decision was reached at Tuesday's meeting of the Association, presided over by the secretary, in a rooming for a provisional copy of the agenda of the last conference prior to the meeting of the Association on Monday, 15th. The secretary reported that the unification of rates was a subject which had been discussed at the last conference and that it was decided to refer the matter to the secretary for a report on the subject.

A Reservation
It was accepted by the Association with the hope that the unification would be based on the higher rates prevailing in Tanganyika.

The Association also reiterated the request of the committee that the unification of rates should be based on the higher rates prevailing in Tanganyika. The Association also reiterated the request of the committee that the unification of rates should be based on the higher rates prevailing in Tanganyika.

At the request of Nairobi, the secretary of the Association is to be asked to request the unification of rates to be based on the higher rates prevailing in Tanganyika.

Dearer D.L.T.
A letter was read from the P.M.O. announcing that as a result of an international telegraph conference held at Madrid, Spain, in 1934, the D.L.T. rates for Kenya and Uganda will be reduced to 20 per cent of the present rates.

It is stated that the unification of rates is a subject which has been discussed at the last conference and that it was decided to refer the matter to the secretary for a report on the subject.

Unsatisfactory Reply to Request for Agenda.

ASSOCIATED CHAMBERS CRITICISM

The Association of Chambers of Commerce of Eastern Africa has instructed its executive to explore the possibilities of closer co-operation with the Secretariat of the Government Conference with a view to commercial matters upon subjects of the Conference agenda being obtained in advance of the conference.

This decision was reached at Tuesday's meeting of the Association, presided over by the secretary, in a rooming for a provisional copy of the agenda of the last conference prior to the meeting of the Association on Monday, 15th.

Joint Committee's
Attention was drawn to paragraph 55 of the report of the Joint Committee on Chamber of Commerce and other organisations which find it necessary to hold meetings from time to time to discuss questions where co-operation or co-ordination appears to be desirable.

A letter was read from the P.M.O. announcing that as a result of an international telegraph conference held at Madrid, Spain, in 1934, the D.L.T. rates for Kenya and Uganda will be reduced to 20 per cent of the present rates.

It is stated that the unification of rates is a subject which has been discussed at the last conference and that it was decided to refer the matter to the secretary for a report on the subject.

Purifies as it polishes — and leaves a lasting gleam

Besides giving a brilliant lustre to floors and furniture Cobra makes them safe; for Cobra contains a wonderfully purifying disinfectant which helps to keep the home healthy as well as bright and gleaming. In addition to being easy and quick to use, this famous non-greasy, odorless polish is also very economical—a little goes a long way!

Obtainable in 4-lb., 1-lb., 2-lb., 4-lb., and 7-lb. tins.

Averages in the Test Matches.

LARWOOD'S 33 WICKETS—16 CLEAN BOWLED.

“Mr. Extras” Total.

PAYNTER AND BRADMAN HEAD BATTING LISTS.

Paynter heads the M.C.C. batting list in the five tests, closely followed by Sutcliffe and Hammond. Led in the bowling, Larwood took 33 wickets, and heads the averages. It is perhaps interesting to note that no fewer than sixteen seasons he has bowled the batsman, while three men were out big before.

For Australia, the batting is headed by Bradman, while in the bowling Wall comes first, although O'Reilly took most wickets. Of the 382 overs sent down by the latter 143 of them were maidens.

In the matter of “Mr. Extras,” the Australian total included 142, and the M.C.C. one less.

The following are the averages:—

APPROACH OF THE RACING PREPARATIONS
Up.
GRABLE NO TO RISE AT AINTEE

STANDARD COURSE—London, February 28. (By Air Mail) Only three weeks remain before the resumption of flat racing. For the time being, the training season is held to be unimportant, and the preparation of the Grand National horse has been interrupted. During the past week no more than two days' racing has been possible on account of frost, the most interesting event being the success of Annapolis at Newbury. He had not been seen over fences since the Spring, and nobody with the possible exception of his chiefly optimistic trainer, believed he had any chance of winning. Much to the satisfaction of the bookmakers he topped up at the remarkably odd price of 20 to 1, with even a higher dividend on the totalisator. He will be curious if Lord Knebworth wins the Grand National, with this horse after having parted with Jack Horner only two days before his departure for America, having a fellow-countryman in the winter that Tom Colquhoun was ever so enthusiastic about.

MEETING U.S. CRISIS.

Special Sessions of Congress and Senate.

SOUND BANKS TO BE RE-OPENED AT EARLY DATE.

Big Inflation Scheme.

NATION'S GOLD TO BE CONCENTRATED IN THE FEDERAL RESERVE BANKS.

The House of Representatives and the Senate of the United States of America at special sessions held on Thursday gave to President Roosevelt the full powers he demanded to deal with the financial crisis.

A Bank Bill accepted by both Houses concentrates the nation's gold in the Big Federal Reserve banks and empowers the President to regulate or prohibit transactions in foreign exchange, transfers of credit between banks and export, hoarding or carrying of gold and silver coin and bullion.

In the meantime authority is being sought for a great increase in the note issue.

All emergency powers are being extended and the bank holiday is being continued indefinitely, although it is expected to end next Monday.

Bank Holiday to Continue.

President Hoover's closing of the Federal Reserve banks in order to deal with the financial crisis and that the first task was to re-open all sound banks in a preliminary step towards re-opening all banks with depositors' funds.

The President requested Congress immediately to enact legislation in order to permit the opening of banks for resumption of business. He asked Congress to give Government-owned banks authority to re-open banks as rapidly as possible and to re-open other banks by putting them on a sound footing.

Additional Currency. He intimated that the Federal Reserve Act would be amended in order to provide additional currency demands and the urgent legislation that Congress should pass immediately.

Later the House of representatives and the Senate both passed the Senate vote was 70 to seven.

President Hoover's emergency powers over the banking and currency. He also requested Congress to re-open the Federal Reserve banks in order to deal with the financial crisis.

Heavy Penalties. The bill provides for a fine of \$10,000 for any person who is found to be in violation of the provisions.

Ambitious Plans for King's Cross Area.

COMPOSITE SCHEME.

Meant to Embrace All Kinds of Transport.

["STANDARD" CORRESPONDENT.] London, February 29.

A company was formed recently, U.K. Airports, Ltd., under the name of Central Park, Limited, to carry out the construction of an air port behind King's Cross and St. Pancras stations.

His salient points are, the air field which Captain C. W. Glover, the designer of the air field, and also the lighting, which is automatically with a change of day.

Buildings as Support. Large buildings will support the air field at intervals.

The scheme is divided into three sections. The first section is to be re-constructed and the intention is to build a new air field.

The second section is to be re-constructed and the intention is to build a new air field.

The third section is to be re-constructed and the intention is to build a new air field.

Lord Francis Scott Flying Home.

TO PRESENT COLONY'S CASE TO SECRETARY OF STATE.

Signatures Pouring In.

["BY WIRELESS."] London, March 10.

Lord Francis Scott, leader of the Elected Members has agreed at their request to fly to England on March 11 to present the Income Tax Petition to the Secretary of State.

This means that the Petition must be signed with the greatest expedition and that the signatures must be made throughout the whole country in order that the first signatures which go Home may indicate quite clearly the nature of the opposition.

Reports from up-country show enthusiasm in all centres and in Nairobi the document is already widely signed.

Department of Agriculture Top-Heavy.

REORGANISATION WITH VIEW TO ECONOMY.

Proposed Staff Reduction.

EXPENDITURE ADVISORY COMMITTEE CONSIDERS CUSTOMS COLLECTION COSTS TOO HIGH.

The Expenditure Advisory Committee considers that the Department of Agriculture requires reorganisation as it is at present top-heavy.

In addition to savings already effected the Committee recommends staff reductions of officers and clerks total 110.

It is also proposed that the post of Agricultural Economist be abolished at the end of the tour of the present officer.

Although limited by their terms of reference the Committee ventured to suggest to Government that the Native Betterment Fund contribution for agricultural and veterinary services could be spent to the greater benefit of the African.

For example, they condemned as un sound the policy of spending large sums on veterinary services directed to inspecting the number of valueless stock.

The cost of the audit in Kenya is still regarded as too heavy.

A minor source of new revenue proposed is the charging of small fees to officers for the services rendered to them and their families by the Coast Agent.

An enquiry by the Kenya and Uganda Governments into the cost of the collection of Customs revenue is recommended.

Fees for Coast Agency Services.

Although the Expenditure Advisory Committee has recommended the importance of measures to reduce the cost of the Department's operations, it has also recommended that the senior posts be retained.

The report states that the original estimate for 1955 for the Department amounted to £2,411,000, which was submitted after the Committee's first interview with the Director, Deputy Director (Animal Industry) and the Assistant Director (Animal Industry).

Acceptance of all the recommendations would make the expenditure of the Department to £1,980,000, a reduction of £431,000, and the Committee recommended that the provision for 1955 be £1,980,000.

The Committee observed from the 1953 Estimates passed by the Council that the total expenditure of the Agricultural Department was £2,340,000, which was £1,000,000 more than was required to enable the Department to be reorganised with reasonable efficiency.

Further Reductions. The Committee therefore recommended the following additional reductions:—

1. One officer to be transferred to the Director of Plant Industry.

2. One officer to be transferred to the Director of Plant Industry.

3. One officer to be transferred to the Director of Plant Industry.

4. One officer to be transferred to the Director of Plant Industry.

A WEEK'S PRICES IN NAIROBI.

The Good Cumin and a Disappointment.

RAISED LYNX'S LATEST.

THE FOLLOWING MARKET REPORT FOR NAIROBI WAS ASSOCIATED BY THE KENYA FARMERS ASSOCIATION (CO-OPERATIVE) LTD.

Reports of local damage to crops in the past week are fairly heavy, but estimates of the damage are about 40 per cent. less than in an expert survey of 28 to 30 million quarts. Shoppers do not appear particularly satisfied with the quality of the produce.

Maise from the Plant a worth 17/6. The price has risen slightly in its position and is at a premium. Reports of drought conditions in the South African outcrop and Botswana, which is a very serious situation, has caused the market for S.A. maise to rise, while the exchange rate, because the State grows and has a long history of importation, has caused the U.S.A. price to rise to 16/6.

Wheat. The market is dull. The price has fallen slightly since the arrival of the Australian March crop. There are no milling contracts for wheat in Nairobi.

Barley. Demand for malting qualities good. Chevalier offered at 12/6. The price has risen slightly in its position and is at a premium.

Reports of local damage to crops in the past week are fairly heavy, but estimates of the damage are about 40 per cent. less than in an expert survey of 28 to 30 million quarts. Shoppers do not appear particularly satisfied with the quality of the produce.

Maise from the Plant a worth 17/6. The price has risen slightly in its position and is at a premium. Reports of drought conditions in the South African outcrop and Botswana, which is a very serious situation, has caused the market for S.A. maise to rise, while the exchange rate, because the State grows and has a long history of importation, has caused the U.S.A. price to rise to 16/6.

Wheat. The market is dull. The price has fallen slightly since the arrival of the Australian March crop. There are no milling contracts for wheat in Nairobi.

Barley. Demand for malting qualities good. Chevalier offered at 12/6. The price has risen slightly in its position and is at a premium.

From the point of view of product development and the value of research work they are satisfied, however, at the absence of attention of their recommendations would not result in enrichment of such activities and additional recognition as essential in the present financial state of the Colony can be made with safety.

Adult Department.

The Committee examined the question of subsidizing the East African Adult service but found it of opinion that it was not such a service which would be practicable or satisfactory. It is a matter which each territory would be extremely slow. They came to the conclusion that the adult service in Kenya is still too heavy and should be reduced. The Deputy Auditor and five other members of the Committee were of the opinion that the adult service which they were studying in self-education, technical and industrial classes, internal credit and maintenance and should be reduced to a minimum which can be raised without danger. In recommending the reduction of the post of Deputy-Auditor the Committee were influenced by the fact that the Auditor is a member of the Executive and either a lawyer or a politician.

Customs Checks.

The Committee considered the expenditure of the Audit Department should be limited to £10,000 per annum. The Committee also recommended that the Auditor be a member of the Executive and either a lawyer or a politician.

The Public Accountant.

The Committee considered the possibility of the Public Accountant being a private enterprise but found that it would be more costly. They recommended that the Public Accountant be a member of the Executive and either a lawyer or a politician.

2. For an Asian, including family 10/-

The fee should be charged as a service rendered to a wife or relative of an official when travelling accompanied by the official. On the assumption that approximately 800 Europeans and 1,200 Asians would pay the fee annually, the revenue would be £12,000. This revenue would be used for the maintenance of the Department as suggested, would be reduced by the adoption of the principle of extended tours. While no reduction in the cost of the Department as suggested, would be reduced by the adoption of the principle of extended tours. While no reduction in the cost of the Department as suggested, would be reduced by the adoption of the principle of extended tours.

Conference of E.A. Governors.

The estimate for the Conference of E.A. Governors for 1933 amounted to £4,000 of which the Kenya share was £1,000. The Committee recommended that the Kenya share be reduced to £500.

Outsourcing Department.

The Committee recommended that the Outsourcing Department be maintained as a separate department of the Customs and Excise Department.

The Maize Industry.

INDICATOR BENEFITS TO THE RAILWAY AND COLONY.

To the Editor: "E.A. Standard."
Sirs:—No one will
Gibbs Brogs if it is simply a case of hauling bags of maize at two pence per ton for miles and not counting one of our principal industries on a single note. Let us first examine those sources of information which lead to such decisions.

The estimated average under-planting in the country in 1932 was 1,382,145 bags, with 129,400 tons. The weight of bags coming up the Railway is only 1,542 tons but our goods are shipped mostly in sacks to equalize this discrepancy.

The year 1931 had 287,242 and Railway charges on sufficient tonnage to cover a maize crib. On the road to my nearest town I can count twelve cribs and I have no doubt that more than 100 tons are required for critical bulk items should be placed in the credit side of maize.

Government collects rates for the 100,500 acres under maize. Practically all the corn used in the maize industry comes from Native sources; the prices during the last five years have ranged from 25 to 40 and in heavy land, if bagging is included, it will be found that the total cost required for every 100 acres is in this reasonable and conservative estimate to suggest three quarters of the corn comes from natives—32 1/2 are required per 100 acres, the price being 23 per bag—which brings the amount to £13,118 paid to natives for the corn in use. The interest of producing native corn of over-estimated will not be improved if maize is to be produced.

Those who remember the Kibara famine of 1906-1907 will realize the maize industry is an extremely against such another disaster. At the very least, it is a necessity to provide for an expensive item. The fact is now being recognized by the Government and the results to the community but not to the producer.

The Railway has advanced 2,000 tons of maize meal in the shape of shop food helps to the famine.

Another factor is labor. The Resident Native is introduced, a small unit to decide the quantities required for each of these crops, maize meal, was put at third class rates or fifteen pence per ton for the year. Labor has now been taken into consideration, of night hauling, bullock, and shellings, grinding and all incidents in connection with the maize industry, the total for every 100 acres are required for 100 acres for the last ten years is 12), and ration—bringing the average bill to 28,000, a total of nearly 85,000 for the last ten years.

In 1904 England, for political reasons apparently, about 20,000 men were put down to grain, thousands of men were thrown on the dole and dairying started on a large scale. For ten years, milk dropped and a famine, Messrs Nettle advised their factories—producers being such that their products were unsalable—and farmers dismissed their cows and proceeded to fatten stock. The price of the latter dropped till it was almost unsalable. The farmer then proceeded to slaughter his stock and the butcher to buy plain. In the meantime, many farmers were brought to the limit of ruin, warrants of attachment for titles were absolute, the landlord for or after the tenancy period, finding himself in the hospital. In 1902, the Government of the United Kingdom reintroduced the wheat and barley into the market. Certain references in the report lead one to believe that reasons have influenced the

of Railway rates in the past. In this case, the estimated average under-planting in the country in 1932 was 1,382,145 bags, with 129,400 tons. The weight of bags coming up the Railway is only 1,542 tons but our goods are shipped mostly in sacks to equalize this discrepancy.

The Railway in England during the last few years have reduced their expenditure by about eight millions, several hundred miles have been closed, and we served more economically by road transport. On the main line two classes are in some cases carried by road and some are being carried by road and some are being reduced. Economies of cost are being made in the past. In Kenya it is proposed to increase the Railway rates and to increase the National Government at Home has discovered increasing taxation means in the long run loss of revenue and greater jobs are being done by road transport. The Colony we are proposing to increase it.

Are we alive to the fact that the world is financially slipping downwards and without the slightest prospect of a return to stability. The number of people who are employed in the world is estimated to be 3,000,000,000. It is estimated that the world's population will be 4,000,000,000 in 1950. It is estimated that the world's population will be 5,000,000,000 in 1975. It is estimated that the world's population will be 6,000,000,000 in 2000.

We are faced with an estimated 200,000 East African Government despatches suggesting for raising real revenue. Herein lies the issue. It is estimated that the really well prepared and artistically produced series of pictorial stamps would bring to the Government no less than £50,000.

During the last twelve months or so several British Colonies and Protectorates have issued pictorial sets of stamps. New Zealand, which in 1928-1929 issued one of the most magnificent sets ever produced, is again putting on the market a very fine series of pictorial stamps. The cost of production is very small, but the results are great, and why should Kenya not take the opportunity of adding £50,000 to her exchequer and relieving the heavily overburdened taxpayer of raising this amount?
