WORLD'S BIGGEST AIRSHIP LOST.

Disaster Overtakes American "AKRON."

FEARED DEATH OF 72 OFFICERS AND MEN

Thunderstorm Horror.

GERMAN STEAMER'S GOOD WORK. SHIPS RACING TO RESCUE.

The world's largest airship, the giant, American Naval Dirigible, "Akron" has been wrecked in a storm disaster which promises to eclipse even the horrors of the destruction of the British R.101.

She is down in the sea off the coast of New Jersey and present information indicates that only one officer, two of the crew and the wireless operator have been rescued out of a total complement of 10 officers and 57 men.

Ships are racing to the spot but there is conflicting news regarding the rest of the crew and no present certainty that they have been saved.

Four Men Saved.

PERSONS ESCAPED, 4.

There are 72 people on board. A later message reported that the German liner "Phoebus" had picked up some of the crew but could not save them all.

A wireless message from the German ship gave the information that she had saved the Chief Officer and three men and is standing by to attempt to rescue others.

Los Angeles - British Official Wireless Service.

Distinguished Officer. Admiral William Adger Moffat, the senior officer on board, was born at Charleston (S. C.) and is 64 years of age. He graduated at the U. S. Naval Academy in 1890 and was promoted through all the grades of the service until he reached the rank of Rear Admiral in July 1923.

His record as a naval aviator is distinguished. He served under Admiral Dewey on board the "Charleston" at the capture of Manila in 1898 and commanded the "Clasher" at Vera Cruz and at Tampico in Mexico on the famous occasion when Admiral Mayo, in 1914, demanded a salute for the American flag. He was in command of the "Chester" when Vera Cruz was taken on April 21-22, 1914. From 1914 to 1918 he was Commandant of the United States Naval Training Station, Great Lakes, Ill. He later commanded several naval districts and in 1921 was appointed Chief of Bureau of Aeronautics. For the Vera Cruz incident he was awarded the Congressional Medal "for eminent and conspicuous conduct in a position of trust and responsibility." He is a member of the United States Navy Reserve, and is a member of the "World War" He has a wife and four sons and two daughters.

The Ship. The Z-Bus 4 (U. S. S. "Akron" No. 44) was built in 1920 for the United States naval service. Her capacity was 6,500 tons, and she had a length of 700 feet. The job of the airship was to carry out operations of 10 officers and 57 men on the ship.

Did He Fire the Machine?

The victim, a Manchester dentist, nearly 70 years old, is believed to have tried to commit suicide some time ago.

Have Highways Men Shot Their Boats?

(STANDARD CORRESPONDENT.)

There was a surprise in the League football on Saturday. Have the Arsenal still the potential champions, but points were dropped in their long, hot week by 1-0. On Saturday they were defeated by 2-1. They played very well, but the Arsenal could not engineer a last-minute win against the Arsenal. Arsenal's defeat was a surprise. In a goalless first half the full-backing factor was the key to Burnley's victory, outside half, but after the Arsenal have got back after the interval it looked as if they would get the result. They had the Wilson's defence running the Arsenal's attack. It had established as a matter of fact through a counter-attack by James, Coleman was the half forward. THE DESTRUCTION OF THE "AKRON."

America Appalled By Catastrophe.

NO MORE BIG AIRSHIPS TO BE BUILT.

A Survivor's Story.

VESSEL FORCED DOWN BY TERRIFIC STORM.

It is feared that 71 deaths have resulted from the disaster to the United States airship "Akron" which was wrecked in a storm off the New Jersey coast.

It is stated that this disaster means the United States, as this is the second airship to be lost, the first being the "Shenandoah" in 1925. The whole country is appalled by the catastrophe.

One of the survivors is the second-in-command of the vessel, and in an account he states that the "Akron" was surrounded by lightning for three hours.

A statement issued by the Navy Department says that the airship was probably struck by lightning and caught fire.

The Probable Cause.

Willey, the second-in-command of the "Akron," who describes the vessel being surrounded by lightning for three hours and positively being hit by lightning during the throwing out of ballast.

NO MORE AIRSHIPS! Death Blow to Further Construction.

It is practically certain that the "Akron" disaster is the death blow to American airship construction.

Change in Law in Stock Theft Cases.

CHIEF JUSTICE RECOMMENDS DISCRETION FOR COURTS.

Sir W. Morris Carter.

Sir W. Morris Carter, ex-Chief Justice of Uganda and Tanganyika advocated before the Justice Commission on Tuesday that when a Native was tried for murder, the Court should have the power to impose an alternative punishment to the death sentence.

He revealed the fact that the Chief Justice of Kenya had recommended that in cases of stock thefts the Courts should have the ordinary discretion instead of the present arbitrary principle that the fine imposed must be at least twice the value of the stolen property, in addition to imprisonment.

Death Sentence Alternative.

"I think really that in the case of a European in a small country where the Judge very likely may not know the accused, that it would be throwing too much responsibility upon them, that if they were feeling that I should advocate that the Courts should be given the power to impose a fine only in addition to imprisonment."

THE EAST AFRICAN STANDARD THURSDAY, APRIL 9, 1963.

The Income Tax Debate.

Against the wild voice of the European League Members of the Legislative Council, the Government's Income Tax Bill has been rejected in a recent reading at the Select Committee. It has been proposed to examine its provisions. The Elected Members have refused, logically and wisely, to be associated in any Committee discussion, either Select Committee or Committee of the House. Having opposed the principle so strenuously, they had no other course open to them and it is to be hoped and expected that their action will not be regarded by the Secretary of State as one of mere evasiveness. The Select Committee which has undertaken the task of amending the Government's Bill is an official committee—led by the Colonial Treasurer, who significantly refused to discuss the Government's position in debate—and the Director of Agriculture, who is in charge of the Department of Government responsible for the discussion and recommendation of the one industry of importance from which the revenue for the Government's form of direct taxation must eventually be drawn in future years. His constituents for the members of the Colony are little better known through their representatives, as proposed almost daily opposition to the Bill in the Legislative Council is seen more as a hindrance. One of the members is the nominal representative of Native Interests in Council. It is understood, however, that the Native will not be a direct taxpayer under the Bill. Thus there are two Indian members. One of them, declared that he represents the country, the Indian community and his a fairly direct opposition to the Bill in Indian circles, he has supported the measure and accepted membership of the Select Committee. Particularly, he is a member-elected by Government and the Council. He is expected to examine alternatives. The other Indian member who opposed the Bill believes Government had not

considered his community's views, also accepted membership? It will be noted that the Government has not asked responsible members of the African community to say, particularly by the industrialists, Government. Under pressure, the Attorney-General admitted that the Government—which has as its first stage contemplated his own country—expected to obtain the sum of £100,000 from the Income Tax and doubled Non-Native Poll Tax. This figure is worth analyzing because it shows the whole picture of the measure and the nature of the burden. Of that sum, the present Poll Tax will produce £45,000. The balance, £55,000, is to come from the Income Tax and the doubled part of the Poll Tax. The Attorney-General has said that the number of people who are expected to become liable for Income Tax at present is 1,000. The Government is bringing in the new Poll Tax, which is a new proposal, will be liable for the Income Tax and will consequently be that while the figure of 1,000 is a small number, it is a large one at the moment. The Government has said that the number of people who are expected to become liable for Income Tax at present is 1,000. The Government is bringing in the new Poll Tax, which is a new proposal, will be liable for the Income Tax and will consequently be that while the figure of 1,000 is a small number, it is a large one at the moment.

in his vigorous speech that a blundering Government, ignorant of so needless to the reactions upon public sentiment, was being a constitutional crisis upon the Colony and compelling it to safeguard its rights. The speeches by the Attorney-General, who charges the Bill, added nothing to public knowledge of the case. He did not address a single argument which carried conviction. He will not correct the most basic opposition. He based the Government case on (1) the need for revenue, (2) the breakdown of Customs revenue through the protection policy, (3) the need for a special appeal. The Elected Members may have been guilty of a tactical error in agreeing that the views, giving an astute Attorney-General opportunities to first weaknesses in the armor of men who are not professional politicians. The Attorney-General certainly showed great courtesy in trying to correct his statements to the effect of Government that he did in fact have a solid base. But the debate has had its advantage. The Member for Mombasa, for instance, was able on behalf of the "good common sense" community to make it clear that in his opinion the production of the Colony revenue which are closely dependent for their own prosperity. Government Reply To Income Tax Debate

ELECTED MEMBERS TWITTED WITH DISUNITY

Revenue of £130,000.

TO BE PRODUCED BY INCOME AND DOUBLED POLL TAXES.

The Attorney General of Kenya replied on Tuesday to the debate on the second reading of the Income Tax Bill in the Legislative Council.

He confessed bewilderment that he had found substantial agreement among the Elected Members only on one point—their uncompromising opposition. On nothing else, he asserted, had there been even a semblance of agreement.

The Attorney General estimated that approximately 5,000 persons would be subject to income tax. The total amount expected to include the receipts from the doubled Poll Tax was £130,000. Of this amount, he indicated that the Poll Tax on its present basis would produce £35,000 leaving the balance to be obtained from the doubled Poll tax and the Income Tax. He stated that the Council had proper authority to impose such a tax under the British Settlement Act of 1887.

He also stated that it was Government's intention of giving relief from certain other taxes, but only when, as Lord Morris had said, the direct taxation imposed was established not merely on estimates but on firm experience.

5,000 Taxpayers.

When the debate on the Kenya Income Tax Bill was opened by the Legislative Council on Tuesday morning, there again a large number of the general public were present. Their numbers were very large, but the Government would be surprised to learn that the debate would be more than a word up and the vote on the second reading taken.

The motion for the second reading was carried by 19 to 11, after which the Bill was sent to Select Committee. After the Committee had reported, the Bill will come into committee of the whole House for discussion and consideration.

Chg. Hon. H. E. Schuster, European Elected Member, took the opportunity of informing the Government that his colleagues who belonged to the Elected Members would not discuss the details of the measure.

The Bill had been passed upon the people's permanent request for a temporary measure.

Mr. Imbomasa, who spoke in the second year, under which they had made a study of the country's problems. They on the case had seen deterioration of the country's economy. He stressed that the Government should concentrate on the production of the country's products. The Bill had been passed upon the people's permanent request for a temporary measure.

GOVERNMENT REPLY TO INCOME TAX DEBATE

Mr. O'Shea's speech on the Income Tax Bill in the House of Representatives last night was a masterpiece of logic and force.

Another question asked by Capt. Schwartze had been as to the percentage of people who paid the income tax in the United States.

The interest on private borrowing in the United States was probably accurate as he believed it was 7 per cent on \$20,000,000.

Turning to the credit side, the Treasurer said he had already mentioned the fact that the Government had a surplus of \$230,000,000.

He said that the Government was not in a position to pay the interest on the debt.

Russian Imports Into Great Britain.

RESTRICTION BILL PASSED BY COMMONS.

The Moscow Arrests.

NO OTHER WAY OF SECURING A FAIR TRIAL.

Bill providing for the restriction of imports into Britain of goods from Russia, passed its second reading in the House of Commons on Wednesday, the Labour Party voting against it, and a number of Samanite Liberals abstained from voting.

Explaining the measure, Sir John Simon, the Foreign Secretary, said that he knew of a fair trial of the British subjects who had been arrested in Moscow. He recalled without trial.

question of making a time limit to the Bill will be considered by Government, so as to ensure that it only deals with the arrests and not Anglo-Russian trade questions as a whole.

Time Limit Suggested.

Government to intervene and take strong representations. He did not think the House should be long before sought by the Government. He hoped, however, the debate would be held on the day when the House meets to consider the Bill. He said it would be a matter of course to consider the Bill in the House of Commons on Wednesday, the Labour Party voting against it, and a number of Samanite Liberals abstained from voting.

Government's Policy.

Mr. Walter Ransome, in winding up his debate, gave sympathetic consideration to the suggestion of limiting imports. He said that the House should not frequently in Russia, and after that of charges of espionage committed by a single individual who had not resulted in condemnation. In these circumstances the Government had been extremely anxious.

Liberals Abstain.

House of Commons by 347 to 103 rejected the Labour Party's proposal to amend the Bill, which was then carried by a majority of 244.

EVIDENCE GIVEN ON BEHALF OF KENYA ATTORNEY GENERAL.

Witness evidence before the Justice Commission in Nairobi this week on behalf of the Attorney General of Kenya, Mr. P. Brangan, Crown Counsel, expressed the view that the only real weakness in the administration of justice in the Colony were:

- 1. In the defence of Natives charged with serious crimes.

Help from D.O.

Can you think of any means by which the backward natives can be assisted? Could the D.C. help him?—In order. The D.C. could help him with his defence. To do this the D.C. could send an administrative officer attached to the office of the D.C. who would be able to help him with his defence. This is a very fair method of doing it.

Public Defender.

Advised by the Chairman what is the suggestion for the public defender? The public defender should be appointed by the Government and should be able to help the natives with their defence. This is a very fair method of doing it.

Police Recreation and Parade Ground.

New Site Proposed on Tenth Avenue.

The following recommendation was submitted to the Nairobi Police Committee by the Town Planning Committee.

CHEVROLET ACHIEVES WHILE OTHERS STILL TRY

Longer wheelbase—new "Aer-Stream" styling—more powerful six-cylinder engine—larger, lower Fisher Bodies—Fisher no-draft ventilation, safety plate glass in windshield—cushion-balanced engine for smoothest operation—improved free wheeling—synco-mesh shift with silent second—even greater economy... and many other important improvements that make the new Chevrolet the great value for 1933.

General Motors need not be afraid of the most important modern automotive developments. Plenty of power, fresh air in your closed car—without uncomfortable drafts—without danger to health from colds and serious illness. Unbelievable—until you ride in a car with no-draft ventilation.

Alternative To Death Penalty.

KENYA CHIEF JUSTICE DISAGREES WITH IMPRISONMENT.

Special Appeal Courts.

REVISION WORK DUE MAINLY TO LACK OF LEGALLY TRAINED OFFICERS.

Chief Justice of Kenya holds several views on the question of procedure in Native cases opposed to those of many witnesses who have so far appeared before the Justice Commission.

He considers the Revision System absolutely necessary—although he agrees that under the present system irregularities might pass unnoticed; he does not agree that, generally speaking, the Native is in a difficult position in the Courts through irregularity of procedure; he does not think an African Legal Adviser would be of much use; and he is ignorant with the quality of the Assessors.

Honour disagrees, also, with the view that the murderer is any alternative to the death penalty or life imprisonment.

His view is that although Administrative Officers do their work very well, the need for revision and confirmation of cases from subordinate courts would disappear if the judicial work were done by the District Officers as done by lawyers.

Chief Justice agreed that special Appeal Courts could be arranged in Kenya and would help in reducing the delay.

African Not Really So Helpless.

Chief Justice of Kenya, who is a member of the Kenya Commission on the Revision of the Native Courts, said today that the African is not really so helpless as is generally supposed.

THE LONG DISTANCE RECORD BREAKERS.

Expected to Arrive at Nairobi Today.

In EARLY MORNING.

Yesterday week by the R.A.F. record breaker, Squadron Leader Geoffrey (Rayford) and Flight-Lieutenant G. E. Nicholls, who have been reported daily at Nairobi from several days past.

For nearly an hour a reception committee of the Army Club of East Africa waited patiently at the club for the flyers, of whom the latest information was that they had left Dodoma on the day Friday (Nairobi) some plane and would reach Nairobi between 12 noon and 1 p.m.

Alone Leader Macgregor, S.R.E. D.P.C., who commands the two Fairy Queens of the 47th Squadron, Khartoum, and the other Fairy Queen, which crew have been in Nairobi for several days, with the view that these machines are to act as escorts as far as Khartoum of Squadron-Leader Geoffrey and Flight-Lieutenant Nicholls.

Eventually, just before 1 p.m., information reached the aerodrome that the two flyers were to spend the night at Mombasa and to Nairobi the following day.

They are, therefore, expected to arrive in Nairobi today.

INCOME TAX - A TRADE TURNOUT TAX

To the Editor, "E.A. Standard," Sir—As I suggest the following alternative to Income Tax, which, if practically worked, would be the only form of taxation that is the credit system.

1. The normal commercial transaction would be law, providing payment within three days after the end of the calendar month in which the transaction has taken place.

2. The trader would pay a tax of 2 per cent. on his turnover.

3. This tax would only apply to ordinary trade transactions, and not to sale of land, shares, or transfer of any property involving long terms of payment.

4. In case payment is not made within the period mentioned in clause (1), immediate proceedings would be instituted by the receiver of the amount due, and the costs of these proceedings would be charged to the defaulting debtor.

5. In order not to inflict upon the trader the burden of such legal actions, some would be left to a Central Organisation (three after sunset C.O.), Nairobi, which branches in the most important centres of the Colony.

6. The C.O. would be provided by the Chamber of Commerce or the Trade Association, or by the three in conjunction. Traders would be compelled to join the C.O. monthly.

(A) Copies of their cash books, monthly copies of their cash books, and bills to their customers.

The customers would pay their bills to the Central Organisation, which would be left to take the active, necessary. The C.O. would have the right to debit and credit or debit the trader with the sums due to them or to their customers.

7. How would one start on the Colony, whereas those who will refrain from settling in Kenya, or will be second set off, as a result of Income Tax would probably be people with a certain amount of capital, and therefore a help to the Colony.

8. This would be regarded as an attack on the traditional freedom of business.

9. The trader would be liable to the total imports or anywhere in the region of £4,000,000. All the goods imported may not be sold, but most of them are sold at a higher price than their import value. Some of them are even sold twice over by the importer to the retailer, and another time by the latter to the individual.

10. The customer, at present, derives a certain interest (discount) from paying cash, which the trader has in the increased cost.

11. The trader would be liable to the total imports or anywhere in the region of £4,000,000. All the goods imported may not be sold, but most of them are sold at a higher price than their import value. Some of them are even sold twice over by the importer to the retailer, and another time by the latter to the individual.

AFRIKAN ANTHROPOLOGY

To the Editor, "E.A. Standard," Sir—Having been appointed by the Council of the Royal Anthropological Institute of Great Britain and Ireland to be the Correspondent of the Institute for Kenya, I beg to report through your columns to readers of the "East African Standard" in connection with the first meeting of the Institute of Anthropology in London, which was held on April 26, 1936.

The meeting was held at the Royal Anthropological Institute, 21, Bedford Square, London, W.1. It was attended by about 100 members and guests. The meeting was opened by the President, Sir Arthur Keith, who gave a short address on the progress of the Institute since its re-constitution in 1926. He then introduced the first paper, which was read by Sir Arthur Keith himself. The paper was on the "The Physical Characteristics of the Negro Race." It was a very interesting and well-illustrated paper, and was listened to with great interest. The meeting then adjourned until the following day.

The apparent avidity with which the Works Committee of the Municipal Council have agreed to instruct the Municipal Engineer to prepare an estimate of the cost of constructing such a footpath, leads one to think that it will be entirely impossible not difficult to find the funds to carry out this work...
