# Farmers threaten to devastate Kenya economy

## BRITAIN TOLD SHE MUST SET ASIDE £100m. FOR FARMS

Kenya farmers have the power to plunge the Colony into a economic depression, they are threatening to do so unless the British Government agrees to a far from unwilling to put it into effect if their demands are ignored.

Associations conference affirmed that farmers were prepared to forsake Kenya having nothing behind, or destroying the country's economy over a viable economy when independence came.

One suggested that the European farmers should start now to let their farms go down the drain after the next harvest, pay off labour, pull down buildings and sell them and machinery for scrap unless there was nothing left but barren land. But first it was asked that the British Government should be asked to make steps to prevent this — at a cost of £100,000,000.

Discussion started quietly enough with a motion that the Land and Agricultural Economy Committee should be re-established, but this was immediately superseded by an amendment from Mr. J. P. Roberts.

**'COMMISSION NEEDED'**

It is suggested that in view of the way in which independence was being hastened along, "completely disregarding the interests of the European community," and since the British Government was using economic means to force the European farmers to leave Kenya, that a commission should be set up to investigate the situation. Mr. Roberts also asked the convention to "farmers will be asked to sign a declaration that if the British Government wished to retain the assets of the European farmers, they would immediately support a commission to investigate ways and means by which the European farmers could be kept in Kenya, and other means in similar fashion."

Mr. Hughes urged his assembly to support the motion, saying he was in a state of mind to do so, taking into account the fact that the European farmers were leaving the farm at all.

**Musical choice**

The convention was held at the Kenya National Park, Nairobi, on the 28th and 29th of December. The convention was held at the Kenya National Park, Nairobi, on the 28th and 29th of December. The convention was held at the Kenya National Park, Nairobi, on the 28th and 29th of December.

## trade area issue

**BRITAIN** was not committed to join the European Common Market. The denial came from the President of the Board of Trade, Mr. Maudling, who told a Young Conservatives meeting in London that no move had been made to open negotiations. The aid reports released in London that Britain had made the decision were "clearly incorrect," Mr. Maudling said.

Mr. Maudling said that the Government was not open to the possibility of a decision to Britain's position. He said that the Government would comment. "Some reports appear to describe the decision taken by the Cabinet. Some even describe the arguments views of individual ministers."

### Wider provision

But now that the well, who are the only letters in Cabinet decisions are other very reliable sources of information. "Clearly any story that we have taken a decision to enter the Common Market quite certainly is incorrect."

### Division falls

It is of course, a tangled difficult and sometimes frustrating story, this picture of our relations with Europe. It is very unlikely to be a quick fix. While the Government is in a state of flux, the Conservative Party is in a state of flux. In such a state of flux, it is difficult to see how the Government can be said to have made a decision. Mr. Maudling added.

### S. AFRICA FEELS THE PINCH

FINANCIAL experts are drafting amendments to the Emergency Exchange Regulations to curb the flow of money from South Africa, which in the fortnight ending on April 22 amounted to nearly £20,000,000, the Johannesburg Sunday Times reported yesterday.

The Government will not interfere with the transfer of funds or profits due to shareholders and others who have invested in South Africa. It would, however, reduce the flow of money from the country, which is being sent to the United Kingdom. The newspaper forecast an immediate slash in subventions to South African trade, valued at a present £1,200 million in any one year.

## Less trade with U.K.

Standard Staff Reporter, Johannesburg. Britain's share of trade with East Africa is being under-estimated because of uncertain conditions in the United Kingdom. Trade Commissioner, Mr. C. E. Dymally, told the Municipal Chamber of Commerce.

# League football's finale GREAVES SAYS GOODBYE WITH FOUR GOALS

JIMMY GREAVES, the golden boy of English football who is to join the Italian club Milan, on Saturday night will be remembered in the finest possible style.

He scored all four goals in his club's 4-0 victory over Nottingham Forest. As the final whistle sounded, hundreds of fans cheered him.

Nottingham Forest, who were the best West Ham's opponents in the Division I, scored the season's only goal by going down 2-1 at Swansea, but Sheffield United, who have also finished in Division I, were in great form.

## THE NEW KENYA PARTY

During the election campaign, New Kenya Party candidates state that their intention, if elected, was to represent the interests of their constituents whatever their race.

One view would be served by participating in Government and helping to influence Government's decisions from the Government benches rather than taking the easier but negative and unhelpful role of opposition.

At Election time it was apparent that the major wishes of the electorate were: (1) the formation of a stable Government, which would ensure confidence in this country.

It is in these circumstances, we have decided that it is in the interest of our country that we should participate in the Government.

So that there shall be no misunderstanding, we wish to place on record that KANU, having been invited to participate in the formation of Government, did not accept members of the New Kenya Party Government.

We believe that all these objectives can best be achieved by forming a stable Government and participating in it. KANU's stand has been supported by KADU and other members of the Executive Council, would inevitably have led to Government by Decree.

So that there shall be no misunderstanding, we wish to place on record that KANU, having been invited to participate in the formation of Government, did not accept members of the New Kenya Party Government.

SCORCHED EARTH POLICY

Kenya's attitude to the British Government ought to honour its obligations to the farmers who are the backbone of Kenya, always have been always will be.

It is not necessary to review this opinion and since it is so well known it need not be said. It is only to be regretted that the British Government has failed to honour its obligations to the farmers who are the backbone of Kenya, always have been always will be.

Attempts to reach understanding

Such a man as Lord Latham, whose speech as President of the J.C.F.P. should not be taken as anything more than a piece of his reasoning. What were his aims and objectives in the present case? The J.C.F.P. has approached the Government with the proposal that it should be reconstituted as the Kenya Agricultural Producers' Association.

There are several individuals of very responsible African farmers who are interested in this. It is to be regretted that the British Government has failed to honour its obligations to the farmers who are the backbone of Kenya, always have been always will be.

# Civil servants in a bind in a new republic

## COMMISSIONER PRAISES AFRICAN RECRUITS

There are no differences of opinion among leading civil servants in Kenya Government. They are all agreed that the Government should be a very African Government. This was stated at a dinner given by the Nairobi County Council on Saturday night. The Chief Commissioner, Mr. E. Wainwright, presided.

## LOCAL SYSTEM WILL STAY

Nobody should doubt that the form of local government most existing in Kenya was by far the best. It was a part of their way of life. Everybody in all races had been brought up within its framework, and it was a part of their way of life.

## Train held up by worm

For the second morning, the main train was late into Nairobi from the coast. The delay was caused by a heavy rain which had been falling since the night before. The rain had caused the ground to become very soft and the train had to be held up for several hours.

## Complaints checked

The Kenya Commissioner has asked the various departments to check the complaints which have been received from the public. He has asked them to see that the services are improved and that the public is satisfied.

## Fitted brushes

The latest of his trains has been fitted with the new type of brushes. These brushes are better than the old ones and will last longer. They will also give a smoother ride to the passengers.

## Reporter unhurt in crash

An East African reporter who was unhurt in a crash of his plane. The plane had been flying over the coast when it ran into a low flying aircraft. The reporter was rescued and taken to hospital.

## Reporter unhurt in crash

## NEW UGANDA RAIL LINK URGED

The Uganda Standard has urged the Government to build a new railway link between Uganda and Kenya. This link would be of great benefit to both countries and would help to develop the economy.

## Gun can kill firer

A man who fired a gun at a woman has been killed by the same gun. The woman had been standing close to him when he fired. The bullet struck her in the chest and she died.

## Women on a par in Africa

The World Agency for Child Welfare has reported that women in Africa are now on a par with men in the development of the country. This is a great achievement and shows that women are now playing a full part in the development of their countries.

## Earl describes buffalo-shooting incidents

Charles Maurice Pety, Earl of Fitzmaurice, Earl of Fife, described the buffalo-shooting incidents which took place in Kenya. He said that the incidents were very dangerous and that the hunters were very lucky to escape.

## K.R. CATCH POACHERS IN ELGON FORESTS

Kenya Rangers have caught several poachers in the Elgon forests. The poachers were caught with their guns and traps. They are now being held in custody.

## £30 a month

A man who has been awarded a pension of £30 a month. This is a very generous pension and shows that the man has been very successful in his work.

## Dropped dead

A man who was dropped dead while hunting for a lion. The man had been hunting for a lion for several days and was very tired. He died of exhaustion.

## Dogs and spears

A man who was killed by a dog while hunting for spears. The dog had been hunting for spears for several days and was very hungry. It attacked the man and killed him.

## Out of print

A book which has been out of print for several years. The book is now being reprinted and will be available again.

## Three abots

Three abots who were caught by the police. The abots were caught with their guns and traps. They are now being held in custody.

## Judgment later

A man who has been found guilty of a crime. The judge has said that the man is guilty and that he will be sentenced to prison.

## Excellent training

A man who has received excellent training. The man has been trained in a very good way and is now a very good worker.

# KENYA CITIZENS COME FIRST WITH ME, SAYS MR. ERSKINE

## Kenya's new National Government would not provide for any citizen who is not a citizen of Kenya

Mr. E. A. Erskine, Minister of Education, said that the new National Government would not provide for any citizen who is not a citizen of Kenya. He said that the Government would only provide for those who are citizens of Kenya.

## Kanu head staying in London for more talks

The head of the Kenya African National Union (KANU) is staying in London for more talks. He is meeting with the British Government and discussing the future of Kenya.

## DUEL CHALLENGE FOR MR. MBOYA

A challenge for a duel has been issued to Mr. Mboya. The challenge is from a man who is angry with Mr. Mboya and wants to fight him.

## Chaired by crowd

A man who has been sentenced to death has been chaired by a crowd. The crowd was very large and the man was very popular.

## Dock mediation

Mediation has been arranged for the dock workers. The workers are on strike and the Government is trying to get them back to work.

## Opening opportunity

**SELF-GOVERNMENT IN KENYA**

**Celebrations delayed on leader's orders**

**TANGANYIKA** yesterday attained full internal self-government. Mr. Julius Nyerere was sworn in as Prime Minister by the Governor, Sir Richard Turnbull, at a brief, formal ceremony at Government House, Dar es Salaam.

But it was a day without celebrations. These must wait until the country becomes fully independent on December 28, in accordance with Mr. Nyerere's dictum of Ujamaa na Kazi.

The Prime Minister names nine members of his new Cabinet—formerly the Council of Ministers—who have been chosen by him from Members of the National Assembly, which replaces the old Legislative Council. At midnight, before 8.30 a.m. the Deputy Governor, Mr. John Fletcher-Cooke, whose post is abolished, and the Chief Justice, Sir Ralph Windham, then came to Government House with Mr. Nyerere to take their place on the date he gave: 1961.

**HERO OF RUSSIANS' BIG SHOW**

**MAI YURI GAGARIN**  
 Russia's first space man, paraded before the 100,000 people who gathered at yesterday's massive "May Day" parade in Moscow's Red Square. He was at the left hand of the Soviet Prime Minister, Mr. Khrushchev.

The first man to orbit the earth, Gagarin, was dressed in a military uniform and led on the parade by a band of 100 members of the Red Army. He was accompanied by his fellow cosmonauts, Yuriy Gagarin, Gherman Titov, and Valeriya Tereshkova.

**One by one—three oaths**

The Governor added: "Upon you, Mr. Prime Minister, and upon your colleagues, will rest the heavy responsibility of preparing the territory for independence. The first of these oaths is—legislative, administrative, economic and financial—is a formidable one. Then the Prime Minister took to take the three oaths. The affirmation of allegiance, the official affirmation and the ministerial affirmation. The Ministers were then calling forward one by one to take the oaths, some on the Bible and some solemnly, sincerely, truly declaring and affirming by the Muslim faith.

**Work, unity, brotherhood**

"He went on—"We must resist to the greatest extent possible any splits amongst ourselves, any tendencies to break links with our neighbours. It is a great temptation to withdraw to cut itself from friends and neighbours and to show how powerful one is by standing alone. It is a temptation to be resisted, because we may damage the interests of fellow Africans. If we do that we damage ourselves too."

**Hopes for federation**

Mr. Nyerere said he would hope that they would get a federation in East Africa but, as he had said on previous occasions, it would be easier for countries to emerge from colonialism as one unit than for them to be merged and integrated separately. He hoped that he would be proved wrong. It is a temptation to be resisted, because we may damage the interests to come together again as one political unit.

Brumette, the forces which became the most easily recognised animal in Nairobi National Park when the last her, probably a crocodile, has reached the ripe age of 16 years and is one of the oldest inhabitants of the park. His spurn may be nearing its end, however, as John Elgon suggests in Page 5.

**MR. MACLEOD RECEIVES KENYA DELEGATION**

BRITAIN'S Colonial Secretary, Mr. Macleod, yesterday received a Parliamentary delegation from Kenya to discuss financial aid to the territory. The delegation of seven, headed by Mr. Ngala the Minister for Education and Radio, President, is expected to remain in London for about a week.

Later Mr. Ngala issued a statement which said: "My colleagues and I have come to London to discuss economic questions as a matter of urgency. We represent all the groups who now form the National Government in Kenya and I think it should be emphasised that although my own party has four seats on the Legislative Council, Kenyan members of either party can claim to be a majority party in the House."

**Earl fined £50 for buffalo offence**

THE Earl of Shelburne was fined £50 after being found "guilty" by the Magistrate, Mr. J. H. McCredie, yesterday for wounding a buffalo and failing to follow it.

The Earl's buffalo failed to report the wounding of a buffalo, which was discharged on condition the area of wood reserved for the month.

Earl had denied to the authorities after the wounding of a buffalo, which was discharged on condition the area of wood reserved for the month.

**Seven acquitted**

The Earl was acquitted on seven of the charges. The Magistrate said he had been impressed by the honesty and frankness of Lord Shelburne and noted the presence of a buffalo, which was discharged on condition the area of wood reserved for the month.

# Penguin book shares spiral A MILLIONAIRE IN 60 SECONDS

## FIRST LONDON QUOTE LEAPS 50 PER CENT

### SIR ALLEN LANE, founder of Penguin books, the biggest paper-back publishing house in the Commonwealth, became a millionaire within 60 seconds yesterday when his shares were quoted on the London Stock Exchange for the first time.

The value of his personal controlling interest in the company soared by £282,500 to £1,750,000 with the first bidding reflected that it was "quite fabulous" that he should suddenly become a millionaire after all his years in the book trade.

### Record profit last year

A total of 700,000 shares in the firm were offered in the public last Thursday at 12s. each. About 150,000 applications were received from firms and individuals who offered a total of £770,000. The offer was oversubscribed 120 times in its entirety.

### City tone gives way to slackness

There was renewed firmness on the London Stock Market at yesterday's opening. It reflected a fast reaction to weekending buying orders.

The "Financial Times" index today opened at 315.8, an advance of 2.5 points on the previous day.

### India give £40m. loan by U.K.

BRITAIN is to give India a long-term loan worth £40,000,000 under the terms of a new agreement signed in New Delhi yesterday.

### OIL FUND CAUSES CHAOS

FRANZTANGUIN oil shares crashed on the London Stock Exchange yesterday as a result of the oil fund's decision to cancel the offer of £30 million.

### Gold price set

Gold was fixed on the London Free Market yesterday at £303 15s per ounce.

## BORED WITH POLITICS

Most people in Kenya, it is said, are bored with reading and hearing about politics.

The country's development needs a focus from all the centres of interest but in London, Mr. Ngugi has been the most prominent. He has been a member of the Kenya Government since 1958, and has since then written a number of books, including 'The African's Burden' and 'The White Man's Burden'. He has also been a member of the British Treasury for several years.

There are a few other Kenyan writers who are all time in the position of their own country. They are all well known and their work is well read. Mr. Ngugi's work is particularly well read. He has written a number of books, including 'The African's Burden' and 'The White Man's Burden'. He has also been a member of the British Treasury for several years.

It is in the light of the above that the Commission to look into the New Kenya Party. The Commission to look into the New Kenya Party. The Commission to look into the New Kenya Party.

CRAZY CULT OF 'DOING THE TON' Young Ideas

MANY of East Africa's teenage motor-cyclists, have probably obtained at least 'an even ton'...

It was then, however, that a number of young men, who were not only keen on the night swimming school...

LITTLE SAY

Police authorities here had to admit that very little can be done to stop the growing number of young people who are making an ill-considered effort to do something out of the ordinary for this season for their summer holiday...

One of the 18 had to say in the subject: 'Public opinion is not in favour of going against the law and getting into trouble...'

IN SERMON

He qualified this statement by saying that many young people are not really serious about it...

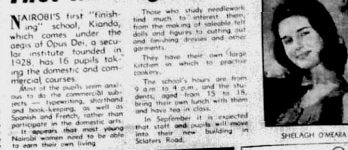

It was something for teenagers - young ones - and they were keen on it... 'I was a bigger bike rider than I am now...'

'GRIPS YOU'

It is all about the 'grips' that are being used by young people to hold their bicycles...

# Australians all out for 141 in second innings WORCESTERS BOWLERS DO IT AGAIN

## Benaud will miss match with Derby

**RICHIE BENAUD**, the Australian cricket captain, has inspected throats of the team in the match against Worcesters. He was unable to bowl and was inconvenienced when he was hit on the head by a ball which will travel to London to see a specialist on starting tomorrow.

Yesterday the tourists were successful in preventing the county from taking a first innings lead. They bowled out the 133 in reply to their total of 177. Worcesters were all out for five wickets on Friday for 130, their remaining five wickets in 50 minutes for 47 runs, giving the Australians a lead of 22 runs at the first innings. Mackay was the main destroyer, claiming four wickets yesterday for 14 runs.

Another stroke developed when the tourists began their fourth, keeping wicket. Keeping wicket, the opening fielding in the second innings was so loose that the tourists were able to score 147 runs before lunch in 47 minutes before lunch. In the 47 minutes before lunch, the tourists were able to score 147 runs before lunch in 47 minutes before lunch. In the 47 minutes before lunch, the tourists were able to score 147 runs before lunch in 47 minutes before lunch.

Looking at the second of a steep climb, Norman O'Neill sees the stumps shattered from a ball delivered by Mervyn Horder of Worcestershire. O'Neill was bowled out for 171, taking five wickets for 46 runs, the last four for only ten runs on Saturday.

## NICOL CHAMPION FOR THIRD TIME

For the most part the weekend golf consisted of monthly club competitions, results of which have already been published. Maitiga is still thickly infested with Army worm and the made conditions for the women's club championship very difficult. Conditions at Ver. La. S.C. where D. Nicol set a record by winning his third successive club championship were better.

# ONE WOMAN'S FLAIR FOR FLOWERS INFLUENCED WORLD

By ANNE DORVILLE

It is an understatement to say that almost every housewife in the Western world in some way or another is under the influence of Constance Spray. The greatest name to appear on the domestic scene since Mrs. Weston. In an unbelievable variety of ways, Constance Spray brought an original, vibrant approach to the art of living with some degree of grace and elegance.

Her ideas, which seemed so strange at first, have since been so widely copied throughout the world that almost every time a woman arranges a vase of flowers or sets a dinner table she inevitably comes under the Spray influence, and whether consciously or not, employs something of the Spray way of thinking.

Constance Spray loved flowers and food and devised her own methods for the teaching of both to her pupils. To make the best of both she had a minimum amount of money. Under the Spray ideal, even ordinary bunches of flowers can be made to look like a beautiful life and a simple meal can be turned into a gastronomic experience.

# First match of Australian tour ends in draw

## RAIN RAIN IS INTERESTING FINISH

### Benaud takes the plunge as county show indecision

RAIN rained an interesting finish to the Australian Test cricket against the first of the tour in Western Australia. West Australians had a heavy rain started at lunch-time and prevented further play. The match was a draw.

West Australians only drew 108 more runs and still had six wickets to fall, but the Australians had swung the game their way before the initiative against disappointing tourists had lasted for 45 minutes. The situation appeared to call for local tactics, but Don Kenyon and Martin Horton baited the Australian batsmen.

Richie Benaud, the Australian captain, was quick to see the situation and took the plunge. He was quick to see the situation and took the plunge. He was quick to see the situation and took the plunge.

Graveney fails  
Much depended on Tom Graveney, but the former England captain was not up to the mark for his 25 minutes for his 18 runs.

## 'MONSTERS OF THE FORESTS' IN CONGO

A MAN who may be on the verge of one of the greatest scientific discoveries in history—the capture of two species of ape-man which he believes are living in the Congo forests—is in Nairobi looking for a diesel engine.

He is Mr Charles Cordier, a Swiss ornithologist and game collector. Mr Cordier has spent his life in the Congo forests, and in which he has been able to capture specimens as well as a number of birds and animals. He has been his footprints—no man has seen him since he left the Congo forests in 1948. He has been his footprints—no man has seen him since he left the Congo forests in 1948.

## DANGERS TO PUBLIC HEALTH

THE plan in which Dr. de Saussem found itself in regard to municipal health services is a serious one for the inhabitants of Nyeri because of the size of the population. It is well known that in these circumstances of health services in a town of 15,000 people, it is inevitable that the standards of public health will be maintained.

For instance, if a town of 15,000 people is to be served by a public health officer, it is inevitable that the standards of public health will be maintained. For instance, if a town of 15,000 people is to be served by a public health officer, it is inevitable that the standards of public health will be maintained.

## Reversal of policy in Dar es Salaam

AS far as the Medical Officer said the municipal health plan which has been adopted by the Government is a reversal of policy in Dar es Salaam. The Government is reversing its policy in Dar es Salaam by withdrawing the municipal health services from the Municipal Council and transferring them to the Government.

It is well known that in these circumstances of health services in a town of 15,000 people, it is inevitable that the standards of public health will be maintained. For instance, if a town of 15,000 people is to be served by a public health officer, it is inevitable that the standards of public health will be maintained.

## The Vision That Prevailed

Sir Dorab Tata

"THE NEW INDIA constitutes the commencement of a new and large commercial undertaking for India. It is not of a Company working solely in India, but may claim to be a WORLD-WIDE COMPANY. It is anticipated that a very large proportion of the income in future years, will be obtained here, to see that our company is run, and our reserves are accumulated, on lines which have proved sound." Stated by Sir Dorab Tata, the Founder-Chairman, on September 21, 1921.

The aims and aspirations of the founders of NEW INDIA, expressed by the Founder-Chairman 38 years ago, are being fulfilled.

Today NEW INDIA is indeed a world-wide company — with 82 branches in India and 63 branches and agencies in foreign countries. To make up its Rs. 1,000 crore net premium, the Company writes as much direct business in India as outside India. During 1960 almost half of its premium income came from outside India and the Company, together with its associates, wrote over 531 per cent of the total premium of India.

One of the largest and most progressive institutions in the world

# ELECTRONIC COMPUTERS

## TRAIN PILOTS

INDIA entered in the jet age in February 1948, when Air-India's first Boeing 707—intercontinental jet—arrived in Bombay after a record non-stop 8-hour, 45-minute flight from London.

With the arrival of the first Boeing Air-India drew up an intensive jet training programme for its pilots and flight crew.

Higher speed and electronic equipment of the Boeing jets have brought about new methods of instruction. Training must be adapted to meet varying conditions in the air. The Boeing 707's Flight Simulator provides the answer.

### INTRODUCES SNAGS

The multi-engine simulator, which Air-India has installed in Bombay, is an engineering marvel.

It is basically a grounded aircraft with electronic computers replacing engines, wing control surfaces and gear. These computers simulate engine movement and forces on the engine, supporting members on the aircraft and with a similar time sequence of working manipulations.

The simulator permits the introduction of "snags" in varied combinations, degrees and forms, engine, airframe, instrument, electrical systems, hydraulic systems, radio and assessment.

It consists of the nose portion of an actual aircraft, adjusted to every cockpit detail, attached to large cabinets containing electronic equipment, sound equipment and other apparatus which create the illusion of flight.

### NEW TYPE

When the flight crew meet the engine snags, the computer or jet response simulates the aircraft in flight. In this way, pilots, flight engineers and navigators are kept in the habit of operating a new type of aircraft provided by an engine operator.

Steps in this process are varied, necessitating, first of all, a pilot, flight engineer, navigator, crew, instrument, use of main manipulators and emergency procedures.

Pilots undergo "snags" in the Curtiss-Wright Boeing Simulator at Bombay. Flight a 707 in flight.

## Spare jet engine in wing pod

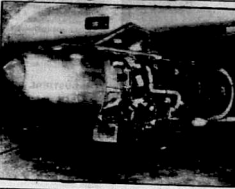

AIR-INDIA recently dispatched its first jet engine in a pod mounted below the wing of their Boeing 707 intercontinental jet between the fuselage and the inboard engine on the left wing.

This is the fastest and the cheapest way to dispatch a replacement engine and it enables Air-India to transport engines to any point on their rail route on a scheduled routine.

The pod pack is an optional feature on Boeing jet airplanes and to date eight airlines have ordered the pod packs for ferrying spare engines.

For every five upper-berth seats on the plane, one engine is provided. There is an engine in the pod pack which can be changed on the jet-powered aircraft, thus reducing the chances of engine trouble.

Historic non-stop flight—cruiser spectators swarmed into Air-India's first Boeing on arrival at Santa Cruz, Bombay, after an 8hr. 45-min. non-stop flight from London to Bombay, on February 27, 1948, compared with 16 many days taken by our chairman on his solo flight from London to Bombay 11 years ago. ## Complicated activity that changed world

COMMERCIAL aviation is comparatively a newcomer to the world scene. Powered flight itself has only recently passed its first half-century. Yet for human activities are as complicated as the business of transporting passengers and goods by air on a regular schedule.

Few have had such an impact upon the world in their international application, expanded so rapidly and have had to face the necessity of persuading the world to make major changes in laws, habits and modes of thought in order to make possible the service they offer.

The airlines have been able to do this only because international air travel is a well-kept global system involving millions of lives.

It is a system in which pilot, radio operator, control tower personnel and ticket inspectors may be seen in the same procedure, talk to one another in the same language and pool the best of their knowledge and

### IN A LIFETIME

Today, still within the active phase of man's use of the airplane of 1918, the roster of the International Air Transport Association comprises 41 member airlines, of which 30 operate on international routes.

Their flights have cleared the mountains, distributed the mail, opened the oceans, neighborly back into a vast world of transport has been made possible in one form or another. No other form of transport has made such progress in so short a time.

## Tonight Boeing 707 to Bombay

A new weekly service from Nairobi to Bombay starts tonight Boeing 707—the fastest, smoothest, largest Jet Airliner. To fly jet is an experience. To fly Boeing, sheer joy! and you pay no more!

# FREIGHT BY 'THE FLYING SHERPA'

WHEN the Montgolfier brothers constructed their hot-air balloon in 1783, they thought it wise not to make the first ascent themselves. Instead, they gave the job to a chicken and a sheep.

It would be a mistake to think that the hot-footed members of this race are the greatest risk for when the balloon lands on the ground the trip the duck has appeared, the chicken has broken its neck and the sheep is merely hungry.

## FIRST BULL

Transportation of livestock had not become a major part of the advent of modern commerce. In the early years of aviation it was found that it had of course its share of exciting troubles.

In 1924, for instance, the first bull to travel by air landed safely in Paris from Rotterdam. On arrival it was found that this aviator had chewed up the woodwork in the cabin.

Recently, when another bull flight from Paris to London was undertaken it was discovered that the bull might have increased by half. The cabin was still intact.

## OWN SERVICE

Since then, air transport of live animals had made tremendous progress. Considerable research has gone into the study of preservation from heat and frost.

Control over temperature, humidity, atmospheric pressure and noise inside the aircraft has been determined for such services.

Barometers, for example, are very temperamental and therefore need very careful handling.

Under 44 minutes an important milestone in Air-India's service was reached for the way they inaugurated their "Flying Sherpa" service.

A reception at Santa Cruz Airport, inaugurated the Flying Sherpa into the wild west.

Since November 13, 1946.

# Three who guide airline's destiny

THREE men who have guided the destiny of Air-India International and seen it grow to its present and ever-increasing importance in world aviation are its chairman, Mr. J. R. D. # 'Special' for children

Children's 287 — the biggest Boeing load of 168 children ever carried by a Boeing aircraft arrived at Bombay on the "Children's Special". They were received at Santa Cruz by the party and dignitaries Maharajah of Air-India.

## MAHARAJAH WELCOME IN INDIA

Twice every year London and Nairobi airports echo and reverberate to the mirth and laughter of children.

These are the wonderful jet flights when Royal Air-India's "Children's Specials" board for a glorious holiday with their parents in India.

In December every year, King Cuffey arrives at London and Nairobi airports to give a hearty welcome to the children. The Air-India aircraft is specially decorated with a party Christmas tree.

Gifts, streamers, balloons, jolly little toys and a wide selection of fine-gaming games, conkers, story-books and "puzzle-books" with colorful illustrations are provided for the children's heads.

**HIGGEST LOAD**  
Even the food provided is just what little children love — in cream, ginger, pop and sweet.

A special 287 of children in the East every year is taken to the Maharajah of Air-India and are extremely popular and have all the trimmings, and so.

For instance, the biggest load of 168 children ever carried by a Boeing aircraft arrived in Bombay on the Maharajah's "Children's Special" in 1966. They were received in Bombay by Air-India party and dignitaries by "Maharajah".

The "Maharajah" being the possible passengers to

seem and not heard. The houses were a distance but the children did see that some were missing after any one made shoo-voos.

Careful thought is given to the seating plan so that there are no scraps about who sits next to whom. But that is not necessary as many of the children are experienced travellers and have flown five or six times on these "Specials". Since 1948 when Air-India first introduced "Children's Specials", the airline has been taking special pride and delight in bringing these children back and forth in comfort and good cheer.

# THE MARVEL OF THE MULTI-PURPOSE POLICY

## HE PAID Rs. 288 ONCE TO LEAVE FOR HIS FAMILY Rs. 1,01,880

When a breadwinner dies, so does the family income. But when a breadwinner with a Multi-Purpose Policy dies, a new income STARTS for his family. Here is a true-life example of this amazing Policy—

• A young chemist took a Multi-Purpose Policy for Rs. 30,000. Shortly afterwards his family lost him in an accident. From his policy they received—

- A lump sum of Rs. 20,000
  - Plus Rs. 2,000 to meet the funeral, legal and other expenses
  - Plus Rs. 400 a month for 2 years
  - Plus Rs. 200 a month for over 23 years
  - Plus bonuses due
  - Plus Rs. 18,000 at the end of the Policy term.
- The young man had paid just Rs. 288 in premiums. In return, his family receive a total of Rs. 1,01,880 wisely spaced out as an income for over 23 years! Had he lived he would of course have received Rs. 20,000 plus bonuses at the end of the Policy period.

Take a Multi-Purpose Policy without delay. It means unmatchable security for your family.

# Statistics departments' work to be centralized in Territories Take Over Units

**HOPES that the Statistics (Amendment) Bill, 1961, which was passed by the Central Legislature last week, will be "another nail in the coffin of High Commission work" were voiced by Col. S. G. Ghesbre (Kenya) in the East African Parliament.**

The Bill curtails the responsibilities of the East African Statistical Department. Col. Ghesbre pointed out that when the High Commission was set up, the Statistics Department was established as a separate unit. He felt the territorial governments would find it more costly to run such statistical departments and that there would be a loss of efficiency. He hoped they might be the fully of their kind and wish to revert to the present system.

**NO CUT IN SERVICE**  
The Financial Secretary, Mr. H. J. Hinchey, emphasized that no part of the service was being withdrawn or reduced. An undiminished service would be provided by essentially the same organization as at present, except that the existing territorial units of the Statistical Department would cease to be integral parts of a territorial treasury or associated departments.

**New Bill to aid gin and spirits industry**  
Development of a new East African industry, manufacture of gin and spirits, will be given added impetus by a bill introduced in the Central Legislative Assembly today. The bill provides that an export trade in these spirits would be accorded the same treatment as that accorded to other export trade. It also provides that a new gin and spirits industry would be established in the East African territories.

## U.K. AID TO KENYA: £4½m. IN A YEAR

### Further needs to be kept under review

**BRITAIN** has agreed to provide Kenya with a further £3,000,000 for the financial year 1961-2 — bringing British aid to the Colony for the year to a total of £14,500,000.

A communiqué issued at the end of talks which a Kenya National Government delegation has been having at the Colonial Office said that half of the £3,000,000 would be grant and half would be loan.

In addition, subject to Parliamentary approval, the British Government will give further "substantial help" towards recurrent expenditure, which will be announced when the Kenya Government presents its forthcoming budget.

The communiqué said the British Government had agreed that further talks should be held before the end of the next financial year to consider Kenya's needs for development in 1962-3 and subsequently.

### MINISTRY ACCEPTED BY MR. BLUNDELL

### Laos peace talks

Mr. M. BLUNDELL has accepted the portfolio for Agriculture in the new Kenya Government.

Accounting this as a "Prestige position" after the end of the London talks, Mr. Blundell said a review of land policy should be one of the first tasks of the new Government.

Mr. Blundell said the prospects of Kenya getting responsible government by the end of this year were "reasonable".

He stressed the responsibility of responsible government was economic and financial stability and political stability. "We shall continue to work with the Government to ensure that Kenya can now move more smoothly to self government," he said.

**More employment**

Mr. Blundell said that the health of the country was "good" and that the Government was "committed" to the development of the country. He said that the Government was "committed" to the development of the country.

**Delegation proved need**

The communiqué revealed that aid to Kenya already provided in votes for the current British financial year was £7,500,000. In addition to this it was contemplated that an Exchequer loan of £1,000,000 would be made available, provided the need for this could be established.

"During the discussions, the delegation satisfied the British Government of the need for this loan," the communiqué said. The British Government had also agreed to provide a further £3,000,000, which would be grant and half loan.

The communiqué said the Government was "committed" to the development of the country.

### Quick agreement

The Colonial Secretary, Mr. James Griffiths, said that the Government had "agreed" to the terms of the communiqué. He said that the Government was "committed" to the development of the country.

Man into space... In this picture, taken during the final stages of a full check before the actual blast-off, Cmdr. Alan Shepard lies horizontal on a couch in the rocket capsule in which yesterday's historic flight was made.

### 'BOY, WHAT A RIDE,' SAYS ASTRONAUT

## U.S. sighs with relief after space flight triumph

**AMERICA'S** first spaceman, Cmdr. Alan Shepard, yesterday shot up 150 m.p.h. from Cape Canaveral, Florida. Sixteen minutes later, he was picked up safely from the Atlantic.

Shepard's first words after being picked up were: "It's a beautiful day." Then he added: "Boy, what a ride."

With those words the United States entered her Space Age — and a feeling of elation swept the nation.

President Kennedy, who had kept in close touch with the operation, later said that the entire country would rejoice at the successful space flight. But he called for redoubled American efforts in this field.

Shepard climbed out of the capsule and was winched to safety by a helicopter. Moments later he was on the deck of the aircraft carrier lake Champlain, 250 miles out in the Atlantic. His first flight was over the ocean.

‘Ghastly’ murder can hold up progress

KAMU and Kamu leaders joined yesterday in condemning the use of violence to try to hasten independence or for any other purpose. They said their policies had clearly laid it down that political aims must be achieved through murder or other forms of violence would delay independence.

TSHOMBE ACCUSED OF HIGH TREASON

PRESIDENT Tshombe of Katanga was yesterday accused of crimes against the State including high treason. The Leopoldville Government's Foreign Minister Mr. Justin Bomboko, said that Katanga should be prosecuted.

There must be no recurrence, and the Government and security forces must be "much more on the alert now than they had been in the last few months". Mr. Maliro added that Africans must be told that the "murdering of Europeans and their neighbours, or any form of violence, however small" would not hasten independence but delay it indefinitely.

Anybody who used violence to try to expedite Kenya's release should be told that they were only helping his return. They were his enemies and not his friends. The Kadu leader, Mr. R. Ngala, emphasized that he had always been against violence, and said he hoped the African people would realise they must attain their aims by constitutional methods.

Exchange control hints 'intrude'

Summers exchanging to Nairobi that exchange control would be introduced as a Budgetary measure were expected to be announced. Mr. Tshombe had commented on the matter, saying that the Katanga authorities expected to be informed.

Kenya's next stage

Standard Staff Reporter, Mr. MACLEOD has left it to the new Kenya Government to decide when it wants the Government's decision created. Mr. MACLEOD has agreed to accept the Government's decision to take later this month. He said he did not think there would be any further constitutional development which will be necessary to bring about independence.

Farmers aid police in hunt for Mau Narak killers

A STRONG force composed of police, a G.S.U. detachment and volunteer farmers was last night searching over a wide area for the murderers of Mrs. Nora Osborne, bludgeoned to death at her Mau Narak home on Friday night.

The condition of Mr. David Osborne, also bludgeoned and stabbed in the attack was stated at the Nakuru War Memorial Hospital last night to be "slightly improved".

Police searching the area of the murder found a shell from the Osborne farmhouse. The Osborne family and other farmers in the area were asked to help in the search.

Three run off Road blocks were set up as the army was raised. The Osborne family and other farmers in the area were asked to help in the search.

Police fire after cartridges to escape A POLICE officer fired a car after it tried to avoid a road block set up to trap thieves who raided a Mau Narak village.

COMPENSATION for the Osborne family and other responsibility should be dealt with, a very dangerous situation was demanded by the Nyo Settlers Association at an emergency meeting last night.

Wearing pistols The meeting also authorized the Nyo Settlers Association to wear pistols. The meeting also authorized the Nyo Settlers Association to wear pistols.

Panga injuries A 28-year-old woman was killed and a man injured in a panga attack. The attack occurred in the Mau Narak area.

Govt. Revenue Officer, Mr. Brent.

## MR. NCALA PLEASED WITH DELEGATION'S SUCCESS

Kenya's Ministerial delegation to London had achieved more than it hoped for, Mr. R. N. Njiru said on his return to Nairobi yesterday morning.

He pointed out that Kenya might well get more than the initial £5 million which the delegation had in mind as its target.

The delegation had conducted its negotiations on the basis of a five-year plan—up to which had cost £30,000,000 in aid for the first year, with an assurance that the amount would be increased by one-quarter.

The financial negotiations had been very tough, but Mr. Njiru said that Kenya had been very lucky to get the money which he hoped would speed the settlement of needy landless Africans, the expansion of educational facilities, including overseas bursaries, and improvement of water and health services.

# A wet but enthusiastic sporting weekend in Nairobi

## FIRST THREE GAMES TO RUGBY TOURISTS

The Harlequins' programme will produce exactly the sort of Rugby which was expected of them. Uganda left London and Pretoria Harlequins when they were thrashed 41-3. But Pretoria 'Quins are more the full power of London 'Quins on Saturday. They are a little lacky but best Control Province by two points on the same level with East African Clubs. They were a little lacky but best Control Province by two points on Saturday although they were far too good for their Kamp sister club yesterday. It will be interesting to see what happens when London and Pretoria meet.
