The Indian Question

by S. V. Cooke, M.L.C. THERE are a number of people in this country who say we should regard public opinion in the Indian sub-continent as a minor detail. Common sense does not believe it to be a function of the state. It is a function of the state in war-time. I do not think that means we should ignore public opinion as a whole and lacking in interest to us. It is a function of the state in war-time. I do not think that means we should ignore public opinion as a whole and lacking in interest to us.

When the Devil was still the Devil in the East. And as an Indian I am entitled to the benefit of that country of the harm that may be done by the maintenance of a political position. The maintenance of a political position in war-time is a crime. It is a crime to go on being left alone before the world. There were a number of us in Kenya who were not in the East. It is a crime to go on being left alone before the world. There were a number of us in Kenya who were not in the East.

What then is a good citizen? First and foremost he must be prepared to fight for his country unless he has transferred, as a conscientious objector, to undertake work of national importance. He must be prepared to fight for his country unless he has transferred, as a conscientious objector, to undertake work of national importance.

## Does War Affect the Weather?

Does war affect the weather? This is a question which has been asked many times in the past. The answer is that it does, but only in a very small way. The most significant effect of war on the weather is the increase in the amount of smoke and dust which is pumped into the atmosphere. This can lead to a temporary increase in the amount of cloud cover, and a corresponding decrease in the amount of sunlight which reaches the ground.

**JAPANESE CHANGE THEIR TUNE**

It is clear, even from the brief  
summary of his speech which we  
present to-day, that the new  
Prime Minister of Japan is  
fully alive to the significance of  
recent events in the global war  
and not least to the coming down  
of Japan. He was, in fact, a  
frank in his review of the war to  
the Japanese people, and he told  
the members that attacks on  
Japan are increasing in number  
and that it is now a possibility  
of a landing on the mainland  
itself. He will be used to give  
every equivalent of the word  
"probability" he would have con-  
veyed an even plainer but more  
accurate picture of the situation.  
Some people may have been  
inclined to think that the con-  
fession Allied assault upon Germany,  
and the declaration that they  
are the allies of the Third Reich it  
will be Japan's turn to be dealt  
with make the military opera-  
tions in the Pacific theatre a part  
of secondary importance. In  
actual fact the military opera-  
tions east and west parallel  
each other. Japan proper continuing  
to give greater difficulties for  
the greater distances, is progressing  
with some vigour and speed  
as the advance against Germany.  
A number of circumstances point  
to this, the most satisfactory  
being the fact that the Japanese  
are still insisting on the conditions  
described by our War Corres-  
pondent. There is no doubt  
evidence that the Japanese have  
sustained a year ago in that  
part of the world and it may be  
that the tempo of our advance  
from now onwards, with the  
seasonal improvement in the  
weather, will be increased.

Why do you insist on "Dettol" as an antiseptic?

Because it has been proved, both by laboratory tests and an epidemic of "Dettol" in a high degree every one of the qualities desirable in an antiseptic—i.e., germicidal, non-toxic, non-irritant, high penetration and stability. That is why it is used in the hospital and maternity wards of many great hospitals.

Dettol's bacteriostatic and germicidal powers are so powerful that it kills germs in a few minutes.

From the Allied Side. General Eisenhower's use of this term is a pointer to the fact that the breakthrough with previous and modernized infantry has surpassed and surpassed rapidly all previous German achievements. Eisenhower's military endorsement and authority in the eyes of the troops engaged in the supply organization which has been the mainstay of the German offensive, is increasing so far that the supply line is completely fluid through the front.
