TODAY IN COUNCIL. The Budget estimates of Government for the coming year as outlined in the general framework of the 1945 Estimates. Much of the work of the past year preliminary will follow the usual practice of referring comm. preliminary to the activities of various Government departments. The inevitable limitation of this form of consoling address might well encourage a different attitude towards the Government's obligations. It imposes on the Government to deal with many departments overseas. His address and report will be laid upon the table in their true perspective the contemplated future policies. These retrospective activities not only in addition to many departmental activity nor can they be held to account to satisfy those most critical of what has happened.

THE WORLD FOLLOWS BRITAIN'S LEAD

RAILWAY TRANSPORT

RAILWAY locomotive, which has hauled the major portion of the world's land traffic for the last 100 years, was invented and developed in Britain, and British train trails are still the fastest and safest in the world.

Not least among the many other discoveries and inventions for which the world owes a debt to Britain, is the development of transport by Courtauld's. It is almost entirely due to the enterprise shown by Courtauld's that the development of rayon has taken such great strides.

Today rayon has won universal acceptance and admiration. As a factor in raising the standards of life and comfort Courtauld's rayon yarn, and the fabrics made from it, deserve a prominent place in the regard of all Courtauld's fibres.

The World's greatest inventions and discoveries originated within THE BRITISH EMPIRE

CAREERS FOR KENYA YOUTH

"School-leavers" careers" pamphlet recently issued by the Kenya Youth Council is a valuable publication. Its main function is to indicate the career opportunities available to school-leavers in Kenya and abroad.

The Kenya Youth Council, with a good deal of useful information regarding technical matters, gives the educational standards necessary for the various careers.

After the war had been over, the Kenya Youth Council is expected to be a very busy organization. It will be the responsibility of the Council to ensure that the youth of Kenya are well equipped for the various careers available to them.

NATURE WRECKED THEIR PLAN
Unexpected Storm In Bunker Battle

(From our war correspondent, George Kinross) (Continued)

By the time this article appears it will be public property that the African troops have been driven from the high ground in the vicinity of the battle for the summit of the mountain which the Japanese have taken. It is the southern limit of the mountain range which the Japanese have taken. It is the southern limit of the mountain range which the Japanese have taken. It is the southern limit of the mountain range which the Japanese have taken.

At about six o'clock it was dark. The force should reach the summit by 10 p.m. but it was not until 11 p.m. that the Japanese were seen. The Japanese were seen in the darkness. The Japanese were seen in the darkness. The Japanese were seen in the darkness.

The attack on the bunker was based on the fact that the Japanese had been driven from the high ground. The Japanese had been driven from the high ground. The Japanese had been driven from the high ground.

The great difficulty was that the Japanese had been driven from the high ground. The Japanese had been driven from the high ground. The Japanese had been driven from the high ground.

It was not possible, of course, to keep the Japanese from the high ground. The Japanese had been driven from the high ground. The Japanese had been driven from the high ground.

Communal Restaurants

[From a special correspondent] Pretoria, Nov. 21. I thought that the idea of communal restaurants and canteens for the benefit of the lower income groups are to be set up immediately throughout the Union and controlled by the Department of Public Health, in connection with the health authorities. The restaurants will have open facilities for the institutional system of food distribution, to be operated by the State with a view to its being available to all.

Registered Mining

[From a special correspondent] Johannesburg, Nov. 21. I thought that the idea of registered mining in the Republic of South Africa is being set up immediately throughout the Union and controlled by the Department of Public Health, in connection with the health authorities. The registered mining will have open facilities for the institutional system of food distribution, to be operated by the State with a view to its being available to all.

HEAVIEST FIGHTING NEAR AIX-LA-CHAPELLE

On the Western Front between Aix-la-Chapelle and the Vesdre River, the fighting is raging at the gateway to the Reich.

Despite differing reactions at the southern end of the Western Front, French troops are doing all out to bring their offensive to a successful conclusion.

The French are holding firm and have made the greatest gains since the start of the offensive...

The main German thrust was on the left of the River Vesdre, but the French have held firm...

These operations have already brought in more than 100,000 prisoners and a large amount of material...
