NEW OFFENSIVE AGAINST GERMANY MAY PROVE DECISIVE (cont. from page 1.)

A Priority Job!

CHILDREN'S RECIPE.

Many children are unable to find out what everything that is put in their food is made of. This is why it is so important that the widest and most positive nutrition education for the children of this country should be given to them. This is why it is so important that we give them a good, attractive and well-balanced meal, which will give them the strength and energy they need to grow up to be good citizens.

Give your children, have, bread, fruit, fruit, fruit, vegetables, and milk.

Here are a few recipes that may be useful.

LIVER IN CASSEOLE.
Bake in brown butter.

BRUNS IN TOMATO SAUCE.
Bake in brown butter.

MILK AND EGGS.
Bake in brown butter.

BRIOLETTES.
Bake in brown butter.

Remember
Which your advertisements every Friday, for facts look up.

This is Britain's Free No. 24 (November 19 to December 1944, 1944) issued by the Central Government Distribution Board, LONDON. FOOD FACTS No. 11.

many. Her war machine would be better equipped to keep the front lines in the field. It is "Spain to Sell".

Along the southern half of the western front—so far from the Rhine front to the Swiss front—there is a line of troops which is of considerable size and which is well equipped for offensive military operations. This line of troops is the result of the German offensive against the British front. It is the result of the German offensive against the British front. It is the result of the German offensive against the British front.

At the same time as a serious threat to the German front, the German offensive against the British front is a serious threat to the German front. It is the result of the German offensive against the British front. It is the result of the German offensive against the British front.

Now let us look at the situation from the point of view of the British front. The British front is the result of the German offensive against the British front. It is the result of the German offensive against the British front. It is the result of the German offensive against the British front.

The British front is the result of the German offensive against the British front. It is the result of the German offensive against the British front. It is the result of the German offensive against the British front.

"I don't think you can do better..."

I have received several orders in the last few days, and I have been told over five million pounds have been paid in dividends. Considering the security, I don't think you can do better..."

Films Which Show History Being Made

In recent months so much attention has been directed to the progress of the Allies in the Western theatre that it is surprising to find that in Germany, Italy and Japan, the progress of the war has been made to such an extent that it is possible to film the progress of the war in a way which has never before been possible. The importance of events which have been occurring since the outbreak of the war has been such that it is now possible to film the progress of the war in a way which has never before been possible. The importance of events which have been occurring since the outbreak of the war has been such that it is now possible to film the progress of the war in a way which has never before been possible.

It is therefore a very appropriate time that the Directorate of Information and Welfare, East Africa Command, and the Ministry of Information have chosen to present an interesting series of feature programmes at the Empire Theatre, Nairobi, which will include a full length film of the Battle of Britain, which will show the progress of the war in a way which has never before been possible. The importance of events which have been occurring since the outbreak of the war has been such that it is now possible to film the progress of the war in a way which has never before been possible.

Britain's Ammunition Depends On Her Factory Workers

In reply to a question in the House of Commons, Mr. Morrison said today there was no reason to suppose that the production of munitions would be short of the necessary amount to fight the war. He said that the production of munitions would be short of the necessary amount to fight the war. He said that the production of munitions would be short of the necessary amount to fight the war.

CYCLE PERFECTION

Doan's Backache Kidney Pills

DIRECTOR OF VETERINARY SERVICES ON STOCK PROBLEMS

(cont. from page 5)

The following proposition of this country had the greatest effect on the price paid for the stock. It is the desire of the Indian community to give, with equal rights and no restrictions in the development of Kenya, the land of their ancestors.

The next Government speaker was the Director of Education, Mr. S. Forster, who after thanking members for the welcome extended to him, stated that the Government was speaking to the public regarding the stock problem. He said that the Government was not a matter of compensation, but a matter of justice. He said that the Government was not a matter of justice, but a matter of justice.

Coming to his main point, Mr. Forster stated that the Government was not a matter of justice, but a matter of justice. He said that the Government was not a matter of justice, but a matter of justice.

Mr. Forster then said that the Government was not a matter of justice, but a matter of justice. He said that the Government was not a matter of justice, but a matter of justice.

Mr. Forster then said that the Government was not a matter of justice, but a matter of justice. He said that the Government was not a matter of justice, but a matter of justice.

Mr. Forster then said that the Government was not a matter of justice, but a matter of justice. He said that the Government was not a matter of justice, but a matter of justice.

Mr. Forster then said that the Government was not a matter of justice, but a matter of justice. He said that the Government was not a matter of justice, but a matter of justice.

Mr. Forster then said that the Government was not a matter of justice, but a matter of justice. He said that the Government was not a matter of justice, but a matter of justice.

ORGANISATION OF

To the Editor, "E.A. Standard"

The "E.A. Standard" has been very well and wisely organized a people which will be very helpful in the future of the Colony most especially in the field of education and in the field of health.

The problem is how to find a country from which we can get our goods and how to get our goods from the part of the African continent which is the most fertile and which has the most abundant resources. It is the duty of the Government to see that the country is developed and that the people are able to get their goods from the part of the African continent which is the most fertile and which has the most abundant resources.

To the Editor, "E.A. Standard"

The "E.A. Standard" has been very well and wisely organized a people which will be very helpful in the future of the Colony most especially in the field of education and in the field of health.

The problem is how to find a country from which we can get our goods and how to get our goods from the part of the African continent which is the most fertile and which has the most abundant resources. It is the duty of the Government to see that the country is developed and that the people are able to get their goods from the part of the African continent which is the most fertile and which has the most abundant resources.

BRUGHT TO BOOK

"What was Paul, who do you decorate the Club library like this?"

"Well, the library's empty, isn't it? Not disturbing anybody?"

"Isn't anybody, Paul. The library in this Club is always empty I admit, but it's a matter of principle. What's the idea?"

"Just sitting of steam, old boy. Suffering from an attack of high spirits. Oh dear, I feel so happy I could..."

"High spirits, eh? After last night's festivity I'd expect to find you in a Turkish bath. Biggest party I've attended this year."

"Call that a party? More bouzouki, more wife, nothing to it."

"Well, all I can say is I don't feel too lively after it. That's why I came up to the library—I need some peace and quiet."

"I thought you would, old man, when I saw how considerably you neglected the Royal Lines Club at the evening here on Thursday's even used up with a straight glass of Rose's, as far as I could see."

"Don't rub it in, Paul, I know it's my own fault."

"All right, old boy. Now I'm off for a drink. You can settle down with a good book. Something soothing. There are some good ones on the shelves."

Electors Must Voice Their Desires

WHAT is wrong with politics in Kenya? Are the electors not so much voters as obedient slaves of a few unscrupulous and unscrupulously indifferent politicians? It is a question which will feature the election which will be held in the next few months, and there is no doubt that the future of their native land is in the hands of the electors who will be asked to elect their representatives to the House of Representatives.

The voters are called 'electors' and are not to be confused with the voters of the other countries. The electors are called 'electors' and are not to be confused with the voters of the other countries. The electors are called 'electors' and are not to be confused with the voters of the other countries.

CONSISTENT EXCELLENCE...

When your chemist supplies you with a pharmaceutical or toilet product bearing the name of Boots, you know that there will be no variation in the high standard of quality to which you have become accustomed.

The confidence you feel when asking for a Boots preparation is well founded. The specialist can give you. For more than fifty years, Boots have been specialists in the packed and bottled pharmaceuticals.

The supply situation has now improved and you should be able to enjoy the product's excellence of Boots products wherever you require them.

SOIL CONSERVATION SCHEMES FOR THE FUTURE

Communal Land in Reserves

KENYA'S Economic and Development Secretary gave an interesting outline of Soil Conservation schemes under the Colonial Development and Welfare Vote, at a recent meeting of the Land and Water Conservation Committee held in Nairobi.

He had been completed in a tour of the Colony and had discussed the scheme prepared by the Director of Agriculture with the appropriate authorities in all districts. The gist of these discussions was that it would be necessary to use unpaid communal labour for soil conservation work in those areas supervised by Assistant District Commissioners, and that the fact that this proposed use of communal labour would greatly increase the scope of all soil conservation proposals in the Native areas.

Speaking on this subject, the Controller-Chief, Soil Conservation, was emphatic on the necessity for raising the standard of living in the Native Reserves and increasing the output per head. He said that there should not be more than six Africans making their living out of a hundred acres of arable land. This would mean that the heavy soil conservation work should be done by the Native Reserves, and that the fact that Africans should be in the same way as Europeans.

The Director of Agriculture pointed out that while a reduction in numbers in some of the Native Reserves had been contemplated, it was not to be done until the surplus population was transferred to the reserves.

It was noted that most District Commissioners were satisfied with the proposals, but it had been suggested that the work could be expanded greatly if more machinery were made available. The Economic Secretary explained that it would not be possible to do so because of the shortage of men and machinery. Every effort was being made to obtain releases from the Army, and it was hoped that after the war more personnel would be available for the reserves.

Later in the meeting the Director of Agriculture and members of the Council had asked him to take up with the Colonial Government a proposal to lay down the same salary scale for the staff of the reserves for Africans employed on soil conservation work in European areas, such as Rivers, Forests, Game Reserves, District Councils, and other Government employment. He had agreed to do this, and the Government's sub-committee was that Government's Agricultural Department, which was in charge of the matter.

After discussion the Committee decided that while a reduction in numbers in some of the Native Reserves had been contemplated, it was not to be done until the surplus population was transferred to the reserves.

DISTRICT FARMING NOTES

The short rains have come, and both in the high and low areas, the crops are doing well. In the high areas, the crops are doing well, and in the low areas, the crops are doing well. In the high areas, the crops are doing well, and in the low areas, the crops are doing well.

This has made life very hard for the many farmers who have been trying to harvest last year. So while a good deal has been done for the district this year, much has been done for the district this year, much has been done for the district this year.

There has been a great deal of work done for the district this year, much has been done for the district this year, much has been done for the district this year.

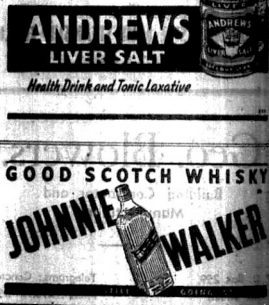

"Excuse me!"

As a lady, cleanliness has been her place but she cannot give you the health that comes from Inner Cleanliness and which is reflected in a flawless complexion, in clear eyes and lustrous hair, in physical and mental alertness. A regular glass of Andrews' Cleanliness has been her place but she cannot give you the health that comes from Inner Cleanliness.

Inner Cleanliness is Best for the Complexion

FIRST - Andrews refreshes and cleans the pores and capillaries. NEXT - Andrews settles the stomach and corrects acidity. THEN - Andrews tones up the liver and cleans the bile ducts. FINALLY - To complete your Inner Cleanliness, Andrews gently cleans the bowels, it sweeps away irritating mucus, purifies the blood and clears the skin.

Health Drink and Tonic Laxative

RESEARCH CENTRE OF ANIMAL NUTRITION

At the Bennett Research Institute in Edinburgh, Aberdeenshire, Scotland, investigations into animal nutrition are being carried out.

Opened by Queen Mary in 1922, the Bennett Research Institute is today split into three principal departments: the Department of Animal Nutrition and Animal Husbandry, the Department of Animal Husbandry, and the Department of Animal Husbandry.

The Bennett Research Institute is one of the most important research centres in the world for the study of animal nutrition.

RESEARCH CENTRE OF ANIMAL NUTRITION

Available to World War II

The Bennett Research Institute comprises four buildings, each with a separate function. The Laboratory, where scientific work is carried out, is the most important. It is here that the results of the research are being carried out.

The Bennett Research Institute is one of the most important research centres in the world for the study of animal nutrition.

COOPER'S COMMUNIQUE

How to Cure Sheep Scab

Fresh supplies of our Double Dipping Powder have arrived. Please do not forget, however, that a permit is required before you can purchase any sheep dips.

Cooper's Double Dipping Powder is specially designed to cure scab, and is not an "all-purpose" dip like the standard one.

It should be used at full strength for both dippings at 8-10 days' interval. Fresh dip should be used for each dipping of course.
