Excuse me - Inner Cleanliness comes first for Health

-So be regular with your ANDREWS

Daily Inner Cleanliness should be your simple rule for health. Then, not only will you keep fresh and look your best, but you will feel free in every way. From the moment you start your daily plan of sparkling Andrew's, your inner Cleanliness begins and in a week your skin will be clearer, your digestion improved, your whole system relaxed and rejuvenated. So use Andrew's often in its purifying work.

FIRST - Andrew relaxes and cleans the bowels and intestines.

NEXT - Andrew soothes the stomach and eases nervous acidity.

THEN - Andrew tones up the liver and checks indigestion.

FINALLY To complete your inner Cleanliness, Andrew gently cleans the bowels. It avoids every troublesome habit, corrects constipation, purifies the blood and clears the skin.

She Grows Pineapples

On her own farm at Maricopa, N.W., Mrs. C. C. Call grows pineapples—15,000 in all. She is the only woman in the Western Agricultural Security Program to have received a grant for such a purpose. She has a special variety of pineapples, and she grows them in the open field, using the same method as the men.

"When the war started, I had many of my friends they would come to see my pineapples and they would not believe it," said Mrs. Call. "Most of them say it is a day wasted if they have to spend all at home. They are in the field work to be done. Some of the girls just went home to work. They pick up the apples in the open field."

Mrs. Call says she gets 12-14 tons per acre, and she has been harvesting pineapples and shipping them to the market since the war started. She has been shipping them to the market since the war started. She has been shipping them to the market since the war started.

HINTS FOR EYE HEALTH

Your eyes are exposed to many dangers. The glare of the sun outdoors, long hours in artificial light—all these give rise to severe eye strain. The air filled with dust and particles of gases. Naturally your eyes will suffer if you do not give them proper care.

Treatment with Optra Eye Lotion will protect them from dangerous strain and keep them fit.

Nowadays the growing demands of vital war traffic mean that Optra is not so plentiful as before but you should still take all possible care of your eyes. Do not hold your work close to your eyes. Do not use a safe distance. Rest your eyes occasionally. Use plenty of fresh air and whenever possible, bathe your eyes with Optra Eye Lotion. If you have the slightest doubts regarding your vision consult a Doctor or Qualified Practitioner immediately.

An Urgent Salvage Job To Be Done

By the Executive Secretary Philip Mitchell

I have made a quick two-day visit to the District Council and have seen for myself the measures being taken there against the epidemic and its spread.

It is a tragedy that the epidemic has spread so far and so fast. It is a tragedy that the epidemic has spread so far and so fast. It is a tragedy that the epidemic has spread so far and so fast.

It is a tragedy that the epidemic has spread so far and so fast. It is a tragedy that the epidemic has spread so far and so fast. It is a tragedy that the epidemic has spread so far and so fast.

Equip each of your air operated units with one of the Speed Coupler Connectors listed below. One Air Hose Assembly with Speed Coupler will then service all units so equipped... without loss of time, and with minimum air hose investment.

Install ARO Speed Couplers in your service pipe lines at convenient points, and with a Speed-Coupler Connector on air hose you can "plug in" on your permanent air line in a manner similar to using an electric extension cord... so shut-off valve required as Speed-Coupler automatically seals air line against leakage.

Instantly Attached or Detached. Merely "Push On" or "Pull Off." Has Leak-proof, Automatic Shut-off Valve.

Merely "push on" to connect air hose to one permanently installed Speed-Coupler. To disconnect, pull off. No twisting or turning. Connects and disconnects in seconds. No loss of air. No loss of time. No loss of money. No loss of life.

In all periods of history there has been a tendency for nations to have their own special interests and to be more or less isolated from the rest of the world.

Canada and American views in this respect are being made known to East Africans by means of the "Straight Talk" which is published weekly.

There was a good deal of similarity in the trends of thought expressed on the one hand by Donald Cameron, Chairman of the United National Speech Bureau and Theodor Bohn on the other, in the address given by the latter at the National Institute of Political Science in London on the 15th inst. The importance of the subject of the control of the home front in the event of a war, was stressed by both speakers.

The speaker pointed out that the control of the home front in the event of a war, was a matter which concerned all nations, and that it was one of the most important of the modern world.

THE Duke and Duchess of Gloucester will soon be leaving England for Australia, where they will spend the remainder of their lives. They are taking their little son William with them. The photographs on this page show the Duke and the Duchess and their son, who is just a year old, as they appear in their carriage in Northamptonshire, a lovely old place, where the Duke has lived since the Duke went to France at the outbreak of the war. In the background of the picture is an old manorial ruin, which stands in the grounds and is now in a state of decay.

This is one of the boats presented by the people of Kenya to A.A. General, and is used in the White Nile country.

The Duchess will be very much surprised to hear that her son, who is now a boy, is being educated at the same school as her husband. He is being educated at the same school as her husband. He is being educated at the same school as her husband.

AGRICULTURAL POLICY IN KENYA: I

A CASE FOR NATIONALISATION OF THE LAND

By G. L. P. Wedd

THIS IS THE FIRST IN A SERIES OF ARTICLES BY A RHURUMITI SETTLER ON AGRICULTURAL POLICY, IN WHICH A CASE IS MADE OUT FOR THE NATIONALISATION OF LAND.

DURING the last forty years, the African continent has been the theatre of a process which has been the most important in its history. It has been the process of the displacement of the African population from the land which has been the theatre of its civilisation. This process has been the result of the discovery of gold and diamonds in the South African Republic, and the discovery of copper in the Copperbelt region of the Belgian Congo. The discovery of these minerals has led to the discovery of the land which has been the theatre of the African civilisation. The land which has been the theatre of the African civilisation is the land which has been the theatre of the African civilisation.

THE WESTERN

The Government of S. A. has adopted certain responsibilities towards the land, resulting from the discovery of the minerals in the South African Republic. The Government of S. Soldier Settlement: A South African Scheme

It was a scheme which was intended to provide a home for the soldier in the East African territories.
