Control of Buildings in Kenya Townships.

UNCONTROLLED POWERS FOR DISTRICT COMMISSIONERS.

An Expert's Criticism.

NEW RULES LINSUITED TO CONDITIONS IN THE COLONY.

The Kenya Government has prepared "Township Building Rules, 1933." They may be applied to any township established under the Township Ordinance, 1930 and are already applied to nearly a dozen of the smaller centres in the Colony.

These Rules appoint the District Commissioners to be the local authority to approve places of buildings and give large and uncontrolled powers to these non-technical officers.

Among many question the D.C. has to answer—and be is expected to charge a fee for his advice—are these:

What is a radius of gyration? When is a window?

Is a common lodging house boarder heavier than an ordinary settler? What is a mechanical lift?

Mr. William Duon, F.R.J.B.A. the well-known Kenya architect considers these Rules and the prevision for their application, foolish and grandmotherly and suggests they should be submitted to the public, and particularly to qualified professional mes, for criticism.

WINS FAMOUS RACE

ALL PREVIOUS records for the famous Elgin National Road Race were smashed by the Ford V-8. It covered 203 miles at an average speed of 80.22 miles per hour. On the straightaway it attained the phenomenal speed of 100.3 miles per hour!

The race was conducted throughout by the American Automobile Association. The picturesque but treacherous course of concrete, macadam and gravel had four sharp turns and a hairpin.

The Ford V-8 Wins First Seven Places

There were fifteen entrants, including four makes of cars, in the race but only eight finished. And the FIRST SEVEN were Ford V-eights. Others couldn't match its speed or were forced out by mechanical trouble. This race demonstrated the remarkable durability of the Ford V-8 and showed why the trend is definitely toward this type of motor.

Proof of Ford V-8 Speed, Stamina & Safety

This record-breaking victory clinches all arguments as to Ford V-8 performance. It couldn't be beaten by any stock car at Elgin it can't be equalled by any low or

medium priced car on any road.

In fairness to yourself see and drive the big, roomy
New Ford V-8. It's the greatest value ever offered in an
automobile and an exceptional buy at to-day's bargain

All Fords in this race were STRICTLY STOCK CARS without mechanical alterations of any kind. Roadster bodies, were used, without lamps, windshields, fenders, or running boards, in accordance with the stock car racing rules of the American Automobile Association.

statement was made by Sir William Gowers at the Inter-national Conference on the Preservation of African Fauna and Flora that the green Converment had given wholebeared at the Land of the Knyxa authorities in the suppression of the smuggling of every and hern over the bottlers.

statement was made during the discussion by the Cor ference on the subject of the prevention of the trade i game trophies which had been illegally chained.

Conference also debated the question of the use of motor vehicles and aircraft in the hunting of game. It was agreed that these should be prohibited for hunting, and also the use of motors or aircraft under circumstances which would be likely to cause sampled or disturbance of game. The use of fire, darriain lights or flares, nets, pits or snares will also be prohibited.

RESULT OF SEVEN YEARS' INVESTIGATION.

Address by Dr. H. L. Gordon.

A PROBLEM TO BE RECKONED WITH IN THE FUTURE

iteresting and valuable address was given early in the dur Guzels is south in London to members of the Engenics Society Present Clab by Dr. H. L. Gordon, the well-known Nairobi mental small dinner, pseudoids. His subject was "Amentia in the East Mr. Winston Allardon," Andrean, "Antrean, "Antrean

e reviewing the results of his investigations in Kenya during the past seven years, Dr. Gordon said he had supphasised the need for scientific research into native mentality. The value of such research lay in it being done before the simplicity of the native was compli-cated by the entry of civilisation.

pointed out that East African standards were necessary for the diagnosis of amentia among natives. Those stated, as a result of tests, to be normal could not fit into the European idea of normality without the crea-tion of a low grade normal class and a border in normal class.

Regarding the young native, Dr. Gordon said that the "toto" was a bright malleable little fellow, but after puberty invariably fell away from promise.

[THROUGH SEUTER'S AGENCY.]
London, Nov. 14.
Sir Bolton Eyres-Monsell: First
Lord of the Admiralty announced
in the House of Commons to day
that the Admiralty proposed a revision of the 1933 Naval programme. A staunch defence of Britain's foreign policy was made by Sir Edward Grigg in the course of a striking speech a few days ago. No one, he said, could doubt that Germany was at present in the threes of another violent renaissance of the military cult, but that fact had stabilized Europe on lines which would at any rate preserve peace for some time to come. The revision will include the ad-dition of two cruisers of a new type, 9,000 tons, with increased armaments and one cruiser of the "Arethusa" class, 5,200

COMMITTEE APPOINTED TO COLLECT AGRICULTURAL INFORMATION.

The Rongai district has not been slow to appreciate the importance of planning for prosperity. The difficulties caused by the economic depression have caused local settlers to place more value on co-operation.

Greater attention is being given to mixed farmin in which dairying will play an increasing important part.

ngai farmers believe in self-help and a committee has been formed to collect agricultural information of use to the present farming community and likely to be of value to intending new settlers.

TACTICAL ADVANTAG

Rugby, Nov. 14.
The Liberal Parliamentary Parly, which has hit-herto occupied benches on the Government side of the House of Commons, will meet to-day to consider whether they should cross the floor of the House. Certain tactical advantages tain tactical adv. would, it is stated, be se-ured by sitting on the op-beright to the second of the co-beright to the second of the co-

position benches, including the right to claim the choice of subject of discussion on a certain number of supply days. "The Times" says that general opinion is that the Party to-day will by a majority decide to go into opposition at once, though

> PRELIMINARY CONFERENCE TO DISCUSS STATUS.

> > Italy's Support.

It is considered likely that Germany, following the result of the Plebiscite on Sunday, may seek to take her place once more in the League of Nations, but on a different footing than formerly.

ere is a suggestion that before that happens a conference of the interested Powers should be held with a view to discussing the problem of Germany. Signor Mussolini is believed to be in favour of such a conference.

Is your engine trying to warn you of the dangers of using speak. "cheap" oil?

Most engines take an instinctive dislike to "cheap" inferior oils. Erse they protest sometimes sitently and singgrably, sometimes noisily and persistently. Then they take action by refaming to action. Big ends go on strike, the transmission protests lously, piacens and cylinders nevels and only a prelonged repart bill, will put things right again. There's THE OIL YOU CAN RELY ON.
