FOR THE 1954 EMPIRE GAMES

KENYA has made remarkable progress in athletics during the last few years and the departure on Thursday of a team to compete in the Central African Games at Kitwe, Northern Rhodesia, is a signal of another step on the road to eventual high international status. The recognition of this is implicit in the invitation issued to the Empire Games in Canada.

Mr. Blundell calls for bold Kenya plan

It had not been designed, but it is not complete. It should be a complete plan, not a partial one. It should be a bold plan, not a timid one. It should be a plan that is based on the interests of the people of Kenya, not on the interests of a few individuals.

'Good start'

Answering a question, Mr. Blundell said that he had attempted to find a plan that would be a good start for the development of Kenya. He said that he had found a plan that was based on the interests of the people of Kenya, and that he was confident that it would be a good start for the development of Kenya.

With suspicion

Speaking of the general attitude towards the Kenya plan, Mr. Blundell said that he was aware of the suspicion that existed in the minds of some people. He said that he was confident that the plan was a good one, and that he was sure that it would be accepted by the people of Kenya.

Development

While Mr. Blundell did not say that the plan was necessary to cover the costs of the development of Kenya, he did say that it was necessary to cover the costs of the development of Kenya. He said that he was confident that the plan was a good one, and that he was sure that it would be accepted by the people of Kenya.

U.S. RECESSION BOG FADES AWAY AGAIN

By ALASTAIR BUCHAN

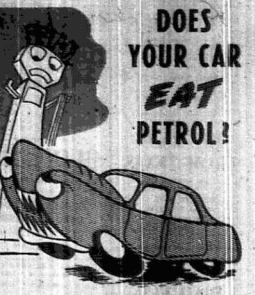

BRITAIN AHEAD IN STEEL OUTPUT

While steel output in Britain during April may have broken new high records, in other countries it remained stable or even decreased.

The opinion of the American Government's experts is that the recession which is developing in the U.S. will be of a temporary nature.

The increase in food costs which in turn is partly the result of bad farming weather in important agricultural areas of the west and middle of the U.S. is raising the cost of living.

The cost of living is being held in check by the Government's policy of increasing food costs.

ALL UNIONS IN FRENCH STRIKE

1,000,000 workers out, but everyone calm

FOUR MILLION Frenchmen were on strike yesterday in an attempt to get wages increased and to end the Government's recent economy measures and to bring a Left-Wing administration into power.

The Christian Trade Union Federation (Catholic) and the participation of the Federation, which had kept out of the strike this week, meant that the movement had the support of virtually all French trade unions.

GANGSTERS HALTED BY MORTARS

A PATROL of the 4th A.K.A.R. which has been hunting a large gang since last Saturday has made further contact with the gang recruits near the forest edge about 20 miles south-west of Fort Hall.

The gang, officially stated yesterday to number about 200, including women carriers, was moving away east but the progress was stopped when the patrol laid down mortar fire ahead of it. A B.L.M.K. report stated:

Heavy casualties were inflicted on part of the gang during an encounter in a clearing. Further progress of the gang was halted by the mortar fire.

The Abertara Forest about 20 miles north-west of Nyeri, a patrol of the 4th A.K.A.R. destroyed a hide-out, a room in the vicinity. The gang's first mortar was used in the clearing to support the strike movements.

But senior grade postal workers and those in Paris opposed unions representing senate officials in electricity, gas, water, banking, insurance companies and Air France have refused now to support the strike movements.

Most banks insurance companies and shops in Paris opened at the usual time yesterday when many non-union employees and senior grade workers who had not taken out their own pay work.

30-MAN POLICE UNITS TO PATROL CITY LOCATIONS

Beat system to fight crime

NAIROBI police yesterday put into operation the first of the new 30-man police units to patrol city locations.

The new plan is to curb the crime wave in the city. Within a few hours of a combined police and military sweep on Karunga, the city was patrolled by a strong force of police.

With the increased pressure on the city, the police force in the city area has been increased.

The new plan is to divide the city into 30 beats. Each beat will be patrolled by a 30-man police unit.

Redraft Coffee Bill, urges Unofficial

UGANDA MEASURE 'UNSOUD'

When the second reading of the Bill providing for the reorganisation of the Uganda coffee industry for the year ending 1953-54 was introduced in the Uganda Legislative Council yesterday, Mr. C. Handley Brier, European Unofficial, suggested that it should be withdrawn.

The Bill, which had passed its first reading on Wednesday, was described by Mr. Brier as "throughly unsound".

It was only during the past three years, or so that there had been considerable changes in the coffee industry in the African-grown coffee areas.

Mr. Brier said that the Bill was "unsound" because it did not take into account the changes in the industry.

WARNING BY MR. BLUNDELL

'Avoid E. African Federation'

ANSWERING a question on the Federation, Mr. Michael Blundell, Leader of the European Elected Members, told a meeting at the Central African Federation last night.

The first essential was to make the Federation a democracy and to be developed by accept-it and by far the best basis on which to build would be done as a community of interests between ourselves and Central African territories.

'Unwise' Of the constitutional issue, Blundell said he was not prepared to give it a great deal of publicity until the future had been taken care of.

Speed of light Other opinions differed but most agreed that the speed of light would have a velocity of ten miles a second.

THE NEW LONDON LINES

By Dorothy Barlake

LONDON top-flight designers have agreed to differ. In a summation of the way he would like the fashion-conscious to dress during the coming six months.

From Michael, who has left Lachaux and is now designing independently, came the Tunic Silhouette, from Vivier, the "Vivier" line which showed a middle course only saved from mediocrity by being executed out of superb colours and materials. Betty Bolton offered us a "three directional" collection.

The details

NOW for the details. Most original of the new lines was Michael's Tunic, a high neckline, smooth, rounded shoulders and a fitted bodice. Shirts, coats and dresses followed it. All were topped with long, wide lapels. The line was illustrated by a blue tulle suit which had a close-fitting skirt by contrast with the wide jacket and a large black bow. Vivier's line was characterized by a unique design in Michael's style, to adorn the tulle, stood a Tulle Party Dress of a high neckline, long sleeves and a long skirt. Betty Bolton offered us a line which had the Waterfall Line, a whole manner of wearing the skirt falling to the feet. This collection was in the style of the late-20's dress.

"Moderate" lines

This "moderate" line shown by Michael Stewart avoided extremes and concentrated on back lengths to the skirts, long straight, shoulders, well-defined waists and simple lines. Colours were mainly muted tones—grey, black, white, green, blue, brown, tan. Materials ranged further than velvet, drapes, lace and broad, ruffled fabrics and thousands of "soft" creases.

And many designers are not showing their new trends in the laboratory and museum. They are ready for wear, and are showing them in the streets. The new lines are shown in a shop window in the Rue de la Paix, Paris, and in the Rue de la Paix, Paris, and in the Rue de la Paix, Paris. The new lines are shown in a shop window in the Rue de la Paix, Paris, and in the Rue de la Paix, Paris, and in the Rue de la Paix, Paris.

Fewer models

MOST designers have fewer models than ever before. They are showing them in the streets, and are showing them in the streets. They are showing them in the streets, and are showing them in the streets.

The sketches

HERE are some impressions of the sketches. They are showing them in the streets, and are showing them in the streets. They are showing them in the streets, and are showing them in the streets.

Madame Schibarré might have had greater appeal for her very beautiful show of dresses if she had not done too much in the line of the "three directional" collection.

CAT FUR FASHIONS CAUSE A BURST OF INDIGNATION

By Alison Settle

THE opening of a new fashion house in a great event in Paris and must be signalled by pouring as it were, a quart of indignation into the lap of the salon where the collection takes place. Three hundred people, it was said, could be accommodated in the Marc Bohon Salon in the Avenue George V for this very young customer's opening night. Well over 500 attempted to attend.

Encouragement, rather than criticism is the rule for such events in Paris and there was here no need for kindness, if not a mastery show, well composed and elegant. What had been expected was the collection of a newcomer, such as that of the Givenchy, who a year or so had produced a collection.

It was unfortunate that one of the finest brass ensembles in the world, the Kenya Concert Band, was disbanded on the 10th of August, 1953, at Mitchell Park. The band was formed in 1948 and had a reputation for its high standard of playing. It was disbanded because of the lack of funds to maintain the band. The members of the band were given a farewell concert at Mitchell Park on the 10th of August, 1953. The concert was a great success and the members of the band were given a warm send-off. The band was reformed in 1954 and has since been playing at a high standard.

FORHANS TOOTHPASTE
The idea of a toothbrush with a built-in toothpaste dispenser was first conceived by Dr. J. H. Forhans, a Dutch dentist. He discovered that a toothbrush with a built-in toothpaste dispenser was more effective than a regular toothbrush. He patented his invention and it has since been used by millions of people. Forhans Toothpaste is made from natural ingredients and is gentle on the teeth. It is available in two flavors: Orange and Red. It is sold in a convenient tube that can be carried in a pocket or purse. It is a must for anyone who wants to keep their teeth healthy and white.
