There is a definite restaurant car on order which will cost this amount. It will cost a further 20 per cent for the restaurant staff, a kitchen, and a necessary stock of food.

# SPURS HAVE HIGH HURDLE TODAY

### Newcastle game may damp 'double' hopes

TOTTENHAM HOTSPUR who appear level for the league championship following the Division 1 title last week-end, may find their first appearance in senior circles when they receive relegation in 1961, a really difficult task today.

Although Newcastle have not won since March 3 and have gone six games without taking a point, they are very far from trouble at home and have lost only two matches at St. James' Park this season.

The League Cup tie against the newly crowned Newcastle gives them the opportunity to have a rest today, to save any chance that they would weary their legs.

Challenges Manchester United are away at Stoke where they could have a good chance of a point, but they are expected to be held by the home side.

At the other end of the table, the relegation battle is expected to be a close one.

## Eastleigh Aerodrome

To the Editor, "E.A. Standard":  
Mr. J. J. Bennett's letter could not have been more timely. I am a member of the East African Women's League and I am sure that the League will be able to help in the construction of a new terminal building at Eastleigh. I am sure that the League will be able to help in the construction of a new terminal building at Eastleigh.

The whole of his remarks must be taken in the light of the fact that the League is not a charity and it is not a body which can be asked to take on the responsibility of a terminal building at Eastleigh. I am sure that the League will be able to help in the construction of a new terminal building at Eastleigh.

Some years ago an appeal for a terminal building was launched in the East African Standard and some of the more active supporters of the appeal were the members of the East African Women's League. I am sure that the League will be able to help in the construction of a new terminal building at Eastleigh.

It is a pity that the League is not a body which can be asked to take on the responsibility of a terminal building at Eastleigh. I am sure that the League will be able to help in the construction of a new terminal building at Eastleigh.

say whether President Truman was preparing a statement.

Asked about a report that the United States and Britain had agreed to issue a policy declaration on Korea, Mr. Murray said he could not say what action he would take.

British official reaction to the treatment of the situation was reported.

The Government's behind-the-scenes handling of the controversy kept the issue from being raised in Parliament on Monday.

### Critics silent

Even the most scathing left-wing critics of General MacArthur were content to remain silent for the moment. They seemed satisfied that the Government was taking a strong line with Washington over the alleged military aggression.

Several Labour Members had put forward questions for the future day's sitting of the House of Commons, including the Foreign Secretary, Mr. Herbert Morrison, on the subject of Korean policy (see article on page 1).

### Waiting a leap

French newspaper commentaries expressed grave concern over the situation. The *Le X* wrote: "It is to be feared that the Atlantic will be on the first opportunity for the re-ignition of Korea."

The Australian Press published a series of editorial attacks on General MacArthur as the House of Commons for another attempt at mediation.

# AUSTRALIANS ARE TENNIS 'TOPS'

### Should retain the Davis Cup this year

(by A. J. Mottram)

ANOTHER lawn tennis season has begun. In Britain, chilly, unpredictable weather has already greeted the first of the overseas players, and from far and wide the top ranking tennis stars of the world are making ready for another campaign of European and British tennis.

And having it announced that the Australian team will be led by the world champion, Rod Laver, it is not surprising that the Australian team is being regarded as the favourite to retain the Davis Cup. Laver, who has won the Wimbledon title for the second year, is the only player in the world who has won all four Grand Slam titles. He is also the only player to have won the Davis Cup twice. The Australian team is also strong in doubles, with Laver and Neale forming a formidable partnership. The South African team, led by the world champion, Pietrangeli, is also a strong contender. The match will be held at the Wimbledon Centre Court from April 17 to 21. It is expected to be one of the most exciting Davis Cup matches in years.

**The British Budget**

Mr Chancellor of the Exchequer, yesterday's Budget, could retain the back Mr. Gaitskell says it has been introduced by first Budget. It has done a tremendous job. The Budget itself though the various details. The Budget is a product of the situation of which offers very strong evidence. It shows a government which requires the maximum possible resources to meet its requirements. It shows the need for reform in industry, the maximum ability of the country to stand the financial, economic and social strains without destroying the national economy. It shows that the Government is covering up all other aspects of the national situation which has made it necessary to carry out the necessary materials needed to expand production and exports. It shows the step increase in prices of sugar, molasses, soap and the constant measure of inflation and rising living costs. There were the priority to deal with.

Though there have been some claims, the Budget is a masterpiece and those with a margin of a pound or two a week are not disappointed. The Budget is a masterpiece of financial management. It is a masterpiece of financial management. It is a masterpiece of financial management.

# GREAT BATSMAN REVIEWS THE M.C.C.'s TOUR

## The battle with Jack Iverson's googlies

by LEN HUTTON

IT'S wonderful to be back in England. Why so, the greatest morning of any M.C.C. tour is when the player sees foot in England again and sees his family and friends waiting for him. Despite the fact that we have just lost another rubber against the Australians—and with a bit of luck we might easily have won—none of the touring side will ever forget the warmth and kindness of Australian everywhere we went.

**And I include Ails.** Australians because the spirit of hospitality in the little man who led me the way to the cricket ground was the nearest to the spirit of a manager who entertains tourists. Each day exercised in his power to make the visiting player happy and at home.

From my own point of view, the most enjoyable of the tour, involving incidents at least, has been the match at Johannesburg. I was surprised to find that the South African batsmen were so good. ## WOOL PRICES NOW LIKELY TO STAY FIRM FOR THE REST OF THE SEASON

CURRENT wool prices—down by as much as 30 per cent since before Easter—will stay firm throughout the rest of the season, Melbourne readers. Observers here were wondering whether American wool prices from the market would drop or whether the range of explanation for the price drop or whether the range of American stockpiling had been exaggerated.

But they were satisfied that neither the indications were that prices would continue to slip in the progress of the season, and the clearing of the market. Sydney and Adelaide had followed Melbourne lead and trade sources were predicting that the price of wool in May would be the same pattern. It is expected that the wool market will be a quiet one for the remainder of the season.

The wool market is expected to be a quiet one for the remainder of the season. The wool market is expected to be a quiet one for the remainder of the season. The wool market is expected to be a quiet one for the remainder of the season.

# NEW CHALLENGE OF 'MADE IN JAPAN'

- First details of an American draft for the Peace Treaty with Japan were made known recently. The possible British requirement of restrictions on Japan's shipbuilding and textile industries was described by Ambassador John Foster Dulles as impracticable.
- Meanwhile Japanese commerce booms. Here the background to an 'almost unbelievable' recovery is discussed by Roland Hurman.

Although these British claims have been made, they are getting closer to the truth. The Japanese have been able to recover from the war in a way that is almost unbelievable. This is due to a number of factors, including the fact that the Japanese have been able to rebuild their economy and industry.
