When only the best will do

When only the best will do. This is the motto of Benson & Hedges cigarettes.

Not even the best can do this unless an occasion which can for once be ordinary and stimulate a fitting tribute of nothing less than the best. Benson & Hedges cigarettes are made with precise care, appropriate to just such times as these - when the merely good must be left for when people have had their fill of the best.

CORRESPONDENCE

The Grocer's Plight
To the Editor, "E.A. Standard."
Sir—Without wishing to appear too hard on the unfortunate wretch of the daily horticultural, some of the remarks contained in the East African Standard set Saturday did seem to favour slightly of the grocer in the present circumstances. I do not propose to go into the minutiae of the situation, which will be agreed to show when and what profit has or has not been made upon the sale of groceries. One thing that does seem to have been overlooked is a grocery establishment that sells a profit of 10 per cent on each customer is a profit of 10 per cent because I am assuming that if the price drops to 100,000, a profit of 10 per cent is only a little over 100,000, and that the degree of profit is in a way affected by what he buys.

The Coronation Stone
To the Editor, "E.A. Standard."
Sir—On the front page of a newspaper from Britain there is a very good photograph of the medal proposed to be presented to the people who removed the Scotch Densley from Westminster Abbey on Christmas Day. It shows on the reverse the Scotch people and on the obverse the British people, which the English like very much. Presented on behalf of the Scotch people for Scotch residents, 200,000. Dec. 1946. I would suggest a far more appropriate design—overseas—scots and should be reverse a photograph of a bottle of stout, of Dundee Scotch, with a few glasses alongside.

SCOTLAND WINS SOCCER CHAMPIONSHIP

But England's ten men were unlucky

A CROWD of 100,000 among whom was the Duke of Gloucester, saw Scotland regain the international soccer championship by beating England three goals to two at Wembley Stadium on Saturday. The sides were level, one-all, at the interval.

The Scots were eleven forwards but England's ten men were unlucky. They were out of play for much of the match for they were hit by the "big" goalkeeper, Gordon Banks, who was taken to Wembley Hospital with a fractured right ankle, one hour after his minutes play.

Despite leading half the match, England took the lead with a goal by the "big" goalkeeper, Gordon Banks, who was taken to Wembley Hospital with a fractured right ankle, one hour after his minutes play.

England's ten men were unlucky. They were out of play for much of the match for they were hit by the "big" goalkeeper, Gordon Banks, who was taken to Wembley Hospital with a fractured right ankle, one hour after his minutes play.

Bad miss by ref. The referee was hit by a ball from the English half, which caused him to leave the field for a moment. This was a significant moment in the match.

Magnificent halves. Both teams played excellent halves of the match, with many chances and goals.

LOCKE WINS MATCH WITH VON NIDA

11 and 9 margin in 141 holes Marathon

With Marshall playing a few earlier rounds from his "honorary" club, the strength of the Scots lay in their attack. Lockie's debut from the start of the game and having a hand in the other, did very well and the final 11 and 9 was an excellent margin.

The match was a marathon 141 holes affair, with many ups and downs.

SMUGGLING STEEL TO THE SOVIET

German firms implicated

ALLIES INVESTIGATE ALLEGED HOUSE OF MARSHALL AID FUNDS

British and American officials in Berlin have stated that they are ready to move to end smuggle-up a giant international steel smuggling operation which is believed to be financed through the House of Marshall aid funds.

The British Embassy in Berlin has been denouncing illegal trade to the Soviet Union through East Germany for some years. It is reported that the East German Government has been receiving a steady flow of steel from the West.

The British Government has been investigating the matter for some time and it is believed that the steel is being smuggled through the East German border.

The London Correspondent discusses:

BUDGET REACTIONS, BICYCLES, AND THE ARMY'S WELCOME FOR Z-MEN

RARELY has there been a budget which has raised a greater stir in the sea of affairs. The reason for this appears to be twofold. From one point of view we seem to have had something to that effect in the sea of affairs, at least in those days, both the houses were well the international outlook was in such a state of actual confusion that it was hardly possible to see the general public thinking of anything but the budget.

There are, however, two points which have become to me of some importance. The first is the fact that the budget has raised a great deal of interest in the public mind. The second is the fact that the budget has raised a great deal of interest in the public mind.

U.S. Corvett, one of the three Bessie Lane ships which may take the Royal Family to Australia and New Zealand for the Royal Tour of 1951.

...the budget has raised a great deal of interest in the public mind. The second is the fact that the budget has raised a great deal of interest in the public mind.

NEGOTIATIONS FOR CUBAN SUGAR COME UNDER FIRE IN THE COMMONS

MR. PATRICK GORDON-WALKER, Secretary for Commonwealth Relations, has stated that he does not agree that it was incumbent on him to consult other Commonwealth Governments before negotiating with Cuba for sugar.

Mr. Peter Saunders, Conservative member of the House of Commons, has expressed his disapproval of the Government's policy in this regard. He stated that any arrangement with Cuba would be in conflict with the Government's policy of free trade with the Commonwealth.

Mr. Gordon-Walker said that the Government had no alternative but to negotiate with Cuba, as the Commonwealth Governments were unable to supply the United Kingdom with sufficient quantities of sugar.

The President of the B.S.P., Mr. Harold Wilson, said that any arrangement with Cuba would be in conflict with the Government's policy of free trade with the Commonwealth.

Mr. Gordon-Walker said that the Government had no alternative but to negotiate with Cuba, as the Commonwealth Governments were unable to supply the United Kingdom with sufficient quantities of sugar.

Members stated when Mr. Dods said that when Mr. Harold Wilson, President of the Board of Trade, recently visited Cuba a Party leader said, "Parliament is a game of administration at the moment and will be so for some time." Mr. Gordon-Walker said that the Government had no alternative but to negotiate with Cuba, as the Commonwealth Governments were unable to supply the United Kingdom with sufficient quantities of sugar.

SALES OF DIAMONDS VERY SATISFACTORY

The sales of diamonds in the United Kingdom during the first quarter of 1951 were very satisfactory, according to the Diamond Merchants' Association.

The total value of diamonds sold during the first quarter was £1,200,000, compared with £1,100,000 in the same period of 1950.

NO RUBBER SHORTAGE IN AMERICA

The President of the U.S. Rubber Company has stated that there is no shortage of rubber in America.

He said that the company's stocks of rubber are sufficient to meet the requirements of the American market.

EGYPTIAN GOVERNOR FOR NATIONAL BANK

The Egyptian Government has appointed a new Governor for the National Bank.

The new Governor is Mr. [Name], who has been serving in the position since [Date].

RECORD AMERICAN EXPORTS

Exports from the United States to the United Kingdom reached a record level during the first quarter of 1951.

The total value of exports was \$1,200 million, compared with \$1,100 million in the same period of 1950.

BRITAIN'S EXPORTS OF STEEL TO BE CUT

Britain's exports of steel are expected to be cut during the second quarter of 1951.

This is due to a combination of factors, including a decline in demand from the United States and a reduction in exports to other countries.

BUYING FROM WEST GERMANY

Britain's purchases of goods from West Germany are expected to increase during the second quarter of 1951.

This is due to a combination of factors, including a decline in demand from the United States and a reduction in exports to other countries.

LOW ESTIMATE OF AMERICAN WHEAT CHOP

The American Wheat Chop is expected to be low during the second quarter of 1951.

WHAT IS COLONIAL STATUS?

NOMENCLATURE in Colonial affairs has become difficult. We need a re-examination of the meaning of words in common use. With the changing times some respectable words have acquired an almost sinister meaning and when we employ old words in the absence of new ones to combine an expanded meaning they confuse thought and often cause misunderstanding.

'Dominion'
Lovers with the arm of Asia... The word 'dominion' itself has a great deal to say about the nature of the union between the United Kingdom and the territories under its jurisdiction. It is a word which has a long and distinguished history. It is a word which has a long and distinguished history. It is a word which has a long and distinguished history.

asks the Rt. Hon. A. CREECH JONES, former Secretary of State for the Colonies, who makes a plea for a new group term to express the varying degrees of membership of the territories of the Commonwealth.

Not always bad

Protest against proposal to 'close' Kibera

THE Kenyan Association of East Africa, which claims a membership of 27,000, is preparing a petition to the Governor Sir Philip Mitchell, in protest against the Government's proposal to close the 'village' of Kibera.

Previous protests to the Kenya Government, and to the British Government, have remained unanswered. The President of the Association, Mr. Hamadhani Marjan, told the East African Standard yesterday.

Government proposals for the demolition of the village were first published in the Nairobi City Council. It was stated that Kibera would be required to give up its green belt and to be replaced by a new village to be erected on a new site to be selected by the Government.

SUN-SPOTS PHOTOGRAPHED BY KENYA ASTRONOMER

FOR the first time in the world, a sunspot has been photographed in Kenya. The photograph was taken by Mr. R. K. Marjan, a Nairobi astronomer.

Mr. Marjan, who is a member of the Royal Astronomical Society, has been observing the sun for several years. He has discovered several sunspots and has been able to photograph them.

The photograph of the sunspot was taken on April 10, 1951. It was the largest sunspot seen in Kenya since the discovery of sunspots in 1610.

Mr. Marjan's discovery is a significant contribution to the study of sunspots and solar activity. It is hoped that his work will lead to further discoveries in the future.

Question on 'renowned' resignations'

MR. P. V. CABEL, a senior colonial development corporation official, had resigned. He was operating as a contractor for the Corporation.

According to a C.D.C. spokesman Mr. Cabel had resigned for health reasons. He denied that the resignation had any connection with the contract, circulating in London to the effect that a number of resignations from the Board of the Corporation are about to take place.

The spokesman said he had heard of these rumours "as far as I know they have no foundation."

Several members of the C.D.C. are said to be thinking of resigning because they think there is a real deal of mismanagement.

'Enduring regret'

An attempt to get to the bottom of the matter is to be made by Mr. F. Kiproti, Cooperative M.P. for Athi River, who has introduced a Colonial Development Corporation Bill in the House of Representatives.

The Bill is intended to bring the Corporation under the supervision of the Government and to provide for the appointment of a Commission of Enquiry to investigate the Corporation's affairs.

Mr. Kiproti said that he had a "long and enduring regret" that the Corporation had been established in the first place.

Canada holds wildlife week

Wildlife week in Canada is being celebrated from April 15 to 21. The week is devoted to the protection and conservation of the country's natural resources.

The Government of Canada has issued a series of leaflets and posters to educate the public about the importance of wildlife and the need to conserve it.

P.O. WERE GIANT-KILLERS IN COMMERCIAL LEAGUE
The Worcester wicket should be much better

STANDARD CORRESPONDENT

THE past week was a disappointing one for the Commercial League administrators and players alike as far as the Embury Cup knockout competition was concerned. Only one of the five first round matches played provided a definite decisive victory. Major Produce beat Naumann-Gopp Routaries by four wickets.

For the other games, Kells' 100 for Morrocco was not enough to beat the Naumann-Gopp Routaries in a one-day game. Similarly, the Naumann-Gopp Routaries were unable to beat the Worcester wicket in a one-day game. The Worcester wicket was much better than it has been for some time.

The Commercial League is a one-day league and the Worcester wicket is a one-day wicket. The Worcester wicket is a one-day wicket and the Worcester wicket is a one-day wicket.

Advantage of boots

It is a well-known fact that a pair of good boots is essential for a cricketer. A pair of good boots will help a cricketer to run faster and to play better.

Cricket boots are made of leather and are designed to provide extra support and protection for the player's feet.

Wide open yet again

The Commercial League is wide open yet again. The Worcester wicket is much better than it has been for some time.

Tell me Doctor.. when there's an accident, is it safe to put an antiseptic straight on the wound?

In an emergency you need an antiseptic that can be used quickly, without hesitation, and without danger of undue discomfort. You need a reliable killer of germs, but it should be non-poisonous, non-staining, gentle on human tissue, and valuable in promoting clean and rapid healing. You need the modern antiseptic 'Dettol'.

SPURS ARE NOT CHAMPIONS YET

Chief promotion aspirants also falter

BROMIDE though to be the cliché about the multiplication of slips between top and tip is being proved yet again in the Football League championship for with the exception almost in their grasp both Tottenham and Preston failed to clinch the coveted title in weekend matches.

In consequence, the possibility of the very consistent Manchester United runners up in 1958-59, 4-4-3 and 48-43 and fourth last season gaining a championship of this cannot be ruled out entirely.

Though a great deal is to be expected from Tottenham with their new signing, the Manchester City side appear to be the main contenders for the title. But Cardiff City and Nottingham City also have a chance of winning the title of three clubs. Manchester's defeat of Tottenham in the second round of the cup has not helped their cause.

To the moon—in atom-powered space-ship FOOD FOR THE FUTURE AN EAST AFRICAN PROBLEM

THREE German rocket experts are working on plans for a passenger-carrying space-ship driven by atomic power. It is to be developed from experiments with manned rockets. One of the scientists, Professor Albert Fölsch, who has a row in court because he was charged with plotting to help the Germans to get atomic energy, is quite sure that the atom-powered rocket will be a success. He said that the space-ship would be built like an ordinary rocket but that it would be powered by atomic energy.

DISCUSSING food problems which will face East Africa when the Colonial Office asked to give a lead. Mr. E. W. Bullitt at the Royal Empire Society meeting in London called on the Colonial Secretary to state what steps were being taken to prevent East Africa against the terrible prospect of being able to feed its people. It was no good saying East Africa could depend on other countries for food. He quoted a black picture of prospective food problems painted by Sir John Russell as British Association president two years ago. His view was that the answer to the question of development in East Africa was the supply of spare foodgrains.

Three stages

The project has three stages: (a) The first stage is to build a rocket which will carry a small satellite into orbit. (b) The second stage is to build a rocket which will carry a small satellite into orbit. (c) The third stage is to build a rocket which will carry a small satellite into orbit.

EAST AFRICAN TEA EXPORTS IN 1950 WERE THE HIGHEST FOR FIVE YEARS

TEA exports from Kenya, Uganda and Tanganyika during last year were the highest for five years. The 1950 total was 12,579,000 lb., which has only twice before been exceeded—in 1948 when 12,465,000 lb. were exported and in the record year of 1942 when the two countries together exported 14,041,000 lb.

Last year's figure represents a 25 per cent increase over the 1949 total.

The destination for the largest amount of 1950 East African tea was Canada, the Sudan being second followed by the United States and the United Kingdom.

In 1950 Kenya exported 9,172,000 lb. more tea to countries other than the United Kingdom than she did in 1949. The total was 3,187,000 lb.

She exports to the United Kingdom increased 134,000 lb. to make a total of 3,935,000 lb. The total Kenya exports for the year means an increase over the 1949 figure of 1,771,000 lb.

Canada exported 220,000 lb. less to other countries, but 49,000 lb. more than in 1949. Thus she exports to other countries 269,000 lb. more than in 1949 to an amount of 2,014,000 lb.

Exports for Tanganyika, which increased 8,000 lb. to 88,000 lb., were 25 per cent more than in 1949. The United Kingdom took 47,000 lb. more than in 1949 and 269,000 lb. more than in 1948.

The Ministry of Food has announced that it will continue to give priority to the export of tea.

PERSIA—WITHOUT ANGLO-IRANIAN

PROBABLY the main trouble in Tehran is that not enough Persian politicians have ever seen the redoubt of the British. The climate in the south is bad and the people of Tehran have always regarded these southern politicians as barbarians and foreigners.

Can Persia afford to throw away £40 million a year? Can one of Asia's most backward areas compete with the West in the world markets?

David Temple Roberts discusses problems of nationalisation of the oilfields of Persia and the political troubles that may lie ahead.

A general view of the new and modern building in Persia where the European employees work.

WANTED—A DEERSTALKER HAT AND INVERNESS CAPE

For the Festival's Sherlock Holmes

anyone has a battered deerstalker hat or a long heavywood pipe he is willing to part with for a few months there are some people in London who would be glad to hear about it.

The pipe and hat are needed to complete a set of Sherlock Holmes' personal belongings to be used in a special exhibition devoted to the great sleuth.

Anything else needed in Sir Arthur Conan Doyle's famous detective stories would also be welcome.

A replica of Holmes' deerstalker hat and pipe are being made by the exhibition, but the original items would be particularly valued. If anyone is willing to accept, they must send an authority check on a postal order or a cheque payable to the exhibition.

The exhibition is open from 11 a.m. to 5 p.m. daily, except on Sundays and public holidays. It is held at the Royal Albert Hall, London, W.2.

First trees planted in Jerusalem Hills memorial forest

The first trees were planted in the Jerusalem Hills memorial forest on Monday.

The trees were planted by the British and American forces in the hills overlooking the city of Jerusalem.

The forest is a memorial to the fallen soldiers of the British and American forces who died during the 1948-49 war in Palestine.

The trees are being planted in the hills overlooking the city of Jerusalem, which was captured by the British and American forces in 1949.

ANOTHER K.O. VICTIM FOR TURPIN

Brown of America, lasts two rounds

RANDOLPH TURPIN, British and European middle-weight boxing champion, continued his succession of quick wins at Birmingham on Monday when he stopped Billy Brown of America in the second round of their scheduled ten-round contest.

Brown, one of the best fighters in Britain, had been defeated by Turpin in the first round of their first meeting in London on August 25, 1949. Turpin, who is now 27, is a professional boxer and has won several world titles.

Boxing a costly sport in Uganda

Boxing is a costly sport in Uganda, and many young men are discouraged from taking it up because of the expense involved.

The cost of boxing gear, including gloves, shoes, and a good trainer, is high, and many young men cannot afford it.

However, boxing is a popular sport in Uganda, and many young men are taking it up as a hobby.

SWEDEN MAY BE COMING POWER IN TENNIS

Success no country's monopoly for long

(by A. J. Mottram)

WE are so used to the continued success of America and Australia in lawn tennis that we sometimes forget the wider interest the game enjoys internationally. The Davis Cup competition, whose opening rounds begin again this month, has a worldwide appeal and as many as thirty different countries take part.

With this in view one should remind ourselves that unless we put the monopoly of any one country for long, Great Britain has her run of successes in the 1950s following several years of world domination by 1950s, four famous French players—Boutar, Brugnon, Lavorgne and Cochet.

Since recently Jack Kramer extended the American experiment after the war and now, in September, when the Wimbledon Cup opens, we are again being reminded of the possibility of other countries.

COMMISSION RECOMMENDS BETTING LAW CHANGES

Gambling not a factor in serious crime

A GOVERNMENT Commission of Enquiry has recommended that gambling in this country should be legalised. The commission, which was set up in 1947, has found no support for the view that gambling alone is the cause of serious crime.

The 100-page report discloses that 10 million shillings were spent on gambling in Kenya in 1949. The commission estimates that the legalisation of gambling would result in a saving of 500,000 shillings annually in law enforcement costs.

SUBMARINE STUCK ON SEA-BED

Rescue ships stand by EFFORTS TO FIX POSITION OF 75 TRAPPED MEN

British Navy divers desperately yesterday to pinpoint the sinking position of a submarine stuck on the bottom of the Channel at a depth of about 200 ft. with 75 men trapped.

Four signals and four rescue boats were picked up by searching the sea surface. The search was hampered by fog and high winds. The men were rescued and taken to hospital. The submarine was raised and the bodies of the trapped sailors were picked up if they could be saved.

While the search for survivors came to the surface, the rescue operation was hampered by fog and high winds. The men were rescued and taken to hospital. The submarine was raised and the bodies of the trapped sailors were picked up if they could be saved.

Although some believe the rescue operation is an exaggerated American propaganda device, the majority believe that Britain was a significant part of the rescue operation.

Now there are suggestions that the rescue operation is an exaggerated American propaganda device, the majority believe that Britain was a significant part of the rescue operation.

The Grocer's Plight

To the Editor: "E.A. Standard" Sir—At the end of your Saturday article, Mr. Krutskie is reported as saying a few cents at a time is 50c per cent. Everyone I imagine will agree that this is not too high.

When one sees a grocer's account being paid at 14 to 15 and ordinary prices at 12 to 15, it is not too much to think that a 20 per cent increase would be a fair price to pay for the extra cost.

A man who is not a grocer but who has been in the business for some time will tell you that the present situation is not too bad.

It is to be hoped that such sides of the question will be given as to what will be the result of the present situation.

THE SPORTSMAN'S PARADISE

Official helps finance in Madagascar

MADAGASCAR—the sportsman's Paradise! That is the impression of the island that M. Roger Estel, Commissioner of Sport in Madagascar, left with the East African Standard in an interview this week.

The Commissioner is a regular sportsman, and he has been in Madagascar for some time. He has seen the island from the inside, and he has seen the sportsman's Paradise from the inside.

Madagascar is a beautiful island, and it is a sportsman's Paradise. It has a beautiful climate, and it has beautiful scenery. It is a place where sportsmen can enjoy the best of both worlds.

MEMBERS OF STAFF SHARED MY VIEWS ON COMMUNIST CHINA

WASHINGTON, April 18 (AP)—President Truman, addressing a joint session of the United States Congress, called for a total blockade of Communist China, and announced that he had ordered the United States to send military aid to the Nationalist Government in Formosa. He said that the United States would not permit Communist China to become a member of the United Nations. He also announced that he had ordered the United States to send military aid to the Nationalist Government in Formosa. He said that the United States would not permit Communist China to become a member of the United Nations.

LEAVE FOR BILL TO BE INTRODUCED

Union Assembly's decision

THE GOVERNMENT has decided to introduce a bill to provide for the introduction of a new constitution for the Union of South Africa. The bill is expected to be introduced in the Union Assembly in the near future.

MR. CHURCHILL ATTACKS PACT IN A LAMENT
Responsibility should be shared, he says
MR. CHURCHILL, in a speech in the House of Commons, attacked the proposed pact between the United States and the Soviet Union. He said that the pact was a betrayal of the principles of the Atlantic Charter and that it would lead to the domination of the Soviet Union in Europe.

BRITAIN AND PACIFIC DEFENCE

Foreign Secretary answers critics

MR. BEVIN, Foreign Secretary, answered critics of the British defence policy in the House of Commons. He said that the British government was committed to a policy of collective security and that it would continue to support the United States in its efforts to contain Communism.

RAINS CAUSE MORE HAVOC

Landslide delays Nairobi train

A MAJOR landslide in the mountains near Nairobi has caused a delay in the train service. The landslide occurred on the night of April 17 and has caused significant damage to the railway tracks.

Department of defence issues reply

THE UNITED STATES Department of Defence has issued a reply to a question raised by the House of Representatives. The reply states that the United States is committed to a policy of collective security and that it will continue to support the United States in its efforts to contain Communism.

In normal way

With minority

THE GOVERNMENT has announced that it will continue to operate in a normal way despite the presence of a minority in the Union Assembly. The government has expressed confidence in its ability to carry out its duties.

New attempt to end nine-week dock strike

MR. EDEN, Prime Minister, has announced a new attempt to end the nine-week dock strike in London. He said that the government was committed to a policy of collective security and that it would continue to support the United States in its efforts to contain Communism.

Mr. Eden's plea

MR. EDEN, Prime Minister, has made a plea for peace in the House of Commons. He said that the world was in a state of tension and that it was essential for the United States and the Soviet Union to work together to maintain peace.

Conference on Rhodesian questions

Picks and shovels

A CONFERENCE on Rhodesian questions is expected to be held in London in the near future. The conference will discuss the political and economic situation in Rhodesia and the role of the United States in the region.

Two gateways

TWO NEW gateways have been opened up for the East African Standard. The gateways will allow the newspaper to reach a wider audience and to provide more news and information to its readers.

Fatal injury

Jambo Clubs in Britain

In the next pages of this week's edition of the East African Standard, we shall have a special feature on the subject of the "Jambo Clubs" in Britain. A special report of the activities of these clubs, which are now being formed in various parts of the United Kingdom, will be published in the next issue of the Standard. The clubs are being formed in order to help the East African community in Britain to overcome the difficulties of life in a foreign country. They are also being formed in order to help the East African community in Britain to overcome the difficulties of life in a foreign country.

Powerful monarchy

The monarch of the United Kingdom is a powerful figure in the country. He is the head of the state and the symbol of national unity. He is also the head of the Church of England. The monarch's powers are limited by law, but he still plays an important role in the country. He is also the head of the Commonwealth of Nations.

Causes of illness

There are many causes of illness. Some are due to germs, some to bad habits, and some to accidents. It is important to know the causes of illness in order to prevent them. Some of the most common causes of illness are bad diet, lack of exercise, and stress.

UGANDA—A VACUUM OF DISCONTENT

The first of a series of articles by a special correspondent of "The Times" who recently visited East Africa.

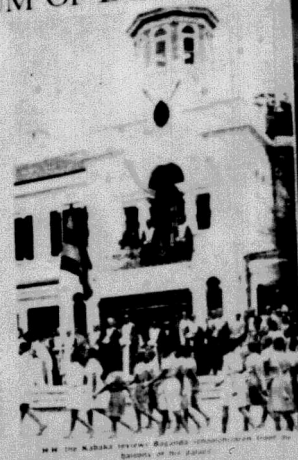

UGANDA represents a half-century of British rule in East Africa. It is a country of great natural beauty and rich resources. It is also a country of great political and social progress. The British have done much to develop the country and to improve the lives of its people. However, there is a growing feeling of discontent among the Ugandans. They feel that the British have not done enough to help them to overcome the difficulties of life in a foreign country.

VITAL LEAGUE MATCHES TODAY

Amateur and Scottish F.A. Cup Finals

With a week to go to F.A. Cup Final day both Blackpool and Newcastle United are likely to "run away" this afternoon with a view to avoiding further agonies. Some of their players are already virtual non-starters for the final.

Blackpool go to Sheffield Wednesday—who beat Derby County by a 5-0 goal margin in seven on Thursday—may take a point from the finalists. Newcastle who lost at home to Bolton the same day and are off form, look like going down, at home yet again, to Manchester United.

Polishman Holton, who played the championship in January, will be the main attraction. He has been playing in the first division for Blackpool. Holton is a very good player and he will be a great asset to the team. He will be a great asset to the team. He will be a great asset to the team.

Preston should win

Kenya Meat Commission

In Rhodesia it is virtually a standard practice that the strategic capital was allocated by Government and was not negotiable, but even the Child Storage Commission, for instance, has not obtained any money from the Government, but has had to raise the capital required from the private sector. It is not clear why the Kenya Meat Commission, which is a Government department, should be in a position to raise the capital required from the private sector, but it is not clear why the Government should not be able to do so.

The Kenya Meat Commission has been set up to regulate the meat trade in Kenya. It is a Government department and is responsible for the supply of meat to the public. The Commission has been set up to regulate the meat trade in Kenya and to ensure that the supply of meat is adequate and of good quality. RESIGNATION OF MR. BEVAN

Protest over the Budget
SPLIT IN THE LABOUR PARTY MAY PRECIPITATE A GENERAL ELECTION

Mr. Bevan's resignation of the Budget, which he announced in a speech in the House of Commons last night, is based upon a scale of military expenditure for the coming year which is physically unobtainable, according to the Government's own figures.

Mr. Bevan also announced that the Budget because it represents a grossly excessive increase in the cost of living, and because it is based upon a scale of military expenditure which is physically unobtainable, he has taken a personal decision to resign from the Government.

The Labour Party's reaction to Mr. Bevan's resignation is expected to be a major factor in the general election which is expected to be held in the near future.

The tenders must be accompanied by a deposit of 10% of the estimated value of the contract.

Spring spell lifts Europe's harvest gloom

DRY sunny weather now spread over most of Western Europe has raised farmers' harvest hopes, reports from various countries indicate. In Belgium a major improvement in the outlook for wheat and barley crops was reported after a period of continued spring sowing and may saw the harvest January and February. Reports from other areas reveal that the weather has been favourable for spring sowing and that the wheat crop is expected to be a bumper one.

COFFEE SPECIALITY FOR FESTIVAL OF BRITAIN
Pleasing the overseas connoisseurs

NOT being arrived from the Ruira estate, Mr. F. Vinter, vice-chairman of the Kenya Coffee Board, put a leading question to the Coffee Buyers Association and other experts who gathered in the Grosvenor Hall in London to announce their final quality awards which is being launched in conjunction with the centenary of the Festival of Britain on the South Bank site.

Looking to Kenya

Kenya's coffee has been a success story since the late 1930s. The country's coffee output has increased from 1,000 tons in 1930 to over 100,000 tons in 1950. The coffee industry has been a major source of income for the country and has provided employment for many thousands of people. The coffee industry is expected to continue to grow in the future.

Blending, brewing

Blending and brewing of coffee are important aspects of the coffee industry. The quality of the coffee depends on the way it is blended and brewed. The coffee industry is constantly working to improve the quality of its products and to provide the best possible coffee to its customers.

AUSTRALIA'S GOLD-MINING INDUSTRY REACHES ITS 'MOST CRITICAL STAGE'

A WARNING that many Western Australian gold mines might close and not reopen has been given by Senator Vincent, who comes from the gold-mining town of Kalbarri in Western Australia, in the biggest gold-producing State in Australia.

Speaking in the Senate, Senator Vincent pointed out that the "only way to prevent the mines closing was for Federal and State Governments to give them strong support."

He added that the gold-mining industry had never seen a more "critical stage" despite the fact that gold was producing more value than it has ever before. Among the reasons for this, he said, were the high cost of production and the low price of gold.

Senator Vincent said that the gold-mining industry was being "squeezed" between the high cost of production and the low price of gold. He said that the industry was being "squeezed" between the high cost of production and the low price of gold.

British moves to conserve nickel stocks

BRITAIN has a grave shortage of nickel, tungsten and molybdenum, and conservation of these metals is being urged by the Ministry of Supply, Mr. George Wilson has stated.

Nickel supplies for strategic purposes will be reduced and the use of the metal in the home will be restricted. Mr. Wilson said that the Government was taking steps to conserve these metals.

CITY ROADS

The unusually heavy rains have found the swimmers in the main drain and minor drains. The City Council which means the taxpayers may have a larger bill than usual for repairs.

The monthly meeting today affords an opportunity to make a statement for the information of the Council and citizens of those attending to be said additional to the general comment made by His Worship the Mayor in our columns today.

Patrons and employees at the reception of the actress, Mrs. Mervyn Cowie, at the Empire Theatre, were welcomed by the Mayor and the City Council. The City Council, which means the taxpayers, are paying more and more for the maintenance of the city's roads. AFRICA—AND A COLONIAL ARMY

Discussions are now going on in Britain to develop the Imperial Forces in the Commonwealth, particularly in Africa. Here a contributor to 'The Economist' analyses the position as it is today.

Although the topic of a colonial army has been discussed in the past, it has never been seriously considered. The British Government has always been reluctant to consider the possibility of a colonial army. The British Government has always been reluctant to consider the possibility of a colonial army.

WHAT ENGLISH CRICKET NEEDS

Way to build a team of world-beaters

by Len Hutton

THE South African team, led by their old wicket, Dudley "Woodie" Hendon, is now in England. At the end of the year the West Indians, after their successful English tour last summer, go to Australia.

This, then, is a good time to assess the chances of England and her principal international opponents in cricket.

If England was to maintain the improvement shown during the recent Australian tour, a serious 1954-55 tour might be possible.

Some, however, say that the cricket of the 1950s is a far more exacting test of a batsman's ability than that of the 1940s.

Did the English show signs of being a good power in the 1950s? The answer is that they were not.

Some, however, say that the cricket of the 1950s is a far more exacting test of a batsman's ability than that of the 1940s.
