SWAN SONG OF SOCCER TODAY

Outstanding problem is Div. 1 relegation

THE problems remain to be settled by the results of this afternoon's English league matches, which constitute the swan song of the 1953-54 season. Principal interest will be in the Division I relegation area, in Everton, Chelsea and Sheffield Wednesday providing from among them the two sides to go down.

Tottenham Hotspur are league champions and Manchester United runners-up. Preston are Division II champions and Manchester City's misadventure draws them back to Division I. Chesterfield and Grimsby Town go down to Division III. Bolton Wanderers (North) were already relegated and Manchester City's misadventure will send Nottingham Forest's return to Division II.

In Division III, Northern Ireland's Rangers are runners-up and the Scottish League's Dundee are runners-up. The relegation area is made up of the bottom three of each of the divisions.

Scots issue settled
All Scots' affairs have been settled by the results of the matches. Rangers are runners-up and Dundee are runners-up. The relegation area is made up of the bottom three of each of the divisions.

SHIPMENT OF CEMENT TO EAST AFRICAN PORTS

London move to speed dispatch

DIFFICULTIES having been experienced with the shipment of cement to East African ports, the London Chamber of Commerce is in a hurry to get the matter settled with a view to ensuring that shipments are made within a reasonable period.

The emphasis on getting the cement to the ports is due to the reported practice in some quarters of having booked the cement for transport before the necessary permits had been obtained. This has caused considerable delay in the shipment of cement to the ports.

Schoolboy motorist fined

RUSSIA NOW AN OLYMPICS MEMBER

Negotiations go smoothly at Vienna

RUSSIA has been admitted to membership of the International Olympic Committee by the Olympic Congress meeting in Vienna.

An Associated Press correspondent reports that the Russian Olympic Committee, headed by Leonid Brezhnev, had been in Vienna since last week negotiating the terms of its admission to the IOC.

The Russian Olympic Committee had been suspended from the IOC in 1955 because of its refusal to accept the Olympic Charter and to allow its athletes to compete under the Olympic flag.

The Russian Olympic Committee had also been suspended from the IOC in 1958 because of its refusal to accept the Olympic Charter and to allow its athletes to compete under the Olympic flag.

KENYA'S 5/- COMPANY TAX BECOMES LAW

Third reading by Legislative Council

THE Bill raising Kenya's Company Tax from four shillings to five shillings in each pound of chargeable income yesterday received its third reading by the Legislative Council in Nairobi and became law. There was no debate as the Bill passed through committee stage and third reading. But European Elected Members who have opposed it from the start formally voted against...

During the earlier debates on the Bill, the Council Tax representatives of the Government and African Members opposed the Bill. They argued that the Bill would increase the tax burden on small businesses and that the Government should first address the needs of the African population...

PROBLEM OF CONGESTION IN KENYA COURTS

Point to be raised in Legislative Council

MR. CLIVE SALTER, Member of the Legislative Council, proposes to draw attention by means of a question during the current session of Council to the congestion of litigation in Kenya's Courts.

Advocates claim that because of delays in hearing cases their clients are put to unnecessary expense and great hardship and in many cases, are in effect ruined.

Mr. Salter will raise the matter with the Hon. Mr. Jeeva, Minister of Law, during the current session of Council in August, 1961, and it is expected that the Government will be asked to consider the matter.

The Hon. Mr. Jeeva, Minister of Law, has indicated that the Government will consider the matter and will take steps to reduce the backlog of cases in the courts.

Cost of Living

To the Editor, E.A. Standard—
 Sir—The Press has given great publicity to the vexing problem of the cost of living. It is my wish to make a few remarks on this subject. I would divide the cost of living into two parts: (1) the cost of living in the town, and (2) the cost of living in the country. DEVELOPING THE FOREHAND DRIVE

Footwork: timing the basic essentials

by A. J. Mottram

To most players—and especially those who are in the early stages of learning lawn tennis—the forehand drive seems more easily than the other basic strokes for players to prefer. This is because a different forehand drive may be used, have only a long way in the back area players will be unable to practice for a long time. The forehand drive is the stroke which is most easily learned and is the one which is most often used.

The picture shows A. J. Mottram after completing a forehand drive into which he has put a great deal of power.

ANOTHER WELTERWEIGHT TITLE MUDDLE

U.S.A. wants to have cake and eat it

by Freddie Mills

WELL, Sugar Ray Robinson is back in Europe and one must admit he is as willing as they make them. On his way to meet the Frenchman Marcel Sugar announced quite happily that he will defend his middleweight title against Randolph Turpin and his welterweight title against Eddie Green.

Robinson, of course, denies that he has forfeited his world welterweight title by taking the middleweight crown. It only remains for Sam Barry, who is Eddie Green's manager, to accept Ray's challenge for the welterweight title to be complete.

But the fact that Robinson would so soon take the above up to the prize fight promoters is a little more than a little surprising. It is a little more than a little surprising that Robinson would so soon take the above up to the prize fight promoters is a little more than a little surprising.

The admission of West Germany to the Olympics is a significant step towards the reunification of Germany. It allows athletes from both the East and West to compete together, which is seen as a positive sign for the future of the country.

Standard golf correspondent. It was most unfortunate that the Weston Charitable Cup Open mixed competition at Thika on Sunday had to be curtailed owing to the morning's rain and reduced to 18 holes of the afternoon round.

John Stewart, who has never won the Weston Charitable Cup Open, was the champion of the day. He was joined by the other members of the winning foursome, which included Karen Stewart, who is a very well-known golfer in Kenya.

The competition was held at the Thika Golf Club and was a very successful one. It attracted a large number of spectators and was well-received by the participants. The results of the competition are as follows:

RAIN PREVENTS ANY PLAY IN MATCH AT FENNER'S

DESPITE the fact that the rain was not as heavy as it had been in previous years, it was still enough to prevent any play in the match at Fenner's. The match was postponed until a later date.

The match was a very important one and the postponement was a disappointment for all concerned. It is hoped that the weather will improve in the coming days and that the match can be played as planned.

ROAD AUTHORITY DECIDES ON PRIORITY WORK

Chairman outlines 15-year plan

STANDARD Correspondent NAIROBI

KENYA'S Road Authority would probably give higher priority to any project put forward by a local government body which would definitely forward the development of secondary roads towards primary roads, suggested General C. C. F. P. Chairman of the Road Authority, when he spoke to members of the Association of District Councils of Kenya meeting at Nakuru.

Referring to the 15-year plan for primary roads in the Colony, General Fowkes said that at the latest meeting of the Authority it was agreed to put the plan immediately into practice so far as the first two or three and a half years were concerned.

The Authority agreed to begin by concentrating the work between Mombasa, Kisumu, Malindi, and the Mombasa Free Zone and the Kisumu Free Zone.

One of the main projects to be undertaken during the first year of the plan is the construction of the Kisumu-Malindi road. The Authority has decided to concentrate its efforts on this road, which will be completed by the end of the year.

ON TOUR

The Secretary of State for the Colonies has made a good start on his first tour to East Africa. Reports from our Uganda correspondents are not only complimentary but also indicate that Mr. and Mrs. Selous are being treated as the African Ambassadors both modern and traditional. There is something pleasant and refreshing in the fact that the Secretary of State is spending his first tour in Africa. The African Protectorate something that is being done in the great hydroelectric project on the banks of the Nile and the fact that the Secretary of State is spending his first tour in Africa is a great new cement works at Tororo which will be a developed enterprise vital to the development programme of the country is taking shape.

But though these examples of the industrial estate are evidence of the profound change which has occurred East Africa under the attention of the British people both here and in the United Kingdom, and the fact that they are not all the same. However, they are a part of a new era which is being brought to the continent by the British people. Africa which has been a long time in the making.

It is not all that has happened in the past few years. It is not only the great development of the continent but also the fact that the British people are now taking a more active part in the continent. The British people are now taking a more active part in the continent. The British people are now taking a more active part in the continent. KABETE SIDE WIN FIRST EMLEY CUP

An odd-goal victory over Post Office

KABETE T. AND T. SCHOOL 2 POST OFFICE 1
A GOOD crowd was present at the Nairobi African Stadium on Sunday to see the first Emley Cup final, in which Kabete Technical and Training School beat Post Office by the odd goal in three.

Kabete, whose team includes some Leazes School players, are the first to have their name engraved on this knockout trophy which is for Commercial Football League sides, and the score about representative superiority. They set Non-Sid at half-time.

Post Office took the Kabete side who came off the ball and with a message to all general fans, they were treated for the first time to the trouble and an extra always seen in the more casual football without the foundation danger underlining.

As in other fixtures, the substitutes were in to see the standard of their opponents and to receive and both Kabete's side in the culture of both sides would have been expected to have a more professional appearance. The first goal was scored by Kabete's forward, who had been brought to Kabete, who had played for the Post Office.

The second goal was scored by Kabete's forward, who had been brought to Kabete, who had played for the Post Office.

Another lapse

Another lapse in the Kabete side was seen in the second half when they were unable to score a second goal. The referee, however, was in good luck and an extra always seen in the more casual football without the foundation danger underlining.

Few league games
