MINISTER REFUSES REASON FOR BAN

Prohibition on M.P.'s entry 'not unique'

Government had no intention of disclosing why it had made the British M.P. and **dadu** a **constitutional adviser**, Mr. Freddie Bennett, a **Member of Parliament** for **East Africa** and **Kenya** Affairs, Mr. Mbiya, told the **House of Representatives** yesterday.

The Leader **of the Opposition**, Mr. Ngila, had said the refusal to **appoint Bennett** at the independence celebration **was** for the **beginning of tyranny** and **dictatorship**.

Mr. Mbiya said the Government was **sure** to **win** the **debate** as **it** **was** **clear** that **the** **Kenya** **citizens** **and** **overseas** **supported** **the** **ban**.

NOT A KENYA CITIZEN

The Leader of the Opposition had made reference to referring to the Constitution and the movement of people in Kenya.

Mr. Bennett, who is Conservative Party member, was not a Kenya citizen and there was no provision of the Government interfering with the person in the country.

On the other hand this friendship did not entitle anyone to enjoy Kenya.

Other friends of the Opposition had also expressed their disapproval of the Government's action in appointing Mr. Bennett as a constitutional adviser. They said that Mr. Bennett was not a Kenya citizen and there was no provision of the Government interfering with the person in the country.

BETTER HARMONY

The Kenya Government was responsible for the security and stability of the country and it was not necessary to give any special treatment to Mr. Bennett.

Mr. Ngila said that the Government should be more open to the views of the Opposition and that it should be more concerned with the welfare of the people.

He said that the Government should be more open to the views of the Opposition and that it should be more concerned with the welfare of the people.

NOT DENIED

He said that the Government should be more open to the views of the Opposition and that it should be more concerned with the welfare of the people.

MINISTER REFUSES

BRITONS SELL OF SOMALI JAIL

Sloop's crew beaten in desert barracks

STANDARD STAFF REPORTER MALINDI
British businessmen from Southern Rhodesia anchored safely in Malindi after a grueling voyage from Aden in their 20-ton sloop on a voyage interrupted by ten days in a Somali jail for which they were ordered to sail without food.

Yesterday, they described their ordeal. They rounded Ras Hafun—the most easterly tip of Africa—and put into the Somali port of Dante to replenish their water supplies. Police boarded the sloop to examine their papers.

When they refused to give up their passports—all British—the police left, but returned in strength the next day and took three of them to jail. After a night spent lying on the concrete floor they were transferred to an isolated police barracks 95 miles away.

Nothing around for miles

There seemed to be nothing around for miles except desert and more desert, the owner of the sloop, a 25-year-old salesman, Mr. Bill Lacey, said. They were kept in the barracks for 10 days, receiving only a few drops of water and a portion of rice each day. They were given beds and allowed into the courtyard for a few hours daily, heavily guarded by police armed with Stenaguns.

When they were taken back to their cells they were ordered to sleep, and when they were beaten, they were beaten with sticks.

The man set on board, a 23-year-old salesman, Mr. Bill Lacey, said. They were kept in the barracks for 10 days, receiving only a few drops of water and a portion of rice each day. They were given beds and allowed into the courtyard for a few hours daily, heavily guarded by police armed with Stenaguns.

ALLSOPPS Caledonians put up a brave fight

NO diving heads or looks of shame were needed as eleven Caledonians players walked off the Donbasen Stadium pitch last night to receive their Allsopp Cup runners-up medals. Last season, as all but the second best expected, had won the trophy for the second successive year but they had been beaten for a 3-1 victory.

That the Lions were worthy winners was compensated for from three goals, two of them free efforts, they should the post twice and several times forced McGinnies to show his goalkeeping prowess. But there were several aids to satisfy their respective appetites for Hepplewhite top-scoring of the ball, three goals for cupped inside the top-posture, when the opposition is well truly stranded.

Caledonians had no scoring opportunities. They could not catch the Lion fitness and speed in the half and their forwards were frustrated throughout. Three goals were scored in the first half, but the Lions took up more credit than finished with a goal at McGinnies' feet.

Marshall, goal and centre-back, and Parsons, looking on just last night to defend was not going to have much to do.

TUG OF WAR, FOLLOWS Kairo overjoyed but anger in Syria

Kairo became the centre of an ideological tug of war between the Baath Party based in Syria and President Nasser of the Arab Republic, after the former "Gureud" President, Field Marshal Salah Arif, seized power with Army backing.

Kairo "pulled out all the stops" to give full support to President Arif's coup, while warning of the dangers of outside intervention in the Iraqi situation. The U.A.R. would not "stand idle" in face of such a move, it was stated.

At the same time, the Syrian National Revolutionary Council announced in no less strong terms its support for the Baath Party in Iraq, which had apparently been ousted from power by the coup. Syria's armed forces were alerted.

Syria's support was clearly for the faction led by the ousted Vice-Premier, Mr. Salah Salih, recently exiled from Damascus, and not to the opposing faction led by the former Minister, Hafez Awad, exiled to Beirut.

Africans choose seven to end border dispute

TANGANYIKA is among seven nations elected by African Ministers in Addis Ababa to form a commission to prepare solutions for the Algeria-Morocco border dispute. The other countries are Ethiopia, Sudan, Mali, Ivory Coast, Senegal and Nigeria. The decision was announced after an hour's private discussion between delegates, followed by lobbying. An Algerian spokesman later expressed surprise at the election, saying: "I wish to tell you that we are satisfied with the composition of countries whose names were mentioned in the communiqué and who have always received any new African initiative with the commission."

SPANISH authorities have clamped a massive security curtain around the forthcoming movement to Andalus of an almost priceless collection of paintings by the Spanish artist Francisco Goya. The existence of an international group of art thieves and the possibility of a theft of Goya's work has been the subject of a report by the Spanish Interior Ministry in Madrid yesterday. The group, which numbered one of Spain's national museums, will be the subject of a report by the police in the next few days.

HOCKEY TOUR BY E. GERMANY CONFIRMED

Kenya greens are not too fiery

I AM not sure what both writing to the Press has done to the matter. "Kenya" is the new name for "Kenya" that I don't know. What I can say is that the Kenya Hockey Federation was confirmed by the Kenya Hockey Federation, saying they were willing to come in February or March.

Kenya early next year. This was definitely yesterday in Nairobi when the secretary of the Kenya Hockey Federation, Mr. Shahjahan Singh, received a letter from the East Kenya Hockey Federation, saying they were willing to come in February or March.

On their short tour the East Kenya Hockey Federation will consist of three or four teams. They will consist of the Kenya Hockey Federation, the Kenya Hockey Federation, and the Kenya Hockey Federation. They will consist of the Kenya Hockey Federation, the Kenya Hockey Federation, and the Kenya Hockey Federation.

MOWLEM

... the main building contractors for the Brewery Extensions, congratulate Allsopp's on this new development.

THE MOWLEM CONSTRUCTION COMPANY LTD.

When a product is popular...

By DEREK WATKINS

WHEN a product becomes popular, when it starts "making itself" and demand far exceeds supply, then any board of directors in the world will have a happy headache.

This happened in Kenya last year in the case of the British business carried on by Allsopp (East Africa) Ltd. at Nairobi.

Problem solved
Working at maximum output, the Nairobi brewery managed to keep everyone satisfied most of the time. It had not made up the "backlog" of beer.

Now the firm has solved the problem with a new £200,000 extension project aimed at increasing Allsopp's production by a third again.

Brewery will not be hurried
MILLIONS of bottles of Whitelap and Pilsner start to be ordered when Kenya starts to drink black beer.

More and more people are drinking Pilsner and White Cap because they like it. They like the quality they like the taste.

Pilsner has built its phenomenal success in only three years. And this is why it is retaining exactly the same...

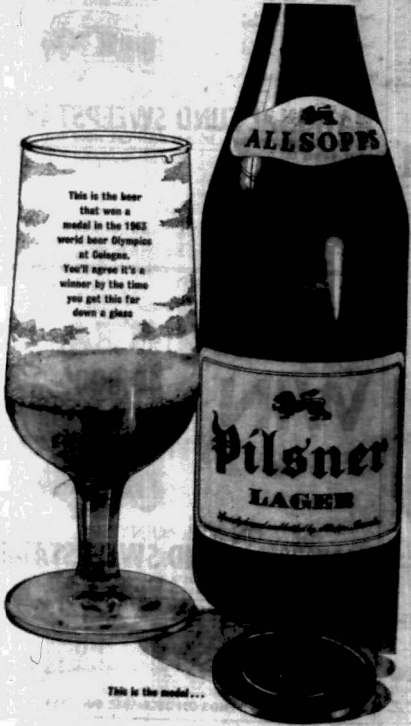

When it got after every brewer in Kenya for "Allsopp's" beer, the firm was forced to increase its output.

At Nairobi, the firm's output is still increasing. It is still producing 100,000 gallons a week.

And Pilsner and White Cap are still popular. The firm's output is still increasing.

After all it was the market that was the source of the firm's success.

At work on the eight new stainless steel storage tanks made for Allsopp (East Africa) Ltd. as part of the brewery extension programme. These tanks are manufactured in the Nairobi workshops of Industrial Plant Ltd.

Property fund will deal with urgent cases first

Land established by the British Government to buy residential plots in Kenya on compulsive grounds will start operations this week.

Mr. W. Urughar, who with Sir Ferdinand Cavendish-Bentinck and the Standard Bank form the trustees, said yesterday that cases would be dealt with according to their degree of urgency. The trust, to be known as the Compulsory Fund was hoped would be allocated £300,000—less than that on a revolving fund—so that the money can be used in several times.

Property will be bought from the owners and the trust will then endeavour to sell it again so that the money will be released for further use.

NEW FROM SADOLINS

A PAINT ADDITIVE THAT PREVENTS MOULD

Mould no longer need be an unsightly and dangerous problem where damp conditions prevail (caused by steam, condensation, etc.). C.U.S. a liquid paint additive newly formulated by Sadolins, kills any bacteria that might grow.

C.U.S. is already widely used in the world-famous dairies, breweries and food producing factories of Denmark; the industrial field that it covers and benefits is unlimited.

In the home, too, C.U.S. has many uses—in the kitchen, bathroom, larder, nursery—anywhere that hygiene is of prime importance.

Sadolins C.U.S. is intended for use only with water-based paints, i.e. plastic paints, distempers and limewashes. It readily mixes with all Sadolins water-based paints, and with most other brands. However, it is advisable to mix a small test quantity first when using manufacturers' products.

Available in 1 gallon drums (for industrial use) and 1 pint tins (for domestic use). 6% weight ratio is required on 1 pint C.U.S. to 1 gallon paint.

Play safe—where hygiene matters use Germ Killing C.U.S.

The Ministry, who was operating on a deficit, said that the Uganda Electric Board's annual report would be going out, and it was hoped that a satisfactory conclusion would be reached by the end of the year.

Mr. Kabbale said that he would meet the Kenya Minister in Nairobi on Tuesday. He said that the Kenya Government was not prepared to pay more than the present rate for power. He said that the Uganda Government was not prepared to pay more than the present rate for power.

Advice of official ignored

A FIG-Less row may develop at the next meeting of Mountain Unemployment Council following decisions of the council's health committee to make recommendations contrary to the advice of the Medical Officer of Health, Dr. G. D. Pannasari.

The decision taken at a committee meeting on November 4, concerns the registration of a private school and the appointment of an acting Chief Health Inspector.

In both cases Dr. Pannasari had advised that a refusal to be made in the committee minutes that the recommendations to the council were contrary to the advice. The first concerned the registration of the New Era High School in previous premises occupied by the Matunga Primary School.

SECURITY MATTER FOR FARMING BAN on M.P. 'not aimed at Kadu'

Order must be kept K.N.F.U. to be told

THE branch law and order are maintained throughout Kenya, normal operations will come to a standstill, the Nakuru and Nairobi branches of the Kenya National Farmers' Union will tell the union's members at a conference later this week.

City Notes

No. 2

T THE BREWING of City Lager or Tavern Ale is a delicate and intriguing process. Carefully selected malted barley is crushed and mixed with water in the mashing vessel. There it is subjected to a range of temperatures, stimulating the work of different enzymes and forming a variety of sugars from the malt. The resultant mash is pumped to the mash tun where the liquid 'wort' is drained from the spent grain.

The wort is now boiled with the choicest hops and, after clarification and cooling, our yeast cultures are added. The wort then ferments for about ten days in the fermentation cellar. The result is beer—but not the beer as you know it. It has still to be matured in storage tanks for about ten weeks before it can be filtered into the bright beer tanks from which it is bottled. Once in a bottle and pasteurized, it is the 'City' which delights your eye and palate with its aroma, refreshing tang and sparkling brilliancy.

Yes, a fascinating process—but without superfluous and patient attention to detail, and the skill of our famous Oranjohm brewers, it still wouldn't be the perfect beer that is 'City'!

Bill for Uhuru passed with 'warm wishes'

WITH the 'warm wishes of the entire British people' the House of Commons yesterday gave unanimous approval to the second reading (agreement in principle) of the Kenya Independence Bill. The Royal Assent to the Bill was signified.

During the debate, in which Members on both sides of the House expressed their good wishes for the independent Kenya, Mr. Sandys, the Colonial Secretary, announced that Mr. Malcolm MacDonald would stay on as Kenya's first Governor-General and paid a tribute to his work.

Mr. Sandys said he had been criticised for departing from the constitutional framework agreed at the London conference 18 months ago. But he said it was clear to him that certain of the arrangements agreed in 1962 were considered unworkable, and would have denied to the Government of Kenya the powers necessary to discharge its responsibilities.

£4½m. paper mill project for Broderick Falls

A £4,500,000 pulp and paper mill, which would save Kenya £1,500,000 in foreign exchange, is to be established at Broderick Falls in the Western region, the Minister for Natural Resources, Mr. Sagori, announced yesterday.

Consulting engineers commissioned by the Kenya Government in 1953 to explore the feasibility of such a project have reported that the mill would be a viable proposition. The Government is aiming at June, 1964, as a tentative initial production date.

In announcing the project, the Minister, accompanied by the Permanent Secretary, Mr. P. O. Hanyani, and the Chief Conservator of Forests, Mr. M. C. Akyell, said that since the early 1920s the Kenya Government had planted and approximately 160,000 acres of fast-growing pine and approximately 22,500,000 trees which were now approaching maturity. The re-forestation programme had involved about 6,000 resident forest workers.

While the market for large softwood timber was expanding, disposal of through- and sawn logs had presented a considerable problem and the Government had, for the last two years been considering the establishment of a pulp and paper mill to utilize this vast forest resources.

A Canadian firm, Canwood & Company Ltd., Vancouver, had been selected to design and construct an unbleached kraft pulp mill to supply the East African market.

Mr. Sagori said that East Africa imported 30,000 tons of paper of more than £2,500,000 value last year. The mill was being constructed for an initial production of 15,000 tons of pulp and 10,000 tons of kraft paper yearly.

The establishment of a mill, according to the requirements of industrial packing and assembly, would help in developing a middle class and creating a market for the paper. The mill was being constructed for an initial production of 15,000 tons of pulp and 10,000 tons of kraft paper yearly.

Parker

Who else but Parker could produce the perfect fountain? British design and precision engineering have achieved in the Parker Jotter, a truly outstanding writing instrument.

Take the 'ball' point. Parker offers a advanced steel ball, allowing the ink to flow into and around it. This gives smooth, unbroken writing—on pen, on photograph or other surfaces.

Take the fountain point. Every time you press the button, the Jotter will produce a distinct ring. This reduces the ink to a fine mist, allowing the Jotter to write on almost any surface.

And of course the Parker Jotter's point has an edge that is sharp and long-lasting.

FARMERS URGE TO STOP POLITICALS CAUSED N.P.

Stock theft action call at show

Standard Staff Reporter
Nairobi. — Government has yesterday urged to target politics and to support improving the economy of the country. The address was given by the president of the Royal Agricultural Society of Kenya, Mr. F. D. Mason, when he opened the Kikuyu Show — the last agricultural show before Independence.

Nearly 2,000 people heard Mr. Mason ask farmers to get on with farming and forget politics — and they also heard him say that he would be "horse dealing" and ask that the Government, in return, should stamp out the "terrible pests" of stock thefts and the insidious training of cattle.

Mr. Mason said that the B.A.S.K.'s important aim in developing Kenya would be most usefully played in steering clear of any political contention.

He continued: "We are, and should remain, a free association of farmers of all races, whose only ambition is to get on with our job to the best of our ability."

KENYA AT THE TOP

"Surely it is by holding competitions and field days and maintaining the stud books that we have placed Kenya quite undoubtedly at the top — and I hope we shall always hold our position as the first and plant breeding station for this side of Africa."

The time had come for farmers to stop wasting time talking about politics and get down to the real job of farming. It was undoubtedly their duty to give their support to the Government, and easily the most useful way of doing this was to improve their own stock.

It was his opinion that the Government should continue to subsidize the stud books and other services which were essential to the maintenance of a healthy and profitable stock-raising industry. It was his hope that the Government would continue to subsidize the stud books and other services which were essential to the maintenance of a healthy and profitable stock-raising industry.

Hawkers' ruin' traders

Nairobi. — A group of the Kenya Chamber of Commerce and Industry has today petitioned the City Council that it may market stalls for hawkers in the City. The petition was presented to the City Council by the Kenya Chamber of Commerce and Industry. The petitioners stated that hawkers were causing a nuisance in the City and that the City Council should take steps to regulate their activities. They suggested that stalls be provided for hawkers in certain areas of the City, and that the City Council should issue licenses to hawkers who used these stalls. The City Council is expected to consider the petition at its next meeting.

No 'crash training' for engineers

ALTHOUGH Kenya needed a considerable number of qualified engineers and technicians, there was no such thing as a crash programme for their training. "No speck of what some politicians have said is the present state of Kenya which is still in a state of chaos," said Mr. W. In'ara, said last night. He said that the Government should not attempt to rush the training of engineers and technicians, but should instead concentrate on providing the necessary facilities and equipment for their education. He also stated that the Government should encourage the private sector to invest in technical education, and that it should provide financial assistance to students who were unable to pay their fees.

PEOPLE who own houses which would be suitable for the use of Government guests during the Independence celebrations might not want to see their property in the Senate. Somalia accuses Ethiopia of shelling village

Yusuf Somali Prime Minister, Dr. Shermark, accused Ethiopia of aggression "marked by the bombardment of a border village last month by Ethiopian troops, who also torched the church there."

His Vice-addressing Heads of Mission in Mogadishu to reply to reports of aggression by Emperor Haile Selassie last month in the border area of the Province of the Emperor's remark that his country's patience was not without limits, was interpreted as an "obvious and direct" warning of this republic.

MORE MEN WANTED ON KENYA BORDER

Kenya should send more police to the Somali border to protect K.F.D. citizens against Somali attacks, the executive officer of the Northern Province United Association, Mr. Osman Abdihiy, said. He is the chairman of the Association's "Kenya branch" at Wajira Avenue, said in Mogadishu yesterday.

"When I heard the news I found that people were living in fear because the Somalis, who are ready to do it every night," Mr. Abdihiy said.

"Although the people are ready to co-operate with the Kenya Government, they fear that if they do so openly they would be either kidnapped or killed," Somali Army officers had come to the K.F.D. "confrontation" area, said in Mogadishu.

Officers provided

7th provision for the Somali Government has provided seven officers, three sergeants, who are armed with arms, swords and guns.

Mr. Abdihiy said that the Somali Government was ready to take the K.F.D. by force, even before the day.

"There is no aid of the Kenya Government's in this," Mr. Abdihiy said that he had handed in a list of people he thought were dangerous in the K.F.D. public, but the Government had not acted on it. He felt the Kenya Government had not acted on the Government's propaganda given to the K.F.D. area.

He named the Ministry of Home Affairs for leaving the K.F.D. area to the Government, and the Ministry of Defence for not acting on it to the Somali Government, without justification.

When the Premier of Uganda, Mr. Obote, said he would visit Africa this year, he was welcomed by President Nkrumah, Mr. Awolowo and Mr. Obote who are in Ghana as a member of the group which has been formed to study the situation of Africa.

Big swing to Left in Dundee

BRITAIN'S Labour Party swept to victory in the Dundee West by-election, turning a marginal 714 majority into a 4,854 lead over the Conservative Party candidate.

Political observers said the Labour victory was all the more impressive in percentage of the vote because it was secured by a 10 per cent swing to the Conservative poll for 8 per cent.

Labour had been expected to increase its majority, but not by such a wide margin.

Political observers said Sir Alec Douglas-Home's Conservative Party had been in a campaign to hammer home its "no nuclear deterrent" policy in a bid to win back the voters' support.

NO LOADING S.A. ARMS

The minimum length of the Waterbury Workers' Federation has decided to refuse to load any arms or ammunition bound for South Africa in a protest against the apartheid.

The branch raised on the Australian Council of Trade Unions to implement their plan to export to South Africa goods and the provision of a question paper was "not and not to be used."

GHANA IN ACCRA

GHANA CALLS FOR U.N. SOLIDARITY AGAINST PORTUGAL

GHANA has introduced a resolution asking the U.N. Security Council to consider "immediately" the question of Portugal's African territories and to adopt "necessary measures" to implement the resolution.

Co-operation year chosen by Assembly

THE General Assembly has designated 1963 the U.N.'s 20th birthday as World Co-operation Year.

The Soviet Union proposed that the Assembly mark the occasion by a "benediction" of the government.

The Assembly, unanimously adopted by acclamation a draft resolution marking an initiative proposed by Mr. Nkrumah, the Ghana Prime Minister, two years ago.

The resolution noted "with deep regret and great concern" the continuing refusal of Portugal and the United States to accept the right of self-determination to the people of Angola, Mozambique and Portuguese Guinea.

The Council is expected to take up the Portuguese question after it debates South Africa's apartheid policy, discussed on which it is due to begin next Monday.

The Portuguese "empire" in Africa would collapse overnight if the supply of arms to carry out the savage wars were stopped, the committee said.

The committee said the United Nations could not participate in Portugal's African territories "if the liberation struggle in Portugal's African territories is not supported."

PRESIDENT MURDER: THE EAST DEAD

Millions see shooting by club owner on future aid to Kenya

London talks

PRESIDENT KENNEDY'S alleged assassin, Lee Harvey Oswald, was himself shot in the stomach at point-blank range last night by a man identified by police as a striptease club owner, Jack Ruby.

A START on implementing plans for continuous aid to Kenya over several years will be made on Thursday when talks are expected to open at the Colonial Office in finance for the Central Region Land Settlement Commission.

He was rushed to hospital and died soon afterwards within a few yards of the emergency ward in which the President died on Friday. Doctors had fought to save his life.

It is understood that about 2,000,000 acres will require just under £3,000,000. The Kenya Finance Minister, Mr. M. N. Mutitu, is expected to announce the details of the aid to the K.A.R. also talks will be between £2,000,000 and £3,000,000. There may also be preliminary discussions on the £100,000,000 scheme which, Mr. Mutitu is expected to announce on Friday, is to be undertaken in the next few months.

As Oswald charged in the floor panted on a charge of murder. He was carried back to the police headquarters for emergency treatment. Police seized a man they said had fired the shot. Shots of "they've got a man" rang out above the pandemonium.

Parliament, under the present scheme will see the reporting of aid in the form of a grant-in-aid to Kenya. The Minister for Agriculture will be in the technical details on the Independence Bill. The Minister for Agriculture will be in the technical details on the Independence Bill. The Minister for Agriculture will be in the technical details on the Independence Bill.

He was taken to Parkland Hospital. Some of the crowd, told about the shooting of Oswald as they awaited his arrival at the county jail, shouted: "They ought to give the guy a medal."

Mr. Mutitu said that he was glad to see the details on the Independence Bill. The Minister for Agriculture will be in the technical details on the Independence Bill. The Minister for Agriculture will be in the technical details on the Independence Bill.

OL KALOU TO GET PRIORITY

Oswald, looking pale and motionless, was placed on a stretcher. He was taken to Parkland Hospital. Some of the crowd, told about the shooting of Oswald as they awaited his arrival at the county jail, shouted: "They ought to give the guy a medal."

THE British Government has accepted the OI (Kalu) tender as "priority number one" for the purchase of a group of 100,000 tons of fertilizer.

DEATH OF A PRESIDENT

Real African Standard, Monday, December 24, 1962

THREE SHOTS AND
FOUR HOURS CHANGED
HAPPINESS TO GRIEF

WRITTEN ON THE FACE OF HISTORY

THE full, shocking story told in a few faces. On Friday morning, only a few hours before he was to be shot down, President Kennedy appears (above left) on the wife, Mrs. Jacqueline Kennedy, is introduced to guests at a breakfast social. She smiles happily in acknowledgment.

Four hours later (above, left) the smile has been replaced by a shortened, averted look. He looked to dead, and with his clothes and stockings still covered with his blood, she is consoled by the President's brother, the U.S. Attorney General, Mr. Robert F. Kennedy.

Written on her face of his death America has a new President. The former Vice-President, Senator Lyndon Johnson (above), was sworn in by a cheering million. Judge Hughes, Mrs. Kennedy, still dazed but calm, was one of the witnesses.

Defiant and right-headed, an ex-Marine sharpshooter, Lee Harvey Oswald (left), is head-cuffed, covered and charged with assassinating the President. Oswald, who fled to Texas but who returned to America, has denied the charge.

The pain face of President Kennedy's ideological opponent in the Cold War, the Russian Premier, Mr. Khrushchev (below), reflects the sadness felt throughout the world at the assassination. With the U.S. Ambassador in Moscow, Mr. Roy Kahlir, Mr. Khrushchev signs a book of condolences.

ATMOSPHERE A KATALES

Talk was all of staying

President Bush Reporter KATALES
 Tense scenes and plans of the Kenyan Highlanders...
 The atmosphere of the show was high, and the important fact, said the pressmen of the R.A.C.K., Mr. H. D. Mwanza, was that the farmers and spectators at the show were obviously staying in Kenya.

He added: "Last year, there were many who did not intend to leave. The fact showed the show was not staying. All the talk about staying and going was with the job of leaving."

"There was some really splendid stock on show, and many of them will undoubtedly go forward to the fairs. The Kikuyu show definitely serves a very useful purpose by showing the farmers what the standard for the half-breed of last year had been equalled by the end of the two days more than 4,000 people had gone through the pavilions—compared with the 3,000 who had last year."

But when officials changed the date of the show, making it three weeks later than last year, they expressed that since it was being held before the end of November pay-day, the attendance would be down.

The highest turnout at the show this year again was recorded by Mr. Mwanza, who said that Mr. Mwanza, who is the Agricultural Officer for the Agricultural Department, said that the show was a success. He said that the show was a success because it was held at a time when the weather was just what was needed for the show. He said that the show was a success because it was held at a time when the weather was just what was needed for the show.

UK RUGBY RESULTS

All Blacks avenge a defeat

SNATCHING A six-point lead from the All Blacks against the Irish in the 1936 New Zealand Rugby Union match, the Irish team in this fixture at Cardiff last night.

Cardiff set at half time by five points to three, (a penalty goal), but a second half scrum gave the New Zealanders their momentum.

After being off the attacking front, the All Blacks' great-voiced scrum, used to beat the pressure of their heavier opponents, and the Irish did not give the margin to lose.

The All Blacks were ahead 21-15 at the interval when Don Clarke kicked a penalty goal. The Irish scored a try, but the 20-15 margin was closed by a try and an Irish penalty.

Next goal

Mr. Maxwell dropped a neat goal from 20 yards in the 25th minute of the second half for the winning points.

It was not a spectacular display for the crowd of 40,000, the largest to watch the All Blacks play on this tour.

The game was confined almost to the scrum and the line-out, forwards and outside backs. The Irish were led by the scrum-half, C. J. O'Brien, who scored a try and a penalty goal.

at meeting of world body

KENYA will be among the countries that will represent Africa at the four British Isles bowling association meeting in London on December 30, which is the subject of discussion there on the annual meeting of the International Bowling Federation at Perth, at a special meeting of the I.B.F. in Cambridge.

For many years the British Isles dominated world bowls, but since the spread of the game amongst other parts of the globe, the newer bowling nations have been having more and more of a say. They out-scored the British Isles on various points at Perth, but the British Isles have come to fight those decisions but it is hoped the special meeting will clear the air.

KENYA VOWS TO FORMER SOUTH AFRICANS

Applause for Minister's reply

STATUTORY BOARDS NOT TO BE HINDERED

A MEMBER of the House of Representatives had his attention drawn to the Constitution yesterday by the Minister of Affairs, Mr. M. Odinga, when he asked if the Government intended to allow "White South Africans" to stay in Kenya.

Mr. Odinga said Mr. S. N. Kibaki (Kauu) had asked the question during the Conference. The Minister said that the Government was not the policy of the Government to discriminate against any individual on grounds of colour, creed, race or country of origin provided he fulfilled the constitutional and legal requirements governing all candidates of Kenya.

Mr. Odinga said that the Minister's answer was referring to those who were not Kenyan citizens and the rules which would be laid down by the Kenya citizens and the saybody else. South African citizens were another problem and would be considered on their merits.

Asked by the Leader of the Opposition, Mr. Ngala, if the Government intended to give a statement that those who did not elect to become Kenya citizens would be allowed to stay. Mr. Odinga replied that this would be considered at the right time and suggested that the matter should be raised during discussion of the Citizenship Bill.

Mr. MURGOR GIVES UP HIS WHISTLE

Held over

NO story about the Member for Elgeyo, Mr. W. C. Murgor, would be complete without a reference to his long campaign as a Kibaki leader. There was only one occasion when he was paraded from it. When in his own phrase, it was "locked up" by a Kibaki motorcycle.

Yesterday, however, Mr. Murgor was given a company voluntarily. It was reported that he had been arrested by the Kenya Police. Mr. Murgor was a Member of the House of Representatives, and a leader of the Kenya Kibaki Party. He was arrested on the charge of being a member of the Kenya Kibaki Party.

Assurance on exam leakages

The congregation, which filled the cathedral to capacity, heard the late President described by Father John Njiru as a defender of world peace and a champion of human rights. Members of all races and many religious communities were represented. Among religious leaders was the Anglican Archbishop of East Africa, Dr. I. J. Beecher.

The Deputy Governor, Sir Eric Griffith-Jones, Cabinet Ministers, Members of the National Assembly, military leaders, and the Colonial Office, were also present. The American community in Nairobi was led by the Consul-General, Mr. Laurence Vane.

The Archbishop of Nairobi, the Most Rev. J. J. McCarthy, presiding over the solemn Requiem Mass, which was celebrated by Fr. Joseph O'Connell, of the Irish and English parishes, and Fr. Michael O'Connell, of the Royal Air Force detachment over the cathedral.

He said many thoughts and emotions were felt in seeing Kennedy, a man who had filled such a large part in the lives of millions. He expressed great sympathy for the late President's family and American people in Kenya and throughout the world.

"Our next word is one of admiration and grateful remembrance," Fr. Njiru continued. He recalled that Mr. Kennedy had been the first Roman Catholic and the youngest man to be elected President of the U.S. and he said that had there a clergy in position with the thought of continuing such service in the country where eventually had become a benefit to all men.

Fr. Njiru praised Mr. Kennedy's personal generosity, which had enabled him and his family to study in several parts of the world, including the emerging nation of Kenya.

He said many thoughts and emotions were felt in seeing Kennedy, a man who had filled such a large part in the lives of millions. He expressed great sympathy for the late President's family and American people in Kenya and throughout the world.

President's widow wins praise of a nation

MRS. JACQUELINE KENNEDY yesterday prepared for her departure from the White House and a period of private mourning for her assassinated husband with the praise of a nation ringing in her ears.

Her two children were made a poignant impact on the nation's mourning. Caroline, who is six today, clung to her mother's arm and wept. John, 10, appeared to be trying to cry.

"Today President Kennedy would not wish anyone to be our chief and only mention at his secretary's death. Rather would he wish his death to provide an inspiration to all people, urging them to ever greater efforts in furthering the two great causes of world peace and human rights for which he did so much in his life and which he may still be pursuing when he died."

Yrethron gives lowest return since 1940

Standard Staff Reporter

REARMS stocks have accumulated high overseas markets are vibrant for the prospect of political change in Kenya with minority groups and growers have received their lowest pay since 1950, the Standard Staff of Kenya says in its report on the year closing on December 31.

The report is to be discussed at a series of area meetings, which will start in January. The chairman, Mr. M. F. Robinson, says that over the last six months the board has had to continue to restrict production in order to stabilise the industry and effect a gradual release of accumulated stocks.

The board had concentrated its research on projects operating near Freetown and estimates that the extent of the economies started after July 1 will be such that total costs are likely to be more than £2,500,000.

REORGANISATION NEARLY OVER

Mr. Robinson goes on: "At the time of writing (October 22) it appears unlikely that growers will fulfil their production quotas and it is felt that the industry position will be brought down to a much more satisfactory level at the end of the year."

"The board, without wishing to sound over-optimistic, believes that the overall reorganisation of the industry will be completed by the end of this year."

Known to the report is a study of the industry in 1950, the introduction of a new crop in the growing area. It is anticipated that as a result of introducing the new crop the planters' income might be £100,000 in excess of the 1950 level.

SPEDDED UP

In the year under review growers received a total of £54,816 for 8,277 tons of rubber. The average price was 6s. 8d. per ton, which was an improvement on 6s. 4d. in 1950.

Total stocks of 1954, powder and extract at the end of the year, amounted to £23,000. The total stock of 1954, powder and extract at the end of the year, amounted to £23,000. The total stock of 1954, powder and extract at the end of the year, amounted to £23,000.

LOSS OF MUSHROOMS

By JEAN VAUGHAN

WHEN you are used to having mushrooms with your dinner, you are not likely to be surprised when you see a man in a white coat carrying a basket of mushrooms on his head. It is a sight which is not new to the eyes of those who have seen it in the past.

It has been said enough to be true that the mushroom is one of the most important of the vegetable kingdom. It is a food which is not only nutritious but also delicious. It is a vegetable which is not only healthy but also palatable. It is a vegetable which is not only cheap but also abundant.

When they come into the house for the first time, they are not only surprised but also delighted. They are not only surprised because they have never seen such a thing before, but also because they have never seen such a thing so cheap.

When they come into the house for the first time, they are not only surprised but also delighted. They are not only surprised because they have never seen such a thing before, but also because they have never seen such a thing so cheap.
