# SECRET KKK KKK COUNCILS OF SOCIETY BANNED

## Government action against a 'new menace to security' ARRESTS IN KIAMBUI AREA

A KIKUYU secret society with aims similar to those of Manu has been proscribed by the Kenya Government. Eighty-five arrests have been made in the Kiambu district and the society—Kiama Kira Mwingi (K.K.M.) or Council of the People—is officially described as "a new menace to security" and "dangerous to the good government of the Colony."

The Government says that K.K.M. seeks to undermine and subvert established authority to drive Europeans from their land and to stir up racial hatred. It has compiled secret lists of Kikuyu loyalists and their families, causing them to fear "some kind of revenge or reprisal."

There are no indications that K.K.M. intended violence, but the Government recalls that this was the true of Manu almost up to the time it was proscribed. A number of K.K.M. members were treated towards the end of last month and "interrogations and wider inquiries" show that about 25 local committees of the society had been formed in the Kiambu district.

There are no indications that K.K.M. intended violence, but the Government recalls that this was the true of Manu almost up to the time it was proscribed. A number of K.K.M. members were treated towards the end of last month and "interrogations and wider inquiries" show that about 25 local committees of the society had been formed in the Kiambu district.

The Acting Chief Secretary, Mr. E. N. Griffith-Jones, Q.C., said yesterday that police Special Branch and administrative officers had been keeping a close watch on the society, and advised when it reached proportions which gave cause for concern.

"The Government is anxious that there should be every reasonable opportunity for proper police investigation of the African people, and the ordinary channels for the redress of grievances are the most desirable."

"But we are convinced that we must take it necessary action to meet any emergency of subversive activity, under whatever cover it may appear."

Arrests under Emergency law

"The maintenance of stable conditions and good security in the Central Province, while released detainees are being returned there in large numbers, is absolutely vital to the continued progress of the rehabilitation and absorption programme, to which the Government attaches the greatest importance."

The 85 arrests have been made under the Emergency Regulations, which empower the authorities to hold suspects for up to 28 days while inquiries are made. If information comes to light disclosing a criminal offence, those concerned are handed over to normal police procedure.

District Commissioners have been ordered to stop striking movements that have been reported in the area. It has been reported that a strike has been called in the area.

## LETTERS TO THE EDITOR

**I** THINK Mr. Solly is right in spite of the rather strong leader on the subject.

Your headline on the reference of local Mr. Solly points out the fact that the letter is open to misinterpretation.

As to letters, it is well known that the letter is not to be taken as a final word. It is to be taken as a starting point for discussion. It is to be taken as a starting point for discussion. It is to be taken as a starting point for discussion.

Accordingly, when a letter is written, it should be written with a view to its being open to discussion. It should be written with a view to its being open to discussion. It should be written with a view to its being open to discussion.

**F**air is fairer. It is not a matter of right and wrong. It is a matter of right and wrong. It is a matter of right and wrong. It is a matter of right and wrong.

**I**n the meantime, I would like to say that the letter was not intended to be a final word. It was not intended to be a final word. It was not intended to be a final word.

## PEACE PLEDGE

### GIVE PREMIER'S REPLY TO BULGARIAN LETTER

**POLISH PLAN STUDY**

Mr. Macmillan yesterday "most solemnly" assured the Soviet Union that his British Government would not commit or condone aggression against Russia.

The Prime Minister, who was replying to a letter to him by Marshal Bulgarin last month of the Russian Premier's first series of moves for an earlier readiness to negotiate a non-aggression pact with Russia.

Mr. Macmillan said, however, that any bilateral or multilateral declaration of non-aggression, further than the Western Powers, would be to reinforce and Differences Charter in the existing provisions of the United Nations Charter.

Although the contents of Mr. Macmillan's letter were "harmonised" by the Nato Permanent Council, which also issued a statement of support for the British position, the Prime Minister said that the letter was not intended to be a "declaration of non-aggression" but rather a "statement of policy" which would be subject to change in the future.

Mr. Macmillan said that the letter was not intended to be a "declaration of non-aggression" but rather a "statement of policy" which would be subject to change in the future.

# ENGLAND EXPECT TO WIN AT TWICKENHAM TODAY

## Dai Dower seeks glory as bantam

Kyle will equal record of 44 international 'caps'

Two outstanding players and a newcomer to international rugby will have a match to remember when England go to Twickenham to play the visitors in their final position. The veteran is Jackie Kyle, 35-year-old Irish doctor, who played for the Australians in London in 1924. The newcomer is Pat Lamborn, 24-year-old Cambridge University player, who has been capped for England at Twickenham against Wales. Kyle, who played against the All-Ireland team for the first time in 1924, has been capped for England in 44 international matches and has won 24 caps. Lamborn, who has been capped for England in 10 international matches and has won 10 caps, is expected to play in the first position. The match will be the first of the international season, which will be followed by the Home Nations, the Five Nations, and the Six Nations.

The up-countryman

The Kenya Countryman is over the hill and down through the rift, by the little Italian church and then on to the cattle and sheep country, by the lakes with their pink flamingos. You either go straight on or turn to right or left into a land of beef, milk and butter, wheat and hay, or a land of goodness. You can reach the Countryman in any of the ways mentioned above. # FUCHS REACHES THE BRITISH EXPLORE AND SCIENTIST WITH THE WORDS: 'HELLO, BUNNY'

## JUGOSLAVIA PROTESTS AGAINST THE INTERCEPTION OF THE ALGERIAN COAST FREIGHTER CARRYING 150 TONS OF ARMS. FRENCH SHIPS ORDERED TO STOP THE SLOVAKIA, 5,824 TONS, INTO ALGERIA

Officials stated that 6,000 arms of various types were seized, and claimed that the action was taken because the arms were destined for the Algerian rebels.

## On lawful route

They said the ship was to have been unloaded at Casablanca, Morocco, and the route led to Algeria through a liaison agent of the National Liberation Front (F.L.N.). But the crew of the Slovaki denied this and claimed that the ship was on its lawful route to Yemou, Casablanca.

At the Yugoslav Embassy in Paris it was stated that the Ambassador, Mr. Uvalje, would ask the French Government to explain the interception of the vessel which he said, occurred on the high seas 40 miles off the coast of Algeria.

The arms seizure coincided with the latest outbreak of terrorism in Algeria, in which four women were killed and 41 people injured when a time-bomb, set in a bicycle-carrier-bag, exploded outside a cafe in the French Foreign Legion base of Sidi Bel Abbes. Many of the injured, who included Legion troops, had to have limbs amputated.

A French Army spokesman in Algiers, who was quoted as claiming that 20 Algerian insurgents were killed in the same area of Oran.

## FLOODS KILL 47

Floods sweeping Eastern Europe after 48 hours of torrential rain have killed 47 people, and four others are missing.

West Constantinople the Rumanol overturned its banks and swept away 100 shops, drowning ten people, including a child, and leaving three other children.

## Sir Roy questioned at Harare

Sir Roy Welensky, Prime Minister of the Central African Federation, yesterday answered questions about government policy to a crowd of about 800 in Harare African township at Salisbury.

## Boy swept away by 40-ft. wave

James Llewellyn Bell, 12, was fishing with a friend off the beach at Harare when a 40-ft high wave hit him and swept him away.

## MACMILLAN CATCHES QUEEN GREETS COULD ON TOUR REFUGEES

Queen Juliana was at the quayside at Rotterdam to welcome the refugees on board the Dutch ship Sibakak.

Mr. Macmillan and Mrs. Macmillan will arrive in London on Monday night. He was met by the New Zealand Prime Minister, Mr. Nash, and the British Prime Minister, Mr. Aneurin Bevan.

DR. FUCHS has reached the South Pole. A brilliant scientist who has spent the last 10 years in the Antarctic, including Sir Edmund Hillary, was waiting. Dr. Fuchs jumped out and shook hands with Sir Edmund Hillary and the British explorer and scientist with the words: "Hello, Bunny."

It was taken Dr. Fuchs, leaving the main party of the Commonwealth Trans-Antarctic Expedition, 50 days to battle his way over the 800 miles from South Pole to get to the Antarctic coast. Dangerous crevasses and poor visibility. Dr. Fuchs and Sir Edmund Hillary were the only men to have made the trip.

Asked whether they would go back to the Pole, Dr. Fuchs said: "I would like to go back to the Pole, but I must first see what the British party will do. Yes, we are going on."

A message sent to the London headquarters of the Expedition, received yesterday, said that Dr. Fuchs had been in the Antarctic for 100 days and had covered 1,200 miles to reach South Pole. He was the first to reach the South Pole since the first Trans-Antarctic Expedition in 1956.

The Queen's message: "I am glad to hear that you have reached the South Pole. I hope you will have a safe journey home."

Scientific observations: "The observations made by Dr. Fuchs during his expedition are of great value to the study of the Antarctic climate and physical observations."

## PAMIR'S SAILING UNUSUAL

SAIL MANEUVER according to the findings of a maritime board in Ladbroke, Hereford, Lordham, Chairman of the Board, said that the possibility exists that the Pamir, which was chartered by the International Geophysical Year studies office, was not by scientists of many nations in the Antarctic.

The Pamir had been on a voyage to the Antarctic and was found to be in a state of disrepair. The board recommended that the Pamir should be repaired before being used for any further voyages.

The board also recommended that the Pamir should be used for scientific purposes and not for commercial purposes.

To be a big success...

you've got to look smart

There's nothing like a smart, well-groomed head of hair for that extra touch of distinction that gives you the advantage over others. Silvikrin hair dressing will give you the extra advantage, for they control the hair naturally.

perfectly all day long - without making your hair look over-dressed. And, it keeps you cool. Silvikrin hair dressing has benefits also: your hair becomes more manageable. Part Silvikrin, the hair's natural friend.

For well-groomed, healthy hair, use **Silvikrin** TONIC HAIR DRESSING or HAIR CREAM

**THOSE OLD SAYINGS**

very often apply to modern people like us. For instance, what about the one that goes: "Clothes maketh men"? You know, that certainly applies to the men of Kenya. We can no longer turn up at our offices in shorts and cricket shirts. We have to wear well-tailored and comfortable suits, and sports clothes for our leisure moments that are in keeping with current fashions.

And that is where J. R. Shepherd & Co. come in. For they are experts in modern tailoring for men and boys. You can be assured of the most attention in their shop, right in the middle of Nairobi.

# PAKISTAN FACE UPHILL TASK IN FIRST TEST

## Stima still looking for a point

WITH the Commercial Football League season only two weeks old Stima is the only team in Division 1 without a point. In previous years, at Power and Lightning, they were one of the top teams.

## For other sport see page seven

The European Hospital and concert winners by two clear goals on from a penalty taken by Light.

I would suggest that the safety of London to the other side of the Atlantic has provided the most interesting feature.

Players share with Express the honour of a 100 per cent record, but it is the only team who have played two games in the Division 1 table up to Saturday January 20.

## Following on 311 behind huge West Indies total

PAKISTAN 311 behind West Indies with nine second-innings wickets in hand. Face an uphill task in the first Test at Lord's, Barbados. They entered the fourth Test at 162 for one, after being skittled out for 108 in reply to the West Indies huge first-innings total of 379.

Just as it seemed the opening wicket would spell the close finish for the West Indies, the same wicket spell the close finish for the West Indies.

## Collaps unexpected

Instant reached 50 in 21 minutes and Khalid's century in 121 minutes.

In contrast, Pakistan's score was 148 in 107 minutes.

## Spirited batting fails to save Natal from follow-on

SPRITED batting failed to save Natal from follow-on in the first three days of their match with the Australian cricketers at Pietermaritzburg.

The scorecard reads: Natal 200 and Australia 200 and started the second innings on the last day 301 behind.

## England XV should defeat Wallabies

ENGLAND'S Rugby Union team to meet the touring Australians at Twickenham on February 1 shows two changes from the side which drew 3-3 with Wales last Saturday. J. G. Hetherington, resident D. P. Allison (Coventry) at full-back and M. S. Phillips comes in for W. P. Davies (Harlequins).

The selectors have wisely called not to interfere with the forwards. Though well liked for the loose and the line-out, they have built up a reputation which cannot be lightly overturned.

Eric Evans remains the captain of a side which holds the good enough record.

### NOW READY PLANTERS' PROGRESS

The Story of Coffee in Kenya

by M. F. HILL

Large 64 pp. 7 1/2 x 9 1/2 in. 150 with 48 full-page plates and numerous other illustrations with full colour-plates 6s 6d

Shs. 42/-

This book, locally written, produced and published by the Coffee Board of Kenya, is a remarkable example of local effort. It does not just tell the coffee planter and to get another chapter in Kenya's short history. Throughout the pages of this book, which is illustrated with some fine photographs of the processes of coffee from tree to cup, there is a touch to the spirit of the man who has given so much to the service of his fellow planters, scientists and business men.

The Federal Reserve Bank in Washington, in a move to support the money changer's bid, raised the discount rate from 3 per cent to 3 1/2 per cent.

### UNION EXPORT VALUES RISE

The value of South Africa's exports increased from £412,828,000 in 1954 to £446,969,277 last year, according to a preliminary statement issued by the Department of Commerce. The total value of exports to all countries was valued at £416,383,000 in 1954. Exports to the United Kingdom increased by £156,551,817 compared with £409,832,363 for the previous year.

### Japanese shipyards lead Britain by 1,000,000 tons

**G**REAT strides made by the Japanese shipbuilding industry in the past few years are illustrated by figures published in Lloyd's Register shipping returns for the quarter which ended on December 31, 1954. The gross tonnage launched in Japan last year was 2,424,000 tons, compared with 1,746,000 in 1953 and 1,400,000 in 1952. The returns show that Japan is now producing 1,000,000 tons in gross tonnage in the last year of the present war. The gross tonnage launched in Britain last year was 1,250,000 tons, compared with 1,000,000 in 1953 and 800,000 in 1952.

### TAX RELIEF

THE following provisions of the Income Tax Act, 1954, are of interest to taxpayers:

# RESEARCH IN FIGHT AGAINST TAPEWORM SCOURGE

### Carve and champagne for invited guests... Meeting of scientists

**L**OOKWORM in humans and tapeworm infestation in man and beast were two of the most serious scourges of East Africa, the Acting Governor of Kenya, Sir T. Turnbull, said in Nairobi yesterday.

Tapeworm presented no serious epidemiological risks and the problem was one for the farmer and doctor rather than the research worker, he continued. But for us who survive matters and we would give a lot to know how to live in close association with the parasite without mutually infecting.

It was only two years ago, he said, that the East African Commission for Research had set up a committee to study the problem. At that time, he said, the only person in the world who was known to have been infected by tapeworm was a man from the East African Commission for Research who had been infected by a tapeworm which was found in the stomach of a cow.

At that time, he said, the only person in the world who was known to have been infected by tapeworm was a man from the East African Commission for Research who had been infected by a tapeworm which was found in the stomach of a cow.

### Conference in Nairobi

# Good husbandry for better crops

## COFFEE ADVICE

**R**ECENT deliveries of coffee from the African areas have been "very disappointing" in quality, according to the Coffee Board of Kenya, Mr. R. K. Turnbull. He stated some three weeks after figures from six out of ten African areas had been classified in the top three classes.

Mr. Turnbull, writing in the board's January Bulletin, expressed the hope that African growers would find in future regular the size of their crops as well as the quality of the beans to be the result of more careful husbandry.

Only one of the 16 European areas classified more than 30 per cent in these grades.

Mr. Turnbull also mentioned the board's January Bulletin, expressing the hope that African growers would find in future regular the size of their crops as well as the quality of the beans to be the result of more careful husbandry.

# LABOUR M.P. IN UGANDA

**A** BRITISH Labour M.P., Mr. John Stonehouse, and a barrister, Mr. Richard Brown, arrived in Uganda yesterday at the invitation of the Uganda Farmers' Federation.

The two men will stay for ten days in their problems of coffee and other crops. Mr. Stonehouse will be accompanied by Mr. Richard Brown, who is a member of the Uganda Farmers' Federation.

**Practical importance**

"That much of it is lost that is not a vital part of good coffee farming," he said. "It is liable to be over-planting."

It had been true in some time that the African areas had produced high quality coffee. One main reason was that the three main varieties, the African arabica, the African arabica, and the African arabica, were well adapted to the conditions of the African coffee belt. The African arabica, however, had been introduced to the African coffee belt, but it was not well adapted to the conditions of the African coffee belt.

**Selected beans**

Mr. Stonehouse will be accompanied by Mr. Richard Brown, who is a member of the Uganda Farmers' Federation. They will be staying in Kampala for ten days.

**DAMS CAN BE FILLED**

Assurance given

The Uganda Farmers' Federation has assured the British Labour M.P. and the barrister that the dams in Uganda can be filled with water. This is a very important matter for the farmers of Uganda, as it will allow them to grow crops in areas that were previously dry.

**Higher yield of coffee**

The higher yield of coffee from the African areas has been a disappointment to the coffee growers. This is due to a number of factors, including poor husbandry and the effects of the coffee beetle.

**Treating humans**

The treatment of humans with tapeworms is a complex task. It requires the use of specific drugs and a strict diet. The doctor should be consulted for the best course of treatment.

**Building fund**

The building fund for the new school is well advanced. The school will be completed by the end of the year. This is a very important project for the community, as it will provide a place for children to learn and grow.

**Parasitic resistance**

Parasitic resistance is a natural defense mechanism of the human body. It helps to fight off infections and diseases. However, it can be weakened by poor nutrition and stress.

**PIRETHRIN ALLEGED TWO FACE CHARGES**

There have been allegations that the use of piperithrin in agriculture is a two-faced practice. This is because it is used to kill insects that are harmful to crops, but it can also be harmful to the environment and to humans.

**RETIRING GOVERNOR GIVEN SPEAR**

**Farewell baraza at Iringa**

The retiring Governor of Tanganyika, Sir Basil Sutton, was given a spear as a mark of respect during his farewell baraza in Iringa. This is a traditional gesture of honor in many African cultures.

**Mr. Basil Sutton has been appointed Tanganyika's regional representative of the Director of Civil Aviation, East Africa, and will be leaving for Iringa after 12 years' service with the directorate of the High Commission.**

**Under THE Standard Clock**

The Standard Clock is a reliable timepiece that is used in many homes and offices. It is known for its accuracy and durability.

**Mothers' Union**

The Mothers' Union is a charitable organization that provides support and assistance to mothers and their children. It offers a range of services, including counseling and financial aid.

# FORT HALL CINEMA PROJECT

**T**ENDERS are being invited for the construction of a cinema at Fort Hall. The project is being undertaken by the East African Commission for Research. The cinema will be a modern facility with the latest equipment and seating.

# TANGANYIKA ROAD BUILDER

**S**ir Alexander Gibb, the leading British engineering and architectural firm, has been appointed as the road builder for Tanganyika. The firm will be responsible for the design and construction of roads throughout the country.

# DATE FIXED FOR NOMINATION

**S**ix new African seats

The date for the nomination of six new African seats on the East African Legislative Council has been fixed. The nominations will take place in the next few weeks. This is a significant step towards increasing African representation in the Council.

# 'Pioneer' school expands

**O**pened in 1956, the 'Pioneer' school in Nairobi has expanded its facilities to accommodate more students. The school is now one of the largest and most modern in the city. It offers a wide range of subjects and extracurricular activities.

# INCOME TAX BLAMED FOR THEFTS

**A** number of thefts in Nairobi have been attributed to the introduction of income tax. It is claimed that the tax has led to a decrease in the number of people who are able to afford the goods and services that are being stolen.

# DATE FIXED FOR NOMINATION

**S**ix new African seats

The date for the nomination of six new African seats on the East African Legislative Council has been fixed. The nominations will take place in the next few weeks. This is a significant step towards increasing African representation in the Council.

# G.O.C. LEAVING FOR ETHIOPIA

**T**he Acting Governor of Kenya, Sir T. Turnbull, is leaving for Ethiopia. He will be spending some time in Addis Ababa before returning to Kenya. This is a temporary assignment and he will continue to perform his duties as Governor.

# REBUKE BASED ON MISUNDERSTANDING

**N**O REMISSNESS BY ADVOCATE

The Supreme Court has ruled that the rebuke given to Mr. Justice M'Carthy was based on a misunderstanding. The court found that the advocate was not negligent and that the rebuke was unjustified.

# HABAS CORPUS WITH GRANTED

**S**UICIDE FOR MOMBASA 'EAT' KENYAN

The High Court has granted a habeas corpus writ to a Kenyan man who had been detained in Mombasa. The court found that the detention was illegal and ordered his release.

# LEADERS OF BAHAI FAITH TO MEET

**S**tanding Committee

The Standing Committee of the Bahai Faith in Kenya will meet in Nairobi in the next few weeks. The meeting will discuss the activities of the faith in the country and the needs of the community.

# OUTSTANDING VALUE IN NON-IRON SHIRTS

**M**ade in England

Whiteaway's Non-Iron Shirts are made in England and are known for their outstanding value. They are comfortable, durable, and easy to care for. They are available in a range of colors and sizes.

BURIED IN KENYA'S HISTORY

QUESTIONS were often asked about the value of digging up the past in East Africa. Many people can have little to offer the archaeologist and that a new country like Kenya think only of its future. Too ready an assumption is made of the inherent back-wardness of Africa south of the Sahara, too little notice being taken of its cultural background.

Thoughtful of marginal land for settlement on the East African continent, A. P. F. Ryan of North Kenya, in October 1954, started a series of excavations at a site of a prehistoric settlement. The site was a small, almost four-foot square, and was situated on a slight rise of ground. It was a prehistoric site, and was a prehistoric site.

Though finds of stone are not rare, little is known of the prehistoric past of East Africa, since only one site has been previously excavated. Only the location and position of the site are known, and the site is a prehistoric site.

The past of Kenya is a heritage so valuable as to be worth the trouble of digging up. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up.

Kenya is a country of many people and living how much can survive the passage of time. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up.

Water marks of olden days are still to be seen in the country. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up.

These bones of a multiple burial have been found in East Africa. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up.

Associated with an exciting new discovery in Kenya is the discovery of a prehistoric site. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up.

CRITICAL DEBATE TODAY IN COMMONS

Conservative M.P.s have today urged the Government to take steps to improve the position of the Commonwealth. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up.

The debate today in the House of Commons was a critical one. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up.

It is a debate which will have a bearing on the future of the Commonwealth. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up.

The Government has a duty to consider the views of the Commonwealth. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up. The past of Kenya is a heritage so valuable as to be worth the trouble of digging up.

**H**OOKWORMS in humans and tapeworm infestation in East Africa, the Aiding Governor of Kenya, Mr. Turnbull, said today.

Tapeworm presented no serious epidemiological trouble and the problem was one for the farmer and doctor rather than a public health one. But for an individual carrying a tapeworm, it would give a lot to know how to get rid of it.

Mr. Turnbull has also been slow in the discussion of hookworm infestation. It is not a public health problem, but it is a nuisance to the farmer and the doctor. It is not a public health problem, but it is a nuisance to the farmer and the doctor.

innings fears

Only 134 more needed to  
avoid an innings defeat

**T**HO of Australia's low batting order, including Ashley Cooper and Mal Anderson, have informed the Australian I.T.A. that they are unwilling to play in Barbados for the first time since the Australian tour.

Cooper and Anderson are angry at the I.T.A. for not recommending that the Australian Cricket Board should not name them in the Barbados tour.

Australian selectors, the I.T.A. says, would be obliged to drop the two players from the Barbados tour.

An I.T.A. spokesman says Anderson was summoned to Law Road at 11 am last evening.

Cooper said: "I am not sure that by the Cricket Committee's action and I have no further part in Australian cricket."

The up-countryman

The Kenyan countryside is over the hill and down through the Rift, by the little Italian church and then on to the centre and sheep country, by the lake with their pink flamingos. You either get straight on or turn to right or left into a head of beef, milk and butter, wool, wheat and barley. It's a land of goodness. You can match the countryside if you use an Austin Crossman when you countryside into the heart of Kenya. Apart from its looks the Crossman, but utility and power to churn through farm lanes after the tractor has passed. It will carry six people and over 300 lbs. of baggage. On safari two people can sleep in comfort in the Crossman. It is the only car in Kenya which can be used in the mountains. At the time, by the polo field, on the open road or in the town, the Crossman is the car for Kenya folk who want to look right and find right. The Crossman costs £1,150.

All whites look fairly white at a distance—but it's the close-up look that tells you when clothes have been washed in Omo, the wonderful Blue powder. That bloom she's wearing catches your eye because it's white, really white. Blue Omo gives you the whitest wash in the world—everything has that "special" look about it that simply asks to be admired. If you wash with blue Omo you can be sure of whiter whites, and as for coloured things—they came up as grey and bright as the day they were new. For washing you can be proud of, for the whitest wash in the world, make sure there's a packet of blue Omo in your house.

## PAKISTAN BAHADUR PACT TAKES

### West unable to counter missiles

#### DULLES 'OBSERVER'

##### FOREIGN MINISTERS OF THE Five Bahadur Pact countries — Britain, Turkey, Iraq, Pakistan and Portugal — are meeting in Ankara today for the most important conference since the Pact was formed two years ago.

Particular significance has been given to the talks by the participation, as head of an 'observer State, Mr. Dulles. The United States is not a full member of the Pact, but is on three of its committees.

**Washington denial**

On the eve of the talks Russia has issued the text of Mr. Krushchev's speech at Moscow, presumably in an attempt to influence the proceedings.

In this the Soviet leader gave a renewed warning to members of Western-backed alliances, including the Bahadur Pact, against permitting the establishment of rocket bases on their territory. He emphasized the need to base on self-aid to supply intermediate-range missiles to bases so established.

Mr. Dulles's attendance at the meeting has been violently criticized by Russia and by Eastern European countries. In an official statement proposing that the Pact be dissolved, including Bahadur Pact, Russia has become a nuclear-free zone.

At the same time the aid Mr. Dulles gave to the Pact, by his presence, is being investigated by the U.S. State Department.

The purpose of the Pact, it is said, is to provide a mutual defense against the Soviet Union. It is also said to be a means of providing a mutual defense against the Soviet Union.

## Early forecasts of independence made by British leaders

A recently published book looks back to the early 17th century. After Queen Victoria at Plassey, which made the British the dominant power in the great province of Bengal, the British Government in 1724 decided to extend its rule over the whole of India. The first step was to take over the territories of the Nawab of Bengal. The British Government then set up a Council of Bengal. The first problem of the British Government in India was to secure the cooperation of the Indian rulers. The British Government was successful in this. In 1764, the British Government secured the recognition of the British as the sole authority in India. This was a great achievement. It was the first step towards the independence of India.

In 1818 the British Government were admitted as a member of the Legislative Council. Further reforms followed in the form of the Government of India Act of 1858. This Act gave the British Government the right to govern India. It was a great achievement. It was the first step towards the independence of India.

Justice, social economic and political liberty of thought, expression, belief, faith and worship, equality of status and opportunity and to create among them all a sense of unity and brotherhood in the unity of the Nation.

## Let these hands protect you

These hands are the symbol of Life Insurance—the finest protection there can be. They mean a lot of things for you—your future in your old age, a provision for your family should they lose you, a reserve for your children's education, a means of defraying wedding expenses. But more than that, these hands symbolize Safety—the confidence that your investments are absolutely safe and that your interests are protected by people who are working to serve you.
