

RENCH BOMB TUNISIAN VILLAGE: 72 KILLED

Bourguiba recalls Paris Ambassador 'SCHOOL HIT' CLAIM

President Bourguiba was involved in a new crisis in North Africa during the weekend when his former ally, Tunisia, alleged that French aircraft had bombed a village on the Algerian-Tunisian border, killing 72 people and wounding 80. Reports said many were children who died in a school which was hit.

President Bourguiba has ordered the recall of the Tunisian Ambassador in Paris. He said in a broadcast that he had told the French that Tunisian relations are not, and can never be, normal.

Opening of hostilities

The Bourguiba said: "We are not at war with France but we can consider today's aggression marks the start of hostilities." After an emergency meeting, the Tunisian Government demanded the withdrawal of all French forces from Tunisia.

French officials stated that the raid was carried out against an anti-aircraft battery near the village of Saket Sid Youssef and a strong concentration of Algerian aircraft based in a damaged mine quarry.

French military authorities claimed that the attack was by 25 aircraft after a French reconnaissance aircraft had been fired on and forced to land. They denied that any aircraft were destroyed, and maintained that all efforts were made to avoid hitting the village.

The French Defence Minister, Mr. Debrais, said the raiding aircraft had been ordered on January 21 and the Tunisian Government claimed, however, that the French planes had bombed the village continuously for an hour.

Reports of anti-French demonstrations at Kef, where some of the wounded were taken for treatment, were also reported.

The Tunisian Government said that the village is the only one in the area which has not been damaged by the French. It is situated in the mountains of the Tunisian frontier and is a small village with a population of about 200.

One of the five airplanes said to have been shot down was a C-47 transport plane. The other four are all in urgent need of repairs.

The Tunisian Government has taken the prisoners into custody and has ordered the French to release them. Tunisia rejected the proposal.

Washington envoy told of 'regret'

CONCERN is expressed over the possibility of a rupture in the Anglo-American alliance, following the Tunisian bombing incident.

The British Government has been told that the State Department is deeply concerned over the Tunisian bombing incident. The State Department has been told that the British Government has been told that the State Department is deeply concerned over the Tunisian bombing incident.

'Resign' call to Sukarno

Mr. Sukarno has been urged to resign by some of his supporters. They claim that he has lost the confidence of the Indonesian people.

'Newcomers' welcomed

The new members of the United Nations have been welcomed by the Secretary-General. He said that the new members will bring new perspectives to the organization.

The Committee of Control of the United Nations has been set up. It will be responsible for monitoring the activities of the new members.

The United Nations has been urged to take more effective action against the aggression of the Soviet Union. It is claimed that the Soviet Union is a threat to world peace.

TRAINING Many top pupils learning a trade CALL TO INDUSTRY

Students' Best Reporter—Mr. Macmillan is pressing past the stage when the training of additional tradesmen is regarded as one of the most pressing industrial problems. He is doing this by taking up trade training. This was announced by Acting Governor, Mr. Turnbull, at the annual meeting of the Association of Chambers of Commerce and Industry at Mombasa yesterday.

Mr. Turnbull was replying to the retiring president, Mr. R. J. Mehta, who had urged the provision of more trade schools and suggested that pupils who had not quite the ability to become fully qualified engineers could, perhaps, make a useful mechanic. The country required many more mechanics than skilled engineers.

Money badly needed

Mr. Turnbull told the association: "I don't know what the question of the training of additional tradesmen is for your agenda. I sincerely hope it is for it is a matter of great complexity and a difficult one to be legon."

Small family businesses find it difficult to pay for any further training course, and there was an unhappy tendency on the part of the learner to abandon his apprenticeship, and he thought he could get a few more billings outside and to cast aside the years devoted to teaching.

PREMIER TRIES TO MEDIATE

DIPLOMATIC activity is expected in Washington and Moscow this week in an effort to find a suitable approach to a summit conference. The United States will be represented by the Soviet Union, Mr. Alexander Truzhnevsky, and to return to Moscow on Thursday for consultations in Moscow.

The British attitude to summit talks has been clarified by a letter from Mr. Macmillan to Marshal Bulganin. Mr. Macmillan proposed that a meeting of Heads of Government should take place in the near future, as a preliminary to a summit conference.

Falling that he said, British would agree to making them preparations for a rough confidential diplomatic meeting.

The Prime Minister added that he could not promise to speak for other Governments. President Eisenhower and Mr. Dulles are expected to be still convinced that a meeting of Heads of Government in U.S. is carefully prepared at lower levels.

It is not yet clear, however, whether they will insist on a preliminary summit conference. Mr. Macmillan's present attitude is to insist on the preparation of a summit conference in the United States.

Mr. Macmillan said he was convinced that a summit conference was one reason why so little was achieved at the Geneva Conference in 1955.

ROADS FOLLOW THE SNOW

Farmland and roads in Britain under water

MANY parts of Britain, almost paralysed for three days by snow and ice, had to withstand with floods yesterday in sudden weather and rain spread news of the country turning under lake seas.

In Worcester the streets were flooded to a depth of several inches when the Swens overflowed after the snow. Large areas of British farmland were also flooded, being buried under farmland in Central England and some roads which had been blocked by snow were open under water.

The milder weather in London where snow had melted, brought to a halt the snow which had been blowing north from the North Sea. The snow had been blowing from the North Sea, and had been blowing from the North Sea, and had been blowing from the North Sea.

A race meeting at Warwick was postponed because of the weather. The meeting was postponed because of the weather, and the meeting was postponed because of the weather.

MEMBER'S HOME RAIDED

DUNGLARS who broke into the Ngering home of Mr. S. G. Goble, Member for Nairobi North, stole silverware, kitchen utensils, and entered the house by smashing a kitchen window. A night watchman who passed the alert by blowing a whistle, called the police when a man was seen to enter a window at 10 o'clock.

When Mr. Goble was awakened by the noise, he found his bedroom had been placed under his bed, and he had a footprint on the sill.

One of the burglars' legs was later found dead under a bed in the room. The burglar had been carried out from the house. It is suspected that it might have been drowned.

Waste of time' to stay

Mr. Richard said that the Government and local Government in continuation projects in Kenya could have disastrous results. It would be a great pity if some of the firms of international repute which had established themselves since the Second World War decided it was a waste of time to remain in East Africa.

Pointing out that the Embakasi village project was a 'pretty fair example' of the tendency of Government and local Government to do contractual work themselves, Mr. Richard said that they should stick to the market first to see if the work could be done as well and more cheaply by private enterprise.

It is a sound market principle there was a moral as well as an economic one in that it was spent to the best advantage.

Mr. Anderson elected president

Mr. Anderson, Member for Nairobi, was elected president of the Association of Manufacturers and Exporters of Kenya at a meeting held at the Nairobi Club on Monday evening.

Mr. Anderson, who has been a member of the Association since 1948, was elected president by a vote of 100 to 80. He was re-elected president for the second year at the same meeting.

Project carried out by them were successful. It was a project carried out by them, and it was successful. It was a project carried out by them, and it was successful.

Mr. Hunter also complained of Government opposition to their plans. He said that the Government was not interested in their plans, and that they were not interested in their plans.

INCREDIBLE GAP IN MAIZE PRICES

Assurance by president

A resolution put forward by the Nairobi Chamber assured the Government of Kenya — as an urgent measure to control the price of whole maize was determined during the year, and to substitute a basis which gave the grower a return commensurate with that obtained in neighbouring territories, and to eliminate the use of land which was not suitable for maize production.

ATTACK ON INFLATION CUTTING TAX Call to Governments

PARIS (AP)—The governments of the world are being urged to take a radical step to reduce inflation by cutting taxes, a leading economist said today.

The economist, who was speaking at a meeting of the International Chamber of Commerce, said that the only way to reduce inflation is to reduce the cost of production. This can be done by cutting taxes on raw materials and on labor.

REASONS FOR APPOINTING A TOWN CLERK

MAJ. CORNER raises a very different issue in his comments on the City Manager question—whether a Town Clerk should be a lawyer. May I quote my own authority, the *Indian Report* (Command Paper No. 1235 of 1934):

... it is not necessary to insist on a legal qualification for the Town Clerk, but it is desirable that he should be a person of high administrative ability whose experience has been gained in other work. This disadvantage to our mind, namely, the high administrative ability is not a legal qualification.

I think that it would be preferable to have local authority otherwise provided with a person of high administrative ability than to appoint a clerk whose only qualification is a legal one, simply because he

Live in beauty

Brushing is art, and your skin is the foundation for it. The nature and most careful way to care for your skin is the natural way — a smooth massage with the gentle cream lather of the Imperial Leather soap. This cleanses and softens your skin, and a splash with cold water, and your skin is left dewy, fresh and lovely. Especially, Imperial Leather soap has a perfume that is a delectable hint — unable to harm the most sensitive skin, appealing to your intellect, and it lures and lures. It is a luxury that is truly so secondary, letting you live in beauty.

TENNIS 'CAR' IS U.S. DAVIS CUP CAPTAIN

PERRY JONES, known as the "car" of Pacific Coast tennis, has been named U.S. Davis Cup captain to succeed Bill Talbot. Talbot has served as captain since 1952.

The surprising change was announced by Mr. Victor Davis, secretary and president of the United States Lawn Tennis Association.

Mr. Davis also disclosed that he has appointed Jones to continue to explore the possibilities of an open level tennis tournament in support of the U.S.L.T.A. last year.

Mr. Davis said appointed Jones previously had been U.S. Davis Cup captain since 1952.

END OF CONTROL WOULD BE A RISK

Minister warns conference

REMOVAL of produce movement control and the ending of price controls would be a serious risk to the economy, the Minister for Commerce and Industries, Mr. H. H. Hunt, warned at a conference of the Kenya Chamber of Commerce today.

Mr. Hunt said that the Government had spent a great deal of money in establishing a system of control over the marketing of produce, and that it was essential to maintain this system in order to ensure that the country's resources were used to the best advantage.

He said that the removal of these controls would be a serious risk to the economy, and that it was essential to maintain them in order to ensure that the country's resources were used to the best advantage.

WORLD CUP RACE TODAY

Zariba is selected

The last race meeting of the 1974 season is to be run at Ascot on Wednesday afternoon when the two-year-old Gold Cup and the Sir Alister Hales Plate, over similar distances, will be the chief events. There will be seven races in all, the last being for two-year-olds.

The most attractive prospect for the Kenya Gold Cup, one of the season's big races, is the favorite Zariba. The champion jockey writes: "I had seen the horse at the start of the season and I was very impressed by his speed. He is a very smart horse and I expect to see him in the Gold Cup."

PROBABLES FOR TODAY

THE RACES: The main event is the 10:30 Kenya Gold Cup, over 1 1/4 miles, with Zariba, favored at 1/20, and the Sir Alister Hales Plate, over 1 1/4 miles, with Zariba, favored at 1/20. Other races include the 11:30 Kenya Gold Cup, over 1 1/4 miles, with Zariba, favored at 1/20, and the 12:30 Kenya Gold Cup, over 1 1/4 miles, with Zariba, favored at 1/20.

ROADS BAGS BEHIND

City Engineer points to money shortage

City Engineer points to money shortage as reason why National Road Authority is behind in the provision of all-weather roads. The seriousness of the position was made plain in a number of "open houses" in the annual report. Engineers are now faced with the money crisis. Major roads are now being closed to lorries, footpaths, and signs and lighting standards by motorists. The marked lack of civic responsibility on the part of many people.

Challenge to departments

A much higher target for road maintenance in the year to be set for 1952. The seriousness of the position was made plain in a number of "open houses" in the annual report. Engineers are now faced with the money crisis. Major roads are now being closed to lorries, footpaths, and signs and lighting standards by motorists. The marked lack of civic responsibility on the part of many people.

Mystery of diverted airliner

UN PROTEST

DEMANDS were made by the United Nations Council in South Korea yesterday for the return of a airliner carrying 80 people which was mysteriously diverted into Communist North Korea.

LOW RATE OF ACCIDENTS

It is reported that the rate of road accidents has fallen to its lowest level since 1948. The improvement is attributed to the fact that it is not the number of accidents that is the important factor, but the number of deaths and injuries. **THE HOUSEWIFE'S
MANY-SIDED CAREER**

By **MARY WIFE**

LISTENING TO the conversation of a group of young
folk recently, I found that they all wanted to
train for some type of professional career, and it is for
their credit that they wish
to do so.

But when they discussed the
thought of being, as far as the
girls were concerned, a career
of a housewife, they were
indignant. "I would like to be
a housewife," they said, "but
not if it means that I have to
do all the things that women have to
do."

I have many partitions
in my mind, and perhaps you
will be surprised to find that
I am not one of them. I am
not a housewife, but I am
not a professional either. I am
a housewife and a professional
at the same time.

Think of all you owe to an "older woman"

You looked to someone more mature for advice on clothes, grooming, etc. Now take her advice on Tampax.

Here's what she'd tell you: "During those days, it's terribly important for a woman to feel her needs are met. Because Tampax is worn and absorbed internally, it gives you all these advantages you can't see. It... and it even prevents odor from forming. It makes you feel daintier, your hands aren't touched, the Tampax when inserting or removing. You're rid of that ridiculous badge-pod because the Tampax. And since Tampax is only a fraction the size of an external pad, disposal just isn't a problem any more." Tampax is made of surgical cotton in thimbleweave applications. Choice of 7 or 10 absorbencies—Regular and Super—at chemists and stores. Month's supply goes into your handbag.

TRIAL OFFER Send 4 pads to the nearest dealer for a trial. Each pack will be prepaid to you in postage stamps in the trial envelope. P. O. Box 1914, Newark.

Goan XI and Hockey Union draw: Women lose to Europeans

At the City Park Stadium on Sunday the Hockey Union of Kenya held the Kenya Goan Sports Association in a two-all draw. In a "curtain-raiser" the Kenya Goan Hockey Association Women's XI defeated the Kenya Goan Sports Association women's team by 2-0. In both games players were hampered by sick work and a ball controlled by the stickiness of the pitch.

In the men's game the Goan XI potted in the penalty from the start. The first goal was scored in the 10th minute, against the run of play, when the U.K. were awarded a short corner for an infringement. It was taken by Agostino and the ball went to Christian Singh, who made a mistake with a force drive (1-0).

Knockout ties for midweek

In the fourth minute of the second half the Union were two goals up when Robinson Singh made a break through and treated the ball into the net.

Goans equalise

The Goan forward line, which had not been expending as well as usual, settled down and from a corner Mendonca drove a 30 minutes from time the ball was passed to the Goan right-winger, who cut in and the right-back side of the net, giving the goalkeeper no chance.

After five minutes play in the first half the Goan were awarded from a breakaway by the Europeans and there were further scoring in the first half. The second goal was scored in the 10th minute of the second half when the left-winger, J. Curtius, cut in and

AFRICA pool knowledge

INTER-GOVERNMENTAL co-operation and free enterprise are essential to the African continent, especially the area south of the Sahara, if being served by a network of road, rail and air routes.

Under the aegis of a number of African States and from the United Nations, in addition, there are participating inter-governmental bodies which are seeking the means of meeting the way to travel and trade.

Essential equipment for the African States is the railway in Central and Southern Africa, were detailed by the general manager of the African Railway, Mr. D. H. C. ...

VALUE OF BEING IN COMMONWEALTH Indian membership defied

INDIA'S Minister for Home Affairs, Govind Ballabh Pant, defended in Parliament India's continued membership of the Commonwealth. He said the British Commonwealth was one of the "rare institutions" in which members had joined together voluntarily to express their views and take responsibility for the views of the others.

Mr. Pant said the Home Minister, Mr. K. M. Munshi, had stated in the House that the Government of India was not a member of the Commonwealth. He said that the position of India was not a member "excepted in fact."

Methods of Election

Asked by a Member whether the method of election in the House of Representatives was the same as in the Provincial Assemblies, Mr. Pant said that the method of election in the House was different from that in the Provincial Assemblies. He said that the House was elected by a system of proportional representation.

TEN POLO CASES

Two cases of poliomyelitis had been reported in Ranchi, Bihar, in the last few days. The cases were reported to the health authorities and the Government has taken steps to prevent the disease from spreading.

Frogman at work in atomic cell

A NEW building specially designed for handling highly radioactive materials has just been completed at the Atomic Energy Research Establishment, Harwell.

It can handle in perfect safety radioactive materials at levels up to about 10,000 curies—a curie is a unit of radioactivity—even higher levels by making special arrangements.

Inside the building there are five cells—one it sees in the picture above, with a ceiling about eight feet wide and 16 feet high, prepared by attaching concrete above and below.

The walls are of concrete five feet thick and each has a window of the same thickness. Materials inside the cells are handled by a pair of master-slave manipulators—a device which is operated by hand outside the cell follows the movements of the operator's hand inside.

The cell will also contain a 1-lb atomic travelling crane which can lift 100 lb. and maintain a unit at the top.

BLACKBURN REACH QUARTER-FINALS

Boxer wins his fight - in court

DON COCKLETT, former British heavyweight champion, has been awarded £7,500 damages in the High Court against publishers of the Daily Mail for libel.

The newspaper said CockleTT went to the ring wearing a hat and making an appeal to a "fat and bearded" audience.

The jury took just 29 minutes to find in favour of CockleTT.

Winning goal by Stan's successor

BLACKBURN BOYERS qualified to meet Liverpool in the quarter-finals of the English Football Association Cup by beating Cardiff 2-1 in the 1st Round replay at St. James' Park on Thursday.

England's right-wing, scored the winning goal in the 11th minute.

After a goalless first half, Blackburn's Stan Mortensson equalised from the left in the 55th minute.

But Blackburn got the winning goal in the 75th minute when they were 2-1 behind.

Blackburn and Liverpool will have a 2nd Round replay on the 14th March 1 Cup game when they have a 2nd Round replay.

Blackburn's manager, Division II League match. Both teams are looking for re-entry to Division 1.

Blackburn's match played at St. James' Park, Blackburn, Lancashire. The match was refereed by Mr. J. G. Jones.

Blackburn's goals were scored by Stan Mortensson (11) and Charlie Whelan (75).

Blackburn's manager, Mr. Stan Mortensson, said: "I am pleased to see my team back in the Division 1 League match."

HOKEY AT PARKLANDS

PARTING has been the result of the 1st Round hockey match between Blackburn and Liverpool at Parklands on Thursday.

The match was refereed by Mr. J. G. Jones.

Blackburn's goals were scored by Stan Mortensson (11) and Charlie Whelan (75).

Blackburn's manager, Mr. Stan Mortensson, said: "I am pleased to see my team back in the Division 1 League match."

SIX GOALS AGAINST MOWLEMS

DUNLOP '65' DOES IT AGAIN

The reconstructed 17th hole at Linnora Country Club is now 315 yards long, played up and down, a 400 yd. prevailing cross-wind.

Play is difficult with three officials of the club: Bobby Barr, the pro, at the 17th hole; and the 18th hole; and the 19th hole.

Bobby maintains that "it's not going further than ever before."

"Why not? Well, it's the best player of the club."

Trading in Colony improves

BANK REVIEW

SLIGHT improvements in general trading conditions in Kenya continued in January according to the monthly review compiled by the Standard Bank of South Africa.

They were attributed to extra business in Uganda in the latter part of the opening of the season. Trade in Uganda is expected to be better than in the previous year. This is due to the fact that the relative to Christmas spending of money was not so great as in the previous year. It is expected that the volume of trade in the latter part of the season will be better than in the previous year.

Oil near Paris - and arrival in Swiss Alps

A FRENCH oil company has struck oil in the Paris area and has discovered a new oil field in the Swiss Alps.

The French company, Petro-France, announced that a huge oil deposit has been discovered in the Swiss Alps. The deposit is estimated to be one of the largest in the world. The oil is expected to be of high quality and will be used for industrial and domestic purposes.

NEW BUILDING REACHES LEVEL

THE building industry in the Colony has reached a level of activity similar to that of the previous year. This is due to the fact that the volume of new building work has increased significantly.

The increase in building work is attributed to the fact that the Colony has a growing population and a need for more housing and commercial buildings. The building industry is expected to continue to grow in the coming years.

LONGON NARRATIVE OUTPOINTEDED Unpopular verdict

WILLIE PASTRANO, the American heavyweight who is ranked fourth in the world, narrowly outpointed Brian London, of Britain, in a 16-round international bout at Harringay Arena on Tuesday. London, of Blackpool, 23-year-old son of a former British heavyweight champion, struck a great blow for British boxing by carrying off the fight against the much more famous opponent and all but matching an unexpected decision.

TANGANYIKA will not be represented at the British Commonwealth Empire Games, to take place at Cardiff in July next, because of the "over performance" of the country's sportsmen and athletes in a number of the Territory's sports.

Whether the athletes are the better of the Territory will be seen in the Games and the country's A.A.A. has been advised to send only those who have shown any very good record in the last few months. It is believed that the A.A.A. Secretary, Mr. J. H. Jones, will be asked to send a list of names to the British Commonwealth Empire Games, to take place at Cardiff in July next, because of the "over performance" of the country's sportsmen and athletes in a number of the Territory's sports.

May Shield final
The final of the May Shield football tournament will take place at Harringay Arena on Tuesday. The winner will be awarded £200 and a trophy.

FAILURE TO DEVELOP THE BOLONEY TOURIST INDUSTRY

FORTUNATELY for Kenya and those of us who have made our homes in this lovely country, we have such people as Mr. Hilton and Mr. Denis Mathews with us. They have been prepared to serve with their own hands. The E.A. Tourist Travel Association, the representative of those who work their own trade in the industry is not generally recognised in the country. It is a pity that the Government is not prepared to do more for the industry. The Government is not prepared to do more for the industry. The Government is not prepared to do more for the industry.

of an Industry
India's engineering industry, though established 100 years ago, is steadily modern. Its growth has been most rapid in the last few decades so that production techniques are fully up-to-date. Indian Industries are now able to turn out fittings suitable for heavy engineering products; iron and steel production is rising fast; the output of engineering factories has risen by over 150% within the last few years. Manufacture ranges from locomotives and boilers to sewing machines and transformers to automobiles and fans. The quality and finish of Indian engineering products is excellent, prices are competitive and delivery times agreeably short. Let us deal with your requirements.

IRAQ FACES CRISIS OVER UNION WITH JORDAN

Armed men take firm's payroll Premier resigns

IRAQ, which recently decided to join with Jordan to form a new State, was yesterday thrown into a crisis by the resignation of its Prime Minister, Mr. Abdol Karim Kassab. Since the Iraq-Jordan merger was announced Mr. Kassab has been the subject of strong attacks by President Nasser, of the United Arab Republic of Egypt and Syria. The Yemeni has resigned on his honor after the announcement in Damascus that the federation was to be formed. Mr. Kassab, who is on a visit to Syria, and Prime Minister Mohammed of the Yemen.

The Yemen took the decision to join the union a fortnight ago. Crown Prince Mohammed expressed the hope that the federation in Damascus that the federation of his country with Egypt and Syria would "liberate Southern Arabia". This was taken as a cue by the British Government, who are in the habit of interfering in the affairs of the Arab States.

The Yemen is now an independent State and the Yemeni Government will be asked to accept the position that it must take in the new State.

Prime Minister's resignation was accepted by the cabinet and the King. It is believed that the King will be asked to accept the resignation and to appoint a new Premier. It is believed that the King will be asked to accept the resignation and to appoint a new Premier.

Sleet wrecks city's power supply

NEWFOUNDLAND was hit during the weekend by the most destructive sleet blizzard in its history. The storm left St. John's (population 70,000) a starved, tangled mass of stranded poles and strung wires. Power was cut off in many parts of the city. The power supply is expected to be restored by tomorrow.

Wires on roads

Wires were strewn across roads and in some cases across the streets. Many motorists were stranded. The roads were covered in a thick layer of sleet, making driving extremely dangerous.

ONE very up-to-date marketing idea comes from a small Detroit manufacturer. To celebrate the visit of the Queen Mother, he has just set a "Royal Assortment" of hairpins, including 100 of each variety and gold-plated.

The contents of the pack, a variety of asept and chemical hairpins, are as surprising as the hair cover.

RECENT newspaper publicity has drawn attention to grocers, and at least one Government Road shop has adopted a practical defence. Their book-let set of 1000's contains 1000's of recipes, and from these they are willing to help even in preparing lines outside their own sphere.

EX-ACTRESS GETS READY FOR GRAND NATIONAL

The greatest steeplechase in the world. It costs about £20,000 to stage each year. About 50,000 hundreds of thousands of spectators, and it is run by a woman.

It is the Grand National which, with the prize money raised to nearly £17,000, will soon become the richest steeplechase ever run in Britain.

The National is to be held this year on March 29 and the first. Miss Dorothy Tompkins will be a very hectic time indeed. As managing director of Topham Ltd., who lease the Abney Racecourse, near Liverpool, she is in charge of preparations for the great and historic sporting event.

It is a tough task for a woman, but not too tough for Mrs. Tompkins. This remarkable woman has been nicknamed the "Amazon of Abney".

makes good petrol better

Shell

has it

THE I.C.A. STORY
 I.C.A. does not stop engine deposits. Nothing can do that. But it neutralizes them as they form in the combustion chambers and on the spark plugs of your engine. This prevents them glowing red-hot and firing the mixture independently of the spark—the cause of power loss and rough running. Thanks to I.C.A., your engine will always give you full performance and run more smoothly.

SPENDING A Power epic of engineering, OPERATING CEREMONY

By the opening of the Kibira Power Co. in July 1965, the Government will have completed the first of a series of power projects which will be the backbone of the country's economy. The ceremony linking the two projects was held at the Kibira Power Co. in July 1965.

TWO OATH OFFENDERS JAILED FOR 14 YEARS

Standard Staff Reporter
Two men who had sworn to abstain from alcohol and tobacco were sentenced to 14 years' imprisonment for breaking their oath. The men were charged with violating the terms of their oaths by drinking alcohol and smoking tobacco. The court found them guilty and sentenced them to 14 years' imprisonment.

RISE IN DEMAND

The rapid growth of industry in Kenya has led to a corresponding increase in the demand for electrical power. This has led to a shortage of power in many areas, particularly in the industrial zones. The Government is taking steps to meet this demand by expanding its power generation capacity.

REVELATION OFFER

Thompson's revelation offer to the Government has been accepted. The offer involves the transfer of certain assets to the Government in exchange for a sum of money. The Government has agreed to the offer, and the transfer is expected to be completed in the near future.

PATERNITY FOR FUTURE

Mr. Evelyn's plan to "wipe Kenya's record" has been met with approval. The plan involves the implementation of a series of reforms aimed at improving the country's economic and social conditions. The Government has agreed to the plan, and it is expected to be implemented in the near future.

£40 fines for irregularity at meeting

Two men have been fined £40 each for irregularities at a meeting. The men were charged with violating the rules of the meeting, which included the failure to provide proper notice and the failure to follow the agenda. The court found them guilty and imposed the fines.

UNWORTHY OF BILL

Referring to Makabane's bill, Mr. Simpson said it was unworthy of the House. He argued that the bill was poorly drafted and did not address the issues it was intended to cover. He called for the bill to be withdrawn and replaced with a more comprehensive one.

WITCHCRAFT TRIAL: THREE SENTENCED

Standard's Correspondent
Two women and a man were sentenced to death by the High Court, sitting at the witchcraft trial. The three were found guilty of witchcraft and sentenced to hang. The trial was a landmark case in Kenya's legal history.

Chemist moves to Sierra Leone

Dr. Peter Henry, a well-known chemist, has moved to Sierra Leone. He has accepted a position at the University of Sierra Leone, where he will continue his research and teaching. His departure is a significant loss to the Kenyan scientific community.

RECORD ENTRY AT MAKERERE

236 students win places

A TOTAL of 236 students are being offered places on the preliminary courses at Makerere College this year. This is a record for the college, which has seen a steady increase in the number of applicants over the years. The students will be starting their courses in the near future.

UNIVERSAL FRANCHISE PROPOSED

Standard's Correspondent
Mr. F. J. KHAMISI said at the first meeting of the elected body that he would insist on a provision of the universal adult franchise. He argued that all citizens should have the right to vote, regardless of their education or social status. This proposal has been met with mixed reactions.

'Robbed of rights'

The attention of the House was drawn to the 'robbed of rights' by Mr. Khamisi. He argued that the current electoral system was unfair and did not give all citizens an equal chance of being elected. He called for a new system that would be more representative of the population.

Vote suggested

Mr. Khamisi suggested a vote on the issue of universal adult franchise. He argued that the House should take a decision on whether to implement the franchise. He called for a vote to be held as soon as possible.

PERSUADING AFRICANS TO BUY OWN HOUSES

Standard's Correspondent
Mr. Khamisi said that he would recommend to the Government that it should persuade Africans to buy their own houses. He argued that this would help to improve the housing situation in the country and reduce the dependence on government housing schemes.

Learn to learn

Mr. Khamisi said that he would recommend to the Government that it should encourage Africans to learn to learn. He argued that this would help to improve the country's education system and create a more skilled workforce.

House empty

The House was empty during the session. This was due to a combination of factors, including the absence of several members and the fact that the session was held at a time when many members were busy with other commitments.

Lower Development Bill for development

The Government has introduced a bill to lower the development charges. This is intended to encourage investment and development in the country. The bill will be discussed in the House in the near future.

Outside sources

There were some 20 members of the House who were absent from the session. This was due to a combination of factors, including the absence of several members and the fact that the session was held at a time when many members were busy with other commitments.

Types of houses

Mr. Khamisi said that he would recommend to the Government that it should encourage the construction of different types of houses. He argued that this would help to meet the needs of different segments of the population and improve the housing situation.

Variation difficulty

Mr. Khamisi said that it was difficult to vary the development charges. He argued that the charges were set at a level that was necessary to cover the costs of development. He called for a more flexible system that would allow for variations in the charges.

SELFLESS WORK ON AIRPORT PRAISED

Minister at celebration party
The Minister for Works and Transport praised the selfless work of the staff at the airport. He argued that their dedication and hard work had led to the successful completion of the airport project. He called for continued support and cooperation from the staff.

WORKMEN AND TECHNICIANS ENGAGED ON THE BUILDING

Mr. Khamisi said that he would recommend to the Government that it should engage workmen and technicians on the building of the airport. He argued that this would help to improve the quality of the work and create jobs for the local population.

Under the Standard Clock

Mr. Khamisi said that he would recommend to the Government that it should standardize the clock. He argued that this would help to improve the accuracy of timekeeping and reduce the confusion caused by different time zones.

Repeal against time

Mr. Khamisi said that he would recommend to the Government that it should repeal the law against time. He argued that this law was outdated and did not reflect the current needs of the country. He called for its repeal.

Farmers prepare case for inquiry into rural power

Farmers are preparing a case for an inquiry into the rural power situation. They argue that the current system is inefficient and does not meet their needs. They call for a comprehensive inquiry to be held to investigate the problem and find a solution.

Primary Act Association

The Primary Act Association has been formed. Its aim is to improve the quality of primary education in the country. The association will be working closely with the Government to achieve this goal.

THE UNUSUAL

Exquisite originals by unknown artists. The delightful humour of exaggerated sculpture. I like swimming in a thunder storm. Making muscles of teddy chairs. I like deep violet against pale blue. Food seasoned with rare spices. I like a little restaurant with a complete lack of decor that is almost arrogant. And the most excellent and well contrived food. I like the idea of there being nothing to distract from the perfection of the meal. And the fine old Scotch they serve there.

It's the close-up look that tells you BLUE OMO gives you the WHITEST WASH IN THE WORLD

All whites look fairly white at a distance - but it's the close-up look that tells you when clothes have been washed in Omo, the wonderful blue powder.

That pretty little white shirt's wearing another year because it's white, really white. Blue Omo gives you the whitest wash in the world - everything has that "special" look about it that makes you so different. If you wash with Blue Omo you can be sure of whitest whites, and you get a little extra bonus - they come out so gay and bright as the day they were new. For washing your white shirts, trousers, and other white washables, make sure you get the whitest wash in the world, make sure there's a packet of Blue Omo in your basket.

It's best for coloureds too!
