GROWTH

Milk and meat for a growing nation's needs. In their extensive dairy and ranching industries the peoples of East Africa have a vital source of protein nourishment for a vigorous people. There is, too, a valuable export potential in dairy products, meat and leather. But to fulfil its vital role, the industry must continue to grow with the country. Barclays has played a part in the development of these twin industries and are ready to assist in essential expansion in the years ahead.

were very tall and good to eat...
She was looking and peering...
very tall but she had one...
fault: She had a bad memory...
ALJO's best friend was Kamezi...
Tweez Kamizi was a tall...
graceful giraffe with a long...
the longest, tallest neck...
Every afternoon the two...
friendly met in the clearing...

with a green. "I know that...
was something I had to do...
this morning I had to take...
the parade "What happened? Who...
walked through?" Did they choose...
anyone?"
"Yes they did," said Kamizi...
"They chose Wanjiku, the...
wait-bug, and she didn't look...
like a giraffe at all."
"Not that funny-faced brown...
pig?" said ALJO. "Not that...
lilly white animal who always...
purs with her tail sticking up...
at all because of ALJO's...
broader who once told her...
she was the Cutest Pig...
in the world?"

"Well, try and remember to...
come tomorrow morning," said...
Kamezi as she galloped...
gracefully away...
The next morning ALJO was...
as determined to go to school...
early she washed the house...
very path, enjoying the cool...
and water on them...
crackles of the fish bones...
and sat and watched on them...
from beneath...
Beverly to flower; she watched...
a hole in a tree. Tap, tap, tap...
making a hole in which to...

When she felt tired and...
hungry ALJO went home...
had enjoyed her day but now...
she was ready for school...
"ALJO ALJO!" it was Kamizi...
calling to her from...
"Hello Kamizi," said ALJO...
"You were not at school...

mind an apple that I cannot...
remember anything?"

TY OF HARD WORK WITH THE GLAMOUR OF THE AIR

By ANN GARRETT

THE air stewardess profession has become one of the most up-to-date vocations in the world today. It offers a career of glamour and adventure, and a chance to travel to all parts of the world.

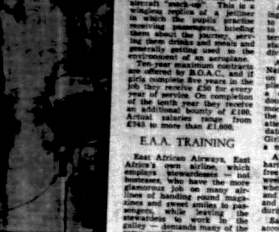

Because it means that she is working with all kinds of people, she must have a friendly and sociable personality. She must also be able to handle a delicate situation with grace and poise.

STAMINA NEEDED

"If you can imagine being on the air for 10 hours at a time, you should be able to handle the job. It is a very tiring job, and you must have a good deal of stamina to do it." The average air stewardess has to be on the job for 10 hours at a time, and she must be able to handle a variety of situations.

In the realistic world of a D.C.I. or air stewardess, you must be a "passenger" while the captain looks out the window. This means that you must be able to handle a variety of situations with grace and poise.

Qualifications for applicants by an airline vary. Essential requirements are excellent figure of average height and weight, and a friendly and sociable personality.

TODD'S APPEAL REJECTED

Restriction order not to be lifted

Parliamentary Secretary for Law and Order, Mr. Lordar-Burke, has rejected an appeal by the former Rhodesian Premier, Mr. Cordell, against an order restricting him to his ranch for one year. The order served on him last month as he was preparing to fly to Britain to take part in a televised discussion of the Rhodesian independence issue at Edinburgh University.

Mr. Todd, Prime Minister of Rhodesia from 1965 to 1968, was served on October 12 with a restriction order saying he had associated himself with the banned Zimbabwe African People's Union and with activities prejudicial to the maintenance of law and order. He denied the allegations.

Meanwhile, in London, the House of Commons agreed only to discuss the present situation of Rhodesia but not to end the present session of Parliament until Monday. This would allow Parliament to be recalled at any time over the weekend.

The Leader of the House, Mr. Bowden, made no reference to the Rhodesia crisis in announcing the Government's decision.

Archbishop's letter read

However, Government sources said the decision was taken at yesterday's Cabinet session so that in the event of a unilateral declaration of independence by the Rhodesian Government Parliament could react quickly at any time before the new session.

The British Prime Minister, Mr. Wilson, gave Parliament the text of the letter the Archbishop of Canterbury sent to him in Rhodesia after the outbreak of the crisis.

COMMITTEE LIST REJECTED AFTER STORMY DEBATE

Members of the House today had a stormy session after the committee list was rejected by a vote of 147 to 131. The House then adjourned until 10 o'clock tomorrow.

The House rejected the committee list proposed by the Government, which included the names of 147 members. The opposition, led by the Opposition, argued that the list was unfair and did not represent the interests of the people.

Yesterday in the House

FIREARMS MOVE REJECTED

M. A. Karim (Lalpur) today moved for the Government to introduce a Bill to amend the Firearms Act, 1920. The Bill proposed to increase the number of licenses for the possession of firearms and to reduce the amount of security deposit required.

The Opposition argued that the Bill was a concession to the underworld and would encourage the use of firearms. The Bill was rejected by a vote of 147 to 131.

ALLEGED ATTACK ON BANKER DEBATED

The House today debated a motion moved by the Opposition regarding an alleged attack on a banker. The Opposition claimed that a member of the House had made an inflammatory statement against a prominent banker.

The Government defended the member, stating that his statement was a fair and reasonable criticism. The motion was rejected by a vote of 147 to 131.

Cattle toll in drought: 12,000

It was likely that about 12,000 cattle had died in the Makgadikgadi Reserve as a result of drought, according to the Assistant Minister for Agriculture, Mr. Harrow, today.

Mr. Harrow stated that the drought was particularly severe in the Makgadikgadi Reserve, which is a large area of semi-arid land. He said that the Government was providing relief to the affected farmers and that the drought was expected to continue for some time.

FOR A SMOOZY DRIVER

I know one thing - if ever a car was designed for smoking around the city, this is it. Look under the hood, look under the bonnet, look at any part you like. You'll see why it's driving a Peugeot 204.

PETER WOODGROVE
describes the working of
Voluntary Service Overseas

people to live and work together and to develop their own initiative by undertaking — and always under some guidance — some useful work which meets real and practical needs.

Most are teachers and some are doing work which will be considered and rewarded by the Government at present stages.

Volunteers from all countries in the world are accepted by the V.S.O. in the United Kingdom, Canada, M. P. D. etc. They are sent to work in some 40 countries in Africa, Asia, South America, the Caribbean, India, the Middle East and Europe.

The need for voluntary workers is far greater than the numbers of the British Empire. Although the British Empire is still working on the American Peace Corps, the Red Cross, Canadian Overseas Service Overseas and other agencies.

It is not a question of the Government wanting cheap labour. Volunteers must be trained by a job which could be done by their own people.

Why are these young people willing to interrupt their careers? In some cases, they give up lucrative jobs.

Mr. Durt said: "I do not regard these people as 'volunteers' in the ordinary sense of the word. There are a number of reasons. There is the feeling of wanting to do something for the world and the belief that some other part of the world and the rest of the world at large is little or no expense to themselves."

"In the case of university graduates, the need for experience is one of the main reasons. There is the curiosity to see how people from other lands live."

"I had an instance in which three volunteers came to me and complained that they were not getting on with Africans. They said: 'We have not come to teach. Europeans, we have come to teach Africans.'"

V.S.O. was founded in 1952.

In the field — a volunteer collected with community development instructs one of her sewing groups. They are making dolls for sale in the area and the proceeds will be used for improving standards of living.

Young Voluntary Service Overseas workers arrive in East Africa to begin a year of unpaid service to underdeveloped communities or as teachers in every group of five arrivals at least half are young women.

although voluntary work began shortly after the First World War. The organization has three main aims. They are—

1. To help the developing nations solve their economic, technical and educational problems by offering them the skills and talents which are part of our heritage.
2. To improve relations and break down barriers in a multiple world by providing a field in which young people from different environments may make friendships and widen sympathies.
3. To give young people an opportunity for adventure service and to them with tasks in which their talents may find expression.

The organization receives requests for assistance from 28 countries, but not all can be

accepted. Launching an appeal to Britain to volunteer for work in countries in Africa, Asia, South America, the Caribbean and the Pacific, the Duke of Edinburgh recently said that more qualified volunteer graduates, and those with special skills, were needed to help the developing countries.

The Duke, who is President of the Council for Voluntary Overseas, said: "One of the greatest shortages is of people with agricultural qualifications and experience. There are many pools to be mined."

It was estimated that it costs Britain £200 for each volunteer sent overseas. The Ministry of Overseas Development met 25 per cent of the cost — the rest was paid for by national voluntary agencies.

The growing demand for

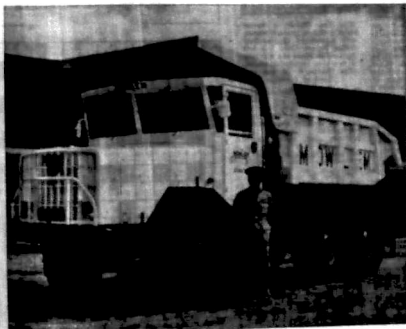

more workers means higher costs of administration, selection procedures, training courses and transport to and from the countries.

Kenya has a body with the object of promoting voluntary service on the domestic front, the Kenya National Council of Social Service. Its task is formidable.

Recently the Deputy Director, Mr. Dennis C. Bost, said: "Unfortunately, very few of us have grasped the idea of voluntary service. We urge people to volunteer their time and service — but not sufficient of us to set the example."

He appealed for greater participation by Kenyans. "Without this participation voluntary organisations can hardly become effective as they should in the social betterment of our people."

REPORTER 24 FARMERS' PITS ON SPECIAL LIST

Pressure by K.N.F.U. succeeds

Specialist Report
London

It is understood that about 80 of the farms do not really fit into the comprehensive category. British's concession over the 80 farms is a further delegation now in London.

The delegation's leader, Mr. J. B. Pollard, said yesterday that they had convinced the Ministry of Finance question, that for the comprehensive case there should be an "open-ended commitment" rather than a set amount of money to be provided as a "one-off" grant.

Mr. Pollard said that the Ministry's agreement to "open-ended" commitments were reflected the "groundswell" of sympathy created by the delegation's active lobbying during the past fortnight. He thought that this could be explained in advance by the Kenya Minister's terms due in London at the weekend for the Finance talks.

FAVOURABLE TERMS

Yesterday afternoon Mr. Pollard and Mr. M. Nowbath were due to meet the Minister of State for the Commonwealth Office, Mr. Chidwyn Hughes. This meeting had been arranged by his officials at the Ministry of Overseas Development.

As a result of all this, Mr. Pollard said a much more favourable offer was expected from the European mixed-farmers' Agricultural Committee, which managed to convince the Government to increase the Kenya long-term loan from £10 million to £15 million.

PROMISE OF AID WITH NO STRINGS ATTACHED

FOUR members of India's Parliament arrived in East Africa yesterday on "four-day goodwill and trade missions" to Uganda, Kenya, and Tanganyika.

Mr. J. B. Pollard said that the Government had agreed to provide a "one-off" grant of £10 million to the Kenya long-term loan.

Water plan needs help of council

THE Provincial Commissioner for Western Province, Mr. S. O. Josiah, has told the Bush District Agricultural Committee that for any rapid water development in the district, the Busha Council must lend a hand.

Mr. Josiah said that the Government's land use plan for the district was to be a "water plan" which would provide for the development of the district's water resources.

RODESIA ON THE MARCH Pro-Asian group to urge use of force

...nature of independence from Britain was followed last week by the imposition of massive economic sanctions against the Government of Mr. Ian Smith, including stoppage of all aid and a ban on tobacco purchases.

EDGE OF LOYALTY TO THE QUEEN

...Whereas in the course of a broadcast by Mr. Smith on the 11th it had become necessary for the Government to state that it was not necessary to take any other people and to assume another attitude to which they were not prepared to agree.

...The British Foreign Minister, Mr. James Callaghan, said in a speech in the House of Commons on the 11th that the Government would not be prepared to support the Government of Rhodesia.

President Kenyatta, surrounded by members of the Cabinet in a cabinet in Parliament Building, reads out the proposed statement on Kenya's attitude to the success of independence.

U.K. PRIME MINISTER CONDEMNS ACTION

The British Prime Minister Mr. Wilson, condemned the "unilateral declaration of independence" by the former Government of Rhodesia as an illegal act and one which would be taken against Rhodesia.

Mr. Wilson then announced the economic and other sanctions which will be taken against Rhodesia. He held a hushed House of Commons in which he included Rhodesia's removal from the sterling area; a halt to all British aid to the country, including the supply of arms and spare; a ban on further purchases of tobacco from Rhodesia; imposition of exchange controls; restrictions on Rhodesia's access to the London capital market; suspension of the 1962 Ottawa agreement on Imperial Preference; and suspension of the Commonwealth Sugar Agreement as it applies to Rhodesia.

Members of the armed forces and the police were ordered to remain loyal to the Government. Mr. Wilson said that any work which would further the Rhodesian cause would be treated as an act of treason.

There was a shout of approval from the Conservative Opposition benches when Mr. Wilson announced that Britain's chief delegate to the United Nations would resign his post as a result of the Rhodesian action.

Mr. Wilson said that the Government would be taking steps to ensure that the Rhodesian Government would not be able to carry out its policy of unilateralism.

Call for unity in 'this time of trial'

PRESIDENT Kenyatta said last night that the Kenya Government wholeheartedly supported its African brothers in Rhodesia and called upon them to unite in the hour of trial against the common enemy. After an urgently-called Cabinet meeting, the President called in journalists and said: "We strongly condemn the action of the Southern Rhodesian White-minority Government."

Surrounded by his Ministers in a chamber at Parliament Buildings, President Kenyatta read a statement to the House of Representatives and the Senate spent more than an hour debating the situation. There were many calls for Africa to unite and take up arms against the Smith "racist regime".

The job of President Kenyatta's statement was "All government meetings are held in a strongly condemnatory attitude to the Southern Rhodesian White-minority Government's declaration of independence in U.S.I."

"The Kenya Government will not recognise the illegal racist régime of the Southern Rhodesia and African Unity and the General Assembly of the United Nations."

World's opinion mostly hostile

WORLD reaction to the U.S.I. announcement was almost unanimously hostile. At United Nations headquarters in New York, African diplomats were holding urgent talks on the consequences. They were joined by the Organisation for African Unity's Secretary-General, Mr. Daniel Tefli, who is visiting U.N. for talks with U.Thant and other African leaders.

Reaction from other Commonwealth countries was also hostile. The Prime Minister, Mr. Robert Menzies, said that he had hoped that other "friendly" nations would support U.S.I.

The Opposition leader, Mr. Charles McEwen, said that he was disappointed that the Rhodesian Government had not been able to carry out its policy of unilateralism.

A SERIOUS BLUNDER SAYS KENYA

KENYA politicians, including a number of Ministers, were outspoken in their condemnation of Mr. Smith's "unilateral action" and a "tragedy" was among the consequences. Mr. Smith should be sent to a mental hospital.

REBELS SETTING UP POLICE STATE

In a television broadcast relayed this morning, the High Commissioner in Salisbury, Mr. Wilson, said that Rhodesia had taken a step backwards today but repeatedly stressed that Britain would not give up her responsibility for Rhodesia. He would make every effort to restore the principles of justice and law.

Mr. Wilson said that the Rhodesian Government had not been able to carry out its policy of unilateralism.

Cotton—cash crop with a future

A future for him. A future for his nation. Cotton is one of East Africa's most vital export industries. It is also one of her most vulnerable, being dependent on timely planting, regular rainfall and strict control of pests and weeds. A cash crop, cotton is always produced almost entirely by small farmers. Barclays are always ready to give advice and assistance to this important industry.

MAGICAL WORLD

One of the oldest products of the defunct art of the goldsmith, the gold tapper, is destined to share the joy of modern life.

In Kambini, Cape of Natal, has been learning the basic of the goldsmith for the past three years. He hopes to become a craftsman, but knows it will take more than three years to produce the goldsmith's art. He is now learning to make gold beads, which are a major ingredient in many ornaments.

Craftsmen's skill was handed down over the centuries

GOLD — the symbol of wealth which has caused more war, death and evil, and has given more joy and pleasure than any other substance on earth. In the hands of the greedy and criminal it is a force of harm; in the hands of a craftsman it becomes a thing of beauty and such as is produced through the art of the goldsmith.

Report and pictures by N. J. RUSSELL

...in the best form of investment. This all helps to increase the demand for the product.

The second basic law is that the goldsmith has to be able to produce the gold in the best form of investment. This all helps to increase the demand for the product.

The third element is the goldsmith's skill. It may take a skilled goldsmith ten hours to produce one ounce — but it will have a value of ten times the amount of the gold. The goldsmith's skill is the key to the goldsmith's success.

KNITTED WIRE

With the gradual influx of the machine into the ancient craft, a new kind of goldsmith is coming into being — the machine goldsmith. He is the one who uses the machine to produce the gold. He is the one who uses the machine to produce the gold. He is the one who uses the machine to produce the gold.

...gold tapper, who uses a special machine to produce gold tapper. The gold tapper is a machine that produces gold tapper. The gold tapper is a machine that produces gold tapper. The gold tapper is a machine that produces gold tapper.

Simple tools belie the craftsman's skill. Mr. Savi Patti brought that skill with him from a long line of goldsmiths at Kambini, near Johannesburg, in 1910 and has worked for the same firm in Nairobi since then. His brother, Nanji, works opposite him. Here Savi delicately taps the design on a gold bangle.
