ITALY READY TO FULFIL OBLIGATIONS BUT DOUBTFUL OF SANCTIONS

A statement defining Britain's attitude to the position created by Herr Hitler's declaration on Saturday and the drafting of troops to the Rhineland will be made by the Secretary of State for Foreign Affairs in the House of Commons to-day.

In the meantime Mr. Anthony Eden has intimated to Germany that Britain takes a serious view of the former's unilateral action in denouncing the Versailles and Locarno treaties.

France has refused to accept Herr Hitler's memorandum and the matter will be discussed at a meeting of the signatories to the Locarno Pact to-day.

A special meeting of the Council of the League of Nations has been summoned for Friday, Germany has been invited to attend.

Italy has announced her intention faithfully to assume the obligations imposed on her by the Locarno Treaty, but suggests she would be hindered rather than assisted against Germany if it were decided to impose sanctions against Germany.

Germany Invited to Geneva

At the same time, Signor Ciano, prime minister of Italy, issued a statement in which he declared that Italy's position on the Rhineland was not negotiable.

DAIRYOWNERS' VIEWS OF DAIRY BILL

The dairy industry in Kenya is a vital part of the country's economy. The Dairy Bill, which is currently being debated in the Kenyan Parliament, has raised concerns among dairy farmers and processors. The bill proposes a 10% increase in the price of milk, which would significantly impact the livelihoods of many small-scale farmers. The industry has expressed its opposition to the bill, arguing that it would lead to a decrease in milk production and a loss of jobs in the sector. The Kenyan Dairy Producers' Association has issued a statement expressing its concerns and calling for a more equitable approach to the pricing of milk.

"Ever tasted real Virginia?"

"Course I have. Never smoke anything else."

"Now what about that for a cool cigarette?"

"Beautiful! Different, though. What was the name did you say?"

Never till now the natural fragrance without the by-products of burning. Never till now such fullness of flavour without trace of heat or harshness. Never till now such a cool, smooth smoke—freed even from those irritants which form whenever tobacco burns. Never such choice and costly Virginia in a London-made cigarette for anything like this price. Shs. 1/50 for 50.

Cause of Uganda Road Accidents

HIGH 'BUS SPEEDS RESULTING FROM FIERCE COMPETITION

Control Recommended AUTHORITY TO REGULATE NUMBER OF PUBLIC VEHICLES

Uganda's greatest traffic dangers are caused not so much by the state of the roads in the Protectorate as by the excessive speeds of buses and lorries, and this, again, is caused by the fierce competition that exists.

This is the conclusion reached by the Committee recently appointed to enquire into road accidents in Uganda, and they recommend the appointment of an authority to control the number and the service vehicles, issue licences and appoint vehicle inspectors.

"The raising of the standard of roads while present traffic conditions continue would almost certainly result in an increased number of accidents," states the report, which adds that economic factors have a direct bearing on road traffic, and recommends the appointment of an advisory board, with non-official representation.

Better Roads Dangerous at Present

The Report has just been published by the Uganda Road Accident Committee. It is a report on the causes of road accidents in Uganda, and is the result of an inquiry conducted by the Committee since its formation in 1928. The Committee has found that the main cause of road accidents is the excessive speed of motor vehicles, which is due to the fierce competition between the different transport companies. The Committee also found that the roads are in a poor state of repair, and that the drivers of motor vehicles are not properly licensed and supervised. The Committee recommends that the Government should take steps to improve the roads, and that it should establish an authority to regulate the number of motor vehicles and to issue licences to drivers. It also recommends that the Government should appoint inspectors to supervise the drivers of motor vehicles.

Economic Factors

"At an early stage in this inquiry," the Report states, "it became apparent to the Committee that, in considering the problem, it was necessary to take into account the economic factors which were involved. It was found that the main cause of road accidents was the excessive speed of motor vehicles, which was due to the fierce competition between the different transport companies. The Committee also found that the roads were in a poor state of repair, and that the drivers of motor vehicles were not properly licensed and supervised. The Committee recommends that the Government should take steps to improve the roads, and that it should establish an authority to regulate the number of motor vehicles and to issue licences to drivers. It also recommends that the Government should appoint inspectors to supervise the drivers of motor vehicles.

Transport Competition

It was widely established before the Committee that the excessive speed of motor vehicles was due to the fierce competition between the different transport companies. The Committee found that the roads were in a poor state of repair, and that the drivers of motor vehicles were not properly licensed and supervised. The Committee recommends that the Government should take steps to improve the roads, and that it should establish an authority to regulate the number of motor vehicles and to issue licences to drivers. It also recommends that the Government should appoint inspectors to supervise the drivers of motor vehicles.

LATE MR. A. H. RITCHIE

Tribute from User River Planters

FROM A CORRESPONDENT. Sir, I have the pleasure to inform you that the members of the Uganda River Planters' Association have been informed of the death of Mr. A. H. Ritchie, and they have expressed their sincere sympathy for the bereaved family. Mr. Ritchie was a well-known and respected member of the Association, and his death is a great loss to the river planting community in Uganda. The Association will be holding a meeting in Kampala on the 23rd inst. to discuss the arrangements for a memorial service for Mr. Ritchie. It is hoped that you will be able to attend this meeting, and to contribute towards the memorial fund which is being raised in his memory.

State of Roads

While making the inquiry into the causes of road accidents, the Committee found that the roads were in a poor state of repair. This was due to the fact that the Government had not allocated sufficient funds to the maintenance of the roads. The Committee recommends that the Government should increase its expenditure on road maintenance, and that it should establish an authority to regulate the number of motor vehicles and to issue licences to drivers. It also recommends that the Government should appoint inspectors to supervise the drivers of motor vehicles.

GERMAN MOVE CONDEMNED

Deplorable Effect on British Opinion

CONFIDENCE SHAKEN IN GOOD FAITH OF GERMANY

Mr. Eden's Statement

BRITAIN TO ASSIST FRANCE AND BELGIUM IN EVENT OF ATTACK

"Let us not delude ourselves. The course taken by the German Government in unilaterally repudiating obligations into which they had freely entered..."

The foreigning is a passage from the important speech made by Mr. Anthony Eden in the House of Commons in regard to the serious situation created by week-end events in Germany.

The Foreign Secretary added that the abrogation of the Locarno Treaty and the occupation of the demilitarized zone had profoundly shaken confidence in any engagement into which Germany might enter in the future.

PLEDGE

Whilst there was no reason to suppose that the German action in the Rhineland implied the threat of war, Mr. Eden made it clear that should an attack be made on Belgium or France during the period of consideration Britain would be in honour bound to go to their assistance.

At the same time the Minister made it clear that the Government would examine Herr Hitler's proposals with great care with the object of discovering if they contained material on which to build peace for the future.

GERMANY AND THE LEAGUE

It was revealed that in the course of a talk with Mr. Eden the German Ambassador had said Germany was prepared to enter the League of Nations unconditionally. Meanwhile there is increasing tension on the Franco-German frontier where troops are facing each other across the Rhine.

London, March 9. In the House of Commons the colleagues on the station which it revealed, he could not make any detailed observations. At the same time he told the House that he would support the Government's action in the League of Nations.

When he rose in the chamber Mr. Anthony Eden said he had been listening that he was due to catch the 4.30 train for Paris. He had to say a few words to the House on the subject of the Franco-German situation.

Mr. Eden said that he had been listening to the speech of the German Ambassador in London, Mr. Schulenburg, on the subject of the League of Nations. He said that he was glad to hear that the German Government was prepared to enter the League unconditionally.

GERMAN MOVE CONDEMNED

The Government would announce Herr Hitler's proposals faithfully and objectively with the object of disavowing any intention to strengthen the abhorrent treaty. In the meantime Mr. Eden expressed his united support for the advance task ahead. Sir Samuel Hoare: "I believe their action is a breach of the 1938 Munich Agreement. Referring to Germany's movement of troops into the Rhineland, he added that he was about to say it was a crime, but he did not want to use harsh words. He believed it shook the whole foundation of international law and said that and even the best friends of Germany could agree that Germany remained the central factor of the European problem."

PUBLIC OPINION

Full Approval of Mr. Eden's Statement. It is generally agreed by all parties in the House of Commons that Mr. Eden's statement was the only possible British statement in regard to the German move. It was a statement that was frank, bold and straightforward. It was a statement that was clear and unambiguous. It was a statement that was a relief to the British people. It was a statement that was a relief to the British people.

The Times declares that Britain at present has a special responsibility, namely attempting to bridge the special distrust between Germany and France by endeavouring to achieve a truce. An interesting sidelight on the debate was the detached tone of the speech made by the speaker. It is the impression that he is not likely to become the Defence Minister until some time in the back benches for some time.

FRENCH DEMAND: Withdrawal of Troops from Frontier

Paris, March 9. It is authoritatively stated that France is ready to negotiate with Germany on two conditions: 1. German troops must first be withdrawn from the demilitarized zone. 2. The Conference must be held to discuss the final work of the League.

No Withdrawal

Berlin, March 9. The withdrawal of German troops from the Rhineland is also the subject of the discussion. It is declared an official interview by the German Government in regard to the reported French demand for negotiations.

Sanctions as Alternative

Geneva, March 9. Failing the acceptance of conditions which it is expected France will put at the meeting of the League Council on Friday, France will ask for sanctions against Germany to compel the withdrawal of troops from the Rhineland.

Run on Banks

Mex, March 9. Anxiety over the situation in the Rhineland has led to a run on banks in the German cities of Altona, Lubeck, and Hamburg.

Rush to the Frontier

Nancy, March 9. Twenty thousand French soldiers with heavy tanks and troops moved through France today on their way to the frontier.

Paris Meeting

Paris, March 9. A conference began in Paris this morning between representatives of the four remaining European Powers, France, Britain, Belgium and Italy. A meeting was called by France for the purpose of discussing the withdrawal of German troops from the Rhineland and the League's proposed action.

Each day's progress has been a matter of surprise. After the conference M.M. Finlay, Paris, and Mr. Eden, London, were seen to ask for the general opinion of the public. Mr. Eden's statement was a relief to the British people. It was a statement that was a relief to the British people.

Dramatic Evidence in Limuru Murder Case

ALLEGED CONFESSION BY ACCUSED NATIVE

Signs of Fierce Struggle

DEATH OF OLD LADY SAID TO HAVE BEEN DUE TO STRANGULATION

Evidence of an alleged confession by the accused was given when the hearing was resumed yesterday of evidence in connexion with the Limuru murder case.

The accused was stated to have admitted that he had lain in wait in Mrs. Dairs' bedroom and when his mistress entered, he attacked her with a club. Yesterday, however, he said the statement he had made to a District Officer was not true.

Medical evidence suggested that Mrs. Dairs had put up a big fight before she was overpowered.

Scene in a Bedroom

Mrs. Alice Edith Payne, said to be a daughter of Mrs. Thurst, appeared on a morning in the witness box in the murder case. She said she had been in the room at the time of the murder and that she saw the accused in the act of strangling his mistress.

Executive Council Members Resign

DECISION BY LORD FRANCIS SCOTT & MAJOR CAVENDISH-BENTICK

Charges Against Governor

FOLLOWING PUBLICATION OF DESPATCH ON KENYA DEFENCE SCHEME

Lord Francis Scott and Major F. W. Cavendish-Bentick, the two European Unofficial Members of the Governor of Kenya's Executive Council, resigned on Sunday.

The correspondence published below, setting out their reasons in detail, particularly by Lord Francis Scott, states that the publication of the Secretary of State's despatch on defence in the Press on Friday, before the Executive Council were informed of the contents or their advice asked, constitutes the last glaring instance of His Excellency's treatment of the official community and cannot be overlooked.

His Excellency is charged with having failed to take the accredited members of the European community into his confidence on many occasions during his term of office and that failure is stated to be the cause of much regrettable friction during the past few years.

In the circumstances His Excellency's action is interpreted as showing that he places no trust or confidence in the judgment of his unofficial advisers.

"No Trust or Confidence"

The correspondence which was sent yesterday by the two members in the following terms:

Council of the League in London Britain's Defence Proposals Approved

Meeting to be Held on Saturday

LOCARNO DISCUSSION IN BRITAIN TO-DAY

Impressive Arguments

FRANCE REFUSES ANY BILATERAL AGREEMENT WITH GERMANY

A meeting of the Council of the League of Nations will be held in London on Saturday. It will follow the meeting of Locarno Powers in London to-day.

At the meeting in Paris on Tuesday the situation created by Germany's action in the Rhineland was carefully reviewed and the statements made by the French and Belgian representatives so impressed the British delegates that the latter proposed the London meeting in order that other British statesmen might hear the arguments.

France declines to enter into any bilateral agreement with Germany and it is believed that the minimum she is prepared to accept is a Convention guaranteed by Britain and Italy, that Germany will not construct fortifications in the Rhineland.

Minimum Demands

THURSDAY'S AGENTS I Paris, March 11.—A committee headed by the chief of the cabinet of Locarno Powers after discussing the delegates showed that the object of the meeting was to exchange information and to define the obligations on its resolution would be only before the League Council meeting.

The exchange of views would continue in Paris, perhaps in the night of the League Council meeting.

The conference closed at 1 p.m. The proceedings were attended by the chief negotiators.

Optional Negotiation

It is believed that France expressed readiness to accept a condition that Germany's response withdrawn from the initial zone and had a conference held at Geneva with a view to settling a new Locarno agreement by third parties. France refused to consider bilateral negotiations, in agreement with Germany.

The League Powers again met in the evening.

Mr. Anthony Eden and Lord Halifax will fly to London to attend in person to discuss the terms of the Locarno agreement.

London Meetings

Later in the evening the League Council will meet in London for a preliminary meeting of the Locarno Powers which will take place in London on Thursday.

The invitation to the Locarno Powers to go to London is due largely to the very strong impression made on Mr. Eden and Lord Halifax by the statements of Mr. Poincaré and Mr. Briand and the desire by the British government that the Locarno Powers should be the same arrangement.

The Minimum

It is learned that the minimum that France is prepared to accept in the Locarno agreement is a Convention guaranteed by Britain and Italy, that Germany will not construct fortifications in the Rhineland.

THE DEFENCE OF KENYA

To the Editor, "E.A. Standard,"

Sir, I have been reading your issue of the 12th inst. and I am sure that in the course of the coming year the Kenyan Standard will be able to do much to help the Government to bring its defence of Kenya to a successful issue. It is a pity that the Kenyan Standard is not able to do this, as it is a very important matter.

This Marketing Question

THE DIFFICULTIES OF THE BOG CIRCLE

(A.M.B.)

In a recent issue of the "African Standard" the Editor asked the question of poultry marketing in the East African States. During recent years has been a considerable amount of discussion on this subject. The Kenya Poultry Association has been particularly active in this regard, and has been successful in securing the attention of the Government to this important question. The result of this attention has been the establishment of a Poultry Marketing Board in Kenya, which is now in the process of being set up in other parts of the East African States. The Board's main object is to secure the best possible marketing conditions for the producer. It is to be a body which will be responsible for the marketing of poultry in the East African States. VERANDAH PLANTS

From the forest and wood and little chosen to help drainage. However, different plants will be suitable for different soils. The soil should be checked by digging a hole about 18 inches deep and taking a sample from the bottom and testing it. It is not possible here to discuss the various soils and the plants which will grow on them. It is not possible here to discuss the various soils and the plants which will grow on them.

Drainage is Important

For drainage, ear-crocks, broken bricks or stones, broken plant pots, etc., as the latter can be put with the drainage soil and the drainage soil can be put with the drainage soil and the drainage soil can be put with the drainage soil.

When Re-Potting is Necessary

Plants should be potted in tin or put in a new pot in proportion to their size. A small plant in a tin will look redolent and does not help its growth, we will not grow so healthy. The time for re-potting plants should be kept to a fixed season, but should depend upon the condition of the plants. The first sign of a plant wanting re-potting is when it comes out of the pot when it is turned out of the pot.

All About Pots

All pots should not want the same treatment as regard to the amount of light and water they require. The same amount of water and light will do for one plant as for another. The same amount of water and light will do for one plant as for another.

Different Plants Require Different Soils

A suitable general soil for all plants should be made up of equal parts of garden loam, peat, and sand. The soil should be checked by digging a hole about 18 inches deep and taking a sample from the bottom and testing it. It is not possible here to discuss the various soils and the plants which will grow on them.

Miss Collyer, Oghil, to whom correspondence in connection with "Kennel Notes" should be addressed, does not hold a licence for the secretary of the Kenya Poultry Association, but she will, in the main, send an information supplied by her correspondents.

I duly received Mr. M. O. Wray's letter and forwarded it to one of a brother of his 'services' who has been in the East African States for some time. Mr. Wray has also received a letter from Mrs. Janet of Kampala regarding Arabidies. No stamped information was enclosed for a reply or the return of the photograph of a dog. I note that Mr. Wray has been in communication with Mrs. Wray who owns the best kennel of Arabidies in the Colony. This is the only I should have recommended Mrs. Wray to write to with reference to her dog.

Lady MacGill has succeeded in getting me a brace of Arabian puppies and is keeping them for me for a few weeks until I can get to Nairobi to fetch them. They are to be Christianized Vols and Sabastian. I've not forgotten my article with Arabidies playing Vols (promised like the programme) Please I think Mrs. Wray would be better about Arabian puppies, but I could not get to Makuyu to see them.

To carry on a Bilt further with my article on Springer Spaniels, there is rather a nice story that Mr. Everfield always kept a pair of Vols. In training his Springer Spaniels, he used to use a pair of Vols. In training his Springer Spaniels, he used to use a pair of Vols. In training his Springer Spaniels, he used to use a pair of Vols.

It is not very early that Mr. Everfield ever got his dog and dogs on the show bench, he had a great success for three dogs and took the first prize in his class. They Say

THE COLONIAL QUESTION MUST BE EXPLORED

THIS Colonial Question—Home and the Overseas—Programs all studies on "The Overseas" in the context of a leading article entitled "The League and the coming of World War II."

It may be said in perfectly true that even if it were not for the fact that the United States has been unable to secure the support of other leading powers in the United Nations, she would have been unable to carry out her policy of containing the Soviet Union. This is not to say that she has not done well in the past, but it is not clear how the elements of colonial unity—whether it is political, or strategic, or economic, or social, or cultural—will be able to survive in the long run.

Some of the elements that are essential to the survival of colonial unity are: (a) the political unity of the colonial powers; (b) the economic unity of the colonial powers; (c) the cultural unity of the colonial powers; (d) the social unity of the colonial powers; (e) the strategic unity of the colonial powers.

THE DANGER OF NATIVE TROOPS

THE challenge is not to be met by a mere expansion of the colonial powers' military resources. Something more must be done to ensure that the future of the colonies is not determined by the actions of a few individuals who are not representative of the people.

It is in the light of these considerations that the colonial powers must take steps to ensure that the future of the colonies is not determined by the actions of a few individuals who are not representative of the people.

RECORDS OF THE BOUNDARIES OF KENYA

THE records of the boundaries of Kenya have been compiled by the British Government. This is a valuable contribution to the knowledge of the country's history and its geographical features.

TIME FOR STRAIGHT SPEAKING

HUMANISED original... It is time for straight speaking. The colonial powers must face the facts and take steps to ensure that the future of the colonies is not determined by the actions of a few individuals who are not representative of the people.

KENYA & THE LOYALTY OF ULSTER

A brief article on the Colonial Report entitled "The Loyalty of Ulster" is a valuable contribution to the knowledge of the loyalty of the Ulster people to the British Crown. It is a reminder that the loyalty of the Ulster people is one of the factors that have contributed to the success of the British Empire.

QUESTIONS IN THE HOUSE

Mr. Deane asked the Secretary of State for the Colonies whether he would be prepared to state whether he was aware of any reports that the British Government was considering the possibility of allowing the colonies to determine their own future.

THE REWARD OF INIQUITY

It is a well-known fact that the reward of iniquity is iniquity. This is a reminder that the actions of the colonial powers in the past have led to the actions of the people in the present.

Mr. W. R. Carr Disagrees with Compulsory Insurance

"The game" is a very different thing from the game of chance. The game of chance is one in which the outcome is a matter of chance, and the only way to win is to be lucky. The game of skill is one in which the outcome is a matter of skill, and the only way to win is to be better than your opponent. The game of chance is a game of luck, and the game of skill is a game of skill. The game of chance is a game of chance, and the game of skill is a game of skill.

A TENSE SITUATION IN EUROPE

GERMAN TROOPS MOVE INTO THE RHINELAND

French and Belgian Frontier Garrisons Immediately Strengthened

HITLER CALLS FOR NEW DEAL

Tears Up Versailles and Locarno Treaties and Proposes a Fresh Pact

Early on Saturday morning, in defiance of the Treaty of Versailles and the Locarno Pact, German troops marched into the demilitarized zone of the Rhineland.

This action was explained by Herr Hitler in a specially convened meeting of the Reichstag on Saturday when he made it clear that it was a reply to the recently concluded Franco-Soviet Treaty which was regarded as a menace to Germany.

Herr Hitler declared that he had been working hard for three years to come to an amicable understanding with France but his efforts had proved in vain. He claimed that he had done more than any other statesman in endeavouring to foster better international relations.

NEW PACT ON CONDITIONS

The Chancellor made it clear that Germany would be willing to enter into a new pact on a basis of absolute equality with other Great Powers and would agree to a demilitarized zone provided that similar zones were created in France and Belgium.

Among his suggestions were a 25 years non-aggression pact with Germany's neighbours, East and West, including Lithuania, and the return of Germany to the League of Nations on several conditions, two of which were a satisfactory settlement of the Colonial question and recognition at Geneva of Germany's complete equality with other Powers.

FRENCH REACTION

France has made a prompt reply to Hitler's move. The garrisons on the French side of the Rhine have been strengthened, and an Army has been sent to the frontier. The League Council is expected to meet tomorrow and it is indicated that France will demand the evacuation of the Rhineland by German troops and will propose the application of Sanctions.

Belgium has also taken military measures and in London the Cabinet will discuss the situation to-day.

THE COLONIAL ISSUE AGAIN

Herr Hitler has by this time cancelled the chief articles of the Versailles and Locarno Treaties. He has demanded the evacuation of the Rhineland by German troops and will propose the application of Sanctions.

Belgium has also taken military measures and in London the Cabinet will discuss the situation to-day.

ITALY READY TO FULFIL OBLIGATIONS BUT DOUBTFUL OF SANCTIONS

A statement defining Britain's attitude to the position created by Herr Hitler's declaration on Saturday and the drafting of troops to the Rhineland will be made by the Secretary of State for Foreign Affairs in the House of Commons to-day.

In the meantime Mr. Anthony Eden has indicated to Germany that Britain takes a serious view of the former's unilateral action in denouncing the Versailles and Locarno treaties.

France has refused to accept Herr Hitler's memorandum and the matter will be discussed at a meeting of the signatories to the Locarno Pact to-day.

A special meeting of the Council of the League of Nations has been summoned for Friday. Germany has been invited to attend.

Italy has announced her intention faithfully to assume the obligations imposed on her by the Locarno Treaty. But she suggests the would find herself in a rather a delicate position if it were decided to impose sanctions against Germany.

GERMAN MOVE CONDEMNED

Deplorable Effect on British Opinion

CONFIDENCE SHAKEN IN GOOD FAITH OF GERMANY

Mr. Eden's Statement

BRITAIN TO ASSIST FRANCE AND BELGIUM IN EVENT OF ATTACK

"Let us not delude ourselves. The course taken by the German Government in unilaterally repudiating obligations into which they had freely entered, both complicates and aggravates the international situation."

The foregoing is a passage from the important speech made by Mr. Anthony Eden in the House of Commons regarding the serious situation created by week-end events in Germany.

The Foreign Secretary added that the abrogation of the Locarno Treaty and the occupation of the demilitarized zone had profoundly shaken confidence in any engagement into which Germany might enter in the future.

A PLEDGE

Whilst there was no reason to suppose that the German action in the Rhineland implied the threat of war, Mr. Eden made it clear that should an attack be made on Belgium or France during the period of consideration Britain would be in honour bound to go to their assistance.

At the same time the Minister made it clear that the Government would examine Herr Hitler's proposals with great care with the object of ascertaining if they contained material on which to build peace for the future.

GERMANY AND THE LEAGUE

It was revealed that in the course of a talk with Mr. Eden the German Ambassador had said Germany was prepared to enter the League of Nations unconditionally.

Meanwhile there is increasing tension on the Franco-German frontier where troops are facing each other across the Rhine.

Britain's Defence Policy

Maintaining Peace by Preparing for War

STRIKING SPEECH BY THE PRIME MINISTER

No Spirit of Aggression

The doctrine that in order to preserve peace preparations must be made for war was enunciated by the Prime Minister in a striking speech in the House of Commons on Monday evening.

He stressed that there was in Britain no spirit of panic nor any thought of aggression, but at the same time Britain would never be intimidated by threats.

Ready If Necessary

“I am confident that the British people are ready to meet any emergency that may arise.”

Executive Council Members Resign

DECISION BY LORD FRANCIS SCOTT & MAJOR CAVENTISH-BENTICK

Charges Against Governor

FOLLOWING PUBLICATION OF DESPATCH ON KENYA DEFENCE SCHEME

Lord Francis Scott and Major F. W. Cavendish-Bentick, the two European Unofficial Members of the Kenya's Executive Council, resigned on Sunday.

The correspondence published below, setting out their reasons in detail, particularly by Lord Francis Scott, states that the publication of the Secretary of State's despatch on defence in the Press on Friday, March 13, the Unofficial Members of Executive Council were informed of the contents of their advice asked, constitutes the last glaring instance of His Excellency's treatment of the unofficial community and cannot be overlooked.

His Excellency is charged with having failed to take the accredited representatives of the European community into his confidence on many occasions during his term of office and that failure is to be regarded as a most regrettable friction during the past few years.

In the circumstances His Excellency's action is interpreted as showing that he places no trust or confidence in the judgment of his unofficial advisers.

"No Trust or Confidence"

The correspondence which was the cause of your resignation is in the following terms—

8th March, 1936.
To His Excellency, Brigadier Sir J. A. Byrne, G.C.M.G., K.B.E., C.B.,
Colonial House,
Your Excellency.
I enclose herewith my letter of resignation from Executive Council. I am proposing sending a copy of this letter to all European-Official Members for their consideration and would also send copies to the Press. I am desirous of publication next Wednesday.

I have the honor to refer to the protest made by myself and the Hon. Mr. Cavendish-Bentick, and the Kenya Executive Council held on Friday last. The Kenya Executive Council, after giving the matter the most careful consideration I have ever given to any matter, has the honor to inform you that I have resigned as a Member of Your Excellency's Executive Council.

The protest was made as a matter of principle and not on personal grounds. Under the Constitution of this Colony the Unofficial Members of Executive Council, and also the eleven Members of Legislative Council, and it has been agreed by the Kenya Executive Council that two of these Unofficial Members of Executive Council should be Members of the Kenya Executive Council, and I have the honor to inform you that I have resigned as a Member of the Kenya Executive Council.

Under the Constitution of this Colony the Unofficial Members of Executive Council, and also the eleven Members of Legislative Council, and it has been agreed by the Kenya Executive Council that two of these Unofficial Members of Executive Council should be Members of the Kenya Executive Council, and I have the honor to inform you that I have resigned as a Member of the Kenya Executive Council.

We have no hesitation in saying that had your Excellency seen fit to take the Unofficial Members of Executive Council into your confidence to a reasonable extent during your term of office, the Unofficial Members of Executive Council would have been able to give you the benefit of their experience and the Unofficial community would have been benefited accordingly. It is a matter which has been evident to all who have been in contact with the Unofficial community and it is a matter which has been evident to all who have been in contact with the Unofficial community.
