NEW MEASURES TO COMBAT CRIME

Closer policing of certain Kikuyu districts

NEW measures to combat lawlessness in Kenya— they include immediate redistribution on residents of areas where Mau crimes are committed and the employment by the Government of an expert on psychological warfare—were announced by the Chief Secretary, Mr. H. S. Peto, in Kenya Legislative Council yesterday.

Following the announcement, and another by the Member for Law and Order, Mr. John Wiggat, that half the stock recently impounded in Kenya will be confiscated by the Government, Mr. E. W. Mathu, Leader of the African Members, made an impassioned speech in favour of the program and urged the Government of the decent, loyal Kikuyu.

In his 20-minute address, the Chief Secretary dealt with many aspects of the Government's plans for the tightening of action against present lawlessness and the persons involved. He assured the Council that he was fully appraised of the damage done to the program by the Kikuyu and its consequences.

"A Bill will shortly see me in the House," he said, "and I shall be glad to have the views of all members on this subject." He also announced that he was making a tour of the country to see the situation first-hand.

WITCH DOCTOR ATTACKED, NOT CHIEF

Mr. Peto, in his address, also mentioned the case of a witch doctor who had been attacked and killed by a Kikuyu. He said that the Government was taking steps to ensure that such incidents were not repeated.

CHAIRMAN OF LINT BOARD

Full-time Uganda post for Mr Cyril Spencer

Mr. Cyril Spencer, who has been appointed full-time chairman of Uganda Lint Board, was yesterday named in the speech by the Chief Secretary, Mr. H. S. Peto, in the Legislative Council in Kampala.

Mr. Spencer, who is a member of the Uganda Legislative Council, was appointed to the post of chairman of the Uganda Lint Board, which is responsible for the control of lint in Uganda.

To advise on security

Security Council to advise on security

The Security Council, the Government said, will advise on security matters. The Council will be asked to advise on the security situation in Kenya and to recommend measures to be taken to improve security.

Seven to aid Minister

Mr. O'Brien, Minister of Education, said that seven members of the public would be appointed to the Education Council to assist him in his duties.

Next year

Mr. Peto said that the Government had decided to introduce a new tax for the next year. The tax would be levied on the profits of certain businesses and would be used to finance the Government's development program.

Hermes grounded at wet Fastleigh

Wet conditions grounded Hermes

The Hermes aircraft was grounded at Fastleigh due to wet conditions. The pilot reported that the runway was too wet for the aircraft to land safely.

Kilifi Kikuyu screened; four detained

Four Kikuyu were screened in Kilifi and four were detained. The police are investigating the activities of these individuals and their connection with Mau activities.

£2,400—more to come—raised by Poppy sales

More than £2,400 has been raised by the sale of poppies. The money will be used to support the welfare of the war-torn people of Kenya.

Easy to suggest loans for Africans, but—

QUESTION OF SECURITY

THE question of providing finance for African farmers and traders was dealt with by the Hon. Mr. J. H. Bessibho, yesterday when explaining the reasons for the delay in the African Agricultural Area Bill.

Policy

Mr. Bessibho said that the Government's policy was to provide loans to African farmers and traders. However, the question of security was a major factor in the Government's decision to delay the bill.

TRUCK FIRED ON IN NAKURU AREA

African passenger hurt

A truck carrying African passengers was fired on in the Nakuru area. One passenger was injured and the truck was damaged.

India to make jets

India is planning to manufacture its own jet fighters. The Government has announced that it will invest heavily in the development of the Indian jet industry.

SEPARATE LONDON H Q UROUD

Uganda is inadequately represented by the East African Office in London because Kenya's interests always take pride of place and if the Protectorate is ever to be properly represented the most break away from the Protectorate Group office and set up her own office elsewhere.

Realistic Budget now out of date

The urgent need for the swift conclusion of the State of Emergency in Kenya was stressed by Mrs. B. R. A. Lawrence, a leading member of the Kenya Shaw Commission for Nyanza, who has been throughout the emergency.

The Budget, which detailed, but had no room for manoeuvre, had moved so far that it was now a mere statement of fact.

Already it was clear that the Government had failed in its attempt to deal with the situation in a realistic manner.

Standstill

Apart from the loss of life and property, the standstill order has done little to help the situation.

No evidence to show present body is inefficient or unduly costly, but... BBOTSON REPORT URGES NEW MAIZE CONTROL BOARD

After several weeks of more kind of control with the maize industry, because of the fact that in 1929 the collapse of the export market has a most serious effect on the maize producing countries. Now the Board has issued its report on the state of the industry.

The report states that the present body is not inefficient or unduly costly, but it is not recommended that the present body be continued. It is suggested that a new board be formed, which should be empowered to regulate the maize industry, and to control the export of maize.

The report also states that the present body has not been successful in its efforts to control the maize industry. It is suggested that a new board be formed, which should be empowered to regulate the maize industry, and to control the export of maize.

Public utility corporation to raise capital suggested

It is suggested that a public utility corporation be formed, which should be empowered to raise capital for the development of the public utility industry. This corporation should be able to issue bonds and other securities to raise the necessary funds.

Maize profits not to offset losses

It is suggested that the profits from the maize industry should not be used to offset the losses from other parts of the industry. This would ensure that the industry remains viable and profitable in the long run.

No evidence of inefficiency

There is no evidence of inefficiency in the present body. The report states that the body has been successful in its efforts to control the maize industry, and that it has not been unduly costly.

Will give Africans more say in education

It is suggested that Africans should have more say in the education of their children. This would ensure that the education is relevant to their needs and interests.

Contributions

Contributions should be made to support the various projects and initiatives of the organization. This would help to fund the development of the community.

‘An awful long way to go’ in agriculture

It is suggested that there is a long way to go in the development of the agriculture industry. This would require significant investment and effort to improve the productivity and efficiency of the industry.

Kenya Member's View

The Kenya Member's view is that the current policies are not sufficient to address the needs of the agriculture industry. It is suggested that more support be provided to the farmers and the industry.

Movement from store to consumers

It is suggested that the movement of goods should be from the store to the consumers. This would ensure that the goods are available to the consumers at a reasonable price.

Awards

Awards should be given to recognize the achievements of the individuals and organizations in the industry. This would provide an incentive for them to continue to work hard and improve their performance.

THE WORLD'S ONLY GLIDER FACTORY

It is a far cry from the city of Nairobi to Yorkshire, England. But in a remote corner of a narrow country lane is the world's only glider factory. And from that factory, the water machine which will make the Club airplane for the first time.

The 50-odd members of the Club will use the machine for the training of pupils at the proposed flying site near Nairobi, West Africa.

But this is the story of the factory — the world's only one devoted to the production of gliders. A few other companies make the machines as a sideline to their main product. In Yorkshire, are engaged in the production of those pull-like power-driven aircraft.

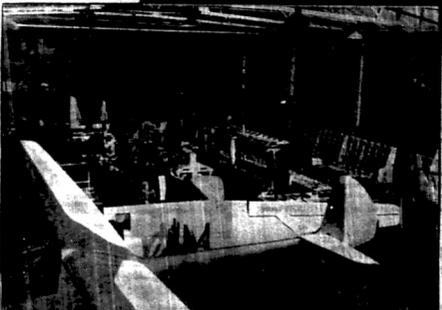

Proctor, Simplicity has joined with others in the production of the factory in the firm's own hands. This factory are performed thereon which has seen thousands and four years. It is only 20 years as a civilian gliding club at Bolton, West, a busy district near the factory.

Thing of beauty

The airplane is a lovely thing. On the ground or in the air it has upward wings and the astonishing power of its fast landing. It is a thing of beauty which has seen thousands and four years. It is only 20 years as a civilian gliding club at Bolton, West, a busy district near the factory.

(Continued on page 28)

The right airplane comes to be used in the firm's machine. A great many airplanes were to be made in the factory before it was built. The first airplane was built in the factory in the firm's own hands. This factory are performed thereon which has seen thousands and four years. It is only 20 years as a civilian gliding club at Bolton, West, a busy district near the factory.

Gifts of cheapness and charm

By Mary Kenney
CHRISTMAS is on its way again, and we are all wondering just how we shall stretch the income to buy the necessary quantities of presents for our loved ones. We are all so busy that we have not had time to think of the gifts we are always following.

For gifts—oh, just the necessities—such as the little things which are so useful to their daily wardrobe, you can choose from the wide variety of gifts which are available in the Christmas season. The gifts are so varied that you can choose from the wide variety of gifts which are available in the Christmas season. The gifts are so varied that you can choose from the wide variety of gifts which are available in the Christmas season.

Those odd scraps

If you are one of those who are always looking for the best of the best, you will be interested in the little things which are so useful to their daily wardrobe. You can choose from the wide variety of gifts which are available in the Christmas season. The gifts are so varied that you can choose from the wide variety of gifts which are available in the Christmas season.

Grow-ups, too

Adults can also be catered to with a little thought. The gifts which are so useful to their daily wardrobe are available in the Christmas season. The gifts are so varied that you can choose from the wide variety of gifts which are available in the Christmas season.

London Coronation hats for U.S.A

By Dorothy Barkley

NOT so long ago, film-actress Zsa Zsa Gabor remarked during a visit to London that, "Not taking on this challenge, London fashion. It is to be the best of the best, you will be interested in the little things which are so useful to their daily wardrobe. You can choose from the wide variety of gifts which are available in the Christmas season. The gifts are so varied that you can choose from the wide variety of gifts which are available in the Christmas season."

It has taken for his theme the design of a hat. The hat is so varied that you can choose from the wide variety of gifts which are available in the Christmas season. The gifts are so varied that you can choose from the wide variety of gifts which are available in the Christmas season.

AMONG every hat is designed to be worn with a certain type of dress. The hat is so varied that you can choose from the wide variety of gifts which are available in the Christmas season. The gifts are so varied that you can choose from the wide variety of gifts which are available in the Christmas season.

Because of their price, these model hats can only be reproduced now with the same quality as the original. The hat is so varied that you can choose from the wide variety of gifts which are available in the Christmas season. The gifts are so varied that you can choose from the wide variety of gifts which are available in the Christmas season.

"Black hair is an excellent hat of black, lined with black, and with a black veil." - Dorothy Barkley

THE FIRST LOVAT TWEEDS WERE WORN BY GILLES

By J. E. Fairbairn

FIFTY-two years ago, some one used in the then Lovat, Scotland, to remain loyal to their country. The man whose name is famous in Scottish history, raised a corps of military gaiters, which were made from gaiters from his Scottish estates. The gaiters, which were made from gaiters from his Scottish estates, were made from gaiters from his Scottish estates.

WEDDINGS

A record of happy marriages, set as carried as they grow older. For older couples there is a charming, individualistic, long, married yellow with a contented look, which is a married couple.

The ceremony was conducted by Bishop Boucher and the presence of Mr. and Mrs. Coulson.

STRAND-WALKER

UNDISTURBED by a postponement of the wedding of the year in 1951 was the marriage of Miss Robert King, daughter of Mr. and Mrs. Robert King, of the Strand-Walker and Lady Betty King, of the Strand-Walker, at the Catholic Church of the Holy Family on Sunday, November 17.

The bride, the grand-daughter of the late Lord Denham, was given away by her father, and wore a smart, light blue gown with a smart, light blue sash. The bridegroom wore a tuxedo with a white shirt and a white tie. The ceremony was officiated by the Rev. Fr. Michael Llewellyn, who acted as officiant in the ceremony.

The church was festooned with yellow, blue and white flowers. The ceremony was officiated by the Rev. Fr. Michael Llewellyn, who acted as officiant in the ceremony.

UNIVERSITY FOR SOLDIERS

Sandhurst, Britain's Royal Military Academy

BY RONALD CLARK

KING HUSSEIN of Jordan who at the age of 17, is starting a two-month course at Sandhurst, the British military academy, should do more generally any other in Britain, who is the latest in a long line of visitors to this world-famous institution.

Today, more than two per cent of the 600 officers who pass the most discriminating test at Sandhurst's military academy are from overseas. In the last two and a half years Jordan, of King Abdallah, has sent 12 officers to Sandhurst from West Africa, 12 from Burma, 12 from India, 12 from Malaya, 12 from Malaya, 12 from Pakistan and one from Korea.

From all the highest mental and physical qualities are demanded, and with only a few exceptions they are treated identically. Any differences

which may be noted are due to the fact that the British military academy is a staff of 1,000.

TEA-TIME TREAT

Gooseberry Gateau

THIS WONDERFUL GATEAU is to be a lady's gold medal, but you've an idea how easy it is! You just can't go wrong if you use Royal Baking Powder. Royal will make the sponge so light it melts in your mouth! Surprise your family with Gooseberry Gateau tomorrow!

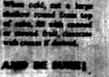

INGREDIENTS:

8 oz. Butter
4 level spoons Royal Baking Powder
1 lb. of soft sugar
2 eggs
1/2 lb. of flour

METHOD:

Put butter, sugar, Royal and milk in the fat paper and mix well. Add the flour and a dropping consistency with the Royal. Place in a greased 'kitchen' tin. Bake in moderate oven for 1 1/2 hours, 770° (Regent 4). When cold, cut a large shallow round from top of cake, fill with cream or jam. Decorate with cream or jam. Bake in moderate oven for 1 1/2 hours.

Solicitor-General draws on his Malayan experience

—AND ISSUES A WARNING

THE Solicitor-General, Mr. V. N. Subramaniam, has warned Kenya Legislative Council against a policy of not making a clear enough distinction between short-term measures to be adopted against the present threat. He did not agree that a short-term plan would be implemented without regard for the long-term. The two were linked.

Having come from Malaya, not only as a member of the Government but also as a legislator, Mr. Subramaniam pointed out that in Malaya, the Government had to deal with a situation that had been created by the British. He said that the Government's policy was to deal with the situation without regard for the long-term.

that which will bring trouble to the Government if it had been to do a complete re-orientation of policy.

The right should be to the end of the Government's policy. It should be to the end of the Government's policy. It should be to the end of the Government's policy.

Slow play in the Railway foursomes

ACTION MAY BE NECESSARY Standard Golf Correspondent THE leisurely quality of the Railway mixed foursomes, nowadays played at Murrumbidgee on Saturday afternoons when 23 couples competed for 12 places. At first sight they look rather like the mountain going in labour and bringing forth a mouse. But on reflection the conditions of a competition have to be laid down in advance, and it is not known how many of the couples will eventually form the starter for the quality prize.

On this occasion only one couple were eliminated, but their names were just over the top and they were not to be counted for the purpose. There was no cause for complaint. There were 22 foursomes in the grounds for the purpose of the match, but only 10 were actually played. The match was a good one, and the players were well matched. The match was a good one, and the players were well matched.

Barnes' omission highly criticised

AUSTRALIAN PRESS COMMENT

AUSTRALIAN morning newspapers yesterday carried an item from the press of the omission of Sid Barnes from the Australian Test team to play South Africa in Brisbane on December 5. Under the heading "The end of a career" the Melbourne Sun Pictures' cricket writer Ken Hogg, who had Barnes' exclusion probably meant the end of the player's career, said that Barnes' exclusion probably meant the end of the player's career.

L. Hasset will lead Australia

THE Australian Cricket Board yesterday announced that L. Hasset will lead the Australian Test team to play South Africa in Brisbane on December 5. Under the heading "The end of a career" the Melbourne Sun Pictures' cricket writer Ken Hogg, who had Barnes' exclusion probably meant the end of the player's career, said that Barnes' exclusion probably meant the end of the player's career.

Why no rivals?

None of Barnes' school was a rival of the player's, said the Melbourne Sun Pictures' cricket writer Ken Hogg, who had Barnes' exclusion probably meant the end of the player's career, said that Barnes' exclusion probably meant the end of the player's career.

Mass Movements
The Press is regarded by the Chief Native Commissioner as the most powerful instrument of mass movements. He says that the press is the only medium through which the masses can be organized and mobilized for action. He points out that the press is the only medium through which the masses can be informed of their rights and duties and that it is the only medium through which they can be educated and trained for self-government. He also points out that the press is the only medium through which the masses can be organized and mobilized for action.

Chapman: defence talks of 'mother accused' HAVE LINE OF INQUIRY

Chapman, charged by the police with the offence of being a prostitute, appeared in court today. He is charged with the offence of being a prostitute, and the line of inquiry was directed towards his alleged activities in the past.

His friends were told he did not know where he could have been seen. He said Chapman was in the area of the inquiry, and it was clear that he was not coming to court to give evidence.

Mr. Perry then said he would like to see the judge and the jury. He said he was not coming to court to give evidence, but to see the judge and the jury.

Chapman's defence was handled by Mr. Perry, who said he was not coming to court to give evidence, but to see the judge and the jury.

First to win appeal to court

FOR the first time since the Court Martial in May, the Government has won an appeal. The appeal was against the conviction of a member of the Kenya Police Force.

The appeal was heard by the Court of Appeal, which was composed of the Chief Justice and two other judges. The appeal was successful, and the conviction was set aside.

The appeal was brought by the Government, and it was supported by the Kenya Police Force. The appeal was heard in a public sitting of the Court of Appeal.

The appeal was successful, and the conviction was set aside. The Government was pleased with the result, and the Kenya Police Force was also pleased.

MEMBER DENIES DELAY IN TRIALS FOR MAU MAU CRIMES

(Continued from page 7, col 2) The member denied that there was any delay in the trials for Mau Mau crimes. He said that the trials were proceeding as fast as possible, and that the Government was doing everything in its power to bring the trials to a speedy conclusion.

The member said that the trials were being held in a public and open manner, and that the Government was doing everything in its power to ensure that the trials were fair and impartial. He said that the Government was not trying to cover up any of the facts of the Mau Mau rebellion.

CHIEFS OF STAFF SAY: USE ATOM WEAPONS

New moves for speedier conclusion of Korean war

The use of tactical atomic weapons by the United States Eighth Army in Korea to put pressure on the Communist Government to end the war should be given the highest priority in the current military planning, according to the Chiefs of Staff of the United States Army, Navy and Air Force, as reported in a report issued by the Joint Chiefs of Staff.

Practical step

The report, which is the first of a series of studies on the use of atomic weapons, states that the use of tactical atomic weapons is a practical step which will speed the conclusion of the Korean war. It also states that the use of tactical atomic weapons is a necessary step to bring about a speedy conclusion of the Korean war.

Everest bid: runner up on way with news

A NEW ALPS runner from Mount Everest, carrying the news of the success of the British expedition's attempt on the world's highest mountain is expected to reach the British-Indian-Nepal border, this morning.

The journey with the vital dispatch was made in the face of difficulties which have made the ascent of the mountain a task of great difficulty. The expedition, led by Colonel John Hunt, set out from London on May 15, 1953, and reached the base of the mountain on May 28.

WIDESPREAD RAIN FOR HIGHLANDS

Week's weather forecast

It is almost certain that the chain of depression at present covering the Mediterranean will be succeeded by the establishment of very high pressures over North Africa and Arabia. This will result in an intensification of the southwest movement of the Congo convergence zone. Since, however, the end of depression activity over the Mediterranean is still highly unlikely, that activity of the Inter-tropical Convergence Zone will begin again late in the period.

NAKURU GOES UP IN THE WORLD

KENNETH HOLROYD wrote the material for this special issue which marks the elevation of Nakuru to the status of a town with a Municipal Council and a Mayor and Mayoress.

THE DEPUTY MAYOR AND MAYORESS

The first Deputy Mayor, Mr. William Henry Sawyer, is a director in the firm of Sawyer & Co. Ltd. He is a member of the Kenya Provincial Association and joined the Municipal Board in 1910 after defeating the present Mayor in the poll. He succeeded Mr. Hardy as Deputy Chairman of the Board.

He is 38 and was born in Rochester, Kent, before the war, he was an engineering in Great Britain, and he came to Kenya in 1911 with the Royal Army Service Corps. He was stationed at Mombasa and then went with the 3rd Indian Brigade to Cairo and Burma.

As a major, he commanded a company of the East African Service Corps.

He came back after leaving the Army in February, 1914. Mr. Sawyer returned to East Africa in April of that year, joined the

WHEN the Governor of Kenya, Sir Evelyn Baring, reads and permits the proclamation raising the Municipal Board of Nakuru to the status of a Municipal Council on Monday, next, Kenya history will be in the making.

There will be support for the claim of the Leader of the Kenyan Provincial Members, Mr. Richard Hannell, that this is the first chapter of Kenya's history—the one of the present—has made that a new chapter of development and civilization has begun.

For Nakuru will be the first municipality to be raised to the status of a Municipal Council with the full powers of a Municipal Council. It will be the first town in Kenya to be raised to the status of a town with a Municipal Council and a Mayor and Mayoress.

It is gratifying since the title of President of the Corporation, Mr. C. M. Johnson, will be the first Mayor of Nakuru, and Mrs. Norman Hardy will be the first Mayoress.

The Story of Nakuru

From The Beginning

GOVERNMENT officials and business men take a steady two hours' journey over the Nairobi-Nakuru railway. A Nakuru lawyer claims to have recorded in under an hour and a half. Way back in 1813, however, when the first road was opened to Nakuru, it took 39 days over the journey and the driver had to back his way through a hostile force of 1000 warriors. In 1815, apparently, they did not have sufficient candles to keep track of the number of weeks required for the journey and no records are available. Legend, however, was that the journey which, even today, is made with unknown dangers.

Abundant game
 On November 1, 1906, he travelled from Daguerri to Nakuru via Nairobi. Like many other visitors to Nakuru, he writes extensively on comments on the animals or other parts of the town — or means of the game — but does not mention the capital and Nakuru beyond mentioning Yogan Masai track through which game still flows north.

Two years later, an expedition making a preliminary survey for the railway between the Victoria and Lake Victoria also found their way along the trail between Lake Victoria and Nakuru. The abundance on these plains is an occasional herd of buffalo. There is a pair of Goshawk, a pair of Osprey, a pair of Goshawk and the nest of administration for the first time. Two years later, a revision of the Victoria-Gordon (later then Kenya Colony) that was in March, 1911, was made. The railway had reached Nakuru and all stations were very busy. The tanks and signals had been completed as far as the up-country part.

There since 1905
 BY 1905, the beginnings of the town were visible. Mr. R. W. F. Morrison, Nakuru's first Commissioner, revises what he says only of those days still only of the town, travelled to Nakuru to visit Mr. Morrison.

He found a railway station, a single building, and a few shops, a house inhabited by a European, railway officials, a few Indian houses and two houses. Mr. Morrison and a friend came on a safari through the Great Valley to Lake Baringo, and they met only two Europeans, besides the whole staff — one of them, the farmer, the other, the District Commissioner at Nairobi. European settlers had formed the "Colonists' Association" in 1883. The independence of

the Nakuru area was clearly an earnest effort shortly afterwards, some of the settlers were organized the Pastoralists' Association. Nakuru, under the leadership of Mr. Robert Chamberlain, held in Nakuru; since then, the majority have become farmers and as a result that they are the largest of the two major landowners — Lake Nakuru, which is a large area, is a half mile in length. In 1910, the Indian Company formed a small company to buy land for 10 acres. Nakuru, Mombasa and Nairobi were the only two towns produced by the settlers.

First races
PLEASURE lovers reported in the local press on December 30, 1911, the first horse race. The race was held at the National Club of India, book on the secretaryship of the Race Club (which he held for years) and was an excellent performance in terms of the National Club. The Club was the first to open the first track in the area. The Club was the first to open the first track in the area.

Earthquake
 IN 1937, Nakuru felt earthquakes. The first was on the 1st of February, 1937, when a number of houses were damaged. The second was on the 1st of March, 1937, when a number of houses were damaged. The third was on the 1st of April, 1937, when a number of houses were damaged. The fourth was on the 1st of May, 1937, when a number of houses were damaged. The fifth was on the 1st of June, 1937, when a number of houses were damaged. The sixth was on the 1st of July, 1937, when a number of houses were damaged. The seventh was on the 1st of August, 1937, when a number of houses were damaged. The eighth was on the 1st of September, 1937, when a number of houses were damaged. The ninth was on the 1st of October, 1937, when a number of houses were damaged. The tenth was on the 1st of November, 1937, when a number of houses were damaged. The eleventh was on the 1st of December, 1937, when a number of houses were damaged.

The Club
 THE Europeans and the Indian residents got together and built the first club in the town. The club had occupied a basement room in Nakuru Hotel. Unfortunately, the first club building was destroyed by a fire in 1915. The club was a mere little party in the town. In 1916 and 1917, a large number of farmers had settled in the Great Valley, and giving a step to the development of Nakuru and in 1915, the original Kenya Farmers' Association Cooperative started, as a little club, now the site of the Kenya Farmers' Association. The first club building was destroyed by a fire in 1915.

History as the headquarters of the Rift Valley Province—the Provincial Administrative Headquarters.

The knowledge of Nakuru was declared a municipality by the Provincial Commission on February 19, 1938. The Municipal Board, desired to control the affairs of the town for orderly 25 years, composed of two official members, eight non-official members, and two of whom were representatives of the African community. Government had not elected a representative of the African community, and the Provincial Commission was asked to raise the representation to five, with the Chief of Land in the centre of the town. The Municipal Board had provided one of the brightest lights in the town.

Rating
 The first meeting of the Board was held in the Provincial Commissioner's office at Nakuru on January 11, 1938, with the Provincial Commissioner, Mr. J. C. Chamberlain, as the Chairman. The first meeting was attended by Mr. T. M. Gray, who was appointed as the Chairman of the Board. The Board was composed of 25 members, including two official members, eight non-official members, and two of whom were representatives of the African community.

War years
 UNTIL 1939, the municipal affairs were in the hands of the Municipal Board. In 1939, they were replaced by a block of officers under the Provincial Commissioner. The Provincial Commissioner was a British officer, and the Municipal Board was a British officer. The Municipal Board was replaced by a block of officers under the Provincial Commissioner. The First Church Was 'Eaten' By Mules!

As so often happened in newly-established European communities overseas, the missionaries were the first people to look after the spiritual needs of Nakuru. The Rev. F. Wright used to travel from Kisumu to Nakuru from time to time in the years before 1910 to hold services in the Railway Club.

The first service at which the present Archbishop of Africa was present was in 1912. The only son in the party which was used as a chapel, recalls Archbishop Low, was at the altar and, standing there, a swarm of locusts invaded the congregation. They could not have been driven to the position of the door.

was Fitz Cobham who built the wood and trap house which is still standing, with an extension for the mules, and the first M.A. in the town of Nakuru, in 1912.

During the first year, the local inhabitants used to bring their herds and flocks to the churchyard—and only a bit of the church was left standing when Archbishop Low, with regard to the church, sent a letter to the present bishop, who was in England at the time, in 1913 in memory of Fitz Cobham, who was killed in German East Africa while reaching the coast.

Prison camp

On August 15, 1953, the secretary of the Ministry of Agriculture and Fisheries, Mr. A. H. Jones, visited the Union on a mission to inspect the prison camp at Nakuru. The camp, which is situated on the edge of the town, was built by mules and grass, and is used by the missionary's mules.

Harvesters' Union

More recent agricultural developments in the agricultural capital have been the formation of the Nakuru Harvesters' Union, which is a voluntary organization of the town's farmers. The union was formed in 1953, and its members are engaged in the harvesting of crops in the district.

Place in history

Some 10,000 people visited the town on the occasion of the opening of the new road, which was built by mules and grass, and is used by the missionary's mules.

HOSPITAL IS 'FINE EXAMPLE TO KENYA'

WHICH for Charles M. Gifford said the Foundation for the Kenyan Hospital is a fine example of the work of the United States and every country.

The hospital was recently opened with many guests and the first patients were admitted. It has been a very successful enterprise and is a fine example of the work of the United States and every country.

Started in 1924

On October 19, 1924, members of the "Patriotic" Association of the United States started the Kenyan Hospital in Nairobi. The hospital was built on a site of 10 acres and was completed in 1928. It was the first hospital of its kind in Kenya and has since been a fine example of the work of the United States and every country.

Society's loveliest women share this beauty secret

In Paris, London, and New York, the most famous women who can afford the best that science can do for their beauty know the secret. They know the secret of the complexion.

No matter how young you are, give yourself the same complete beauty treatment. Every night, remove your make-up and give your skin a little Pond's Cold Cream, so that it can breathe and take with it the impurities. This is easy, then dust your face with Pond's Talcum Powder.

At present, Pond's Cold Cream, so famous for its long life of use, is being sold in a new, more convenient form. It is now in a handy, portable tube. It is easy to carry, and it is easy to use. It is the same good, old-fashioned Pond's product that has made it famous for so long.

The Complete Aline de Fabrice, the Vincennes Talcum, and Lady's Cream, are among the many beauty products which we at Pond's can tell you about. You will find them all in our new book, "The Beauty Secret".

Apply Pond's Cold Cream to your face every night before you go to bed. It will keep your skin soft and smooth, and it will help to prevent wrinkles. It is the secret of the complexion.

THE INDUSTRIAL SCENE

ADEQUATE water, power and labour supplies, good communications and assured markets—these are the basic factors which make the African continent an inviting field for industrial development. The 220,000 African workers in the continent, many of whom are employed in the mining and agricultural industries, aims to supply them or extend existing supplies.

Water is being looked after by the 220,000 African River Water Supply Scheme. Housing schemes for African labour are on the drawing board. Rail communications are being improved considerably under the railway authority's development programme. The 100 miles of tarmac road between Nairobi and Nakuru already makes for easy road communications in the area.

BEAUTIFUL HOMES OF KENYA

NAKURU DOES NOT LAG BEHIND

IN Nakuru, as in the capital, Nairobi, and other parts of the Colony, since the war there has been extensive development in European housing and many "beautiful homes of Kenya" have been added to the country's already long list.

The town is justly proud of this development and the town is eagerly awaited in the new wood and iron structures will have transformed the more solid picture with modern business buildings and a few residential ones.

The beginnings of what will undoubtedly be one of the greatest residential centres of the future can already be seen on the lower slopes of Menengai which, within the next few years, will become dotted with new houses.

The site is ideal because of the beautiful and the Great Rift Valley. All the rooms in the house illustrated look towards the lake which is viewed from expansive windows and from the verandah of the house.

The home of Dr. and Mrs. W. Hirsch, and designed by H. B. and E. Thurston of the Kenya office, it is furnished in modern style with superlative build—another important factor in Nakuru as certain times of the year.

How effective too can be this style of furnishing in relation to the two pictures of the lounge and the one of the main bedroom. The furniture of Peckham is the wrought-iron flamingo design over the glass-bottom entrance to the house, a design which is also employed in wrought-iron for the wall lighting in the lounge.

Photographs are by Kenneth Rietveld of Nakuru.

Brenda Holroyd says... YOU EITHER LIKE IT OR LOATHE IT

NAKURU is a place to be liked or loathed. There is apparently no happy medium. The "love-it-or-hate-it" right opinion is so extreme. Mention of roads, for instance, brings up a picture of either a horrendous stretch of tar, or a dusty road 20 feet wide, or a highway that serves as a road of bones and skulls, or you seem like 20 miles.

The Lake. MENTION of the Lake makes one think of hundreds of mosquitoes. In fact, it is a mosquito problem, and it is a mosquito problem that is the cause of the lake's reputation. The lake is a mosquito breeding ground, and it is a mosquito breeding ground that is the cause of the lake's reputation.

Foolish. There is a village near Nakuru which is a village of fools. It is a village of fools because it is a village of fools. It is a village of fools because it is a village of fools.

rights to the most member of the family which has come off the generation. It is a village of fools because it is a village of fools. It is a village of fools because it is a village of fools.

The flamingo. THE Lake despite its various drawbacks (which tend to be exaggerated) is one of the most attractive features of the Rift Valley. It is a village of fools because it is a village of fools. It is a village of fools because it is a village of fools.

DON'T RISK A NERVOUS BREAKDOWN

Remember you must not only take thought about any act of nerve control. If you're always hesitating, you'll never succeed, or that you've tried and failed, and you're still trying, you're not an efficient worker. You're a nervous wreck.

Now, get your nerves in order. You'll find it easy to do. You'll find it easy to do. You'll find it easy to do.

KIDNEY TROUBLE

Here's a medicine made specially for it

If you suspect that there's something wrong with your kidneys, it generally means that they need a corrective medicine. Modern scientific medicine has found a way to correct the kidney trouble. The trouble starts when the kidneys grow sluggish and are unable to filter out the waste from the blood. The result is a condition known as kidney trouble. This can be cured by taking De Witt's Pills. They act directly on the kidneys and give them the power to filter out the waste from the blood. Go to your druggist and get a supply of De Witt's Pills.

The Yesterday, Today And Tomorrow Of NAKURU In Pictures

The picture above is of Nakuru, looking towards the Lake, in 1905. It was taken for reproduction by Mr. J. S. Dool of Nakuru, whose father, Mr. Robert J. Dool, A.R.I.C.A., was first government architect in British East Africa between 1895 and 1905.

Above, the Rift Valley Sports Club, rebuilt after a fire in the early twenties. Below, the new railway engine sheds, first major building in the new railway development plan to be completed.

Above, Nakuru's present marshalling yards. In the left background are the old loco sheds and in the right background the original passenger station. Below, the new Council Chamber.

The picture above shows Club Road, looking south past the motor showrooms towards the Lake. Below right, the headquarters of Kenya's mixed farming industry—the office of the Kenya Farmers' Association and, right of them, the office of the Pyrethrum Board of Kenya.

Immediately above, Dennis Avenue, showing building in progress on the new National Bank of India. Below left, the Rift Valley Provincial Police Headquarters and, below right, the rapidly developing industrial area. Centre below, the new shopping centre in Lake Road. The picture across the bottom of the page is a view of the proposed station and roundabout from Dennis Avenue. It is from a sketch by Nelson Pines of the Kenya Town Planning Department.

POLICE OFFICERS TELL STORY OF SHOOTING

Oath ceremony was exacted

QUIETLY and calmly, without fan or drama, the Kenya Police officers — one with only six weeks' experience in the market place in Kiruru on Monday and three announced the events which led them to open fire on a frenzied mob of 2,000 Kikuyus, men, women and children on Sunday.

Inspector Blackwell went to the scene of the trouble first. He was wearing a dark blue uniform and a peaked cap. He was looking at the crowd of people who were gathered round the market place. He was looking at the people who were shouting and waving their hands. He was looking at the people who were trying to break through the police line.

No effect

Here the tall Canadian, said that he had seen the crowd of people who were gathered round the market place. He was looking at the people who were shouting and waving their hands. He was looking at the people who were trying to break through the police line.

Inspector W. B. West

Inspector West said that he had seen the crowd of people who were gathered round the market place. He was looking at the people who were shouting and waving their hands. He was looking at the people who were trying to break through the police line.

Had a vision
