Indian Rioting Spreads To New Areas

TROOPS READY TO DEAL WITH TROUBLE

CAIRO, November 4. — Sir Robert Hodgkin, Governor-General of the Sudan, who arrived here last night from Khartoum, left early today for London accompanied only by his private secretary. His Indian troops have caused surprise in political circles here as the result of administrative information that the Governor-General intends to visit the Sudan where there have been demonstrations and a certain amount of trouble.

Admiral Patten the Egyptian Under-Secretary for National Defence, is at present in the Sudan.

It is generally believed here in the absence of authoritative information that the Governor-General intends to visit the Sudan where there have been demonstrations and a certain amount of trouble.

KENYA WAR MEMORIAL FUNDED

Government Appeals For One More Effort Of Generosity

It is almost certain that we have these things not only as a gift or memento but as a memorial to the lives of many of us. By all means let us do this as a memorial to the lives of those who have given their lives for Kenya's National War Memorial. The Government is appealing for one more effort of generosity. It is asking for a further contribution to the fund which will be used to erect a memorial to the lives of those who have given their lives for Kenya's National War Memorial. BUDGET MEETINGS:

Eldoret Opposes The 1947 Budget

EUROPEAN COMMUNITY IS "TAXATION MILCH COW"

(Special Correspondent.)

Eldoret, Kenya, 20 Nov. (Special Correspondent.)—The budget proposals for 1947 were considered at a well-attended meeting of the Eldoret Club, which is largely based on the Wood's Report, and rightly rejected by the club members.

The second, passed unanimously, was that the remaining four sections considered that any budget passed as a matter of necessity for 1947 must be considered as only a temporary measure and in no way committing the country to any specific policy for the future.

Resolution No. 2 requested Government to "have survey carried out at the earliest opportunity by local experts of the revenue and taxation in the country, to determine the taxable capacity of the people of the country, and to report thereon to the Government as soon as possible."

Income Tax (Special Correspondent.)—The Budget for 1947, which is largely based on the Wood's Report, and rightly rejected by the club members.

"Demob's" Get All Britain's New Suits

London, November 11. (Special Correspondent.)—The British Government has announced that it will supply new suits to all demobilized soldiers and sailors.

Many Questions In the course of subsequent questions many points were raised which had not been met and answered at earlier meetings.

Mr. Mundy said that application for allowing depreciation of land was not a matter of Government policy, but a matter of the Income Tax Act.

Mr. Dever's main theme was the need for a more equitable distribution of the tax burden.

The speaker pointed out that the budget was not a matter of Government policy, but a matter of the Income Tax Act.

Taxation Bill One of the main points raised in the course of the discussion was the need for a more equitable distribution of the tax burden.

ANY OFFERS?

Some Englishmen, who were sent to Africa to work, were asked to marry a suitable woman. In the event, they were not successful.

The First Phase of the investigation branch was to investigate the tax status of the property purchased.

Mr. Mundy said that the Government was not in a position to supply new suits to all demobilized soldiers and sailors.

Mr. Mundy also explained again in respect of the Income Tax Act, that the Government was not in a position to supply new suits to all demobilized soldiers and sailors.

NAKURU DAM SITE

Geologist Will Make Survey

If ever Nakuru dam was to be built, it would be a gamble to enter the proposed expenditure of the dam site, however there were no apparent sources of supply.

Geologically, the site was a double one, and it would be a gamble to enter the proposed expenditure of the dam site, however there were no apparent sources of supply.

It was not imprudent by the position of the dam site, however there were no apparent sources of supply.

Njoro River Unsuitable

In reply to a query regarding the possibility of taking water from the Njoro River, he said that the dam site was not suitable for the purpose. In any case, the water would be of poor quality and would be of little use for irrigation.

POISE—born of expensive perfume

Her self-assurance springs from Goya's 'HEATHER'... crisp and intriguing perfume in an open air mood. Created in London where Goya's personal genius has made him the modern master of perfume. Goya's 'HEATHER' is superbly packed in luxury sizes. It is expensive—but it is flawless.

You can also buy Goya's 'Heather' in tiny handbag phials.

EAST AFRICAN AIRWAYS DISCUSSION

[STANDARD CORRESPONDENT] There was a discussion between the two bodies... The Tanganyika Chamber of Commerce has been one of the most outspoken critics of the East African Airways Corporation since the withdrawal of the East African services and Sir Charles Lockhart today met the Management Committee of the Corporation...

Sir Charles reviewed the history of the Airways Corporation from 1934 when the first report of post-war air services in East Africa was drafted and the Legislative Council of the three territories agreed that the services should be controlled by a statutory corporation... There had been numerous problems connected with the actual flying of machines and the Corporation had to become acquainted with the territories... The Corporation commenced with four Douglas Hastings only. Considerable delay had been experienced in obtaining other machines and when these were delivered they did not have the necessary overhead space usually supplied by the manufacturers.

Revenue Question On the question of revenue Sir Charles explained that he had agreed to make an arrangement with B.O.A. to have their services while the Corporation had not been established... The Corporation commenced with four Douglas Hastings only. Considerable delay had been experienced in obtaining other machines and when these were delivered they did not have the necessary overhead space usually supplied by the manufacturers.
