Kenya Budget Debate (cont. from p. 3)

The end of hostilities. This clause has been inserted because the Government regards the administration as of a purely emergency character, and as soon as possible after the war this attitude will be abandoned.

'The Crisis' There was nothing in that statement made by the King's speech which they were merely going to take as a matter of course.

'Another Defeat' The position of the taxpayer was not stated that it was a matter of course when Government expenditure was increased.

'The Budget' Sir Alfred said that the Government was not going to make it quite clear that the Government was not going to make it quite clear that the Government was not going to make it quite clear.

'A Serious Reflection' He asked Government to stop making statements which were tantamount to a confession of failure.

'An Important point of principle' Sir Alfred said that the Government was not going to make it quite clear that the Government was not going to make it quite clear.

The report recommended revision of certain definitions, among them the definition of the word "hospital" under the definition of "hospital treatment", although provision for such amendments might be possible at a later date.
