COLONY'S THREE AIMS

FOR EDUCATION

Paper defines standards

EDUCATIONAL problems in Kenya are summed up in a document issued by the Government in 1952. The development programme tabled before Legislative Council, the European program as well as the African standards, the African to create standards and build up a system.

The paper says that between 1947 and 1952 there were 233 teachers and a population of Kenya increased by 119 per cent. About 20 per cent, and the African 20 per cent. Over the same period there has been expansion of 98 per cent in the number of European schools, 55 per cent in African and Arab schools and 52 per cent in African schools.

Such estimates show by 1953 per cent in African schools, 118 per cent in Arab and Arab schools and 64 per cent in African schools.

But it will not allow higher standards of buildings or even enough buildings to enable that reason the emphasis is on the development of the human resources. In European education, boarding schools will be set up for the most able and the most able to go to Africa. A new feature in the 1952-53 programme is the emphasis to be placed on technical and training schools for the purpose of providing 1,512,100 to expand the facilities for technical education with skilled artisans and semi-technicians. The Government has a stringent control of spending money in order to ensure that the targets proposed.

£2,000,000 TO BE SPENT ON ROADS IN KENYA

Three-year development plan

ROAD development works in the 1952-53 Development programme to be approved by Legislative Council will be allocated £2,000,000 during the three-year period, if the proposals in the Seasonal Development Programme approved by Legislative Council. The Seasonal Paper explains that the included roads, depend largely on the availability of loan money.

Kenya Road Authority would like to spend £2,000,000 a year on road improvements. It is unlikely that more than a third of this sum can be made available.

BRITISH SHIPYARDS IDLE AS GERMANY WORKS

WHILE British yards, like that of Hawthorn Leslie at Harlow in the Tyne stand silent on the shipyard workers' strike enters its third week, Germans are working round the clock to fill orders. On the right, under the glaring beams of floodlighting, work goes on at Hamburg.

BRITAIN'S other industrial stars, that of the engineers, was marked last week by some violence, as workers who claimed they were outside the strike tried to pass through picket lines. Below, police have more than parking troubles on their hands as they try to pass an employee on a picket of the Bristol Aeroplane Co.'s works.

DEADLINE FOR TENDERS ON CITY HOUSING EXTENDED

Joint African project

TIME in which contractors may tender for construction of the first 4,000 houses under the joint African housing scheme has been extended by a week until Tuesday.

This was disclosed yesterday by the Minister for Housing, Mr. Havelock. He said the delay was with the approval of the contractors who had already tendered. One of the main reasons was the haste to the Government's technical advisers to investigate details of tenders received.

Mr. Hammarskjold sees 'no conflict'

ARABS OPTIMISTIC

HOPES of reaching a settlement with Egypt over the operation of the Suez Canal were raised by New York by the U.N. Secretary-General, Mr. Hammarskjold, who said he saw no conflict between Egypt's new proposals on the Canal and his understanding of the degree of agreement reached between Britain, France and Egypt last October.

Some points 'not elaborated'

Egypt was also said to be willing to regard U.S. suggestions for modifications to her memorandum, as long as Egyptian sovereignty over the Canal and its management were undisturbed.

Mr. Hammarskjold said that Egypt's memorandum was "fractious" as a whole, but his own proposals for arbitration of disputes over the waterway. There were two points, however, which Egypt had "not elaborated".

Minister refutes Lukiko petition charges

IN laying the Buganda Lukiko's recent petition for discussions on a time-table for self-government before the Queen's Representative, Mr. Lennox-Boyd, has been unable to advise the Queen to accept the Lukiko's request.

This is stated in a letter to the Lukiko by the Queen's Representative, Mr. C. A. I. Richards, on behalf of the Government. The letter reaffirms that the aim of the Government is to build Uganda into a self-governing State and "strongly recommends" suggestions.

Among the points raised by the Government is that the new Bill provides for the appointment of a new High Commissioner to perform certain functions connected with the transfer of power to the new Government.

In the Lukiko's petition, it was complained that the Government had not provided for the payment of the salaries of the members of the new Government.

A dissatisfied customer looks around

IN my youth, in Britain, there were two common sayings: "The customer is always right" and "The public must be served". Today, the customer is seldom, if ever, right, and it is time that a thorough examination be made. Let us take the case of the consumer.

With the schools and advertisements, the consumer of the fast, especially as regards news, is being misled. It is not the fault of the advertiser but of the advertiser's lack of honesty. The advertiser is not to be blamed for this, but the advertiser's lack of honesty is to be blamed. The advertiser is not to be blamed for this, but the advertiser's lack of honesty is to be blamed.

YOUR correspondent, Mr. H. W. Moore, seems to have during his short experience in the telephone service had some very good ideas. I am sure that the telephone service would be greatly improved if these ideas were put into effect.

Without details of the particular case, it is not possible to give an opinion on the merits of the proposal. However, it is generally agreed that the telephone service in this country is not as good as it could be. 3-T NYLON CORD NOW MAKES POSSIBLE A NEW AND BETTER

TUBELESS SUPER-CUSHION

Here's a murderous test for a tyre! Track rails were laid edge-wise to make a knife-sharp surface. Then, a test driver took 3-T Nylon cord tyres back and forth over this torture rack. After more than half a million jabs and impacts, the tyres were carefully examined inside and out. And no trace of any

kind could be found! Not one tyre cord was broken! Incredible? Just more proof that you can't beat Triple-Tempered 3-T nylon cord for miracle strength and safety. And only Goodyear has it.

ONLY 3-T NYLON CORD GIVES NEW TUBELESS SUPER-CUSHION THIS STRENGTH

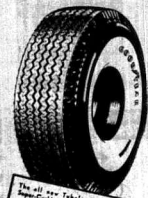

On the outside, the new All-Nylon Cord Tubeless Super-Cushion looks like a conventional tyre—but inside revolutionary structural differences make it able to outperform any other passenger car tyre.

What makes this possible? It's Goodyear's exclusive 3-T Nylon cord—the miracle fabric that made this new tyre's famous predecessor tough enough to withstand a million smashing blows.

3-T cord is chemically treated and processed in gigantic machines under precise Time, Tension and

Temperature control. Result: *The world's strongest tyre cord!* Pound for pound actually stronger than steel. Combined with special rubber compounds and Goodyear's exclusive Grip-Seal Construction, 3-T Cord makes a tyre body completely resistant to the passage of air.

Be sure the Tubeless Tyres YOU buy have the miracle strength of Triple-Tempered Nylon Cord—and that means Goodyear. See your Goodyear dealer soon.

E.A. Derby winner scores over hurdles at Nakuru

DESPITE the fact that it began and finished in the rain, the Nakuru meeting on Saturday attracted a good crowd to both enclosures, produced adequate fields and some most interesting racing and demonstrated the versatility of Kenya bloodstock when the 1956-57 E.A. Derby first event on an attractive. Another good field of seven, started for the Division III Handicap over seven furlongs and Harry Maid got up in another close finish to win by a short-head.

The time-trials Division IV race was run in a heavy rain, and the winner, the lighter brush hurdle — by comparison with the former handicap — more to his liking. Checks Away also hurdled well but after coming up from home, made a slight error for the last furlong.

The proper order for the race was fairly creditable. Deltaride got up on the run to beat Checks Away into third place by a head.

Selection ran in the 3-YO Maiden Plate over a mile. Deltaride made out well, followed by maiden allowance by winning with some ease over the Dunstan and Footscray.

The Stewards Cup once more and in this the favorite Mirinda, at last, seemed to call it a day after about a year and a half of racing. Her stable companion Deltaride, who has the race of his typically strong finish to get the better of her by a bare head.

Up a most excellent catch of Viding Prince got to within a short-head of Noble Score in last place.

TORY M.P.s EXPECT A 'PRESTIGE' BUDGET

Brief relief for Britains' politicians in income from whose support the Conservative Party has recently been made in an expected today's Budget.

Major revenue tax is a top item of the budget. Men with families in the lower tax bracket and below the middle class are expected to get relief.

There is wide expectation also that the Government will cut the power of exorbitant wages in the theatre, cinema and other amusements. It is expected that the Government will reduce the rate of income tax on interest on savings banks and on the proceeds of life insurance.

Some politicians think that Budget may have a special force for people who are employed in the school or college system.

101-GUN SALUTE GRIETS THE QUEEN OF PARIS VISIT

President told: 'I am so happy to return'

SYMBOL OF UNITY

Flags waved, the Queen were sounded and a great roar of welcome went up from the crowd at Royal Airport, near Paris, yesterday as the Viscount carrying the Queen and Prince Philip taxied across the tarmac to where President Coty waited to greet them.

The Queen, wearing a costume of a champagne-bige shade, smiled as she stepped out of the plane to start her four-day State visit to France. She was followed by the Prince, in Royal Air Force uniform. After inspecting a guard of honour with the President, the Queen walked across a red carpet to a lavishly decorated saloon.

Wave from palace balcony

She shook hands 60 times with Cabinet Ministers and officials, and then took President Coty into her private apartments. 'I am so happy to return,' she said. 'I must tell you how glad I am to see you again.' Coty replied that he was glad to see her and to see her with Prince Philip. The Queen and the Prince left the airport in a motorcade and proceeded to the Elysee Palace. The Queen and the Prince were greeted by thousands of people who had gathered on the balcony of the palace to see them.

BRITAIN'S 'BEST' BUDGET TAX CURB

£100,000,000 tax cut Widespread reliefs

MEASURES TO reduce taxes by £100,000,000 a year were announced by the Chancellor yesterday in the House of Commons. His proposals for relief benefit all sections — the housewife, the parent, the entertainment world, the elderly taxpayer, the motorist and businessmen with overseas interests.

The Chancellor began with a warning: "If we are not to rely upon the policies of subsidies or all-out deflation, then we must seek a degree of restraint and common sense," he said. Many of Britain's competitors were practising more restraint, making greater effort and showing a greater realisation of world conditions.

They have announced his tax cuts. They include abolition of entertainment tax on live theatre and all sports and the relief of cinema from its duty to the extent of £25,000,000 a year. At the same time he increased the combined sound radio and television licence from £2 10s to £4 a year. The extra duty of 1 1/2 a gallon on petrol will be light oil imposed as a result of the Suez crisis is removed and the purchase tax on domestic kitchenware, carpet and floor coverings and some furniture is reduced from 30 to 15 per cent.

Trading corporations managed in Britain, but operating abroad, are exempted from income tax, with the exception of those engaged in shipping and such finance activities as banking and insurance. The Chancellor said this would help companies, many of them operating in the Commonwealth, who ploughed back their profits overseas.

KENYA A RISK DENIED

The reported visit of Archbishop Makarios to Nairobi on his way from Madagascar to Greece was raised by Sir Charles Mathison, Minister for Nairobi, in the Legislative Council last night "as a matter of urgency" he said.

Subject to law

Sir Charles said that his information was based on a telegram which was sent to Nairobi by Archbishop Makarios and his party. In view of the fact that there was some uncertainty as to whether the Archbishop was in Athens by another route, the matter was very important in the view of the Government.

Increased Role for U.S. to Play in Africa

America is rapidly passing the point when she can afford to take only an economic interest in Africa. The Times argued in an editorial.

If Africa is to be preserved as the free world's Britain and the United States must understand what each is bringing to the table and to avoid creating a cold war situation. Long as Africa remained under colonial administration, most Western nations were not interested in the continent.
