Responsible attitude needed by Members DEBATE ON COLONIES

AFRICAN Members of Kenya Legislative Council were criticised by the Colonial Secretary, Mr. Lennox-Boyd, for "throwing a sterile challenge at Government."

Compatible with principles

For the African Members at this stage to fling down a challenge at the Government is "quite incompatible with the basic principles of government and I thought it appropriate for the present phase of constitutional development in Kenya."

Feet first in Italian fashions

By JENNY NICHOLSON BOUTIQUE collections and fashion showings have confirmed that Italy has jumped, feet first, into the 1957 fashion news. During the high fashion shows in Rome and Florence there has been an accent on shoes, and particularly the shape of shoes.

To draw attention to beachwear first in the latest sandals, Manicelli emphasizes the high heels of evening pumps to match the embroidery on cocktail dresses. Marto Valentino, a young Neapolitan, dictates that the spring and summer street and evening pumps will be slipper-soft and more pointed than ever. As they wear on they will become more pointed still and fantastic.

GILDED HEELS Washable suede is his favorite material. It is the point continuing his line, the elegant line. The new, slim toe of Valentino's line, concentrated on the heel and fast spring will give the most beautiful gilded wooden soles, carved in the eighteenth century Florentine picture frame. She has designed an "elegant" work, heel of almost-maternal elegance, wooden, mosaic, beaded, jeweled, designs or granular pictures.

Classical styles that low-heeled shoes and sandals will be highly decorative. The new shoes have gold decorations on the heels. The decorations beaded connected with a gold ribbon, golden, granular pictures. There, he says, will be an open and more outdoor.

SIX models in the latest fashion. Feet first for feminine wear - red and gold brocade theatre boots, shoes in ultra-soft pointed mesh shoes with slender heel and, on the extreme right, the black slings to the foot. On the left, ladylike heels with the white to the foot and the new with a white calf court model, while above is a practical slip-on black, beaded decorated with a mosaic to make the more female look.

By F. K. LONGWORTH

THE basic shape of a shoe is governed by the human foot. Yet, in this fashion age, designers can produce an infinite variety of styles to match the wear of the day. Footwear fashion has six main elements: the silhouette, the heel, the sole, the toe, the high or is low-cut and revealing, the height and shape of the heel, the material, the texture, nylon, brocade, and so on; their colour; and the trimmings - buttons, studs, punching, diamond and pearls.

A definite silhouette has emerged for 1957. Best interpreted in the classic line, the new line has a beautiful, slenderizing effect on the foot, and enables designers to use the best use of the lovely new leathers and colours available. Sometimes it is the heel that is the key to the shoe's success. The new materials make it almost unobtainable. Specific uses of materials like leather with leather or lacquered in bright colours, or with different by light metal or resin heels.

Three crowded Royal days in Copenhagen

By Carl Coghlin
"WONDERFUL" Copenhagen will do its best to live up to its reputation when the Queen and Prince Philip arrive there on May 21 for their three-day State Visit.

When the Britanna sails up Copenhagen harbor at 11 a.m. on May 21 she will be greeted by a cannonade of salutes from the coastal batteries, culminating in 21 shots from the Queen's Battery on the Queen's Island, the streets of Copenhagen in 21 minutes. There has been no political occasion in Denmark for hundreds of years.

The Queen will be able to see a splendid display of white-iron decorations, a Danish specialty, on the streets of Copenhagen. The British will also see the national-white-iron decorations with more than 20,000 Danish crown's worth of prizes. There in the windows will be seen the finest ironwork in Denmark and naturally the Britons will find it difficult to see the finest ironwork in Denmark.

The Queen's programme for the three days in Copenhagen is an overflow one with 21 different functions. One of her first acts will be to lay a wreath in the "Remembrance Garden" which many members of the Danish resistance movement, who were shot by the Germans in the last war, are buried in. She will also lay a wreath on the memorial to the victims of the 1945-46 famine.

The Queen will also lay a wreath on the memorial to the victims of the 1945-46 famine. She will also lay a wreath on the memorial to the victims of the 1945-46 famine. She will also lay a wreath on the memorial to the victims of the 1945-46 famine.

TRIBE, AND BARRICK HIT CENTURIES OFF TOURISTS

West Indies had to fight hard in Northampton match

The West Indies followed up their innings victory over Northamptonshire by four wickets in an exciting second day's play in the second game of the Test series. The touring team had to fight a much harder than expected battle in the first day's play, but they were able to secure a second-innings lead of 322 and on the second day they made 96 runs for victory.

This seemed a moderate task with one two and a half hours play for out but after an hour the state of the last day was very far off.

John Goddard, captain of the tourists, then called for the first six wickets and needed and six wickets to win.

He has no special, boundary hitting and finally a century for the tourists.

Stand a fine effort
Tribe, whose innings lasted 125 minutes, was out for 115 runs and 15 fours, because the first half-century was not reached.

Barwick, who came in at the end of the second day, was out for 112, made 11 fours and 15 runs. He was out for 112, made 11 fours and 15 runs.

Nottinghamshire and Middlesex on Tuesday claimed the maximum of 14 runs in the 1957 county cricket campaign.

Both had earlier scored the new bonus of two points for their county in the county cricket.

Nottinghamshire's captain, Mick Hirst, said his team were "very happy" to have won the match.

THE death of South African boxer Jimmy Elliott is not likely to bring about any changes in regulations governing boxing in Britain, said Mr. Toddy Secretary-General of the British Boxing Board of Control.

All possible precautions from medical and other points of view are taken, and we are confident that we will be further lightening up it.

The draft resolution was the subject of long debate, and the death of Elliott had been the subject of long debate.

WORLD SHIPPING LIKELY TO Appeal by Supreme Soviet for Russian naval strength tests ban

AGENTS AWAIT ORDERS
Choice left open by Suez users
CABINET REVIEW

YESTERDAY afternoon the Foreign Office received a cable from the Egyptian Government which said that the Egyptian Government had decided to appeal to the United Nations Security Council against the ban on shipping through the Suez Canal.

The statement criticized Egypt's plan for managing the Suez Canal, but it left the way open for individual Governments to resume using the shipping route.

The British Prime Minister, Mr. Macmillan, presided over a Cabinet meeting yesterday to review the problem of whether to revoke the Government's advice to British shippers to avoid the canal. Political observers in London expect that British ships will soon be authorized to go through the canal, though there may be reservations about the acceptance of Egypt's terms.

U.K. VOTERS SWINGING TO SOCIALISM
Local elections

A MARKED swing to the Labour Party in local elections held yesterday gave Labour a lead of more than 200 seats.

Scattered gains were also gained in the Conservative Party, but the Labour Party's gains were made in the boroughs of London and the boroughs of South East England, but only a few seats were retained.

Mr. Charles Trent, North London, president of the World Rotarians, said that the results of the election were a clear indication of the swing to socialism.

RUSSIA is constructing annually twice as many submarines as the total number in the Royal Navy, according to figures given by the First Lord of the Admiralty, the Earl of Selkirk.

Speaking in a defence debate in the House of Lords, Lord Selkirk said the Soviet Union had 500 submarines in 1956, but by 1960 it would have about 700. In two or three years they will be able to have about 1,000. The Government would at the height of the Atlantic, the German, and the American navies, be able to keep probably three times as many submarines as the Royal Navy.

KENYA DECISION ON U.K. OFFER OF £2,000,000 CRITICISED

Use in improving roads

CRITICISM of the Kenya Government's decision not to take up a £2,000,000 offer from Britain was expressed by Mr. R. S. Alexander, Member for Nairobi West, at a meeting of the Kabete-Kilimani Association on Thursday in the Central Hall, Nairobi. He said that the loan, taken on an interest-bearing basis, could have been used for the improvement of roads, which would have had a valuable contribution to the country's economic development. He said that the Government's decision to use the money for the improvement of roads was a mistake, and that the money should have been used for the improvement of roads, which would have had a valuable contribution to the country's economic development.

Emergency surcharge

IN 1957-58, the British Government is making a contribution of £1,000,000 to the Kenya Government's emergency fund. Mr. Alexander, who was interviewed by the Standard, said that the Government's decision to use the money for the improvement of roads was a mistake, and that the money should have been used for the improvement of roads, which would have had a valuable contribution to the country's economic development.

Economy suffering

IT IS NOT properly understood that the Government's decision to use the money for the improvement of roads was a mistake, and that the money should have been used for the improvement of roads, which would have had a valuable contribution to the country's economic development.

Large areas ravaged by forest fires

FOREST fires in the Eastern United States and Canada have destroyed thousands of acres, and a Massachusetts has suffered a particularly heavy loss. The fire in Massachusetts was caused by a lightning strike, and the fire in the United States was caused by a lightning strike.

Raising money locally

THE GOVERNMENT has decided to raise money locally for the improvement of roads. This decision was made by the Government, and it is expected that the money will be used for the improvement of roads, which would have had a valuable contribution to the country's economic development.

Homes destroyed

SERIAL homes were destroyed in Massachusetts and in New York State. The fire in Massachusetts was caused by a lightning strike, and the fire in New York State was caused by a lightning strike.

Budget attack forecast

THE GOVERNMENT'S budget is expected to be attacked by the Opposition. The Opposition is expected to attack the Government's budget, and it is expected that the Government will be forced to make concessions.

Mr. Brockway, who has been appointed as the first Governor of the Kenya Territory, is seen here with Sir Walter Dill, the first Governor of the Kenya Territory.

Basutoland power plan considered

THE Colonial Development Corporation is considering a proposal to generate power in Basutoland. The power plant is estimated to cost £1,000,000, and it is expected that the power will be used for the development of the Basutoland Territory.

April readings above average for Kenya

RAINFALL in Kenya last month was above the April average in all areas except the Highlands. The rainfall in the Highlands was 11 inches, which is above the average of 10 inches. The rainfall in the other areas was between 8 and 10 inches.

13 POLIO CASES REPORTED

THIRTEEN cases of poliomyelitis were reported in Kenya during the month of April. The cases were reported from Nairobi, Kisumu, and other parts of the country. The Ministry of Health is taking steps to prevent the spread of the disease.

RUSSIA ACCUSED OF PLOTTING TO DEPOSE ARAB KINGS

Egypt's complicity during Jordan crisis

TALKS OPEN IN IRAQ

RUSSIA, Egypt and Syria have been accused of plotting to overthrow the monarchies in Jordan, Saudi Arabia, Iraq and Libya and establish Communist régimes in their place.

The report, issued in Amman, said that the Syrian Director of Military Intelligence, Maj. Abdul Hamid Sarraj, had been plotting for some months with Jordanian army officers, including the Egyptian, American aid and a co-ordinated oil policy.

U.S. aid announced

Mr. James Richards, President Eisenhower's special envoy in the Middle East, has returned to Washington, where he said the United States would spend \$12,000,000 of special military and economic aid to several Middle East countries.

The Prime Minister, Mr. Macmillan, is expected to introduce in the House of Commons early this week a resolution by which to allow the resumed use of the Suez Canal by British ships. Diplomatic observers in London said that this was inevitable as a result of the recent prolonged discussions by the United States and Great Britain.

British shipping companies have already re-ordered their fleets and the Egyptian Government has issued instructions for the boats to be used.

It is likely that the British will also be able to resume the use of the Suez Canal for oil tankers.

The Egyptian Government has announced that it will accept the United States offer of \$12,000,000 of special military and economic aid to several Middle East countries.

£23,000 Soviet grant for subversion

A JORDANIAN Parliament received a report for subversive activity, which was estimated at £23,000. The report was submitted by the Jordanian Intelligence Service, which is headed by the British.

The report stated that the Soviet Union was providing financial aid to subversive groups in Jordan, which were active in the Jordanian desert. The report also stated that the Soviet Union was providing training for subversive groups in Jordan.

Britain to export atomic fuel

BRITAIN'S "last frontier" report being compiled in the North of Scotland, will supply nuclear fuel for export overseas.

Australia is one of the countries which will receive fuel from the new reactor, part of the British Atomic Energy Commission's program to supply nuclear fuel for export overseas.

The report also stated that the British Atomic Energy Commission was planning to export atomic fuel to other countries in the Middle East.

REFUSAL TO PLEAD AT 'SPY' TRIAL

Complaints made by Britons

TWO Britons, Mr. James Swinburn and Mr. James Zarb, who face a possible death sentence if convicted, refused to plead to charges of spying when their trial together with six other Britons, 11 Egyptians and one Algerian, opened in Cairo on Saturday.

The two Britons, Mr. Swinburn and Mr. Zarb, are accused of spying for the Arab Republic of Egypt. They are accused of providing information to the Arab Republic of Egypt about the British atomic energy program.

Bermuda garrison leaves this month

The British Army garrison in Bermuda has been ordered to leave this month. The garrison has been in Bermuda since 1945 and has been the largest British garrison in the Western Hemisphere.

The garrison is being replaced by the United States Navy's 1st Marine Air Wing, which is being transferred to Bermuda from Okinawa.

Under pressure

Mr. Swinburn said that he had been under pressure to plead guilty to the charges of spying. He said that he had been told that if he did not plead guilty, he would be executed.

Mr. Zarb also said that he had been under pressure to plead guilty. He said that he had been told that if he did not plead guilty, he would be executed.

DISPUTE ON MISSILES

China calls U.S. move act of aggression

COMMUNIST China has protested to the United States about the basing of guided missiles in Formosa and described the move as an act of aggression.

A Foreign Ministry statement said: "This is another serious provocative action of the United States Government in persistently pursuing its policy of carrying out aggression against China and aggravating tension in the Far East. The Chinese Government and people express their great indignation at this action and lodge a strong protest against it."

FREE TRADER'S WARNING ON TAXATION CHANGES

Danger to industry

A WARNING to those responsible for the planning of Kenya's fiscal system was given by Mr. T. G. Dampier, president of the Association of Eastern Africa, when he spoke at the association's dinner in Nairobi on Friday.

After stating that the changes in taxation in some directions, and the modification, on abolition of the taxation authority, which he subscribed in the past, Mr. Dampier said that it is merely on the fringe of major developments, and expansion, which are being considered, but that the Government should not proceed unthinkingly with such changes, which would be added to the heavy burden, and thus promote over-investment in the country and encourage a large capital investment.

TRUENEN in 'BLITZKRIEG' FORM at MIDDLESBROUGH

Takes six for 46 to bring his season's tally to 33 for 357

FREDDIE TRUENEN, Yorkshire and England fast bowler played havoc with Warwickshire batsmen at Middlesbrough on Saturday when he took six wickets for 46 runs in a match of 142. This brought his season's tally to 33 wickets at an average cost of 10.81 runs per wicket. Warwickshire's innings was interrupted only by a leg break to Kenyon for 50 and 52 runs on Friday, and a four wicket haul for Truena for 106 at Old Trafford.

Truena bowled with the aid of a new ball and bowled 100 balls, taking 10 wickets. He bowled 100 balls, taking 10 wickets. He bowled 100 balls, taking 10 wickets. He bowled 100 balls, taking 10 wickets.

Collapsed in tears

Ken, in his turn, collapsed in tears against England fast bowler Freddie Truena, and his teammates were left in a state of shock.

Nairobi XI defeats hockey tourists

One of the cleanest and most sporting matches seen for a long time on the City Park Stadium, Nairobi, XI defeated the South African touring hockey team by 10-0 in the first of the Springbok tour matches on Saturday. There was no score at half-time in a game that thrilled a large crowd but Nairobi's lightning speed and superior stickwork was too much for the South African defence after a change of ends.

U.K. ships to use Suez again

BUT NO 'DE-FREEZE'

BRITISH SHIPS can resume use of the Suez Canal, the British Prime Minister, Mr. Macmillan, announced in the House of Commons last night. But Egypt's sterling bid to keep the canal open for nationalised, would "de-freeze" the canal, remains blocked, he said.
 Mr. Macmillan's announcement came after Egyptian officials reported to Cairo that Anglo-Egyptian talks had taken place which were expected to lead to a "de-freezing" of Egyptian relations with the West. The Government in London has released about 10,000 personnel throughout the country, and indicated other measures to be taken to ease the situation.

Feeling of optimism on London markets

BEST CROP OF COTTON EXPECTED

London Stock Markets were quietly firm yesterday on selective buying, with optimism about the situation in the Commons in the afternoon on the issue of the Canal and the possibility of an end to petrol rationing. Several favourable company statements also helped.

Industrialists were firm but not inclined to invest in the new Laid Pines vine crop in Tanganyika. The crop in Tanganyika is expected to produce a record crop this year of 12,000 bales, a 50 per cent increase over the previous year.

So far, a programme has been announced to plant and see to the maintenance of 100,000 acres of cotton in the Tanganyika Territory. The Tanganyika Cotton Marketing Board has announced that it will acquire the Tanganyika Cotton Marketing Board and will acquire the Tanganyika Cotton Marketing Board and will acquire the Tanganyika Cotton Marketing Board.

Rising population poses problem

Australia will need large numbers of immigrants to replace the population that will be lost in the next 20 years, it is estimated by the Commonwealth Government.

The Commonwealth Government has estimated that the population of Australia will be 10,000,000 in 1957, compared with 6,000,000 in 1937. This increase is due to the fact that the birth rate is higher than the death rate.

Suited a Spring Bride

PATRICIA DOUGLAS
writes a new, low-
key, elegant gown for
bride's trousseau, but
a dress, she says, is
fashionable for many
seasons.

It is no longer the fashion
for brides to bespit their
married life with a sharp
trousseau. Fashions changed
too quickly.

Instead, these spend no big
costs, which may mean today's
wedding is a few months away
and a few months more may
add to her trousseau
seasons.

Basically, a bride will select
for a new suit, a light color,
a dress for important occasions,
a dress for everyday occasions,
and, of course, her accessories.

MAJOR ITEM

If she has decided on a
romantic white wedding and
the wise girl considers, buying
her suit probably wear it
this year and change for white
the going-away outfit, then she
will not regret her choice.

If she plans a quiet wedding,
of either church or register
office, she will probably wear
the same suit for the
ceremony as she will wear in
church, only her hat and
accessories.

The bride may decide that
her new suit has to fit this
year, but she should allow a major part
of her trousseau budget for
because a well-chosen suit can
remain important years after
wedding for several seasons.

The choice of attractive main-
body, though as a wedding or
going-away dress, then the
style should be considered first.
Fullest skirts are most in-
vogue, and short jackets, set-in-
sleeved, with short sleeves,
and a high collar and the pretty
beaded-trimmed neck.

TWO SKIRTS

A suit with two skirts, pleated
and plain (always a best-seller
at Brooks Brothers), is an
investment. The full pleated
skirt has a soft and dapper
look, and the great day
skirt will be worn on the
wedding day.

Polly Pack inventors have
had brides in mind who may
add a creamy white suit to
her trousseau. The suit is
collected. Its pleated skirt
is full and flared with the
pleats in the center. The
skirt is made of a light
weight fabric and is made
in a light color. The skirt

BE CAREFUL WHAT YOU SAY

When your guest has finished his first drink and slyly frames the age
of your question, be careful what you say ...

If he tells you that Scotch produced by an old family concern is the
best example from which to judge, sit back; this man is safe.

But if your guest tosses back your Scotch without tasting, holds out
his glass and cries, "Scotch, I could drink a bottle", say nothing. Hide
your Grants; there is enough to go round but no more. The output of
this small highland concern is restricted by the long years spent maturing
and blending.

Grants is sold only by name. There is not a drop to waste on the man
who carelessly calls for "Scotch".

Be careful what you say. Scotch whisky means so much more than
"Scotch"—take Grants for example.

AFRICAN FARMERS TOLD TO BEWARE OF 'EVIL WEEDS'

Barrier to prosperity

WARNING to African farmers to beware of a host of letter and stamp words was given by the Minister for African Affairs, Mr. Windley, in a speech made at the formal opening of the K.F.A. offices which is the first service of the African Farmers' Union. Mr. Windley said that the K.F.A. had been established in Kinyua last year and was now in the future of the Union.

"We are aware that many of the farmers are engaged in the growing of various crops such as sisal, tobacco, and other cash crops. It is important that they should be aware of the various 'evil weeds' which are a barrier to their prosperity. These weeds are not only the physical weeds that grow in the soil but also the economic weeds that grow in the minds of the farmers. These economic weeds are ignorance, lack of organization, and lack of cooperation. It is the duty of the K.F.A. to help the farmers to overcome these weeds and to prosper."

Land purchases

In the first instance, the K.F.A. is engaged in the purchase of land for the use of the Union. It is important that the farmers should be aware of the various legal requirements that must be satisfied in the purchase of land. The K.F.A. is engaged in the purchase of land in various parts of the colony, and it is important that the farmers should be aware of the various requirements that must be satisfied in the purchase of land.

10,000 Kikuyu watch opening of church

GATITU CATHOLIC CEREMONY

MORE than 10,000 Kikuyu gathered at the new Catholic Mission Church in Gatitu, near Nairobi, yesterday when it was opened and blessed by the Archbishop of Nairobi, Most Rev. J. McCarthy. The ceremony was held in the presence of a large number of officials and dignitaries. The church was built by the Kikuyu of the district and was named in honor of St. Ignace of Loyola.

New branch of K.F.A. opened

The new branch of the K.F.A. was opened in a ceremony held in Nairobi. The branch is now active and is engaged in various activities for the benefit of the farmers. The K.F.A. is a voluntary organization and is open to all African farmers who are interested in improving their standard of living.

Selfless attitude needed

'MYTH' ON TAXATION ALLEGED

Asians claimed to pay biggest share

Minister for Finance, Mr. B. K. Musy, said that there was a widespread belief that the Asians were paying the biggest share of taxes in the colony. He said that this was a myth and that the Africans were also paying a significant amount of taxes. He called for a selfless attitude from all citizens in order to improve the economy of the colony.

Reward for missing bank notes

£9,000 IN BOX

UNDERWRITERS have offered a reward for information leading to the recovery of a lost box of banknotes. The box, containing a total of £9,000, was found in a car belonging to a member of the public. The car was seen near a bus stop in Nairobi. The reward is £1,000 for the person who provides information that leads to the recovery of the remaining banknotes.

Emperor's son killed in car accident

The son of the Emperor of Ethiopia was killed in a car accident in Nairobi. The accident occurred on a busy road and was caused by a collision with a truck. The Emperor's son was traveling with a group of friends. The accident has caused a great deal of grief and concern in the colony.

RAIN PUTS DAMPER ON HOCKEY INTERNATIONAL

Compton ends Springboks hold a strong Kenya XI to goal-less draw

Test career DENIS COMPTON, 18, of England and Middlesex, announced on Sunday that he would not be available for Test matches against the touring West Indies team this summer.

Compton, 31st month, has a regular first-class cricket record of 1,000 runs for his country. "I am not fit enough for a five-day tour," he said. "I am not fit enough for a five-day tour with my knee when it is aching or running."

There are many fine young cricketers in Kenya, but I do not think I can help them. I was their captain when they were twenty years ago, when the youthful Compton was 16 and took two wickets in the first Test in Nairobi. Compton is one of the few players in Kenya who have played in the first Test. He was captain of the Kenya team which won the title in London.

SETBACK TO POMPEY'S SECOND TILT AT TITLE

German wins in surprise comeback

WILLI HOEPFNER (Germany) former European light heavyweight champion, outpointed Volodya Pompey (Ukraine) over ten rounds in Hamburg on Friday. This was the second tilt at the title between the two fighters. Pompey had beaten Hoepfner in London last year. Hoepfner was knocked out by German heavyweight champion, Gert Gebrack, in the first round. Hoepfner never lost a title fight. He was defeated by Pompey in the second round. Pompey made a desperate attempt to knock out Hoepfner by the eighth round and body-punching Hoepfner in the later rounds.

Wants U.S. opponent Hoepfner, whose victory over back, received a surprise knockout in the first round. He was not in contention for the title in South Africa. He had been fighting for the title in Germany. He had lost to an American champion in the first round.

Slight fall in exports by Britain

BRITISH exports in April dropped two and a half per cent below the monthly average for the first quarter of 1937, the value of exports being £72,500,000, according to the Board of Trade announced.

In the first four months of 1937, the value of exports, measured at current prices, was seven per cent more than in the corresponding period last year.

Imports in April amounted to £70,000,000, or per cent more than in the first quarter of 1937. In the last month of the period the corresponding figure for 1936 was £68,000,000.

Shipping diversion
 Arrivals delayed from 1936 through shipping diversions from South Africa, amounted to about one-third of the total. In April 1937, the monthly average for the first quarter of 1937 was £68,000,000, or per cent more than in the corresponding period last year.

Allowing for the late arrivals this figure shows little change from the average of £66,000,000 in the first four months of 1936. The monthly average for the first quarter of 1936 was £64,000,000.

At the close of the week, 3,216 motor vehicles had been registered in the country. The number of motor vehicles registered in the country for the week ending May 13, 1937, was 3,216, or 10 per cent more than for the corresponding week of 1936.

The total number of motor vehicles registered in the country for the week ending May 13, 1937, was 3,216, or 10 per cent more than for the corresponding week of 1936.

RELIVING THE DRAMA THAT WAS DUNKIRK

A tactical British troops struggle through the water for the evading ships. Behind them on abandoned beach were tanks (locally). And all the time of the evacuation the skies for the deadly Stuka. This was the drama of Dunkirk. Now the drama is being re-lived in the new production, "Dunkirk", which is being shown at the Grand Theatre in Nairobi. The picture shows 4,000 troops taking part in the evacuation scene being filmed on Comber Sands, Sussex.

African farmers entering new era of prosperity

LAND REPORT FOR 1956

BECAUSE of the tremendous progress made in land cultivation in Kenya, African peasant farmers will for the first time in history be holding their own in the culture's report on the African continent.

The progress of an agrarian revolution has not been seen in any other African colony. The report, however, shows that the progress has not been uniform. It states that the Central and Eastern Provinces have made the most progress, but that the Western Provinces have made the least.

The report also states that the Central and Eastern Provinces have made the most progress, but that the Western Provinces have made the least.

able and to benefit from more detailed advice. It is pointed out that the average layout area of a small holding is about 10 acres, and that the reorganisation which is being carried out will result in a more efficient use of the land.

The report also states that the Central and Eastern Provinces have made the most progress, but that the Western Provinces have made the least.

COFFEE EXPORTS TO KENYA TRADE

TO KENYA TRADE

£4,500,000 rise during year

INCREASED exports of coffee from Kenya to the United Kingdom during the year 1953-54 were the main factor in a rise of £4,500,000 in the value of Kenya's agricultural exports.

The report states that the value of coffee exports rose from £2,000,000 in 1952-53 to £6,500,000 in 1953-54. This was due to a combination of factors, including a rise in the price of coffee and an increase in the quantity of coffee exported.

WATER BOOST

WATER, power and land are the three main factors in the increase in the value of Kenya's agricultural exports during the first six months of 1954.

The report states that the value of agricultural exports rose from £1,000,000 in the first six months of 1953 to £1,500,000 in the first six months of 1954. This was due to a combination of factors, including a rise in the price of water and an increase in the quantity of water used.

What is COLD RUBBER

It has a very important bearing on the mileage of a tyre. It is a well-known fact that in many cases when a substance is subjected to great heat it often loses some of its quality.

The temperature at which rubber is heated to form a mix for manufacture of tyre tread compound is directly related to tyre mileage. After many years of research manufacturers have successfully managed to reduce the temperature at which rubber polymers to form a mix. With this new process you can get up to 30 per cent more mileage with COLD RUBBER retreads.

HONOUR SHARED BY THREE COUNTRIES

SIGNAL achievement during 1936 brought merit awards from a leading women's magazine in the United States to nine young women of three countries. In paying tribute to the group selected, the magazine reviewer stated: "They have added to their own individual talents that extra something which bridges the gap between adequacy and distinction."

This year's winners, who range in age from 21 to 32, represent the fields of teaching, sports, architecture, social service and fashion. Each, required of her, brought youth and imagination to the relation notes, "gave a great deal more than was and the young to her own particular field."

Barbara Leckero (Suffragette) was named "Young Woman of the Year" by the "Signal" magazine. She is a sculptress from New York City who has won the first prize for four years and has been awarded a grant by the National Institute of Arts and Letters.

Shirley Fry (Tennis champion) is a year crowned 20 years of artistic tennis competition by winning the world's leading tennis trophy, the United States championship.

Blanche Lemod (Architect) is in the past, 29-year-old Miss Fry had, on her last occasion, been the runner-up and once the winner of a "Signal" merit award.

Julie Andrews (Stage star) is a member of the American Musical Comedy Company for her part in the "New York Times" production of "The New Yorkers" in 1936.

At the famous ball of the "Signal" magazine, she was crowned "Miss America" in 1936.

Mary Douglas (Fashion designer) is a young woman from New York City who has won the "Signal" award for her designs in the "New York Times" production of "The New Yorkers" in 1936.

After two years in the United States as star of "The Big Parade," she made her return to her native country with "The Signet Ring" in 1936.

Housewives buy in bulk—and halve their bills

BY A SPECIAL CORRESPONDENT

A SENSATIONAL attack on the cost of living has been launched in Britain. It could extend to the rest of the world. In Scotland, Ireland, Wales, by buying in one month's supply at a time, other house hold marks.

Capital is not the normal cost of living, but the Government's restrictions on credit.

The enormous saving is possible because so much costly cartoning, blotting and packaging is so great that it halts the cost of the goods.

BIG SAVING

Mr. H. J. Hume, Secretary of a small chain of food stores, started the scheme.

Some time has been spent with letters from all parts of the country, but he has always wanted to buy in bulk, but has never been able to get his goods cheaper.

And at last, he has done it. He has a packet of materials, the customer has 25 lb. at a saving of 50%.

Instead of a bottle of soap costing 10/6, it is now 5/6.

Instead of a small packet of washing soap, they take a 10 lb. packet and save 10%.

Instead of a standard bottle of liquid detergent, they take 10 gallons and save 10%.

The saving is a handsome 22% per year on cleaning and washing commodities.
