Low Tauro Machines Conserve Electricity

Every Tauro cut and metal working machine is equipped with its own self-contained fractional h.p. electric motor. The modern design of the machines themselves and the use of sealed-for-life ball bearings enable them to do big jobs powered only with these small driving units. Not only do the motors consume very little current but they are running only while the individual machine is actually being used by the operator. Impressive savings in the consumption of electric current invariably result when Tauro equipment replaces heavier or out-of-date machines. It will pay your cut-or-metal in wood or metal... every plant maintenance department... to investigate the many unusual features and the advanced design of Tauro machines.

When kidneys are active again

Because Dr. Wirtz's Kidney and Bladder Pills act directly on the kidneys they are really effective in the relief of backache. Within twenty-four hours of your first dose Dr. Wirtz's Pills have reached the source of your trouble—the kidneys. You have visible proof of this direct action. Once in the kidneys the beneficial ingredients in Dr. Wirtz's Pills set to work—purifying, cleansing, and restoring.

At the same time, it is essential to keep the urinary tract free of irritating accumulations and to help back to healthy condition again. You can be certain that Wright's Pills are the best of their kind for this purpose.

THE AFRICAN'S HEALTH

It has often been contended that in the field of tropical medicine there is no advance in the state of human knowledge than years of practical research. This is not true. The danger generalisations which could be drawn from the experience of the past are of a nature which would be of little value to the African. It is true, of course, that the knowledge of the nature of the disease is of a nature which would be of little value to the African.
