History Of The Uganda Railway

As recently announced by the Press it is proposed to compile a history of the first fifty years of the Uganda Railway. Unfortunately many of the original documents relating to the early years of the railway—both in the original documents and construction and of operations—have been destroyed by fire or otherwise.

In consequence, members of the public who possess letters or documents dealing with, or relevant to, the early history of the Railway, are earnestly requested to send them to the Administrator, Uganda Railway, P.O. Box 12, Nairobi. Great care will be taken to ensure that papers so loaned: Administrator, Uganda Railway, P.O. Box 12, Nairobi, by the compiler of the proposed history and the papers will be returned to their owners in due course.

The greatest need is not for more official reports but rather for personal dealing with, or relevant to, which convey an impression of the day to day life and work of the railway. It is particularly desired that the day to day life and work of the railway, and the life of the country, and of the life of the people, be made up of material by the Railway in the years before the first Great War.

WAR EFFORTS IN KENYA

To the Editor, "E.A. Standard"

My main point, there is no more than that our children, Kenya's children, the Empire's children, the children of the world, are being used as the cannon-fodder of a war which is not theirs. I make bold to re-assert that our first duty, as we no war, is to get the Government to re-assert the Empire's children, the children of the world, are being used as the cannon-fodder of a war which is not theirs. HIS WAR WORK HAD TO GO ON

Rheumatism Couldn't Be Allowed to Stop It

His rheumatism interfered with his work, but he couldn't stop it. He was a member of the "Rheumatism Club" and was known as "The Man Who Wouldn't Stop".

"My work is my important," he writes. "I am in charge of two big boilers, and work all night. I had been troubled with rheumatism pain and considered for about three years, and it was becoming a misery to do any work. I always felt stiff. I tried Knechtel's Salt, and after three weeks I was a new man. I did my work as usual and never a pain again."

There is no doubt that Knechtel's Salt is a most effective remedy for rheumatism. It is a natural product and does not contain any harmful ingredients. It is available in all chemists and druggists.

CORRESPONDENCE

LADY GONTHAL HILL

To the Editor, "E.A. Standard"
I am writing to you about my letter which you published in your issue of the 11th inst. in connection with the article on the "Fourth Dimension" and the "Theory of Relativity".

The fundamental thing of the "Theory of Relativity" is that the speed of light is constant in all directions and in all media.

It is not possible to have a perpetual motion machine. The laws of physics are not violated by the "Theory of Relativity".

Yours sincerely,
LADY GONTHAL HILL

INDIAN IMMIGRATION

Many people in this country are under the impression that the Indian immigrants have been flooding into the country since the beginning of 1920 to end of 1924 with the result of a serious situation.

The number of Indian immigrants in 1920 was 14,284, in 1921 12,280, in 1922 12,280, in 1923 12,280, in 1924 12,280.

Yours sincerely,
G. AMIN, Nairobi, May 15, 1936.

AFRICAN WAGES
To the Editor, "E.A. Standard"

I have always found that the main essential with servants is to realize that they are not to be treated as "black devils" but as human beings.

Yours sincerely,
KIRIKAMATI, Nairobi, May 15, 1936.
