### WINDMILLS NEED SAILS SHEEP NEED COOPER'S

Sails form a vital part of the windmill. And on many a farm the annual dipping with Cooper's has become an equally inseparable part of sheep farming.

**COOPER'S SHEEP DIPPING POWDER** is the key to healthier sheep and better wool. It eradicates parasites on the sheep and breaks off furlice attached. In addition, it stimulates the skin and wool. Its use results in a bigger and better clip of high-quality wool.

If you have to deal with Keds use **QUICK-ACTING POWDER**. A single dipping is sufficient to eradicate Keds and their pupae.

**COOPER'S SHEEP DIPPING POWDER**

Cooper & Haynes, S.A.I. P.O. Box 500, Nairobi.

### PETRIE'S MILL, - Nakuru. MINERAL MIXTURE

It is a well known fact that our Highlands are lacking in VITAL Minerals essential to the fertility and well being of Stock. The following Mixture is the result of some years of trial and has proved beneficial.

Coalt, Nitrate, Pot Iodide, Lime, Sulfuric Bone Meal, Oxide of Iron, Flowers of Sulphur, Salt.

The most economical method of giving the Mixture is in the animals food, cattle and horses 2-3 teaspoons per day and fowls 1/2 by weight when mixing up the feed.

Horses and cattle should also have free access to salt in addition to the Mixture. The Mixture can be converted into a lick by making into a paste with water, running into a shallow box and allowing to thoroughly dry and harden.

Made up in 10 lb. Bags at 6/6. 1/2 per bag.

**D. P. PETRIE.** P.O. Box 180, Thika, NAKURU, and from the Kenya Farmers' Association and all branches.

### WIN -- THE GENUINE FARMALL WAY

With this exclusive Farmall feature, a simple turn of the steering wheel shifts the gangs and starts the tractor, actually doubling the designed action, or reverse mechanism. In other words, the Farmall tractor is the only tractor in the world which can be reversed by simply turning the steering wheel.

### No Hills Ripped Out . . .

with This McCormick-Deering Cultivator Even masochists with a good check sometimes have a few hills out of line. With the Farmall HM-23 3-Row Cultivator however, this makes little difference because this cultivator makes full use of the Farmall patented swing axle.

With this exclusive Farmall feature, a simple turn of the steering wheel shifts the gangs and starts the tractor, actually doubling the designed action, or reverse mechanism. In other words, the Farmall tractor is the only tractor in the world which can be reversed by simply turning the steering wheel.

# Strong Enemy Reaction to New British Reaction

## Beginnings Of a Bulge

### VOLTERRA—A WORRY TO THE ENEMY

In Italy as in Normandy, it is a story of stubborn fighting and counter attacks at some points, but Army troops have enlarged the wide drive into the enemy position southeast of Volterra.

### Rocket Idea Is 114 Years Old

July 11.—A new idea for a rocket-propelled missile was announced today by the British War Office. It is a rocket-propelled missile which would be fired from a ship or a shore battery.

The Army from the big drive of lightning, but at imposing the maximum delay on our machinery to the river Arno, approached the Gothic Line. The British used some artillery and self-propelled guns, but the enemy had millions everywhere.

Another correspondent in Volterra described it as a magnificent observation post, a great stretch of country about as big as Manhattan was in 1800. The town was now a mass of rubble.

On the night of the 10th, the British Army moved into the Gothic Line. The British used some artillery and self-propelled guns, but the enemy had millions everywhere.

### Pope Receives Prince Bernhard

From a correspondent: The Pope on Monday received at the Vatican Prince Bernhard of the Netherlands. They were accompanied by the Dutch ambassador.

The other is the 16/6th Lancashire. They have been in the front line since the beginning of the war.

### General Alexander's Visit

General Alexander's visit to the front line in Italy was a landmark event. He was accompanied by the British Army.

General Alexander's visit to the front line in Italy was a landmark event. He was accompanied by the British Army.

# AMERICANS LAUNCH NEW ATTACK ON ST. LO

## Check To Optimism

### From a correspondent: London, July 11.

General Eisenhower's check to optimism in an interview with a correspondent was a check to optimism. He said that the Americans were making progress in the St. Lo area.

### Threat to German Field

The German field in the St. Lo area is under threat. The Americans are making progress in the area.

### American Launch Out Again

American forces have launched a new attack on the St. Lo area. The British are making progress in the area.

### Group of Mustangs Shifts

A group of Mustangs has shifted its position in the St. Lo area. The British are making progress in the area.

### More Raids on Jap Bases

More raids on Japanese bases in the Pacific have been reported. The British are making progress in the area.

### Southwest Pacific Raids

Southwest Pacific raids have been reported. The British are making progress in the area.

### Another French Collaborator

Another French collaborator has been reported. The British are making progress in the area.

# Go On To Berlin

## Check To Optimism

### From a correspondent: London, July 11.

General Eisenhower's check to optimism in an interview with a correspondent was a check to optimism. He said that the Americans were making progress in the St. Lo area.

**Tough Fighting  
Around New  
Bridges**  
Germans Launching Strong  
Counter Attacks

July 12. There was tough fighting all day yesterday in the central and eastern parts of the Mwananyazi front. The German attack was directed at the east bank of the river where the British 2nd Army was present. The Germans launched a strong counter-attack with tanks and heavy artillery. In the evening they were repulsed. The British 2nd Army has been successful in holding the line. The German attack was repulsed with heavy losses. The British 2nd Army is now preparing for a counter-attack.

**Vote Of Thanks  
To Mr. Churchill**

July 12. A vote of thanks to Mr. Churchill and the fighting forces for the successful defence and maintenance of the Mwananyazi front was moved in the House of Commons. The House of Commons has passed a resolution expressing its appreciation of the services rendered by Mr. Churchill and the fighting forces. The resolution was carried by a large majority.

**SOBER OPTIMISM**

Every day now seems to provide its own incentive to increasing optimism concerning the European campaign, and the prospects of Germany which give a promise of gratifyingly to a hopeless dilemma for that besieged people. Their position is now so desperate as to be truly desperate. The Russians are now in unimpeded possession of their west as the 1600 frontier along the central and northern sectors of the front, and west of Kovel they have pressed on to the line from where the Nazis launched their last attack. So far the Germans have given no indication of any ability to stem the flood.

And it is not by eastern windows only that Germany sees the signs of her fate. Westward, too, the land is being won by the United Nations. In the words of General Montgomery, "The main objective of our operations is the complete conquest of the Allied troops."

"We have enlarged and extended our operations in the area and in that area we are very firm and secure," declared the Chief of Staff according to our plans. Fluctuations in the fighting there are due to the changing of positions as the enemy has had four years to prepare for this war. The British-American resources in our "enlarged and extended judgment area," and with increasing ease and speed as the Allied advance becomes a reality. German operations in our hands. German "military" progress can only become increasingly ominous.

As another indication of Germany's growing difficulties it is found in the report from Allied advance headquarters that German vehicles in good running order have been found abandoned with empty petrol tanks. It is this the symptom that our Allies cause in the Allied advance headquarters that German vehicles in good running order have been found abandoned with empty petrol tanks. It is this the symptom that our Allies cause in the Allied advance headquarters that German vehicles in good running order have been found abandoned with empty petrol tanks.

**THE AIR WAR**

**1,067 NAZI PLANES SHOT DOWN IN ONE MONTH**

At least 118 German aircraft were shot down by Allied fighters in the first month of the summer in France. This is the first figure for aircraft losses since the beginning of the war. It is a record of the success of our operations against the Luftwaffe, and a measure of the effectiveness of our fighters.

During the month of June, 1,067 German aircraft were shot down by Allied fighters. This is a record of the success of our operations against the Luftwaffe, and a measure of the effectiveness of our fighters.

**Germany's War Machine**

**Coming Crisis May Prove Insuperable**

[From a correspondence]

A statement pointing out that the German war machine has been slowed by the United States Foreign Economic Control Act in the Middle East. According to this statement Germany's war machine has been slowed by the United States Foreign Economic Control Act in the Middle East. According to this statement Germany's war machine has been slowed by the United States Foreign Economic Control Act in the Middle East.

**Kenya Labour Questions in Commons**

[From a correspondence]

In the House of Commons, the Secretary of State for the Colonies, Mr. G. S. Gurney, has been asked questions regarding the Government's policy on Kenya labour. He has replied that the Government's policy is to ensure that the labour market in Kenya is not flooded with foreign labour, and that the Government will take steps to ensure that the labour market in Kenya is not flooded with foreign labour.

**With The East African Engineers In Ceylon**

[From War Correspondent George Kinnear]

Ceylon, June 15.—The East African Engineers have been in Ceylon for some time now, and they have been working hard to get the road work in the island. They have been working hard to get the road work in the island. They have been working hard to get the road work in the island.

**FOOD**

To the Editor, "E.A. Standard"—

It is a pity that the "Standard" is not more fully conversant with the intricacies of the various branches of the Government. It is in the line of the change from the present to the proposed form of Government that the people desire the most radical and far-reaching changes to be made in the Government.
