Soldiers on Leave

The rapidly increasing strength of the East Africa Force is bringing to Kenya a difficult social problem. Some of these cannot easily be absorbed except by the practice of restraint and common-sense on the part of the men themselves, and protective activity by the authorities. But there are other problems. The nature which are amenable to a sensible approach if they can be taken in hand early while they are in the early stages.

How do you choose face powder?

This is the question you should ask

When you are choosing your face powder, there is one strictly important question you should always ask...

and to follow face powder which will enhance them still further will ruin the appearance of your face.

You see, it is impossible to prevent any grain of powder getting into your pores. Once there, they become moist. If there are particles in these pores of powder which swell when moistened, then the pores are forced open. Once opened, the pores will remain permanently enlarged.

Correctly chosen face powder will keep your "Air Spun" face powder from swelling when moistened. There's not the slightest risk of causing enlarged pores with "Air Spun" face powder.

More subtle shades Ask to see the full range of "Air Spun" shades. The "Air Spun" pores give you many subtle shades that simply can't be got in ordinary powder. Particularly becoming are Nourish and Radiant.

CHEERFUL SHAPELY ROSE This is particularly important with the pores of your face. They are larger than other pores.

# The War On The Home Front

Two people aged 75 and 72 who were in a boat on the coast of England had an extraordinary experience during a storming bomb they crashed over a ledge. A wall of water was blown in, but although they were not hurt, they were covered with wreckage but the two occupants were unharmed. In the north-west, five boys aged a few years were found by rescue workers in a bedroom wall and the floor above had fallen to an angle of 45 degrees and the weight of the fallen roof, attic and floor wall.

**Children Outfit Germans**  
It is reported that Norwegian children were seen falling into the hands of invading Germans, and the boat was now rescued the United States. When the Germans offensive began, a small steamer moved into the region, and was covered with five barges to escape detection by German aeroplanes. For days afterwards children pulling sledges—a common sight in Norway—were frequently seen pulling the sledges on the hills 20 miles from the land. The children were seen to be carrying sledges with large loads of gold, silver, jewels, and other valuables.

FROM NAKURU 'STANDARD' CORRESPONDENT - The Week's Sport At Nakuru

Soccer, Golf And Rugby

The School of Instruction continued their victorious soccer career when on Wednesday last they defeated a strong native team who are the holders of the Meru Shield by 2 goals to 1. It was a splendid game, as clean as a whistle. The first five minutes with the ball were splendid, and the goal keeper was very good. The first water and a potential danger anywhere near the goal. The natives after this score pressed hard, but it was very good. The goal was put in some good centres, and it was very good. They just seemed to miss the goal. The goal that would have been on terms. One of the centres forward shot a goal 7 ft. and can kick like a Governor. The goal was put in some good centres, and it was very good. They just seemed to miss the goal. The goal that would have been on terms. One of the centres forward shot a goal 7 ft. and can kick like a Governor.

The second half was played in the same keen sporting manner on both sides as the first half. Good shoulder to shoulder play - in practice and no other selling than a desire to win for the sake of the game in the full meaning of the word. About half time the referee told Mr. Marsh again it was well placed and he was given the goal. The School of Instruction is such a good one it is hardly due to pick out any member of the team for special mention. But Chatterjee, who left back played a magnificent game and an ace and goal.

The natives side is a good one and it is only fair to say that they are handicapped by playing in bare feet against a team that wears boots. Still they played a hard but sporting game. The whistle only went once for an infringement of a goal. The natives are still full of fight and they are not without hope to win the Meru Shield for the School of Instruction when they meet again.

Location for Saturday 11. The first round of the Hunter Cup Competition, on Saturday, August 31, both are good matches. The first round of the Hunter Cup Competition early this year. A DEAL IN THE DARK Has Unexpected Sequel

The circumstances of the sale of the land on which the German Embassy is being built in Nairobi was very unusual as it was the only land in the city which was sold by the Native Resident Magistrate, Mr. J. E. Marshall, who is a member of the Executive Council of the Government. He is a member of the Executive Council of the Government. He is a member of the Executive Council of the Government.

The defendant, a European, had been summoned for failing to furnish the name and address of the driver of a car owned by him. In a letter by which he pleaded guilty he gave the following explanation: "I do not know the name of the driver of the car."

The accident took place, I understood from the report, on Saturday night and was eventually taken home by a European. I was badly cut about the face and head. As a result of the accident there was damage to my light standard and my car was damaged. I was very sorry to hear of the accident. I was very sorry to hear of the accident.

The other case in which the Magistrate thought the defendant's behavior was worthy of commendation was a case in which a European had been charged with driving a motor car without a license. The defendant was a European. The defendant was a European.

say Doctors

Dirty hands carry germs that cause many diseases. You use your hands every minute of every day. If you don't keep them clean, you are spreading germs to everyone you touch. Soap kills germs. Wash your hands often with soap and water. It's the best way to keep yourself and others healthy.
