RUGGER AT ELDORET

(STANDARD'S CORRESPONDENT)

Considering that the Kenya Rugby Union has been formed it is a very good omen that the first match being played at Eldoret in the month of September.

It was reported that the team from the school at Eldoret, which was the only regular team in the school.

The school looked off and it was immediately evident that the team was to be the victors of the match.

Two minutes later the school captain was asked to leave immediately to receive another, which was conveyed. Within five minutes the school had scored a wonderful victory which was well deserved.

The school of the second ball was the school played in its own territory and a streamer was followed on the line ended with the school.

The game was thoroughly enjoyed by players and spectators alike. It was a well played and well contested match.

TODAY'S RUGBY

(STANDARD'S CORRESPONDENT)

Although the official Rugby football season is not yet open, there are enthusiasts who are very keen to start the season.

The school of the second ball was the school played in its own territory and a streamer was followed on the line ended with the school.

There will be no admission fee, but a collection in aid of the fund will be taken on the ground. The venue, once again, is HILLSIDE, on Friday, 21st September, 8.0 p.m.

THE VETO ON RACING

(STANDARD'S CORRESPONDENT)

In this group of days it is not possible to say that the Government has decided to veto racing.

There is no more patriotic body than the racing community and they fully realize that they are in a position to do a great deal of good.

actor, which the Mission was transferred.

This is an interesting piece of history and we suggest that it is well worth reading. It is a story of how the Kenya was established for coffee growing and this paved the way for an industry which has had a big influence on the development of the Colony.

It is true that the foundation of the coffee industry may be said to date from 1800 when the staff of the then newly established St. Austin's Mission planted seeds in the mission grounds near Nairobi, but we are certain that the Mission would not be regarded as having been accorded to the memory of the man who had already experimented with the new crop before the priests of St. Austin's began their own planting which led to much greater developments.

Here, it seems to us, is a scheme in which all coffee planters can co-operate without any suggestion of controversy or rancour and we hope that some among them will not only take an interest but will also be prepared to take it. It need not elaborate or cost a great deal of money. The aim should be to set in train now a scheme the object of which will be to honour the memory of Kenya's pioneer planter and at the same time set up a memorial which will remind future generations of planters of the time, that the coffee growing and the maize in which coffee growing was first introduced to the country.

The Colony is still little more than an infant and there is no doubt that there will be great changes within the next decade or so. It is important, if only from a sentimental point of view, that we should take some steps to record and commemorate where possible the work of those who in the early days of settlement realized something of the great possibilities of Kenya and had faith to persevere often in the face of great difficulties.

CHILDREN'S HOLIDAY CAMP

To Be Held At Mombasa In December

At a recent meeting of the management committee of the European Children's Holiday Camp, it was decided to hold a Camp in December 1941.

The military camps at Mombasa have been unoccupied and offer no objections to a Camp being held there for the safety of the children. It is proposed that the children should have Nairobi on Thursday, December 12, 1941, returning from Mombasa on Monday January 6, 1942.

A number of voluntary male and female staff will be required to assist in the running of the Camp, particularly during the winter months. Applications for positions should be made to the Hon. Secretary-Treasurer. The staff are provided with free transport to and from the Camp and of course are accompanied and fed during the period of the Camp.

HARMER BLOWS BRITISH BOMBS
 (Continued from Page 2)

Antwerp's Turn Again

While there are no official details yet of last night's raid it is revealed that the German bombers which were found twelve ships at anchor in the port of Antwerp. Six of these British aircraft battered away at the ships for more than an hour and a half.

One of our aircraft on Friday found a German supply train near Brussels and dropped bombs which killed bombs from a height of only 800 feet. The locations blown to bits. The debris shot up as far as the railway station and the surrounding area.

Another formation attacked a large factory near Antwerp and started a large fire.

Blows in Geneva Basin

A convoy was attacked by two Heisterons off the Dutch coast. Bombs were aimed at two ships and both were set on fire. Clouds of burning debris were hurled into the air. A bomb was also dropped on the city of Geneva.

Earlier formations were only a few minutes away from the coast. These night raids are having a most devastating effect on the German plan.

HEAVY POUNDING IN AFRICA

Earlier messages state that on Friday night the Royal Air Force bombed Italian air bases in the hours at night. Heavy bombs were dropped on the air bases and the surrounding areas.

Our bombers also attacked enemy ships at Benghazi and set three convoys on fire.

A Cairo message says that the aerodrome at Assiut was bombed and was attacked from British planes made extensive reconnaissance flights over the southern Egyptian desert and the Somaliland.

Reorganisation Necessary

It is reported that Marshal Graziani is working feverishly to reorganise his army and to supply services before attempting a possible advance into Egypt. It is believed that it may be several days before the British are able to begin their forward movement.

British planes have been reported to have bombed the port of Assiut. It is believed that the Italian Navy is being used to transport supplies to the front. The Navy used air shells and searchlights to illuminate the Italian warships stationed three times past Assiut and the British warships close range. At Assiut, the British ships were only a few miles from the shore when they opened fire at 1000 yards and hit the Italian ships.

NAIROBI MUNICIPAL COUNCIL

More Money For A.R.P. Services

The monthly meeting of the Nairobi Municipal Council, held in the Council Chamber, on Monday, September 23, 1940, was presided over by the Mayor, Mr. J. H. W. Wardle. The Council discussed the proposal for the purchase of a large quantity of air raid shelters for the purpose of making extensions to the Municipal Council House. The application has received the approval of the Standing Committee and the Municipal Council. The necessity to provide more accommodation for the Standing Committee and the Council is fully appreciated.

The Mayor stated that he would be pleased to see that the Council's ordinary meeting for the month of September would be held on September 23, 1940, for the purpose of the purchase of a large quantity of air raid shelters. The Mayor also mentioned the proposal for the purchase of a large quantity of air raid shelters for the purpose of making extensions to the Municipal Council House.

Southern Rhodesia Celebrates Jubilee

ORIGINAL PIONEER COLUMN FLAG RUN UP IN SALISBURY

Northern Rhodesia's Governor Surveys The War Effort

Below will be found the weekly message from His Majesty the King to His Majesty the Governor of Southern Rhodesia on the fifth anniversary of the commencement of the war.

Southern Rhodesia

Southern Rhodesia's Jubilee was celebrated by ceremonies at all the main towns on September 12. In Salisbury the celebration was the raising of the Pioneer Column flag in the British House and at the same time a review of the war situation. Mr. H. H. Johnston, Governor of Southern Rhodesia, presided at the ceremony.

At Salisbury the day began with a great number of songs commencing about 1.30 pm in the D.L.H. Hall square. The music was led by the Royal Air Force band. The band was followed by the Southern Rhodesia Regiment, the Middle East Force and the Southern Rhodesia Rifles. The band was followed by the Southern Rhodesia Rifles. The band was followed by the Southern Rhodesia Rifles.

The King's message to the Governor, which read the following:

Late British News

Reports from Southern Rhodesia at the close of the day of the 22nd September, 1940, are as follows: The Governor of Southern Rhodesia, Mr. H. H. Johnston, has received from the British Government a message of appreciation for the services rendered by Southern Rhodesia during the war.

U Boat Sinks Liner Carrying Children To Canada

83 OUT OF 90 PERISH:
TOTAL SURVIVORS 112

World's Horror At Latest Nazi Atrocity

September 23
THE FIRST casualties among the thousands of children sent by the German Government to the children's overseas reception homes arranged by the Children's Overseas Reception Board in Canada were lost today at sea in the Atlantic. The U-boat sank the ship carrying the 50 children on board only seven hours after their latest act of innocence by the Nazis.

No Warning
The attack took place without warning and there was a rain storm and it was bitterly cold at the time. The ship was on the high seas at a distance many miles from any land. The ship was carrying 50 children on board only seven hours after their latest act of innocence by the Nazis.

Eight children were killed independently with their parents and other adults. Two of the eight children and one of the adults died of the attack and the total death toll is 84.

War on What Was Suspect
The Children's Overseas Reception Board in announcing the loss says that the children embarked at a West Coast port in the second week of September and were well on their way when the ship was struck by the U-boat. The ship was carrying 50 children on board only seven hours after their latest act of innocence by the Nazis.

For every fifteen children there was a doctor and a nurse and a nursemaid. For every child one adult passenger was aboard.

Wife of Heroin
Some of the survivors have told of the horror of the attack. One of the children who survived said that the children were packed in the hold of the ship and were told to get the lifeboats lowered and to follow the instructions given at the start of the attack. The survivors have told of the horror of the attack.

One mother, Mr. Forth, of London, said the ship began to sink almost immediately and that she saw many children in the water. She said she saw many children in the water and that she saw many children in the water.

Survivors in Good Heart
Mr. Shakespeare was able to recover the bodies of his wife and child who had survived well and had not been injured. The survivors in good heart.

SOME WHO FOUND MARTIAL LAW IN EGYPT

Above are shown some of the British officers—part of one of the best groups of 15 to 20 men who found martial law in Egypt. The group is standing in a line. The officers are wearing military uniforms and some are holding rifles. The setting appears to be an outdoor area, possibly a camp or a training ground.

Reconstruction Of Cabinet

September 23
The Egyptian Cabinet has been reconstituted after the evacuation of four of its members—announced yesterday—when General Sir I. Hamilton's ultimatum was met on the 22nd.

Although the Cabinet's going is a sign of the British government's confidence in the Egyptian government, it is also a sign of the British government's confidence in the Egyptian government.

African Standard TUESDAY, SEPTEMBER 24, 1940. More Kultur

IN BRIEF

September 23. A French liner has arrived at Nairobi to bring 2,500 French troops from Syria. Others are expected this week.

The British ship Dundee, of 1,000 tons, was torpedoed and sunk in the Indian Ocean on September 22. The crew of about 100 and three or four hundred tons of cargo were rescued.

A German record in the last war was right enough in all circumstances, but the Nazis have gone much further and almost as a matter of course committed crimes which even the Kaiser's commissioners would have considered rather outside the scope of war operations.

THE DEPARTMENT OF THE DISTRICTS, the authority on ceremonial matters, has decided that the British flag should be flown at half-mast on September 23 and 24.

Why else would more people ride on Goodyear tyres than on any other make—if long experience had not proved them foremost in unfailing performance, in solid safety and sound quality? This outstanding leadership explains the popular acclaim instantly accorded Goodyear's newest tyre achievement, the DeLuxe All-Weather. . . . This is the safe, quiet, smooth rolling tyre that gives the greatest possible resistance to skidding. The sharp-edged, diamond shaped blocks of the famous All-Weather

THE DeLuxe ALL-WEATHER

Center Traction Tread bite deep and give sure-footed traction—whether you drive on city streets or country roads. . . . And, underneath its tough, long-wearing tread, is a strong new type Supertwist Cord body. Greater strength has also been built into the sidewall areas—for more protection against bursts or blowouts. . . . Yet, when you buy a set of these safe new DeLuxe All-Weather Tread tyres you pay nothing extra—no more than you're accustomed to paying for good tyres!

Only Goodyear can give you all these outstanding features of the
DE LUXE ALL-WEATHER

ALL-WEATHER CENTER TRACTION—proved safer for a quarter century, on all types of roads.

LONG NON-SKID MILEAGE—flat, thick tread—wide riding ribs—more rubber on the road.

QUICK STOPPING AND STARTING—deep non-skid blocks in center of tread for firm grip.

NO SLIP ON CURVES—heavy shoulder blocks resist sliding, in all directions, on all types of roads.

TOUGH TREAD—compacts when inflated, increasing resistance to cutting and grinding wear.

BLOWOUT PROTECTION—new type Supertwist cord in every ply—adds thousands of safe tyre miles.

Official Communiqué
Concerning last night's raid the Air Ministry has issued the following communiqué: "During the night enemy aircraft was observed attacking London and on several occasions it was destroyed. In the night several enemy aircraft were shot down and several industrial areas were damaged. There were a number of casualties, including some people killed. The statement adds that a number of houses were demolished and a number of casualties resulted. An enemy bomber was shot down in the vicinity of London in the night hours of this morning. Three enemy bombers were shot down in the country—but none in the north-west. England sustained losses and casualties in some areas. There were also some damage and casualties were killed."

George Air Service
The East African Standard is informed that the new air service which now links the British Congo direct with Kinshasa will NOT carry air mail. Such a facility would have to be subject to an international agreement with it is understood, is not at present contemplated.

Force Headquarters official communiqué issued last evening announced that the Royal Air Force's South African Air Force, aircraft of the 22nd Squadron, were observed on the ground in the night. "Heavy losses fell in the target area on the aerodrome and one Italian aircraft on the ground was destroyed."

Normal reconnaissance were carried out by other South African aircraft on the night.

"From the above operations all our aircraft returned safely."

"Italian aircraft attempted two raids on our aerodrome on September 20, 21 and 22. No damage is reported as having been done there were a few casualties."

South Africans Raise Over £30 For Red Cross

KENYA AIR AMBULANCE SCHEME

Where Nakuru Donations May Be Sent

Money given towards the purchase of an air ambulance for the use of troops in Kenya is being collected at the Nakuru Depot of the Red Cross Society which is about 100 miles from Nairobi. The depot is open on the morning of Monday, Wednesday and Friday. The excellent representative of Mr. Jack Judd in the East Africa branch of the Red Cross Society will be put into contact here. In fact, any person who is interested in this work before the letter appeared in print. But those who take time, please remember are especially wanted, for only the first 100 will be accepted. The fact that money brought in is being sent to the Red Cross in the name of responsible workers, will be sufficient security for recipients. It is realized that anyone entrusted with a gift from some individual should want written acknowledgment of this will gladly be given if asked for.

There will be no deduction of any kind made for such expenses as may be incurred in presenting the money, any variation from this ideal, being considered the "fast" - but not the "right" - way.

Questions Answered

The main question "What will the ambulance be made of?" How much will it cost? will be answered when it is ready to be presented to the public. Perhaps at the early stage we may be inclined to give more of a general idea of our troops that the Red Cross have in mind and that the cost is a little more than £300.

Plans for the "Mile of Fruit" are well advanced and several gifts have been received. The details will be given next week and suggestions will be so keenly wanted to help to collect small sums and also to bring the largest possible number of names of givers.

Look out for October 4 when a letter will be made and get 100 to 150 cent pieces for the above. Bring along your own to Lake Road on that day. The air ambulance will be used to bring wounded soldiers from the front line to the Hospital quickly - Europeans, Asians and Africans.

Story of The Lake

REASONS FOR PERIODICAL DRYING UP

The story of Lake Nakuru has been told by the "subject matter" in the district. He stated: "Lake Nakuru is dry, not for the first time in the memory of living man. When I first came to this lake over thirty years ago, and resided in depth from a boat, I discovered that the two tanks, many of them over two feet in diameter, were filled with the mud and silt. These tanks had been preserved from the attack of insects and rot by the water and soda. Above them all the growth had disappeared and the mud was very dry. These were proof positive that the lake had been dry for at least twenty-five years, because the growth of the lake is about two feet in thirty years."

Cause of Drying

"The cause of the Lake drying up this year is that a severe earthquake took place in Kenya about twelve and a half years ago. This caused a great deal of water to be drawn from the Nile river bed about the distance between the Lake and the Nile river, the entire volume of the water from the Nile river disappeared down this fissure while in the meantime the lake gradually dried up."

The Nakuru District Council at that time seemed to have forgotten the fact that the water in the lake was being drawn down the Nile river bed. It was not until the fact was brought to their attention that they began to do something about it. They had the lake filled with a concrete dam which is now being built by the Government. This dam will be finished in about a year and will have been built for some time.

"I believe that earthquakes are almost entirely responsible for the periodic drying up of the lake. Formerly the Municipal Board of Nakuru had a tank built to bridge the gap with a concrete dam. This tank is now being built by the Government and will be finished in about a year and will have been built for some time."

Responsible Authorities

"I believe that earthquakes are almost entirely responsible for the periodic drying up of the lake. Formerly the Municipal Board of Nakuru had a tank built to bridge the gap with a concrete dam. This tank is now being built by the Government and will be finished in about a year and will have been built for some time."

THE WEEK'S Lighting Regulation Offences

THE LIBRARY

Stamp met halfway "A" in the first round of the District Soccer Cup on Saturday, September 21, at 4.30 p.m. Both sides played in the first half without scoring. Halfway "A" scored early in the second half from a lovely shot, and ten minutes before time corner number Sixteen refused to continue play, saying the second goal was valid. He immediately ordered them off the field and awarded the game to Halfway "A". The Soccer team has been suspended for six months from September 21 to January play commencing in the first round of the District Cup on Saturday September 24, 4.30 p.m. Mr D. V. Harding will referee.

Correspondence has been exchanged between the District Officers, Training School and the Association Secretary.

The Secretary (Mr. Crates) of the Football Association, in a letter to the Commandant of the School of Instruction, stated—

"On behalf of several African football teams, I desire to thank both Officers and Cadet Officers who have been members held during the past three months, especially Colonel Marriott, Lieut. Gervie, Q. M. S. Marshall and Cadet Officers Crabbe and Eversall, who have given their services unselfishly. My lady is very grateful indeed to them all for the excellent team spirit which they have instilled in the players. We wish them all good luck when they meet."

The Commandant of the School of Instruction replied—

"I have just received your letter, which I much appreciate. The Officers and cadets of the School have thoroughly enjoyed their games against your excellent native teams. Speaking for myself, they have been of great interest—particularly the thoroughly sporting manner in which your teams played."

We are now personally a debt for the kind assistance you have given us in the matter of games. Please accept our grateful thanks."

More acts of looting and magazine thefts do not matter how old they are if they are the illustrated kind with titles—full length stories— and light readings are urgently needed for distribution to the troops. The last batch was carried off on Saturday and would be given out immediately.

Mr. Shepherd, who has been responsible for keeping this collection going, is unfortunately not in the Library on Saturday, but a message will be sent to the Librarian as soon as he returns. Mr. Shepherd has been asked to read matter if wanted quickly. Any books and papers sent to the Library for soldiers in camp will be included as soon as possible, and the news that there can be fetched by men on leave or passing through Nakuru has been noted.

New Books

New books at the Library include: "The Boy of Chango," "The Boy of the Mountains," "The Boy of the Desert," "The Boy of the Sea," "The Boy of the Sky," "The Boy of the Earth," "The Boy of the Wind," "The Boy of the Sun," "The Boy of the Moon," "The Boy of the Stars," "The Boy of the Planets," "The Boy of the Galaxies," "The Boy of the Universe."

1917 V.C. BARRED FROM FIGHTING

His Father Was An Alien

["STANDARD" CORRESPONDENT]

London

Though he is one of only three Jewish holders of the Victoria Cross, awarded for his heroism in Macedonia when he was twenty-one, a Manchester man has had to be asked to resign his commission as a Russian, was never naturalized according to the terms of the Ditch of the River.

In 1914, as a result of eighteen, he threw on a good day in Salonica, two days after war broke out the peak of courage when he was killed in 1917, he died of cholera at the hands of the Turks in Macedonia to save a boatload of ammunition.

Corporal Jack White, V.C., is now forty-five, and a prosperous wholesale merchant. He lives in a villa in Brighton and has a daughter, Mrs. Manchester, with his wife and three children.

Before the war against Hitler, Jack White had retired. "What can I do for Britain?" he asked himself by Ian. Conroy, "Eastern Front"—a book about Indo-China—by Sydney Hunt. "The Campaigns" by Philip Bunting, "Gandhi Mahatma" by Mrs. Bunting, "Gandhi Mahatma" by Mrs. Bunting, "Gandhi Mahatma" by Mrs. Bunting.

"Not Eligible"

About a month ago Jack White made an attempt to do his bit for Britain. He joined the Local Defence Volunteers, and was issued a great welcome.

And there, however, his father was a Russian this hero of Britain was turned out of the V.D.V.

When the official army bands and equipment were distributed among the men Mr. White was told that he could not have them, that he would not be permitted to go out on patrol because he had not established that he was not eligible.

This gallant little man replied that although he understood regulations most he thought he would be prepared to make reasonable exceptions.

Indian News Items

"I was almost broiled-headed when they refused me last year," he said. "Over this second letter I was made I don't know what to say. They were no officials when I joined up in 1914, and no one is made that I am in a British."

"Don't think that I am angry, I am simply grieved and hurt, and my mother was an Edinburgh girl. His father was born in Britain and his mother was a hundred of old soldiers who will be handed from one generation to the next."

Veterinary Lecture At Njoro

A most interesting and instructive veterinary lecture was given by Mr. Danks at Njoro on Wednesday last at the Njoro Country Club.

The lecture took place in the open air and began with a practical demonstration of a two-fold test for the correct and incorrect way of taking a blood smear. Mr. Danks stressed the importance of the correct way of taking a blood smear and the point from which the blood must be taken. He also pointed out the danger of using fingers to do the smear, and the importance of using a special instrument for the purpose.

Mr. Danks then demonstrated how to obtain the gland secretions in a cow, and the correct method of milking a cow. He also pointed out the importance of the correct way of milking a cow, and the importance of the correct way of milking a cow.

Several practical questions were asked and answered by Mr. Danks. He also pointed out the importance of the correct way of milking a cow, and the importance of the correct way of milking a cow.

BORDER TRIBES IN TIME OF WAR

(Continued from Page 3) some time before Italy declared war several Turkana villages were raided by Merille and a large number of the villagers were murdered in their beds.

From a military point of view the Turkana had considerable value as a tribe who knew how to deal with the Merille in guerrilla warfare but were later armed and the Civil Government were never very enthusiastic about the plan and it did not proceed very far.

In Tribal Groups However, a solution was eventually found and the Turkana worked in tribal groups. They have given most attention their work in the past few days, instead of having burning parties which were controlled by tribal police, moved about along the border.

Since the war broke out the Italian have withdrawn all Merille and expelled them as paid bandits. The Merille country has been divided into three zones.

HITLER'S GIFT TO ENGLAND

(FROM A CORRESPONDENT) London. Hitler is providing a generous dietary to one considerable section of the British people. The gift is a quantity of grain growing fat on tulip bulbs.

The Nazis have wiped out Hitler's gift to the British people. The result is that England has just offered U.S.A. \$100,000,000 for tulip bulbs for the purpose of producing food.

Little Holland in Lincolnshire. Little Holland, in Lincolnshire, has already got 4,000 acres of bulb-growing for some years now. The Dutch Embassy in London has come to the British Ministry of Agriculture and has asked that not more than three million of last year's bulbs should be allowed to be exported to foreign lands.

Hunger Problems Of The Conquered Countries

London. News comes in slowly and sparsely from the peninsula where the hunger ravaged by the occupying forces. Their occupation has had a dire effect on the people. They are now faced with the same problem of hunger, food shortage and malnutrition.

The food situation is naturally affected in the industrial areas of Belgium and Northern France according to a recent leader in The Times. In unoccupied France it is giving the German Government increased anxiety and suggestions are in progress as far as possible to increase the production of food.

Letters received from those in the front lines are being held up. They have been held up for some time. The situation is becoming more and more desperate.

For every one of these countries the British market, now temporarily shut to them in an indistinguishable way, is their veritable life. It is their only hope. They are being made to work for it. The heavy industries of Northern France and Belgium have been closed since the beginning of the occupation.

Wireless Kenya Station. The station has been closed. The Government has decided to do this. It is a very serious matter. The station has been used for many years.

Public Order's Blunder. In Norway, the attempt to suppress the press has failed. The Norwegian King has fled to Sweden. The German Government is looking to foment. There have been reports from Denmark, Poland, and Belgium of the recruiting, for transfer to Germany, of laborers both to aid in the German harvest and to assist in its war effort.

The widespread cutting of telegraph and telephone wires by the populations of Belgium and Northern France has been revealed by a German broadcast threatening dire penalties for anyone who fails to report them to the authorities. Working in these countries is hardly likely to be improved by German repression and strikes.

South African Scene

(From Our Special Correspondent)

Johannesburg, September 12.

A CURIOUS position has arisen as regards the representation of the Union in France. Last week, in reply to a question in the House of Assembly, General Smuts said that Capt. Colin Bain Maris was still the Minister Plenipotentiary accredited to the French Government, with headquarters at Vichy, and not to General de Gaulle in London.

The Prime Minister added that the possibility of the seat of the French Government moving to Cape Town, Mauritius, or to any other place, was not a matter for consideration. On the other hand, he said he had no objection to the seat of the French Government being moved to any other place, provided that the Government was not in any way connected with the Vichy Government. He said that the Government was not in any way connected with the Vichy Government, and that it was not in any way connected with the Vichy Government.

Discussion in the Opposition

The position in the House of Assembly is rapidly ceasing to be a matter of routine. The Opposition has allowed the Government to go on with its policy of non-interference in the affairs of the French Republic, and has not taken any action to prevent it.

Gibraltar and the Burma Road are not so far apart—for us

TWO things have happened outside Great Britain recently which have an immediate bearing on the future of the war.

One of them is the British concession to Japan over the Burma Road. The other is the statement made in a speech by General Franco concerning Spain's interest in Gibraltar.

Remote as might seem, they are none the less closely related.

In firing the first shot in the Spanish campaign for the return of Gibraltar, General Franco is, in effect, only repeating what Japan for the service she did him during the Spanish civil war. Japan then took advantage of the Spanish imbroglio, and of the Western Powers' absorption in it, to attack Shanghai.

Spanish interest in Gibraltar is clear. The possession of the great rock fortress which commands the western entrance to the Mediterranean would give Franco his coveted victory over the Republic.

It is obvious that Egypt cannot be successfully attacked by sea, as long as the British Navy maintains an adequate force in the Mediterranean. It is equally true that the British Navy is not in a position to attack Egypt by sea, as long as the British Navy maintains an adequate force in the Mediterranean.

The short sea passage between the southern ports of Spain and the ports of Spanish Morocco is a matter of great importance.

It is a matter of great importance. It is a matter of great importance. It is a matter of great importance. It is a matter of great importance. It is a matter of great importance.

A Week-end Sermon

WHOSO SHALL OFFEND ONE OF THESE LITTLE ONES

[FROM A CONGREGATION]

"Whosoever shall offend one of these little ones, he shall offend against the Son of Man who is in Heaven. And whosoever shall offend one of these little ones who believe in Me, it shall be better for him that he should have a millstone put about his neck and be cast into the sea than that he should offend one of these little ones who believe in Me."

What does this mean? It means that the Son of Man is in Heaven, and He is the Judge of all men. He will not only judge the great, but He will also judge the little. He will judge the man who has committed a great sin, and He will also judge the man who has committed a small sin. He will judge the man who has offended one of the little ones, and He will also judge the man who has not.

But what about our children? Are we doing all we can to save them from the evil influences of this world? Are we teaching them the ways of the Father? Are we showing them the love of the Father? Are we helping them to grow up in the grace of the Father? These are the questions that we should ask ourselves.

ALLEGED MURDER IN THE DARK
"i cried hard and realised I had done very badly indeed. I was soon and also wept. I cried for about a week over this and finally decided to run away. I went straight home and told my father I had fought with a man in Nairobi but did not think he had died as I had said I had. I was very afraid of being caught at home so I took a boat to Uganda. I stayed there a month and another month at night. Then I got a job at a sugar factory, but before the end of the month I was arrested on August 27th."

Another Party
He went on to describe how he and others drank two jugs of tomato, after which, Oswald or O'Connell persuaded him to join another party (although, he argued), realising they were drunk, did not think it was a good idea. While accused was dancing with a girl whom he had first met that evening, Oswald or O'Connell started quarrelling with the Xhosa, who drove him out. He (Oswald) was too drunk to realize that the girl whom he had been dancing had later followed Oswald home. On his arrival he saw Oswald, who shared the bed, and there was a woman on the floor by his left hand. Accused spoke to her in the usual friendly tone, as they were good friends. Oswald did not reply and accused asked him if he were angry at being turned out by the Xhosa. Oswald said that the girl had liked him (accused) better than any of the others, he thought Oswald might be jealous.

"Every trader in East Africa who assists Great Britain to maintain her export trade is helping to win this War. In the planning of Imperial economy and the war effort, it is essential to remember that the appalling cost of this war can only be met if every possible opportunity is grasped to expand the volume of Imperial trade."

From Our Special Correspondent
 Johannesburg, September 12.

A CURIOUS position has arisen as regards the representation of the Union in France. Last week, in reply to a question in the House of Assembly, General Smuts said that Capt. Colin Bain Maris was still the Minister Plenipotentiary accredited to the French Government, with headquarters at Vichy, and not to General de Gaulle in London.

The Prime Minister said that the Government about the seat of the French Government, and that Capt. Bain Maris, who is now in London, is still the Minister Plenipotentiary accredited to the French Government.

On the other hand, the French Minister of Foreign Affairs has acknowledged that the French Government is still the French Government, with headquarters at Vichy, and not to General de Gaulle in London.

Gibraltar and the Burma Road are not so far apart—for us

Two things have happened outside Great Britain recently which have an immediate bearing on the future of the one.

One of them is the British conquest of Japan over the Burma Road. The other is the statement made in a speech by General Franco concerning Spain's relations with Gibraltar.

Gibraltar and the Burma Road are not so far apart—for us.

The British conquest of Japan over the Burma Road is a significant event. It has opened up new trade routes and has brought the East and West closer together.

The statement made by General Franco concerning Spain's relations with Gibraltar is also significant. It shows that Spain is now more closely aligned with the Axis powers.

Another Week in The Battle of Britain

OUR DEFENCES STRENGTHENING DAILY

HOW "ANDERSONS" STAND UP TO IT

CHERMAN air activity during the night was on a smaller scale than the day before. The first attack was an announcement this morning that the enemy had dropped incendiary bombs on the suburbs. In other parts of the capital and a number of casualties, some fatal, were caused.

The safety of Anderson shelters has again been demonstrated. When the top of one was damaged by a bomb which was dropped the people inside were unharmed. A woman living nearby heard the bang of a bomb which hit the roof of a nearby house. She ran to the door and found a man sitting on the floor in his room. She was able to get out of the room before the explosion took place. People in Anderson shelters during these attacks were in danger from falling plaster, but were not hurt.

REMARKABLE success has been achieved in the latest raids in which incendiary bombs were used. The first of these was a raid on London which was a complete success. The second was a raid on London which was a complete success. The third was a raid on London which was a complete success.

HOW CLEAN MY MOUTH FEELS
A five-month-old baby had an abscess in his mouth which was treated by a high specialist. The abscess was caused by a tooth which was causing pain and discomfort to the child. The specialist used a special treatment which cured the abscess in a few days.

THE night of September 26th was a night of intense fighting. The enemy dropped a large number of incendiary bombs on London. The British fighters were successful in shooting down many of the enemy bombers. The British fighters were successful in shooting down many of the enemy bombers.

ENO is different . . .

because . . .

ENO being highly concentrated is far more economical, and its reputation for quality is world-famed.

ENO contains no Epson, Glauber or other harsh purgative mineral salts.

ENO contains no sugar to overburden the blood and can safely be taken in cases of diabetes.

ENO is non-irritant and non-habit forming.

ENO is pleasant to taste, safe, mild yet thorough in action.

Take this regularly. ENO's Fruit Salt, the famous household remedy for digestive ailments and disorders of the stomach, acts gently and naturally, regulates the system and helps the habit of clean, healthy and economical eating. ENO ensures that your system is kept free from dangerous accumulations of food waste, washes away all poisons—the cause of lack of vitality—tunes up the liver and, being alkaline, corrects acidity.

Because it cooks and poisons the blood and attacks the digestive system to build up healthy, daily spurring gains of ENO's Fruit Salt is trusted by millions of people all over the world.

Vigour Restored, Glands Made Young In 24 Hours

Some present observations on German propaganda have been made in the American press.

The Daily Telegraph says: 'The propaganda, like Nazi radio messages, is a mark of the German determination to win which knows no restraint or compromise.'

It is in fact for German aviators to be sent to the front in order to be sent to the front in order to be sent to the front...

ALL THAT GLISTENS IS NOT GOLD. 'But they look just like it, my dear; they are gay, bright—and so actually so.'
