## SETTLERS CONDEMN NEW TERMS FOR SURRENDER

### Discrepancy in Nyeri proposals explained

WHAT was described as a "discrepancy" in the terms of the new surrender proposals for the Nyeri area, has been explained by the Government. The proposals, which were announced by the Government on January 17, were said to be a modification of the terms of the surrender proposals for the Nyeri area, which were announced on January 15. The Government said that the proposals were a modification of the terms of the surrender proposals for the Nyeri area, which were announced on January 15. ## TERMS FOR SURRENDER

### Call for change in Kenya War Council

#### S. KINANGOP APPEAL BY MR. BLUNDELL IGNORED

DESPISE an appeal by Mr. Michael Blundell, European Minister without Portfolio, not to take any action which might damage the progress of the Emergency, members of the South Kenya District Association yesterday passed a resolution condemning the action of the War Council in offering new surrender terms to terrorists.

The motion, which was passed by 16 votes to 10, read: "It is resolved that this meeting of the South Kenya District Association condemns as utterly shameful and foolish the terms of surrender now offered to rebels, exempting murderers from prosecution and recording a lack of confidence in the War Council and the conviction that its membership must be changed; and the exemption of murderers from prosecution must be terminated forthwith."

There was a lengthy debate as to whether or not the motion should be put to the meeting. One proposal was that it should be deferred until two months had elapsed. A resolution that the motion should be put on the spot and not delayed until a subsequent meeting was carried by 16 votes to 10.

In his appeal, Mr. Blundell said that anything affecting the surrender terms would go far beyond the confines of the Emergency and might damage the prospects of success in the war. He said that the motion should be put to the meeting and not delayed until a subsequent meeting.

## CHINESE BOMB TACHEN ISLES

### 200,000 troops reported ready for invasion

MORE than 200 Communist planes heavily bombed the Tachen islands, 300 miles north of Formosa, yesterday in the biggest raid on Nationalist-held islands yet made by the Chinese Communists.

Communist forces in the Nationalist stronghold of Yi Kiang Shih - a three-mile square outpost guarding the approaches to the Tachen group - claimed to have captured it, although the Nationalists were still holding out. Reports reaching Hong Kong said the Communists threw into an invasion of the Tachen group.

The military observers believe the Chinese are in for a long stay in the area. They said that the Communist forces were about 20 miles from the mainland.

# In match at Mombasa... WIEN SIDE LOSE TO A COAST XI

## Visiting forwards fail to strike up an understanding

The FA of Kenya (Mombasa) XI meted their 24 win over the Austrian touring Soccer side, by reason of better as reported in yesterday's issue, by reason of better teamwork with the visitors playing the star player, a forward, a crowd of about 7000 at the Stadium enjoyed a first-class display of play tactics.

It was a disappointment to the spectators here, that the Austrian attack could not strike up an understanding, although brilliant forward played many flashes of brilliance.

The Vienna team were good in the attack, but their hard passes in four days each air travels, and the Coast side that battled the Vienna team were very weary.

Several forwards spent most of the half out of play for frequently had for the most part of an hour. Mombasa enjoyed a excellent victory.

The Mombasa head coach, P.A.C. Wainwright said that the team had played well, but they did suffer from lack of understanding in the second half.

# CORNER WENYAS ASKS: Can't Scots learn their Rugby lesson after 17 defeats?

LIKE everyone at Colombo, I was thrilled by the spectacular display of last open Rugby given by the Scotch team. In many respects it was even more impressive than the exhibition that was given by the Springboks at Murrayfield, writes Jack Wenyas. At the same time it is a depressing experience to give...

As a Scotch Rugby player, I have been very disappointed to see the Scotch team's performance in the last few years. It is a pity that the Scotch team has not been able to learn from their past mistakes and improve their game. They have been defeated 17 times in a row, and it is time they learned their lesson.

The history of East Africa began with the building of the railways and harbours, and the country developed as the railway spread.

Today, despite difficulties and uncertainties, the Railways and Harbours are undertaking many new and important projects. They are building for the future because they are confident that prosperity and progress lie ahead for East Africa.

## Always building a greater East Africa

Efficient port operation demands the fluid movement of cargo at all stages of its progress between ship's hold and railway wagon or road vehicle. Mechanical cargo handling equipment, properly used, plays its part in the speeding up of this operation.

An extensive programme of port mechanisation is already well under way at all East African ports. When completed, few ports in Africa will have better facilities for handling cargo.

New cranes costing over £1 million, more "mechanical horses" with their accompanying trailers, more tractors; new fork lift and platform trucks costing nearly £200,000 will all soon be speeding up the import and export of the cargoes which go towards the building of a greater East Africa.

## New vaccine may boost meat output

An anti-anthrax vaccine based on the discovery of a South African bacteriologist may result in huge savings in world dairy and meat production.

The vaccine, announced in New York by a United States pharmaceutical company, is the first of its kind. It is based on the discovery of a South African bacteriologist who found that a certain strain of anthrax bacteria could be killed by a certain substance.

Another reason for the mortality in many early stock-raising areas of the world, it is now thought, may be the lack of a certain substance in the soil. The vaccine was used experimentally on a wide scale last year in several areas of the United States. It showed its effectiveness particularly in Arkansas and Louisiana.

Milder strain The vaccine has been used against anthrax but sometimes the milder strain of anthrax will over-ride it and some vaccinated animals may be traced and slaughtered.

The milder strain of the bacteria is used for the injection of animals in the United States. It is a milder strain of the bacteria, and it is used for the injection of animals in the United States.

Communities banned The Cattle Cribber has been banned in several areas of the United States. It is a milder strain of the bacteria, and it is used for the injection of animals in the United States.

# BULLION MARKET CENTRED AGAIN IN LONDON

**Gold finds no new buyers**

The effect of the reopening of the London Gold Market last March has been to centre the gravity of the European free market which up to then operated wholly within the limits of the continental telegraphic transfer system. This is stated in the Moots and Goldsmiths' annual bullion circular.

But the market has not been substantially broadened. "Fresh buyers have been attracted to a payment for gold brought to London but made only by what is known as 'registered' sterling and 'registered' sterling can only be created by the issue of gold certificates."

# EXTREMES IN THE TABLE MEET IN FIRST DIVISION

## Fierce fight to escape the spectre of relegation again

Football followers in both England and Scotland are hoping for better weather conditions for today and that they did last Saturday when Archie Quick and both divisions and 11 Home points may also be affecting relegation and championship and promotion problems, top and bottom halves of the table are in opposition.

The Aston Villa and Birmingham City sides are a straight fight between relegation and promotion.

United and Arsenal are both vying for the top honours as they are well placed in the table.

Manchester City and Manchester United are also in the top three.

Manchester City and Manchester United are also in the top three.

Manchester City and Manchester United are also in the top three.

Aberdeen, heading for their first Scottish League championship since 1957, will be found in Division One on Saturday.

Aberdeen should win as home, but the form in top flight is not so clear. Aberdeen will come to Park and away to Dundee. The other South region fixture should be a toss-up.

Scottish prospects

Heart and Clyde seem safe for the bottom three, respectively. Dundee, however, may have to struggle to avoid relegation.

Albion is a bottom-of-the-table side, but they are well placed in the table.

### RUGBY UNION INQUEST: A 3-4-1 scrummage formation will not cure Scottish ills

As usual the Union and the selectors will get in the neck. Blackie for Scotland's defeat by France will be blamed on the 3-4-1 scrummage formation. It will be given much more credit than it deserves.

The 3-4-1 scrummage formation is not the answer. It will not cure the ills of the Scottish scrum.

### Lead change hands?

The Division I lead may change hands for the first time since the start of the season. Dundee and Aberdeen are the two teams to watch.

### The tactics lesson

And even if it is admitted that the 3-4-1 scrummage formation is not the answer, the selectors will be blamed for not changing it.

### Racing today at Togni

The January 27th racing at Togni will feature a number of interesting races. The 1000 Guineas is the main event.

### Weekend fixtures

The weekend fixtures for the Scottish League will be a busy one. There are several important matches to be played.

The Scottish League fixtures for today are as follows: Aberdeen vs Dundee, Heart of Midlothian vs Dundee, and Clyde vs Dundee.

### Hillclimb at Brackenhurst

Once again a very interesting hillclimb will be held at Brackenhurst. The event is expected to attract a large crowd.

### THE M.C.C. AT ADELAIDE: Langley, out of the Test XI, bats well for S. Australia

Test captain Gil Langley, with 53, was the chief stumbling block to the M.C.C. attack at Adelaide yesterday when Australia won their second match against South Africa. Dismissing the State for 128, the tourists forfeited some of their advantage by losing and losing-in-surety, to look for a better result.

### It's crystal clear... Crystalline Springs
