CRITICISM OF TANGANYIKA REPORT

Delegate ordered to reverse view

ALLIES 'IRRITATED' OVER TIME-TABLE PROPOSAL

THE United States delegate to the United Nations Trusteeship Council, Mr. Manton Sears, has been instructed to reverse his stand favouring a time-table for the attainment of self-government for Tanganyika.

Mr. Sears was a member of the United Nations mission of fact which visited the territory last year. Three of the members including Mr. Sears, signed a report that the people of Tanganyika could achieve full self-government in the present generation and in much less than 10 years.

According to the New York Post, the American Secretary of State, Mr. Dulles, took exception to the principle of a time-table for trust territories in statements to the government and told Mr. Sears to "tampar his personal diatribe with the colonial Powers."

"Because it irritated America's allies and reflected on relations with the United States in the Pacific," the newspaper described Mr. Sears as an "outspoken nationalist" asked for his comments on the report. Mr. Sears said that it was "substantially correct."

R.A.F. task to perfect atomic striking force

NEW JET BOMBERS IN SERVICE SOON

The Air Chief Marshal of Britain, Lord Trenchard, has announced that the Royal Air Force is to build up its atomic striking force to a state of high efficiency and preparedness.

The Government stated in London yesterday, that the Royal Air Force will have in service a number of new jet bombers in the next few months.

POLICY ACCEPTED BY THE MAJORITY

The new constitution for the United Kingdom, which was approved by the House of Commons yesterday, has been accepted by a majority of 300 to 100.

The House of Commons voted to accept the new constitution, which will give the Government the power to legislate on behalf of the United Kingdom.

UPROAR IN THE COMMONS

Bank Rate shock: Mr. Butler accused by Opposition

MR. BUTLER, the Chancellor of the Exchequer, faced an uproar in the House of Commons on Thursday after his statement that the Bank Rate was to be increased from 3 1/2 to 4 per cent. At times he had to shout to make himself heard above the opposition.

Mr. Hugh Gaitskell, former Labour Chancellor, and people had been "slandered by sensational and optimistic statements from the Government," Mr. Herbert Morrison, the Deputy Leader of the Opposition, declared that the Government should take down their posters advertising the new rate.

Bangkok clash over communique

SIR ANTHONY OUTVOTED

A 30-minute clash over the British Foreign Secretary Sir Anthony Eden's keeping the word "Communism" out of a communique issued at the end of the South-East Asia Treaty Organisation talks in Bangkok was defeated by the United States Secretary of State, Dean Rusk.

Gen. Chiang Kai-shek's 3,000 Nationalist troops evacuated Nanchi Island, a small island in the South China Sea, after a clash with the Chinese Communist forces.

PRASE FOR BRITAIN ON 'COURAGEOUS MOVE'

Foreign reactions favourable

THE raising of Britain's Bank Rate from 3 1/2 to 4 per cent has had little immediate effect on overseas exchanges, but first foreign reactions to the move were generally favourable. In New York, the stock market drifted lower in what was considered a "sympathetic" reaction to London's decision.

Local faith in Kenya's agriculture

EXCEPTIONAL NUMBER APPLY FOR FARMS

The progress of the Emergency has had a marked effect on the confidence in the future of Kenya, there is striking evidence in all areas of the country of the attitude of settlement. The Kenya Agricultural Settlement Board, in its report for 1954, states that the number of applications for farms received in 1954 and the first two months of 1955 were respectively 12,000 and 3,000, leaving three to be disposed of. This is compared with 10,000 and 3,000 respectively for the corresponding periods in 1954. It is noted that the majority of the applications received were for farms of 100 to 200 acres, and that the majority of the applicants were of the age group 25 to 35 years.

Ceremony at Entebbe for substantive awards

The first Uganda Africans to be honoured were the Queen's recent approval for the award of the Order of the British Empire, instead of honorary, to Mr. M. J. Magye, a member of the Legislative Council, and to Mr. J. J. Nyanzi, a member of the Uganda Legislative Council, at a ceremony at Government House, Entebbe, on Saturday. Government officials present included the Governor, Mr. H. G. M. Kenyon, and Mr. J. J. Nyanzi, who was presented with the award of the Order of the British Empire. Mr. Magye was also presented with the award of the Order of the British Empire. The ceremony was attended by a large number of officials and members of the public.

Mr. C. W. P. M. Kenyon, Governor of Uganda, presenting the Order of the British Empire to Mr. J. J. Nyanzi, a member of the Uganda Legislative Council, and Mr. M. J. Magye, a member of the Uganda Legislative Council, at a ceremony at Government House, Entebbe, on Saturday.

During the year the Board's activities have been confined to the settlement of the first two months of 1955. It is noted that the majority of the applications received were for farms of 100 to 200 acres, and that the majority of the applicants were of the age group 25 to 35 years. The Board is expected to continue its work in the future, and it is hoped that the confidence in the future of Kenya's agriculture will continue to grow.

Women honoured
Mr. Ronald Wilson, Secretary of the East African Agricultural Society, presented the Order of the British Empire to Mrs. J. J. Nyanzi, a member of the Uganda Legislative Council, at a ceremony at Government House, Entebbe, on Saturday. Mrs. Nyanzi was also presented with the award of the Order of the British Empire. The ceremony was attended by a large number of officials and members of the public.

Inspection of pineapple estates

Members of the Nairobi branch of the Royal East African Agricultural Society inspected the pineapple estates in the Nairobi and Kiambu districts. The inspection was held on Saturday, and was attended by a large number of officials and members of the public. The estates were inspected for their general condition, and for the health of the plants. The inspectors found that the estates were generally well maintained, and that the plants were healthy.

Foreign costs controversy opens again

The controversy over foreign costs in the construction of the new airport at Nairobi has reopened. The Government has announced that it will not pay for the foreign costs of the construction, and that the contractor must bear them. This has caused a great deal of dissatisfaction among the contractor and the public. The contractor has stated that he cannot complete the work without the Government's contribution. The Government has stated that it cannot pay for the foreign costs, as it is not a party to the contract.

Missed visit

The Minister of Education, Mr. W. H. M. M. M., missed a visit to the Nairobi district on Saturday. He was due to visit the district to inspect the schools, but was unable to do so due to a sudden change in his plans. He is expected to visit the district in the near future.

Some knowledge

The Government has announced that it will not pay for the foreign costs of the construction of the new airport at Nairobi. This has caused a great deal of dissatisfaction among the contractor and the public. The contractor has stated that he cannot complete the work without the Government's contribution. The Government has stated that it cannot pay for the foreign costs, as it is not a party to the contract.

Three executed

Three individuals were executed by hanging at the Nairobi Central Prison on Saturday. They were found guilty of the murder of a police officer. The execution was carried out by a military officer. The individuals were identified as Mr. A. B. C., Mr. D. E. F., and Mr. G. H. I.

Fertiliser trial

A trial of a new fertiliser was held at the Nairobi Agricultural Station on Saturday. The trial was held to determine the effect of the fertiliser on the growth of various crops. The results of the trial are expected to be published in the near future.

Peaceful mass

A peaceful mass demonstration was held in Nairobi on Saturday. The demonstrators were protesting against the Government's policy of not paying for the foreign costs of the construction of the new airport at Nairobi. The mass was held in front of the Government House, and was attended by a large number of people. The demonstrators carried banners and sang songs. The police were present to maintain order, but no violence occurred.

Record collection for Poppy Day

A record collection for Poppy Day was held in Nairobi on Saturday. The collection was held to raise money for the purchase of poppies for the members of the Royal Canadian Mounted Police. The collection was successful, and a large amount of money was raised.

MOTION OF CENSURE ON DEFENCE 'DEFICIENCIES'

Socialists accuse Government

Mr. Winston Churchill called the House of Commons to order on Saturday to discuss a motion of censure on the Government regarding its defence policy. The motion was introduced by Mr. J. D. Brown, a member of the House of Commons. The motion stated that the Government had failed to provide adequate defence facilities, and that it had failed to take adequate measures to protect the country from attack. Mr. Churchill responded to the motion by stating that the Government had done its best to provide adequate defence facilities, and that it had taken all necessary measures to protect the country from attack. He stated that the Government was committed to the defence of the country, and that it would continue to take all necessary measures to ensure the country's security.

Official arrives for inquiry on African Members

An official from the British Government arrived in Nairobi on Saturday for an inquiry into the activities of African Members of the Legislative Council. The official was Mr. J. K. L., a member of the British Government. He is expected to stay in Nairobi for a few days, during which time he will meet with the African Members and discuss their activities. The inquiry is part of a larger investigation into the activities of African Members in Kenya.

African appeal courts inquiry: Report soon

A report on the inquiry into the African appeal courts is expected to be published in the near future. The report was prepared by a committee of officials, and it is expected to provide a detailed account of the findings of the inquiry. The inquiry was held to determine the reasons for the delays in the African appeal courts, and to identify the measures that should be taken to improve the courts' efficiency. The report is expected to be published in the next few weeks.

Improvement noted in Kikuyu Areas

There has been a marked improvement in the Kikuyu Areas, according to a report from the British Government. The report states that the Kikuyu Areas are now more peaceful, and that the Kikuyu people are more satisfied with their situation. This is a significant improvement from the situation in the Kikuyu Areas in the past, when there was a great deal of violence and unrest. The British Government has attributed this improvement to its policy of working with the Kikuyu people to improve their living conditions and to provide them with the necessary facilities for a peaceful and prosperous life.

Hard labour for guard post killing

A man who was found guilty of the murder of a guard post on Saturday was sentenced to hard labour for life. The man was identified as Mr. A. B. C., and he was found guilty of the murder of a police officer. The murder took place in the Nairobi district, and it was a highly publicized case. The man's sentence is the harshest that can be imposed for the crime of murder. The court stated that the man's actions were heinous, and that he deserved the most severe punishment for his crime.

Official arrives for inquiry on African Members

An official from the British Government arrived in Nairobi on Saturday for an inquiry into the activities of African Members of the Legislative Council. The official was Mr. J. K. L., a member of the British Government. He is expected to stay in Nairobi for a few days, during which time he will meet with the African Members and discuss their activities. The inquiry is part of a larger investigation into the activities of African Members in Kenya.

Record collection for Poppy Day

A record collection for Poppy Day was held in Nairobi on Saturday. The collection was held to raise money for the purchase of poppies for the members of the Royal Canadian Mounted Police. The collection was successful, and a large amount of money was raised.

Huts burned

A number of huts were burned down in the Nairobi district on Saturday. The huts were owned by African people, and they were burned down by a group of individuals. The burning of the huts was a highly publicized case, and it has caused a great deal of concern among the British Government and the public. The British Government has stated that it will take all necessary measures to ensure the safety of the African people and to prevent further incidents of this kind.

'APATHY' ANGRERS THE HOUSEWIVES

Protest over rising costs may extend to Britain

ANGERED by what they call the apathy of the Government and the indifference of most members in the problem of Kenya's rising cost of living, the Housewives' Union has extended their campaign to London. Their plans include a demonstration in London, and they have already begun to contact other Housewives' Unions in the United Kingdom. The Housewives' Union in Kenya has stated that the rising cost of living is a major problem for the people of Kenya, and that the Government has failed to take adequate measures to deal with the problem. They have stated that they will continue to protest until the Government takes adequate measures to reduce the cost of living.

Union return to attack on Press laws

The Housewives' Union in Kenya has returned to the attack on the Press laws. They have stated that the Press laws are a major obstacle to the free press, and that they will continue to protest until the laws are repealed. The Housewives' Union has stated that the Press laws are a violation of the rights of the press, and that they are a major obstacle to the free press. They have stated that they will continue to protest until the laws are repealed.

'Held back'

The Housewives' Union in Kenya has stated that the rising cost of living is a major problem for the people of Kenya, and that the Government has failed to take adequate measures to deal with the problem. They have stated that they will continue to protest until the Government takes adequate measures to reduce the cost of living.

'Dumping ground'

The Housewives' Union in Kenya has stated that the rising cost of living is a major problem for the people of Kenya, and that the Government has failed to take adequate measures to deal with the problem. They have stated that they will continue to protest until the Government takes adequate measures to reduce the cost of living.

'Atrocity' charges

The Housewives' Union in Kenya has stated that the rising cost of living is a major problem for the people of Kenya, and that the Government has failed to take adequate measures to deal with the problem. They have stated that they will continue to protest until the Government takes adequate measures to reduce the cost of living.

Trade riots

Trade riots broke out in Nairobi on Saturday. The riots were caused by the rising cost of living, and they resulted in a large amount of property damage. The riots were highly publicized, and they have caused a great deal of concern among the British Government and the public. The British Government has stated that it will take all necessary measures to ensure the safety of the people and to prevent further incidents of this kind.

LAST GANG LEADER IN KANDARA AREA KILLED

Once carried flag during raid on post

KANDARA tribal police in the district of Fort Hall killed the last remaining gang leader in the Kandara area on Saturday. The leader was identified as Mr. A. B. C., and he was killed during a raid on a police post. The leader had been a major threat to the security of the Kandara area, and his death is a significant victory for the police. The police have stated that they will continue to patrol the area to ensure the safety of the people.

illness at Durban 'not polio'

A doctor has stated that the illness at Durban is not polio. The illness was highly publicized, and it has caused a great deal of concern among the British Government and the public. The doctor has stated that the illness is a different type of polio, and that it is not as serious as the polio that is common in many parts of the world. The doctor has stated that the illness is a result of a virus, and that it is not contagious.

TANGANYIKA AIMS OUTLINED TO U.N. Social equality for the African

SELF-GOVERNMENT TIME LIMIT OPPOSED

STRONG resistance to the proposal to lay down a time-table of 20 years within which Tanganyika should achieve self-government was offered in the United Nations Trusteeship Council by Tanganyika's special representative, Mr. A. G. Grattan-Bellew, the Member for Legal Affairs.

During the continued debate on the U.N. visiting Commissioner's report on the territory, Mr. Grattan-Bellew replied to a series of questions by Mr. Rizki Zaijal, the Indian member of the relation.

He said it was intended that Africans should have equality in the social and economic fields of Tanganyika and they had, so far as he could see, taken advantage of the opportunities.

"We have well-educated Africans and some rich Africans," he said. "This of our coffee-producing Africans are allged to have incomes of £2,000 and £3,000 a year. These men, and educated men, are equal socially and economically to the Asian and European, or any other immigrant to the Territory."

Mr. Grattan-Bellew disputed Mr. Zaijal's assertion that the concept of a multiracial society in Tanganyika had given rise to "dogmas and fears." He declared: "There are no dogmas and fears in Tanganyika on this subject."

Mr. Zaijal had suggested that the majority of Africans in Tanganyika were illiterate and that the majority of the population were illiterate in the African languages.

NO QUESTION OF SIMILITUD

Mr. Grattan-Bellew replied that it was not a question of similarity but of equality. He said that the African had to be equal to the European in the same way as the European had to be equal to the African. He said that the African had to be equal to the European in the same way as the European had to be equal to the African.

MORE ADVANCED THAN TANGANYIKA

Mr. Zaijal said that the British Government had been more advanced than Tanganyika in the past. He said that the British Government had been more advanced than Tanganyika in the past. He said that the British Government had been more advanced than Tanganyika in the past.

TIME-TABLE MADES FEAR

Mr. Grattan-Bellew said that the time-table made him fear. He said that the time-table made him fear. He said that the time-table made him fear. He said that the time-table made him fear.

Princess Elizabeth, Bahamian, with and stopped in a white Bahamian motor car, surrounded by the local press and a large group of tourists in the Bahamas.

U.S. tourists greet the Princess Bahamas farewell to Britannia

HUNDREDS of American tourists were among a crowd of more than 20,000 that greeted Princess Margaret when she arrived in Nassau on Saturday to begin her four-day visit to the Bahamas at the end of her West Indian tour.

The Princess, who was the first to be greeted, was met by the Bahamas Governor, the Earl of Bessborough, and the Bahamas Minister of Tourism, Mr. J. H. B. Stewart.

25,000 HOMELESS IN FLOODS Family lost as floating house strikes bridge

MORE than 25,000 are homeless in New South Wales where floodwaters have inundated 20,000 square miles of some of the State's richest agricultural land. At least 20 people are reported to have died and hundreds injured.

In Britain, roads in more than 70 of the 60 counties are closed and in more than 100 are closed to heavy traffic. In Scotland, Cumberland, Shropshire and Devon. From many of the European capital cities came reports of snow and ice.

TEA-TIME ECON
Two weeks spoken
Sir John Kotelawala
over a quiet period in
tea country now has
returned to one of their
prime ports.
The speaker was Sir John
Kotelawala, the Prime
Minister of Ceylon, who
was the subject under discussion
was the price of tea in the
world, which has been
ridiculous.
When Sir John said that tea had
been a "cash crop" for Ceylon
in Britain for 70 years, he
was referring to the fact
that tea had been one of
the main exports of Ceylon
for over a century.
The speaker also mentioned
that the tea industry in
Ceylon has been a major
factor in the country's
economic development.

NOTICE
The directors of the
Government of Kenya
will hold a public meeting
of the Legislative Council
on Monday, February 23, 1958,
at 10.30 a.m.
at the Government House,
Nairobi.
The meeting will be held in
the presence of the Governor,
the Chief Justice, the
Attorney-General, the
Secretary of the Council,
the Speaker and the
Members of the Council.
The subject of the meeting
will be the proposed
amendment of the
Constitution of Kenya
relating to the
appointment of the
Governor.

PROBLEMS OF THE 'HEAT BARRIER'
The problem of air pollution
in the cities of the world
has become a major
concern of the
public.
The 'heat barrier'
is the result of the
increasing number
of motor cars
and the heat
radiated from
them.
This barrier
prevents the
cooling winds
from reaching
the city center,
thereby
increasing the
temperature
and causing
smog.
Several
methods have
been suggested
to reduce
the heat barrier,
including
the use of
reflective
surfaces,
planting
trees, and
improving
building
designs.

Mar-made diamonds may go into mass production
FOUR years of research and experiment which
enabled the General Electric Company to produce
its first man-made diamonds is confidently expected by
the company's scientists to be the
beginning of a new era in the
production of industrial
diamonds.
In reply to questions in the
Senate on Thursday, February 13,
the company's scientists stated
that the first man-made diamonds
were produced in the
laboratory of the
General Electric
Company in
Schenectady, New
York, in 1955.
The diamonds
were produced
by the
process of
high pressure
and high temperature.
The diamonds
were produced
in a
special
apparatus
which
subjected
a small
quantity
of carbon
to
temperatures
of up to
2,000 degrees
Celsius
and pressures
of up to
100,000 atmospheres.
The diamonds
were produced
in a
solid
solution
of carbon
in a
metallic
matrix.

Moving stock route to Mombasa

Development Scheme for Better Meat

A £200,000 scheme for the improvement of stock leading to Mombasa from the Nairobi area is being planned. The scheme involves the construction of a road from Nairobi to Mombasa, which will be used for the transport of livestock. The road is expected to be completed by the end of 1955. The scheme will also include the provision of veterinary services and the construction of stock markets in Mombasa. The Government has approved the scheme and has allocated the necessary funds.

Developments in technical education praised

The development of technical education in Kenya, despite the Emergency, has been commended by Sir J. Harrow, adviser on technical education, in a report to the Colonial Secretary, Mr. G. G. Brown. Sir J. Harrow stated that the Government has made significant progress in the field of technical education, particularly in the areas of agriculture, engineering, and commerce. He praised the efforts of the various technical institutions and the staff who have worked hard to maintain and improve the quality of education during these difficult times.

When the scheme has been completed in 18 months to two years, there will be holding points for 100,000 head of the starting points and of the Nairobi area. The scheme will also include the provision of veterinary services and the construction of stock markets in Mombasa. The Government has approved the scheme and has allocated the necessary funds.

University rank

Speaking about the Royal College of Science, Sir J. Harrow said that the Government is planning to grant it university rank. He stated that this move is part of a broader effort to improve the quality of higher education in Kenya. The Royal College of Science is currently a constituent college of the University of Nairobi, and its elevation to university status would allow it to award its own degrees.

Council unit on public health

The Deputy Minister of Health, Mr. H. M. G. Kariuki, has announced that a Council of Public Health will be set up. This council will be responsible for coordinating public health activities across the country and for advising the Government on health matters. It will include representatives from various government departments, local authorities, and the medical profession.

Required standards

Mr. Harrow said that the standards of technical education must be maintained and improved. He emphasized that the Government is committed to providing a high quality of education for all Kenyan students. He mentioned that the Government has implemented various measures to ensure that technical institutions meet the required standards, including the provision of modern equipment and the recruitment of qualified staff.

Returned at dawn

Mr. Harrow returned at dawn after a visit to the Nairobi area. He reported that the situation in the area is stable and that the Government's efforts to improve the infrastructure and services are being well received by the local population. He also mentioned that the Government is planning to launch a series of public works projects in the area to further improve the living conditions of the people.

RECORD WEEK FOR RAIL AND PORT EARNINGS

Total earnings of the East African Railways and Harbours during the week ending 25th February 1955 were £231.4 million, an advance over the £219.1 million recorded for the same period last year, an increase of £12.3 million or 5.6 per cent.

Wherever you are

Whichever you are, you will find a bottle of Whiteaurys. The advertisement features an image of a bottle of Whiteaurys and a woman holding a glass. The text promotes the benefits of Whiteaurys for various ailments, including indigestion and general weakness.

Improvements in Uganda service from April 1

The East African Standard has announced that the Uganda service will be improved from April 1st. The improvements include the addition of new routes and the provision of more frequent services. This is expected to facilitate trade and travel between Kenya and Uganda.

Ag Khan's message to East Africa

SIR EBBO FIRBAH who represented the Sultan of Brunei at the Platinum Jubilee ceremony in Cairo last week, returned to Nairobi by air on Saturday, with a message from the Aga Khan to his peoples in Africa. Sir Ebo stated that the Aga Khan expressed his deep appreciation for the hospitality shown to him during his visit to Cairo and his confidence in the future of East Africa.

Health has improved, Sir Ebo said

Health has improved in East Africa, Sir Ebo said. He mentioned that the weather was pleasant and that the people were in good health. He also noted that the infrastructure in East Africa is improving, which is a positive sign for the region's development.

Rev. G. Lester to become Provost of Nairobi

The Rev. G. Lester, who has been serving as the Chaplain of the Nairobi Hospital, is to become the Provost of Nairobi. This is a significant appointment as the Provost is the head of the Church of Kenya in Nairobi. The Rev. Lester is highly respected in the community and is known for his dedication to his work.

Full programme at Mombasa for Canadian cruiser

The Canadian cruiser, HMCS Cornwallis, is to have a full programme of activities in Mombasa. The programme includes a series of public relations events, including a radio broadcast and a public meeting. The purpose of the visit is to build friendly relations between the Canadian forces and the people of Mombasa.

Coffee sold at lower bids

Coffee prices fell on Saturday as a result of lower bids. The market was volatile due to concerns about the global coffee supply. Traders reported that there was a significant drop in demand, leading to a decline in prices. This is a concern for coffee growers in East Africa who rely on these prices for their income.

Address by Minister

The Minister of Health, Mr. H. M. G. Kariuki, delivered an address to the public on Saturday. He discussed the current state of public health in Kenya and outlined the Government's plans for the future. He emphasized the importance of maintaining high standards of hygiene and the need for continued investment in the health sector.

Under the Standard Clock

The Standard Clock, a well-known timepiece, is available at a special price. The advertisement features an image of the clock and highlights its accuracy and durability. It is a popular choice for those who value precision in their timekeeping.

Record prices at ivory auction

Ivory prices reached record levels at the recent auction. The high prices were due to a combination of factors, including a strong demand for ivory and a limited supply. This has led to concerns about the sustainability of the ivory trade and the impact it has on elephant populations.

NANYUKI GANG LEADER KILLED

Self-styled Colonel shot in 'First Flute'

A notorious leader of the Nanyuki area, who was a self-styled Colonel, was shot dead by a K.P.R. constable. The incident occurred in the 'First Flute' area. The leader was known for his involvement in various criminal activities and had a reputation as a feared figure in the region. His death is seen as a significant victory for the law enforcement agencies.

Seven more gangsters surrender

Seven more gangsters have surrendered to the police. This brings the total number of gangsters who have surrendered to ten. The police have been successful in tracking down these individuals and bringing them to justice. This is a positive development in the fight against organized crime in the region.

TOTAL UNDER NEW TERMS REACHES 111

The total number of prisoners under the new terms has reached 111. This includes both men and women. The increase in the number of prisoners is due to a combination of factors, including a rise in criminal activity and a more effective law enforcement strategy. The Government is committed to providing the best possible care and rehabilitation for all prisoners.

BUS COMPANY FINED FOR DEFECTS

A bus company has been fined for safety defects. The defects included faulty brakes and worn-out tires, which posed a serious risk to the safety of passengers. The company is required to rectify these defects immediately and to implement measures to prevent such incidents from recurring in the future.

Nairobi visit by journalists on tour of Africa

A group of journalists on a tour of Africa visited Nairobi. They were interested in the current situation in East Africa and the impact of the Emergency. The journalists had a meeting with local officials and conducted interviews with various individuals. Their visit is expected to result in a series of articles and reports that will provide a comprehensive overview of the region.

First appeal by Governor

The Governor has made his first appeal to the public. He addressed the people of East Africa and discussed the challenges facing the region. He emphasized the need for unity and cooperation among all East Africans to overcome these challenges and build a better future for the continent.

Two R.A.F. officers escape in crash

Two R.A.F. officers escaped in a plane crash. The aircraft was on a mission and encountered a problem during its flight. Despite the crash, both officers managed to escape unharmed. The cause of the crash is still under investigation, and the R.A.F. is committed to ensuring the safety of its personnel and the reliability of its aircraft.

TRIO in LONDON

Three individuals are in London. They are being held in connection with a criminal case. The individuals are being questioned by the police and their movements are being closely monitored. The case involves serious allegations and is being handled as a matter of high priority.

Lighting gives 'despotic air'

The lighting in a building gives it a 'despotic air'. The harsh lighting creates a cold and oppressive atmosphere, which is not conducive to a positive and productive environment. The building's design and lighting choices have been criticized for being authoritarian and lacking in warmth.

Record prices at ivory auction

Ivory prices reached record levels at the recent auction. The high prices were due to a combination of factors, including a strong demand for ivory and a limited supply. This has led to concerns about the sustainability of the ivory trade and the impact it has on elephant populations.

Whiteaurys

Whiteaurys is a leading brand of health supplements. It is known for its effectiveness in treating various ailments and improving overall health. The product is made from natural ingredients and is suitable for people of all ages. It is available in various forms, including capsules and tablets.

Whiteaurys
The advertisement features a large image of a Whiteaurys bottle and a woman in a white dress holding a glass. The text is arranged around the image, emphasizing the product's benefits and its availability in various forms.

CORRESPONDENCE

Harare—The "limitations of the mail service in the rural areas" is a time that our well-known friends in the Churches, together with others, are in the final analysis to be left to their own devices. The African Institute of Harare has endeavored to set an example, but it is impossible to put himself to his own use.

As it is with such important organizations being sponsored by the Government, it emerges that there is a large number of letters which are not being delivered to the African Institute. It is believed that the Home Office has issued a law in London relating to anything that is in its line, and when it was immediately to those who have always tried to help him.

It is in Kenya and Tanganyika and elsewhere in Africa, but it is not possible to visit other countries with native people in order to be able to take part in activities being held there by other men who will try to have been done, and all that will fall without any possibility of success.

Harare February 14, 1955.
Local Kikuyu
By the Editor "A. B. Bannard" - In the Kikuyu community has divided into two major groups. The first group is the one that has never been eliminated from the prescribed services and has never been eliminated from any other way the second group those who have been involved in the prescribed services as well as in the prescribed services as well as in the prescribed services as well as in the prescribed services.

For third time in seven weeks WEATHER DEALS A HEAVY BLOW TO LEAGUE SOCCER

Twenty English games and six in Scotland postponed

FOR the third time in seven weeks weather ripped the British weekend sports programme to pieces, and Saturday's League Soccer was severely curtailed by snow and ice, in one instance the Twenty Football League and six Scottish League games had to be postponed and three in the Irish League.

Scotland suffered more and the postponements were of considerable magnitude.

In the City and Metros County were ready to play the second occupation.

All sides of the City and Metros County were ready to play the second occupation.

Football was a trick business, water among the competitors was on plain ground, but that has not been the case since the outbreak of the war. It is the weather which has done the most damage to the game since the outbreak of the war.

Disappointing game

The meeting of the Football Association, held at 10.30 on Monday, was a disappointing one. It was held at 10.30 on Monday, was a disappointing one. It was held at 10.30 on Monday, was a disappointing one.

Two London victories

Two other London teams, Arsenal and Chelsea, were also victorious. Arsenal won 2-1 and Chelsea won 2-1.

INTERNATIONAL RUGBY: Scotland and France achieve thrilling victories EACH A STEP NEARER TITLE

FRANCE and Scotland, by beating England and Ireland, respectively, in international Rugby Union matches on Saturday went a step nearer achieving their ambitions. France in their first in the mythical 'Triple Crown'. Even if Scotland win the mythical 'Triple Crown'.

France are beaten by Wales in Paris they are assured of sharing the championship. Scotland, the only team in the country with a chance of the 'Triple Crown', continued their record on Saturday when they beat Ireland 10-0. This was the first time since 1903 that Scotland had beaten Ireland.

A thrilling display in Paris was the first time since 1903 that Scotland had beaten Ireland.

Boxing: DAVIS NO MATCH FOR SADDLER

SANDY SADDLER, world champion, retained his title when he defeated David Davis in a ten-round bout at Madison Square Garden, New York, on Friday night.

Saddler, whose title was put in jeopardy when he was in 'old storage' for several months, was the first professional boxer to win the title since 1911 when he retained it against Willie Pep from New York.

Davis, who beat the interim champion, Foras Bassani, was well outpointed in the verdict of a unanimous one-round jury.

Goal disallowed

A penalty kick was disallowed when the referee ruled that the ball had not been in play when it was kicked into the goal.

Hopes of play in final test

FOR the second consecutive time, the test match between England and Scotland, at Murrayfield, Edinburgh, on Saturday, was expected to be a close one.

Cockell signs up

On Saturday night, Cockell, who has signed up with the British Boxing Board of Control, was expected to be a close one.

Kongoni leave for Natal too

The Kenya Kongoni team, who have signed up with the British Boxing Board of Control, was expected to be a close one.

Splendid hat-trick puts Hockey Union on way to victory

The Hockey Union of Kenya ran out 5-1 winners against the Kenya Hockey Association after leading the first half 3-0. The City Park Stadium on Saturday night was the scene of a brilliant hat-trick midway through the second half by Harold Singh, who had earlier scored twice in the first half.

Singh had scored twice in the first half, but he was unable to score again in the second half. The second half was a tense affair, but Singh's hat-trick in the second half secured the victory for the Hockey Union.

Two knockout fairs

In the closing stages, two knockout fairs were held at the City Park Stadium on Saturday night.

Libby results

Like the Association football programme, the Libby results were also a success.

GERMAN CABINET CRISIS SAAR PACT Majority falls in Bundestag vote COALITION PARTY JOINS OPPOSITION ATTACK

DR. ADENAUER, the West German Chancellor, yesterday faced a serious crisis in his Cabinet over the Franco-German agreement on the Saar. It was approved in the Bundestag (Lower House) by 283 votes to 202, with nine abstentions. The other major parties had 173 to 150 votes. The Cabinet crisis had been simmering since Thursday. It came to a head with the debate on the Saar agreement when Free Democrats, who are opposed to the Government, joined the Social Democratic opposition in violently attacking the treaty. Herr Franz Blaesler, the Vice-Chancellor who is a Free Democrat, is reported to have resigned to Dr. Adenauer because he feels that he can no longer represent the party in the Government. The only other Free Democrat Ministers who voted for the Saar Statute were two abstained and one who was absent.

Communists accused of truce breach

The United Nations Commission on the Truce in the Middle East, yesterday accused the Communists of breaching the truce. The Commission's report, which was issued in London, stated that the Communists had violated the truce by attacking Israeli forces in the Gaza Strip. The report also accused the Communists of using the truce as a cover for their military operations. The Commission's findings were based on evidence gathered from Israeli and UN sources. The report called for a strict adherence to the truce and for the cessation of hostilities. It also urged the parties to engage in negotiations for a permanent settlement of the conflict.

Towns losing flood battle in Australia QUEEN SENDS SYMPATHY

A PAINT message from a radio amateur—"Town flooding with five feet of water in the streets" told yesterday of the lost battle by the 126 inhabitants of Warren, 260 miles north-west of Sydney. Flood waters from the raging MacQuarie River had breached the embankments. The Queen has sent a message of sympathy to the people of Warren. The message, which was read by the Queen's personal secretary, expressed the Queen's sympathy for the people of Warren and her hope that they would be able to overcome the difficulties they were facing. The Queen also expressed her hope that the people of Warren would be able to return to their homes as soon as possible.

Mr. Whyatt flies to Britain

Mr. JOHN WHYATT, J.C. Kenya's Attorney General since 1953, left Nairobi by air yesterday for London. He is expected to arrive in London on the evening of the 2nd. Mr. Whyatt is expected to attend a meeting of the Commonwealth Lawyers Association in London. He will also be attending a conference on the law of Kenya. Mr. Whyatt is a well-known lawyer and has been active in the legal profession in Kenya. He is expected to be a valuable member of the Commonwealth Lawyers Association.

Ready for flight

The Roads have directed that 2000 square miles of the north-western coast of Kenya be closed to traffic. The closure is due to the fact that the roads in this area are in a state of disrepair and are not safe for use. The Roads have also directed that the roads in this area be closed to traffic until they have been repaired. The closure is expected to last for several weeks. It is a far cry from the days when Sadler Street was sparsely built up with its dusty dirt road to today with multi-storied buildings and a tarred road, and the latest building to be erected in Sadler Street, and so keep changing the face of Nairobi, is the new combined motor showrooms and workshops for Lewis & Hodgkins Limited, which was officially opened yesterday.

The Finest Motor House North of Johannesburg!

Covering an area of approximately three-quarters of an acre on the corner of Sadler Street, Matik Street and backing on Jackson Road, the building, at the moment, has two main floors and a basement, but the entire building area ten different floor levels. When completed it will rise to seven additional floors, leading to the full height of 120 feet. The foundations, at an extra cost of some £12,000, were specially strengthened to take this super-structure at a later date. The cost of the present building is £210,000 and when completed will cost some £300,000. The future building has been designed on an all steel frame which will become more obvious when the remaining floors are completed.

Charge, Mr. R. T. Lane, worked on the design for some two years and have included in the building many innovations that warrant closer inspection. Such great attention has been paid to detail that just over 200 drawings have been prepared of the various progressive stages.

The Showroom and Ground Floor

On the ground floor facing Sadler Street the showroom alone covers approximately 3,000 square feet in area and is tiled with Dumble covers to their best advantage, of the large number of vehicle models sold by the Company. The stainless steel frame to disturb the view from the street into the showroom—these shop fronts were made in England by the Architects' designs. The 14-foot canopy overhanging the Matik Street pavement is the largest cantilever canopy in East Africa.

passes through the show bay but the bay is an extension to the main showroom and is raised so that an unobstructed view of the displayed model is seen. Just off the showroom is the Spare Counter and one of where the special workshops are, comprising bays for steam washing of cars, wheel alignment, reception and dispatch of Bala Service, four oiling and greasing pits and a special section for Battery Service. In the rear of the building is the car park.

The four oiling and greasing bays are being installed by Calles with a most ingenious colour system of pipes depending on the grade of oil that each particular pipe carries. Everything is to hand so that a minimum amount of time and effort is required to give a fast and efficient service. Other parts of the ground floor are devoted to bays for minor adjustment and quick repairs.

The question of Spare Storage has been the key to the space design, and the total area allotted to Spares is approximately 12,000 square feet, including the basement. No shelf is higher than any man of normal height can reach so that speed in service without fatigue has been the keynote in design. Even the staircases have purposely been made wider to allow for anyone carrying a large spare part to walk comfortably up.

(Continued in Page 6)

The Architects and Structural Engineers, Blackburn, Norman and Johnson, F.F.A.R.I.B.A., Chartered Architects of Nairobi, who were assisted with no easy task when planning and designing the building, the organization of Lewis & Hodgkins Ltd., had to be fully equipped in relation to its staff in the organization of the Company, and by the most efficient planned motor garage has arisen. They cooperate together with their Assistant-

The ground floor this consists of the main showroom and, jutting out into Matik Street, a special car display bay with armoured plate glass doors. When these glass doors are open, the street pavement actually

Who wants GOOD car service?

Off with that worried frown!

How many times have we all longed for a really good service station? Well, from April the first you can drive your car into the new Lewis & Hodgkins building, where it will be met by a swift reception system and a skilled tester. Whatever you want done, you'll get a time for it—and your car will be ready at that time. The vehicle will be checked with complete thoroughness, and you'll be telephoned by us if we find anything else that needs doing to it. From efficient oiling and greasing to a major repair, we have a team to tackle it on the spot—on time.

Open on Apr. 1st

PROGRESS AND STABILITY

Their Modest Start

In 1931 two young men—Alex Lewis and Fred Hodgkiss, each investing £30 capital in their venture, entered into a partnership that was to grow into one of the largest organisations in its kind in East Africa, of a cramped godown in Victoria Street, Nairobi. In their cramped quarters they commenced business with the intention of rendering an oiling and greasing service to car owners, for in those days the possibility of expansion of motor transport seemed fairly obvious. Shortly after opening they secured the Exide Battery agency and opened an Exide Battery Service Station and before this, batteries were not rebuilt in Kenya; if it were not you bought a new one—and a limited company was formed called The Battery and Electrical Equipment Co. Ltd., specialising in battery service. Mr. Lewis was not only the book-keeper to this venture but typed the correspondence and mended batteries, when required, having spent a week at the Exide Service Station at Acton where the London Central Co.'s batteries are repaired. This week's training enabled him to set up in Nairobi as the only local "fixer" on batteries. Mr. Hodgkiss in the mean time worked on other repairs.

...and the sale of Exide Batteries flourished as well as their battery service. Even in those early days they paid attention to their customers and this policy has been carefully followed ever since. In 1934 a representative of The Austin Motor Company arrived in Kenya, introduced a small advertisement in the press to which Mr. Lewis replied and within ten minutes they were appointed Austin agents. Most of the cars in use in Kenya were American and the larger motor companies in Nairobi were interested at that time in British Cars. The first vehicles the Company took from Austin were the famous "Baby" Austin Seven, and it is an interesting point to learn that the first Austin Seven had in East Africa was sold by them to the late Mr. G. Blowers—father and founder of the main contractor who are now engaged in building their new premises. Showrooms and larger workshops were necessary, and during this period a move was made into a small building in Dalmeida Avenue. Mr. Hodgkiss had obtained entered the "Motor Trade" the name of the Company was considered to be too exclusively electrical and a change was made to the name of Lewis and Hodgkiss Limited. It was in 1934 they became importers and distributors of motor vehicles but if they sold one car a month they felt they had done very well indeed.

Mr. A. M. Lewis, Founder, Chairman and Managing Director of Lewis and Hodgkiss Ltd.

From Strength to Strength
In the period 1934 to 1939 steady progress was made as the Kenya public realised that the British car was proving a possibility on Kenya's roads. During this time the Company was appointed distributors for Jaguar and Triumph and for Studebaker in 1936. Obviously the premises in Dalmeida Avenue were becoming too small, and

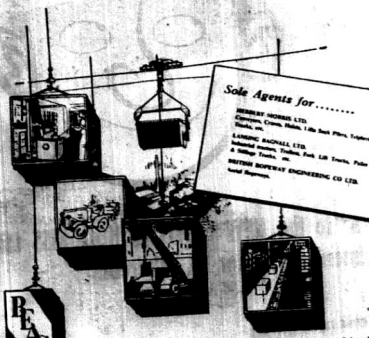

during that year a move was made to their present premises in Sadler Street. The present-day Sadler Street premises a very different picture from the early beginning of a spacious hall area and familiar red dirt road. With the coming of the war Mr. Lewis was recalled by the Admiralty and returned to the R.N.R.V. for the duration, while Mr. Hodgkiss had to try to keep the Company in

existence so that when he returned with additional help and capacity for business. These were the days when the war was still in full swing and the demand for goods was high. The company had to expand its operations and in 1945 it was reorganised as Lewis and Hodgkiss Limited. The company has since then grown steadily and has become one of the largest and most successful in the East African continent. It has a wide range of services and products, including the repair and maintenance of motor vehicles, the supply of batteries, and the sale of motor vehicles. The company has also expanded its operations into other parts of East Africa, and has a strong presence in Kenya, Uganda, and Tanzania. The company's success is a testament to the hard work and dedication of its founders and employees, and to the progress and stability of the East African continent.

LIFTING & SHIFTING By MORRIS

ALL the lifting equipment in the new premises of Messrs. Lewis & Hodgkiss Ltd. was supplied by Herbert Morris Ltd. through their Agents, British East Africa Corporation Ltd.

THE equipment supplied included an Electric Platform Hoist for handling stores. Hand Hoist for the Battery Department and overhead runway equipment for the main workshops.

British East Africa Corporation Limited

Congratulations...

to Messrs. Lewis & Hodgkiss Ltd., on the completion of their fine new building in Sadler Street.

There, Nairobi's discerning motorists will find an unbeatable combination... really trustworthy technical skill and some of East Africa's most modern car-servicing equipment.

And, of course, nothing but the best in petrol and lubricants—Caltex—Plus Petrol, Marfak Lubrication and Protex Oils.

PROGRESS AND STABILITY

(Continued from Page 4)
 necessary to give a more permanent and economic solution to the problem of the necessary repairs to the motor and a virtual horde of industrious workers engaged on all types of work.

Mombasa, being the gateway to East Africa, it soon became obvious that a Branch was essential at the port — not only to deal with imports, clearing and shipping, but also to service the cars sold in that area. The Mombasa Office was opened in 1933 by the purchase of the entire share capital of Fairway Motors and a subsequent change of name to Lewis and Hodgkiss (Mombasa) Ltd. Mr. Camps, who had been Secretary and Assistant of the Nairobi Company, was appointed Manager. The Mombasa Office has proved to be of inestimable value to the Company.

The motorist public have learnt from experience that the slogan "Austin is safe" can depend on its life, life boast and representatives for the Company were appointed at different points in the Colony — Bulungwe, Nakuru, Baita Garage, Eldoret. The Northern Motor Co., Kitale. The Service Garage Ltd., Kisumu. Thomson's Falls Auto Garage, Thomson's Falls. Shuff Motors, Kericho, and Ryan Motors Ltd., Exton. All these representative carry stocks of spares and give service to the local Austin owners.

In Eye to the Future
 Another problem then presented itself — the con-

stricted premises in Sadler Street — premises that had served their purpose in the past but were fast becoming too congested. Furthermore they were obviously not planned for an efficient service for the customer — the worker (who often works under pressure) or to take the increasing volume of car battery business that rises month by month.

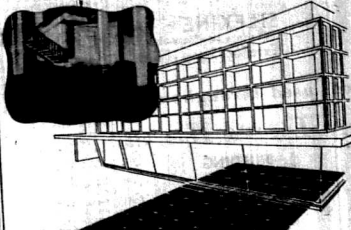

The new building is nearing completion and is unique in fact. The department has been fully considered in the design of the building to satisfy its needs, and the showroom facing Sadler Street is large enough to display over twenty vehicles at their best advantage. The light and airy offices above the showroom, and the workshops are planned for the comfort and efficiency of the workers. These workshops are on two floors, the upper floor being reached by a private building. The whole plan and layout of the building is to save time and promote a speedy and efficient service for car owners. This is a well-designed

Mr. A. F. Downey, Managing Director, The Austin Motor Export Corporation, Ltd.

Spares Department under the able management of Mr. M. A. G. Lloyd who was appointed to the Austin Motor Company was Sparrowhead and subsequently joined Lewis and Hodgkiss Ltd. in 1954. The Sadler Street workshops are managed by Mr. D. H. Austin Motor Company apprentice. He joined Lewis and Hodgkiss Ltd. in 1953 after representing Austin in Kenya for five years as their technical representative. He was transferred by them to Rhodesia but preferred to return to Kenya to join Lewis and Hodgkiss Ltd. in 1954. The Industrial Area Heavy Repair Workshop is under the competent management of Mr. F. Law. The policy of the Company is to experiment and to train men in key parts of the company and a really efficient service can be

In the spacious new showrooms of Lewis and Hodgkiss in Sadler Street, the charm of the showroom floors reflect the beauty and dignity of DUNLOP RUBBER TILES. For a modern building... a modern finish. Delightful underfoot... so sound-absorbing. Easily installed and maintained and so right with modern design.

The Battery Service
 A special portion of the building is devoted solely to the battery section. These batteries are serviced or rebuilt and again it is so planned as to give a rapid service to the customer. Two cars can be driven into the bays at the same time for battery servicing. Even with the expansion of the automotive sales and service field of the Company's business, the Excite Battery — Mr. Lewis's first baby and one that is of great interest to him — had a sale of over 10,000 batteries in 1954, so that the first modest order of 16 batteries meant a struggle resulting in a phenomenal growth of business in a period one year short of a Silver Jubilee.

The Directorate
 The present Directorate of the Company consists of Mr. A. M. Lewis, Chairman

BRITAIN OUSTS RUSSIA IN FINNISH MARKET

Record agreement signed for £70,000,000 trade

THE Finns have definitely chosen Great Britain instead of the Soviet Union as their principal trading partner. After giving Soviet Union first place in 1932 and having bought more British goods last year than any other country with London is better and safer.

The new Russian trade agreement signed after only ten days of discussion is a record for the most profitable year that the British people have ever had. It is worth, a record year, in itself, a record year.

In return for the goods which they brought in 1935, the British will supply them with goods worth £154,000,000 worth, as they did last year.

Increased purchases

They have promised also to increase their purchases from Britain by the same proportion, as their earnings improve.

No goods, less quantities, less goods have been bought up, but it is understood that British purchases from Finland will be increased by 20 per cent. This includes not only wool, but also other goods such as cereals, cotton, and other goods, and that the volume of trade will be increased as high as 50 per cent.

Shell executive in Nairobi

SIR FREDERICK GODFREY, Chairman of the Shell Transport and Trading Co. and Director of the Shell Group, is in Nairobi with his wife, Lady Godfrey.

Mr. Godfrey was on his way to South Africa to meet with his colleagues of the Shell Group in Johannesburg.

FINANCE AND COMMERCE

Steady mood maintained on London exchange

THE London market was generally quietly steady, with the gilt-edged securities showing a gain, notably American, western, stocks and bonds.

LAENDER (MORNING)

London, 11th March 1936

The London market was generally quiet today. The gilt-edged securities showed a gain, notably American, western, stocks and bonds.

Japan trading with 15 Gatt nations

THE United States, Canada and Western Germany are the most important trading countries among the 15 members of GATT entering tariff negotiations with Japan.

The other countries are Britain, Belgium, France, Italy, the Netherlands, Portugal, Spain, and Sweden.

Mr. H. H. Hopkins, Japanese Minister in Berlin, and leader of the Japanese delegation, stated at a Press conference that he would like to see the agreement on the tariff negotiations, which were expected to last for two months.

STERLING BALANCES NO LONGER A DANGER

A LEADING British economic review, The Banker, has thrown a cold light on one of the most controversial economic subjects of the day—the sterling balance.

The sterling balance, which represents Britain's short-term foreign claims on the rest of the world, was one of the subjects which the Finance Committee in 1934 investigated in 1934.

THE STORY OF A FRIENDSHIP
The Milingtons of Molo would not claim for themselves any special credit. They have been farming in Kenya since the end of the First World War, building a home in the Colony, bringing their children to the harvest. No doubt if their story were told it would prove the same as the story of most of their neighbors who have followed and worked, hoped and feared, throughout by hard-earned years of the making of a Colony from the raw materials of a desert.

KASHMIR TALKS BY INDIAN AND PAKISTANI PREMIERS

THE Prime Ministers of India and Pakistan are in a new attempt to break the deadlock between the two countries since they have met in Delhi. Mr. Mohammed Ali Jinnah, who is the Prime Minister of Pakistan, will be the first to speak at the meeting with India's Prime Minister, Jawahar Lal Nehru. Talks will be preceded by a series of discussions between officials of both countries.

The sum of the Prime Ministers' meeting is to discuss the outstanding problems between India and Pakistan. There are several major claims, including the issue of Kashmir, which will be discussed with an official level. The talks will have only three big problems for the two Prime Ministers: 1. The future of Kashmir. 2. The Jammu and Kashmir problem. 3. The issue of the Indian and Pakistan over the sharing of the water of the Indus.

The basic issue at the talks, the terms of the Kashmir agreement, was discussed in the talks between India and Pakistan in 1947. The talks will have only three big problems for the two Prime Ministers: 1. The future of Kashmir. 2. The Jammu and Kashmir problem. 3. The issue of the Indian and Pakistan over the sharing of the water of the Indus.

The American Assistant Secretary of State, Mr. Robert E. Taylor, has been in Delhi for the past few days. He has been in contact with the Indian and Pakistani officials and has been discussing the Kashmir problem. He has also been discussing the issue of the Indian and Pakistan over the sharing of the water of the Indus.

SAVOURIES... with a SUBTLE difference

MARMITE
THE TASTY YEAST EXTRACT

What is the subtle difference that makes Marmite so good and so popular? It's the yeast extract that is the very heart of the product. This yeast extract is brewed with vegetables and spices, providing a most exact flavour which is unique and delicious. It is both a seasoning and a meat substitute. And don't forget Marmite for the children's school lunches. It's the best thing to put on a slice of hot buttered toast.

DEMIC FEAR IN AUSTRALIAN DISASTER Hospitals stand by for flood victims

70 DEAD: STOCK LOSSES 'A NATIONAL CALAMITY'

ANTI-TYPHOID serum was being flown from the yesterday as the waters receded. Most of the 40,000 homeless people have only the clothes they were wearing when they fled from their homes. Urgent appeals have gone out for medical supplies, standing by in Sydney's hospitals ready to light any epidemic.

Evacuation of the town of Maitland, which has a population of 21,500, and Singleton, containing about 1,500 people have been taken out to prevent the spread of disease. Police imposed a 10 p.m. curfew in Singleton to prevent looting. Hundreds of pounds worth of watches and jewelry have been stolen from the town.

The death toll is estimated at 70. Major-General Sir William Slim, Governor-General of Australia, is making an aerial tour of the 30,000 square miles of land which have been inundated.

Mr. C. B. Falkner, a prominent stock breeder who runs a stud at Warren, said that the flood has done more damage to the Australian wool industry than in any other year. It will be several months before the wool harvest can be estimated.

Mr. J. H. Wainwright, Minister for Agriculture, said that the Government is doing everything possible to help the people affected by the disaster.

The Government is providing relief to the people affected by the disaster. It is providing food, clothing, and shelter for the homeless people. It is also providing medical supplies and services.

The car was found in the sea. The woman and her baby were found in the sea. The car was found in the sea. The woman and her baby were found in the sea.

Locusts cause food shortage in Tana area Famine measures may be needed

FOOD shortage, and perhaps famine, threaten the Tana area of the East African Protectorate. One has been alerted by a swarm of locusts covering 50 square miles, and a flood by lack of rain. Famine relief measures may be needed.

The Provincial Commissioner, District Officer, said that there had been a widespread locust plague in the Tana area. The locusts were seen in the Tana district near Coaco, and considerable damage had been done.

Mr. O'Meara said a number of locust swarms were still present in the area. "This is an appalling time for the people of the Tana area," he said. "I am sure that the Government will take steps to help them."

The locusts were seen in the Tana district near Coaco, and considerable damage had been done. The locusts were seen in the Tana district near Coaco, and considerable damage had been done.

No demand for self-rule TANGANYIKA OPINION FOR UNITED NATIONS

MR. A. J. BRATTAN-BELLEVUE special representative of the British administering authority in Tanganyika, told the United Nations Trusteeship Council in New York that he had never heard of any demand or pressure in the Territory for a time limit for granting self-government.

The first time he heard of such a suggestion was when it appeared in the report of the United Nations Trusteeship Council. Mr. Brattan-Bellevue said that he had never heard of any demand or pressure in the Territory for a time limit for granting self-government.

Very definitely

WARNING RENEWED ON GUARDING GUNS

Theft attempts in Nairobi

A RENEWED warning to residents of Nairobi to take the greatest precautions for guarding their firearms has been issued by Nairobi Area Police headquarters after several recent attempts to steal arms. Three such attempts have been reported in the city area in the last few weeks.

In one case a rifle was stolen from a person's vehicle. It was found a pistol which was stolen from a handcart left by a woman in a car parked at Mary's Hotel before being taken next day by a constable from the hotel. In the third case a handcart containing a rifle had been taken from a woman who was watching her children in a park. The rifle was found by a young constable. This report has not been recovered.

Arms in handbags

It is known that Miss Muri and other ladies elements are often carrying arms in handbags. It is stated that the police should be notified of any such arms in handbags so that they can be taken to a safe place.

Arms in handbags

It is known that Miss Muri and other ladies elements are often carrying arms in handbags. It is stated that the police should be notified of any such arms in handbags so that they can be taken to a safe place.

Nairobi fire tenders use 'fog spray'

Two new fire tenders equipped with fog spray are to be used by Nairobi fire tenders.

The tenders are equipped with fog spray which is used in the case of a fire in a building. The fog spray is used to fill the room with fog and to prevent the fire from spreading.

AUSTRALIA TO ABANDON POLAR BASE

The Australian Antarctic base at Hovort Island is to be abandoned. It was announced by the Australian Antarctic expedition leader, Mr. Robert Law, who is at the base at the moment.

Mr. Robert Law, leader of the Australian Antarctic expedition, is seen with his team at Hovort Island.

Retires after 15 years as a part-time policeman

MR. GEORGE REED, Commandant of Nairobi City, has retired after 15 years as a part-time policeman.

Mr. Reed joined the ranks of the part-time police in 1941 when the Special Police Reserve was formed. He served as Chief of Police for the City of Nairobi and for his part-time service during the war he was awarded the M.B.E.

First to join
When the Auxiliary Police Reserve was formed in 1941, Mr. Reed was one of the first to join. He served as Chief of Police for the City of Nairobi and for his part-time service during the war he was awarded the M.B.E.

I've drunk a drop of beer in my time!

They say there's no bad beer. Well, I suppose I'm a bit conservative but personally I'm a bit happier with a really good one - and I don't mind telling you I was quite surprised the first time I tried this PALE ALE. I've been drinking it ever since and you've only got to look around to see a whole lot of other people doing the same. In my opinion, it's up to the best British pre-war standards and that's saying something. I'm blessed if I know how they do it!

HOUSEWIVES make the test and prove that— NEW! OMO gives you the WHITEST WASH IN THE WORLD!

OMO is here—introducing OMO—the blue washing powder that's the most up-to-date wash-day discovery of them all.

You'll find here different to when you see it in action! Just sprinkle fragrant blue OMO into the water and whisk—see the bubbles blow up white and glistening! Then follow up the suds and grabber wash you can find into those beautiful bubbles to seek for white and fragrant—the whitest washing in the world!

Remember to write to the factory!

Remember you wash—remember you wash—OMO always gives you superior results. These clothes wash with less soap—less water, less time—clearer than you could possibly imagine. Use blue OMO for everything you wash.

Remember you wash—remember you wash—OMO always gives you superior results. These clothes wash with less soap—less water, less time—clearer than you could possibly imagine. Use blue OMO for everything you wash.

12-hour RETREADING SERVICE BY DAY & NIGHT

YUSUF GARAGE

"Here's Jimmy, back for the Holidays..."

It's wonderful to be able to have Jimmy back with the family every year in the holidays. And it's easy and inexpensive to do that when you fly by Safari Airways. The Safari Airways are so low and the service is so good that you can come to Kenya at Christmas, Easter and in the summer.

Children arrive fresh and happy

The Safari Airways—1 days from London to Kenya—so ideal for children's travel. They are now night flights, which means you can rest well on the way and have a good night's rest in comfortable hotel beds, too.

The Family Airline

Because the Safari Airways is ideal for children and because the fare is so reasonable, Safari can help you make the most of the family holiday.

**SOVIET UNION PREPARES
MR. NEHRU**
From SIDNEY WELAND, Moscow

NEHRU has his pleasure
of the Soviet Union, of representa-
tives of the Indian people, who
will be the first Prime Minister to
visit the Soviet Union. He is not
the first Prime Minister to visit
the Soviet Union, but he is the
first to visit the Soviet Union
after the death of Stalin.

Since Stalin's death a big
attempt has been made to
bring the Soviet Union and
friendly governments together
throughout Asia.

The visit of the Indian Prime
Minister is important to the
Soviet Union, because Mr. Ne-
hru is the only Indian leader
who has been in the Soviet
Union since the death of Stalin.
It is in the interest of the
Soviet Union to bring the
visit of Mr. Nehru to the
Soviet Union to the attention
of the Soviet people.

It is in the interest of the
Soviet Union to bring the
visit of Mr. Nehru to the
Soviet Union to the attention
of the Soviet people.

**Colonial development
financed by**

NOTHING succeeds the better
territories within the British
Empire than those which have
this saying: "The British
Empire is the best of all
governments." It is the best
of all governments because it
is the only one which has
been able to finance its
development.

How apt it has been to
say: "The British Empire is
the best of all governments."
It is the best of all govern-
ments because it is the only
one which has been able to
finance its development.

With three days of game lost...

GRAVENY HITS III AT SYDNEY

He and May share in third three-figure Test stand

A PEEK nearly 17 of the 20 hours scheduled for play had been lost through the biggest hold-up in Australian Test history—England lose the first two days in but after luncheon yesterday on the fourth day of the fifth and final Test at Sydney. Graveny and May shared 111 out of England's 196 for the day.

At one time it looked as if Graveny's play might also be handicapped, as a wicket recovered with one out. The pitch, which had been covered, opened water-logged, and gave no help to the batsmen.

Johnson was the hero for Australia for the third time in the series and put England in a bad way.

Hutton goes early
Hutton was the only player left out of the England side in the first innings.

Australia made another twelfth man, thus including the two top batsmen, Peter Burge and Allan Border.

Hutton, opening with a captain's partner in Graveny, was

out for 126 in 135 minutes. He had 31 as boundaries.

He was out for 126 in 135 minutes. He had 31 as boundaries. He was out for 126 in 135 minutes. He had 31 as boundaries.

Cheers for Miller
The crowd cheered the re-appearance of Miller in the first innings and his brilliant stroke play.

It was Graveny's fourth century in the series. He had returned to the field after a long absence.

M.C.C. turn down extra days' play
Extra days were turned down by the M.C.C. for the first time in the series.

The M.C.C. turned down the offer of extra days' play. The match will continue on the fourth day.

Beating record pace
A striking ball and a drive in the first innings helped Australia to a fast start.

Johnson and Benaud bowled well in the first innings. They took several wickets.

They were working fairly well. The pitch was in good condition.

NEW MEDICAL DISCOVERY
Reduces Weight without effort

ANGELIN, the new method of reducing weight, is the LAST NO DRUGS method.

ANGELIN treatment consists of... White tablet made of a harmless inert vegetable base.

It is cheap, light, takes only small, regular supplementary treatment to good general or any vitamin-deficient diet.

THE COMMAND CHAMPIONSHIPS: A good-class entry promises very high standard of boxing

K EET competition and an unusually high standard of Command boxing championships take place on the Services Sports Ground, Nairobi, March 23, commencing at 9 p.m. Only three title-holders will be left.

Major's of heavy weight, today and last night. Dawn is just about to see Newbury, in the Eastern Districts, these recently.

1960 Olympics; Six cities only make application

ONLY six cities had submitted requests to stage the 1960 Olympic Games when the official limit for applications expired yesterday, according to the Lausanne message.

They were Lausanne, Rome, Buenos Aires, Detroit and New York.

For the 1960 Winter Olympics applications were closed at the headquarters in Garmisch-Partenkirchen (Germany) and Innsbruck (Austria).

The IOC will make its choice at a meeting in Paris next June. The IOC and applications for the 1960 Winter Olympics were closed.

Newcastle-Forest draw Cup replay
Newcastle United, although 2-2 with North Fore in the first leg, drew 1-1 at Newcastle on Monday.

The goals of the European Cup were scored by Newcastle's forward line, which included the club's top scorers, respectively, 4 and 12 p.m.

Thunderstorm hikers hope in Pakistan Test

A storm restricted play to an hour and 30 minutes on the third day of the fifth and final Test between Pakistan and India at Karachi on Monday.

All the Pakistan, who led by 17 runs on the first innings had scored 95 for one in their second innings.

The stoppage virtually killed hope of a decision being reached by the end of day.

The light had deteriorated on the second day of the match when the rain was still on the edge of the pitch.

May had taken three hours, five minutes for his 100 runs, which included eight boundaries.

He was out for 100 in 135 minutes. He had 31 as boundaries.

NEW DRIVE FOR IMMIGRANTS

Australia seeks Britons

A NEW recruiting campaign is being launched by Britain to settle in Australia to be made in London and Provincial centres in Great Britain. This was announced in London today by Thomas White, the High Commissioner for Australia.

He said the Australian Government would increase the proportion of Britons among all new settlers reaching Australia.

Wide opportunities were being offered in family groups, and individual cases with well arranged accommodations and employment were available more than 10,000 single men and women.

70,000 jobs

Mr. Thomas said: "In our new drive to Britain, Australia needs to fill 70,000 jobs in the various fields of the Government and semi-Government employments in Victoria are offering attractive employment to nearly 4,000 men to be selected from Britain. The Government is offering employment to 1,500 men skilled in the various trades from the 1754, four weeks before Queen Anne, if the British Government could have claimed the English throne.

The High Commissioner added:

"We should be able to increase the population in the Southern States to 20,000,000. Australia now has a population of 12,000,000. The Government will be held in London and in 17 provincial centres."

"Already we have four coloured nurses - one Australian and one American - and one more nurse to be sent to work in our country. We have a native from Pakistan who is working in our country."

"The coloured nurses have been very well received by the other members of the staff. There can be no compromise on the colour question."

"A 'heterozygote' is the action of the Swastika. Management Committee in abolishing this action."

"We have long criticised the historical of British traditions. We have long criticised the historical of British traditions."

"We have long criticised the historical of British traditions. We have long criticised the historical of British traditions."

Court rules grandson of Kaiser is not British

THE High Court ruled in London that Prince Ernest Augustus, 40-year-old head of the House of Hanover, was not a British subject.

It ruled that an Act of Parliament passed in 1948, which gave the Prince the status of a British subject, was inoperative because he was not a British subject when it was passed. The court said that the Prince was a German subject at that time and that he could not become a British subject until he was 18 years of age.

Queen Anne's reign

Prince Ernest, grandson of Kaiser Wilhelm II, had sought a declaration that he was not a British subject. He had applied for a writ of habeas corpus from the House of Commons. The House of Commons had passed a resolution that he was a British subject. The court said that this resolution was inoperative because the Prince was not a British subject when it was passed.

King engaged

The engagement of King James of Hanover to Princess Alice, daughter of the Duke of Edinburgh, was announced in London today. The King and Queen are expected to be crowned in London in 1956.

German arrives in Uganda on world hitch-hiking tour

A GERMAN has arrived in Uganda on a world tour which has lasted 15 months so far, carrying only a rucksack for baggage and making his way by walking and hitch-hiking wherever he can go.

Ernst Grewel left his home in Westphalia in December, 1953, expecting to spend nine months travelling round the world. He has now arrived in Uganda.

Mr. Grewel left his home in Westphalia in December, 1953, expecting to spend nine months travelling round the world. He has now arrived in Uganda. He has travelled through Europe and Asia, and has visited many countries. He is now in Uganda on his way to visit his friends in the East.

M.P.s URGE TREASON TRIALS

Britons visited Korea camps

MEMBERS of Parliament have put forward a resolution urging the Government to prosecute for treason four Britons who visited British prisoners-of-war camps in Korea. The resolution was passed by a majority of 100 in the House of Commons.

Mr. Geoffrey Hodge (Conservative) called for the Prime Minister to ask the Prime Minister on Thursday to give instructions for prosecuting, or to take action against Mr. Alan Williams.

Mr. Hodge said that he had seen the four Britons who had visited the British prisoners-of-war camps in Korea. He said that they had been seen by the British soldiers who were guarding the camps. He said that they had been seen to talk to the prisoners and to give them food and other supplies.

Mr. Hodge said that he had seen the four Britons who had visited the British prisoners-of-war camps in Korea.

He said that he had seen the four Britons who had visited the British prisoners-of-war camps in Korea. He said that they had been seen to talk to the prisoners and to give them food and other supplies.

MR. GAWRONSKI (Lab.) asked the Secretary-General what steps he had taken to ensure that the Tanganyika Commission would be independent and impartial.

Major war different from anything known in past - SIR WINSTON

(Continued from page 1) The United States had created a major war different from anything known in the past. Sir Winston Churchill said that the war would be different from anything known in the past because it would be fought in the air and in space. He said that it would be a war of attrition, and that it would be a war of nerves.

SAFETY OUT OF TERROR

THE British Government has announced that it will take steps to ensure the safety of its citizens from terrorism. The Government will be taking steps to ensure the safety of its citizens from terrorism.

AGGRESSION ALL-ADVISED

MR. GAWRONSKI (Lab.) asked the Secretary-General what steps he had taken to ensure that the Tanganyika Commission would be independent and impartial.

MR. GAWRONSKI (Lab.) asked the Secretary-General what steps he had taken to ensure that the Tanganyika Commission would be independent and impartial.

When you want flavor ask for **HEINZ**

Just a little Heinz Tomato Ketchup creates flavor sensation! You'll love the beautiful tang it adds to your favorite meats, the delicious savor it gives to soups and special recipes. Made with succulent, sun-mellow tomatoes, vinegar and spices... Heinz Tomato Ketchup makes an appetizing dinner sensational! No other ketchup can duplicate that more Heinz recipe for flavor!

HEINZ
TOMATO KETCHUP

That stands BEAUTY, PERFECTION, GRACE AND CHARM the test of time

POMPEY'S THEATRE

Erected in 55 B.C. this was the first Roman Theatre constructed of stone and its elaborate architecture, carvings and frieze were a joy to behold. It had seating accommodation for 40,000 people and a portico and public park where persons could stroll during the intervals. Violence and riotousness ruined many such buildings as this, yet extensive remains of this glorious structure are a evidence today as reminders of its original magnificence.

PARATHENON
A PAINT FOR EVERY PURPOSE

It behoves everybody to protect their property against the ravages of time and the elements and it is just as important to see that the right materials are used for this purpose.

Parthenon Paint preserves and protects any structure or accessory, and like Pompey's Theatre it has stood the test of time.

STRIKERS' STRIKE PARALYSES KILINDINI 10,000 men idle: 19 ships halted CAUSE OF UNOFFICIAL DISPUTE NOT KNOWN

KILINDINI, the port of Mombasa and gateway of the Belgian Congo, was paralysed yesterday by a strike of the complete casual labour force of 4,000 men and 1,700 monthly labourers.

Nineteen ships are affected by the strike which operates rapidly to all companies, the East African Breweries, the East African Power and Lighting Co. and dozens of smaller firms. Late last night, 300 men and 1,700 monthly labourers were involved and that the strike would cover the port a minimum of 10,000 men a day.

The few loyal workers who approached the Kilindini dock gates were threatened by groups of agitators picketing the area. Despite the danger, however, there was no report of any violence. Mobile and police patrols covered the port while hundreds of police stood by at headquarters and all stations in the Coast Province were ready to be sent to the scene.

Troops, including Police, were unloading military stores from some of the ships and European and African employees of the East African Railways and Transport Corporation were helping to load tankers. The 600 African employees of the Corporation were supporting the strike but, according to a spokesman, they were unable to carry on normal work. All goods trucks, with the exception of perishables and empty oil tankers destined for the port, have been held back at Kilindini.

The strike is lawful and unofficial, because no industrial dispute has been declared or is involved. The cause is not known, although it is not thought to be over Mau independence. On January 26, members of the Joint Industrial Council, the major labour body in the East African Empire, were told that there was to be a disturbance of the port, due to the fact that the dock gates were to be closed. It was immediately stated that they were prepared to accept the matter as a sympathetic consideration of the port's situation in the form of a memorandum. At the last meeting of the J.I.C. on February 13, however, no memorandum was presented.

About a week ago negotiations were in progress to settle a dispute on behalf of the port. It was reported that the port was to be closed for a period of 10 days. It was stated that the port was to be closed for a period of 10 days. It was stated that the port was to be closed for a period of 10 days.

Government acts to get dock strikers back to work

Kenya's Labour Commissioner, Mr. R. N. Mwangi, might try to get the dock strikers back to work by offering a stipend to the strikers.

Mr. Mwangi said that the strikers were not receiving any stipend and that the Government was prepared to offer a stipend to the strikers. He said that the strikers were not receiving any stipend and that the Government was prepared to offer a stipend to the strikers.

Minister's warning of welfare State dangers

POLICY OF LOW TAXATION

The Minister of Finance for the Federation of Rhodesia and Nyasaland, Mr. D. McIntyre, gave a warning in his annual budget that if domestic policy is not based on the resulting high taxation would discourage immigration in the future. He stated that his policy would be aimed at a low rate of taxation compatible with maintaining a reasonable standard of public services.

The National Income was £22,000,000 in 1954, which was £15 million more than the 1953 figure. The figure in the Union was £75 million in 1954 and £70 million in the United Kingdom, £20 million for Australia, £140 million in the United States and £300 million in the United States.

Mr. McIntyre stated that the policy was to bring a young country to a position where it could support a certain amount of taxation.

Tax on companies
He regarded as the most important provision in the budget was the taxation on companies. The rate of income tax on companies was reduced from 30 to 25 per cent. He stated that this would be a valuable source of revenue for the Government.

In Northern Rhodesia, the total income of the tax payers was only £10 million in 1954 compared with £15 million in 1953. He stated that this was due to the fact that the tax payers were not fully taxed.

Most immigrants were aged between 20 and 40, and had received a primary education. He stated that the influx of large numbers of immigrants would result in a reduction in the crude death rate.

Industrial progress
Speaking of the progress made in the Federation, Mr. McIntyre said that the national income was £22 million in 1954 compared with £15 million in 1953. He stated that this was due to the fact that the tax payers were not fully taxed.

SOCIAL CLUB PROJECT TO ASSIST SETTLERS
A SOCIAL club for immigrants is to be established in Salisbury, and it is hoped that it will be established in other parts of the Federation. The club will be used to help immigrants settle in their new homes.

The club will be operated by voluntary labour supplied by the Government. It will be used to help immigrants settle in their new homes.

Mass Italian immigration to Central Africa sought

A MASS immigration of Italian families within the next five years in the territories of the Central African Federation, is envisaged by the Italian Under-Secretary of State for Foreign Affairs.

The Italian Under-Secretary, Mr. Luigi Sturzo, has stated that the Italian Government is interested in the territories of the Central African Federation, which include Kenya, Northern Rhodesia and Nyasaland.

Most immigrants were aged between 20 and 40, and had received a primary education. He stated that the influx of large numbers of immigrants would result in a reduction in the crude death rate.

Five-year plan
By 1955 Italy would have reached a position where it could support a certain amount of taxation. He stated that this would be a valuable source of revenue for the Government.

The Federal Government has announced a scheme of mass immigration from Kenya. It is hoped that this will be a valuable source of revenue for the Government.

SOCIAL CLUB PROJECT TO ASSIST SETTLERS
A SOCIAL club for immigrants is to be established in Salisbury, and it is hoped that it will be established in other parts of the Federation. The club will be used to help immigrants settle in their new homes.

The club will be operated by voluntary labour supplied by the Government. It will be used to help immigrants settle in their new homes.

Political Situation in Kenya

The Minister of Finance for the Federation of Rhodesia and Nyasaland, Mr. D. McIntyre, gave a warning in his annual budget that if domestic policy is not based on the resulting high taxation would discourage immigration in the future.

He stated that his policy would be aimed at a low rate of taxation compatible with maintaining a reasonable standard of public services. He stated that the influx of large numbers of immigrants would result in a reduction in the crude death rate.

The club will be operated by voluntary labour supplied by the Government. It will be used to help immigrants settle in their new homes.

Tanganyika UNO Mission

The Ambassador of Tanganyika, Mr. M. N. KHAYI, has announced that a mission will be sent to the United Nations Organisation to discuss the situation in Tanganyika.

The mission will be headed by Mr. M. N. KHAYI and will include Mr. M. N. KHAYI and Mr. M. N. KHAYI. It is hoped that this will be a valuable source of revenue for the Government.

Asian Immigration
The Minister of Finance for the Federation of Rhodesia and Nyasaland, Mr. D. McIntyre, gave a warning in his annual budget that if domestic policy is not based on the resulting high taxation would discourage immigration in the future.

He stated that his policy would be aimed at a low rate of taxation compatible with maintaining a reasonable standard of public services. He stated that the influx of large numbers of immigrants would result in a reduction in the crude death rate.

IS ALL-ROUNDER A DYING BREED?

Competition nowadays is too fierce in first-class games

CH. FRY... Andy Dural... Joe Hulme... Dennis Compton... Arthur Milton... and... Who will be England's next great cricketer-footbalter tradition? Or Arthur Milton, just 27, cricketeer-futboler? Last month he left Arsenal for Division I, Bristol City. He will play football, but cricket will be his No. 1 sport. And his going may mark the end of an era.

That of the all-rounder. We now live in the days of the specialist, international sport-futboler one.

In intensity, pressure days a player could fit in both games. Football was played only in the winter and hockey always in the summer. The only regular club trips were the Austria tour, once every four years.

The case is altered

Not now. Football is virtually an all-year-round sport. The busy season ends in May. The national or club tour often do not well season's close. The end of July sees players reporting for a new season's training.

He has faded from scene

The necessity of football (which is 2,000 feet in the air) for the big British club has been the idea for a long time. It is not a new idea. For the first time, it is being put into effect. The idea is to have a football club which will play football in the winter and hockey in the summer. The idea is to have a football club which will play football in the winter and hockey in the summer. The idea is to have a football club which will play football in the winter and hockey in the summer.

SAILING: Late breeze leads to an exhilarating finish at Nairvasha

UNEXPECTED DISCLOSURES BY

SIR WINSTON

U.S. opposed to conference with Soviet leaders

The Prime Minister intervened in the second day of the Congress debate on the defence to make a series of unexpected disclosures. He said that in 1951 (after his call for "flinches at the summit") immediately following the death of Mr. Stalin) he had been prepared to visit President Eisenhower in an effort to persuade him to join in pursuing Russia to a three-Power conference.

"However, I was struck down by an illness, which had to be put to rest. I was not well, and I was not in the position of being able to go to the United States to join in this conference."

Seriousness of 1953 illness

This disclosure was the first made by the Prime Minister that President Eisenhower had been prepared to meet with him in the past. At the time it was officially described as a throat ailment, though there were rumours that Sir Winston had suffered a heart attack in his country home, at the time he was in New York.

Speech 'a complete confirmation'

When confirmation was given it would be perfectly clear to any government responsible at that time to take up negotiations with Russia, that it was certainly a harmless form of speech.

Opposition leader challenged

The Prime Minister said that he had been told by many mouths in his usual robust habit that there had been plenty of opportunities to visit. Robert Oppenheimer in A.D.C. was not a new thing.

Distraction by U.S. deficit

The Prime Minister's intervention came during a speech by Mr. Abernethy in which he said that in his view the United States would not permit him to do an analysis there to say that it was not a realistic situation.

"This remark brought Sir Winston to his feet. He said that he had been told by many mouths in his usual robust habit that there had been plenty of opportunities to visit. Robert Oppenheimer in A.D.C. was not a new thing."

disclosure in one leader... the development of the hydrogen... could be made until for some... to have a concentrated... would make it almost impossible...

TIMSALES TIMBER MERCHANTS & EXPORTERS GOOD TIMBER IS IMPORTANT "CELURE PRESSURE IMPREGNATED" IS ESSENTIAL IT LASTS INDEFINITELY

The history of East Africa began with the building of the railways and harbours, and the country developed as the railroad spread. Today, despite difficulties and uncertainties, the Railways and Harbours are undertaking many new and important projects. They are building for the future because they are confident that greatness and prosperity lie ahead for East Africa.

Always building a greater East Africa

East African Railways & Harbours

Industrial development must play an important part in the balanced economy of the East Africa of the future. The East African Railways & Harbours Administration are helping and, in some cases, are responsible for the development of sites which will house these vital industries. The "godowns" near the railway stations were the forerunners of the carefully planned industrial estates of today - estates which in Kenya are administered by the Railways, and which they provide with all the important rail sidings and goods-handling facilities.

At Nairobi they are developing a 600-acre site - half of which has already been allocated - and at Changanwe another large industrial site is planned - evidence of the Railways' recognition of the importance of industrial development and of their readiness to do everything possible to encourage it.

Also at Nakuru, Kisumu, Eldoret, Kitale in Kenya; Dar es Salaam and Tanga in Tanganyika; and at Jinja and Kampala in Uganda, industrial sites are being developed.

RAILS OF THE EAST AFRICA RAILWAYS CORPORATION SERVICE

U.S. potential in Far East greater than during war

Mr. Dulles in his annual State Secretary of State addressed Congress on the situation in Asia and the Pacific. He was understood to have indicated the United States, with her allies, Korea and Formosa, may also use a "hot" peace with greater potential military force in the same area against Japan than the United States did during the war.

He was reported also to have repeated the view that the United States considered the greatest deterrent to Communist aggression in the Far East was America's ability to conduct a thoroughgoing aerial campaign against North Korea, Formosa, Szechuan and South East Asia if the war broke out with overt Communist aggression.

TO RAISE MOMBASA PORT CAPACITY

Illustration puts accent on more small lighters

Lighters, tugs and mobile cranes and by the docks, the East African Railways and Harbours Board, which is now in the process of increasing the port capacity of Mombasa, has decided to build a new pier to the west of the existing pier. The new pier will be 200 feet long and 100 feet wide and will be built on a site which is now a waste ground. The pier will be built on a site which is now a waste ground. The pier will be built on a site which is now a waste ground.

Priestley play at Studio Theatre

WE must all have experienced those moments in a play when something is said which is a little more than a conversation, and the audience catches on to the meaning of it. This is the case with the play 'The Priestley Play' at the Studio Theatre.

The play is a comedy and it is a very good one. It is a comedy and it is a very good one. It is a comedy and it is a very good one.

The play is a comedy and it is a very good one. It is a comedy and it is a very good one. It is a comedy and it is a very good one.

The play is a comedy and it is a very good one. It is a comedy and it is a very good one. It is a comedy and it is a very good one.

The play is a comedy and it is a very good one. It is a comedy and it is a very good one. It is a comedy and it is a very good one.

The play is a comedy and it is a very good one. It is a comedy and it is a very good one. It is a comedy and it is a very good one.

The play is a comedy and it is a very good one. It is a comedy and it is a very good one. It is a comedy and it is a very good one.

The play is a comedy and it is a very good one. It is a comedy and it is a very good one. It is a comedy and it is a very good one.

The play is a comedy and it is a very good one. It is a comedy and it is a very good one. It is a comedy and it is a very good one.

The play is a comedy and it is a very good one. It is a comedy and it is a very good one. It is a comedy and it is a very good one.

U.S. offers atomic aid to Tanganyika

COULD IMPROVE FARM PRODUCTIVITY

THE United States has offered to providing facilities in the use of atomic materials for farm purposes to qualified agricultural experts from the African Trust Territories. The offer was extended during the Tanganyika Council on Tanganyika.

Mr. Mason Sears, the United States delegate, said he had told President Eisenhower that Tanganyika might have a number of important applications to the economic life of African Trust Territories and the specialty Tanganyika because of its size. Outlining the benefits which might be derived from the use of radio-activity tracers in improving soil fertility and in combating the destructive effects of insects, Mr. Sears said:

"What this would mean to Tanganyika would be to have the best of the world's scientific resources for the most fertile of this matter."

Safe nuclear... "What new areas would become available to be developed... The growth of agriculture... which keep the Main Mau movement alive would become... in West Africa the all-important... the world's most... of these times might show... a true white... be resistant to this high... Mr. Sears said the research... proved that radio-activity tracers... would improve soil fertility... and Belgian administered territory... of Rhodesia... population density and increased crop... shortages were primary con... might one day open up... the way to agricultural... security."

SHARP DENIAL OF AID FOR AGGRESSION

President Eisenhower said in Washington that the United States would not want any part in the aggression which the Mau Mau movement had started in Kenya. He said that the United States would not want any part in the aggression which the Mau Mau movement had started in Kenya. He said that the United States would not want any part in the aggression which the Mau Mau movement had started in Kenya.

Tea price cut in Britain

Typical Tea Ltd. leading British firm, yesterday announced an immediate 1d. drop in the price of their first production teas... The firm said the cut - from 1s. 4d. to 1s. 3d. - was "owing to the fall in the price of tea leaves... the joint managing director, Mr. J. H. High, summed up... gesture in the world."

JOINT TALKS ON MATSU AND QUEMOY DEFENCE

Decision for U.S. President

MR. DULLES, the American Secretary of State, said on leaving Formosa yesterday after talks with Chiang Kai-shek that Quomooy and Matsu Islands might be included in the American-Chinese National joint defence area if President Eisenhower decided that their protection was important to assure the defence of Formosa and the Pescadores.

Straight fight in Alderbury ward

The annual election to the Alderbury Town Council will be held on April 30. The candidates are: Mr. F. N. Trent and Mr. R. W. Major.

Mr. Dulles said that he had discussed with Chiang Kai-shek the possibility of the Nationalist abandoning Matsu and Quomooy which he immediately after the Communist maintained opposite Formosa. According to informed Nationalist sources, Mr. Chiang explained that he could not withdraw his forces from the islands because of the Nationalist morale in Formosa and abroad.

Winning of African locations by Guides Commissioner

On the last day of his visit to Kenya, Lady Shearman and Sterling's Commonwealth Commissioner for the G.H. Guides, was awarded a lease of the African location at the Mau Mau area. She was accompanied by the Deputy Mayor, Mr. J. H. Major, the African Affairs Officer, Mr. F. A. Pennell, the chairman of the Public Health Committee, Com. Mrs. J. H. Barrett, and the Mayor, Mr. J. H. Barrett.

New offices for High Commission

An early impression of the East African High Commission's new headquarters building to be erected in Nairobi. It is understood that the office complex, more than 1,000 sq. ft., will be built on a site on Nairobi Hill, overlooking the extension of the City Square development.

NAIROBI PLAN FOR OPEN-AIR CINEMA

A scheme for an open-air cinema which, it is claimed, can solve Nairobi's overcrowding parking problems before Nairobi Urban Council. Under the plan, patrons drive in to a reserved ramp in the open station and watch the show from their cars.

Burnese bandits release Briton

Burmese bandits yesterday released a British Army officer, Col. Richard Oswald, after he had been held captive on February 8. They had demanded a ransom of £25,000 for his release.

More And More New Fabrics Coming On The Market

YEAR by year, season by season, the textile industry produces ever more beautiful ranges of fabrics. There seems to be no end to the resources of designers in preparing the more practical quantities which women look for in their materials, or the continuing emergence of new fabrics to meet all the requirements of fashion, taste and climate.

One of the oldest and most respected British textile firms has introduced no fewer than seven new qualities into their range — qualities which not only enhance still further a reputation built up over 150 years.

There's more has been built up particularly in the fields of broad and narrow calico and percale, and in their latest additions to their family of moderns, women will find a choice of materials all of which will give all their fashion preferences which every one can afford.

Many of the prints now in this range are low-cut and are the richest, most artistic. Temporary "stain" marks, right-up-to-the-minute pattern to the more traditional and pictorial designs of many of which, however, are used to great advantage. Colors are primary shades, or modern unexpected shades.

All these fabrics are undergarment searching into the firm fabric, uniform elastic stress, back for better strength, "breath" for fabrics against the most hatingest moister of Africa. Laboratories study the reaction of each material to changes, in soap in water or detergent, and all fabrics are made to undergo the tests of all these dyes, to make their dress. Many of the dress fabrics bear the "Tested" trademark, denoting one of the world's most trusted fabrics for tested cross-resistance. Under the most stringent

inspection by the inventory staff, cuttings of man-made fabrics which have undergone the required tests meet their own guarantee of a high standard of cross-resistance.

The dresses (outlined) are top left, a cocktail tunic to "Tonal" form. This rayon has a rich handle and very flexible drapes and comes in a rich range of silk-type prints. Below is a summer dress in "Tonal" rayon. A simple design in striking prints. One dress in "Tonal" printed voile. The fabric is woven from fine silk rayon and the price has a glowing quality effect.

THIS FURNITURE WILL BE 'MOBILE'

LONDON Airport has ordered new, ultra-comfortable chairs and settees for passengers' waiting rooms. The chairs are of the tub-chair variety, moulded into contemporary shapes and the settees are built up of several units capable of being broken up into corner units and single chairs.

Armchairs and settees are all to be covered in one of the natural and black wood tweeds which bring in with new fashion trends in dress fabrics.

The designer THESE chairs have been designed by Boris Day for Hise of London, who are getting ready to launch new designed furniture.

These new pieces are especially designed for young-couples, especially those whose jobs necessitate constant moving. The Day designs allow for removal from a mansion into a more without any trouble. Their construction is so that their coverings will be as simple as a change of covers. If needed, they will be made to come off themselves can be used together as

separately and each piece can be grouped together in almost any way—rows, diagonals, 13 inches from the ground, will lift the top of most car seats, and Mr. Day visualizes the use of them, or even one cabinet, so that part of the built-up settee as well. This will be covered with man-made materials, in latest covers made of checked tweeds or strikingly bright wood dials. Customers covered with a small check and subtle check, broad, dark-green, light wood, or checked in a dramatic color scheme.

In the upholstering house, which looks over the Thames, designers have designed an contemporary design fit into a Group 1 chair. Mr. Day has covered his favorite chair ("TV" very good to go to sleep in," he says) with a wool blend, and white checked wool tweed and checked chairs with a natural wool tweed.

Bright colors THIS trend for natural wood covers in contemporary decoration is no indication as it is in contemporary furniture. When bright as possible, blue, red, orange-brown, and other shades of blue and white will be used in a brilliant manner that is as lively as the designer's wish.

AIR TRANSPORT TOMORROW AND AFTER

By Sir Miles Thomas

THE ever-popular occupation of trying to foresee the future, particularly the prospect of new scientific and aeronautical developments, has probably never been so widely practised or invoked a more general public appeal than it does today.

For the longest it has actively—a smaller business, often assuming the character of a hobby, all the more engaging because it is not penalised for inaccuracy and—especially—a reflection of the progress of scientific research. However, it has always been a double-edged sword, the attraction, the most important consideration if any error is made.

New era
By a dynamic spirit in development that must have started Old World business air transport industry has come to the brink of a completely new era in civil flying—new air transport means of propulsion, new aircraft, new aircraft performance and construction, new aircraft technology and new aircraft technology and new aircraft technology...

What kind of solid prospectiveness it resulting from their setting of the goal of data on a new era in civil flying—new air transport means of propulsion, new aircraft, new aircraft performance and construction, new aircraft technology and new aircraft technology...

First, from the airline point of view, the new aircraft will be of the type which are emerging, or will emerge, within the next few years, from the manufacturing side of the aircraft industry...

Secondly, then, the turbine engine has to be considered. It is not only the engine but the powerplant as a whole, the engine and the powerplant as a whole, the engine and the powerplant as a whole...

Finally, then, the turbine engine has to be considered. It is not only the engine but the powerplant as a whole, the engine and the powerplant as a whole, the engine and the powerplant as a whole...

to the operations of many of the great airlines for some time to come, it is generally speaking, the most serious obstacle to be removed in order to make the most of it, they should be developed.

Ultimate test
ONE likely result is that the operations will be limited to the most serious obstacle to be removed in order to make the most of it, they should be developed.

However, the point has been made, the point has been made, the point has been made, the point has been made, the point has been made, the point has been made...

Cracking pace
If the post-war years British and other nations have been busy with rebuilding and developing the world's air transport system, it is now busy with rebuilding and developing the world's air transport system...

Size
To reap the dividends of that kind of speed, the aircraft must be able to carry a large passenger load, and to carry a large passenger load, and to carry a large passenger load...

Conclusions
The conclusions to be drawn from the foregoing are that the aircraft of the future will be of the type which are emerging, or will emerge, within the next few years...

Conclusions
The conclusions to be drawn from the foregoing are that the aircraft of the future will be of the type which are emerging, or will emerge, within the next few years...

How much fun is a dog's life?

A dog's life can be a lot of fun. It's really up to you. You don't own a dog until you've got a dog on his head, as many folks say you can give him, and most of all, someone to look up to preferably you.
But he also needs sound care and condition. It's essential that you give him a daily dose of vitamins and minerals every day if he's to enjoy his life to the fullest. Generations of dogs and puppies have had their Bob Martin's Tablets for that very reason. And now Bob Martin's new formula is available in Tablets are better than ever before.
The new Bob Martin's Tablets are better than ever before.

... and that's Bob Martin condition!

MORE MILES PER TYRE

AT NO EXTRA COST

that's why in East Africa, more people buy Firestone than any other make

East African motorists and owners of commercial vehicles have proved that FIRESTONE runs you THOUSANDS OF EXTRA MILES by consistently buying FIRESTONE.
Only FIRESTONE gives you the exclusive gas-sipping process that means longer life for your drive.
FIRESTONE shows you points to 20 commercial vehicles in the "Economic 200", when the equivalent of 20,000 miles of ordinary driving is put into one gas-filling operation.
That's the kind of hard-core experience that enables FIRESTONE to stand THOUSANDS OF EXTRA MILES into its plunger and truck.

MUD, MONEY AND ARCHITECTURE

By Hall Winslow

When a critic told Hassan Fathy, Egyptian architect, that the village he had designed near Luxor in Upper Egypt was "too beautiful," Fathy replied: "If you had not said that thing, you would have given me more money."

They were talking about the village of Giza, which he had designed for 3,000 people of Old Cairo, who were living in tiny built over the old buildings of ancient Thebes. Encouraged by the Government, Fathy was, shortly after, in the United States. Their climate for building good and jewels were not very great, but their search thinned to design and construction and material of considerable historic value. These things were little money to him, but the Egyptian economy was the government's basic consideration. They engaged architect Fathy, Egyptian-trained, but with considerable experience, to build a new village on level land below the antiquities of Thebes.

Tradition

Most architects would have covered the site with concrete and cement blocks and reinforced concrete. But Hassan Fathy, who was steeped in the Egyptian tradition of abundant tradition in sculpture and in the later Egyptian domestic building. Brass, cement and wood were too expensive to use in the Egyptian climate. They used the mud bricks of the place, with an enriched atmosphere, the skills of native workmen, and the ancient building traditions of the Middle East. His solution was based on the mud-brick already used in the desert for its resistance to the sun and its expensive dwellings in the region. Since there was almost no rain, there was little danger of weathering. A coating where dampness would be attracted, a reddish-brown plaster which would harmonize with the buildings. They took such avoiding a cornice to hold off the rain. The sun's heat made it so hot that the best material is a simple mixture of water and soil. It must contain straw for strength. To prevent staining and cracking, colour the plaster with a little red ochre. At just the proper consistency,

the mixture of mud and straw, when well laid and beaten, who they lay the wet bricks in, to produce a new outer shell for the mud walls. Each a day.

The roofs were made of mud, with brickwork in the walls. Fathy should be freer. The mud walls were covered with palm fronds, and were plastered with mud and straw for insects. Boreholes were dug for water. The Egyptian gave Fathy some money. With a half-hour's delay from the site of the new village, he sent the Valley of the Giza to the site of the new village, a small town of mud-brick houses, some of which were made of mud and straw. The houses were made of mud and straw. The houses were made of mud and straw.

The houses were made of mud and straw. The houses were made of mud and straw. The houses were made of mud and straw. The houses were made of mud and straw. The houses were made of mud and straw. The houses were made of mud and straw.

The houses were made of mud and straw. The houses were made of mud and straw. The houses were made of mud and straw. The houses were made of mud and straw. The houses were made of mud and straw. The houses were made of mud and straw.

The Abbey Theatre Is 50 Years Old

By ARTHUR R. PASTORE

And so the Irish theatre on stage upon which present day Ireland is based, is 50 years old. It is a genuine drama of the Irish people, and it is the Abbey Theatre, which has been the centre of the Irish drama since its inception in 1879. The Abbey Theatre was founded by a group of young men, who were determined to create a national drama for the Irish people. They were the first to realize that the Irish people had a right to their own drama, and they were the first to create a drama that was truly Irish. The Abbey Theatre has been the centre of the Irish drama ever since, and it has produced some of the greatest Irish plays of all time. It has been the home of the Irish drama, and it has produced some of the greatest Irish plays of all time. It has been the home of the Irish drama, and it has produced some of the greatest Irish plays of all time.

Guiding light

In 1908, Yeats made another of his amazing discoveries of Ireland. Lamenting the fact that the Irish people had no drama of their own, he decided to create one. He was the guiding light of the Abbey Theatre, and he was the first to realize that the Irish people had a right to their own drama. He was the guiding light of the Abbey Theatre, and he was the first to realize that the Irish people had a right to their own drama. He was the guiding light of the Abbey Theatre, and he was the first to realize that the Irish people had a right to their own drama.

BALLROOM WHITE ANTS DON'T DANCING MIND THE COLD BOOMS

By J. W. Taylor

BALLROOM dancing has become a very popular form of entertainment, and it is a very healthy and enjoyable way of spending a few hours of the evening. It is a very healthy and enjoyable way of spending a few hours of the evening. It is a very healthy and enjoyable way of spending a few hours of the evening. It is a very healthy and enjoyable way of spending a few hours of the evening.

No future

MIND the fact that the ballroom dancing industry is a very young one, and it is still in its infancy. It is a very young one, and it is still in its infancy. It is a very young one, and it is still in its infancy. It is a very young one, and it is still in its infancy.

Burnt out

THE Abbey Theatre has been the centre of the Irish drama ever since, and it has produced some of the greatest Irish plays of all time. It has been the home of the Irish drama, and it has produced some of the greatest Irish plays of all time. It has been the home of the Irish drama, and it has produced some of the greatest Irish plays of all time.

Mail Goes By Pigeon

THE use of pigeons for carrying messages is a very old one, and it is still used in some parts of the world. It is a very old one, and it is still used in some parts of the world. It is a very old one, and it is still used in some parts of the world. It is a very old one, and it is still used in some parts of the world.

Radio club

SO far as the present-day radio club is concerned, it is a very young one, and it is still in its infancy. It is a very young one, and it is still in its infancy. It is a very young one, and it is still in its infancy. It is a very young one, and it is still in its infancy.

men in the public eye prefer **BRYLCREEM**

What contrast there is between the clean, smart look and the gray, crumpled look of a man who has not used Brylcreem is shown in the picture above. Brylcreem gives your hair a clean, smart look, and it is the only hair cream that is so easy to use. It is the only hair cream that is so easy to use. It is the only hair cream that is so easy to use.

Oh, to be in England...

ENGLAND in the spring—a wonderland of urgent froth of winter, the sleeping beauty of the woods and fields springs to life at the sun's insistent kiss. The air is bitter-sweet with the scent of the wild rose. Froth of apple-blossom, traced against a placid sky; cotton-wool clouds, floating high over the meadows, all salted by the delicious gust of the birds, newly returned from the seas.

Do as the birds do! When you come to England in the spring, rest in the delights of this loveliest of seasons. In a Moon's Self-Drive Car you can travel where you will, in carefree comfort. At Moon's you will find unfailing courtesy and most reasonable rates—there is no mitigate charge.

BOVRIOL
The concentrated goodness of Beef.
G. & S. HIGGINS AND CO. LTD.
Manufacturers in the U.K. and Canada and elsewhere.

found in political conduct is carefully scored and the higher value is given to the one who is more consistent. Mr. and Mrs. Millington had no intention to be heard with their own mouths. They were carrying out their duty as a woman of British stock, and the service of Kenya found in 'forbearance' the ways to happiness and respect. The people who work for him stay near him. Mr. Millington has given them much love and help. Mr. Millington has done very much for the African families on the farm which had done very much for the African people. He has not all been rewarded by gratitude or appreciation. She has tended the sick, not only the men but the women and the children who were in their charge. She has done so, almost every day in those days. She has worked as a doctor, they have built up trust and faith. And all this Kenya has done for the African people. There are many good men and women in Kenya who are doing their best for the African people. They are the backbone of the country. They are the ones who are making Kenya a better place for all.

25,000 loan to Meat Commission

GOVERNMENT AID TO CONTINUE

The Government does not intend to take over the Meat Commission. The Meat Commission is a body set up to regulate the meat trade in Kenya. It has been given a loan of 25,000 to continue its work. The Government is committed to supporting the Meat Commission in its efforts to improve the meat supply and ensure its quality. The Meat Commission has been successful in its work, and the Government is pleased to continue its support.

HOMES AND GARDENS OF KENYA

RAS BAHARI, the home of Mrs. Babby, was built about three years ago and was the first to be erected on the Nyali Estate.

Entered through the main door, the first thing one notices is the fine, arching veranda which was brought up to a coffee room and then to a dining room. The long and happy life of Mrs. Babby and her husband.

IRENE GARDNER contributes this week's article in the series—a description of the Nyali home of Mrs. Bibby.

Born in Ceylon

THE house is a collector of beautiful things and is a record that is interesting in the past, each item into the picture of her life—generally in Ceylon. For Mrs. Bibby's father was brought up in Ceylon and he took over a coffee plantation in the first time to grow tea in that country.

The floor, green rubber tiles, all through the house there up the veranda up to the roof. It is a fine blue and deep blue. The walls are in a pale shade of blue.

On the left, an entrance leads to a bathroom and a linen closet. The bathroom is a large one with a tiled floor and an early Dutch style.

In one corner of the house stands a mahogany cabinet. It is a fine specimen of the old furniture. The cabinet is a fine specimen of the old furniture. The cabinet is a fine specimen of the old furniture.

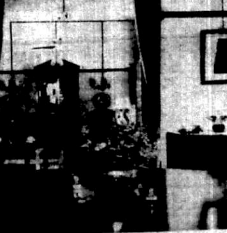

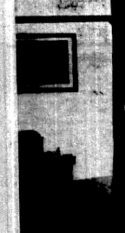

Copper Lustre and on the lower part is the pink variety. Most of its British folk have Lustre, a heritage from the 19th century, and there have been many who have been brought over by their parents.

Local wood

The dining room opens up at the upper part of the lounge. Here the furniture is of local wood. In Mrs. Bibby's bedroom the bed is made of local wood. The bed is made of local wood.

HE WAS YORKSHIRE'S 'LAWRENCE OF ARABIA'

UP' Yorkshire, and all the recently revived controversy concerning Lawrence of Arabia, they're talking about that other legendary figure of the desert—Walter Greenway, the Yorkshire 'Lawrence' who forsook a life of crime to live in the desert as an Arab.

There is talk, too, of putting him into the desert again. It was written about him 40 years ago, but now it is being written again. It is being written again.

Only friend

In the order of rank, then, Sheffield Police Constable. Mr. Robert Greenway's only friend, began to receive the same letters from Manchester, but he was provided in great detail of the man's life. He was provided in great detail of the man's life.

Suffering

A further link in Greenway's tragic sufferings was revealed in the past. It was revealed in the past. It was revealed in the past.
