BANK HOUSE

BARCLAYS OPEN NEW BRANCH IN CITY CENTRE

Faith in the future of the Colony's capital

AT the corner of Delamare Avenue and Government Road, and on the site which citizens of Nairobi for many months knew as "the hole in the ground," the new Government Road Branch of Barclays Bank D.C.O. has opened its doors to the public.

This magnificent Bank Building, the latest of the many projects to be completed recently by Barclays Bank D.C.O., not only gives visual proof of their faith in the future of Nairobi as Kenya's capital, it was designed to restore to the road junction its old title of "the centre of Nairobi"—for it was from this spot that all distances are measured to other parts of the Colony.

The architects of the new Bank were Messrs. Cobb, Archer and Gomonzi, who have guided its destiny since the proposal to build was first mooted in the early war years.

The first scheme submitted was prepared on the back of an ammunition box at a military station in northern Rhodesia. A second scheme, with an advanced Italian taste, was prepared in Amara during the occupation of Abyssinia.

Two sections

These were superseded by many later schemes subsequently altered or discarded. The building, as it stands today, owes to take its final shape from a decision by the Bank's Head Office in London, who approved the open internal court plan, in preference to a compact towered structure.

It was some time later—after the Bank had evacuated the old building and moved to Government way, and the other tenants of the property had found alternative accommodation—before construction could begin and a start could be made on the new building. It was to be known that "the hole in the ground."

The layout of the building is divided into two sections. The Bank premises consisting of the basement, with strong rooms, Safe Deposit Vault, Board Room, lift, ventilation gear and plant rooms, and the ground floor which contains the new banking hall, Manager's office,

Assistant and sub-manager offices, residential offices and the departments particularly associated with the public, the exchange and securities, utility departments and the main entrance.

This last, which is served by an access gallery overlooking the banking hall, is, in fact, a landing hall at the north end of the building. It is the only part of the building to be directly connected to the telephone department with the telephone exchange, messengers' rooms and cloakrooms.

On the top floor of the building, the B.D.O. has a large directors' dining room and a manager's office.

The second section of the building, which contains the main entrance and service rooms, and from this branch the main corridors leading round the internal lightwell to the offices.

PREFERENCE FOR MATERIALS FROM KENYA

As with everything used in the building, the materials for the structure have been the first choice and the best available. The concrete used in the structure is of the highest quality and has the usual characteristics of very fine coloured concrete in every way which has proved itself for special purposes.

The great and solid of the floor is reflected in the columns and the door frames. The masonry in the walls is of the highest quality and has the usual characteristics of very fine coloured concrete in every way which has proved itself for special purposes.

ILLITERACY - NO BAR TO FRANCHISE
LITERACY, that is, the ability to read and write, is definitely not a prerequisite to voting. Literate and illiterate electors can exercise their votes equally successfully.
In Kenya most of the African franchise is exercised by illiterate. But this is not a disadvantage. It is a disadvantage only in so far as it makes it more difficult for the electors to understand the nature of the issues which they are voting on.
There are persons in other parts of the world, who are illiterate, who are nevertheless able to exercise their franchise. In Kenya, illiterate electors are able to exercise their franchise through the assistance of their friends, relatives and neighbours.
A Commission appointed by the Government to report on the constitution of Kenya, has recommended that illiterate electors should be able to exercise their franchise through the assistance of their friends, relatives and neighbours.
This recommendation is a commendable one. It is a step towards the elimination of illiteracy as a barrier to the franchise. It is a step towards the realization of the principle of universal suffrage.
We should like to propose that the constitution of the Legislative Council should be amended to provide for the inclusion of illiterate electors. This amendment should be based on the principle of universal suffrage. It should be based on the principle that every citizen who is of legal age and who is not insane should be entitled to exercise his franchise.

RELUCTANT ALLIES
The Meru in Nairobi, following the example of the Ashanti, have been reluctant allies of the Government. They are beginning to be anxious to disassociate themselves from the Kenyan Mau Mau is making the Mau Mau a people's war.
The Meru want to be too closely mixed with them, and who the few who remained loyal to the principle and practice of the Mau Mau have retained their friends, protectors and champions. These few, apart from the large body of the Kenyan Guard and other actively loyal groups, including staunch members of the Mau Mau, are beginning to be anxious to disassociate themselves from the Mau Mau.
The Meru were very much alarmed when they saw that they had a canal and uncertain quality in their franchise. This was a step which discouraged the development of fanaticism among the Meru. It was a step which was undesirable to the Meru.

MOHABSA STRIKE
The Mohabsa, a small town in the Meru District, has been struck by a strike. The strike is being led by a group of young men who are dissatisfied with the way in which the town is being run.

COFFEE PRICES
The price of coffee has risen sharply. This is due to a number of factors, including a shortage of coffee beans and a rise in the price of labour.

YOUTH AND AGE BLEND ON DISTRICT COUNCIL

Praise for 'sensible' Kipsigis

THE blending of youth and age on the Kipsigis African District Council is proving most satisfactory, according to the annual report of the District Commissioner, Mr. J. W. Howard. He states that the young men of the Council are groups who were elected to the African District Council for the first time in October, 1953. He has proved them to be sensible citizens. They have not tried to press ultra-modern ideas on the old men, who still retain much influence.

Making local government more local

LOCAL COUNCILS throughout the Kipsigis District have been reorganised during the past year, reports the District Commissioner. The general aim of the reorganisation is to make local government more local. The new councils are to be smaller and more local. They are to be made more local to give the people more direct participation in their own affairs. The new councils are to be made more local to give the people more direct participation in their own affairs. Women's Tuesday Club THE SONG OF THE SHIRT

THE little dancers curtsied low in a flutter of pink and blue. "Aren't they beautiful?" breathes my daughter. "Will you make me a dress like that ready for dancing?"

The member in the next booth had given me the kind of look which they should be delivered to her. Her face was a picture of incredulity. "Oh, so you are the company of that poor little red-headed woman in the next booth?" she asked. "The woman who is the daughter of the man who is the member in the next booth?"

Here's Jimmy, back for the Holidays...

It's wonderful to be able to have Jimmy back with the family for every one of his school holidays. And it's easy and The Safari Service is so new and the journey is so easy that now he comes to Kenya at Christmas, Easter and in the summer.

Children arrive fresh and happy

The Safari Service — 7 days from London to Kenya — is ideal for the children's travel. There are two night stops, where they get out and look at beautiful scenery, and have a good night's rest in comfortable hotel beds.

The Family Airline

Because the Safari Service is ideal for children, and because the fares are so reasonable, Airwork can justly claim that it was the first of the family airlines.

Airwork's holiday air transport is the best method of long distance travel, and so much should be easily available to all. The lower fares mean no reduction in all the standards of safety and comfort associated with air travel. They are made possible by the slightly more leisurely journey — and the experience that Airwork has gained over 30 years of air transport operation.

Fast, hard tussles in Nairobi water Polo League

THE first two matches in the second round of the Nairobi District Water Polo League played at the Sallisbury Pool on Friday, resulted in the Eastleigh Swimming Club "A" team retaining the trophy won by beating Kenya Police "A" while the runners-up in the League will be Nairobi Swimming Club, defeated Eastleigh Swimming Club "B" team by 11-2.

The standard of water polo in the league has improved in the last few weeks and the matches are now being played harder and better than ever before in the league.

Two teams representing the best of the league were in action in the first match which was held in the R.A.F. Pool at Eastleigh on Saturday night.

A hard match. In the first match on Friday evening Kenya Police "A" were the victors and have never played better before.

100,000 LOAN FOR E. AFRICAN RAILWAYS Agreement signed with World Bank PURCHASE OF ROLLING STOCK AND LOCOMOTIVES

A LOAN OF £2,570,000 to the East Africa High Commission to help finance the expansion programme of the East African Railways and Harbours Administration was made yesterday by the Development Interest on the loan over 25 years will be about 4 per cent.

This was announced in Nairobi by Mr. A. F. Kirby, the general manager, who returned on Monday from a visit to London and Washington. Mr. W. D. A. Williams, the Commissioner for Transport, is still in Washington, where he signed the loan agreement yesterday. The loan has to be guaranteed by the United Kingdom Government, which is a member of the bank, and by the East African territorial governments.

Mr. Kirby said that the loan will be used to complete the Administration's building of deep-water berths and other port facilities on the building of new locomotive and passenger coaches, expansion of passenger and freight stations and bridges, and the buying of stores, spare parts, lighters, tug and signalling equipment. Under the terms of the loan, however, the money from the loan must be used for buying imported equipment, and the loan, therefore, will be spent entirely on locomotives and rolling stock.

The annual requirement for rolling stock for the East African Harbours and Railways Administration is about £2,500,000. Mr. Williams said that the loan will be used to purchase about 100 locomotives and 100 passenger coaches. The loan will also be used to purchase about 100 freight coaches and 100 passenger coaches. The loan will also be used to purchase about 100 freight coaches and 100 passenger coaches.

REASON TO BE WELL SATISFIED
No applications were made in Kenya for the loan. It is a sign that the money has been borrowed.

An Italian Air Force Dakota carrying 13 passengers, were landed about two miles from Eastleigh yesterday after encountering engine trouble. One woman was injured. The pilot's injuries and whereabouts were unaccounted for but his machine remained intact.

UNION LEADER OPTIMISTIC ON POSITION AT KILINDINI

Mr. Tom Moyo, general secretary of the Kenya Federation of Registered Trade Unions, who arrived at Mombasa yesterday morning from a visit to East Africa and immediately went into conference with dock workers' representatives, was optimistic that he did not lack work at Kilindini.

The dock workers' union was formed with a number of men who were unemployed in the town when the Government of Registered Trade Unions was formed in East Africa. They were the only men who were unemployed in the town when the Government of Registered Trade Unions was formed in East Africa.

PACT PRIORITY POLICY UPHELD 'Worst time' for talks with Russia on hydrogen bomb

BRITAIN'S policy of waiting for the ratification of a treaty on West German rearmament before trying to arrange talks with Russia was approved by the House of Commons by 298 votes to 206. The House rejected by a majority of 20 votes a Socialist motion censuring the Government for "delay" in calling three-power talks to Moscow world forum.

Sir Winston Churchill said that he could not conceive of a worse time than the present for the Government to announce that it was ready to enter into talks with Russia. He said that the Government's policy was to wait until the ratification of a treaty on West German rearmament before trying to arrange talks with Russia. 1954 PROPOSAL FOR MEETING WITH RUSSIANS

Attempts over Big-Power talks to be continued

(Continued from Page 1) by Mr. Molotov of which course, I inferred from Mr. Molotov's speech on May 11, 1954, regarding the idea of a top-level meeting between the Big Three and the states of the East. It is my belief that it would be in the interest of the world to have such a meeting. I would like to have a contact for myself with the Soviet Government, I would like to know they would feel about it.

Informal meeting
"I said I should like to see this before we made any official proposal or proposed any position as I should be very glad if it would help me to find out the ideas of the friends of the Big Three and to see if there was any ground for a meeting. I am convinced that the Big Three and the states of the East should be in contact with each other. I would like to have a contact for myself with the Soviet Government, I would like to know they would feel about it."
I thought our meeting and informal talks might be a step towards a meeting of the Big Three and the states of the East. I am convinced that the Big Three and the states of the East should be in contact with each other. I would like to have a contact for myself with the Soviet Government, I would like to know they would feel about it."

Proposal superseded
"It was not until July 26 that we were able to address Mr. Molotov again. I said that I was very glad to see that the Big Three and the states of the East were about to meet. I would like to have a contact for myself with the Soviet Government, I would like to know they would feel about it."

"This seemed to be the only proposal for the time being, and I am convinced that the Big Three and the states of the East should be in contact with each other. I would like to have a contact for myself with the Soviet Government, I would like to know they would feel about it."

Not possible
"It would not have been possible to have an international conference of the Big Three and the states of the East. I've drunk a drop of beer in my time!
They say I'm not a beer drinker. Well, I suppose I'm a bit conservative but personally I'm a lot happier with a really good one - and I don't mind telling you I was quite surprised the first time I tried this PALE ALE. I've been drinking it ever since, and you've only got to look around to see a whole lot of other people doing the same. In my opinion, it's up to the best British pre-war standards, and that's saying something. I'm blessed if I know how they do it!

NEW RAIL OPERATING CHIEF APPOINTED

Mr. C. G. Mackay takes over

Mr. C. G. Mackay has been appointed chief operating superintendent of the East African Railways and Harbours, replacing Mr. R. D. Bartlett who has been appointed deputy and acting manager of the Kenya Railways. Mr. Mackay holds the rank of lieutenant-colonel in the Indian Army and has been in charge of the Indian Railways for many years. He has also held various posts in the Indian Railways and has been in charge of the Indian Railways in the East African region since 1948. Mr. Mackay was transferred to the East African Railways and Harbours in January 1954, to succeed Mr. Bartlett as chief operating superintendent. Mr. Bartlett will continue to act as deputy and acting manager of the Kenya Railways. Mr. Mackay's appointment is a landmark in the history of the East African Railways and Harbours, as it marks the first time that an Indian has held the post of chief operating superintendent of the East African Railways and Harbours.

With Melbourne in view... KENYA OLYMPIC SWIMMING PLAN

Not yet in world class but should not be disgraced

THE Amateur Swimming Association of East Africa (ASA) is to make an all-out effort to put Kenya swimming on the map and the first step will be to swim at the Easter weekend, when the Coast championships will be held at the Florida Swimming Club, Mombasa.

The ASA is to be held at the Florida Swimming Club, Mombasa, on the 22nd, 23rd and 24th of March. It is expected that the ASA will have a number of swimmers to represent Kenya at the forthcoming Olympic Games at Melbourne.

Olympic training

Kenya swimmers may not yet be world class but they will be well represented at the Games. It is expected that the ASA will have a number of swimmers to represent Kenya at the forthcoming Olympic Games at Melbourne.

Coast championships

All the stars of Mombasa will be in action for the ASA. The ASA will have a number of swimmers to represent Kenya at the forthcoming Olympic Games at Melbourne.

SERIOUS ERRORS IN U.S. REPORT ON YALTA

Sir Winston states Britain's attitude

PREMATURE DISCLOSURE CAUSES RESENTMENT

SIR WINSTON CHURCHILL said in the House of Commons that there were some "serious mistakes" in the records of the Yalta conference, as published by the United States State Department. The Prime Minister is the sole survivor of the "Big Three" who met at Yalta in February, 1945.

He had asked whether the British Government had declined to agree to the publication of the records of the conference, and he stated at the House in Washington, Mr. Acheson said that the American version of the conference was published by the three Powers in 1946.

On general grounds, the Government made clear its view that it was undesirable that detailed records of important international discussions should be published so early after the event. If it became an established practice, it might hamper the free exchange of views at future conferences.

The publication has caused widespread resentment and good in the present age of internationalism and harmony. It is a pity that the general public in America and other parts of the world are not going to be told the truth about the conference.

He had asked whether the British Government had declined to agree to the publication of the records of the conference, and he stated at the House in Washington, Mr. Acheson said that the American version of the conference was published by the three Powers in 1946.

When the United States Government published its version of the conference, it was widely regarded as the most reliable account of the conference. It was widely regarded as the most reliable account of the conference.

Confidence of Africans in Mombasa firms

AFRICANS at Mombasa now have more confidence in their employers, Mr. Tom Howarth, the general secretary of the Federation of Registered Trade Unions, said yesterday.

In response to a question he had been asked at a meeting held at a local club, Mr. Howarth said he had been approached by a number of African workers who were worried about the future of their firms. He said that the workers were confident that the firms would survive and that they were confident in their employers.

BONN APPROVES PARIS TREATIES

Only signature necessary for ratification

ALL the Paris treaties to enable a free, reunited Western Germany to join a West European Union and the Atlantic pact were approved yesterday by the West German Bundestag (Upper House). Parliament will be complete when the President, Dr. Theodor Heuss, signs them.

West Germany is the third country to complete Parliamentary action on the treaties. The others are Britain and Italy. The treaties have gone through the Lower House in Bonn, which rejected the original German draft, but await action by the Senate. The Federal Chancellor, Konrad Adenauer, said that the Bundestag's decision was final. This decision settles the question of the ratification of the Paris agreements.

Russia refuses to shoulder blame

Russia refused to shoulder blame for the failure of the negotiations for a general European conference, according to a statement issued by the Soviet Press Minister for the failure of the negotiations.

The statement was issued in response to a question asked by a member of the House of Commons. It said that the Soviet Government had been ready to accept a general European conference, but that the Western powers had refused to do so. It said that the Soviet Government was not responsible for the failure of the negotiations.

U.S. TO DISCLOSE MORE WAR SECRETS

Britain reaffirms strong opposition

POTSDAM AND TEHERAN TALKS FOR PUBLICATION

The United States plans to disclose the secret all-war-time conferences among world leaders to dispel the flood of adverse comment on the publication of the Yalta documents.

Washington, the State Department announced today that the proceedings of the Potsdam and Teheran conferences were approved by Winston Churchill and President Roosevelt at the end of the war ending June 30, 1945.

Other high officials said, however, that the undersignable is a re-approval of the decision. Britain was opposing strongly the disclosure of the Potsdam talks. The conference was attended by Marshal Stalin, Truman and the Western Churchill, who was succeeded by A. British Foreign Office.

Secretary that British and American officials in London were the same as that in the Yalta decision. It was understood that the records of important international conferences published periodically during the war.

As for the Yalta conference, there was no agreed document. The delegation made its own notes. It was understood that the State Department had the Potsdam documents to be made public. The United States, Britain and the Soviet Union, the United States, Britain and the Soviet Union, the United States, Britain and the Soviet Union.

SIR WINSTON MAY RETIRE NEXT MONTH

Step forecast by personal friends

OFFICIAL SILENCE AS SPECULATION MOUNTS

SIR WINSTON CHURCHILL, Britain's Prime Minister, is expected to go to the Queen with the next two weeks and ask her leave to resign as Premier. This official word was reported in London yesterday.

While officials would not comment on the growing reports that encourage the widespread speculation as they are confident that he will resign early next month, they believe he has at least decided to take the advice of Lady Churchill and his doctor.

The present expectation is that the news will be announced around April 4 or 5. It is believed in Parliamentary circles that nothing official would be said up to the No. 10 Downing Street after Sir Winston's audience with the Queen.

According to Parliamentary views, the expectation of his retirement makes a General Election that autumn more likely to occur. Some do not rule out the possibility of an early contest in May or June, although it is considered to be less likely.

Speculation that Sir Winston might after relinquishing private industry, either as an ordinary M.P. or as a member of the House of Lords, is not taken seriously in London. Some are thought unlikely to welcome talks with the Prime Minister, but the possibility of his return to the House of Commons is not considered.

It is believed that Sir Winston will be asked to leave the office of Prime Minister in the next few days. He is expected to leave the office of Prime Minister in the next few days.

'General' persuades gang to surrender

28 GIVE THEMSELVES UP

A MAU MAU leader who was at one time a subordinate of the late 'General' has persuaded all but three of his gang of 120 to give themselves up. He surrendered to the authorities at Kericho, in the South Kenya location Embu, last month. Since then he has recruited the self-styled 'General' Siriva, who has been named as 'Alimino', has recruited a number of followers to the Mau Mau movement.

EGYPT STATES HER 'PRICE' Border with Jordan before Western co-operation

EGYPT has proposed that the Negro Desert, now part of Israel, and the Egyptian-proposed Gaza strip should be given to Jordan. The Minister for National Guidance, Mr. Salem, claimed in Cairo that this move would be in the interests of Western defence and the solving of Arab problems and would give Egypt a border with Jordan and a link with the rest of the Arab world.

Stating that Britain and the United States were aware of Egypt's 'price' for co-operation with the West, he said: "The next few days will be vital for us. They will tell whether the Western Powers are prepared to accept co-operation."

Mr. Salem also said that Egypt would accept the "Yarud" Canal, but as at present the Egyptian-Strait Canal is not yet completed, Egypt's future cooperation in the "Yarud" Canal will be implemented.

TT CONCESSION TO ASSIST COLONIES

Britain absolved on some obligations

STRICTER RULES TO CUT DOWN EXPORT SUBSIDIES

Britain has won the immediate right to bypass certain world tariff obligations to help her colonies. This was announced in a Communiqué Agreement on Tariffs and Trade.

The Communiqué stated that those rights, which previously had been inconsistent with the provisions of the industry or agriculture of the colonial territory to the market.

Special facilities for aiding under-developed countries—another concession which will help British colonies—announced in the Communiqué. The rules are to be imposed to encourage export subsidies and the export disposal of farm produce on new or increased export products for non-primary Member countries will be exempted from the provisions of the Communiqué.

Member countries will be exempted from the provisions of the Communiqué for any primary products which they export to the United Kingdom.

Under the provisions for special facilities for aiding under-developed countries, Member countries will be able to export to the United Kingdom certain primary products which they export to the United Kingdom.

Do your tyres ring true?

Only the expert can tell. But one of the first things which happens to your tyre when you take it in for a White Line retread is that it is stretched on a special expanding press and then pumped in much the same way as glass to detect faults in the fabric.

With the White Line process every precaution is taken to safeguard the retread. The illustration below shows a heavy stitching process applying the "callback" rubber which forms the base of the retread.

The effective in this machine that no air can possibly remain trapped between the top of the tyre and the new tread. Likewise, on the left you see illustrated another improvement in technique brought about by White Line with a hand brush, which took 1-2 hours of tiring according to the humidity of the atmosphere. Even so, wet patches sometimes remained where deep punctures had occurred. Today the tyre is mounted on revolving wheels. As the tyre revolves on the wheels the solution is sprayed on and dries in 5 MINUTES.

No danger, no wet separation caused by wet patches of vulcanising compound. Do remember, White Line means safety.
