

CAMPAIGN AGAINST NIKUYU FEARS

Central Province teams tour the farms

THREE teams of local Nikuyu farmers are starting their anti-growth propaganda to dissuade the Government from the "policy of terror" and other such "policy of fear" against the Nikuyu.

One of the teams, led by Mr. Donald O'Connell, District Commissioner, Central Province, and his assistants, are touring the farms of the Central Province and are trying to convince the Nikuyu that their best hope for the future lies in selling a better, more certain, production.

Mr. O'Connell stated that although "terroristic" methods have been resorted to in the past, the Government has no intention of repeating them. He stated that the Government is now trying to help the Nikuyu to produce more and to sell their produce at a better price. He stated that the Government is now trying to help the Nikuyu to produce more and to sell their produce at a better price.

Rail delays may cut sisal output

'REMOTE CONTROL' BLAMED

THAT sisal output will be cut by as much as 10 per cent because of delays on the Tanganyika Railway is the view of a group of sisal growers in the Tanganyika Territory.

The growers are blaming the delays on the "remote control" system of the railway. They state that the system is unreliable and that it causes frequent interruptions of service.

All steps taken. The Government is now trying to help the sisal growers by taking steps to improve the railway service.

The psychology of criminals and their punishment

One of the most interesting aspects of the psychology of criminals is the way in which they think. They often have a distorted view of the world and of the people around them. They often have a sense of entitlement and a belief that they are entitled to whatever they want. They often have a sense of superiority and a belief that they are better than the people around them. They often have a sense of power and a belief that they can do whatever they want.

Women's night orkled in the Caribbean

The women of the Caribbean are often the backbone of their communities. They are often the ones who take care of the children and the elderly. They are often the ones who run the businesses and the shops. They are often the ones who are the most hardworking and the most dedicated. They are often the ones who are the most loving and the most caring.

A SUCCESSFUL YEAR FOR THE A.S.P.

The African Students' Progress Association (A.S.P.) has had a very successful year. They have raised a lot of money for their projects and they have done a lot of good work. They have helped a lot of people and they have made a lot of progress. They have been very successful in their work and they have been very helpful to their community.

With the rains

The rains have been very heavy in the city and this has caused a lot of problems. The roads are very muddy and it is very difficult to get around. The water is very dirty and it is not safe to drink. The people are very angry and they are demanding that the government do something about it. The government has promised to do something but they have not done anything yet.

WRACs to live at home

The Women's Royal Air Force Corps (WRACs) are now allowed to live at home. This is a very good thing because it allows them to be closer to their families and to their homes. It also allows them to save money on their living expenses. This is a very good thing for them and for their families.

Head disappeared

A man's head was found in a field near a road. The man was identified as a local resident. The police are investigating the case and they are looking for the person who took the head. This is a very disturbing case and it is very sad that this happened.

More members

The A.S.P. has a lot of new members. This is a very good thing because it shows that the organization is growing and that it is becoming more popular. This is a very good thing for the organization and for the community.

THREE BOOKS ON ITALY

THE Italian Fascist movement has emerged for the first time in the history of the world as a political force of international dimensions. It is the only movement of this kind which has succeeded in capturing the imagination of a large section of the population of a great power. FRENCH PLAYS AT THE NATIONAL THEATRE

THE National Theatre has arranged for the presentation of a series of French plays. The first of these is 'L'Avare' by Moliere, which will be presented on the 15th inst. The play is a comedy in five acts, and is one of the most popular of Moliere's works. It is a story of a miserly old man who hoards his money and is eventually driven to madness by his greed. The play is a masterpiece of French comedy, and is one of the most popular of Moliere's works.

Contract Bridge Notes

The Informatory Double

Most players on the contract bridge table will have seen many a hand in which the declarer has been able to win the game by a double. This is a very important part of the game, and one which is often overlooked by the beginner. The double is a signal to the partner that the declarer has a strong hand, and is often used to indicate a specific suit or a specific card. It is a very important part of the game, and one which is often overlooked by the beginner.

Left wondering

It is a very interesting fact that the number of people who are left wondering about the results of the election is increasing. This is due to the fact that the results are still uncertain, and many people are still unsure of the outcome. This is a very interesting fact, and one which is often overlooked by the media. REHABILITATING THE KAMBA RESERVE

The Kamba Reserve, one of the largest and most fertile tracts of land in the Colony, has been the scene of a remarkable transformation in the past few years. The Government, recognizing the importance of this land for the future of the Colony, has undertaken a comprehensive program of rehabilitation, aimed at restoring the land to its original state of fertility and productivity.

The first step in this program was the reclamation of the land from its former state of neglect and abandonment. This involved the removal of stumps and other debris, and the leveling of the land. The second step was the planting of trees and other vegetation, which would help to restore the soil's fertility and prevent erosion. Finally, the land was divided into small plots, which were then sold to private individuals for agricultural purposes.

The results of this program have been truly remarkable. The land, which was once considered barren and unproductive, is now fertile and productive once again. The trees and other vegetation have helped to restore the soil's fertility, and the small plots have been successfully cultivated by private individuals. This has not only helped to restore the land to its original state, but has also provided a source of income for many of the people who live in the area.

The Government's program of rehabilitation of the Kamba Reserve is a shining example of what can be achieved through the application of modern agricultural techniques and the support of the Government. It is a testament to the power of human effort and the importance of responsible land management.

THE FIRST HUNDRED YEARS

The first hundred years of the Colony have been a period of remarkable growth and development. From a small settlement of a few hundred people, the Colony has grown into a thriving and prosperous nation. This has been made possible through the hard work and dedication of the people of the Colony, and the support of the Government.

The first hundred years have also been a period of significant challenges and setbacks. The Colony has faced numerous natural disasters, including droughts, floods, and earthquakes. It has also faced the challenges of war and economic depression. Despite these challenges, the Colony has always managed to overcome its difficulties and emerge stronger and more resilient than ever before.

The first hundred years have been a period of great achievement and progress. The Colony has made significant contributions to the world, and has established a reputation for its high standards of living and its commitment to justice and equality. The first hundred years have also been a period of great learning and growth. The Colony has learned many valuable lessons from its experiences, and has emerged as a more mature and responsible nation.

The first hundred years have been a period of great pride and accomplishment. The Colony has achieved many remarkable feats, and has established a legacy of greatness. The first hundred years have also been a period of great hope and optimism. The Colony has a bright future ahead of it, and is confident that it will continue to achieve great things in the years to come.

If dust is your problem . . .

install Newman totally enclosed motors

Two of the commonest causes of electric motor failures are due to dust, dirt and moisture getting into the internal spaces of the working parts, and to inadequate cooling.

Newman Motors are totally enclosed, all working parts and bearings being completely sealed, thus ensuring the exclusion of all dust, dirt and moisture. A centrifugal fan of high volumetric efficiency passes a steady flow of cooling air through the unobstructed passages of the motor frame, all vulnerable and working parts being completely sealed off from the air stream.

Write for quotations. Their low prices will surprise you.

Kapenguria road criticised again

COMPLAINT TO THE AUTHORITIES

OFFICIALS OF THE TRAVEL industry in Kenya are complaining that the road to Kapenguria is in a state of disrepair. They say the road is too narrow and has many potholes, making it difficult to travel.

The road is used by many tourists who visit Kapenguria to see the famous hot springs. The officials are asking the government to improve the road.

Water supply
The lack of a reliable water supply is also a problem for the area. The officials are asking for a new water supply system to be built.

Telephones
There are no telephones in Kapenguria, which makes it difficult for tourists to contact their hotels or other services.

Post-Emergency task for Europeans

WORKED BY LASIN GISHU MLC

Europeans in Kenya are faced with the task of reconstructing the country after the emergency has passed. The task is not an easy one, as the country has been left in a state of chaos and confusion. The Europeans must first of all restore order and peace to the country. They must also reconstruct the economy, which has been completely ruined. This will require a great deal of money and resources. The Europeans must also reconstruct the education system, which has been completely destroyed. This will require a great deal of time and effort. The task is a great one, but it is one that must be done. The Europeans have a duty to do this, and they must do it well.

Discipline

The Government has issued a new set of regulations for the European community in Kenya. These regulations are designed to bring order to the community and to ensure that the community is able to function properly. The regulations cover a wide range of matters, including the registration of businesses, the payment of taxes, and the observance of public order. The Government hopes that these regulations will be strictly followed, and that the community will be able to function smoothly.

Output plan for Kilimani

The Government has announced a plan to increase the output of the Kilimani district. The plan is based on the fact that the district has a large area of land that is currently unused. The Government wants to encourage the European community to cultivate this land and to produce more goods. This will help to improve the economy of the district and to provide more jobs for the people. The Government will provide the community with the necessary resources and support to carry out the plan.

Thirty months

The Government has announced that it will extend the emergency regulations for a period of thirty months. This is because the Government believes that the country is still in a state of emergency and that the emergency regulations are still necessary. The Government will continue to enforce the regulations until the country is able to function properly without them. This is a long time, but the Government believes it is necessary to ensure the stability of the country.

Converts for troops

The Government has announced that it will convert a number of troops from the British Army to the Indian Army. This is because the Government wants to reduce the number of British troops in Kenya and to increase the number of Indian troops. This will help to reduce the cost of the military and to provide more jobs for the Indian community.

TRESFOLK, CATTLE ENDANGERED

Stand barrier blocks river bed

The Tresfolk river in Kenya has become a major problem for the local community. The river has silted up and is now a major obstacle to the community. The Government has issued a notice to the community to stop using the river bed as a stand barrier. The Government wants the community to find another way to use the river bed, so that the river can flow freely and the community can be protected from flooding.

Critical

The situation in Kenya is becoming increasingly critical. The Government is facing a number of problems, including a shortage of money and a lack of resources. The Government is trying to solve these problems, but it is not making much progress. The situation is becoming more and more desperate, and the Government is beginning to lose the confidence of the people. The Government must do something to solve these problems, or the situation will become even more critical.

Condolences to the ROYAL FAMILY

The Government of Kenya has expressed its sincere condolences to the Royal Family on the death of King George VI. The Government is deeply shocked and saddened by the news of the King's death. The King was a great man and a great leader, and his death is a great loss to the world. The Government will continue to mourn the King's death for many months to come.

MARKET TO RISE
A

RECEIVED
A

NEW YORK, Jan. 10.—The stock market opened today with a general upward movement, and the Dow Jones industrial average rose 1.34 points to 117.46. The market was characterized by a steady advance in most of the leading issues, with a particular gain in the steel and automobile groups.

Among the gains were General Motors, which advanced 1/4 point to 11 1/2, and Ford, which rose 1/8 point to 10 1/8. The steel companies also showed strength, with Bethlehem Steel up 1/4 point to 11 1/4 and American Iron & Steel up 1/8 point to 10 1/8.

The market was supported by a strong volume of trading, and the advance was maintained throughout the day. The closing prices of the Dow Jones industrial average and the S&P 500 index were 117.46 and 117.46, respectively.

Other notable gains were seen in the utility and transportation sectors, with American Telephone & Telegraph up 1/8 point to 10 1/8 and the New York Central up 1/4 point to 11 1/4.

The market was closed with a strong bias to the upside, and the overall sentiment was optimistic. The volume of trading was heavy, and the market was well-served by the major brokerage firms.

The following table shows the closing prices of the Dow Jones industrial average and the S&P 500 index for the past week:

Index	Jan. 10	Jan. 9	Jan. 8	Jan. 7	Jan. 6	Jan. 5
Dow Jones Industrial Average	117.46	116.12	115.80	115.50	115.20	114.90
S&P 500 Index	117.46	116.12	115.80	115.50	115.20	114.90

John Cherry, who plays Carmen, is seen in a scene from the play. He is wearing a dark suit and a white shirt. The background is dark and out of focus.

Cherry and his wife are seen in a scene from the play. They are both smiling and looking at each other. The background is dark and out of focus.

Stiff necks

Will manufacturers must know every line of the plot and the progress of the play in the changing action of the whole production to see that the resulting action is a whole and well thought out in every detail. It is a great deal to ask of a man who has to be in the line of the play for the best of the time.

Test of strength

Any Professor William Patten, who is the producer of the play, is seen in a scene from the play. He is wearing a dark suit and a white shirt. The background is dark and out of focus.

It is, however, not when I say that the play is a test of strength, but when I say that the play is a test of strength. It is a great deal to ask of a man who has to be in the line of the play for the best of the time.

Like a ballet dancer

I think it will be admitted that Yvonne Bréville made a beautiful job of the situation, especially her lovely Carmen herself. And I can tell you that having watched her for the first time, every line of Carmen's face and every note of her voice had a perfect meaning to me. It was as if she had been born to play the part of a ballerina in Yvonne's role as the old baron.

There's much more of fascinating interest behind the scenes of this play, and I am sure that the play is a test of strength. It is a great deal to ask of a man who has to be in the line of the play for the best of the time.

Paying a compliment

I think the Carmen of the other night in Paris, it was magnificent. Probably, unprepared, I must say, to pay a compliment, I expect the program Carmen might do much.

WICKSHIRE GET-FIT PLAN

Tom Hobbly has a "special" ready

Tom Hobbly, a well-known sportsman, has announced a "special" ready-made plan for getting fit. The plan is designed for those who are unable to devote much time to regular exercise. It consists of a series of simple exercises which can be done in a few minutes each day. Hobbly, who is a former professional footballer, says that the plan is based on his own experience of staying fit during his playing days. He says that the exercises are simple enough for anyone to do, and that they will help to improve one's health and stamina. The plan is available in the form of a booklet, which can be obtained from Hobbly's publisher, Messrs. Hutchinson, for a small fee.

Rees finds new weight-reducer
The Sir John Lubbock Cup has been won by a new weight-reducer. The winner is a young man named Rees, who has managed to lose a significant amount of weight in a short period of time. Rees has achieved this feat by following a strict diet and exercise regimen. He has lost over 50 pounds in the last few months, and is now in excellent health. Rees's success has inspired many other people to take up the challenge of losing weight. He says that the key to success is to be consistent and to not give up. He says that he has found a new way of thinking about food and exercise, and that he is now able to enjoy a healthy and active life.

First day of heavy Easter programme

TESTING TIME FOR SOCCER

EASTER is one of the most important times for League football in England, probably the most crowded time of all. Inquiries at this stage of the season are, and often are, the difference between keeping the job or dropping or securing relegation. Rastrow strength and the White Team, including the White Team, are the most important teams in the competition. The first day of the Easter programme is a testing time for all the teams. The matches are played over a period of several days, and are a great opportunity for the teams to show their true strength. The results of the matches will determine the final standings in the competition.

Meeting twice
The meeting between the two teams was held twice. The first meeting was held on the first day of the Easter programme, and the second meeting was held on the second day. The first meeting was a close contest, with both teams showing their true strength. The second meeting was a more decisive one, with one team emerging as the winner. The results of the meetings will determine the final standings in the competition.

Stotik Hunt's poor season
The Stotik Hunt has had a poor season. The hunt has been unable to find many hares, and has therefore been unable to hold many hunts. The huntmaster, Mr. Stotik, says that the reason for the poor season is the weather. He says that the weather has been too dry, and that the hares have therefore been unable to find much food. He says that he is hoping for a better season next year, and that he will be taking steps to improve the hunt.

FISH FOR UGANDA

Story by Alastair Matheson
Photographs: John Lochinsky

MR. FRED HARBIN, Manager of the Project.

OREATING a modern fish farming plant in the heart of a vast lake in the East African country of Uganda, which provides nearly 80 per cent of the fish eaten in that country, is one of the most important projects in the country's development plan.

The project was brought to maturity because of a shortage of fish in the country. The Government has set up a fish farming department which will be in charge of the project. The first stage of the project is to build a fish farm on the lake. The Government has set up a fish farming department which will be in charge of the project.

WHILE the fish farming project in Uganda is still in its early stages, it has already attracted the attention of the public. The project is one of the most important projects in the country's development plan. The Government has set up a fish farming department which will be in charge of the project.

50 PROGRESSIVE YEARS OF SERVICE TO HALF A CONTINENT

"Determination to work, supported by a consuming desire to advance one's material interests, will, with persistence, lead to a level of competence and independence, if not to wealth... the driving force in all business is the keen desire to make money. It makes the wheels go round."

Congratulations from the PRIME MINISTER OF SOUTH AFRICA

J. G. van der Westhuizen—Please convey my hearty congratulations upon the attainment of your Organisation's fiftieth anniversary. I am proud to say that the progress made during this period has indeed been most remarkable. May your future be bright and may your aims ever be to advance and to prosper.

Organisation's Nerve Centre

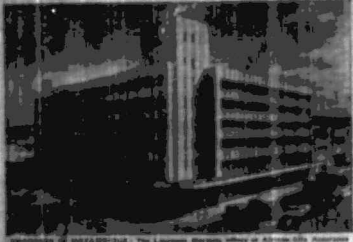

Of the numerous centres of business activity in the world, the most important is the one which is known as the "Nerve Centre" of the world. This is the place where the great business decisions are made, where the great business deals are struck, where the great business opportunities are seized. It is the place where the great business leaders of the world meet and where the great business plans are formulated. It is the place where the great business success is achieved.

According to the last issue of the "Nerve Centre" magazine, the total value of the world's business is estimated at \$1,000,000,000,000.00. This is a staggering figure, and it is a figure that is constantly increasing. It is a figure that is the result of the great business activity of the world, and it is a figure that is the result of the great business success of the world.
