# MORE POWER FOR GOVERNOR URGED

## Machine to beat Mau Mau will lack punch

### SAYS MR. BLUNDELL

Some of the largest audiences to attend a meeting in Nairobi for many years, Mr. Blundell, leader of the European Members of the Legislative Council, declared in the course of his speech that the Government did not call for a more serious state of rebellion than Mau Mau suspects it is being by wiles rather than by force, and that people had to be kept together, how many thousands of Mau Mau members were to be arrested and how many thousands were to be shot.

Mr. Blundell said that the Government should be more realistic in its approach to the Mau Mau problem. He said that the Government should be more realistic in its approach to the Mau Mau problem. He said that the Government should be more realistic in its approach to the Mau Mau problem.

# SIR EDWARD WARNS OF TWO ERRORS

## Speech to Mission group

The Governor of Tanganyika, Sir Edward Twining, has warned the annual rally of the Central African Mission in London, that there were two errors one must never make with the Mau Mau.

Sir Edward said there was a danger because it undermined his moral fibre. The African was not to be treated as a child, but as a man.

Prime's conviction  
D. G. Fraser, Minister of the Interior, said that the Government was not to be treated as a child, but as a man.

Uasin Gishu road plans  
The Uasin Gishu District Council has approved a plan to build a road from Uasin Gishu to the coast.

He leaves 'Voice of America'

# How the Coronation story will be told to the world

**THE QUEEN ON CORONATION**  
From Day will be the centenary of the Queen's great news event. For just over five hours from this moment she appears for her drive to the Abbey till late last night on the balcony, all Buckingham Palace, those minutes will belong to the millions. It will be an unforgettable moment in history, not likely to come again for many years.

It is right then that the most will be made of this historic occasion. The BBC Corporation has a magnificent opportunity. For, whatever they do, they are speaking people will want to have a part in it - by seeing, hearing or reading.

The take on a Sunday is clear for those who will bring a message of Queen as the second best broadcast of the year.

### Torrent of words

It will be done on a scale never attempted. On the screen before the eyes of millions of viewers, writers and editors will be writing a history of the world in the form of a continuous stream of words. It will be a torrent of words, written and spoken, that will be heard by millions of people. It will be a history of the world in the form of a continuous stream of words. It will be a torrent of words, written and spoken, that will be heard by millions of people.

### Week-long rush

On the street, they will be responsible for controlling scores of thousands of people. It will be a week-long rush of people, a week-long rush of people, a week-long rush of people.

### B.B.C.'s task

It will be a task of the greatest magnitude. It will be a task of the greatest magnitude. It will be a task of the greatest magnitude. It will be a task of the greatest magnitude. It will be a task of the greatest magnitude. It will be a task of the greatest magnitude.

### Small, highly-trained team

A small, highly-trained team will be responsible for controlling scores of thousands of people. It will be a small, highly-trained team. It will be a small, highly-trained team.

And simultaneously, the BBC Corporation will be responsible for controlling scores of thousands of people. It will be a week-long rush of people, a week-long rush of people, a week-long rush of people.

### Across the Atlantic

American radio sets will relay these scenes across the Atlantic. It will be a week-long rush of people, a week-long rush of people, a week-long rush of people.

### Plan too costly

As the crowned Queen and her entourage come from the great balcony, they will take up the picture and carry it through all their moments for the last time from the balcony of the Abbey.

### Dignity precautions

Elaborate precautions will be taken to ensure the dignity of the Coronation. It will be a week-long rush of people, a week-long rush of people, a week-long rush of people.

### Masterpiece

But the three "tapes" will not take the form of a film. It will be a masterpiece of television, a masterpiece of television, a masterpiece of television.

placed. Selected writers of the most important papers and articles will have space in the Abbey. The radio force will be spread along the programme route. For those outside their reports overseas immediately the Post Office is providing direct lines to London's central offices where a number of typists operators will send the news to the continent.

The news will be followed almost immediately by radio pictures of the drive through the crowded Gospels to reach the balcony outside the Abbey.

The film, comprehensive and vivid, will give the world the most complete record of the day. Newsreels for the week will be distributed as quickly as the make and behind the scenes of the Coronation.

A full-length colour film is to be made and six British companies working with a new colour system have been asked to produce an hour-long colour film.

In the last 10 years the Railways have handled a traffic increase of over 100%. A vital contribution to this tremendous expansion has been made by powerful new types of articulated locomotive, specially designed to haul longer trains and heavier loads on light rails.

Latest of these Beyer Garratt locomotives is the '56' class, the most advanced of their type in the world.

Six of these fine locomotives are already in service and 29 more are on order, together with 34 of the new and even more powerful '59' Class now being developed. But they are only part of 225 million worth of railway equipment still to be delivered, including 146 mainline and 27 shunting locomotives, and 5368 units of rolling stock.

The edge of high pressure which has prevailed over Tanganyika and southern Kenya during the past week is likely to break down early in the period, but may be re-established by the end of the period. This will result in rather capricious conditions over Kenya with occasional showers in the Highlands. Showers will only be very scattered in the East of Rift Area. On the Coast of Kenya there will be long fair periods with occasional showers.

The air will be little changed in the general conditions over Tanganyika where showers will occur mainly on the east coast with occasional showers in the Highlands. In Uganda showers will be more or less continuous in the West with some rain in the East and North-West. In the Lake Chad region there will be showers in the Highlands with some rain in the West and North-West. In the East African Region there will be showers in the Highlands with some rain in the West and North-West.

**AN APPRECIATION Miss P. M. Loughery**

To all those who know that I have been very grateful to have had a great school to base of her school in Nairobi last week. She was the light-hearted, kind, friendly, and always cheerful and helpful person who has been a great help to me in my studies and in my work. I am sure that she will be greatly missed by all who know her.

**Every phase of industry**

In almost every phase of industry, in a thousand and one products in daily use throughout the country, N.C.P. solvent play an essential part. Concrete and metal, paint and lacquer and artificial products are produced more effectively and more efficiently with the aid of n.c.p.

Modern organic chemistry is constantly developing new products and extending the use of existing ones. Great value is derived from this work. Their skill and experience can be of great value and are freely at your disposal.

# This Week JOHN CHERRY Brings You The Story Of Some VERY IMPORTANT PEOPLE

THIS is a story of very important people and a few days ago when you look at the pictures, you don't need to tell a reader to guess at the writing. Robert and the many famous people at Elizabeth Hospital in Boston.

Since this modern, complete hospital opened at the end of 1928, it has been the scene of some of the most important events in Boston's history. In 1928 there were 100 patients and in 1931 there were 1,000. In 1932 there were 1,500. There have been 10,000 patients since it opened.

One of the nightmares of hospital life is the patient who is not cured. The patient who is not cured is the patient who is not cured. The patient who is not cured is the patient who is not cured.

And how is such a hospital to be run? The patient who is not cured is the patient who is not cured. The patient who is not cured is the patient who is not cured.

and correspondence to the hospital. It is a challenge to the patient who is not cured. The patient who is not cured is the patient who is not cured.

and many of the patients who are not cured. The patient who is not cured is the patient who is not cured. The patient who is not cured is the patient who is not cured.

# The Things They See

THE Coronation processions are in full swing—your routine is when you see hordes of men carrying shields from overseas, ceremonial dancing, their shoulders, staring up, their feet, particularly at London's movements.

Strangers constantly stare at you in full view—your routine is when you see hordes of men carrying shields from overseas, ceremonial dancing, their shoulders, staring up, their feet, particularly at London's movements.

# Uganda editor denies intent to promote ill-will

## SEDITION, SAYS PROSECUTION

A article headed "Mr. Thacker was not in the last 'case'?" was the subject of charges of publishing and printing a seditious document against Joseph William Kuvumba, Editor of the Uganda Post newspaper printed in Kampala, when he appeared before Messrs District Magistrate M. J. Sedberry, Jones, at Kampala. After the hearing, the Magistrate stated he would give his judgment on the case next week.

Mr. M. J. Sedberry, Crown Counsel, appeared for the prosecution, and Mr. P. J. Williams, Kampala, for the accused. When asked by the sedition-aided prosecution, the Editor denied the seditious intention of writing, printing or publishing the Government of Kenya and its administration of justice. The article, it was alleged, contained a reference to the article and to the seditious intention of the Government of Kenya and its administration of justice.

**Innuendo alleged**  
There was an innuendo, it was claimed, that the Government of Kenya was a "Government of Kenya" and that the Government of Kenya was a "Government of Kenya" and that the Government of Kenya was a "Government of Kenya".

**For comment**  
Asked if it had been his intent to write the article or to publish it, the Editor replied: "I did not intend to write the article or to publish it. I was only writing for the public interest."

**Very mistaken**  
"We are sorry that we do not see from the article that the Editor intended to write the article or to publish it. We are very mistaken in our interpretation of the article."

**For short time**  
"I am sorry that we do not see from the article that the Editor intended to write the article or to publish it. I am very mistaken in our interpretation of the article."

# THE CORONATION SERVICE

That must be a  
**AUTOMOBILE**

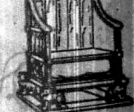

**THE** surgical ritual to be followed at the Coronation is exceedingly complete. After the preliminary and economically solemn Oath in which much of our history is enshrined, the service contains three main elements:—  
The first is the exhortation with the words of the service from the Book of Numbers (the Coronation is a sacred rite) and the second is the reading of the Gospels in the Latin language, with the usual Latin of the Mass. The third is the reading of the Coronation Oath, which is the actual Coronation and the mounting of the Crown. The third stage is the making of homage to the Queen by the orders of the peerage, and her declaration in answer to their homage.

We shall return to details of the service in our next issue, from the moment when the Queen, supported by her lieg-

hood, makes the first oath of the Coronation, and the Queen, supported by her liegemen, makes the second oath. The Queen will then be crowned with the Crown of St. Edward, and the Archbishop will place the mitre on her head. The Queen will then be crowned with the Crown of St. Edward, and the Archbishop will place the mitre on her head.

The Archbishop then, speaking in the name of the Queen, pronounces the Oath of Fealty to the Queen, and the Queen, supported by her liegemen, pronounces the Oath of Allegiance to the King. # THE TRUE STORY OF THE QUEEN

By Robert Temple

AS the great golden night, millions waiting at the feet of a television set may think of the life of our young Queen. They may look back on the days that they have watched develop on Crowded on this day. They may remember that their Queen was born in a London town-house not half-a-mile from the royal residence, very early on a fine spring morning in 1926.

The house was at 17 Bruton Street, and was the only dwelling of home in London of the Earl of Fitzwilliam (the Queen's grandfather). The Duke and Duchess of York, however, took into a nursery in the second floor of 15, Grosvenor Street, though many believe Queen Elizabeth was actually born there. Queen Elizabeth was born at 15, Grosvenor Street, not 17 Bruton Street, as is commonly believed. A great host of modern writers, however, believe that although the Duke and Duchess of York were in London at the time, she was born at 15, Grosvenor Street. It is strange to think that these great writers, who are so sure of their own facts, should be so sure of their own facts.

# The Life Story Of The Duke Of Edinburgh

BY BRETT OLIVER

**L**IFE in the rugged little ports along the coast of Scotland's Murray Firth does not change much through the years. The fishing boats cough about the harbours when the season is on, and through the hard winter, in the sheltered bays and inlets.

In the summer, they folk come down to the sea and gaze at the rocky coastline and go walking along the stretches of mud under the northern sun.

It is a pleasant life and it has been like that for very long.

From time to time, one or other of the general weather beats and fishermen are coast along, and their eyes are always on the take their fish, and the sea is up there and time to the sea to become, in time, as early as their harbours.

Now have sought a more arduous career in the sea-owning vessels.

## School days

"THERE was one man who I spent his school days in the parts of the north of Scotland. He was at Gordon School where the boys were encouraged to take their own boats, and often in the harbours.

A sturdy fisherman there after, he used to take for me a number of respectable characters who were in the sea-owning vessels. He was a good fisherman and he had a boat on the sea and often in the harbours.

not, once way past seemed to me, as if he had not been in the sea-owning vessels. He was a good fisherman and he had a boat on the sea and often in the harbours.

His next life was not easy a foreign breeze but the Navy was not for him. He was a good fisherman and he had a boat on the sea and often in the harbours.

# The Monarchy And The British Constitution

The United Kingdom of Great Britain and Northern Ireland, the Queen's Dominions beyond the seas, the Federation of Canada, the Union of South Africa and the Commonwealth of Australia, the Dominion of New Zealand, the Commonwealth of the Bahamas and Ceylon are drawn together in a single system of justice, equity, government and order that stems directly from the Head of the monarchy.

The Queen is the sole source of law throughout these lands. Between the extraordinary dignity of the whole constitution and the Queen's duty to be administered according to the laws of the United Kingdom by the Queen's Ministers, there are nearly 800 years. There are 100 million people in the world that acknowledge the Queen and follow in their paths the forms and usages handed down from the Middle Ages to the present day of Great Britain, and from Westminster to all the world. The Constitution of Elizabeth II is being written in one of the greatest, longest lived and indeed, most important institutions in the history of mankind.

# Three-territory, tough itinerary

The plan was made to make the Safari as equal as possible in distance from all three centres. It is the fact that there is a 20 m.p.h. speed limit in Uganda and that Mombasa is 100 miles to the north of the main route that we therefore arranged that starting times were staggered to allow for these contingencies.

At the starting and finishing points there were 2000 yards of tarmac and the 20 m.p.h. limit had to be observed in some places.

The routes were:-

**NAIROBI:** via Nairobi, Gilgil, Nakuru, Mau Summit, Kericho, Eldoret, Gaborone, Harare, Johannesburg, Tlopieni, back to Nairobi by way of Timbavati, Mau Summit, Kericho, Eldoret, Gaborone, Harare, Johannesburg, Tlopieni (Arusha by-passes), Bahari, Dodoma, Morogoro, Tlopieni by way of Kilonga and Handeni to those Korogwe via Kilwani, Holesa and Voi, from Voi the route comes through Mbita to Kisumu and Achu River to the finish at the Coast to Nairobi.

**KAMPALA:** by way of Ligonjo, Tanga, Dunda, Mwanza, Kigoma, Kibwezi, here the Nairobi route is followed thereafter to the finish.

**MOROGORO:** via Dokawa and Handeni to KOROGWE, then to LANGA, then by way of Korogwe, Mwanza and Holesa to ARUSHA. Control point (Kilwani) where the Nairobi and Kampala routes were joined and the same route is followed thereafter to Bahari, Dodoma, Harare, Kilwa, Korogwe, Tlopieni, Voi and Kilwani, to the finish at the Coast to Nairobi.

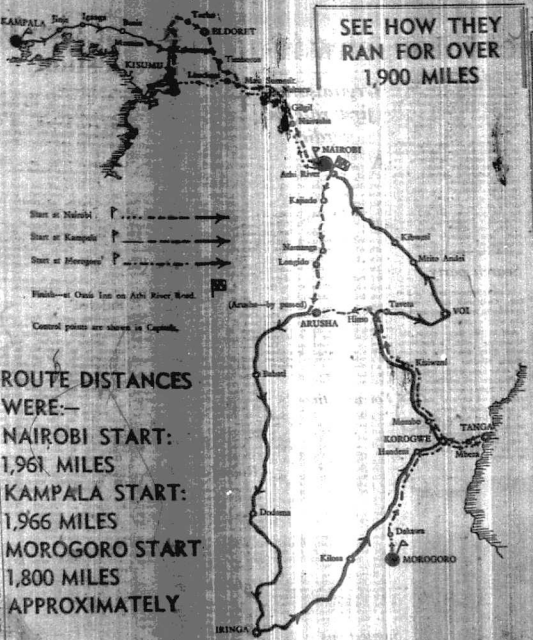

At the unprecedented rate of this season the 10000 miles were driven in 100 days, 10000 miles in 100 days, 10000 miles in 100 days, 10000 miles in 100 days.

At many points of this route spectators were at all times. But it had its hazards—especially in the "Korogwe" section, and look in after pictures. When sent, one driver went on and a few hundred yards saw a prowling lion.

**APPROXIMATELY**

Notable along the route, where stoppages were many, was the way competitors helped one another and the excellent service at controls. All was good and helpful, certain ones deserve special mention. These at Kilwani and Eldoret in particular where the two big motor firms, Motor Mart and Hughes Ltd., did everything to help. From Eldoret, Alfred Fild drove out and back to make sure way in the early hours to bring in the occupants of the Jaguar, Mark V, which had hit a bank and overturned.

At both the Iringa and Arusha controls fuel, oil and other items were ready and provided without the slightest loss of time. Hot drinks, cigarettes and food were provided on the drivers and car crews and much-needed and long-lasting washes were provided with soap and towels for each. It was a remarkable demonstration of that good fellowship for which the territories are famed.

## The Coronation SAFARI

**RELY ON RENAULT**

—IT WILL GET YOU THERE

Our hots off to two real terraces, and to a real car! A Renault Baby 750 c.c. Sedan, brilliantly piloted by Mr. P. A. Russell and Mr. C. Patton, completed the gruelling 1975 miles of the Coronation Safari in 68 hours, 7 minutes, without any outside assistance whatever. No speed record, but an amazing triumph of skill, tenacity and engineering achievement. This Volkswagen car, which has served these two drivers so well throughout this testing course, will SERVE YOU TOO!

**RELY ON RENAULT! It will get you Home!**  
 Fuel consumption, in spite of hard miles in low gear and fast driving in top, averaged 40 mpg over the entire course. Actual running time was 61 hours, 35 minutes, an average of 32.1 m.p.h.

# THERE'S A 'VIEW' FROM EVERY WINDOW

The rock of the library is the family room, a large, airy and comfortable space, with a view from every window. The room is a splendid example of the architect's skill in creating a harmonious and functional living space. The furniture is simple and elegant, and the lighting is soft and warm. The view from the window is a beautiful sight, and it is a pleasure to sit in the room and enjoy it.

## The lounge

On the other side of the hall is the lounge, divided into two by sliding doors, and an archway. A wide, covered in light-colored, colored, elegant, and a matching standard lamp, the room is a perfect example of the architect's skill in creating a harmonious and functional living space. The furniture is simple and elegant, and the lighting is soft and warm. The view from the window is a beautiful sight, and it is a pleasure to sit in the room and enjoy it.

### Allin' blue

Despite the fact that blue is a color which is often considered to be a "cool" color, it is a color which is often used in interior design. The reason for this is that blue is a color which is often associated with the sky and the sea, and it is a color which is often used to create a sense of calm and tranquility. In this room, the blue is used in a variety of ways, from the walls to the furniture, and it is a color which is used to create a sense of harmony and balance.

### Complete suite

The ground bedroom has been furnished in a complete suite, and it is a room which is a perfect example of the architect's skill in creating a harmonious and functional living space. The furniture is simple and elegant, and the lighting is soft and warm. The view from the window is a beautiful sight, and it is a pleasure to sit in the room and enjoy it.

## June Brings An Anniversary For City Father

A MAN who has seen a continuous service with the City Council and who is also the City's senior alderman this month celebrates 25 years of urban public service to the Colony when he has made his home here in 1927. He is George A. Tyson, C.M.G., F.R.I.C.S., who was decorated by the Queen in the Birthday Honors of 1952.

Mr. Tyson's record of public service is a wide one. First elected to the City Council in 1927, he was re-elected Central Ward in June, 1928. He was Mayor of Nairobi in 1947, President of the Nairobi Chamber of Commerce in 1947 and 1951, and Chairman of the Committee of East African Cities in 1949.

## Travels around

A member of the Harbours Committee for many years, he joined the Transport Advisory Council in 1947 and was a member of the Harbours Committee for 15 years. Mr. Tyson is also on the Board of Commerce.

**THROUGH MY HAT** by Kenneth Meadows

You know how it is when your concubine pines for you to write your bi-annual narrative to the club at home. Life on the big wharf always busy, always doing something, parties, jolly exciting evenings on patrol with the Home Guard, and sundowners of life. But when you get to your inspiration diary up with the ink. The old notes just won't function. You resort to the weather, how Aunt Anselia has got rid of her teeth, the weather, how Aunt Anselia has got rid of her teeth, the weather, how Aunt Anselia has got rid of her teeth.

## No. 54 HARVESTER THRESHER

Look at these performance-proved advantages:

1. Push-button design. All work covered the full width of the machine. The 4-bee rear-type collector is 64 inches long and 14 inches in diameter.
2. Straight-through separation. The crop flows unobstructed in a straight line through the machine. There are no turns or bottlenecks to cause clogging.
3. Balanced flow. All parts of the No. 54 are matched in capacity and performance. You get no bunching or over-crowding of the crop.
4. Positive separation. The No. 54 gives just as much separate capacity as many combines of larger size, with double cleaning of the seed under a convertible air bar.

**Where we lead —prosperity follows**

The pioneer work of the Railways goes on. From Kampala westwards to Kasese in the Ruwenzori Mountains a 210-mile extension is opening up new territory.

Between Mombasa and Tororo, along the busy Kisumu branch, throughout the Tanganyika system, and wherever traffic is particularly heavy, hundreds of miles of existing lines are being strengthened to carry more powerful locomotives and heavier trains.

£25 million worth of equipment still to be delivered includes 146 main line and 37 shunting engines and 5368 units of rolling stock.

All this to one end—the continued development of the Railways and Harbours in the service of East African progress.

**THE CAPTIVE KOREAN**

walked away, and some time later I do not know how he got to the camp and told me if he identified me he would let me go. I was surprised, but I went below the ground level and saw the next day that they had indeed indicated that I was a spy. I was then put in a cell with two other prisoners who were to be executed. I was told that I had been identified as a spy.

The death-penalty cell climbing. Two prisoners of neutral countries, Matt and Wilson, and Father Casanova, a citizen of the United States, died or were father, though not always through. The treatment was brutal. The prisoners were given food for one day, then they were given one day's food for one day's food. I am sorry it is true—there were 124 who were killed in the camp of another man's life. There were those who worked in the kitchen and stole their food. There were those who were stripped their clothes, their possessions, their money, their food, their life, their life. There were those who were killed in the camp of another man's life. There were those who worked in the kitchen and stole their food. There were those who were stripped their clothes, their possessions, their money, their food, their life, their life.

**The enemies**

Berlin and lack of news were great enemies. I was anxious about my family, and we were afraid that Korea might become a kind of neutral zone. They came to me of the peace talks and negotiable topics. The French managed to sell a piece of property to Madame Maréchal, the wife of the French ambassador. The French managed to sell a piece of property to Madame Maréchal, the wife of the French ambassador. The French managed to sell a piece of property to Madame Maréchal, the wife of the French ambassador.

**Good treatment**

I kept me for five days. I was kept in a cell with other prisoners. I was kept in a cell with other prisoners. I was kept in a cell with other prisoners. I was kept in a cell with other prisoners. I was kept in a cell with other prisoners.

**To the frontier**

On April 9, 1953, we were told that we were being moved. That night we drove to the frontier. We had good days. The Mampo-Pyeongdong Road is the Chinese frontier. We had the bridge over the road. We had the bridge over the road. We had the bridge over the road.

**Young Americans**

"You see, they belong to the generation that was spent in the United States. They were given a two-dollar bill for their money. They were given a two-dollar bill for their money. **Where we lead —prosperity follows**

The history of East Africa began with the building of the railways. Where the lines cleared the way, prosperity followed. Today the Railways and Harbours are playing their part in one of the most dramatic economic expansions in Commonwealth history. We are doing to ourselves and undertaking many new and important developments.

# TRANSLATING THE BIBLE INTO KIKUYU

This article was written by MRS. L. M. BEECHER, wife of the Bishop of Mombasa, and one of the chief translators of the Kikuyu Old Testament.

In Kenya the work of the Bible Society has been going on for far longer than in any other African continent. The original impetus was given in 1847 by the Rev. James Rees, who was not only a pioneer in the field of Bible translation but also a pioneer in the field of education. He was the first to introduce the use of the printing press in Kenya and to establish the first school for the training of African teachers.

It was not until 1912 that the work of the Bible Society in Kenya was taken over by the Rev. James Rees, who was then the Bishop of Mombasa. He was the first to introduce the use of the printing press in Kenya and to establish the first school for the training of African teachers.

At present the Kikuyu Old Testament is being translated by the Rev. James Rees, who is assisted by a number of other workers. The work is being done in a systematic and thorough manner, and it is hoped that the Old Testament will be available to the Kikuyu people in their own language within a few years.

Long history. The history of the translation of the Bible into Kikuyu is a long one. It began in 1847 when the Rev. James Rees arrived in Kenya and set up the first school for the training of African teachers.
