

# ARUSHA FARMERS ASK MORE FOR MAIZE

## Case for receiving Kenya prices

**(Continued)**  
A CASE for farmers in the northern Province of Tanganyika to receive the same price for maize as potato-tubers in Kenya was stated at a public meeting at Victoria Cinema at Arusha by Mr. A. Korerwa, who presided. Mr. Korerwa based his argument on a series of extracts from the minutes of the Agricultural Committee's minutes which he declared showed that the Government had intended to farmers the intention of following prices fixed in Kenya.

Opening the meeting, the chairman recalled that through the years the Government had approved several seasons of farming in the northern Province, but it was necessary to ascertain a fair price to the growers of the crop of maize and wheat.

Comparisons  
It was the basis of the recommendation of the new prices for maize and wheat contained in "The Troop Report". The farmer in Kenya was now getting for his 1951 crop of maize a price of 25/- and for wheat 30/- and 25/- for the 1952 crop. In Tanganyika, the price for maize was 15/- and for wheat 20/- and 15/- for the 1952 crop. The difference of 10/- per bag for the year 1951 and 15/- for the year 1952.

The 1951 maize crop yielded 1.5 million tons and the Government announced a subsidy to the effect that the price of maize should be 15/- per bag. The Government had intended to pay the price of 25/- per bag for the 1951 crop and 30/- per bag for the 1952 crop. The Government had intended to pay the price of 25/- per bag for the 1951 crop and 30/- per bag for the 1952 crop.

**Economic return**  
The Chairman stated that other crops had to be raised in the northern Province. In this connection he read a report from the Ministry of Agriculture and Fisheries for 1951 and 1952.

have always thought of Christmas time, when it has come round as a good time, a kind, long-remembered, pleasant time, the only time I know of in the long calendar of the year when men and women seem by one consent to open their shut-up hearts freely, and to think of people below them as if they really were fellow-travellers to the grave, and not another race of creatures bound on other journeys.

# SERVICES TO KENYA PIG INDUSTRY

## Presentation to Mr P. G. Thorne

AFTER the annual conference of the pig industry in Nakuru, a small party was held at the Stag's Head Hotel for the purpose of making an investment of a silver salver to Mr. P. G. Thorne for his many years service on the Pig Industry Board and on the Board of Directors of Uplands Bacon Factory.

The Bavelly Challenge Cup and two cups awarded by the Royal Agricultural Society of Kenya, the Milton Challenge Cup and the Pig Industry Board Cup were presented to Thorne.

The opportunity was also taken to give the Chairman of the Board, Mr. J. H. Thorne, a letter of appreciation from the pig industry. Mr. Thorne has been Chairman of the Board since 1948 and has done much to improve the pig industry in Kenya.

Mr. Thorne presented the silver salver to Mr. P. G. Thorne. The salver was inscribed with the names of the pig industry members who presented it to him.

Mr. P. G. Thorne, chairman of the Pig Industry Board, is a short stout man with a friendly smile. He has been in the pig industry for many years and has done much to improve it.

Mr. Thorne thanked the pig industry for the gift and advised that he would be glad to see the members of the industry at the next annual conference. He also wished the industry continued prosperity.

**Wine—and how to treat it—in support of Christmas menu**

MANY young couples, now preparing to entertain in style this Christmas, will be wondering just what wines they should choose to support the menu. These wines should be stored decanted and served.

Assuming that it is not intended to entertain more than half a dozen guests, it is better to buy more than half a dozen bottles of wine than to buy one or two. A good start can be an 1875 Chateau Lafite, an 1875 Chateau Margaux, or an 1875 Chateau Latour. These should be stored decanted and served.

# DRAINPIPE TROUSERS ARE THE NEW FASHION WINNER

WEARING drain-pipe trousers is a new fashion that is sweeping London. The Miss with a drain-pipe figure is a bit of a mis-nominee, for the latest tapering pencil-leg trousers.

They are more worn for the day than for the evening. Women are wearing them for the first time. Both winter and warm weather wear.

For fabric simulating fancy patterned goods. One trick is to make them in all-day length. The trousers are made of light grey material. Another popular trend is for rich royal materials with light blue or pink printed with various patterns. The most popular one for men is a pattern of blue and white stripes. Men are wearing them for the first time. Both winter and warm weather wear.

It is clearly seen that, for the first time, the trousers are made of a new material called 'drain-pipe'. This is a new material which is made of a new material called 'drain-pipe'. This is a new material which is made of a new material called 'drain-pipe'.

# Do People Still Feel Homesick?

I WONDER if the amazing swiftness in modern communications will wipe out that old-fashioned malady, home sickness? I don't know whether I imagine it, but I never seem to find any one who is homesick. I don't know whether I imagine it, but I never seem to find any one who is homesick.

Thinking, perhaps, of that popular song, 'I'm dreaming of a white Christmas', and of the fact that it is at this time of year in particular that people think of the Old Country, MURIEL PARDOE has picked on a topical subject for her article.

will arrive next day - if you can meet it at the station. When you continually meet them, you continually meet them. You continually meet them. You continually meet them.

## Less Fun

IT IS less fun in Africa than in England, because of the lack of exciting games-making, blackberrying, gathering nuts to creep the boys and because there is no cricket.

# Children Conquer Meru

As far as the children are concerned, the most spectacular event of the third term at Arusha was the Meru Expedition. The first day of the expedition was the beginning of the term with the organization of a "Bunkers' Hobby" members of which go out walking every week and visit most of the small hills which surround the Arusha plateau.

The expedition takes place at the end of the term after the first term has been over and when the weather is most favourable before leaving school. As far as the children are concerned, however, it is the short but exciting trip to the Meru forest which is prepared for a writing lesson. The children are taken to the forest by a road to the Meru forest which is the children's "hobby".

This year was to be the best of all from the weather angle. There was no trouble on the road to Kilimanjaro, and it was not raining, kindly in the afternoon. The children were well equipped with their gear. Here they had their first experience of a long walk before leaving school.

The children were in the morning was spent in preparation for the trip. The children were not for the forest in the pickup. It was a light rain but it was better than walking for this year as the road was not so muddy as the road to the Meru forest was a half mile away.

## No big game

Disappointed by the gun and the two game birds which were shot, the children were disappointed that no game was seen. In the last of the previous year, no game was seen. In the last of the previous year, no game was seen. In the last of the previous year, no game was seen.

The start of the party was on the 10th of the month. The children were taken to the forest by a road to the Meru forest which is the children's "hobby".

## MR CHURCHILL TO TEST US OPINION

### Malaya terrorists kill ten in ambush

**TERRORISTS** in Malaya killed ten persons when they ambushed an armoured state car on the Sungai Terengganu in Johore. There were about 30 men in the terrorist party.

The attack on the Malay state car was the latest in a series of such attacks. An armoured state car was ambushed on the road between Kuala Lumpur and Ipoh on the 26th. The car was carrying the Prime Minister, Mr. Churchill, and his wife. The car was damaged and the Prime Minister was injured. The terrorists fled in several armoured cars.

### Surprise decision to visit New York

THE informal talks which Mr. Churchill is to have with Mr. Eisenhower and Mr. Truman in New York and Washington early next month are likely to form a test of American opinion on the many topics which are accumulating for settlement between Britain and the new United States Administration.

Mr. Churchill's announcement of his intention to visit the United States in January, came as a surprise in political circles, but it has been warmly welcomed on both sides of the Atlantic.

It is understood that the visit was arranged after Mr. Churchill had decided to spend a winter holiday in Jamaica. The announcement was made in a speech in the House of Commons on the 26th.

Mr. Churchill's visit to the United States will be for two weeks. He will arrive in New York on the 10th of January. He will then spend time in Washington and New York. He will then return to Jamaica.

### Five problems

Before Mr. Eisenhower's installation as President on January 20, there is to be a period of six weeks of special administration by the United States Government. The problems which will be dealt with during this period are:

1. The transfer of power from the outgoing administration to the incoming administration.
2. The continuation of the foreign policy of the outgoing administration.
3. The continuation of the domestic policy of the outgoing administration.
4. The continuation of the military and naval operations of the outgoing administration.
5. The continuation of the diplomatic relations of the outgoing administration.

### Free trade

Mr. Alan Pincher, Minister of Commerce, is making the case for free trade in a speech in the House of Commons on the 26th.

Mr. Pincher said that free trade is essential for the economic growth of the world. He said that free trade is essential for the economic growth of the world. He said that free trade is essential for the economic growth of the world.

## Talks were foreshadowed in message to new President

In Parliament on December 11 the Prime Minister was asked if he would take early opportunity of establishing contact with Mr. Eisenhower. The questioner said he was anxious that Britain should be kept informed of any decisions or proposed future changes of policy resulting from the President-Elect's visit to Korea.

Mr. Churchill replied that he would take early opportunity of establishing contact with Mr. Eisenhower. He said that he would take early opportunity of establishing contact with Mr. Eisenhower.

## Israel municipalities face money crisis

ISRAEL today faces a complete money crisis. Municipalities are \$200,000 in debt. Money has no means to pay the wages of municipal employees. The closing of the country's economy has led to a 'total' money crisis. The Government has paid itself to meet 40 per cent of teachers' salaries and has paid just over ten per cent of that percentage to municipal employees. The Government has refused to pay the salaries of municipal employees introduced in February. High rates of unemployment are being experienced. 'Aldes' works have been set up to provide work for the unemployed. No roads have been repaired and work on new highways has stopped. The municipalities cannot get any credit from banks, as banks there are forbidden to lend under the regulatory ordinance which was introduced in February. High rates of unemployment are being experienced.

## Gwembe Valley coal investigation

STRENuous efforts were being made by the Northern Rhodesian Geology Survey Department to investigate the occurrence of coal in the Gwembe Valley, Southern Rhodesia.

The British Minister of Development has announced that the Government would fund the investigation of the coal fields in the Gwembe Valley.

## UN SUPPORTS 'RIGHT TO EXPLOIT' NATURAL RESOURCES'

THE United Nations Assembly has voted in recognition of each nation's right to exploit its own natural resources by raising fears of nationalization. The United States, New Zealand and South Africa voted against the resolution which recommended all member States to refrain from "acts of direct or indirect interference to impede the exercise of the sovereignty of any State over its natural resources."

The British Minister of Development has announced that the Government would fund the investigation of the coal fields in the Gwembe Valley.

## N RHODESIA TRADE STILL EXPANDING

THE substantial growth of Northern Rhodesia's exports continued during the first nine months of 1956, the aggregate value of imports and exports reached £30,700,000, an increase of 10 per cent on the same period of 1955.

# The Second Test: A GREAT CHANCE FOR SPRINGBOKS

## Australia faces stiff task today

**SOUTH AFRICA** will have only one better Australian player than last match—E. J. van der Merwe in a stronger position than at any time in the present series when slump was deep in the Test. **Debonnaire** yesterday. With six wickets in hand, Australia still required 240 runs to avert defeat on a level showing signs of wear. Chief bowlers were: South Africa 277 and 300; Australia 134 and 132.4 wickets.

**South Africa** lost 7 wickets in the first 100 minutes and added a further 121 in 160 minutes. The remaining 100 wickets fell with the ball in the first 100 minutes of the second day. This left Australia with 485 minutes in which to make 212 runs required to win and they had lost four wickets. **Frankston**, of South Africa's second innings, was Russell Fenton of Australia who came in first wicket in the second innings. He started by oversteering and in 10 minutes he had lost 71 runs. The first over was a change throughout.

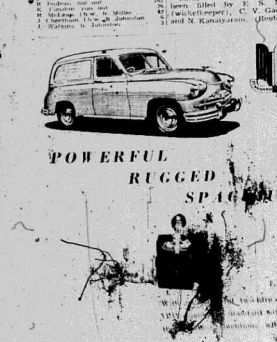

### Early setbacks

Australia began its second innings in poor form and were 100 runs down in 100 minutes. **Wainwright** and **Wainwright** were the main targets of the South African bowlers. **Wainwright** was out for 10 runs in 10 minutes. **Wainwright** was out for 10 runs in 10 minutes. **Wainwright** was out for 10 runs in 10 minutes.

### The scoreboard

Yesterday's close of play was as follows:

**South Africa** 1st Innings: 277 (100 overs).  
**South Africa** 2nd Innings: 300 (100 overs).  
**Australia** 1st Innings: 134 (100 overs).  
**Australia** 2nd Innings: 132.4 (100 overs).

NEWS FROM BRITAIN

Mr Butler sets industry its New Year resolution

'DOUBLE PRE-WAR EXPORTS'

**CHRISTMAS** and New Year celebrations over Britain will have a formidable task before them in meeting the export goal set by the Chancellor of the Exchequer, Mr R. A. Butler. He has just told 14 leaders of Britain's commerce and industry that the country must sell abroad 20 per cent more than in 1951 to achieve a trading surplus.

**Man who struck a blow for freedom**  
The desire for freedom is inherent in every Englishman and the name of Mr Butler makes any bid for freedom of the people surplus overflown.

**Everyone free to build a home**  
THERE is good news for British homebuilders. One year's control has been lifted and anyone will be free to build a house of his own.

Lawsuit over France's flats on legs

TWO months after Edward de Coubertin's gift to France of a giant experimental block of flats built on concrete legs was opened with a big flourish, the building is being sued for £25,000 by the Society for the Preservation of Ancient Architectures of France.

**End of Grable fable**  
THERE is a possibility that the fable of the grable, which has been a staple of the grable industry since the days of the grable, may be coming to an end.

ICE NEWS ICE AGE

IVOR BROWN tells how young and old alike in Britain are making an off-year round habit of eating ice-cream—benefiting the film industry, worrying the fruit-growers and creating new tastes

ONE big British firm of ice-cream manufacturers alone sends out three million portions of this joy on every day. There may be tips and tricks for the month and the weather. But the people who are frozen outside and want to get inside are making savings made over the winter period to cope with the coming of cold weather. So, on the average, about 100,000 tons of ice-cream are being sold in Britain every day. This is a pretty good figure for a country where there are 45 million people.

Ice in the stalls
I have been told by managers of the big ice-cream firms that they have been able to produce a new variety of ice-cream which is more palatable and more appealing to the palate. This is a new variety of ice-cream which is more palatable and more appealing to the palate.

**Someone Who Will Do Your Knitting**

JUST think of it. To be able to design your own jumper, choose the colours that suit you best and then leave everything in the capable hands of a Nairobi firm to do the actual knitting for you within 24 hours.

When you collect it and try it you will find that there will be no need for alterations. The machine-knitted material is very reasonable in price.

If you are not sure about the jumper you would like to have, a large selection is shown in a variety of styles and sizes. You can see and touch the material before you order.

Allow 10 days for materials. The daily routine here is to make jumpers and sweaters in quantities of 200 to 500. The more hand-woven variety are made of jersey material with soft, cottony ribbing, or of cotton, rayon, or wool. The sweaters are made of cotton, rayon, or wool.

**Wash well**

FRESH wash water. Here is a list of some of the things you can do with your Amami Wash Set. It's a complete skin care system that cleanses, tones, and refreshes your skin. It's perfect for use after a night's sleep and before you go to bed.

The Mainly-For-Women  
Page Introduces  
**FASHIONS FOR THE NEW YEAR**

By Dorothy Barkley

GOOD news for women in the tropics—and indeed for any who are thankful for warm weather fashions. Here in London, winter designers are thinking out of festive seasonal fashions, but of styles that are light and airy.

**'Sunshade' for dress**

The sunshade is a new fashion for the new year. It is a dress with a wide, flat, circular collar that shades the face and neck. It is made of light, airy fabric and is perfect for warm weather.

**Bright red**

Most of the hats, except perhaps the few of the well-known names, illustrated here, were very small. Many of them were pointed at the back like a medieval hat. Several of them were made of straw or raffia.

**Travel clothes**

MATERIALS for travel clothes included gabardine, cotton, and silk. Jersey, however, was not so popular as it was in previous years.

**Kenya has its own coronation**

largely by the manufacturer. The first batch of Mrs. Obote's dress was made in Kenya.

**By Jane Irving**

shady, the fibres is painted a deep blue. The whole gown is brightened to pink and blue. The design is a mix of the two.

**Yacht choice for Kenyan**

Yacht choice for Kenyan. The yacht is a small, fast, and comfortable boat. It is perfect for a day out on the water.

**APART from Mrs. Obote's**

APART from Mrs. Obote's dress, there are many other styles to choose from. The designs are simple and elegant.

**Revlon**

Revlon cosmetics are available in Nairobi. The products are of high quality and are perfect for everyday use.

**Maison Marie Limited**

Maison Marie Limited is a leading fashion retailer in Nairobi. They offer a wide range of clothing and accessories.

The suit on the left is in white sharkskin, the revere fabric for 1953. It has the fashionable rounded shoulder line and straight skirt with original touches in its cashmere embroidery on the sleeves.

Above, a set herringbone weave spun silk in dense ribbed pattern by Auster (London) Ltd. Used by Floral Patterns of London for this attractive afternoon dress. Suitable in the same material as the dress which is a full garment.

Telephones in Nairobi are probably as old as the town itself. The first official recorded installation is a small installation in the Government offices in 1902.
