FINNS WITH STAND-ONS BY SOVIET FORCES

Railway Line Cut In Three Places: More Help From Sweden

While the Russians have launched a determined attack with the object of breaking through the Mannerheim line before the New Year, the Finns now claim to have cut the railway line in three places and thus further hamper Russian supplies in the far north.

For the first time the Moscow radio has admitted that Finnish Soldiers are on Russian territory.

Other reports refer to a revolt among Soviet troops in one sector, and to further help for Finland from Swedish volunteers and Danish citizens.

A big battle has started on the Karelian Isthmus where the Russian army has been making onslaughts with the object of breaking through the Mannerheim line before the New Year. There have already been heavy losses on both sides and it is reported that in two days the Russians have lost 100,000 men and 10,000 several hundred. The bombardment of the Finnish positions has been intensified during the past 24 hours.

North of Lake Ladoga 200 Russian troops were killed in a battle after which the Finns collected 150 prisoners and in addition to other war material. Further successes by the Finns are reported on the northern frontier where they claim to

Pope, King and Duce

A Copenhagen message states that according to a Foreign Office spokesman in Berlin the Pope has expressed his approval of the German Foreign Office six times in the course of the Pope's visit to the King of Italy.

It is believed that Mussolini and the Pope have agreed to try and settle the present controversy over the extension of the war and also to discuss the possibility of a truce many to do all they can to check further Russian advances.

have destroyed supply columns, and to have captured tanks.

The Finns also captured seven undamaged tanks and destroyed 100 in the far north on a frozen lake subject to lack of petrol.

Railway Line Cut
Small Finnish detachments attacking the Russian lines of communication are said to have cut the railway line at three places. It is reported to be proceeding on Finland's west coast to be able to launch decisive attacks on the Finnish front.

It was stated in Stockholm that some 100,000 men have been sent to the front and the Caucasus have arrived on the Karelian Isthmus.

Soviet aircraft again bombed Helsinki yesterday. Between 30 and 40 bombs were dropped in the port of Helsinki and 100 houses were destroyed. Ten people were injured.

The Moscow radio admitted yesterday for the first time that Finland has been invaded from the north and that the Soviet army has captured several Finns. It also reported that the Finnish detachments in the North

Floods Add to Turkey's Distress

WORLD AD FOR EARTHQUAKE VICTIMS

While Turkey is struggling to relieve the terrible distress and damage caused by one of the worst earthquakes in history, news has been received from another part of the country of devastating floods.

Frost On The Western Front

There is a very severe weather on the Western Front and 27 degrees Fahrenheit of frost is limiting patrol operations.

The British and French Governments are making contributions of £25,000 each towards the Turkish earthquake relief fund.

The announcement of France's aid was made in the Senate by Mr. Chamberlain last week. He said that the two countries should collaborate and the Chamberlain said that such an effort would be made by both countries to help the victims.

Other foreign help has been promised from Afghanistan, Greece, Bulgaria and Greece. The people of Turkey themselves are responding magnificently to the appeal for relief funds.

French Message to Britain

The head of the French Ministry of Information last night conveyed to the British Ambassador in London a message from the French Government.

He spoke of the feeling of satisfaction which the French people feel in realizing that the severity of the French winter does not weaken the British nation as an ally.

R. A. F. GETS TO WORK

The Australians who arrived in Britain a few days ago are already being put to work on the R.A.F. bomber squadrons.

Yesterday they were reviewed by the Commander-in-Chief of the Coastal Command, Air Vice-Marshal Frederick Goodall, who in the course of an address said:

"Not only am I proud to have you under my command, I know how proud you are to help in this great work for the defence of the Empire and you will carry out your duties satisfactorily and go without saying."

Torpedoed Battleship

The 31,000 ton British battleship which, as already reported, was struck by a torpedo from a German U-boat, has reached port safely under its own steam.

An Admiralty statement says that the battleship is not seriously damaged, but one additional shell is reported missing and another seriously injured has been set on fire.

In one town alone with a population of 40,000 people, it is estimated that a third of the people have been injured.

There were more earth tremors yesterday. One authority says that six are likely to be felt for the next six months.

FRANCE WILL NOT DISARM

Until Rule Of Force And Rapine Ends

December 31.
In Paris on Friday night the Prime Minister, M. Daladier, made a short speech to the Senate which had assembled to pass the Military Budget for the first quarter of 1940.

Mr. Daladier referred to the determination of the French people to engage in fight with the rule of force which, for two years, had weighed upon Europe. He said France would not disarm until there was a definite guarantee that the rule of force and rapine was ended.

The Premier declared that a third 50,000 ton battleship is on the stocks.

Speaking of armaments generally M. Daladier said they must place in the forefront the production of military aircraft, tanks and artillery. He spoke of the exploits of British and French air pilots and pointed out that the French Navy had destroyed nine German submarines.

Most cordial references M. Daladier's speech to the participation of Britain in the fight against the aggressor nations. He pointed to the establishment of complete solidarity between the two countries and the fact that no measure Germany has taken has ever rubbed or harmed the rest of the world. And yet in a plain message he goes on to emphasize those countries which threaten originating in England. This declaration is coupled with the assertion that no measure Germany has taken has ever rubbed or harmed the rest of the world. And yet in a plain message he goes on to emphasize those countries which threaten originating in England.

Train Disaster In Italy

Some 40 people were killed and 150 injured in a railway accident south of Naples yesterday.

An express train ran into a truck train and both were completely wrecked. Soldiers and wounded troops were sent to the scene in a special train.

French Air Force, in recognizing the loss of the R.A.F. bomber squadrons and the mastery of the R.A.F. in some parts of the British Empire, has been able to enjoy battles with the R.A.F. in some parts of the British Empire.

I. R. A. Active In Dublin: Doil To Meet

Dublin, December 30.
The Doil has been specially summoned for next Wednesday to deal with I.R.A. activities following the raid on the magazine in Phoenix Park, when a number of men got away with a quantity of arms and ammunition.

Searchable, elaborate searches conducted already six equal to equal about one-third of the stolen amount. These trains have now been through and one hospital train has been sent to the front.

In one town alone with a population of 40,000 people, it is estimated that a third of the people have been injured.

Professor Shot By Nazis

December 31.
The Nazi campaign of terrorism in Poland is a well-known story. It has been shown by the German authorities in Warsaw.

The professor was a member of the staff of the Warsaw Polytechnic and was accused of having supplied arms and munitions to the Polish troops.

The Nazis claim to have found a small quantity of equipment which he had been exporting to the Polish army. He had a European reputation and was a member of the International Congress of Physicians.

From the beginning of January Mauthausen children will be enabled to embark from North Africa to the British Isles. It is stated as a result of arrangements made by the German Government.

HITLER'S NEW WEAPONS Aggressive Germany Has "Pacified" Europe

Hitler's New Year message, while claiming that Germany in 1939 has "pacified" Europe, makes it clear that his country has no intention of giving up its aggressive policy.

At the same time the Czechoslovakia Committee in Paris declares that it will not rest until a free Czechoslovakia has been established in a free Europe.

Hitler has cancelled his usual New Year reception for the Diplomatic Corps, the German subject and other high officials, but he has not omitted to send New Year messages to the Army and the Nazi Party.

RIISING COST OF LIVING: POLISH TRAWLERS ESCAPE NAZI SHIPMENTS IN CARGOES: CAPTAIN WELL OILED: ILLUMINATED DOGS.

London

The cost of living rose in London during November, making a total of 18 points, or rather less, than the increase since war began. For food alone the index rose nine points, or about two per cent over the corresponding month. The rise in the cost of eggs, fish, and bacon, and other fresh food, was particularly marked. Amongst items other than what the price changes were, the food the price of clothing, coal and gas.

Army history

Army history was made by the London Gazette that three women doctors had been appointed to the R.A.M.C. They will be working with the troops, but will not look after the sick. They will be addressed simply as "doctors". Their dress will consist of their tunic and belt with short skirt and cap similar to that worn by the doctors of the garrison army. The medical officers of the relative rank of lieutenant are: Assistant Surgeon-General, Mrs. M. H. G. Small of Norwich; late Assistant Surgeon-General, Mrs. H. H. G. The New Year's Outlook

BRITAIN'S MODERATE VIEW

Public Ready For Anything; Threats Leave Them Cold

The British public views the New Year temperately and moderately. It is thought that the war will last a considerable time and will entail far greater sacrifices than had been imagined.

The British is still fairly tranquil and the "black-out" seems to be the biggest inconvenience. The fight against it on the streets is almost won, but the difficulties of night travel in the country still remain.

STANDARD CORRESPONDENT

I have come to the conclusion that the weather had better show in the newspapers than the optimism. Just at the end of the year we find the prophets of three years more war and the last paragraphs of an ultimatum in full to the last.

The people do not, I fear, attach much importance to his views, since they know that regardless of the arguments were trotted out in the last war.

We all view the New Year rather gloomily, and I think that we do not all think that the war will last so very long. Each year we see the national flag raised on the roof of our homes, and we are reminded of the restrained and imaginative lines of his country.

German Accusation

It is reported from Berlin that Germany has sent a note to the Government of the United Kingdom protesting against the League Mandate Committee's decision to award the mandate to the United Kingdom.

Which goes over the ordinary street lamp, and allows only a small glow of light to escape through blue-tinted glass. The effect when seen by day is that of a faint blue glow, rather like a light seen through

Driving Difficulties The difficulties of driving at night in the country will remain whether we have more or less. New signs are being painted on roads for the guidance of drivers in the black-out. At bends and junctions on straight lengths of road the signs will be white with a solid line.

Driving Difficulties The difficulties of driving at night in the country will remain whether we have more or less. New signs are being painted on roads for the guidance of drivers in the black-out.

Fairly Tranquil Like is still fairly tranquil here. They even say the Government has estimated the black-out to make it remember that there is a way. Still lighting is slowly being re-established as it has always been. The area is returning. I see that the Postmaster-General, Mr. C. G. D. Nicholson, has said that the work of his Department, which has not only school-children, but also the large firms and shops, has been largely done.

Soda Royalties To Increase Next Year? In view of the increased demand for soda produced by the Standing Finance Commission of the Budget (during the present session) it is expected that the rate of soda royalties will be increased next year.

Navy Promotions It is announced in London that Admiral Sir Sydney Buxton, K.C.B., has been promoted to the rank of Vice-Admiral.

Submarine Chasers For Holland The Netherlands Ministry of Defence has placed contracts for six submarine chasers. The ships and their engines will be built in the Netherlands.

Indian Ambulance Section A decision has been taken to organize an Indian Ambulance Section (I.A.S.) to be sent to the London County Council with a view to organizing an Indian Ambulance Section.

Military Talks In Rome Signor Mussolini has an important conference with Marshal Graziani, the Chief of Staff, regarding the military situation in Ethiopia.

U.S. Congress Begins This Week The 76th Congress of the United States will assemble next Wednesday when President Roosevelt will deliver his annual message.

French Successes Against U-Boats More Details Further details are available of recent French success against U-boats. The journal Le Monde reports that a British airplane helped the French ship, Commandant Du Floo, to sink a U-boat by dropping a smoke bomb over it.

Spanish Liner On Fire A Spanish liner of 10,000 tons is reported to be on fire in the South Atlantic somewhere between the Azores and the island of Tristan da Cunha.

Why Britain Is Hopeful On the 11th day of the war and on the eve of the New Year, the Daily Telegraph reviews the first phase and looks ahead.

East African Annual 1939-1940 The East African Annual for 1939-1940 is now available. It contains a wealth of information on the East African continent.

This picture shows the French liner Bretagne (14,000 tons) sinking after being attacked by a U-boat. Of the 125 passengers, seven were drowned and many injured.

KENYA AND UGANDA IMPORTS MADE NEWS

FRENCH SUCCESSES AGAINST U-BOATS MORE DETAILS

Further details are available of recent French success against U-boats. The journal Le Monde reports that a British airplane helped the French ship, Commandant Du Floo, to sink a U-boat by dropping a smoke bomb over it.

A Judge in the King's Bench Division has ruled that a traffic island in the case of a British airplane helping the French ship, Commandant Du Floo, to sink a U-boat by dropping a smoke bomb over it.

The answer to the magic circle may appear to be a wooden-hulled ship but great difficulties in the construction of these built, four lightships in these days are being constructed.

FIRST PHASE OF THE WAR

On the 11th day of the war and on the eve of the New Year, the Daily Telegraph reviews the first phase and looks ahead.

Why Britain Is Hopeful

First events have differed from anticipation. Nevertheless, "before long we may be fighting a strenuous air campaign, but four months' testing time has given us no reason to fear the quality of the German machine."

War Welfare Fund

Fourth Week Starts With Nearly £1,200

Another £1,000 from a Keryva firm, together with further generous gifts from individuals, has brought the total of the War Welfare Fund to a total of nearly £1,200. The first list in the fourth week since the appeal was launched is appended.

MORE PRESS AND THE NEW YEAR

London, January 1.
In a leading article on the New Year the Times surveys the war position at its opening. The resumption of the free peoples in Great Britain and France has been shown to be unshaking. The unity of the British Empire in support of another country has been found no less unbreakable than in 1914.

3,000 More Australian Airmen for Europe

January 2.
Some 3,000 more Australian airmen are to be sent abroad this year said Mr. J. B. Fisher, Australian Air Minister, at Melbourne today. Members of the Royal Air Force will be trained on an exchange duty.

FINLAND CONTINUES HER STUBBORN RESISTANCE AGAINST THE RUSSIAN INVASION. SOVIET TROOPS MADE MANY MORE VIOLENT ASSAULTS ON THE MAMMERHEIM LINE ON NEW YEAR'S DAY AND YESTERDAY, BUT ALL WERE REPELLED.

Another Blow To Germany

Because the River Danube is blocked by Russian Government has decided to suspend permits to navigate the river. One effect will be that the flow of goods from Germany will be delayed as the river is the usual route for timber, wheat and oil reach Germany.

Stalin Asks For Help

Stalin has asked Hitler for 200,000 troops and experts to reinforce the economic life of Russia, especially in the matter of agriculture according to a message received from Berlin today.

Another German Ship Lost

The German news agency says that the Hamburg-American liner SS. Lusitania, of 10,000 tons, was sunk by a U-boat on the 27th of December. The last of the Lusitania's crew had reached Murnauk from New York.

Turkish Floods Grow Worse

MANY TOWNS SUBMERGED
600 Reported Drowned In One Centre Alone

Floods in western Turkey have proved far more extensive than was at first reported, and heavy rain is still falling. Towns and villages over an area stretching for 350 miles have been submerged, and in one town alone 600 people are said to have been drowned.

THE RULES OF HEALTH
 are few and simple

Excuse me—
Inner Cleanliness
 comes first!

Of course that rule comes first. For Inner Cleanliness is the very beginning of health! And to make absolutely certain that sleep-down Inner Cleanliness is your natural day-by-day state, you need Andrews' Liver Salt. Immediately you drink your bubbling tonic glass of Andrews it cleans the organs and refreshes the system. Next it reaches the stomach and corrects acidity—only in this way can the stomach be clean and liver. Then Andrews wakes up the liver and checks any tendency to biliousness. And finally—to make your Inner Cleanliness complete—it cleans the bowels gently and efficiently. Andrews is a delicious health drink. It is the gradual and natural corrective of constipation. Take it regularly—the same dose is always effective. And, don't forget, Andrews has just the right ingredients in the right proportions to give you **constant Inner Cleanliness**—the most important health condition. Observe, then, this first and foremost rule of health—Inner Cleanliness. Handy size (4 oz.) 1/2d. Large size (8 oz.) 2/6d. (double quantity) 4/6d.

For Inner Cleanliness be regular with your

CATTLE MARKETING
 To the Editor, "E.A. Standard."
 In your issue of December 25, three points of very great interest to the cattle industry are brought out by your Tanganyika correspondent. They are:
 (1) That slaughter cattle are taken to Lushoto Factory over distances as far as 450 miles.
 (2) That the Tanganyika livestock market has been so well organized that more than 100,000 head of cattle change hands annually and that Lushoto is, therefore, possible to compete in the open market with some of the African traders.
 (3) The cattle are disposed of voluntarily by the African owners. Reports of the successful organization of the East African Government are so rare that it is interesting to note that one's thoughts naturally turn to the success in Tanganyika to the progress of similar undertakings elsewhere.

On the first point it is interesting to note that cattle are moved long distances in Tanganyika, the obvious reason being that movement of livestock in Tanganyika is governed by Veterinary considerations. In Kenya movement is very restricted being more subject to political than veterinary considerations. Point two leads one to suspect that the Native East African market has been brought into the economic life of the territory and that the result that the owners of prime and aging cattle find it expedient to dispose of them through available markets to enable them to meet their needs in Kenya. The result of following the practice, so common in Kenya, whereby the owners cause to market and sell their cattle through a commission agent, is that the owners dispose of their animals profitably. The third point suggests that the owners dispose of their cattle voluntarily they must be satisfied with the economic system that obtains that the market prices yield a fair return for their services and that it is accepted as reasonable to dispose of their animals with a view to exchanging for money with which to meet their obligations and to discharge their requirements.

The third point suggests a system that enables Tanganyika cattle owners to dispose of 100,000 head annually must prove of considerable advantage to the State, and all depends by good management, without the press of Meat Control Ordinances, forced sales or arbitrary restrictions.

A POLICY FOR PEACE
 To the Editor, "E.A. Standard."
 Sir.—In your issue of the 26th inst., a correspondent, A. Davis, with childish simplicity, makes suggestions for the alleviation of the world's evils. He writes with the faith of the child bringing up a Christmas stocking. How brave! In the morning all devils are put in a list. But, Mr. Davis, have you not yet been told that it was Father David that the hard cash of Father Davis that so regularly allowed your stocking?

Hard cash! International finance internal and international trade, the banking and monetary system, in a nutshell the inquiry known as Capitalism is the sole and absolute cause of aggression. The very Capitalism that led and reared Hitler. Communism is used as a bulwark against Communism. But the weapon has turned upon its creator and the creator realizes that it must crush the child of its own making, even if this child, now grown up, dominated by means of aggression, the interests for the protection of which it was created. Hence the way to stop aggression. But the war to end wars? No! Davis, only to end

FOR HIS HEALTH'S SAKE WASH HIM REGULARLY WITH LIQUEBOY SOAP
 Let's try this playing on a television set. And doesn't he look happy! No use saying, "Don't wash with Liqueboy Soap." He doesn't realize that his health may be in danger. He says, "I don't want to wash." The soap he shouldn't ignore. The one that is so good for him from the germ in his dirt he picked up on the way. The one that you wash him with. Liqueboy. After play, a good Liqueboy wash, and a Liqueboy bath as bedtime. That's the way to keep him healthy. Liqueboy washing is a wonderful germ against infection. Very safe when you know that Liqueboy is a sensitive liquid, getting rid of the germs so well

desirable if "Credo" would be left a single Dogma to play according to their original habits will be found for them. The Black Church Christian religion is the only one that has been very potent and though it has spread itself over two thousand years of history, a mere moment of time in the life of the great religions, its decay is becoming phenomenally rapid. So much so that it is not that it does not support dogma.
 The Church of Christ is now up to the Churches to do their best to save the general growth of scepticism. If they wish to claim any justification for their existence as a body. Penetration of a healthy correction in any form of belief ancient or modern. It has purged out of many Christians and those who prosper on the credulity of the unthinking, who have I say quarrel with dogmatism and have been made to mark it by giving rise to scepticism.
 It is a dogma unmakes itself in all forms; it does more, it reveals the approximations of dogma in its search after truth.
 "Credo" represents dogma as a fact that cannot be disputed by anyone. It does not admit of any conception of its negation. The theologian has no former disagreeing on the matter and has no quarrel. We will then think God for the British Empire for it will lead all the strength of the world wide unity enjoyed by Europe, to the benefit of the world's interests of others. (probably the neutrals) who will undoubtedly endeavor to prevent a successful growth of his Gods and humanity. It is more a matter of the growth of dogma has obscured the true scientific basis of it. A system based on mysticism, mythology and dogma. It is not of little use to the average man or woman. Take Christianity. Vile Tide was once the great international of all Northern and Southern Christians with the sun at the Winter Solstice. It never to any extent associated with Christianity, nor did the birth of the Christian religion take place at that time of the year. The multiplicity of a time honored festival by Christianity is not to the credit of the Christian religion. The Christian Father embodied this Plan Festival also in his own life. It is considered it down as a fact safe beyond the reach of scepticism.

THE LONDON OFFICE
 To the Editor, "E.A. Standard."
 Sir.—I had hoped to have made my last contribution to the Standard in 1940 to renew my personal contact with the readers of the Standard, in particular with my friends living there.
 Unfortunately, due to the outbreak of War, the East African governments have had to reduce the London Office to a skeleton establishment. I am therefore, as Officer and one stenographer and my presence here is considered essential from the 31st December, 1939, and I have never my faintest spare connection with East Africa and the London Office.
 It is not possible for me to write individual farewells to all such friends in East Africa and I am compelled to do so through the medium of your columns. If you will be good enough to publish this letter.
 I should like to take this opportunity of tendering to my friends in East Africa my sincere thanks for the kindness which I have received at their hands during the past 14 years.
 Yours etc.,
 C. H. DALE,
 Commissioner.

DISPENSAL OF A DOG
 To the Editor, "E.A. Standard."
 Sir.—On Christmas day a long article appeared in the East African Standard from your Araba correspondent, referring to the slaughter of 200 animals owned by Karl Schütz which I feel cannot be taken to pass without comment. He states that the Indian (black) dogs were taken to a big game sanctuary on Mt. Meru. There at an altitude of 6,800 ft. in dense

EURSPEANS DRAW WITH ASIANS AT NAIROBI

Big Crowd Sees a Record Innings

The skipper but soon returned having stepped in from of a straight one for M. Pyrali.

Hand-Over then started to play the first game with his captain. This pair looked the better of a partnership. At 73 Kneeler and Pyrali were at the end of the first over and was mowed. At the end of which nine were on the field.

Two Runs; Two Wickets

After tea Kneeler was sent back, Jowett Singh, taking an excellent catch on the top edge of M. Pyrali. Howes tried to pull a straight one but it was mowed. At 129 he was out to drive Chandrakant and Leare had been stumped. However, at 132 Karamchand bowled with a beautiful leg break. Edmunds came in at 3-45 and played stylishly under orders. At the other end Kneeler did not leave out a single ball, scoring in mastery style. At 60 runs with a score of 147 for 7 wickets, stumps were drawn for the day.

Monday's Play

On Monday morning Kneeler started with a fine off-break. At 4th ball and Edmunds tried a stroke but the ball hit the stumps. M. Pyrali came in at second slip. M. Pyrali reached his 50 and he and the crowd alike. McIntosh tried to drive up the near and was caught by Gurcharan Singh. An over bowled by a single reached his 50 and he and the crowd alike. THRILLING AIR BATTLE OVER NORTH SEA 3 British Engaged By 12 Nazi Planes

Although greatly outnumbered, British machines put up a gallant fight against German long-range fighters in a battle over the North Sea on Tuesday.

A MILLION MORE MAY VOLUNTEER

The Air Ministry announced that three Royal Air Force bombers equipped with the latest type of Messerschmitt long-range fighters in the neighbourhood of the Twickenham stadium in London. They fall into two categories. Those in the first class of trade may be sent to any branch of the service. Those in the second may only volunteer in their normal trade occupations—such as a school clerk or a factory worker. A special call is being made for volunteers for building and repairing the British Expeditionary Force in France.

ALARM AT HIGH PRICES
A Memorandum From Thika

The Executive Committee and members of the Thika District Association view with alarm the steadily increasing prices of practically all farming essentials, especially petrol, oil, power and fertilisers and sprays. The absence of commodities is a definite menace to the farming community. The Government is receiving no benefit from the increased prices of the members of the Association that there is no compensation of the Oil Companies. A memorandum on the subject forwarded to Government states:—

QUININE: In view of the fact thatquinine has been simple supplies available in the price of quinine from Shs. 1/8 per 400 to Shs. 1/10 per 400 (per 400 to quotation). It must be well known that the prevalence of the malarial in the greater portions of this country is a source of anxiety to the farming community and this rise in the price of quinine is a most serious factor in the matter.

BUILDING MATERIALS AND PAINTS: BUILDING MATERIALS AND PAINTS: It is a well known fact that the price of building materials and paints has increased to a point where farmers are unable to obtain the quantities required for their farms. This is a serious factor in the matter of the farmer's pocket. This is resulting in a dislocation of local trade and a loss in revenue to the country as most farm repairs and construction work sites are being purchased.

FOODSTUFFS AND GENERAL COMMODITIES (MAYN): As a state of famine now exists in this area native labourers are unwilling to farmers to feed them and their families and this is becoming increasingly difficult in view of the continued rise in the price of native foodstuffs and the decreasing prices being obtained for the farmers' produce, combined with the total failure of crops owing to drought conditions. It is hoped that the Government has realised that the native will soon be without food in his Reserves and unable to obtain employment in the settled areas, thus leading to his inability to support his family. In conclusion, we suggest that during this period of famine conditions Government should control the prices of native stocks of maize in the country and that Internal Railway rates and that internal Railway rates and that the flat rate of one shilling per bag, we further suggest that all export of maize should cease so as to avert a repetition of past history, when maize had finally to be imported into the country at high cost to feed the natives.

Stalin Holding Hitler's Hand In The West?

According to a Daily Mail correspondent, officers of the German High Command believe that Stalin is deliberately confining the world by allowing third-rate Soviet troops to attack the Finns, while the crack Russian Army masses on Germany's eastern frontier. Hitler, unable to tell where Stalin will stop, is thus afraid to launch a big campaign in the West.

[* STRASBURG CORRESPONDENT.]

London, December 29.—Hitler will make no major move for some months, whether this year or next, although Dr. Goebbels may strain "Verlogenheit" in his cry until his voice breaks. Hitler, who retired to Berchtesgaden today to brood during Christmas, may rage and fume at German naval losses, but he knows very well that his hands are tied.

The truth is (declares the Daily Mail) that something has gone seriously wrong with the German-Hitler front. Official spokesmen in Berlin now hint openly to neutral observers that for Russian support in the Polish campaign Germany offered:—

A large slice of Poland.
 Recognition of Russia's sphere of influence in Lithuania, Latvia, and Estonia, including the withdrawal of all German citizens.
 Some concessions in Finland, to be obtained by negotiation.
 "Taking them all in all, these concessions were generous enough for Germany. There was definitely no intention of conceding a Russian invasion in the Far North."

Where Will Stalin Stop?
 Now that the Russian army has

COFFEE PRICES AND THE WAR
The Outlook In Brazil

[* STRASBURG CORRESPONDENT.]

The seventy-seventh ordinary meeting of the members of the Bank of London and South America, Ltd., was held on December 26.

Lord Warrington, Chairman of the bank, referring to Brazil, said:—

It is yet too early to predict the full effects of the war upon Brazil's export trade, but intensified efforts must be made to seek new markets to replace Germany, which absorbed about 20 per cent of Brazil's exports, while there may be less demand for certain products such as sugar and oranges, in part compensation, however, exports of most cotton, hard hides, minerals, maize and cottonseed have already increased and will probably expand further in a well-timed manner. A special board has been empowered to undertake negotiations with foreign Governments for the exchange of merchandise.

Coffee and cotton together account for over 60 per cent of the value of Brazil's total exports, and especially because of the exclusion of the German market, the outlook for these two products remains somewhat obscure, although shipments to this country are already on the increase. It is encouraging that, during the first nine months of 1939, Brazil's share of world coffee markets increased to 48 per cent, against 42 per cent in 1938, and 32 per cent in 1937.

An Exception
 Coffee, however, remains an outstanding feature of the country's upward trend of commodity prices. The outbreak of hostilities began. The outbreak of hostilities began. The outbreak of hostilities began. The outbreak of hostilities began. The outbreak of hostilities began.

The British East African Meteorological Service yesterday published the following note on the weather:—

Weather has been generally fair in Kenya and Uganda, with only very scattered showers in Uganda and the Coast Area of Kenya. Showers have been fairly general but not heavy in Tanganyika. The principal falls reported this morning were Akiba 0.5" and Arusha 0.7".

In Kenya, weather will continue fair with only scattered showers in the Coast and adjoining Areas. Fair weather will also prevail in Uganda, with scattered thundery showers. Further than this, however, will occur in most areas of Tanganyika.

THE RULES OF HEALTH are few and simple

Excuse me— Inner Cleanliness comes first!

Of your course that rule comes first. For Andrew's Inner Cleanliness is your natural day-by-day, year-round liver salt. Immediately you clean your blood and correct acidity—only in this way can the brain be clean and clear. Then Andrew's helps you live and sleep as naturally as biliousness.

And finally—do make your Inner Cleanliness clear the bowels gently and efficiently. Andrew's is a delicious health drink. It is a gradual and natural corrective of constipation. This is healthy—the same dose is always effective. And it requires no special diet. It is the only medicine that gives you complete Inner Cleanliness and the happy health that follows.

Observe, then, this fine and important rule of health—Inner Cleanliness. Healthy only (see) Sds. 1/25. Large (double quantity) Sds. 3/25.

For Inner Cleanliness be regular with your

General Smuts Takes Over

Since taking over the Government of the Union and declaring war on Germany, General Smuts has been so busy recognizing his three departments—Prime Minister, Defence and External Affairs—that he has had little time for making public speeches; but when they do come they are worth waiting for.

Well worth waiting for was his speech on the 29th of December 20. The big point in it was that if the Union Government had not taken over the South Africa Police and Army, the war might have broken out then, and in South West Africa instead of Poland. Here are his actual words:

"My feeling is that the war in which we did ourselves step by step over Poland, but if the Government had not taken that step last April regarding South West Africa, it is possible that the war would not have broken out in Poland but over South West Africa."

Last April General Smuts's Government after receiving a warning from the British Government, unanimously took the decision to go to the assistance of the law and order in South West Africa.

In the territory there were very serious movements—a movement known as the "Bantustan" movement. It was a movement for the separation of the South African and the Bantu. It was a movement for the separation of the South African and the Bantu. It was a movement for the separation of the South African and the Bantu.

"The Government of General Smuts has taken the decision that the Bantustan movement should be taken, as anything could happen."

"The world is in such a state of confusion that it is impossible to say what will happen in the future. In April this year we have been told that the Bantustan movement might start in South West Africa."

The German population in South West Africa was very numerous and well drilled, and they were a terror in which they could have taken any step. There was every reason to think that what had happened in Austria and what had happened in Germany would happen there.

BROADCASTING ENQUIRY

The report of the special committee of enquiry into allegations against certain members of the staff at S.A. Broadcasting Headquarters in the "Sunday Times" has been received. These allegations appear to be unfounded. They were stoutly denied by the Chairman of the Broadcasting Board, Mr. J. H. B. Smith, who is also Union Minister of Education. They were also denied by the Director of the Corporation, Mr. J. H. B. Smith, who is also Union Minister of Education. They were also denied by the Director of the Corporation, Mr. J. H. B. Smith, who is also Union Minister of Education.

The report occupies half a page in the "Press" and is a masterpiece of understatement which does not, however, leave any doubt as to the truth. It is a masterpiece of understatement which does not, however, leave any doubt as to the truth. It is a masterpiece of understatement which does not, however, leave any doubt as to the truth.

Forty three voluntary witnesses to the Bantustan movement were interviewed. These witnesses were interviewed by the Director of the Corporation, Mr. J. H. B. Smith, who is also Union Minister of Education. They were interviewed by the Director of the Corporation, Mr. J. H. B. Smith, who is also Union Minister of Education.

Build up your strength take Hall's Wine today

When you are tired and run-down it is a sign that through overwork or illness your blood and nerve cells have become "run-down". There is one tonic that is specially prepared from the formula of a Doctor to strengthen your weakened blood and nerve cells, and that tonic is Hall's Wine.

It starts to pour new strength into your veins which thirty seconds after taking, has its effect also in reviving your blood and nerve cells and giving you a quick and unobscured. Doctor and nurse everywhere praise Hall's Wine for their patients who are weak and nervous, and who are suffering from nervousness and depression, and also to build up strength after illness.

Take HALL'S WINE

THE WAR IN THE AIR THE INDIAN PRINCE IN THE WAR WHY EMPIRE WILL WIN RUSSIANS PLAN A NEW DRIVE Aid From Allies

THE NEW YEAR AIR RAIDS ON BRITAIN

BATTLE OVER THE NORTH SEA AT LEAST TWO GERMAN BOMBERS WERE SHOT DOWN OFF THE COAST OF BRITAIN ON NEW YEAR'S DAY AND THE LOSS OF ONE IS ADMITTED BY THE GERMANS. There were several German raids and bombs were dropped near British warships. No hits were recorded, however.

Although greatly outnumbered, British machines put up a gallant fight against German long-range fighters in a battle over the North Sea on Tuesday.

At least one German bomber was brought down by the R.A.F. in the first raid on New Year's Day. The second German aircraft was shot down by the R.A.F. in the second raid.

The Australians who are already in the air over the North Sea are expected to be active in the coming days.

German bombers were reported to have been shot down over the North Sea on Tuesday.

RUSSIANS PLAN A NEW DRIVE Aid From Allies

THE FINNS ARE MAKING A DETERMINED BID TO CUT THE LENINGRAD-MURMANSK RAILWAY. AN AERIAL ATTACK WAS MADE ON IT ON THURSDAY AND PORTANT SECTIONS WERE DAMAGED, AS A RESULT OF WHICH, IT IS REPORTED THE RUSSIANS IN THE FAR NORTH ARE SUFFERING FROM A SEVERE FUEL SHORTAGE.

While the Russians have launched an attack with the object of breaking through the Mannerheim Line on the New Year, the Finnish new slim line has returned in three places and thus further hamper Russian supplies in the far north.

For the first time the Moscow radio has admitted that Finnish Soldiers are on Russian territory.

A big drive towards Viena is expected, however. The Russians are reported to have massed over 250,000 men on their front, but despite the very much greater number of their opponents, the Finns have yielded not an inch of ground in the sector.

Britain and France have notified the League of Nations that they are taking steps, in accordance with the League's Resolution, to help Finland in her fight against the Soviet.

Fighting on the Karelian Isthmus has been bitter. On Wednesday a Russian attempt to break through the Mannerheim Line at the north end of the Isthmus failed.

Reports from Helsinki indicate that the Finns are making a determined bid to cut the Leningrad-Murmansk railway in the far north.

Finns have yielded not an inch of ground in the sector.

The Moscow radio admitted yesterday for the first time that Finnish soldiers were being sent into Russia.

THE FIGHTING IN THE NORTH

Continued from page 1A.

In the far north the front has been practically frozen to a standstill. It seems clear however, that the Finns are attempting to break through the line in some places from the north.

Many more Finnish troops were sent to the front yesterday and the civilian death toll in Finland is reported from Helsingfors that it is increasing at a very rapid rate. The front was closed by the Finns in several places from the air. The post in the northern sector was held by the Finns moving large supplies of material from the Scandinavian countries.

President Kallio of Finland expressed his confidence in the Finnish army. He is taking steps to help Finland in her fight against Russia. In the British Government's view it is already putting into effect its former intention of giving all the help in its power. There is no fear that the Russian will be able to help will take, but it is known to be the question of sending British troops to the front. It is known that the country gives them a very high priority in its own co-operation in this matter.

While the British are not yet ready to commit to set out was in the case of the other countries. The British Government has received reports from all parts of Sweden and Finland that the front is still in the hands of the Finns. It is reported that the Finns are making the acquisition of the Swedish territory which was had in mind in the case of the front.

It is suggested today that the British should be sent to help the Finns. The British Government has received reports from all parts of Sweden and Finland that the front is still in the hands of the Finns. It is reported that the Finns are making the acquisition of the Swedish territory which was had in mind in the case of the front.

HITLER'S NEW WAR CLAIM Aggressive Germany Has "Pacified" Europe

Hitler's New Year message, while claiming that Germany in 1939 has "pacified" Europe, makes it clear that its country has no intention of giving up its aggressive policy. At the same time the Czechoslovakian Committee in Paris declared that it will not rest until a free Czechoslovakia has been established in a free Europe.

Hitler has cancelled his usual New Year message for the German people. The German Cabinet and other high officials in Berlin are reported to have been invited to attend the New Year message. In both these messages he said that he will be the most decisive year in German history. It also says that the protection of the Aryan race under the protection of the Aryan race has been the aim of the German people in 1939. The message also says that the German people will be the most decisive year in German history.

It is reported today that the German people will be the most decisive year in German history. The message also says that the German people will be the most decisive year in German history. It is reported today that the German people will be the most decisive year in German history.

Stalin Holding Hitler's Hand In The West? According to a Daily Mail correspondent, officers of the German High Command believe that Stalin is deliberately confusing the world by allowing third-rate Soviet troops to attack the front by which the Russian army masses on Germany's eastern frontier. Further Loans For Kenya Farmers?

LAND BANK BILL DEFENDED

Little criticism was voiced against the Land and Agricultural Bank Bill which was passed in its second reading in Kenya last night. The bill was given its second reading, after the first reading, to a select committee of the House.

Moving the second reading, the Attorney General (Mr. Willis) stated that the provisions of the bill were somewhat unusual in that it was not intended to be a law in its own right, but was to be a bill which would enable the Land Bank to make advances to farmers on the basis of their own chattels. That was an unusual feature in that the Land Bank was only, in effect, a body set up to make advances on the security of first mortgages of land.

It was the policy of Government to assist to a limited extent farmers during the difficult period in which the production of essential crops and livestock might be increased.

Mr. Willis provided that the Land Bank might make advances either by way of advances or by payment of interest intervals and such advances might be made for three purposes:

(1) For meeting current expenses of the farmer, such as the cost of crop-maintenance, wheat, etc., for the current crop, or of cultivating, fertilizing, manuring and harvesting perennial crops.

(2) For capital expenditure on the farm, such as the purchase of livestock or for any other purpose.

(3) For the purchase of a plough, or other implements.

Such advances might be made:

(a) in respect of land already under cultivation;

(b) in respect of land which has already been cultivated;

(c) in respect of new areas of land which would not be cultivated.

Rate of Interest.

Mr. Willis stated that the rate of interest on the advances would be the same as the rate of interest on the advances made to any other person in the Colony.

Mr. Willis stated that the bill was an important provision of the Government's policy to assist farmers to meet their needs during the present period of difficulty.
