Shull keeps abreast of Progress

Within the memory of the oldest settlers in East Africa, Dr. Wiggins were the pioneer motorists of road transport.

Today motor vehicles, heavy and light, private and commercial, cover the whole country. They are proud of the part they have played, and still play, in keeping the wheels turning.

CORNER DECIDES 'NO CRIMINAL NEGLIGENCE'

After declaring that...

A court has decided that the corner of a building is not a criminal negligence. The court ruled that the corner was not a public place and that the owner was not responsible for any accidents that occurred there. This decision is expected to have a significant impact on the law of negligence.

An Important Announcement

A recent shortage of essential materials makes it impossible to maintain the high quality of our Healthy Laying Meal. Rather than reduce the quality, we have decided to manufacture concentrates until the present shortage has subsided. These will still contain the maximum of LAYERS' MEAT which has acquired a reputation with leading poultry-breeds as a quality feed for the long term.

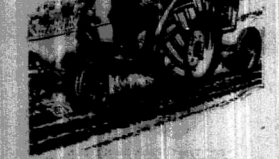

LAYERS' MEAT is manufactured to a formula approved by Government. Concentrated LAYERS' MEAT contains 20% protein.

SISAL WASTE IS USED TO MAKE ROADS AND HOUSES

An important part of sisal processing is the disposal of sisal waste. In the sisal industry, sisal waste is the residue left after the extraction of sisal fibre from the sisal stalk. This waste has hitherto been regarded as a nuisance.

The sisal waste is used to make roads and houses. It is a very durable material and is used for the construction of roads and houses. It is also used for the construction of bridges and other structures.

Tanganyika sisal creates a record

TANGANYIKA has had a record year for sisal production. Figures compiled for the Sisal Producers Association Tanganyika branch, which is a branch of the International Sisal Producers Association, show that production in the sisal belt of Tanganyika reached a new all-time high of 1,250,000 tons, showing an increase of 2,250,000 tons over the 1949 production of 1,025,000 tons.

America's conservation campaign

THE 1950 United States Agricultural Conservation Program, announced by the United States Government, is a continuation of the soil conservation program which has been in operation since 1935. The program is designed to help farmers and landowners conserve their soil and water resources. It includes a variety of measures, such as soil conservation practices, soil conservation districts, and soil conservation programs. The program is a result of the American Agriculture Department's work, which has been successful in increasing soil conservation practices in the United States.

Britain exports wool fabrics and court gowns to U.S.A.

BY M. SANDERS, writes from London about purpose dresses, modern mannequin measurements, and the young outside figure.

My grandmother's day would find a fustian sound from the novelty wrinkles and creases of today are so sleek and so velvety, although as she says, "I never saw any of them."

There is a demand for the new woolen fabrics, and the American fashion designers are not slow to take advantage of them.

Most modern Englishwomen give their dresses a certain amount of attention, but I wonder how many would follow the example of the French and go into retreat for a week or so to have their hair cut.

Literally peeped by a special hair treatment that removes any hair that hangs to the neck, the hair is cut in a style that is a girl's.

It is not given to all of us to keep our hair in "it" for which we can perhaps thank the prevalence of starch in our diet, and it is when a woman is short that the extra work is so noticeable.

HOW A FOREST IS BEING CREATED OUT OF THE SAND

The story of an amazing piece of reclamation is certain that has been going on for a long time, at a steady pace that will be heard over filters through into the minds of many a desert dweller.

'Thatching' Culin Sands with brushwood. The sand is layered with branches or brushwood to prevent the wind blowing the sand from the roots of the young trees, and on the right are sturdy young pines, each giving the extra protection against the wind and all protective island forms.

Once prosperous

The desert has not stay this way as the result of the sand being blown over the area. It was once a fertile area and the ruins of a civilization can be seen in the area. The sand is now being blown over the area and the ruins are being buried.

Advance of the sands

The advance of the sands is a serious problem in the area. The sand is being blown over the area and the ruins are being buried. The sand is now being blown over the area and the ruins are being buried.

'Thatching'

The 'thatching' of a new forest on sand dunes presented very special problems on the way to the new forest. The sand is being blown over the area and the ruins are being buried.

In the first place they had to find a means of keeping the sands still. This was done by thatching the sand with brushwood. The sand is now being blown over the area and the ruins are being buried.

Another problem was to secure on the spot of the new forest. This was done by thatching the sand with brushwood. The sand is now being blown over the area and the ruins are being buried.

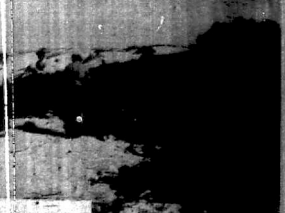

The best trees for the purpose of thatching the sand are those that have a wide spreading canopy and a deep root system. These trees are now being planted in the area.

GEDI—THE HOUSE BY THE PALACE

by J. S. Kirkman

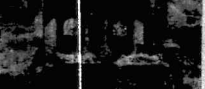

Visitors to Gedi will find a forbidding wall of stone facing the Sultan's Tomb just as they approach the blank wall of the Audience Chamber of the Palace.

Private suite
The private suite of the building are the two open rooms on each side, one facing the Sultan's Tomb and the other facing the Audience Chamber.

Grain stores
The grain stores are situated on the west side of the building, and consist of a large room with a private suite, consisting of an open room and a private suite.

One of the many tombs that are being explored and excavated at Gedi.
This is the only evidence of a tomb in the building, and it is possible that it was intended to be used as a place of burial for the occupants of both quarters.

Mystery solved
The mystery of the building was solved by the discovery of a private suite in the room which was supposed to be a grain store.

WINNING THE WAR AGAINST TROPICAL DISEASES IN AFRICA

by SIR PHILIP MANSON-BAHR, late consulting Physician to the Colonial Office.

IN the tropics increasing war is being waged not only against the diseases which are peculiar to the climate, but also against the whole array of scourges which afflict mankind. These scourges, for example, malarial fevers, are common to all climates. They kill, malarial takes where there is a captain of the fleet.

Favourite haunts
When some fifty years ago the mosquito-transmission of malaria had been proved beyond doubt, its eradication in that time appeared comparatively simple. It is still, in fact, the eradication of mosquitoes wherever malaria was rife, though it is not, as it is often supposed, the only way to its eradication.

Victious flies
When we turn to trypanosomes, or sleeping sickness, there is a striking fact to be noted. It is that the fly which transmits this disease, which lives in the blood and in the tissues of the body, is a very filthy beast. These insects are entirely resistant to the action of D.D.T., an insecticide which has proved to be the most efficient weapon yet discovered.

Successful battles
Throughout the whole of Equatorial Africa, Anopheles gambianus, a common as well as the most dangerous carrier of malaria, flourishes in every collection of water.

FIRST ITALIANS ON WAY TO SOMALIA

Troopships get the signal

COAST SPOKESMAN SAYS: 'NOT THE OLD COLONIALISM!'

With heading east towards Suez is the vanguard of the Italian troops and officials who will enter Somalia from British East Africa from last August, 25, on two troopships on the way.

The troopships had been waiting there for a day or two until the necessary approval was received from Rome for their departure.

This was given when the Italian Senate ratified the Chamber of Deputies' approval of a Government Bill asking for men and money for Somalia, which Italy is to administer under the United Nations 10 years trusteeship.

French flag in Adelle Land

French explorers have hoisted the flag on Adelle Land, 1,700 miles from the nearest French territory in the Pacific.

Adelle Land is a small island in the Pacific Ocean, 1,700 miles from the nearest French territory in the Pacific. It was discovered by the French explorer, Adelle Land, in 1840.

The expedition was led by the French explorer, Adelle Land, who was accompanied by a number of men and a dog.

The expedition was successful in that it discovered a new island in the Pacific Ocean, 1,700 miles from the nearest French territory in the Pacific.

Prize bull sale

SOMALIA IS SORRY THE BRITISH ARE GOING

Nine years of stewardship reviewed

It is the ninth and final year of the British administration in Somalia. The territory of British East Africa will be handed over to the United Nations on the 31st of January, 1950.

The review of the British administration in Somalia is a measure of pride in the progress of the territory during the nine years of British stewardship.

The review is a measure of pride in the progress of the territory during the nine years of British stewardship.

Americans are ignorant about Africa

Now in Nairobi collecting information on East African administration, developments and problems in preparation for a series of lectures in the United States is Dr. Harvey B. Franklin, a professor of public affairs from Long Beach, California.

Dr. Franklin is a member of the American Council on Africa, which is a non-profit organization that promotes a better understanding of Africa among Americans.

Immense potential

It is amazing how ignorant Americans are about Africa, and the object of my visit is to bring the immense potential and rapid development of the continent to the attention of the American people.

The potential of Africa is immense, and it is our duty to bring this potential to the attention of the American people.

On-the-spot production for new wharves

The deep-water wharves at the new port of Mombasa are to be built of great interlocking concrete blocks of standard sizes.

Blockyard to plant on

The control block will be laid down by the contractor in the first week of the work.

More cement

The Mombasa port authority has ordered a further 10,000 tons of cement for the construction of the wharves.

CHIEF GUIDE SAYS 'OMPH' IS NEEDED IN KENYA

She calls for new vigour in the work of the Chief Guide.

OMPH says Lady Edden-Powell, the world's Chief Guide, what is needed to inspire the youth of continuing and improving the work of Guiding in Kenya.

December and several of the other members of the Kenya Girl Guides Association at its headquarters in Nairobi.

She said she was in her position as Chief Guide for the past 10 years and that she had seen the work of Guiding in Kenya grow from a small group of girls to a large organization.

"Bring cheer" she said, and that the girls should be encouraged to take an active part in the work of their organizations.

She also mentioned the importance of the work of the Girl Guides in Kenya, particularly in the areas of education and social service.

Lady Edden-Powell also spoke of the need for more training and education for the girls, and the importance of the work of the Girl Guides in this regard.

She concluded her address by saying that she was proud to be the Chief Guide of Kenya, and that she hoped that the girls would continue to make a difference in the world.

The meeting was held in the presence of many guests, and was a success.

The work of the Girl Guides in Kenya is being carried out in many areas, and is making a significant contribution to the development of the country.

The Girl Guides in Kenya are working hard to improve the lives of the girls, and to make a difference in the world.

Formidable lead in Empire Games

A CHANGE of weather welcomed the crowd which poured into Eden Park, Auckland, to watch the fourth day of the Empire Games. The tropical weather had been considered a possibility.

But a heavy shower which started at 11.30 a.m. did not deter the women's 100 yards and 200 yards races. The women's 100 yards race was won by Marjorie Johnson from Great Britain, who equalled the world record of 15.4 sec. set by Gladys Haddock in 1933 at Dallas, Texas.

Marjorie Johnson, who won the 100 yards race, was followed by Gladys Haddock of New Zealand, who was 1.4 sec. slower. Gladys Haddock's time was 16.8 sec. and she was followed by Betty Cunniff of the United States, who was 1.8 sec. slower.

Time dead-heat
The women's 200 yards race was won by Betty Cunniff of the United States, who was 1.4 sec. slower than Gladys Haddock of New Zealand. Betty Cunniff's time was 35.2 sec. and Gladys Haddock's time was 36.6 sec.

Two yards' lead
Betty Cunniff, Australia's Olympic sprinter, equalled the world record of 16.8 sec. in the 100 yards race. Gladys Haddock of New Zealand was 1.4 sec. slower.

SOMALIS FEEL 'BETRAYED' BY BRITAIN

Youth League blames Britain AND SAYS ITALIANS ARE HOPING TO STAY NOT 10 BUT 100 YEARS

STANDARD'S STAFF REPORTERS announce that the Somali Youth League, which claims to have 10,000 members in the north, has issued a statement in which it accuses Britain of betraying the Somali people and of having allowed Italian troops to remain in the country for 100 years.

The Somali Youth League, which claims to have 10,000 members in the north, has issued a statement in which it accuses Britain of betraying the Somali people and of having allowed Italian troops to remain in the country for 100 years.

It is stated in a statement that the Italian troops should be withdrawn from the country and that the British Government should be held responsible for their presence.

The statement also accuses the British Government of having allowed Italian troops to remain in the country for 100 years.

EIGHT LIONS DASHED OUT

Eight lions on a successful hunt in the Serengeti National Park were dished out to the four-day safari in the Embu district, headed by Mr. J. B. McCallib.

The safari was organized by the Embu Safari Club and was the first of its kind in the area.

Police hunt an alleged killer

A detective, who has had a lead in the case of a man who is alleged to have killed a woman in the area, is hunting for the suspect.

The woman was found dead in a field and the police are trying to identify the man who is believed to be the killer.

Kisumu mail train robbed

Clanking a spate of train robberies in the area, the Kisumu mail train was robbed of a large sum of money and other valuables.

The robbery took place near the station and the police are trying to identify the robbers.

Policy declaration

The Italian Government has declared its policy towards the Somali people and has stated that it is committed to the well-being of the country.

The declaration states that Italy will continue to support the development of the Somali people and will work towards their independence.

The Roads

The Public Works Department has announced that it is planning to build a network of roads in the area to improve transport and trade.

The roads will be built in the most strategic areas and will be completed within a few years.

'Never Forget'

The Italian Government has issued a reminder to the Somali people to never forget the support and assistance that Italy has provided to them.

The reminder states that Italy will continue to be a friend and ally of the Somali people.

NEW HEADQUARTERS FOR KISUMU POLICE

The new Police Station and offices were officially opened on Monday, 5th January by the Attorney-General, Mr. K. R. O'Connor, who was accompanied by Mr. S. L. W. Vincent, and the Senior Superintendent of Police, Messrs. P. Vincent (Mr. Sandhu).

In his speech the Attorney-General gave a brief history of past Police Stations in Kenya. The first, he said, was opened about 1860 and situated behind the present Railway Police Station. The present Police Station, the one about to be vacated, was built by the Public Works Department in 1914. It was designed to house the Kisumu Police Station, but the size of the new building was so great that it was necessary to erect a new building to accommodate the Kisumu Police Station. A PLACE TO SLEEP

WE spend a third of our lives in bed. We are born there and if we are lucky, we die there.

JAMES LAYER, the distinguished expert on historical dress and customs, writes about beds through the ages.

It is even older than humanity for one could not sleep without a bed or at least a place to sleep.

THE drawing-room... I thought and even then they were not used except in the most formal occasions.

The great hall became a very noisy place when the guests were seated round the table.

Conversations on the new baby... Fresh bedrooms in the middle of the sixteenth century.

The lower was very simple furnished and usually had a chair or two, a chest for a chamber and of course a bed.

Back to the 'bower'... YET in the fulness of time this is precisely what has happened.

Once the bed was lowered, it kept the room from being too hot.

Element of surprise... It is strange to realize to the life of the primitive centuries.

It was the custom of the nobles to have a bed in the drawing-room.

Horror in iron... THE late Victorian period brought with it the horror of iron beds.

It was the custom of the nobles to have a bed in the drawing-room.

Rare solitude... A bed of one's own was quite a rare thing.

It was the custom of the nobles to have a bed in the drawing-room.
